himself to the executioner; "does my looks trouble you?" "I pray your majesty to arrange them under your bonnet," replied the man bowing. The king arranged them with the aid of the Archbishop. "I have for my part," said he to him, "in taking this trouble, good causes and a merciful God."

WALSH'S PREPARATIONS IN NEW YORK HARBOR.

For a few days past, the U. S. Government Agents have been very busily engaged at New York in chartering and equipping all the spare vessels which money will obtain. As the Government operations are conducted with great secrecy, it is impossible to tell exactly how many vessels have been recently purchased or chartered, and we can only speak positively of those which are now coaling and preparing for sea.

The steamships which are known to have been secured by the Government are the Atlantic of the North Atlantic Steamship Company's Line, and the Ariel, of Vanderbilt's Line. There are also reasons for believing that the Baltic, of the Collins' Line, has been chartered.

The Atlantic cleared yesterday afternoon, for Brazos Santiago. She was laden with provisions and stores. Her real destination cannot be known, as there are very few, if any, U. S. troops there now, and there is already a surplus of provisions at that station. It is thought that her destination is Fort Pickens, and it was expected that she would take troops from Fort Hamilton and Fort Lafayette under the cover of the night, and would sail before this morning.

The Ariel and the Baltic will probably not sail before to-night. Each of them carry about 600 men also. Their destination is supposed to be the same as that of the Atlantic, and also the Pawnee, which (the telegraph announces) is ordered to sail from the Washington navy yard to-day.

The steamer Illinois, which had been advertised to sail to-day for Southampton and Havre, has been required for Government purposes, and will sail to-day or to-morrow under sealed orders, as a Government vessel.

The revenue cutter Harriet Lane is lying at quarantine, within a short distance of Fort Hamilton and Lafayette. It was rumored yesterday, that she was on the lookout for slavers, but it is far more probable she is waiting to take her quota of men on board for Fort Pickens. She can carry about one hundred men in addition to the ninety who constitute the crew.

A considerable quantity of eleven-inch shells, grape and canister, gunpowder, purser's stores, &c., was put on board the United States steamer Powhatan at the Brooklyn Navy Yard yesterday, and everything being ready for a start, at six o'clock she was hoisted out into the stream, and will leave to-day.

The Bonanza will be out of the dry dock in two or three days time, and, together with the Wabash, will be soon put in a way for completion, ready against any orders that might be received to place them in commission.

The destination of the vessels named, with the troops, &c., is unknown to all except the President and his Cabinet. Even the officers of the vessels themselves cannot tell where they are to go until the sealed orders under which the vessels sail are opened at sea.

The New York Express comments thus upon the course Mr. Lincoln has pursued the past few days: "Mr. Lincoln under the whip and spur of the abolitionist wing of his Cabinet, says, indeed, that he had held to 'hold the forts, collect the revenue, and enforce the laws.' Any such undertaking, of course, presupposes civil war, and it is scarcely possible, by executive usurpation, Mr. Lincoln has no constitutional power to collect the revenue in any part of the seceding States, without so much as notifying the Federal government to whom the case was referred to the Federal Court, and the decision, it seemed to us at the time, was a plain principle in no sense, and it is not surprising that Mr. Lincoln's Attorney General, Mr. Bates, on dissent, Mr. Lincoln's Attorney General, Mr. Bates, on dissent, Mr. Lincoln's Attorney General, Mr. Bates, on dissent."

WASHINGTON AND SOUTHERN NEWS.

It is understood that the Secretary of the Treasury will receive offers for Treasury notes redeemable in two years, for the balance of the loan not taken under the last notice. An offer has been made for two millions, at an eighth per centum premium.

A Washington correspondent of the Herald states that a call for an extra session of Congress will be issued within sixty days.

It is said that the excitement that prevails in Washington among all classes in consequence of the war prospect is indescribable. The radical Republicans are in high glee at the display of administration vigor, and walk about with an air of defiance.

The reports from Washington and the South this morning have a decidedly belligerent aspect, but nothing further showing the ultimate designs of the administration has transpired. The Washington dispatches go to show that the Chicago Platform is to be maintained at all hazards, even if the last nail must be driven into the Union coffin—by driving out Virginia and the rest of the slave States! Thus we go on, on—from bad to worse.

A Washington correspondent of the Journal of Commerce says it is strongly rumored that there are serious dissensions in the Cabinet upon the subject of Southern affairs. The Administration is divided in its councils upon the questions of the day. Some of them look to the preservation of peace, the pearl of great price—which once lost, may not be recovered in this country for generations to come; others look for no solution of the difficulty but war, and care for no other.

A gentleman who has just been appointed to a highly important foreign mission, called on the President a few days since, and told him that he would resign his mission if the President would confer on him a mission of peace to the South. He desired to be the bearer of an order for the immediate evacuation of Fort Sumter.

The Legislature of Kentucky adjourned April 5.

PAYING OFF THE STATE DEBT—INCREASED TAXES!

When the Democrats came into power in 1850, remarks the Hartford Times, they found a State Debt of \$58,000 pressing upon the Treasury. They reduced the State Tax, and paid off the debt, leaving in 1854 a surplus in the Treasury. Their opponents came into power in the Spring of 1854. They soon used up the surplus, increased the State Tax, and made another State Debt.

Now, the Republican press are boasting that they have finally paid off this debt. But how? They increased the taxes a second time, and have paid the debt created by the opponents of the Democracy by drawing an extra amount of money direct from every Town Treasury in the State. The debt of England might be paid in a similar manner. Only put on taxes enough and finally the debt would melt away, whilst the people would be made to pay the piper.

The Democracy policy was to reduce the taxes, and make no debt, but to pay off that of their opponents. The policy of the opponents of the Democracy has been to make debts, and increase the taxes to pay off of the money they have squandered.

NEW BOOKS.

FRANZOPOLY, or WHAT COMES OF IT; by Frank B. Gowdich. New York: Russell & Carter. This little work is a comedy in five acts. It is finely written—running over with all manner of fun and all kinds of witticisms. The author introduces the various hobbies and follies of the day and treats them in a very sarcastic manner—the American passion for flirtation being the basis of the plot. The language is perhaps a little free, but the play as a whole, is exceedingly entertaining, and would meet with great success if put upon the stage at one of our popular theatres. For sale by Sanford.

LECTURE MONDAY NIGHT.

John B. Gough's lecture upon "Street Life in London" is announced at the South Church for next Monday evening. Those who have heard this lecture and are acquainted with Mr. Gough as a public speaker, pronounce it the best effort of his life; and we think those who anticipate hearing Mr. Gough upon this occasion will do well to go early, as we learn the sale of tickets promises a crowded house.

The New London Star, in speaking of the results of the late election in this State, remarks thus: "But the most glorious victory is the defeat of Orville S. Ferry in the Fourth District. By this defeat, one of the most able and energetic Abolitionists of New England, and the most offensive one that ever disgraced the list of the good men of the State. It is a glorious omen of the good time coming. The result then is far from discouraging to the Democrats. The Abolitionists have lost ground. They will continue to lead ground, and a thorough organization of the Democracy will next year sweep them from existence."

Since the State of New York was called upon to pay \$357 for liquors drunk at the Delavan House, in Albany, in one day, by Abraham Lincoln and his suite; and for Congress water enough to soak up the head-aches next morning; and \$150 for broken furniture, stores included, which were smashed in the drunken spree—since these facts and figures have been made public, the Hartford County Temperance Society have held a meeting and appealed with devoted earnestness for moral aid to help their cause. No wonder.

The Standard man appears to feel very bad over the Rhode Island election. He sees that the Republican party is tumbling to pieces, and does not know what sort of a platform Ferry & Co. will next call upon him to support next. Poor fellow!

We learn that the Republicans of this city will, the coming week, express their opinions in reference to the claims of the various claimants for the Post Office appointments, &c.

Authentic statements show that there has been no exaggeration in the accounts heretofore published respecting the massacres committed by the Druses in Syria.

According to a document prepared by the Central Committee of Assistance in London, from information supplied by the Turks themselves, the number of Christians who lost their lives is sixteen thousand, including women and children. The number of women and young girls carried off and sold to the Turks is three thousand. The number of Christians of all sects reduced to ruin by these events is seventy thousand. One hundred and fifty towns and villages, with the churches, monasteries, and schools attached to them, were pillaged, burnt, or destroyed. The houses of the Christians destroyed at Damascus are not included in this return. The trial of the Druse chiefs is much embarrassed by the refusal of many of the Christians to testify, unless guaranteed protection from the vengeance of their persecutors.

If the Farmer, Times, &c., can enjoy such a victory, we hope they will live to enjoy a great many such.—Standard Man on Rhode Island.

We hope we shall too. Abolitionism was completely overthrown in Rhode Island on Wednesday. In fact it has received a death blow in that State. We trust we shall live to see the time when every Abolitionist will be looked upon in the same light as they formerly used to be.

The result in Rhode Island is particularly gratifying, as it is an approval of the course of their Peace Commissioners to Washington, who led off in holding out the right hand of fellowship to the South.

Padelford, the Abolitionist, for Governor, was defeated one year ago by Sprague, the Democratic and Union candidate, by 1,460. This year the Republicans threw Padelford overboard and put up James Y. Smith, a more conservative man, in his place; but they are now beaten by 1,642, and it would have been 2,500 if Padelford, the John Brown-ite, had been retained. The tide rolls on. The voice of the People is against the No-Compromisers.

The Democrats of Norwalk fired one hundred guns on Thursday in honor of the success of Woodruff for Congress over Ferry.

A tragical affair occurred in Stamford, April 2. The circumstances are as follows: Some three weeks since Mr. Frederick A. Smith was taken with a severe attack of lung fever, producing a slight degree of insanity, but not such as to cause any alarm; but on April 2d his wife was called from the room for a few minutes, leaving none with him but her mother. As she came back she was met at the door by her husband, who told her that he had killed her mother—a lady named Mrs. Webb. By her cries the alarm was given, and upon entering the room the deceased was found lying upon the floor, water in her blood. Her head was severely cut and bruised, which had been produced by a heavy hoe in the hands of her son-in-law, and remained so for about thirty six hours, when she expired. This lamentable occurrence, which has plucked the family in the deepest affliction, was entirely the result of mental derangement. Mrs. Webb was but ninety years old.

The following list comprises the Connecticut names on the scheme of the Junior Exhibition held just at the Yale College: Disertation, "Sir William Wallace," by Charles Henry Rowe of Farmington. Oration, "The Life of the Agriculturalist," by Fredrick Augustus Ward of Farmington. Oration, "Sicuturam," by Thomas Kirby of New Haven. Disertation, "Lord Bacon," by Wm. Lewis Mason of Hartford. Oration, "William the Silent," by Grosvenor Starr of New Haven. Disertation, "Giuseppe Garibaldi," by Charles Woolsey Coit of Norwich. Disertation, "Manliness," by Daniel Hemenway of Suffield.

A man named Falvy, twenty-one years of age, threw himself across the track directly before the engine of the morning train from Hartford April 4, near Walden's station, in South Windsor, and was instantly killed. He has been deranged lately.

A contract for building a new City Hall has just been closed in New Haven. The structure is to cost \$80,135, exclusive of gas, heating arrangements &c., which will carry the expense up to about \$100,000.

NEW SUMMARY.

The Wisconsin Banks, forty-two of them, are "thrown out" at Chicago, as were forty-two Illinois Banks. The currency of the North-West, which has long been in a bad way, seems to be getting worse. There are in Wisconsin about eighty banks, so that over half their number have gone by the board.

The fugitive slaves seized at Chicago on Wednesday, and taken to Springfield for examination, have been delivered up to their owners and taken to St. Louis.

Rev. Haman Humphrey, ex-president of Amherst College, Mass., died at his residence in Pittsfield, April 3, aged 81.

The Legislature of Kansas has chosen as United States Senators two Republicans, Gen. Pomroy and James H. Lane.

DR. HALSTED AND HIS PRACTICE.—Our readers and the public are not unfamiliar with the name of Dr. Halsted, the proprietor of the famous Round Hill Water-Cure, in Northampton, Mass. The Doctor's treatment of disease known as the "Motorship system," has produced wonderful and gratifying success where all others signally failed. This is especially efficient where the body is debilitated and "run down." It is also of marked merit in the cure of diseases incident to females, as many in this city can testify. We are knowing to many surprising cures effected by the doctor, and in cases where other physicians confessed themselves unable to accomplish any good. Being a physician of professional and scientific attainment, and having had the benefit of large experience and extended practice, he can be consulted by all with entire confidence. His speciality, we should state, is the treatment of female diseases.—Boston Daily Atlas and Bee.

"Do you belong to this church, sir?" queried a gentleman to a friend who was one of the heavy men of the town where the other was visiting, and who seemed much interested in the church where they had just been attending. "No, sir," replied the rich man, "quite the reverse, for the church belongs to me."
