WHEELER & WILSON SEWING MA-We clip the following communication from the columns of the Hartford Times. We commend it to the attention of every "head

It is now over a year since I purchased one of these machines. My family were prejudiced against sewing machines. They did not like the kind of stitch they made declared that the seams would be unravelled at a single touch—that the instrument would get out of order, and that there would be no conomy in it. But, said I, do these objections apply to Wheeler & Wilson's ma-chines? Do not your objections run against the many other kinds that are so urgently pressed upon the public? They were not certain; but kept on sewing—sewing—sewing, "from dawn till late at night." This everlasting sewing annoyed me. It absorbed nearly all of the time of the female portion of the family. I remonstrated; but they declared that in every family it was necessary to sew and sew, hour by hour, day by day, week by week, and year by year. But, said I. is this work never to end? Is there no relief from this confining, ceaseless work; which bends the body, and fixes the mind continually upon endless seams? And the ladies smiled. We shall never be relieved

from this burden of sewing, said they.

I made no reply; but in my own mind at once decided that if possible I would have less sewing and more reading, more riding, more walking in the healthful open air, more recreation for the ladies. Careful inquiry led me to purchase one of Wheeler & Wil-son's machines. It was sent home, and the instruction of an experienced hand was fur-nished by the agents for two hours at a time, on two or three occasions. 'The maand its "click!" "click!" was really pleas-ant, as an entire sheet would run through it how handy this is!" said my wife; "how beautifully it works." But the seam? said

I. "O. that is as smooth on both sides as I could make it with my needle; and it is handsomer, for it is precisely even." Well, then, about that fault of unravelling, which you feared? "There is nothing in it," said she. "I can hardly pull out the stitches, they are so nicely interlocked." But what is the objection to the machine? "Nothing—it works beautifully"—and away it went, throwing off a pile of work in a few minutes. A little experience on the coarser-work and then came the dresses, silk, or worsted or cotton-it made no difference. eedle, the thread, and the tension needle, the thread, and the tension, were easily adjusted to the work in hand, and three women might cut and baste with all their night, the machine would sew up all their work faster than they could prepare it-and

so beautifully, too! And the everlasting burden of "sewing" bas vanished from my dwelling. It annoys me no longer. The ladies merely "amuse" themselves with that business now. Half an nour or an hour once or twice a week turns it all off. It does more : it makes many comfortable dresses, and finishes other work, for the poor of the neighborhood; and it is done so speedily and quietly that the left hand knoweth not what the right hand coeth. What a relief! aye, what a blessing! My sewing machine has more than paid for itself

the past year.

There is rest in the household now!—and recreation, and better health, and more enjoyment. There is a moral power in those machines; a healthful influence—and each of its "clicks" carries joy and cheerfulness to the wife and daughter of the family circle, where sewing is always demanded. Here's a health, then, to Wheeler & Wilson, and The subscribers having taken the store No. 20

FEARFUL ADVENTURE WITH A LION.—
The Independent of Constantina, Algeria, publishes the following account of a perious adventure with a lion: The well known hunter. Chassaing, residing at Constantina, left that town lately with a friend, Captain to St. Marc, for a few days' sport in the mountains, When near the top of the Bou-Arif, he encountered a huge lior, and ledged two balls in its shoulder, but the wounded animal escaped into the wood, rearing with prin and fury. On the following day, M. Chassaing and his friend traced the lion to an extensive thicket, and while the former was searching among the bushes the lion suddealy sprang on him, threw him down, seized his arm—the bone of which was instantly broken-between his powerful jaws, and was dragging the unfortunate hunter into the woods, when at that critical nt Capt. de St. Marc came up, and, after discharging his rifle at the lion, finished him with one of Chasat the lion, finished him with one of Chassaing's pistols. While in the lion's fearful grip, Chassaing never lost his presence of mind but, struggling with his antagonist to prevent him from springing on the captain, whose ammunition was exhausted, he cried out to the latter to approach and take the pistols from his belt, which were still charged. After dispatching the lion, the captain dressed his friend's wound as well as he could, and they then returned to Constanting to obtain they then returned to Constantina to obt

WASHINGTON NEWS, &c. From Washington we learn that the

was very quiet yesterday. It is stated that President Buchanan has refused to inform any one in regard to the destination of the troops on the steamers Brooklyn.

It is said that Mr. Adams' plan for adjust nent of the existing troubles seems to be gaining friends, and the friends of the Union are in hopes that means will be speedily adopted to heal the present difficulties.

The President, it is thought, will send the Virginia resolutions to Congress, in which he will refer to the mission of ex-President Tyler, stating that he can, as President make no arrangements in regard to the future, and leave the whole matter in their hands.

Reliable information has been received in Washington from Harrisburg that the Crittenden-Bigler proposition will pass the Legislature of Pennsylvania.

Conservative men think the agitation of the Tariff question at the present time will increase existing difficulties.

Cassius M. Clay is still hard at work Washington endeavoring to bring about some compromise. In a speech he favored Mr. Adam's proposition, that the territory South of thirty-six degrees thirty minutes, where slavery now existed by local law, should be admitted as a State, to be slave or free as the people may decide, and thought the present the proper time for the Republicans to do something toward the pacification of the coun-

The Louisiana Convention on Saturday passed the ordinance declaring that State a free and sovereign republic by a vote of 113 yeas to 17 nays. A resolution declaring the right of free navigation of the Mississippi river and tributaries to all friendly States was passed. The resolution to submit the ordinance to the people was defeated.

The Alabama State Convention has ad ourned to March 4.

Advices from St. Louis announce that the conservative men will have a majority in the Missouri State Convention.

The returns thus far received from Texas indicate an overwhelming majority for immediate secession.

Kentucky and North Carolina will send Commissioners to the meeting in Washington Feb. 4.

It is stated that a party of Louisiana State troops under command of Capt. Bradford, have taken possession of the United States Marine Hospital about two miles below New Orleans, and have removed the inmates.

A GOOD MOVE.

It is understood that the Legislature o Virginia hes authorized the Governor to address an invitation to the Executive of every State to appoint four Commissioners to mee the same number from Virginia, in Washington, on the 4th of February. This may be the turning point in the affairs of the Union. Patriotic old Virginia is trying to stem the newspaper correspondent, were cut off by it from destroying the skin. BALLOT BEFORE BULLET. The New York Express,in speaking of the efforts of the radical Republicans to defeat every compromise measure, says :

See from Albany and from Washington, there is little or no hope from the mere miserable Politicians there. The People ask for the Ballot, the Republicans profiering only the Bullet! Pour into Washington and into Albany, then, petitions for "Crittenden,"—with reference to the People, as the Pennsylvania Senators propose. Virginia and Pennsylvania—the "Old Dominion" and the "Key Stone"—will march arm in arm, in all this, Ballot is our watchword; Bullet is the Republican watchword. Men of the North, choose ye between them. The Ballot is American Civilization; the Bullet is Barbarism.

This is the right talk. Let us have the ballot before the bullet." Matters can be settled peaceably and fairly if the Republicans in Congress will only act like patriots and reasonable men.

The weddings, merry-makings, and feastings among the "sables" during the past holidays formed a strange contrast to the quiet and somewhat anxious demeanor of their masters.

We hear that O. S. Ferry, the man who misrepresents in Congress the wishes of nine-tenths of the voters of his district, is endeavoring to get the more conservative Republicans to stand by him in the sectional position he has taken. He will need more logic than he is possessed of to make national men believe that he is not an Abolitionist of the darkest hue.

The third mate of the whale ship Mary Ann, of Fairhaven, Mass., had a narrow escape from death while in pursuit of a whale a short time ago. The whale struck the boat and threw him right across the monster's mouth, so that both legs were in its mouth and then went down with him. Fortunately the whale soon came up so the man could breathe-in the mean time he had extricated one of his legs-but the whale immediately went down again, carrying Mr. Sherman down the second time. Mr. Sherman thought of his sheath knife, which he had, and used it in the whale's under jaw causing it to let go its hold when Mr. Sherman arose to the surface of the water, about a ship's length from the boat and he was rescued, nearly exhausted, by seizing him by the hair of the head as he was sinking.
