

██████████

Dear ██████████ Malloy,

My name is Annabella. I am in 5th grade and we are studying United States Geography. My grade is having a competition to see which class can collect the most postcards. There is also a prize for getting at least one postcard from 50 states.

That is why I have sent you this letter. I am hoping that you would be willing to send me a postcard from your state. If you are able to send the postcard please address it to:

██████████
██████████
██████████

Thank you in advance,

Annabella
