

Dear Governor,

I have been blessed with an extremely gifted child. My [redacted] year old son, [redacted] is absolutely obsessed with the [redacted] [redacted] and devotes most of his energy into learning about them. Over the past couple of months he has taught himself every state and capital. He knows them by name, shape, location, size, etc. When we go to the [redacted] he only wants to get non-fiction books about [redacted] (we have officially read them all).

It would mean the world to him if you could send him something from your state. It could literally be anything that has your state's name or shape on it.

Thank you so much in advance!

Sincerely,

[redacted]
