THE GREAT BENEFACTOR OF THE HOUSEHOLD!

P. P. STEWART'S FUEL-SAVING AND COMFORT-PRODUCING SUMMER AND WINTER AIR-TIGHT COOKING-STOVE, FOR WOOD OR COAL

Improved in 1859 with New and Extra-Large Flues. The following is a brief summary of the peculiarities of THE STEWART STOVE:

1st. DURABILITY.—It has been in use, in many instances on 15 to 20 years.

4th. It does your work expeditiously and well, and may be regulated at pleasure to produce any temperature required in the kitchen, without interference with the cooking.

patronage of all the friends of public schools. No such school, however well taught, can attain the highest degree of prosperity, from which a considerable number of the wealthier and more respectable families persistently withhold their countenance. Divided patronage, in our small city, and in our comparatively small Districts, cripples and weakens both public and private schools.

We trust that under the present efficient management of the school, we shall see a better state of things, and that the citizens of the District will acknowledge that their true policy lies in giving to this excellent public school an undivided and cordial support.

## DEMOCRATIC STATE CONVENTION.

The Democratic Electors of the several Towns in this State, are requested to choose the usual number of Delegates to attend a State Convention at NEW HAVEN, on

**WEDNESDAY, February 6th, 1861,**

at 10 o'clock, A. M., the object of said Convention being to nominate candidates for Governor, Lieutenant Governor, Treasurer, Secretary of State, and Comptroller; to appoint a State Committee for the year ensuing; and to do such other business as may be deemed proper.

### SHOCKING.

The Tribune has a marvelous set of letter writers, here, there and elsewhere. One of them informs the public that the citizens of Charleston are suffering greatly for the want of coal, and soon will be in distress for the want of flour and other provender. The Charleston coal dealers are probably not aware of the destitution which the Tribune correspondent has discovered in the article of coal—at least, so we conclude, from the fact that they are advertising English coal for sale at a less price than it can be bought in New York, and, as for supplies of American coal, they can be easily had of the miners in North Carolina, at less rates, we presume, than we get them from Pennsylvania. In the matter of flour, there is no danger of any trouble. Heretofore, their supplies of this article have been obtained chiefly in Tennessee—and they can confidently rely upon that State for any quantity they may need—now and in the future. For other provisions, her resources are ample, if not fully equal to those of any other city in the Union. Trouble for the want of articles of either description here referred to is the least of all her people have to fear.

"The Farmer continues to reiterate the stale and exploded falsehood, that the Republicans, in electing Lincoln, are the sole cause of the secession movement in the Gulf States."

This stupid passage was got off Monday in the Standard, by a chap who signs himself "E Pluribus Unum," which, in his case, must mean several blockheads in one. The election of Lincoln is the last of a long series of measures evincing a determination on the part of a majority at the North to do everything in their power, directly and indirectly, to deprive the people of the South of certain acknowledged Constitutional rights in reference to the system of slave-labor which prevails among them—evincing, also, a determination to harrass and annoy them; to disturb their peace; to steal or entice away their slaves by means of underground railroads; to get up insurrections among them; to slander, villify, and abuse them in the public papers, in the pulpit, in State Legislatures, in Congress, in religious conventions, in tract societies, in books, pamphlets, and in periodicals. Witness the nullification laws of ten or fifteen of the Northern States; the denunciatory, and in some cases abusive and slanderous messages of Northern Governors, reports of committees and resolutions; the Helper Republican Text-Book, published as a campaign document, and circulated by thousands and tens of thousands, all over the country, with the endorsement of Seward and sixty-eight Republican members of Congress, together with that of Greeley, Bryant, and other leaders of the Republican party; the villifying speeches of Sumner, Wilson, Hale, Giddings, Chase, Wade, Lovejoy, Tilton, Emerson, and hundreds of others of the same stamp; the vile sermons and lectures of Beecher, Cheever, Phillips, Parker, Wheelock, Newhall, Haven, and others; the scurrilous and defamatory editorials and communications in the Tribune, Evening Post, Independent, Courier and Enquirer, and a thousand others, which, like the Standard, echo and re-echo their defamations. Witness also the secession of the Methodist, Baptist, and Congregational churches of the North from those of the South, and their organization on an anti slavery basis for the avowed purpose of keeping up the crusade, in all its various shapes and forms, against the people of the South; witness the secession of the Beechers, Cheever, Bacon, Cleveland, Hawes, and other clergymen of their stamp from the old American Tract Society, and their organization of an opposing Tract Society at Boston, for the purpose of publishing books and other documents, of a professedly religious character, designed to aid in this war of crimination and vituperation against the people of the South; witness the incorporation of the five million monster, called the Emigrant Aid Society, for the purpose of sending anti-slavery emissaries into all the Territories and States of the Union, and thus carrying the war to the very hearth-stones and homes of the people of the South; finally, witness the organization of the men engaged in these various plots and combinations into a political party in all the States of the North, for the avowed purpose of getting control of the power and patronage of the State and General Governments, and using them to carry on their hostile measures, their "irrepressible conflict" against the people of the South.

Lincoln is the Representative of these men and of the hostile sentiments by which they are actuated. His election by them, as President, is the latest of their series of measures for the subjugation of the people of the South; the crowning act which is to give efficiency to all their various combinations, associations, and organizations for operating offensively against the people of the South; for villifying, denouncing, defaming, harrassing them, through the press, the pulpit, the lecture room, the Ttaor Society, the Emigrant Aid Society, the Legislative Assemblies, the two branches of Congress; for stealing and enticing away their negroes and running them off to Canada; for geting up insurrections among them; for nullifying the laws; for setting aside the decisions of the Supreme Court; for plundering and driving them from the Territories. The South understands its significance as well as Greeley, and his confederates at the North, who are already burning with a desire to use the Army, Navy, and all the power which Lincoln will have in his hands, to crush the people of the South into submission to the series of wrongs and outrages which have thus been systematically perpetrated against them. As the last straw was that which broke the camel's back, so is the election of Lincoln the last of a long series of acts which have brougit about a dissolution of the Union. No one supposes his election is the sole cause of that great calamity. The people of the South make no such pretension. They say it is the *climacteric*, the culminating cause—the last of a series of measures—the tendency of which were clearly seen by Washington and Jefferson, and against which they most solemnly protested. Who can review the series of measures which have led to this awful termination, and honestly say that the Repulican leaders are not responsible?

### WASHINGTON NEWS, &c.

Newspaper letters from Washington say that Col. Hayne, as Commissioner of South Carolina, demands the surrender of Fort Sumpter to the authorities of that State, and announces that this is their ultimatum. In case this proposition is not acceded to, he says it is their purpose to attack and capture the fort if possible. The reply of the President to this demand is not given. Under present instructions, Maj. Anderson will repel any attack that is made upon him, and will be able, probably, to sustain his position against all the force that can be brought to bear upon the fort—at least till he can be relieved by vessels of war. If the fort is attacked, and the assault repelled with her guns, a terrible loss of life must be the result. It is to be hoped that the Carolinians will count well and calmly the cost of such an enterprise before they actually set about it.

A telegram from Washington, last evening, says: "Dispatches received in Southern circles say that Georgia will secede from the Union by Saturday. On the happening of this event, the delegates from South Carolina, Alabama, Florida, Mississippi and Georgia will repair to Milledgeville to institute a Provisional Government and elect a President and Vice-President *pro tempore*, besides providing for a Federal army and other defensive measures.

The conduct of Com. Armstrong in surrendering the Pensacola Navy Yard, is strongly disapproved of by the Administration. For several months the workmen there have not been paid, and have been subsisting on government rations.

Messrs. Washburne, of Wisconsin, and Tappan, of New Hampshire, (Republicans,) of the Committee of Thirty-three, have signed the following as a minority report:—

RESOLVED, That the provision of the Constitution are ample for the preservation of the Union, and the protection of all the material interests of the country; that it needs to be obeyed rather than amended, and that our extrication from our present difficulties is to be looked for in efforts to preserve and protect the public property, and enforce the laws rather than in new guarantees for particular interests or compromises, or concessions to unreasonable demands.

This does not indicate much disposition to conciliate. Wisconsin repudiates the fugitive slave clause in the Constitution, and the equality of the States in the Territories of the Union.

☞ The annual review of the business of Chicago in the Press of that city, shows that the total receipts of flour and grain during the past year,—the flour being reduced to grain—amount to 36,504,772 bushels. The grain alone foots up 33,004,742 bushels, which is more than double their receipts of 1859, and ten millions more than was ever received in that city in any previous year of its history. The shipments during the past year amount to 31,459,697 bushels,—the flour being reduced to grain—of which 27,890,002 bushels were of grain alone.

☞ The counsel in the Adams' Express robbery trial finished their arguments this noon, and the case will go to the Jury this afternoon. There is much speculation as to the verdict, the counsel on both sides having made able and powerful arguments.

### MATTERS SOUTH.

South Carolina, Florida, Alabama and Mississippi have declared themselves out of the Union. Georgia holds her Convention to-day; Louisiana on the 23d inst.; Texas on the 28th; Tennessee (if the vote of the House should be concurred in by the Senate) on the 18th of February—delegates to be elected on the 9th. Should the Convention resolve to withdraw from the Union, its action is to be submitted to the people for ratification or rejection.

The Louisville (Ky.) Courier of January 15th, published a letter of Col. Blanton Duncan, Secretary of the late Union Convention, opposing coercion and favoring a Confederacy of the whole slaveholding States.

The North Carolina Senate was engaged all day Tuesday on the bill providing for the calling of a State Convention. There was considerable debate on the details. No vote was taken on the bill, and there are no indications as to how it will result.

The House was considering nearly all day the coercion resolution. There was no split on the details. Many speeches were made and various amendments offered to the resolution, but no vote was taken on it. All the members are against coercion, but some are against the right of secession. There was some excitement in the debates.

A despatch from Milledgeville, Ga., January 15, says, a large number of delegates to the State Convention arrived here to-day. An unusual number of visitors are also here, including a number of the ablest leading men in the State. Ex-Speaker Orr, Commissioner from South Carolina, has also arrived here.

In the Virginia Senate, January 15, Mr. Neal offered the following joint preamble and resolution:

WHEREAS, The sending of re-inforcements into the forts and arsenals of Virginia has caused uneasiness and is a source of disquietude to the citizens of the commonwealth, therefore

RESOLVED, That the President of the United States be respectfully requested to inform the Governor of Virginia of the object of the government in sending increased forces into the forts and arsenals of this State, and that whether, in his opinion, the object of the erection of said strongholds, the defence of the property of Virginia is likely to be realized by doing so. Laid over.

Mr. Patterson offered a joint resolution in the House to appoint Hon. R. M. T. Hunter, John J. Allen, Wm. C. Rives, and George W. Summers, Commissioners to correspond with the governments of all the States, to ascertain on what terms, if any, the present Union can be preserved, and if it cannot then upon what terms and with what States a new confederacy can be formed which will secure the people of Virginia in the full enjoyment of their rights, and report the result to the State Convention. Referred to the Committee on Federal Relations.

The Commissioners from Alabama addressed the members of the Legislature, and their remarks were well received.

E. A. PARROTT, Registrar.

☞ When a portion of Senator Dixon's conservative speech was received by telegraph, the Republican papers in Connnecticut claimed that it was "imperfectly reported." The speech as revised by Mr. Dixon himself, has been published in the Congressional Globe—the official organ for reporting the debates of Congress—and it is stronger for compromise than the telegraph stated.—Union speeches like Dixon's don't appear to agree with the digestive organs of Abolitionists of the Standard man's stamp.

☞ When the Republican party became organized, and its anti-slavery ideas developed, the remark was made, that it appeared to be as bitterly hostile to the South, as ever any one Nation was hostile to another with which it was at war. Recent developments have proved that the remark was not wholly unjust. The eagerness with which the Republicans propose to make war upon the South show how intense their hostility is.

☞ A railroad conductor having been asked how politics were going on replied—"I havn't been to Church for four Sundays, and I don't know."

### FOREIGN NEWS.

The steamship Bremen, from Southampton on the 1st inst., arrived at New York yesterday, bringing two days later intelligence.

In compliance with the remonstrances of France and England, Count Teleki, recently arrested, has been released by the Emperor of Austria.

Advices from Gaeta state that the bombardment continues day and night, and is conducted with such fury that the shells reach remote parts of the city. Some of the inhabitants had been killed. The French fleet has not yet left, though rumors to the contrary effect have been circulated.

On the 1st inst., the Bank of England raised its rate of discount from five to six per cent.

### STATE ITEMS.

In Portland, on Sunday afternoon, Mr. Ebenezer White, one of the most prominent influential and respected citizens of the place, while in a society meeting in the Rev. Mr. Talcott's (Cong.) Church, suddenly came to his death. He was about to make some remarks to the meeting, and just as he was uttering the first word, he suddenly gasped and fell forward—and was taken up dead. Mr. White was Town Clerk of Portland, holding his office through the confidence of all political parties.

On Monday night two persons were quarreling in James McCormick's rum shop in Hartford, when McCormick took down a loaded gun for the purpose of driving them out. John Moran, another party present, took hold of the gun and tried to take it away, when it was fired off, the contents entering Moran's bowels, producing a frightful wound, from the effects of which he died at about eleven o'clock. McCormick claimed that the shot was accidental.

### CONGRESS

On Tuesday, in the Senate several memorials were presented praying for the passage of the Crittenden resolutions. These resolutions were subsequently taken up, and, after some debate, further consideration was postponed. The Pacific Railroad bill was discussed by Senators Clark, Green, Wilson, Ten Eyck and others. Mr. Crittenden made another effort to bring forward his resolutions. Several amendments to the Pacific bill were offered, pending which the Senate adjourned. In the House, the Committee of the Whole took up the Army bill, and Mr. Regan of Texas made a secession speech, and a debate ensued, in which Messrs. McClernand, Stanton, Crawford, Hill, Love and Rust participated. Mr. Adrain made a reply to Mr. Stanton, stating that the doctrine of peaceful secession was utterly fallacious. Mr. Anderson of Mo., concluded the discussion; the Committee rose and the House adjourned.

### TO LADIES.

However useful, as the guardian of health, the preventive of ills in general, which CHARLES' LONDON CORDIAL GIN has proved to be to man, it is to the female portion of the community that its many virtues more directly address themselves. Woman, from the cradle to the grave, will find when once tested, an indispensable companion in this superlative Cordial. Its use will render those irregularities which at times afflict the sex, almost an impossibility; and two tablespoonfuls in a wine-glass of warm water, taken at the commencement of periodical sickness, will dispel entirely those pains which frequently attend the efforts of nature.

BURRILL'S TURKISH LINIMENT.

The recipe for making this celebrated Liniment was obtained by a gentleman while visiting the Turkish Empire a few years since. While there he witnessed its use upon horses, and so remarkable were the cures, he concluded to purchase the recipe for making it for his own use if nothing more. After returning to this country, he made some and tried it in several cases of swellings, cuts, burns, bruises, etc. and found it to cure more speedily than any article ever discovered. Becoming acquainted with the gentleman, I purchased the recipe and have made and used it with great success, and found one-half had never been told of its intrinsic value. For Rheumatism, Sprains, Chilblains, Pains in the Back or Chest, Cramps, Swelled Face, Sore Throat, Neuralgia, Toothache, or Swellings of every kind—it is warranted to cure. For horses, Sprained, Chafed, Wind Galled, Cracked Heels, Chest Foundered, etc. it is the most valuable medicine in vogue. A large number of certificates could be given if necessary, but one trial will satisfy the most skeptical. Proclamation of the People.

*Fellow Citizens of Connecticut generally and Ladies and Gentlemen of Bridgeport in particular:*—Another encroachment of slavery has been made upon the North, even this good old State of Connecticut. Southerners of the most Southern kind are running off barrels and barrels of Wallace's Crackers periodically. Nearly every mail brings orders for Wallace's Crackers, to be distributed to Southern people, thereby threatening to starve us out. We can endure this no longer, and therefore we do firmly declare to the United States and New Jersey that hereafter, we, the people of Connecticut, intend to maintain our rights and buy up all Wallace's Bread, Cake and Crackers as fast as manufactured, in defiance of the General Government or any one else. THE PEOPLE.

Call and look at those beautiful Cakes the Prince of Wales admired so much when he was here, which Wallace has on exhibition and for sale for Weddings, Parties, &c. One look at the many good things always on hand and for sale at Wallace's will give your face a delightful expression to sit for one of Rodgers' superior Ambrotypes.

HUMPHREYS' SPECIFIC HOMEOPATHIC REMEDIES FOR THE PEOPLE

The Remedies are carefully prepared under the direct pervision and inspection of Prof. HUMPHREYS, in order to meet that great and long realized want of the public, namely, remedies for all the more common and simple ailments of life. A moment's reflection will show that a vast majority of diseases from which we suffer and die, were, at their commencement, simple and trifling. A mere cold, a slight diarrhœa, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, a fever, a dangerous dysentery, Croup or other disease, which all the powers of medicine fail to arrest. Herein these remedies supply a great public want. Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed. Experience has amply confirmed the use of these remedies for families and private persons, as being the best in use, the most simple and convenient, the most prompt and reliable. Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and among our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers.

**HOW FONDLY WE DREAM.**

BY FRANK L. W.

How fondly we dream of pleasures gone by,
And dwell on the joys that are fled;
When our hopes were bright and our hearts were light,
As the sky o'er our youthful head.
What a pleasure we feel, when the soul is sad,
And our hearts are bitterly wrung,
As we turn our gaze to those by-gone days
When care to the winds we flung.
How fondly we dream of pleasures gone by,
And dwell on those halcyon hours,
When our hearts were young, and our paths seemed strewn
With garlands of sweet-scented flowers.
Our "castles in air" have faded and gone;
Life's morning was clouded ere noon;
And the hopes which fed my joys—are dead,
And withered in sadness and gloom.
How fondly we dream of pleasures gone by,
And talk of the years agone,
When we fancied a gleam of golden sheen
Was over our life-long thrown.
Ah! little we knew of the cold world then,
Nor dreamed that the future—so bright,
Would bring an alloy to our former joy,—
Change our day to the darkest night!
How fondly we dream of pleasures gone by,
And mourn o'er the joys that are fled!
The present is fair, with flowers as rare,
As those in our youthful morn spread.
Then live for the present; time speeding along,
Takes the roses and thorns both together;
A truce to the past, and the joys that are lost,
Let us dream of them no more forever!

EUROPEAN MEDICAL INSTITUTE
DR. SANSOM,
(FROM PARIS)
NO. 704 BROADWAY,
ABOVE 4TH STREET,
NEW YORK.

The necessity of giving to the public of the United States, a rational and not expensive treatment in all Diseases of a chronic, especially of a secret character, has induced Dr. Sansom (for several years known in New York as the most successful practitioner in that class of affections) to extend his sojourn in New York for another year. He may therefore be consulted at his convenient location, 704 BROADWAY.

Debility from excesses or Self-Abuse, the best remedy known in Europe.

All his French and Spanish Remedies for Affections of Ladies and Gentlemen will be sent with a circular containing secrets of importance, known to a few French physicians only.

At his Institute there are eight rooms provided for the reception of Ladies and Gentlemen, so that the strictest privacy is observed.

He is under the necessity of notifying the public that he has not the slightest connection with his old office, at 512 Broadway, and that an impostor is copying verbatim his advertisement.

The Doctor's new place is 704 Broadway, above Fourth Street, and nearly opposite the New York Hotel, where he can be consulted in English, German, Italian, French, or Spanish. Letters should be addressed to Box 3576, P. O., New York. july 18 1yd&52w63

CANCER CURED WITHOUT PAIN AND WITHOUT THE USE OF THE KNIFE.—I have devoted many years of time and close investigation to the cure of Cancers, and have at last an unmistakable remedy for this most distressing and dangerous form of Scrofula. So successful have I been in my mode of treatment, and so certain am I of my ability to do what I promise, that in all cases where I undertake a cure, I do not hesitate to warrant that it shall be effected.

REMEMBER THAT YOUR CANCERS CAN BE CURED, AND THAT I CAN CURE YOU.

DR. BABCOCK is the original Cancer Doctor of New England, and the only one who removes Cancers without pain.—All others are but imitators, induced by his success to profess themselves Cancer Doctors. Plenty of references to those who have been cured can be seen at my office.

Orders from abroad promptly attended to. A fee of $1 must accompany each order, or no notice will be taken of it.

White Swellings, Hip Diseases, Birth Marks, Scrofulous and Malignant Ulcers, Diseases of the Mouth and Throat, Ulceration of the Bones, Tetter, Scald Head, and all Diseases of the Skin, PERMANENTLY CURED.

TO WHOM IT MAY CONCERN.—About two years ago, a spot made its appearance upon my nose, which, though at first I thought little of it, soon proved to be that dreaded disease, called Cancer. Dreading to have it CUT out, and also having little confidence in the knife treatment, it had been growing from ONE AND A HALF to two years, when seeing the advertisement of DR. N. BABCOCK, of this city, and also hearing him spoken of as being skillful in the removal of Cancers by means of plasters, and that, too, without pain, I put myself under his care, and in a few days learned by experience the entire truth of what had been said of him. The Cancer came out, and the wound quickly healed over without disfiguring my face. I am free to say, that the operation was entirely satisfactory, and that I feel myself entirely cured. I most cheerfully certify to the knowledge and skill of Dr. Babcock, in the treatment of my Cancers, and do recommend him to all such as may be afflicted with this dreadful disease.

New Haven, March, 1860. SAMUEL BROWN.

Terms regulated according to circumstances in life. Orders from abroad promptly attended to. A fee of $1 must accompany each order, or no notice will be taken of it.

MARRIAGE—Its loves and hates, sorrows and angers, hopes and fears, errors and joys, are fully explained in the MARRIAGE GUIDE by WILLIAM YOUNG, M. D. This most extraordinary work should be in the hands of every young person contemplating marriage. Every pain, disease and ache, incidental to married life, is fully explained; every particle of knowledge that should be known is here given. It is full of plates. In fact, it discloses secrets that every one should know; still it is a book that must be locked up, and not lie about the house. It will be sent to any one on the receipt of twenty-five cents, in specie or postage stamps. Address DR. WM. YOUNG, No. 416 SPRUCE Street, above Fourth, Philadelphia. AFFLICTED AND UNFORTUNATE, no matter what may be your disease, before you place yourself under the care of any one of the notorious *Quack* native or foreign—who advertise in this or any other paper, get a copy of Dr. Young's book, and *read it carefully.* It will be the means of saving you many a dollar, your health, and possibly your life. ARTICLES OF EVERY-DAY USE.

B. T. BABBITT'S PURE MEDICINAL YEAST.

68 AND 70

Manufactured from common Salt and Pure Cream Tartar. When used in Bread, Cake or Biscuit, it turns to gas, (like that from a bottle of Soda Water,) and remains dormant in the dough until it is set in the oven, when the heat causes the gas to escape through the dough while baking. The Bread, Cake, or Biscuit is not only very light, but perfectly wholesome. Where this Yeast is used you will require about one-quarter the amount of shortening used with ordinary Yeast. It may also be used for Buckwheat Cakes, Johnny Cakes, and all kinds of Pastry. This Yeast is put up only in one pound cans, with checkered label. *Red, White and Blue—no other is Genuine—beware of imitations.*

B. T. BABBITT'S PURE CONCENTRATED POTASH,

68 AND 70

Warranted double the strength of common Potash and superior to any Saponifier in market, put up in cans of 1 lb., 2 lbs., 3 lbs., 6 lbs., and 12 lbs., with full directions for making Hard and Soft Soap. One pound will make fifteen gallons of Soft Soap. No lime is required. Consumers will find this the cheapest Potash in market.

B. T. BABBITT'S MEDICINAL SALERATUS,

68 AND 70

A perfectly pure and wholesome article, free from all deleterious matter, so prepared that as the circular accompanying the Saleratus will show, nothing remains in the bread when baked, but common Salt, Water, and Flour.—Put up neatly in papers, 1 lb., ½ lb., and ¼ lb.

B. B. BABBITT'S CONCENTRATED SOFT SOAP.

68 AND 70

One box costing One Dollar will make 40 gallons of handsome Soft Soap by simply adding boiling water.

B. T. BABBITT'S SOAP FOR FAMILY USE.

68 AND 70

One pound of this Soap is equal to three pounds of ordinary Family Soap. One pound will make 3 gallons of handsome Soft Soap.—It will not dissolve in cold water, and stands all kinds. It will not injure the fabric; on the contrary, it preserves it. It will wash in hard or salt water. But little labor is required where this Soap is used. Machinists and Printers will find this Soap superior to anything in market. If your Storekeeper does not keep the above goods, send $5 by mail and I will send a package of either article or an assorted box containing a part of each, postage free, to any place you may direct. Send the name of your Post-office, also, the State and County in which you reside with directions for shipping. Address

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR.

Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhilarating, and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of diseases. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted *as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor human life is constantly liable. Such, for example, as the following:—Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypocondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called *Female Weaknesses and Irregularities.*—Also, Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidneys, Scalding or Incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Back, Side, and between the Shoulders, Habitual Disposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks arising from Miasmatic Influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the billiary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating.—As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again, the Cordial is a perfect Mother's Relief. Taken a month or two before the final trial she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this Cordial is all we claim it to be. Mothers, try it!* And to you we appeal to detect the illness or decline not only of your daughters before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother! always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O. J. WOOD, Proprietor, 444 Broadwey, New York, and 114 Market street, St. Louis, Mo., and sold by all good Druggists. Price One Dollar per Bottle. For sale in Bridgeport by W. J. & R.
