DEMOCRATIC STATE NOMINATIONS.

Election, Monday, April 1.

- FOR GOVERNOR, JAMES C. LOOMIS, of Bridgeport. FOR LIEUTENANT GOVERNOR, AUGUSTUS G. HAZARD, of Enfield. FOR SECRETARY OF STATE, NATHANIEL B. STEVENS, of Norfolk.

FOR CONGRESSMEN. First District—ALVAN F. HYDE, of Tolland. Second District—JAMES ENGLISH, of New Haven. Third District—RUFUS L. BAKER, of Windham. Fourth District—GEO. C. WOODRUFF, of Litchfield.

FOR SENATORS. Fifth District—JAMES DOWD, of Waterbury. Sixth District—FRANK P. AMBLER, of Trumbull. Seventh District—CHAS. A. SUTTON, of Danbury. Eighth District—PETER L. LEEDS, of Stamford.

FOR JUDGE OF PROBATE. Bridgeport District—JAMES L. GOULD, of Bridgeport.

"No man can be a true patriot without first becoming an abolitionist."—Greely's Republican Text Book, endorsed by Sixty-Eight Republican members of Congress, and 100,000 copies printed for gratuitous distribution.

The Senators from Pennsylvania said they were willing to make concessions. The Southern States had no complaint to make against the Constitution, but that the Constitution had been violated and their rights disregarded, but she never asked concessions. She only asked that the Constitution be carried out.

NO COMPACT. "No Compact"—no agreement, based upon the rights of the States as confederates. We, the people, made—not a Confederacy, but a Government. Of course, if the Union is nothing more than a compact, it can be dissolved.

One authority which we intended to give yesterday, as additional proof of the Standard's learned donkeyism on this subject, was inadvertently omitted. It was that of the great Roger Sherman. In a letter to John Adams, relative to the National Constitution, which then had just been adopted, he says: "The Senators being chosen by the Legislatures of the States, and depending on them for re-election, will naturally be watchful to prevent any infringement of the rights of the States, and the Government of the United States being FEDERAL, and instituted by a number of sovereign States for the better security of their rights, and advancement of their interests, they may be considered as many pillars to support it, and by the exercise of the State Governments, peace and good order may be secured in the Union, and the best of the FEDERAL Government as well as at the center."

But, says the Standard, if the Government is a Confederacy, the Constitution a Compact between the States, then "we have no Government; have never any Government; and all that there can be no earthly use in what Mr. Eaton calls a re-construction."

STATE ITEMS. On Friday afternoon a fire broke out in the old iron shop of Tracey & Fales, Hartford, new known as the Grove Works, and occupied by a dozen or fifteen manufacturers in a small way.

Several burglaries occurred on Long Wharf New Haven, in December last. The stores of Hotchkiss & Co., E. Pendleton, and Lindley & Carline, were robbed of a large amount of goods. Two men named Wonsor and Williamson were arrested at the time, but were discharged for want of evidence.

On Thursday night, March 14, the cigar factory of T. H. & L. Spencer, at Suffield, was burned down, and with it some 800,000 cigars and a quantity of tobacco. Loss \$25,000. It was the work of an incendiary. A incendiary attempt on the Baptist church in the same town failed a few weeks ago.

During the week ending March 8, the following patents were issued to citizens of Connecticut: Marcus H. Rounds, of New Haven, for improvement in furnace grates, and Daniel W. Shanks, of Hamden, for improvement in hammers.

A lady, down towards Danbury, was teacher little girl from the Bible that "even the very hairs of her head were all numbered," when she "got a chair and stood up before the looking glass to see the numbers."

The town of Vermont has about 400 dwelling houses, valued at \$245,999, and 117 dogs valued at 50 cents each. The annual dog tax just about pays the damage to sheep, by the Vermont dogs.

On this point, however, the State Convention expressed no opinion. That body was content to declare that the Government is a Confederacy of sovereign and independent States, and that any legislation trampling upon the equal rights of the States is a violation of the letter and spirit of the Constitutional Compact; both of which declarations are true as Holy Writ.

The Standard expresses the opinion that, we have no Government on this subject, on

of all proportion to the size of our teapot. It may be so. But the power of a teapot, we take it, can not be justly determined by its size, any more than the bigness of a learned donkey can be determined by the length of his tail and ears.

WASHINGTON NEWS. The administration have not yet replied to the demand of the Southern Commissioners. They request more time. They are assured, however, that the matter is under consideration, and will be definitely decided on in a few days. Perhaps the Abolitionist of the Standard had better write Lincoln a letter advising him to hang them—at the same time enclosing his petition for that office he is trying to obtain.

It is stated that the Cabinet had a protracted meeting Friday. The distribution of the spoils was the principal topic discussed.—What a patriotic body of men! busily occupied in filling their pockets and the pockets of their friends! and doing nothing to allay the existing agitation. If they would adopt measures to settle our present difficulties peaceably—measures that would tend to set our manufactures at the North in operation at once, it would be far better for them—and far better for tens of thousands of unemployed mechanics.

AN IMPORTANT DECISION. An important decision, involving the rights and liabilities of railway companies and the owners of cattle killed by trains when on the track, has just been made by Chief Justice Gilpin, of the State of Delaware. Four main points were made by the learned Judge, and were established by his decision as the law of his particular jurisdiction, as follows:

- 1. That a railroad company, legally chartered, has the unobstructed right of way over its own track, and is not to be held liable for any loss which owners of cattle may sustain if their cattle are killed or injured while upon the track, and when due diligence and caution are observed on the part of those in charge of the train to prevent said destruction or injury. 2. That the company is not bound to fence in the lands or farms along the line of road merely for the sake of keeping cattle off the track; but that in the duty of owners of cattle to see that such cattle do not interfere with and obstruct the passage of the train, and thus become nuisances.

People who reside along the line of railroads will hereafter have to exercise more care in keeping their cattle off the track.

The Ball of the Wheeler & Wilson Cornet Band at Staples' Hall last evening was very pleasant and successful affair. Notwithstanding the out door elements were in a decidedly mixed-up condition, a large crowd was in attendance at an early hour. The room was very neatly and tastefully decorated with several American flags, pictures, evergreens, mirrors, &c. The floor committee were unremitting in their exertions to please their patrons. The members of the Band made their appearance in their new uniform. A fine collation was served up by Ingham of the Staples' House. This morning was kept up until a late hour this morning when all dispersed for home seemingly well pleased with the night's entertainment. The music furnished by the Wheeler & Wilson Quadrille Band, Frank Thomas leader, was excellent—as good as the best. The ball was given for the benefit of the Wheeler & Wilson Cornet Band, and we are glad that it was liberally patronized—for the band deser-ve it. Success to them.

It is a fact, well authenticated, that Douglas, the Abolition candidate for Lieutenant Governor, had his factory bell tolled three times on the day John Brown was hanged, in honor of that hoary old traitor and murderer. Not satisfied with his own demonstration, he sent his workmen to ring the bell of a neighboring church; and, in spite of the remonstrances of members of the society, they kept it tolling for three hours! These facts were well known to the Republican Convention that nominated him. Douglas also says he is satisfied with his conduct on that occasion. Are the people of Connecticut prepared to approve the act of John Brown by voting for this man and his ticket?

The Charleston Mercury, referring to Policeman Kennedy's seizure of guns going South, in New York, says: "Where were those patriotic policemen of New York when Becher and his butcher brethren were sending Sharp's rifles to Kansas, for the purpose of warring upon the South?"

The Mercury editor ought to recollect that that was a Republican electioneering movement—and of course perfectly proper. Anything that will make Republic-ian voters all right, in the eyes of our Northern pulpit politicians and Republican office holders.

First, the Abolition presses charged the responsibility of Lincoln's decision in regard to Fort Sumter upon Mr. Buchanan; then they laid it all upon Gen. Scott; now they are ascribing it to the gallant defender of Fort Sumter, and charge him with "treachery," after having voted him complimentary swords innumerable. Truly, that party must be in a bad position who need such shifts as these to sustain themselves.

Every Democrat this Spring ought to make himself a committee man. Think over all your acquaintances and see to it that every new voter attends to his enrolment in time; and think if there be not some honest citizen doubtful of his course whom you can induce to vote the Democratic ticket. Work! Democrats, Work! And persuade all you can to vote for men who are opposed to Abolitionism, and civil war.

The government of the Southern Confederacy has appointed Hon. William L. Yancey, of Alabama; Judge P. A. Rost, of Louisiana; Col. A. Dudley Mann and T. Butler King, of Georgia, special Commissioners to proceed to England and France to obtain the recognition of the independence of the Confederate States, and make such commercial arrangements as their joint interests may require.

The receipts of the Houatonic Railroad during the month of February, 1860 were \$17,492.05; in February, 1861 they were \$11,761.49; decrease \$5,730.56. Of this decrease \$4786.55 was in freight.

SPECIAL SENATE SESSION. On Friday in the Senate Mr. Mason offered a resolution calling upon the President for information as to the number of troops quartered in the District, when they are to be withdrawn, for what purpose they are maintained and whether the force is to be increased, and to what extent. The resolution, calling upon the Secretary of War for information in relation to the forts, arsenals, navy yards, and other public property in the seceded States, whether the administration intend to recapture those in possession of the secessionists, and if so what military force will be necessary, &c., was taken up. The resolution was a detailed exposition of the policy of the administration, with reference to the seceded States. Mr. Douglas, in advocating his resolution, said that he desired to relieve the apprehensions of the country by obtaining a reply to his resolution, which he believed would give quiet and restore good feeling among the different sections of the Union. He argued that the President has no power to collect the revenue in the seceded States, nor call on the militia to recapture the forts. To carry on a war with the Southern Republic would require an army of two hundred and fifty thousand men, at an annual cost of three hundred millions of dollars. In conclusion he advocated such amendments to the constitution as would secure a reunion of all the States. Mr. Wilson said the administration would make known its policy through gentlemen in whom it had confidence. The debate was continued at considerable length, and finally ended in a personal quarrel between Messrs. Douglas and Fessenden. After an executive session the Senate adjourned.

MEDICINES, & C.

AN HISTORICAL FACT. The immortal Hahnemann, the founder of Homoeopathy, who stands first among the benefactors of his race, was born at Meissen, in Saxony, 1755, and died in Paris in 1843, in the 88th year of his age.

It is now a well established fact that Homoeopathy is every day gaining a stronger hold upon the minds of the people. The old system of Allopathy is fast crumbling into decay, and the world is taking a more common sense view of the matter.

These Remedies are being used with great success. The list comprises Remedies for nearly "all the ills that flesh is heir to." Price 25 cents per box. For sale in Bridgeport by LEWIS W. BOUTH.
