In the first settlement of the town of Plainfield, Sullivan Co., N. H., Joseph Kimball figured as a pioneer and soldier in conquering the forest and soil. He possessed a "sound mind in a sound hody," and was like Putnam, great in an honest heart and steady course. He was a "lamb in the chamber, and a lion in the conflict." He cleared away the dense forest with his strong arm. He cultivated his forest with his strong arm. He cultivated his lands in a manner in advance of the time in which he lived, combining the occupations of law-giver, farmer, and hunter; and his encounter with the old wolf is an event which we would record alongside that interesting page of history which tells of Putnam and the wolf. An old wolf had been known to make fre-

quent visits and sojourns in Plainfield, since the first settler came into the to

The hunters with their hounds had followed. wolf, dost what it would. The hunters with their hounds, had followed the wolf into Vermont, towards the mountains, but on account of the depth of snow there, they were obliged to return. But the wolf got back as soon as the hunters, and that night killed a young cow, the favorite property of the Kimball family, on which they were depending for their winter's supply of sweet milk. This was a severe loss, and the first sight of our murdered animal to our hero was anything but pleased severe loss, and the first sight of our murdered animal to our hero was anything but pleasant. As the cow had been killed near morning, and the wolves had left without their meat of flesh and blood, he concluded to try again his steel traps. They were cantiously and ingeniously set, and he waited the result. The next morning on visiting that part of the farm, he discovered that the veritable wolf was in the trap, and was held by only two toes. The hunter was now at his wite end, needing not only courage but wisdom, to recoure the animal. The wolf could have pulled away and left his toes in the trap, and there easily escaped to the woods. The rifle was left at the house, and he dare not go home. easily escaped to the woods. The rife we left at the house, and he dare not go how lest the wolf should escape during his esence. If he made an attack with a club would at the first blow, perhaps slight wounded, pull away and be off. Kimball lieved that man had dominion over the best of the field and the birds of the air, and coluded to try his art in that direction.

The wolf's gase wa averted, and he gradually dropped his ea-shut his eyes, and laid down close to to ground. Kimball approached the wolf, a put the rope which he held in his hand around the wolf's the wolf's head, and adjusted it about the neck in a way not to be got off. He then passed the other end of the rope under the limb of a tree lying just by, making him secure. He then stepped upon the springs of the trap, bore them down, and drew the foot above the knee. above the knee.

The rope was now untied from the tree and the wolf was set under quick march for home. The family were in waiting for the father to come to his morning meal, when he neared his habitation, leading this fierce denises of the forest. the forest.

The news of the victory spread far around the country, and old and young came to see the live wolf. Some dealt blows with their the live wolf. Some dealt blows with their whips—he was set upon by a troop of dogs; but our hunter, rather than see the cruelty, despatched him with his rifle. Every one eame up to him then without fear, and with his well worn tusks, the elongated soles of his feet, his grissly appearance, they gave it as their opinion that this was the old offender, and no other than the mate to the welf which

Israel Putnam shot in the den-With Kimball, to determine was to ac plieh, believing that with man almost all

things were possible. His daring spirit was inherited by his children. The next morning after the old wolf was taken, his daughter, of the tender age of sixteen, was sent to a neighbor's of an errand at sundown, and passing over a bridge through the forest, she met in the path a huge black hear, who accound has listed at black bear, who seemed but little d black fear, who seemed but little disposed to leave the road. But our heroine walked on towards the bear, motioning him with her hand and a clear voice to be away. The bear ran up a maple tree near by; she went bear ran up a maple tree near by; up to the tree, placed her mantille about it. attaching it to the rough bark, and left her bonnet also to keep old Bruin up. At years, and the hero fived near a hundred, and sat under his own vine and fig tree—told the story of the dangers of the first settlement of New Hampshire in his defiant manner, and feasted with his friends and neighbors on the rich viands for more than half a century.

> REMEDY FOR RHEUMATISM .- Dr. Boone of Graulhet, in France, states in a letter to of Graulhet, in France, states in a letter to the Abeille Medicale, that he has long been in the habit of prescribing the essential off of turpentine for frictions against the matter, and that he has used it himself with perfect success, having almost instantaneously got rid of rheumatic pains in both kness and in the left shoulder. He adds that having several times solled his hands with coal ter and other sticky substances of the same nature, and used the essence of turpentine freely, like water, to wash his hands in, and then washed them again in soap and water, he, after drying them well, always experienced a pricking sensation similar to that which is felt on receiving electrical sparks on one's knuckles. This sensation would last about two hours; and it is to this exe ting action of oil of turpentine that he attri-butes its efficacy in rheumatism.

POPULATION OF LONDON.—If London were surrounded by a wall, having a north couth gate, an east gate, and a west gate, a south gate, an east gate, and a west gate, and each of the gates were of sufficient width to allow a column of persons to pass out freely four abreast, and a peremptory necessity required the immediate vacation of the city, it could not be accompliate the city, it could not be accompliate twenty-four hours; by the exwhich time the head of each of the tumns would have advanced no latter than seventy-five miles from the gate, all the people being in close

THE ELECTION IN BRIDGEPORT. Never before did the Democracy of Bridgeport work so well and so faithfully as on Monday, and the figures show the result of a complete and thorough organization. Notwithstanding the efforts made by the Standard and by Mr. Ferry to divide the party on old issues, the Republicans were routed, horse, foot and dragoon. Every Democrat made himself a committee man, and those to whose especial charge was given the distribution of tickets and the bringing of voters to the polls, worked with an energy unprecedented. In the first Ward the Republican majority is cut . . . from one hundred and sixty last year to arty; in the second Ward the Democratic majority is increased more than sixty; and in the third Ward more than thirty. The general result shows that Bridge. port was not unaware of the worth of her citizen who was the standard bearer of the Democracy, giving him two hundred and forty-six majority.

For member of Congress, Orris S. Ferrythe No-Concession, No-Compromise, notvield-an-inch fanatic-has two hundred and ninety-four majority against him. Conservative men of his own party did not vote for

For Senator, Franklin P. Ambler has one hundred and ninety-three majority. The perstent slander and infamous lies circulated by a corrupt, despicable politician-and believed, we are serry to say, by some-together with the fraudulent tickets that men were paid to circulate, reduced Mr. Ambler's majority below that of the State ticket; but he received enough to elect him by six bundred majority in the District.

For Judge of Probate the present incum bent is re-elected by an increased majoritya just tribute to his faithfulness as an officer and his worth as a citizen.

For Representative George W. Bacon has two hundred and seventy-seven majority The nomination of the Republicans was probably, as the Standard said, "as good a nomination as could be made under the circumstences." Considering the result, "we don't

Bridgeport has done nobly. She has answered the appeals made to her patriotism and conservatism by a voice that cannot be mistaken! Three cheers for Bridgeport!

This is encouraging.

We have glorious tidings for our friends-for the friends of the Nation-concerning Connecticut. She comes out of the battle gloriously-electing two National Democrats to Congress in place of Abolitionists-and one of them (best of all !) in place of the negro-worshipper Ferry, who by false protestations before his constituents, in every town in the district, hoped to remove the odium attaching to his disgraceful course in Congress. But the sensible portion of the voters of the Fourth Congressional District saw through his shallow arguments, and stamped him as a traitor to his country.

> The Hartford Times, in speaking of Ferry's defeat, says:

Ferry was much the ablest of the late Republican delegation. But he was bitter as gall—black as tar—a bigoted fanatic; and he steadilylvoted with little Loomis, his insignificant colleague, against his country. With amazing hardthood he came back amongst his constituents to attempt, in speeches made in every town in his District, to do away with the "legitimate odium" which he found clinging to his traitorous conduct, by denying the truth of the charges brought against him! and his protestations of "misrepresentation," and false declarations that he had urged and voted for concession, were put forth in the face of his infamous record. The people have rebuiled him—crushed him out. George C. Woodruff, a sound Matienal Democrat, and an able man, is chosen to take his place. Glorious Fourth!—a hundred cheers for you and your patrictle voters.

The following extract from a letter from St. John New Brunswick, dated March 24, shows that our colonial neighbors have had a liberal supply of snow:

We have had the most fearful snow-storm ever experioned in this colony since its settlement. There is
now at least seven leet of snow on the level, and more
probably it will average eight feet. All communication
with the country is cut off. Five mails frem Boston are
now due, and two or three days may chapse before we get
them. By letter to Frederickton had not reached there,

cleven hours. In the streets of this city the snew is
twelve to fifteen feet deep, and photographists were occupied Saturday in getting the extraordinary scenes.

FRANK LESLIE'S MONTHLY .- The April number of this admirable Magazine is before us, with all its rich contents of art and literature. The romantic and beautiful novel of "Verona Brent"is continued and the eccentric course of the high-spirited and beautiful heroine grows more and more interesting. Several other fine tales, beautifully illustrated, together with fine poems and articles of universal interest, render the contents of this number more than usually attractive. The engravings are varied and beautiful, and the steel fashlon plate and the fashion illustrations are finely executed, and represent the newest styles of every kind of ladies' apparel. It should be on every lady's work-table.-Frank Leslie promises an unusually rich number for May, new and charming features having been in preparation for some time. Sanford receives subscriptions.

By the steamship New York, from South-ampton Mach 20, which arrived at New York yesterday morning, we have three days later news from Europe.

There is nothing of importance from Great It was announced that the Great Eastern

would sail for New-York on May.

The French occupation of Syria is to be prolonged till June 5.

The Garrison of Civitella del Tronto had capitulated on the terms proposed by the

Sardinian commander. The Italian Parliament had sanctioned a proposition to request the French Emperor o withdraw his troops from Rome. The Hungarian Diet is to assemble at

Buda, and then remove to Pesth, on the other side of the Danube. In Russia the Imperial edict emancipating the serfs was issued on March 3. The emancipation, however, will not be complete until the expiration of two years, and during that period the serfs will be called "tributary

The affairs of Turkey were still in great confusion. The Grand Vizier had tendered his resignation, but the Sultan had refused to

The rebel natives of New Zealand had been defeated in a fierce engagement, with a loss of 200 killed and wounded. Breadstuffs had advanced. Consols, 913

A more delighted, satisfied audience, never sat within the walls of Franklin Hall than assembled last evening to witness the extraor dinary performances of the "Here of Niaga ra"-all that had been heard and said of the dauntless Blondin, fell far short of the reality-he cannot be described-his exercises on the rope are mirecles of daring and intrepidity-and the most surprising part of it is, that he never makes a false step, or has met with the most trifling accident. To night is his last appearance here. Those who miss seeing him will regret it. Those who take advantage of the opportunity will have some-thing to speak of and remember for the rest of their lives. We must not omit favorable mention of Madam Blondin's singing. It was chaste, pleasing and agreeable and won loud plaudits from the audience. A very attractive programme is presented to night, and we akvise all to go and judge for themselves.

FIRST GREAT BATTLE!

1.000,000 Lonves Bread Demolished and 1,000 BARRELS OF CRACKERS TAKEN PRISONERS!

Proclamation of the People. Preclamation of the People.
Fellow Citizens of Connecticut generally and Ladies and Gentlemen of Bridgeport in particular:—Another encroachment of slavery has been made upon the North, even this good old State of Connecticut. Southerners of the most Southern kind are running off barrels and barrels of Wallace's Crackers periodically. Nearly every mail brings orders for Wallace's Crackers, to be distributed to Southern people, thereby threatening to stave us out. We can endure this no longer, and therefore we do firmly declare to the United States and New Jersey that herefiter, we, the people of Connecticut, intend to maintain our rights and buy up it wellowed States and Cacke and Crackers of the Government, and effects of the Government or any one else. THE PEOPLE.

Call and look at those beautiful Cakes the Prince of Wales admired so much when he was here, which Wallace has on exhibition and for sale for Weddings, Parties, &c. One look at the many good things always on hand and for sale at Wallace's will give your face a deligitul expression to sit for one of Rodgers superior Ambrotypes.

THE GREAT INDIAN REMEDY FOR FEBALES. DR. MATTISON'S INDIAN EMMENA
GOGUE.

This celebrated Femate Medicine possessing virtues unknown of any thing also of the kind, and proving effectual after all others have failed, is designed for both married and single ladies, and is the very best thing known for the purpose, as it will bring on the southly sickness in cases of obstructions, from any cause, and after other remedies of the kind have been tried in vain. It will also present obstructions.

MEDICINES.

OVER ONE THOUSAND BOTTLES have been sold within eighteen months without a single fashers when taken as directed, and without the least in jury to health in any case. It is put up in bottles of three discrenistrengths, with full directions for using and sent by Express, closely scaled, to all parts of the country.

PRICES—Fall strength, \$10; half strength, \$5; quarter strongth, \$8 per bottle.

TREMEMBER! This medicine to designed expressly for OBSTINATE CASES, which all other remedies of the kind hase failed to cure; also that it is warranted as represented in SYRRY RESPECT, or the price will be refunded.

THE STRENGT OF THE PROPERTY OF THE WARRE OF IMITATIONS. None genuine or warranted unless purchased directly of Dr. M., or at his Office. Prepared and sold only at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES, No. 23 Union Street, Providence, R. I.

This Speciality embraces all diseases of a preste nature, This Speciality embraces all diseases of a preste nature, both of MEN and WOMEN, by a regularly educated physician of twenty years' practice, giving his choic attention at them. Consultations by letter or otherwise are strictly conditional, and medicines will be sent by Express secure from observation, to all parts of the United States. ET it is estimated that more than \$100,000 is paid annually to awindling quacks in New England alone, without the least benefit to those who pay it. All this comes from believing the false statements of men who live by deceptions, having no medical education whatever.

ET Dr. M. will send free, by enclosing one stamp as above a Pamphlet on DISEASES OF WOMEN and on Private Diseases generally; also Circulars, giving full information, with the most undoubted references and testimoniats, without which no advertising physician or medicine of this kind is deserving of ANY CONFIDENCE WHATEVER.

DR. MATTISON is the only educated physician in Providence, if not in New England, who makes a speciality of Private Diseases, and he gives the very best references and testimonials, both of his honesty and his skell. If there ARE any others, LET THEM LO THE SAME, otherwise, you rad denote by mail promptly attended to. Write your address plainly, and direct to DR. MATTISON, as above.

CONSUMPTIVES.

An equal and normal circulation of the blood is health an abnormal, that is to say, an excessive or deficient circulation or staynation of the blood, is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Disease of the Heart, &c., by the same cause, viz:—improper Circulation; and from the same cause spring all minor forms of disease. To discover a certain care then, for these diseases, the first great enquiry necessary is, What causes the blood to circulate? For centuries it has been a matter of much study among scientific and medical men: and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also. Acknowledging that life is the eight of the Creator, and that "in Him we live and move and have our being," we still venture the remark, that as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is tracable to a fixed cause, which remove or destroy, and death, the certain discovery and the red corpuscies of the blood show them to be compounds of iron, sulphur and phosphorous.

The air we breathe, we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a metal, evolves or emits ortion of oxygen.

Oxygen brought in contact with a metal, evolves or emits

red corpuscies of the blood emits a securicity, when come in contact with the heart causes it to contract, and hence power which expels the blood and sends it tingling through the remotest arteries. What then, are the causes of C SUMPTION, DROPSY, PALSY, FARALYSIS, ST. VIJ DANCE, DYSEPSIA, EPILEPSY, FEVER AND AG &c. 7—a deficiency of the red corpuscies containing the sulphur and phosphorus, which causes a deficiency of trictly, and consequently an abnormal circulation. ISTEN TO THE VOICE OF EX-ISTEN TO THE VOICE OF EXPERIENCE.—One word to the dying should arrest
the attention and awake the alarm of Young Men in our
community, where so many are sinkine under that long array
of evils that arise from that dreadful scourge, solitary vice,
and other indiscretions and youthful indulgences. Listen,
young men, ere it is too late's and suffering in enervated
youth a premature old age arising from that secret habit
which undermines the bodily health, and the mental powers.
Remgamber and seek the true physician, DR. FREDERICK
MORKILL, of No. 9 Howard street, Boston. Do not procrastinate—but go early, go when unerring symptoms tell
you your condition, when you are sensible of Weakness in
the back and limbs, loss and prostration of the animal

A DISTINGUISHED ST. LOUIS PHYSICIAN WRITES

HAIR RESTORATIVE.

St. Louis, July 10th, 1860.

O. J. Wood, Esq: — Dear Sir. — Allow me the pleasure and satisfaction to trausmit to you the beneficial effects of your HAIR RESTORATIVE, after a trial of 5 years. I compared the property of th o. J. Wood, Esq.:—Dear Sir.—Allow me the pleasure and satisfaction to travamit to you the beneficial effects of your HAIR RESTORATIVE, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time! have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its failing, and to three weeks time there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scale perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good as yours, and selling at shout half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word as several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with mere than two thousand persons that have used your preparation with perfect success—so

soon discovered the dandruff removed, and my hair, that was failing off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till it have used three of your small bottle and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair as any man, or as I had in my youthful days, when a boy in the hills of western Viriginia. My head is entirely clear of dandruff, and the has ceased entirely falling off and is as soft and fine, and feels arolly, as though it was just from the hands of a French champooer. Many of my acqualitances frequently say to me, "Builer, where did you get that fine wig?" I tell them it was the effects of your Restorative. It is simost impossible to convince them that it is the original hair of the same old gray head.

habit of puffing every new discovery, for in nine cases of ten they are quack nostrums, but we take great pleasure in recommending Professor Wood's article to all whose halt is falling off or turning gray. Our well-known contributor, finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all timore Patriot.

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimposchable evidence, to possess great efficacy as a restorer of the hair to its prestine vigor. Where the head had become almost sold because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for alclasses. Its Ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is bacapable of doing harm, as its component elements are perfectly innocuous.—Boston Transcript, April 22, 1859. WOOD'S HAIR RESTORATIVE .- Unlike most specific

A Genuine Boon.—In our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadditerated in its composition and infallible in its curstive effects, with what justice we leave our readers to determine. In one instance, however,—Prof. Woods Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our endorsement as all the its inventor and vender claims it to be. Its effect upon a falling head of hair is universally known to be magical. Like time or guano on exhausted land, it brings the crup wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely-growing hair to try the Restorative.— Columbia Spy

ALI. HAIR DYES ABABDONED.—Wood's GREAT ARTICLE HAS TAKEN THE FIELD.—Professor Wood stands on an embence no chemist, whose attention has been turned to inventing a hair tonic has ever before reached. His fame is sudden but world-wide, and thousands who have worn wige or been baild for years, are now, through the use of this preparation, wearing their own natural and inxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties, its diseases, and how to restore the decaying vitality of that ornament; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost hald and quite gray at the age of thirty-seven, he restored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world. Get WOOD'S HAIR RESTURATIVE, and take nothing else.—New York Day Book.
