FIRST BATTLE OF THE REVOLU-TION.

The following description of the battle of Lexington is from the seventh volume of Bancroft's History of the United States:— On the afternoon of the 18th of April, the day on which the Provincial Congress of Massachusetts adjourned, General Gage took the light-infantry and grenadiers off duty, and secretly prepared an expedition to destroy the colony's stores, at Concord. But the attempt had for several days been expected; a strict watch had been kept; and signals were connected to announce the first movements of troops for the country. Samuel Adams and Hancock, who had not yet left Lexington for Philadelphia, received a timely message from Warren, and, in consequence, the Committee of Safety removed a part of the public stores and secreted the

cannon. On Tuesday, the 18th, ten or more sergeants in disguise dispersed themselves through Cambridge and farther west, to interrupt all communication. In the following night the grenadiers and light infantry, not less than eight hundred in number, the flower of the army at Boston, commanded by the incompetent Lieutenant Colonel Smith, from the foot of the Common to East Cambridge. There they received bridge. There they received a day's provis-ions, and, near midnight, after wading wet marshes, that are now covered by a stately town, they took the road through West

Cambridge to Concord. "They will miss their aim," said one of the party who observed their departure. "What aim?" asked Lord Percy, who overheard the remark. "Why, the cannon at Concord," was the answer. Percy hastened to Gage, who instantly directed that no one should be suffered to leave the town. But Warren had already, at ten o'clock, despatched William Dawes through Rexbury to Lexington, and at the same time desired Paul Revere to set off by the way of Charlestown. Revere stopped only to engage a friend to raise the concerted signals, and, five minutes before the sentinels got orders to prevent it, two friends rowed him past the Somerset man-of-war across Charles river. All was still as suited the hour. The ship was winding with the young flood; the waning moon just peered above the horizon; while from a couple of lanterns in the tower of the North Church, the beacon streamed to the neighboring town, as fast as light could travel. little beyond Charlestown Neck, Revere was intercepted by two British officers on horseback, but being himself well mounted, he turned suddenly, and leading one of them into a clay pond, he escaped from the other by the road to Medford. As he passed on, he waked the Captain of the Minute Men of that town, and continued to rouse almost every house on the way to Lexington. The troops had not advanced far, when the firing of guns and the ringing of bells announced that their expedition had been heralded before them; and Smith sent back to demand

a reinforcement. On the morning of the 19th of April, between the hours of twelve and one, the message of Warren reached Adams and Hancock, who divined at once the object of the expedition. Revere, therefore, and Dawes, joined by Samuel Prescott, "a high son of liberty" from Concord, rode forward, calling up the inhabitants as they passed along, till in Lincoln they fell apon a party of British officers. Revere and Dawes were seized and

their town hall. They came forth, old and young, with their firelocks ready to make good the resolute words of their town debate. Among the most alert was William Emerson, the minister, with gun in hand, his powder horn and pouch for balls slung over his shoulder. By his sermons and prayers, he had so hallowed the enthusiasm of his flock, that they held the defense of their liberties a part of the covenant with God; his presence with arms proved his sincerity and strength-ened their sense of duty. From daybreak to sunrise the summons ran from house to house through Acton. Express messengers and

volleys from minute men spread the alarm. Lexington, in 1775, may have had 700 inhabitants, forming one parish, and having for their minister the learned and fervid James Clark, the bold inditer of patriotic papers that may yet be read on their town records. In December, 1772, they had instructed their representatives to demand a radical redress for their grievances, for "not through their neglect should they be enslaved." A year later they spurned the use of tea. In 1774, at various town meetings, they voted to increase their stock of ammunition, "to encourage military discipline, and to put themselves in a posture of defense against their enemies." In December they distributed to "the train band and alarm list arms and ammunition," and resolved to supply the training soldiers with bayonets.

At two in the morning, under the eyes of the minister, and of Hancock and Adams, Lexington Common was alive with the minute men ; and not with them only, but with many old men also, who were exempt, except in immediate danger to the town. The roll was called, and out of militia and alarm men, about one hundred answered to their names. The captain, John Parker, ordered every one to load with powder and ball, but to take care not to be first to fire. Measengers sen to look out for the British regulars reported that there were not signs of their appro A watch was therefore set, and the company dismissed with orders to come together at dismissed with orders to come toge the beat of the drum. Less than seventy—perhaps less than sixty—obeyed the —perhaps less than sixty—obeyed the summons, and in sight of half as many unarmed men, were paraded in two ranks a few rods north of the meeting house.

The British van, hearing the drum and the alarm guns, halted to load; the remaining companies came up and halted to load; and at half an hour before sunrise the advance party hurried forward in double quick time, almost upon a run, closely followed by a grenadiers. Pitcairn rode in front, and which within five or six rods of the minute me oried out: "Disperse ye villain.

In the disparity of numbers, the Common was a field of murder, not of battle ; Parker therefore ordered his men to disperse. Then and not till then, did a few of them, on their random shots of fugitive or dying men did no harm, except that Pitcairn's horse was perhaps grazed and a private of the tenth light at 10 o'clock, A. Seven of the men of Lexington were killed: nine wounded-a quarter part of those who stood in arms on the green, These are the village heroes who were more than of noble blood proving by their spirit that they were testimony to the rights of mankind, bequeathing to their country an assurance of success in the mighty struggle which they had begun. Their names are held in grateful remembrance, and the expanding millions of their countrymen renew and multiply their praise from generation to generation. They fulfilled their duty not from accidental impulse of the moment; their action was the slowly ripened fruit of Providence and of time.

Heedless of his own danger, Samuel Adams, with the voice of a prophet, exclaimed, when he heard of the resistance at Lexington, "Oh what a glorious morning is this!" for thus he saw that this country's independence was hastening rapidly on, and like Columbus in the tempest, knew that the storm did but bear him more swiftly to the undiscovered

DEMOCRATIC MEETING IN HART-FORD.

There was a large and enthusiastic meeting of the Democrats of Hartford, on Thursday evening, to appoint delegates to the different Conventions. Conservative men of other parties were present and took part in of a race divine. They gave their lives in the proceedings. All past differences were forgotten and settled, and the universal sentiment of the meeting was to consider duty to our country and the Union paramount to everything else. Hon. Wm. W. Eaton addressed the meeting in an effective and eloquent speech.

The following resolutions were unanimous-

RESOLVED. That the Democracy of Hartford in public neeting assembled, declare,

1. That the state of the country requires conciliation the part of the Executive and Leg slative departments

of the confederacy.

2. That in all our past history, the fathers of our Re public and the great minds who have guided the Nation to power and prosperity, have uniformly been the advo-cates of compromise between conflicting interests in the family of States; and that at this time, to a peculiar degree, does the welfare of thirty millions of people demand that the wholesome example of those able statesmen should be followed.

should be followed.

3. That the country needs repose from the disturbing and disastrous slavery issue; the tens of thousands of laborers now out of employment, call for peace and repose in our borders; the capitalists, the business men, and the quiet of the domestic fireside, require it; and we invite all conservativo men to unite with us upon this overshadowing question of union and peace to the ccuntry.

RESOLVED, That we most earnestly request the present
Congress to adopt, without delay, the Crittenden or Border State Compromise, or some measure of equal potency
in settling the slavery agitation, and relieving the country
from the calamities which follow in its track.
RESOLVED, That standing here for the Constitution and
the Union; the Equality of the States; the justice of conciliation to and regard for all sections of our common
country; and overlooking, for the time, past and settled
issues, we shall most gladly join hands with all lovers of
the Union and friends of peace in the family of States, to

On the Proposed Southern Confederacy. The London Times, of the 18th of January, has an elaborate article on the secession call from the first Presbyterian Church, Buf- graph to Liverpool for the steamer Bohemia, then about to leave for New York. It is commented on in New York as indicating a marked change in the tone of that paper worthy of consideration:

Such an event—that is, the secession of the Border States with the Cotton States—would make the Southern Federation the real United States, as far as territory present and perspective is concerned, and reduce the North to what our ancestors would have called a "Rump." The people of Boston or Philadelphia might be distinguished for their ability and enterprise, but they would belong to a country with hardly a greater future than Canada. Every natural advantage would be on the side of the Slave States. " " All the riches of the new world would be in the grasp of these Southerners, etc.

A grand Union Mass meeting was held at Charlestown, Mass., Feb. 2. It was very enthusiastic, and several patriotic resolutions were adopted. Among them were the fol

RESOLVED, That this meeting concurs most heartily in the sentiment of the distinguished Republican leader and premier of the incoming Administration, William H. THE ADAMS PROPOSITION.—This proposes to furnish a constitutional guaranty that the Federal Government will never hereafter interfere with slavery in the States, and to pass a legislative act allowing all territory south of 36 deg. 30 min. from sea to sea, to come in as a State, with or without slavery, as the people may choose.

THE BORDER STATE PROPOSITION.—This is to prohibit slavery north of 36 deg. 30 min. from sea to sea, and below that line to stipulate that neither Congress nor the Territorial authorities shall ever introduce or exclude slavery, but leave it to fight its own battle, the feeling of the people who may inhabit the territory, and the convenience of settlement for slaveholders or non-slaveholders, ultimately determining the character of its social institutions. A large which will come up for consideration before hole to be cut in the center of the ice, and all the snow lying upon the surface to be shoveled into that hole, which, when it came in contact with the water under the ice, would be converted into water, flow back through the hole, and so flood the Lake. This suggestion was loudly cheered. During this burst of enthusiasm, Mr. Tiredout assumed a perpendicular "posish," and cooled the ardor of the audience somewhat by the following remarks: "I have no suggestions to make, not a "suggest;" but would like to ask "Whar's Barnum and them seats?"

He then sat down, while those present looked inquiringly in each other's faces, but found no answer. The President said Mr. Tiredout's remarks were not in order, and had nothing to do with the object of the meeting, but still he should like to know "Whar Barnum was." Mr. Y. E. Spreadeagle arose and said that the ensiest and most practicable way would be to invoke the aid of the "Clerk of the Weather." This proposition met with unbounded applause and admiration. On Saturday, in the Senate, a petition from Michigan was presented by Mr. Chandler, of that State, asking the Congress to adopt coercive measures towards the seceding States. The joint resolutions presented on Friday, providing for the counting of the Electoral votes for President and Vice President was passed. In the House, similer provision was made for counting the Presi dential vote. Mr. Sherman called up the bill Sumter, and in case of refusal threatens the authorizing the President, before the 1st of July next, to borrow \$25,000,000, should so large a sum be necessary to meet the exigencies of the Government, which was passed after considerable opposition. It provides that "the President of the United States be and hereby is authorized, at any time before the 1st of July next, to borrow on the credit of the United States a sum not exceeding twenty-five millions of dollars, or so much thereof as in his opinion the exigencies of the public service may require, to be used in the payment of current demands upon the Treasurer, or for the redemption of Treasury notes now outstanding, and to replace in th Treasury any amount of said notes which shall have been paid and received for public dues." The interest on the stock to be issued is not to exceed six per cent; stock to be reimbursed within a period not beyond twenty years, and not less than ten years no certificate shall be issued for less than \$1,000; and the faith of the United States is pledged for the due payment of the interest and the principal of the said stock. The following leading bills were pending before the two Houses on Saturday :- Indian Affairs : Post Route bill: the Chiriqui Amendment to the Deficiency bill; and the bill for the organization of Idaho (Jefferson) Territory. It is expected that on Thursday next Mr. Corwin will move to close the debate on the report of the Special Committee of Thirty-three.

SALE OF DR. M'LANE'S VERMIFUGE. Among the hundreds of letters, certificates and orders reeived by the proprietors, FLEMING BROS. of Pittsburgh. Pa., of this medicine, the following are selected to show its character, and the effect of its use in a distant part of the from the circulation.

West:

ROYALTOO, BOONE CO., LA., MAY 10, 1850.

MESSRS. FLEMING BROS.—GENTLEMEN—I write to you to solicit an agency for the invaluable Vermiffue you prepare. Sometime since, I purchased one dozen vials of Mr. C. Edy, and prescribed it in my practice; and it proved so effectual in the expulsion of worms, that no other preparation will satisfy the citizens of this village and vicinity. Please send me one gross of the Vermifuge immediately.

Yours, &c. Samuel Ross.

WHAT IS IT ! HOW CURED? Thousands of persons suffer all sorts of annoyance from Cetarch. Mostpeople know what its inconvenience and results are, yet but few know how it can be cured. It is simply a chronic irritation, and often enlargement of follicles, and consequent thickening of the mucus membrane, lining the massi cavities, rounts sinusces, and sometimes extending into the throat and imags. From this result tightness and often vertigo of the head, obstructed nose, or a profuse flow of mucus, loss of smell, nasal voice, and often impaired hearing and tester. mucus, loss of smell, nasal voice, and onen impared hearing and taste.

The o'd school omedies have never been able to do any thing for it. Nasal injections and inhalations are as painful and expensive as they generally are worthless. Yet Humphry's Catakri Specific, a simple Sucar Pill, taken two or three times per day, promptly cures the milder cases; cures at once all colos in the ead, and radically cures, by persevering use, the most obstinate cares, as is proved by the experience of hundreds.

The recipe for making this celebrated Liniment wa btained by a gentleman while visiting the Turkish Empire a few years since. While there he witnessed its use uponorses, and so remarkable were the cures, he concluded horses, and so remarkable were the cures, he concluded to purchase the recipe for making it for his own use if nothing more. After returning to this country, he made some and tried it in several cases of swellings, cuts, burns, bruises, etc. and found it to cure more speedily than any article ever discovered. Becoming acquainted with the gentleman, I purchased the recipe and have made and used it with great success, and found one-half had never been told of its intrinsic value. For Rheumatism, Sprains, Chilbians, Fains in the Back or Chest, Gramps, Swelled Face, Sore Throat, Nouralgia, Toothache, or Swellings of every kind—it is warranted to cure. For horses, Sprained, Chafed, Wind Galled, Cracked Heels, Chest Foundered, etc. It is the most valuable medicine in vogue. A large number of certificates could be given if necessary, but one trial will satisfy the most skeptical. It is perfectly safe to take inwardly in case of Colic or Cramp—The Lintment is for sale by all druggists. Bannes & Park, 13 and 15 fark Row, New York, Wholesale Agents. CONSUMPTIVES.

An equal and normal circulation of the blood is health.

An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate topidity of the Liver is caused by stagnation of the blood in that organ; disease of the Kidneys, inflammation of the Lungs, Disease of the Heart, &c., by the same cause, vir:—Improper Circulation; and from the same cause spring all immor forms of disease. To diseaver a certain cure then, for these diseases, the first great enquiry necessary is, What causes the blood to circulate? For centuries it has been a matter of much study smong scientific and medical men; and while many experiments have been made and nucle labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also. Acknowledging that life is the

Electricity brought in contact with a muscular fiber, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron in the red corpuscies of the blood emits electricity, which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tingling through the remotest arteries. What then, are the causes of CON-8UMPTION, DROPSY, PALSY, PARALYSIS, ST. VITUS' DANCE, DYSPEPSIA, EPILEPSY, FEVER AND AGUE, &c. —a deficiency of the red corpuscies containing the iron, sulphur and phosphorus, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheure atic pains and neuralgia—complaints of the liver and kidneys set in, in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscies or red globules. Old age causes a deficiency of corpuscies, and while we do not pretend to say that we have ciscovered the "elixir vitar," we do say that life can be materially prolonged by the use of the

which restores the red globules, and thus the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease!! Unfortunates, who have by excess of the body or mind, reduced the standard of the blood and diminished the red globules! Lades suffering any of the distresses known as semale complaints, be persuaded the "BLOOD FOOD" can cure you. It has cured thousands of desperate cases where all hope has been given up. Do not rejectif, do not throw away your only hope. The "BLOOD FOOD" is an unfailing remedy; give it a trial. An elaborate treatise, carrying out and fully proving the theory advanced here to be correct, will be malied to any interested party, on the receipt of two three cent stamps. BLOOD FOOD is sold by alf druggists; or where it cannot be had, I will send six bottles free of expense for \$4. Price, single bottle, \$1. XXXVIth CONGRESS-SECOND SESSION.

SENATE. WASHINGTON, Feb. 4.-Crittenden presented several memorials from various States in favor of Crittenden's resolutions,

Wilson offered a resolution asking the President whether any forts, arsenals, or munitions of war belonging to us were seized by any persons in Louisiana, and especially whether the mint of the United States in New Orleans had been taken possession of unlawfully by any persons, and if any money was unlawfully appropriated and by whom. Laid

Chandler presented a petition from citizens of Michigan against any change in the Constitution.

Bigler presented a petition in favor of Crittenden's resolutions. Foster presented petition from citizens of

Connecticut for passing the Border State resolutions. Fessenden presented a petition in favor of

restoring the peace of the country and pre-

serving the bond of our Fathers. Slidell sent to be read by the Clerk the ordinance of secession of Louisiana.

HOUSE. WASHINGTON, Feb. 4 .- McClernand asked leave to offer a resolution asking the President to communicate information concerning the seizure of the New Orleans Mint and what steps have been taken to recover it and the possession of the Government money.

Craig of North Carolina objected. He was surprised any one should make such an allegation on newspaper reports. Branch asked leave to introduce resolution

allowing the commissioners of States admission to the floor of the House. Kunkel moved an amendment tendering

them the use of other suitable apartments. Levejoy and others objected.

John Cochran gave notice that he will soon call up his bill to further provide for the collection of duties on imports.

ARRIVAL OF THE STORE-SHIP SUPPLY."

NEW YORK, Feb. 4 .- The store ship Supply has arrived, nineteen days from Pensacola. Pass engers, Mrs. Slummer, and wives and children of other officers, several navy officers, a number employed in the navy yard, nine invalids from the navy hospital, twenty-seven ordinary men from the navy hospital, and thirty-fovr marines from the marine's barracks. The above were released on parole, after the capture of the hospital quarters and barracks. They were taken off under a flag of truce.

THE UNION CONVENTION. WASHINGTON, Feb. 4.—The Convention room has been closed to the Press, who are not to be admitted until the vote is taken on the question of admission after organization. The Virginia delegates are desirous the whole proceedings shall be conducted with closed doors to the Press and the public.

A committee has been sent here by the secessionists of Maryland to protest against the admission of the Maryland delegates.

BENIGVATION. New York, Feb. 4.—Col. Hardee, of the United States Army, has resigned.

61 STATE ST 61 STATE ST BRIDGEP'T, Fellow Citizens of Connecticut gener nd Ladies and Gentlemen of Bridger went his good old State of Connecticut. Southerners of the most Southern kind are running off barrels and barrels of Wallace's Crackers periodically. Nearly beary mail brings orders for Wallace's Crackers, to be distributed to Southern people, thereby threatening to stave us att. We can endure this no longer, and herefore we do firmly declare to the inited States and New Jersey that here siter, we, the people of Connecticut, intend to maintain our rights and buy up all Wallace's Bread, Cake and Crackers as fast as manufactured, in defance of the General Government or any one else.

have been sold within eighteen months without a single facture when taken as directed, and without the least injury to health in any case. It is putup in bettles of three different strengths, with full directions for using, and sent by Express, closely scaled, to all parts of the country.

PRICES—Will strength, \$10; half strength, \$5; quarter strength, \$3 per bottle.

RECES—Full strength, \$10; has strength, \$0.5; quarter strength, \$53 per house.

FREMEMBER! This medicine is designed expressly for OBSTINATE CASEs, which all other remedies of the kind have failed to cure; also that it is warranted as represented in EVERY RESPECT, or the price will be refunded. FREMEMBER OF IMITATIONS. None genuine or warranted unless purchased directly of Dr. M., or at his Office. Prepared and sold only at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES, No. 28 Union Street, Providence, R. I.

It is estimated that more than \$100,000 is paid annually to swindling quacks in New England alone, without the least benefit to those who pay it. All this comes from believing the false statements of men who live by deceptions, having the false tratements of men who live by deceptions, having

a Pamphlet on DISEASES OF WOMEN and on Presents
Diseases generally; also Circulars, giving full information,
with the most undoubted references and testimonicis, without
which no advertising physician or medicine of this kind is
deserving of ANY CONFIDENCE WHATEVER.

DR. MATTISON is the only educated physician in Providence, if not in New England, who makes a speciality of
Private Diseases, and he gives the very best references and
testimonials, both of his honesty and his self. If there ARE
any others, LET THEM LO THE SAME, otherwise, you
rad better keep away from them.
Orders by mail promptly attended to. Write your address
plainly, and direct to DR MATTISON, as above.

I prepared this Liniment originally for the use of my own children, and with such success that I recommended it to my neighbors. They have been so much commended by it, and are so much convinced of its importance as a remedy for the throat disease which has proved fatal in so many instances, that they have advised me to present it to the public. Annoxed I give a certificate signed by some of them. Many other names might be added. The Liniment requires only a fair trial to make it a safeguard in every house.

DARDEE'S THROAT LINIMENT.

Stay, brother, by the appraised hand;
Wouldst then bur Union mer?
Oring not on our own loved land
The curse of civil war!

Our cannons once in thunders loud
Defied the British throne:
Would ye now turn their belching fires
Upon yourselves, your own?
Say, would you bear the mark of Cain
Upon your noble brow?
O naught could e'er clines the stain,
If thus you brand it now.

Once, where our starry banner waved, You found the brave and free

United in endearing bands.

Nor heard disunion's plea.

Our boast has long been "Equal Rights;"

Then give our Southern friends

Their sacred rights, which ye have sought

So long to wrest from them. Then would our Union be preserved-

Our banner still would wave-Reproaches then would cease to come From Vernon's sacred grave! Then, brothers, rouse ' respect the rights Of all your fellow men;
'As ye'd have others do to you
So do ye unto them."

DISCRETION .- There are many shining qualities in the mind of man, but none so useful as discretion. It is this, indeed, which gives a value to all the rest, and sets them to work in their proper places, and turns them to the advantage of their possessor. Without it, learning is pedantry; wit, impertinence; and virtue itself looks like meanness; and the best parts only qualify a man to be more sprightly in errors, and active in his own prejudices.

DROF. WOOD'S

RESTORATIVE CORDIAL BLOOD RENOVATOR.

Is precisely what its name indicates, for, while pleasant to the taste, it is reviviving, exhiliarating, and strengthening to the vital powers. It also revivifies, reintates and renews the blood in all its original putity, and thus reatores and renders the system invuinced in the strengthening to the vital powers. It also revivifies, reintates and renews the blood in all its original putity, and thus reatores and renders the system invuinced to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skilled live ombined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and aliay all nervous and other irritation. It is also perfectly exhiliarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entrely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been fet to be a desideratum in the medical world, both by the thoroughly skilled in medical science, and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humar ity is constantly liable. Such, for example, as the following:—Consumption. Bronchitis. Indirection.

the most dangerous to which poor numer by a constantly liable. Such, for example, as the following:

Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Faintness, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melsncholy, Hypocondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in

raigia, Fabitation of the Heart, Melancholy, Hypocondria, Night Sweats, Languor, Giddiness, and all that class of cases, so fearfully fatal if unattended to in time, called Female Weaknesses and Irregularities.—Also, Liver Derangements or Torpidity, and Liver Comp aluts, Diseases of the Kidneys, Scading or incontinence of the Urine, or any general derangement of the Urinary Organs, Pain in the Sack, Side, and between the Shoulders, predisposition to Slight Colds, Hacking and Continued Cough, Emaciation, Difficulty of Breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following Chills and Fever, but prevent all attacks arising from Miasmatic Induences, and cure the diseases at one, Ifalready attacked. And as it acts directly and persistently upon the billiary system, arousing the Lives to action, promoting, in fact, all the excretions and ascretions of the system, it will infallibly prevent any deleterious consequences ollowing upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating.—As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much out door exercise should always use it. If they will they will find an agreeable, pleasant, and efficient remedy against those like which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again, the Cordial is a perfect Mother's Relief. Taken a month of two with perfect ease and asfectent remedy against those like which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again, the Cordial is all weekens for it. Mothers, try it! And to you we appeal to detect the illness or decline not only of your daughters befo

DYSPEPSIA .- What is it? how DYSPEPSIA.—What is it? how cured? This question is fully answered in the pemphile issued by DR. O. PHELPS BROWN, and to be obtained of his authorized agents. It is a plain, straightforward, incontroverible essay, in itself, of his, health, and disease: DR. O. PHELPS BROWN also prepares a remedy which is unexampled in its efficacy, the AC. CIAN BALSAM. In cases of Consumption, Asthma, Bronchitis, Coughs, Colds, and Nervous Debility where death seems the manifest destiny of the sufferer, the world can show no parallel to the effects produced by the ACACIAN BALSAM. Each organ of the body feels its beneficial influence. From pain and feebleness, the patient springs up to a cheerful enjoyment of life, and a powerful sense of solid restoration. The ACACIAN BALSAM seed it at \$2 per large bottle, by THAYER & STEVENS, No. 28 State street, sole Agents who has also a small number of trial bottles, price 25 cents each, as the proprietor wishes to introduce the remarkable remedy in such a manner as to preclude all doubts of its being a genuine article.

IS NERVOUS DEBILITY OF SPERMARORRHOEA incurable? Yes, by any means but those I adsocate. Beware of persons copying my advertisements. There is no person advertising as a "former Sunferor," ac., who has not purioined it from my notices and circulars, while they neither knote home nor care to care you. Before commencing ANY treatment, learn how the writer cured himself and subsequently hundreds of others. Inclose a post-paid superscribed envelope to Bux 176, Charlestown Mass.
