Phanting Trees.—Persons intending to plant trees should begin to think of the matter now, so as to be ready to enter upon the work as soon as the opening of the ground will permit. If the selection of the land, the selection of trees, the varieties to be used, and the distances apart at which they are to be set, are to be left until May, when the lark is whistling on the top of the maple, the lark is whistling on the top of the maple, the work will probably be done in such a hurried manner as to cause many mistakes. Having decided what distances shall be preserved, they may be set off, and then the holes should be dug as early as possible. It would have been better had the earth been thrown out lest fall. The hales about he was the same of the same out, last fall. The holes should be largenever less than four feet in diamet eighteen to twenty four inches deep, and is six feet in diameter, they are all the the better. The earth thrown out should be turned over two or three times, so that it may all receive portions of the rain that falls, and the energizing influences contained in the atmosphere. Under this process, that which was taken from the bottom of the hole will be greatly improved. It may answer to dig the holes only a foot deep, and spade the bottom six or twelve inches; but this process is not so thorough as that of throwing the earth entirely out. Before setting the tree, the back top soil should be thrown into the bottom of the hole, with a sufficient quantity of other black soil near to fill the hole up to within two or three inches of the surroun two or three inches of the surrounding sur-face. If it can be afforded, a little well rotted compost may be mingled in with decided advantage. In this manner, a complete root bed is formed for the new comer; one favorable to excite numerous fibrous roots, because it is rich, light, and capable of attracting both heat and moisture. In such a position, the tree will soon start into activity and vigorous growth, and will be likely to continue abit, for several years, as the roots will not be soon checked, by coming in contact with a hard and cold soil. Great care must be observed not to set the tree too low in the soil. A good rule is to leave the crown of the root just on a level with the surface. If there are plenty of roots, and one or two of them come up quite near the surface, while all the

It is a French discovery, and is called by the French Gold Oreide. It is manufac tured to a large extent in Waterbury, in this State. It bears a very close resemblance to gold in color, density, and fineness of grain; so close that it deceives every one but practical dealers or experts. Its component parts consists of pure copper, 100 parts; zino, or L PINS AND (preferably) tin, 17 parts; magnesia, 6 parts; sal ammoniae, 3.6 parts; quicklime, 1.8 parts; follows: the copper is first melted, when the megnesia, sal ammoniac, lime, and tartar in BLACKMAN'S. powder, are added little by little; the crucible is now briskly stirred for abe hour, so as to mix thoroughly; and then the zinc is added in small grains by throwing it on the surface and stirring it until it is en-tirely fused; the crucible is then covered and the fusion is maintained for about thirty-five minutes. The surface is then skimmed and the alloy is ready for casting. The fineness of grain in this alloy gives to those objects of arts composed of it a delicacy and a purity of detail that cannot be obtained from broaze. IBBON SLIDES. -A new thing. For J. C. BLACKMAN'S. The alloy is essentially duetile and malleable and can be cast, rolled, drawn, stamped chased, beaten into a powder, or leaves, or treated in any other way the artisan may desire. The discovery of this new alloy is truly wonderful, and its use will have a tenlency to place within the reach of all, the useful, ornamental and higher products of art. An immense number and amount of ar-ticles are manufactured out of this alley and sold South and West, and none but ex lent judges can tell it from gold .- Hartford

But to expose the baby's arms, members so far removed from the heart, and with such feeble circulation at heat is a most tion at best, is a most pernicious practice.

Of course, all the blood that through these arms and hands must fall from twenty to forty degrees below the temperature of the heart. Need I say that when these cold currents of blood flow back into the chest the child's general vitality must be more or less compromised? NOBLE UNION SENTIMENTS JAMES C. LOOMIS.

At such a time it is not for us to seek to petuate platforms. This is not the time for political tricks. This is the time when every man should be for his country—for his common land. I do not come here to discuss the affairs of the country, however, but to say that something should be done for the salvation of our glorious Union. We must make concessions for the sake of recon-ciliation and peace. What can we do without these towards the restoration of peace and Union?
That's the question that principally interests us.
I did not come here to inquire the cause of our troubles, but to direct your attention to the remedies and ask you to be prepared to meet the diffi-culties that surround us. I ask you, one and all every one here and elsewhere—to make prepara-tions for the advent of trouble. I ask you to call one on his neighbor to rally with him in behalf of our common country—to avert the horrors of civil war and to sustain the stars and stripes, that they shall remain the common emblem of our whole Nation's Liberty!

ABOLITION REPUBLICANISM. After the amalgamation of Greeley & Co. with Hale, Wilson, Wade, Sumner, Giddings, and other Abolition leaders, under the name of Republican, one of the first things done by the New York Tribune was the publication of a series of articles to prove, by the multiplication table and by the census returns, that the Union was maintained at an enormous sacrifice to the people of the non-slaveholding States,-that the average annual cost of its maintainance amounted to forty dollars for each man, woman and child in the free States, while the gain in the way of trade, erce, navigation, &c., derived from the Union, amounted, for each man, woman, and child, to an average of only forty cents; and consequently, that a dissolution of the Union, would result in an actual annual gain of \$39.60, on an average, to each man, woman and child, in the freet States.

As before stated, these articles have recent ly been republished, in book form, by the Garrisonites at Boston, and are now being roulated to show the propriety and rightfalness of the course of the " No Concession." "No Conciliation" Republicans in Congres and in the Peace Convention.

Thus fortified by figures, on this point, viz "that a Dissolution of the Union would be immensely advantageous to the Northern States," the Tribune went resolutely into the work of Abolition agitation, and, on the 25th of August, 1854, it boldly declared the real of which the leaders of the so-called Reblican party had in view, in these words : We contend that the abolition of slavery in the States he real object of the Republican party."

vas made that a large majority of the party tion in the States; and that being the case, the Tribune's advise was not then to under-take it, as it would involve the party in de-

our consequent triumph, invite that majority dorsements were conspicuously printed on the to go further."

Among the devices for this purpose, was the

Helper Republican Text Book. In the

opinion of Greeley and his confederates, the

time had now come, it seems, to openly take

ground for what the Tribune, in 1854, de-

States. This, therefore, was openly pro-

claimed in the pages of this book; which

following extracts from the "Compendium."

Freemen of the North! we entreat you to think of these things. Hitherto, as mere free-soilers, you have approached but half way to your line of duty; now, * * we ask you, in all seriousness, to organize yourselves as one man, under the banners of liberty, and to aid us in the extermination of slavery.—[Page 59.]

In this extraordinary crisis of affairs, no man can be at true perior, without first becoming an challitimist.

Page 59.]

Abolitionism is but another name for patriotism, and

by an equitable system or legislation, and by such other measures as may be right and proper, compel the slave-holders to do something like justice to the negroes by giving each and every one of them his freedom and sixty dollars in money; not alone for ourself, as an individual, but for others also—particularly for five or six millions of Southern non-slaveholding whites, whom your iniquitous system has debarred from almost all the mental and material comforts of life—do we speak when we say you

must, sooner or later, emancipate your slaves, and pay each and every one of them sixty dollars, cash in hand.— [Page 89-] And now, sirs, we have thus laid down our ultimatum.

And now, sirs, we have thus laid down our ultimatum. What are you going to do about it? Something dreadful of course! Perhaps you will dissolve the Union again, Do it, if you dare! Our motto, and we wish you to understand it, is the abolition of slavery, and the perpetuation of the American Union.—[Page 90.]

A profound sense of duty incites us to make the greatest possible efforts for the abolition of slavery.—[Page 99.]

No opportunity for inflicting a mortal wound in the side of slavery, shall be permitted to pass us unimproved.—
[Page 90.]

[Page 90.]
Thus terror-engenderers of the South, have we fully and frankly defined our position; we have no modifications to propose, no compromises to offer, nothing to retracs.—[Page 90.]
Our purpose is as firmly fixed as the eternal pillars of Heaven; we have determined to ABOLISH slavery, and, so help us God, ABOLISH IT WE WILL !—[Page 90.]

These extracts fully substantiate all we

have affirmed, and distinctly show that abo-

lition of slavery in the States, is the declared

object, end and aim of the book. The pub-

lication of this volume met with a most cor-

dial reception by the leaders of this new Republican party. Greeley, Bryant, Weed.

book was large, making over 400 pages, and

than a dollar. At Greeley's suggestion, no

The black god of slavery, which the South has worshipped for two hundred and thirty-nine years is but a devil in disguise; and if we would save ourselves from being engulied in utter ruin, we must repudiate this foul god for a pner deity, and abandon his altars for a helier shrine. A speedy and absolute shollshment of the whole system is the true policy of the South—and this is the policy which we propose to pursue. * * * Do not reserve the strength of your arms until you shall have been rendered powerless to strike; the present is the propertime for action; under all the circumstances, apathy or indifference is a crime.—[Page 61.]

HON. A. G. HAZARD,

Our candidate for Lieutenant Governor has long been a prominent citizen of our State, and his views of national affairs coinciding as they do with those of Mr. Loomis. is a guaranty that his efforts will be earnest and determined towards placing Connecticut

on the side of conservatism.

The other candidates for State officers on the Democratic ticket have been before presented to the people of this State, and the unanimity with which they were re-nominated show that they have the confidence of those that know them best.

DEMOCRATIC NOMNEES FOR CONGRESS.

In their nominations for Congress the Democrats have selected those who will rep. esent the Conservative and National element of the State. They are men who, elected, will use their best efforts and hearty endeavors to force back the tide of fanaticism which, like afflood, has rolled over us, and has almost swept away the foundations of our national fabric. They are those who known leaders of the party, applauded it in will prefer country to party; and who will exert their whole influence towards bringing about a re-construction of our now dissevered Union. It has been extensively circulated and read; but its price (81) is such as to forbid its universal currency. It is now proposed to reprint it more compactly and cheaply, so that one hundred thousand copies of it, may be afforded for \$16,000, or sixteen cents per copy, and thus give it the widest possible gratuitous circulation, especially in Pennsylvania, New Jersey, Indiana, Delaware, Maryland, and the other border Slave States. It is confidently believed that such circulation will be a signal and seasonable preparation for a Republican triumph in 1860, and for a SPEEDY EXTINCTION of slavery, at least throughout the present border Slave States." Governor Buckingham, by a most significant act says "No! We will not yield an Dwight Loomis says "No !-not an inch."

John Woodruff says "No !-not an inch !" A. A. Burnham says "No !-not an inch !" O. S. Ferry says "No !-not an inch !"

Such conduct discourages the Union men of the South. If these "No, not an inch" men are sustained by the people of Connecticut next Monday, it will dishearten the Union men of the Border States, who are now hardly able to sustain themselves.

But on the other hand, the whole Democratic Ticket-James C. Loomis, Alvan P. Hyde, James E. English, Rufus L. Baker, and George C. Woodruff, all sympathize with the Union men of the South, and say to them, "our votes and our influence shall be given to aid and strengthen your glorious cause. We will support any reasonable Peace measure, satisfactory to you and in no way injurious to the free States, to save the Union and bring prosperity back to our people." This alone can save our Union.

Freemen of Connecticut! This is the true issue. Be not deceived next Monday, but meet this question, so important to Connecticut, as becomes independent men.

WASHINGTON NEWS. &c.

It is stated that the Cabinet have had un der consideration the question of evacuating Fort Pickens, and there is good reason to believe that the fort will be abandoned by the federal troops within thirty days, thus removing the last immediate cause for hostilities between the two confederacies. Mr. Ferry's civil war and blood policy does not appear to be very popular among the leading Republicans in Washington.

The Commissioners of the Confederate States dined Tuesday with Mr. Corcoran, the Washington banker, in company with the foreign ambassadors. The Commissioners are, it is said, on friendly terms with the English and French Ministers-a circumstance regarded as very significant. It is late the documents. probable that England and France will recognize the independence of the Southern Confederacy, unless our existing difficulties policy, if carried out, will eventually bring about this state of things.

COST OF REPUBLICANISM.

When the Republican Party prevailed in November, Federal stocks were above par. Since that time three Loans have been made to carry on the Government,-with this

increased, -is increasing and bids fair, more or house of correct and more to increase. Our debt now is READY MADE CLOTHING AT AUC-\$80,000,000,—and we shall keep "increasing taken to restore peace and harmony to our now distracted country. Every Freeman should vote for those men who are in favor of conciliation and reconstruction.

Democrats of Connecticut! it is for you to lead off in the series of triumphs that now everywhere await the Democratic standard. In the local elections recently held in Pennsylvania and New Jersey the Democrats have swept all before them. The Abolition forces are discomfited, and already feel their doom. Their spasmodic struggles in the few days left, only indicate that the death wound is upon them, and will hasten their dissolution. Up Democrats, and at them! if we make one half gain that the Democrats of New Hampshire-from whom nothing was expected-have made, we shall carry three Congressmen and the State ticket with an oldtfashioned Democratic victory that will tell upon the whole country.

It is the duty of Democrats in each and every town to see that every arrangement is made before Monday next to poll a full Democratic vote. Do not put off these matters too long. Democrats! make a thorough canvass, and provide for bringing out every vote. Endeavor by personal, friendly solicitation to secure every doubtful, hesi-

We notice that the Union men in the old Democratic citadel of Morrison, May & Co., have flung to the breeze a banner with Loomis and Woodruff upon it, not Dwight or John, but those true, national, patriotic men, James C. Loomis and George C. Woodruff.

The Providence Post, in speaking of the performances of Sharpley's Minstrels in that city says "the violin solo, executed by Prof. J. H. Sadler, was one of the most exquisite and artistic displays." The compliment paid is richlydeserved. Prof. Sadler is

SPECIAL SENATE SESSION.

On Tuesday, Mr. Douglas resolution wa The Border Slave States are struggling for resumed, and Mr. Breckinridge made a the Union. They ask the North for a Peace speech. In his remarks he asked the Republican Senators whether they had abandoned any of the distinctive principles of their platform? Mr. Collamer of Vermont, replied. "Not that we are aware of."-Mr. Breckinridge continued to argue that the Republicans have not abandoned their principles, and were hardening and consolidating every day. They give up forts with tears : radical and aggressive men have been selected for the Government, Cabinet and foreign missions. They do not intend that slavery shall be recognized in any of the Territories. The Border States have been earnestly endeavoring to bring about a reunion. The Republicans had not met them half way. We must either drift into civil war or a peaceful separation by treaty. If the Border States hold a Convention, which seems probable, and the Northern States reject such propositions as may be essential, then fifteen States, all told, will go out, and at some distant day the new Confederacy will be, the largest on the continent. Mr. Breckinridge then offered a resolution advising the withdrawal of the United States troops from the limits of the Confederate States. Mr. Clingman remarked that he had prepared a resolution substantially to the same effect, which he read. The Chair decided that the resolution, being objected to lies over. Mr. Collamer moved that the Senate go into executive session, which prevailed, and after the executive session the Senate adjourned.

CONSUMPTIVES. An equal and normal circulation of the blood is health An abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, with improper Circulation; and from the same cause spring all minor forms of disease. To discover a certain cure then, for these diseases, the first great enquiry necessary is, What causes the blood to circulate? For centuries it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also. Acknowledging that life is the gift of the Creator, and that "in Him we live and move and have our being," we still venture the remark, that as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Every one is forward to complain of the prejudices that mislead other men, as if he were free and had none of his own. It is agreed that this is a great fault and a hinderince to knowledge.

For this fault there is no other cure than that every one should let alone other's prejudices and examine his own. He should say to himself, if others will not deal fairly with their own merits, does that make my errors truth? He that is strongly of any opinion, must suppose that his persuasion is built upon good grounds, and that his assent is no greater than what the evidence of the truth he holds forces him to, and that they are arguments and not fancy that make him se confident in his opinions. Now, after all his professions, if he cannot bear any opposition to his his opinion; if he cannot so much as give a patient hearing, much less examine and weigh the argument on the other side, it is most plain that it is prejudice which governs him. In order to get rid of this undesirable quality, (namely, prejudice,) one must not, in the first place, wish any epinion to be true until he knows it to be so in the second place, he must try whether his principles are true or not, and how far he may safely rely upon them. Then, if he arrives at a conclusion which is satisfactory to his conscience, he may safely say that he is not governed by prejudice.

CANCER CURED WITHOUT PAIN

CANCER CURED WITHOUT PAIN

AND WITHOUT THE USE OF THE KNIFE.—

I have devoted many years of time and close investigation to the cure of Cancers, and have at last an unmistable remedy for this most distressing and dangerous form of Scrotula. So successful have I been in my mode of treatment, and as certain am I of my ability to do what I promise, that in all cases where I undertake a cure, I do not hesitate to warrant that it shall be effected.

REMEMBER THAT YOUR CANCERS CAN BE CURED, AND THAT I CAN CURE YOU.

DR.BABCOCK is, the original Cancer Doctor of New England, and the only one who removes Cancers without pain.—All others are but imitators, induced by bis success to profess themselves Cancer Doctors. White Swellings, Hip Diseases, Birth Marks, Scrotulous and Mailgnant Ulcers, Diseases of the Mouth and Throat, Ulceration of the Bones, Tetter, Scald Head, and all Diseases of the Skin, PERMANENTLY CURED.

TO WHOM IT MAY CONCERN.—About two years ago, a spot made its appearance upon my nose, which, though at first I thought little of it, soon proved to be that dreaded disease, called Cancer. Dreading to have it cur out, and also having little confidence in the knife treatment, it had been growing from one and a half to two years, when seeing the advertisement of Dr. N. BARCOCK, of this city, and s-to hearing him spoken of as being skillful in the removal of Cancer by means of plasters, and that, too, without pain, I 1 at myself under his care, and in a few days learned by experience the entire truth of what had been said of him. PERIENCE.—One word to the dying should arrest
the attention and awake the alarm of Young Men in our
community, where so many are sinking under that long array
of evils that arise from that dreadful scourge, solitary vice,

which undermines the bodily health, and the mental powers.
Remember and seek the true physician, DR. FREDERICK

IN ALL ITS

IT IS PROF. O. J. WOOD'S

ORIGINAL VIGOR AND PURITY.

RESTORATIVE CORDIAL

AND

BLOOD RENOVATOR

It is precisely what its name indicates; for, while pleasant to the taste, it is revivifying, exhilirating, and strengthening to the vital powers. It also revivifies, reinstates, and renews the blood in all its original purity, and thus restores and renders the system invulnerable-to attacks of disease. It is the only preparation ever offered the world in a popular form so as to be within the reach of all.

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilirating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

CONSUMPTION, BRONCHITIS, INDI-GESTION, DYSPEPSIA, LOSS OF AP-IRRITABILITY, NEURALGIA. PALPITATION OF THE BEART, MELANCHOLY HYPOCHONDAIA, NIGHT SWEATS, LANGUOR, GID. DINESS, AND ALL THAT CLASS OF

CASES SO FEARFULLY FATAL, CALLED FEMALE WEAK. NESS AND IBREGULARITIES. THERE IS NOTHING ITS EQUAL.

Also, Liver Derangements or Torpidity, and Liver Complaints, Diseases of the Kidney, or any general derangement of the Urinary organs.

It will not only cure the debility following CHILLS and FEVER, but prevent all attacks arising from Missmatic influences, and cure the diseases at once, if already attacked.

TRAVELERS should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon change of climate and water.

As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits. LADIES not accustomed to much out-door exercise should

always use it.
MOTHERS should use it, for it is a perfect relief, taken a
month or two before the final trial, she will pass the dreadful
period with perfect ease and safety.

THERE IS NO MISTAKE ABOUT IT.

THE CORDIAL IS ALL WE CLAIM FOR IT !!! MOTHERS TRY IT.

And to you we appeal, to detect the illness or decline not only of your daughters, before it be too late, but also your sons and husbands, for while the former from false delicacy often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they too would travel in the same downward path until it is too late to arrest their fatal fail. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to Prof. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, as the remedy which should be always on hand in time of need. hand in time of need.

Read what the Press say after thoroughly testing the mater, and no one can have a doubt:

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While purises the blood and southes the nervous irritation, it it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resist the assault of disease. It is a chemical compound so skillfully combined that while it exhibitates, it does not provide the lessitude which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely seneficial, and not ill effects can possibly accompany its use. It is an infallible and speedy reheady for Loss of Appetite. Fain tness, Nervous Debility, Neuralgia, Palpitation of the Heart, Falling of the Womb, and other delicate diseases to which woman is subject. For Sickness of the Stomach, Billeus Attack, Liver Complaints, Costiveness, Dyspepsis, Consumption, and a host of evils flesh is heir to.

PROF. WOOD'S RESTORATIVE CORDIAL—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the ild of the box was removed, out flew all the ills that flesh is heir to. Fortunately, hope was found in the bottom of the box. PROF. WOOD'S RESTORATIVE CORDIAL revives the recollection of the story, for it invigorates the blood, alds the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health, so as to bid defiance to the assanits of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhibit and gas pure wine, no in jurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with Loss of Appetite, Dyspepsis, Consumption, Faintness, Glddiness, Neuralgia, Palpitation of the Heart, &c., &c., will here find an infallible panacea.—St. Louis Daily Express.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, for the cure of General Debility or Weakness, srising from sany cause; also, Dyspepsis, Nervousness, Night Sweats, Incipient Consumption, Liver Complaints, Billouaness, Loss of Appetite, Female Weakness in all its stages; also to prevent the contraction of diesese, is certainly the best and most agreeable cordial tonic and renovator ever offered to the smitcted, and so chemically combined as to be the most powerful tonic ever known to medical science. Reader, ryl. I. will do you good. We have no hesitation in recommending it, since we know it to be a safe, pleasant, and sure remedy for the diseases enumerated.

—New York Dispatch.

LOOK TO YOURSELF IN TIME.—How many in con sequence of a false delicacy suffer from suppressed, painful, or obstracted menstruation, and think because they are young that by-sand-bye nature will work itself clear from obstractions, and all come right in the end. little dreaming that the seeds of death are already germinating in the system because the vital energies are impaired, and the entire animal economy deranged, debilitated; and yet, careless of them, selves as they are, if a remedy were set beofre them which would restore all the functions of the system and re-invigorate the body, they would take it, and thus been in time to save their lives. Parents, think of this, and at once give them a boulie of PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR.—The New York Courier.

Dr. LELAND'S ANTI-BHEUMATIC

BAND,

Is the only known remedy for RHEUMATISM, GOUT and NEURALGIA, and a Sure Cure for ALL MERCURIAL D18EASES. It is a conveniently arranged Band, containing a medicated compound, to be worn around the waist, without injury to the most delicate persons on change in habits of living is required, and it entirely removes the disease from the system, without producing the injurious effects arising from the use of powerful internal medicines which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medicinal properties contained in the B and, come in contact with the blood and reaches the disease, threigh the pores of the skin, effecting in every instance a perfect cure, and restores the parts afflicted to a healthy condition. This Band is all o a most powerful anti-Mercurial agent, and will entirely relieve the system from perulcious effects of Mercury. Moderate cases are cured in a few days, and we are constantly receiving testimonials of its efficacy in aggrevated cases of long standing.
