HUNTING IN THE ARCTIC REGION EXCITING SPORT WITH THE WALRUS.

Summoned on deck at five A. M., a large

herd of walruses being reported from the masthead. They were a long distance off, and were not visible from the deck; but, as it was dead calm, Isaac said we had better go up to them in the boats for fear of fog con on again, or some other boats b then started with boats full man had a pleasant row of four or five miles over calm water quite free of ice, and were cheer-ed for the better half of the distance by the sonorous bellowing and trumpeting of a vast number of walruses. We soon came in sight of a long line of low flat icebergs crowded sea-horses. There were at least ten of these bergs so packed with the walruses that in some places they lay two deep on the ice! There cannot have been less than three hundred in sight at once; but they were very shy and restless, and, although we tried every troop in succession as carefully as possible ve did not succeed in getting within ing distance of a single walrus. Many of them were asleep; but there were always some moving about, who gave the alarm to their sleeping comrades by flapping them with their fore feet, and one troop after another managed to scuffle into the sea, always just a second or so in time to avoid the deadly harpoon. When there are so many together there is always a practic fair change. deadly harpoon. When there are so many together there is always a pretty fair chance of securing some by "jaging" them in the water; that is to say, by perseveringly rowing after them as hard as possible, and keeping on in the same direction they appear to take when they dive; if there are calves in the herd, they cannot go much faster than the boat, if so fast; also the calves must come up to breathe much more frequently than the old ones, and the whole herd generally ac-commodate their pace to that of the old cows with young ones. In all my sporting experience I never saw anything to equal the wild excitement of these hunts. Five pair of oars, pulled with utmost strength, make the boat seem to fly through the water, while perhaps a hundred walruses roaring, bellow-ing, blowing, snorting, and splashing, make an acre of the sea all in a foam before and around her. The harpooner stands with one foot on the thwart and the other on the front locker, with the line coiled in his right hand, and the long weapon in both hands ready balanced for a dart, while he shouts to the crew which direction to take, as he frequently, from standing upright in the boat, can see the walruses under water.

The herd generally keep close together, and the simultaneousness with which they dive and re-appear again is remarkable—one moment you see a hundred grizzly heads and long gleaming white tusks above the waves; they give one spout from their blow-holes, take one breath of fresh air, and the next moment you see a hundred pair of hind-flip-pers flourishing, and then they are all down. On, on goes the boat as hard as ever we can On, on goes the boat as hard as ever we can pull the cars; up comes the sea-horses again, pretty close this time, and before they can draw breath the boat rushes into the midst of them; whish! goes the harpoon; birr! goes the line over the gunwale; and a luckless junger, on whom Christian has kept his eye, is fast. His bereaved mother charges the boat instantly, with flashing eyes and anorting with rage; she quickly receives a harpoon in the back and a bullet in the brain, and hangs lifeless on the line. Now the junger begins to utter his plaintive grunting bark, begins to utter his plaintive grunting bark, and fifty furious walruses are round the boat and fifty furious warruses are round the boat in a few seconds, rearing up breast high in the water, and snorting and blowing as if they would tear us all to pieces. Two of these auxiliaries are speedily harpooned in their turn, and the rest hang back a little, when, as bad luck would have it, the junger gave up pooning, and the others, no longer attract by his cries, retire to a more prudent distan But for the "untoward" and premature cease of the junger, the men tell me we have had more walruses on our hand we could manage. We new devote our atten-tion to "polishing off" the two live walruses tion to "polishing off" the two live walruses
—well-sized young bulls—who are still towing
the heavy boat with their two dead comrades
attached, as if she was behind a steam tug,
and struggling madly to drag us under the
icebergs. A vigorous application of the lances
soon settles the business and we now with
some difficulty tow our four dead victims to
the nearest flat iceberg, and fix the ice anchor,
by which with the powerful aid of block and
trackle, we haul them one by one on the ice tackle, we haul them one by one on the ice and divest them of their spoils. Meantime, Lord David's boat is carried past us, at eight miles an hour, in full tow of two enormous

god, a much more effective weapon in the while we were engaged in outting up these walruses, there were at least fifty or more surrounding the iceberg, snorting and bellowing, and rearing up in the water as if smelling the blood of their slaughtered friends and ourious to see what we were doing to them now They were so close that I might have shot a dozen of them, but asthey would have been sure to sink before the beat could get to them. If were not so cruel as wantonly to take their was not so cruel as wantonly to take their lives. When the walruses were all akinned we followed the herd again with success, and when we left off, in consequence of dense fog suddenly coming on, we had secured nine altogether—a very fair morning's bag, we thought.

DISAGREEABLE RESULT OF A BEAR BATTLE Many poor people have been left to perish miserably on these bleak and desert islands, by accidents arising from fog, ice, currents, and brandy. One notable case of a somewhat and brandy. One hotable case of a state wards visited, about thirty miles to the south-wards visited, about thirty miles to the southwest of this one. A great many wal had been killed on this island, the previous season, and a small sloop from Hammerfest came to the island for the chance of finding bears teeding on the carcases. They found a perfect flock of bears—upwards of fifty—congregated on the island, holding a sort of carnival on the remains of the walruses. The crew of the vessels consisted, as is usual of ten men, of whom the skipper and seven others landed to attack the bears, after having anchored their sloop, securely as they thought, to a large grounded iceberg close to the island, and given the two men left on board strict injunctions to keep a good lookout.

#### HUNTING THE POLAR BEAR.

We got to within about five hundred yards of the bears before they perceived us. The old one stood upon her hind legs like a dancing bear, to have a good look at the boat, and a nent's inspection seemed to convince her that it was time to be off. She set off at the top of her speed, with the two cubs at her heels, along the smooth surface of the ice. Lord David, although an excellent runner, could not keep up with them, so he got into the boat again, and we rowed with might, and main to keep in sight of the bears, but they got far ahead of us, and the weather being rather thick they had got nearly out of sight, and we began to think they would beat us, when luckly they got to the end of the strip of smooth "fast" ice, and before them lay a ice, and before them lay a great expanse of soft mud. intersected with erous little channels of water, and with much rough ice left by the tide aground amengst it. \* \* We had got the boat into a long narrow channel amongst the mud, which contained water enough to float her, and we were now rapidly gaining on the bears, when all of a sudden the boat ran hard aground, and not an inch further would s. Lord David fired and struck the old bear in the back, completely paralysing her; we then scrambled through the icy mnd up to where she lay, and dispatched her. The cubs, quite black with mnd and shipering s,quite black with mud and shivering with cold, lay upon the body of their mother, growling viciously, and would not allow us to touch them, until the men, bringing a couple of the walrus-lines from the boat, colley dogs, and no sooner did they feel lves fast, than, quite regardless of our presence, they began a furious combat with another, and rolled about amongst the they were quite exhausted.

I before mentioned a strong instance of

maternal affection on the part of a walrus; and this old bear had also sacrificed her life to her cubs, as she could have escaped without difficulty, if she had not so magnanimously remained with them ; but I am sorry now to have to record the most horrible case of filial ingratitude that ever came under my observation. When we proceeded to open the old bear for the purpose of skinning her, confine the test to those who voted for Mr. the two young demons of cubs—having now, by a good mutual worrying, settled their es with one another-began to devour their unfortunate and too devoted parent. and actually made a hearty meal off her too bad for Mr. Seeley to make the distincsmoking entrails! When we finished skinning her, the cubs sat down upon the skin lutely refused to leave it; so we dragged the skin with the cubs sitting on it like a sledge to the boat, and after another tussle with them, in the course of which they severely bit and scratched some of the men, we got them tied down under the thwarts of boat, and conveyed them on board the On deck there lay the skin of the cubs on being hoisted up seemed at once to recognise in it the jacket of an acquaintance -perhaps their papa's-and settling themselves quietly down upon it, they went to sleep immediately. In the course of the day we got a sort of crib made for them on deck out of some spare spars and pieces of drift-wood, and while they were being thrust into it they resisted so furiously that one could ost imagine they knew they were bidding of the Republican party. dieu for ever to the fresh breezes and the icy waters of Spitzbergen.

There were seven or eight huge fellows all lying close to the outer edge of the ice, and we first opened approaches in from against them. They were very shy, and would not allow the boat to come within shot; but no sooner had they divided into the sea than ortunate habit of curiosity got the etter of them, and every one of them came

While they were in this happy state the additional vexation of seeing them sink of oblivion to bears, icebergs, and things in out of reach of the harpoon, just a second of general, one of the sudden dense fogs of the time to late. We managed to get hold of north came on; the tide rose, the iceberg three immense fellows. My harpooner most culpably missed his stroke at another, as the boat shot past him while he lay floating on the surface, and the iron "drew" out of hunting party had thought nothing of the lifth after he was fairly struck. Three of fog, as they imagined the iceberg to be fast them sank in water so shaw that we easily so when they had flensed all their bears, they felt the bottom with the harpoon, but it was and shaking the solid ground; now expand-

#### WE ARE FIGHTING FOR PRINCI-E" # . HC ." Such was the proud boast of the Republi-

can party in the campaign last fall; such was their talk during the last session of Congress; such was their assertion during the campaign this spring. The terms they have applied to the Democratic party of being the spoils party, as having nothing to fight for but a retention of the spoils, deceived many poor honest souls into the belief that the Republican party was guided by pure philanthropy and disinterested patriotism. The Democratic press of this State was stigmaenough to throw the latter overboard, and tized as a "subsidized press;" from which then leut them a mate and two men to assist the people were led to infer that it could not speak its free sentiments; and also that the Republican press would reject with holy horror any offer which might be made its exasperated comrades and the owners of the members of any government office or executive patronage. But now that the battle has been fought and the victory won by our opponents, it seems that they are as solicitous for office as the "corrupt Democracy."

If those who so innocently have believed that the Republican party is composed entirely of disinterested patriots would have visited Washington Hall on Saturday evening, their belief would have undergone a radical change. Boys at a district school waiting eagerly for the core of an apple which another is munching, a dozen animals after one bone, or a flock of hens chasing one with a worm in its bill, would these disinterested true-to-principle philanthropic patriots. David F. Hollister, ex-Judge of Probate, was in the chair, to preside over the settling of the Republican estate. The names of the different candidates were mentioned, and their respective claims were presented by their various friends. We were not present at the opening of the meeting, but when we entered Wm. K. Seelev. she go. This seemed as if it would turn the fate of the day in favor of the bears, as we Esq., was addressing the audience. A resedid not think it possible to overtake them on lution was pending in regard to the time at foot amongst the mud, but, there still remain-ed the chances of a long shot, as the boat had which a ballot should be taken for a candided within about two hundred yards date for Postmaster. Some wished it to be taken on Tuesday evening of this week and others on Tuesday evening of next week. Mr. Seeley was advocating the longest period, in order to give the parties time to canvass among their friends. He spoke eloquently of our friend Dunham, who at great inconvenience to himself had advocated the Republican cause in the towns of this Senaw nooses over their heads and secured torial District. Mr. Seeley did not go so far as to state the result of Mr. Dunham's efforts, guided we suppose by a proper regard for the feelings of Esquire Sidney B, who sat but a short distance from him. Mr. Seeley mud, biting, struggling, and roaring, until thought that in voting it should be confined to those who had voted for Mr. Ferry, for there were those who claiming to be Republicans had stabbed the Republican party in its most vital part. A Republican near by our reporter exclaimed, "then I can't vote." Accompanying this portion of Mr. Seeley's remarks there was applause, mingled with hisses. It was unkind too in Mr. Seeley to

tion that he did. Lewis Nathaniel Middlebrook, ex-Major of est time, in order that the defeated candidates could not say that the successful one had taken any advantage of them. Why Major, we are astonished! Is it possible that such bear I had shot the day before, and the two a thing could be hinted concerning the moral, respectable, honest Republican party.

Dr. A. J. Jaques, stump orator, pulse feeler, symptom expounder, and physician in chief of the Republican party, took upon himself the office of surgeon to the same, and endeavored to set the compound fracture from which that party is now suffering. He en- hair"-having no hair to yield, the crop bewithin shot; but no deavored to quiet the patient by administering an anæsthetic in the way of an application of a few witticisms on the Democratic and the boat, popping up their party, and then clapped on a plaster of con-"Jack-in-the-box," and flourish- gratulation that the Republicans had never gratulation that the Republicans had never they divided again. Henry Elliott next made a speech. have heard eloquence compared to a river. At first a rivulet flowing among violet covered banks; now leaping and dancing from rock to rock, and sparkling in the sunshine then meandering through fertile meadows; now plunging like a cataract over some abyss so muddy that we gropped unavailingly for ing wide and flowing majestically with scarce a ripple, reflecting upon its surface the sky and clouds, the forests and towns upon its banks, as an orator does the feelings and sentiments of his hearers. But this gentleman's eloquence is like that of a sluiceway; the waters long dammed up, when the gate is opened, rush impetuously along, irresistibly though monotonously, and when the grist is ground and the gate shut down the waters are again pent up, waiting for another customer to come. Mr. Elliott also wanted peace and harmony.

Other speeches were made, and the question was finally decided by voting that a ballot be taken one week from Tuesday for a candidate for Postmaster, and that none but Republicans vote.

The question then came up as to whether a majority or plurality vote should decide the result. It was voted that a majority vote should decide. The inquiry was made as to what should be the proceeding in case no choice was made on Tuesday. It was voted that another trial be made on Thursday.

The irrepressible, impetuous, eloquent Ja ques,-the inquisitive, insuperable Jaqueswished to know if the same result occurred

on Thursday, what would be the course then. Some one replied, but among the exclama tions of Republicans of "what tomfoolery," 'what boy's play," "the party will go to thunder," "the party is gone to the d-l," we could not hear what was said.

It was voted that the polls open at nin o'clock, A. M., and close at eight P. M.

We have seldom witnessed so ludicrous performance as that of Saturday night, and from the remarks made and actions of the caucus, we can form no other conclusions than the following:

First-That the boasted devotion of th Republican party to principle is all sham; for we heard some Republicans say as much as this-" If the spoils were not divided to suit them they would not act with the party any longer."

Secondly-That there is as much, if no more fear of underhanded deception among themselves as they ever accused the Democracy of. In a party that boasts of its honesty afford but a weak illustration of the chase of one distrusts the other; in a party that boasts of its decency, there is more rowdyism than than we ever saw in Democratic meetingswhich they have so frequently charged as being composed of rowdies; in a party that boasts of its patriotism, the spoils, as it proves in the end, are the only sinews which have kept them together.

> Saturday night's proceedings we would recommend to the attention of all candid, so ber minded, respectable Republicans, as an illustration of that honesty and patriotism which their leaders so boastingly assume to themselves to deceive the unwary

An official of the administration left Washagton yesterday for Montgomery, Alabama. The object of the mission was not known.

From Charleston we learn that the people vere fully advised as to the warlike preparations of the federal government, and in conequence the greatest excitement prevailed. On Saturday, when the supply of provisions vas sent down to Fort Sumter, Major Anderon was notified by General Beauregard that no more supplies for the garrison could be btained in Charleston. Governor Pickens, with his Council and the senior officers of the rmy, were engaged during Saturday in inspecting the batteries in Charleston harbor, and everything was found in a state of efficiency. A revolution both in England and France would be the consequence of their not doing so.

Washington City was yesterday filled with all sorts of reports, rumors and speculations in regard to the present naval and military preparations of the adminstration. The President, it is said, in conversation does not hesitate to express his determination to "hold and possess" the government property where it is practic able, and, as far as possible, to carry out the views expressed in his inaugural address. A plan for the peaceable evacuation of Fort Sumter is said to have been agreed upon, and that the order to Major Anderson will be issued to-day.

CA UTAON.

It is estimated that more than \$100,000 is paid annually to swindling quacks in New England alone, without the life bouchit to those who pay it. All this comes from believing the filts statements of men who live by deceptions, having no medical education whatever.

E. Dr. M. will send free, by enclosing one stamp as above a Pamphlet on DISEASES OF WOMEN and on Pricate Diseases generally; also Circulars, giving full information, with the most undoubted references and destinations, without which no advertising physician or medicine of this kind is deserving of ANY CONFIDENCE WHATEVER.

DR. MATTISON is the only educated physician in Providence, if not in New England, who makes a speciality of Private Diseases, and he gives the very best references and testimonials, both of his honesty and his skill. CONSUMPTIVES.

An equal and normal circulation of the blood is health an abnormal, that is to say, an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate-torpidity of the Liver is caused by stagnation of the blood in that organ; disease of the Heart, &c., by the same cause, viz.: improper Circulation; and from the same cause, viz.: improper Circulation; and from the same cause spring all minor forms of disease. To discover a certain cure then, for these diseases, the first great enquiry necessary is, what causes the blood to circulate? For conturies it has been a matter of much study among scientific and medical men; and while many experiments have been made and much labor expended upon the enquiry, it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery, also. Acknowledging that life is the gift of the Creator, and that "in Him we live and move and lave our being," we still venture the remark, that as the planets move in their apherea, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause, which remove or destroy, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood show them to be compounds of fron, sulphur and phosphorous.

The air we breathe, we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a muscular fiber, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the fron in the red corpuscles of the blood emits electricity, which coming in contact with the beart causes it to contract, and hence the power which expels the blood and sends it thegling through the remotest arteries. What then, are the causes of GOR-supplies the blood emits electricity, and honce the reduced by the litters and him the air well as a suppl

CANCER CURED WITHOUT PAIN

AND WITHOUT THE USE OF THE KNIFE.

I have devoted many years of time and close investigation to the cure of Cancers, and have at last an unmistable remedy for this most distressing and dangerous form of Scrofula. So successful have I been in my mode of treatment, and so certain am I of my ability to do what I promise, that in all cases where I undertake a cure, I do not hesitate to warrant that it shall be effected.

REMEMBER THAT YOUR CANCERS CAN BE CURED, AND THAT I CAN CURE YOU.

DRIBABCOCK is the original Cancer Doctor of New England, and the only one who removes Cancer without pain.—All others are but imitators, induced by his success to profess themselves Cancer Doctors. Plenty of references to those themselves Cancer Doctors. Plenty of references to those 4 ho have been cured can be seen at my office.

Orders from abroad promptly attended to. A fee of \$1 must accompany each order, or no notice will be taken of it. White Swellings, Hip Diseases, Birth Marks, Scrotilons and Malignant Ulcers, Diseases of the Mouth and Throat, Ulceration of the Bones, Tetter, Scald Head, and all Diseases of the Skin, PERMANENTLY CURED.

TO WHOM IT MAY CONCERN.—About two years ago, a spot made its appearance upon my nose, which, though at first I though little of it, soon proved to be that dreaded disease, called Cancer. Dreading to have it cur out, and also having little confidence in the knife treatment, it had been spot my mode of the control of Dr. N. Barcock, of this city, and see hearing him spoken of as being skillful in the removal of Concers by means of plasters, and that, too, without pain, it at myself under his care, and in a few days learned by expeinence the entire truth of what had been said of him. The Caucer came out, and the wound quickly healed over without diffuring my face. I am free to say, that the operation was entirely satisfactory, and that I feel myself entirely cured. I most cheerfully certify to the knowledge and skill of Dr. Babecock, in the treatment of my Cancers, and

youth a premature old age arising from this secret habit which undermines the bodily health, and the mental powers. Remember and seek the true physician, DR. FREDERICK MORRILL, of No. 9 Howard street, Boston. Do not procreatinate—but go early, go when unerring symptoms tell you your condition, when you are sensible of Weskness in the back and limbs, loss and prostration of the Digestive organs, Dyspeptic Aliments, General Debility, and the common symptoms of Lung disease, as well as the most terrible mental effects, such as weakness of mind, alienation and loss of memory, restlessness in sleep, confusion of ideas, depression of spirits, habitual sadness and disquietude, a longing for change, evil forebodings, avoidance of society, and love of solunde and retirement, timidity, mental unesances, head-ache, and indeed a degree of insanty almost terminating in absolute madness. Go, young man, when nature thus bends beneath the abuse heaped upon her, and let no false delicacy deter you from the wise course. Go to DR MORRILL, and he will give you restored health when the body is overthrown and the mind wrecked; he can, and has cured innumerable cases of secret habits, and other terrible inflictions from this fruitful cause of disease.

The counterance becomes sallow, memory impaired—the functions of these Delicate Organs imperfectly performed.—The succeeded by a train of evils which none but the Poor Sufferer, and a nurely Scientific Medical Man can understand-ferer, and a nurely Scientific Medical Man can understand-ferer, and a nurely Scientific Medical Man can understandificate, and the sufference of this malady—in him you can, safely trust your case and receive a perfect cure. The weakened and debitated organs can be Derfectly restored to a healthy condition. Come before it so loi late. Be advised for your good. "USE THE The Regenerator Who wants a Good Head of Hair? Use Mrs. Wilson's Hair Re-generator and Hair Dressing.

MESSRS. HENRY P. WILSON & CO.—My wife is now using your Regenerator for the hair, and pronounces it far superior to anything she ever used for the hair. It is easily applied does not soll in the least—has no disagreesable odor, increases the growth of hair, prevents its failing off, and often cures the growth of hair, prevents its failing off, and often cures the headache. I forward you this certificate uscalicited, because I think an article that will do what your Hair Regenerator will, should be widely known. I think it is the best article for the hair now in use. Repectfully, & Co.

REV. Jacob STEVENS, Newburyport, Mass.

\*\*I Like the Hair Regenerator and Dressing very much."

REV. JACOB STEVENS, Newburydorf, Mass.

"I like the Hair Regenerator and Dressing sery much."

"I unhesitatingly pronounce it an invaluable article from the effect on my oton head."

S. A. Hill, wife of Rev. Henry Hill, Manchester, N. H.

"It rendered my hair soft and glossy."

MINOT FARRAR, Saratoga Springs, N. Y.

"I fee leonfident that it operates nor as a dye, but to restor, the roots to their natural healthy state."

REV. E. M. KELLOG, Nashua, N. H.

'I much cheerfully recommend it to all persons." REV. E. M. KELLOG, Nashua, N. H.

'I most cheerfully recommend it to all persons."

REV. C. RUSSELL, Littleton, N. H.

NOVEMBER 1.—MESSES, HENRY P. WILSON & CO.: I have
no hesitancy in saying, in my opinion, Mrs. Wilson's Hair
Regenerator and Hair Dressing are the best hair preparations
low in use. I shall continue to use them with pleasure.

NEV. H. H. HARTWELL, LAWRENCE, MASS.

NOVEMBER.—MESSRS. HENRY P. WILSON & CO.: I have used your Hair Regenerator and Hair Dressing, and ave received great benefit from them. I deem the articles worthy of high commendation, and cheerfully recommend them to all who want to restore gray bair to its original color, or to any who want to restore gray bair to its original color, or to any the head, or humors, or to those whose hair is falling from the head.

MESSES, HENRY P. WILSON & CO.: I deem Mes. Wilson's MESSAS. HENRY P. WILSON & CO.: I deem Mrs. Wilson's Hair Regenerator and Hair Dressing the standard articles of all hair preparations. I have, in many instances, known then to restore the hair where it had failen off, remove dandruff, restore the hair to its original color, cure entirely the most painful headaches—and in some instances most serious humors. Personally, I have been a sharer in several of these benefits.

MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING. Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37 cents per bottle, and for dressing the bair of any person, young or old, there is not its equal in the world. It will make the hair everything you wish it to be, and moreover, it has a perfume that is infinitely superior to any of the fashionable extracts, either foreign or American, which alone should entitle it to a piace on every lady's toilet table.

Use the Regenerator before rettring at night, and in the morning apply a little of the Dressing, and your hair will be even more iffelike in color and beauty.
Use nothing on your hair but these preparations, and use these according to directions, and we warrant you a good healthy head of hair.

Manufactured and sold at wholesale by HENRY P. WIL-SON & CO., Manchester, N. H., to whom all letters should be addressed. For sale in Bridgeport by HOUGH & CURTIS, corner of Main and Beaver street.

DRAFTS ON THE BANK OF DRAFTS ON THE BANK OF

HEALTH.—"All our excesses," says a great writer,
"are so many drafts on the bank of health, accepted
and made psyable some ten, fifteen or twenty years after
date." So with our imprudences, our culpable neglect of
nature's laws, all have to be paid in after years of sufferings.
Nobody is better aware of this truth than DR. O. PHELPS
BROWN. His great panaces, the ACACIAN BALSAM, is
certain to cure the worst form of Tubercular Consumption,
Catarrh, Soreness of the throat, Bronchitis, deep-seated
coughs, hurried breathing, rheumatic and neuralgic pains

MORE VALUABLE THAN GOLD. Doct. JNO. L. LYON'S FRENCH PEBIODICAL DROP FOR FEMALES.

This truly valuable medicine now for the first time offered to the American Public, has been extensively and successfully used on the Continent of Europe. I have used it in my two practice for the past twelve years with unprecedented uccess, having aever known it to fail in a single instance.—
From the nature of its ingredients IT CANNOT HARM the next delicate person.

OBSTRUCTION OF MENSES (Or Monthly Sickness,) from whatever cause, is sure to remove. It is impossible to enjoy the bloom of health, and vivacity of spirits unless the Menses are regular as to the time, the quantity and quality. When they are obstructed naure makes her efforts to obtain for it some other outlet, and unless these efforts of naure are assisted, the patient usually experiences Despondency, Norvounces, and finally Consumption assumes its sway and prematurely terminates a miserable life.

DO NOT BE IMPOSED UPON By those who have not the least claim to Medical Science, and have even stolen the title of Dr. or M. D.; they well know the sick grasp at every gleam of hope, and they scruple not to tempt them with glowing advertisements. Many can teatify of having derived more benefit from reading of their no strums than from taking them.

BEAR IN MIND THAT I GUARANTRE My DROPS TO CURE Suppression of the Menses from whatever cause, though care should be taken to ascertain if pregnancy be the cause, as these Drops would be sure to produce miscarriage; they will also certainly PREV ENT conception if taken two or three days before the monthly period; therefore I wish it distinctly understoo! that I do not hold myself responsible lift is should produce abortion when used under such circumstances. For Dysmenorrhea or painful menstruation, it acts like magic, producing the full and natural flow. I also guarantee my Drops to cure speedily Menorrhagia, or to produce menstruation so weakening to the sufferer. I could produce hundreds of the best voluntary testimonials, but the practice of parading bought and fictious ones before the public is so prevalent I do not deem it advisable. My object is too place my medicine before the public not alone to make money but to do good. It is proverbially true of the American ladies that not ten perfectly healthy ones can be found in any one vicinity. RE WISE IN TIME,

Let not disease destroy your constitution. Send for a bottle of my PERIODICAL DROPS, and you will be satisfied that I am no impostor. Tell your afflicted friend what restored the bloom of health to your cheeks, and thereby confer a favor more valuable than gold

REMEMBER I GUARANTEE My Drops to cure irregularity of the Mensas from whatever cause, if taken according to directions (which accompany each bottle) They will also alleviate and permanently cure all the various forms of disease arising from such irregularity, for by removing the cause nature will herself remove the effects. My Drops are prepared solely by myself, and sent (secure from observation) to any address in the United States or Canadas, on receipt of \$5.00. All can rely upon their communications being strictly confidential. One trial will convince the most skeptical, and never after will you be induced to try any other. All orders addressed to

Having practised in the Paris Hospital under instructions of the renowned Ricord of Paris, and Acton of London, and after twelve years' practice in this country, I think it not ego tistical to say I acknowledge no superior in this country, in the treatment of any disease fiesh is heir to. My practice having led me to pay more particular attention to diseases of a private nature, such as Rocturnal Emissions, Gonorrhea, Syphills, Gleet, Strictures, &c. I would say I am prepared to guarantee a cure in all cases without the use of Mercury or other injurious minerals. If you wish to consult by letter, state fully your disease, or its symptoms, your age, and whether married or single. No charge for consultation. Doct. JNO. L. LYON,
