THE WHEELER & WILSON SEWING

Eve, the first woman, was the first seamstress. As she sewed fig-leaves together for
aprons, we are not informed what thorn she
used for a needle, or the fibres of what bark
for thread. We have no record of the devices
in embroidery worn by the antediluvian
females, when "the sons of God saw the
daughters of men, that they were fair, and
they took them wives of all which they
chose." But had there been a sewing maohine then, Noah's wife and her daughters-inlaw would surely have preserved it, as a pot
in the ark. There was no "Wheeler & in the ark. There was no "Whee Wilson" before the flood.

The ingenuity of the Egyptian ladies is still preserved in the castcombs. They wrought their very lives into their shrouds. Wise-hearted Hebrew women made the embroidered garments for Aaron and his sons. "All things were full of labor." In variegated needle-work, they wrought the vine and the romegranate—all the colors and garniture of nature upon the curtains of the tabernacle, "the work of those who devised cunning work." The female hand has always been the most ingenious and diligent in beautifying the sanctuaries of the Most High.

High.

It was doubtless the life-long work of some obscure Babylonish woman to stitch the garment that so bewitched and overcome the virtue of poor Achan. Perhaps he stole it for his wife and daughters. There was no "Wheeler & Wilson in Babylon.

The Tyrians traded "in blue and purple and fine linen." The wore out human fingers in working brilliant devices upon even the sails of their ships. By machinery, these wings of commerce are now wrought with equal case and rapidity. "Wheeler & Wilson" have excelled the inventive Tyrian "Hiram, the widow's son, sent to King Solomon."

The needle-work from an Israelitish lady's The needle-work from an Israelitish lady's wardrobe was the richest spoil their conquerors could carry from the land of the Hebrews. Upon what was the mother of Sisera most intent, as "she looked out at the window and cried through the lattice: "Why is his chariot so long in coming? Why tarry the wheels of his chariot? Her wise ladies answered har, were the returned Why tarry the wheels of his chariot? Her wise ladies answered her, yea, ahe returned answer to herself: "Have they not sped? Have they not divided the prey? To Sisera a prey of divers colors, a prey of divers colors of needle-work, of divers of needle-work on both sides, meet for the necks of them that take the spoils?" Here was foreshadowed the peculiar excellence of Wheeler & Wilson's sewing machine. The needle-work is alike on both chine. The needle-work is alike on

Joseph's coat of many colors, the mantle of Elijah, by which Jordon was divided, were doubtless wrought with long and weary toil. The daughter of Pharach, when presented as a bride to Solomon, "was brought unto the king in raiment of needle-work." What expense of nerve and life for royalty! But neither Solomon's wife nor Lemmel's mother ever saw Wheeler & Wilson's sewing machine. Solomon in all his glory was not chine. Solomon in all his glory was not WHOLESALE AND RETAIL TRADE, arrayed with one of these.

The chaste and beautiful Penelope, in the twenty years absence of Ulysses, her husband, kept her numerous auttors at bay by the promise to marry one of them as soon as she should finish a piece of tapestry, upon which she was then employed. She protracted the time to her husband's return by ravaling out in the night what whet he he details raveling out in the night what she had a during the day. In stitching Pen web, we must own our favorite m would have been at fault. The stitch of "Wheeler & Wilson" is too firm to be un-

raveled. At Plymouth Rock, I have seen the needle-work of Rose Standish, Priscilla Alden, and other Puritan maidens, the lock-stitch of art and faith that beguiled the weary weeks to their wilderness home.

The machines of Wheeler & Wilson are beautiful articles of furniture, simple in their construction, easily managed, not liable to derangement, distinguished for the strength and firmness of the seam, the exactness and beauty of the stitch on both sides, and the divereity of fabrics upon which it can be employed. It has hemming and seaming attachments.

No one can bend his mind to a thorough investigation of the lock-stitch, and the intelligent working of this machine, without being struck with the evidence of mind.— How much thinking, trying, failing, and trying again, has brought out the harmony and effective working of this machine. It is the summing up, the resultant force, of all past thinking over the needle. Wheeler & Wilson a sewing machine is a success. The mower and reaper relieves the farmer—the planing machine the joiner; the nimble steeds along our railroads curve their necks and prance across the fields in triumph, as they see the "iron horse" drawing the loads that once wasted their strength on "mud highways." But the "iron needle-woman" emancipates our own homes from the burdens of domestic toil. "Wheeler & Wilson" is a reforme It levels up, and gives neat and well-made raiment to the million. Gustavus Vasa wandering in disguise among the peasantry, was detected as a nobleman by the elegant stitching upon his linen garments. It can no longer be said, that "those who wear soft clothing are in king's houses." "Wheeler & Wilson" goes for "woman's rights." It will give them time for study, for charity. It will change thousands of awying girls into will change thousands of sewing girls well-educated teachers, and send them better paid to a lighter toil, to a h -to their own Heaven app field, the education of the young.

A Good Story.—Captain Killmer, of the ship Othello, tells a good story. It appears that his grew was composed partly of students from some College in the interior of New York State—the intelligent young men, and of wealthy families, and are treated very kindly by the captain and his officers. While off Cape Horn, on her passage out, the ship encountered a very heavy gale, accompanied by hail and snow; and after lying to for many hours undernothing but a close reafed main-topsail; it became necesaccompanied by hall and snow; and all lying to for many hours undernothing but a close reefed main-topsait, it became necessary to take in even that sail. All the "boys" were safely stowed below in the forecastle, when the mate went forward and sung out, "Come on deck, all of you, and furl this main-topsail." Surprised, after a lapse of a few minutes, in not seeing all the orew come up, the mate again went forward orew come up, the mate again went forward and said, "If you don't come on deck soon this topsail will blow away." "All right Mr. Sherman," was the reply—"please to the captain that we have concluded to let the topsail blow away and we'll pay for it!"

"No man can to true patriot without first be coming an abolition — Greeley's Helper Republican Text Book, endorsed by Sixty Eight Republica members of Congress, and 100,000 copies printed for gratuitous distribution.

The Senators from Pennsylvania said they we willing to make concessions. The Southern States had not asked concession in any form. The South had no complaint to make against the Constitution, but that the Constitution had been violated and her rights disregarded, but she never asked concessions. She only asked that the Constitution be carried out. She would be humiliated if she asked anything else, and the North would be humiliated if it granted it. The South only asked for right.—Senator Mason.

NEW ENGLAND AND THE SLAVE New England, which is now so extra-fanat

Least of ail were the delegates from Connecticut troubled with any anti-slavery notions. Oliver Ellsworth was opposed to any intermeddling with the weeks are unfavorable to compromise. subject. All this was the work of New England! Now that the Constitution is in danger of destruction—a constitution which has borne such rich and abundant fruits to New England.—there are men here who turn up their pious noses in horror at the idea of compromising anything. What the country needs now is a revival of the old New Eng-

land spirit. In Syracuse, N. Y., a few nights ago, a free colored man, aged eigh ty years, named John Van Buren, was frozen to death. He was a respectable, sober man. Syracuse is yet be proposed upon which a majority may one of the hot-beds of Republicanism-a place where a great deal of freedom-shricking is done about the poor Southern slave. Yet thing towards a settlement of the existing the canting hypocrites who reside there, allow a poor free negro to freeze to death. By so doing, they would show that they had a little of the Christian spirit left in them.

The Albany Journal continues to handle Greeley without gloves. Its excoriations of the philosopher are positively fearful. It absolutely flays him alive. The firm of Seward & Weed bids fair to flourish with new capital—while the unhappy partner that was turned out of the firm, when it was dissolved some years ago,—is likely seon after the 4th of March to turn up a political bankrupt.

As things are going now, there is but one refuge we can see for Greeley, and that is, in the arms of Wendell Phillips, Wm. Lloyd Garrison, and the rest of the out and out ionists, who believe the Constitution an recious bargain,—the Union a league with death, a covenant with hell, etc., etc.

The country was dragged into a war with Mexico, the benefit of slavery.—New Haven Polladium This is a fair specimen of the faleshoods manufactured by the Republican press .-Every school-boy knows, that the war was forced upon the United States by Mexico, by an invasion of Texas, one of the States of the Union, by the latter. The Virginia State Convention re-assem bled Tuesday torenoon. Mr. Moore's resolutions were taken up. Mr. Goode finished his speech in reply to Mr. Moore. He affirmed that it was the duty of Virginia in this trying hour to go with the South as the only method of restoring peace to the country. Mr. Goggin read a series of resolutions which he said he proposed to offer. The resolutions declare that the Southern States should have proposed amendments to the Constitution in pursuance to the fifth article of that instrument : that it is the duty of Virginia now to invoke the co-operation of the Border States and to provide measures for concurrent action pereafter; that Virginia is attached to the Union as it was, but that as it is, it does not protect her rights; that it becomes her people in Convention to look to every remedy for relief, and to provide, in the event of failure, for the future relations she will occupy, having a due regard to her position as one of the Southern States. Mr. Goggin made a long speech in support of his resolutions. He denied the Constitutional right of secession, but admitted there was a revolutionary remedy for wrongs. He wanted consultation with the Border States to form a Confederacy and invite others to join. He opposed precipitate action, but whenever Virginia went out of the Union he would go with her. He believed that Virginia would be insecure in the present Southern Confederacy,

There are several original and admirable articles by new contributors, among which "Hunting in the Province of New Brunswick." by H. S. Stallknecht and A. G. It is an authority upon ter to leave his wife and enter the British arall matters of taste in dress, and contains fine engravings and full descriptions of the newest styles in dress, bonnets, cloaks, laces, fancy and ornamental work. It should be upon every lady's work-table.

The Republican press talk very much about the perils of Lincoln on his Washington route. There was no more peril attending his journey, than there would be attending the journey of any other "imbecile, vacillating old dotard" who goes over the same route with as many keepers as he had. In the House the so-called Volunteer bill was again considered; speeches were made by Messrs. Howard of Mich., Pryor of Va., Sims and Burnet of Va., and the -bill was postponed until Thursday. A dispute arose as to whether the Territorial business or the Report of the Committee of Thirty-Three had precedence, and a violent and personal colloquy took place between Messrs. Sickles of N. ROMANCE IN REAL LIFE .- The New York correspondent of the Buffalo Commercial Advertiser tells a strange story, whose de nouement has recently been accomplished in the city of New York. In 1856 a young Englishman was obliged by pecuniary disasmy in India. His father-in-law soon contrived to publish a report of his death, and married the widow to a wealthy sea captain. Sea captain and wife came to New York; sea captain died, leaving a fortune of \$60,000 Meanwhile the first husband, who had really loved his wife, heard of her second marriage, plunged into dissipation, was court martialed for some offence committed in a drunken brawl, and dismissed the service; he also came to New York, where, destitute, despairing, miserable, his old habits clung to him; he sank rapidly from dissipation into crime and in September last was sentenced to three years imprisonment for forgery. On the day that he went to Sing Sing, he gave a reporter a Bible, a present from his wife on their wedding day: "I gave her one precisely like it."
The reporter took the Bible and probably forgot the giver. On New Year's Day, however, he was visiting his friends, and at one house saw the counterpart of the convict's some kind. She hurried to the prison, and last week threw open the doors to him who had no hope of crossing the threshold for long and weary years.

OBITUARY.

On Monday, Feb. Feb. 18th, the obsequies of the late Hon. Richard H. Winslow took place at Westport. It was at first designed that the funeral services should take place at Compo House, the late residence of the deceased. But so great a company of friends, acquaintances, and citizens of the country were present, that it was deemed advisable to hold the services in the Congregational Church, which was kindly offered for the purpose. The Rt. Rev. John Williams, D. D., the Rev. John Furves, Rector of the Church of the Holy Trinity, Westport, assisted by the Rev. Dr. Mead, of Norwalk, conducted the solemn services in accordance with the ritual of the Episcopal Church. During the services the anihem from the burial service, the Gloria in Excelsis, and the Hymns "Rock of ages" and "I would not live always." were sung by the choir of the Church of the Holy Trinity.—The senien ces beginning "I am the Resurrection and the Lifs," were read by the R ev. Mr. Furves. The lesson of Holy Scripture was read by the Rev. Dr. Mead. The Rector then delivered a brief but touching address well suited to the sad solemnities of the occasion. The remainder of the service was conducted by Bishop Williams. Together on the platform with the officiating clergymen were the Rev. Dr. Colt of Bridgeport, the Rev. Messrs. Willey, Carder, Pattison, Stimson, and Athinson, Pastor of the Church where the services were held. There was a very large concourse of people, who manifested by deep attention to the services, their sympathy with those bereaved; and theirjeanes of the loss which the public has sustained by this dispensation of Divine Providence. The cofin was borne to the Church by six men, who were in the employ of the deceased. Six gent tiemen, among whom was Ex-ciov. Sepmour of this State, bore the pall. The bell tolled until the going down of the sun. The remains have since been removed to the city of Albany for informent. This gathering of people, these services, were all evidences of the high respect with which Mr. Winslow has been rega

HUMPHREYS'

REMEDIES The Remedies are carefully prepared under the direct pervision and inspection of Fro. HUMPHREYS, in order to meet that great and long realised want of the public, namely, remedies for all the more common and simple aliments of life. A moment's reflection will show that a vast majority of diseases frem which we surfer and die, were, at their commencement, simple and trifing. A mere cold, a slight diarrheea, a pain in the side, or a headache, or hoarseness, at first easily cured and subdued, in time becomes a consumption, at fever, a dangerous dyseniery, Group or other disease, which all the powers of modicine fail to arrest. Herein these remedies supply a great public want: Being on hand, simple, so you know at once what to take—pleasant, so as to cause no repugnance—safe, and hence occasioning no risk, while the curative effects are positive and certain, they are taken, and at once the spell is broken and the danger allayed. Experience has amply confirmed the use of these remedies for families and private persons, as being the best in use, the most simple and convenient, the most prompt and reliable. Thousands are and have been using them for some five years past, in every section of the country, with almost invariable success. All speak in the highest terms of their simplicity and certainty, and smong our hundreds of agents the uniform testimony is, that they give good satisfaction to their customers. FOR THE PEOPLE

AND

It is precisely what its name indicates; for, while pleasant to the taste, it is revivifying, exhilirating, and strengthening to the vital powers. It also revivifies, reinstates, and remews the blood it all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered the world in a popular form so as to be within the reach of sil.

So chemically and sktilfully combined as to be the most powerful tonic, and yet so perfectly adapted so as to act in perfect accordance with the laws of nature, and hence soothe the weakost stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilirating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed enti-ely of vegetables, and those thoroughly combining powerful tonic and acothing properties and consequently can never injure. As a sure preventive and cure of

Also, Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidney, or any general derangement of the Urinary organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from Misrastic influences and cure the diseases at once, if already attacked TRAVELERS should have a bottle with them, as it will infallibly prevent any deleterious cossequences following upon change of climate and water.

As it prevents costiveness, strengthens the digestive organs, it should be in the heads of all persons of sedentary habits.

LADIES not accustomed to much out-door exercise should always use it. always use it.

MOTHERS should use it, for it is a perfect relief, taken s

period with perfect case and safety.

THERE IS NOTHING ITS EQUAL.

THERE IS NO MISTAKE ABOUT IT. THE CORDIAL IS ALL WE CLAIM FOR IT !!!

MOTHERS TRY IT. And to you we appeal, to detect the illness or decline not only of your daughters, before it be too late, but also your sons and husbands, for while the former from false delicacy often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixedjup with the excitement of business, that if it were not for you, they too would travel in the same downward path until it is too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-falling affection will unerrin ly point you to Prof. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, as the remedy which should be always on hand in time of need.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood rnd soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resist the assaut of disease. It is a chemical compound as shillfully combined that while it exhibitates, it does not provoke the lassitude which usually follows excitement. A tonic composed excitaively of vegetable matter, it is absolutely beneficial, and no fill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite. Faintness, Nervous Debility, Neural, is, Palpitation of the Heart, Falling of the Womb, and other delicate diseases to which woman is subject. For Sickness of the Stomach, Billous Attack, Liver Complaints, Construences, Dyspepsia, Consumption, and a host of evils flesh is heir to, it is a certain cure.—St. Levis Morning Herald.

PHOF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the ild of the box was removed, out flew all the fills that flesh is held to. Fortunate y, hope was found in the bottom of the box. PROF. WOOD'S RESTORATIVE CORDIAL revives the recollection of the story, for it invigorates the blood, alds the organs of digestion, imparts strength to the nervous system, and fortifies the citactel or health, so as to bid defiance to the assaults of discusse. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhuarating as pure wine, no injurious resums can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with Loss of Appetite, Dyspepsia, Consumption, Falliness, Gldanness, Neuralgia. Paipitation of the Heart, &c., &c., will here find an infallible pan.cea.—St. Louis Daily Express.

A PURE HEALTHY TONIC, and one free from the deleterions and injurious effects sure to follow those in ordinary use, has long been feit to be a desideratum in the medical world. Such a tonic, and one so ski limity combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and thus sooibs the weakers a omach, and at the same time aliay nervous and other irritations, and tone up all the organs of which the human body is composed, is flered in Pictof. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR. Hence it is perfectly adapted to old and young. Reader, try it. CURES Croup, Coughs from Colds, Hoarseness, Catarrhal Coughs Coughs from Humors and Bronchial Coughs, and gives speedy relief in Wheoping Cough and Asthma, and often cures the latter and invariably shortens the run of the

lo mer.

It will arrest nearly all forms of Coughs leading to Consumption but will not cure it when seated, and may be relied on as a test in that disease. It is unlike Hive Syrup and the ordinary Cough and Croup Remedies, inasmuch as it contains no dangerous agents though a whole bottle be taken insone hour; while it is efficient, curative, pleasant to the taste, and universally successful, and no bad results can possibly follow its use.

Children are liable to be stacked with CROUP without a moment's warning. It is therefore important that every family should have containtly at hand some simple and pleasant, yet efficacious remedy for the care of this painful and too often fatal disease. Such a remedy is

iowing reliable and well known people.

Messrs. Henry P. Wilson & Co.—My wife is now using your Regenerator for the hair, and pronounces it far superior to anything she ever used for the hair. It is easily applied, does not soil in the least—has no disagreeable odor, increases the growth of hair, prevents its falling off, and often cures the headache. I forward you this certificate unsol'cited, because I think an article that will do what your Hair Regenerator will, should be widely known. I think it is the best article for the hair now in use.

Reverfully, &c.,

November.—Messrs. Henry P. Wilson & Co.: I have used your Hair Regenerator and Hair Dressing, and ave received great benefit from them. I deem the articles worthy high commendation, and cheerfully recommend them to all who want to restore gray hair to its original color, or to any other head, or humors, orto those whose hair is failing from the head, or humors, orto those whose hair is failing from the head.

REV. G. W. H. CLARK, Great Falls, N. H. MESSRS. HENRY P. WILSON & Co.: I deem Mrs. Wilson's Hair Regenerator and Hair Dressing the standard articles of all hair preparations. I have, in many instruces, known them to restore the hair where it had fallen off, semove dandruff, restore the hair to its original color, cure entirely the most painful headaches—and in some instances most serious hunors. Personally, I have been a sharer in several of these needs. Rev. Henry Hill, Manchester, N. H.

MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING. Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37 cents per bottle, and for dressing the hair of any person, young or old, there is not its equal in the world. It will make the hair everything you wish it to be, and moreover, it has a perfume that is infinitely superior to any of the fashionable extracts, either foreign or American, which alone should entitle it to a place on every lady's toilet table.

Use the Regenerator before retiring at night, and in the morning apply a little of the Dressing, and your hair will be even more lifelike in color and beauty. Use nothing on your hair but these preparations, and use these according to directions, and we warrant you a good healthy head of hair.
