AN EXPERIENCE IN THE TURKISH BATH.

An article in the March number of the Cornhill Magazine describes the baths of Turkey. We extract the following description of the sensations of a bather: ENTERING THE BATH.

On entering the bath, the first apartment consists of a spacious hall, or rotunda, the central summit of which is open, admitting a gentle but free circulation of air, and is in form not unlike the cupola of St. Stephen's Walbrook. Running round by the wall is a raised dais or platform, covered with a carpet, and divided into compartments, one of which is appropriated to each visitor. In the of the building is a fountain, which plays refreshing into a marble basin raised on pedestal of masonry. On a couch, on the platform above mentioned, you undress; your clothing is tied up in a napkin, and you are attired in three searfs of towelling, of a peculiar fabric, warm and rough, but yet soft and gaily bordered with blue or red raw silk ; one of these girds the loins ; another is thrown over the shoulder, and the last is twisted up into a turban for the head .-Throughout this operation, every care is taken to preserve decorum; and with a scrupulousness and delicacy almost unknown we regret to add, to Europeans. Two attendants hold a cloth before you until you have undressed and properly adjusted the bathing attire; you are then furnished with wooden pattens, and quit the undressing room for the heated chambers; the attendants, walking behind, still accompany you and as you are on pattens, each holds you

LEAVING THE BATH.

by the arm.

The swinging doors give access to a narrow passage where the heat strikes upon the face, and announces very sensibly that the bath has begun. This passage makes a sudden turn a right angle, and the heat then increases; though the temperature is still not high, and the mist of vapor is very slight, if at all perceptible. You now enter the tepid cham the tedidarium of the ancients. Sometime the passage above alluded to,is dispensed with, and the tepidarium itself forms the junction between the two halls. In the latter case it is oblong in form, and has a marble platform on each side, raised about a foot and a half above the central part ; this serving as a passage, is of couse on the same level as the two chambers which it connects; but whether as a passage, or as a hall in itself, it is all paved with marble. The mattrass and cushion which are carried before you are laid upon the dais and against the wall ; the paraphernalia of other guests being similarly disposed all round. Coffee and pies are now brought. In this apartment, dimly lighted, day sometimes being quite excluded, a flickering lamp reveals uncertainly the nature of the place and its occupants. The perspiration gently starts from its myriad ducts, whilst the solemn murky air tranquillizes the spirit and seems to exclude with a lull of calmness thoughts of the fretful world. It is here that a stranger in town or village first mingles with the inhabitants, and glides imperceptibly, and divested of the adventitious aids of dress and attendance, into the niche which his social status qualifies him to occupy. A gentle foretaste of shampooing is given in this apartment; an attendant chafes the feet, or lightly taps the neck and the

fully broken out you are ready for the hot chamber which you now enter. THE HOT CHAMBER. This is somewhat similar in form to the first hall, and is generally covered in with a dome, the light being admitted through loopholes filled with stained glass. Early in the morning the place is quite clear and the atmosphere is dry, but as the washing takes ace here, it becomes at a late hour of t day filled with vapor ; this had lead many to imagine that the Turkish bath is like the Russian, essentially a vapor bath, which is not the case. The Turkish bath is in principle, and in fact, a hot air bath; the vapor being almost an accident. Here the towels are all removed, except that which encirole the loins. Ablution is then performed, to which the sounds of clanking bowls and dropping of water duly correspond. Through the light gray mist the attendants and bathers flit in a spectral manner, and ever and anon there arises a clapping of hands, which is the bathman's method of signalizing. The process of shampooing which is here undergone is the most peculiar, and is that part of the bath which of all others will be found least easy of adoption into this country. It is in itself an art of no mean attainment, and proves, as has been well remarked, that animal magnetism has been practised in the East for centuries, and rendered so practically manageable as to be fairly designated the handmaiden of health.

You are then raised for a moment to a sitting posture and a contortion is given to the sm back with the knee, and a jerk to the neck by the two hands holding the temples. The reader must not suppose that all this crack ing of joints and supple members, this kne ing of the flesh, is attended with discount or pain. When it is skillfully performed, the sensation is even pleasurable, indeed this is signified by the Arabic word mass, which means to "handle delicately."

Next comes the washing, or rather the use of the glove made of camel's or goat's hair.—

After remoistening the body, which you do

THE SOAPING.

Following upon the glove comes the soaping process. A bowl of water is brought, frothed with Cretan soap, which is sometimes perfumed, and the soft fibrous life of the palm tree to rub the body |with. With this the body is washed, beginning at the head; this operation is repeated twice. Then come the hot cloths, in which you are wrapped; and the final act of the bath is to dash a bowl of water over the feet : a very important custom this, and one which opens up a very singular subject of inquiry; though we shall not at present touch upon it. COOLING OFF.

You now ret. to the cooling room. There you recline upon a couch with a sense ot ease and tranquility almost indescribable The blood circulates freely, the chest dilates the fresh air comes charged with vitality .-The wretched find life tolerable, the aged cast off for a moment the burden of years .-Savary describing the sensation, says, "It feels as if one was just born, and began to live for the first time. A lively ease of existence speads over the whole body; one vields to the most pleasant imaginations, and the mind is entertained with the most delightful reveries. The fancy ransacks all nature, and finds in it nothing but the gayest pictures, and images of pure delight. he runs on, philosophizing after Locke, as was the manner of his countrymen in that day-"If life is but the succession of ideas, the rapidity with which the memory then traces them, the vigor with which the spirit then traverses every link, would lead one to suppose that in the two hours of unbroken which follow the bath many years have elapsed." Every one who has experienced their perfection bear witness to the same effect. The whole man wakes, and yet the whole man is in a state of repose. There is a sense of recondite energy coupled with the partment at Montgomery. silent serenity of absolute rest. The air grows electrical, and finds for first time that breathing is inspiration. This feeling soon gives place to an eager appetite for exercise and labor; a most natural succession.

FORT SUMTER.

The whole country has been dumbfounded with astonishment at the insane folly and madness of President Lincoln and his Cabitence that the reinforcement and persistent the most painful regret. The Journal of laying out of the east line of Division street, walls of the fort were made perfectly secured. gent national importance and necessity. All the facts and probabilities in the case go to show in the clearest manner that the retention of the fort was not of the slightest practical importance to the nation, and that an attempt to reinforce it would be the commencement of civil war, the length of which no man could foretell, but the necessary consequences of which would be to increase all our troubles ten thousand fold, and destroy forever, perhaps, all chances of restoring fraternal relations between the two sections. So unmistakably clear was all this to the mind of every sane man, that even the most zealous and unvielding among the Republican editors were free to confess its truth, and to acknowledge the propriety of an evacuation of the fortress. As a sample of the confessions and acknowledgments of the Republican press on this subject, we copy the following from the Republican organ in this State:

[From the Hartford Courant, March 12.]

The probability is that Fort Sumter will be abandoned to South Carolina, by Mr. Lincoln's administration, in token of his desire to conciliate and his unwillingness to sacrifice the blood of our citizens, for a nugatory purpose. It would be a master-stroke of policy, in one sense, although humilisting to the national pride, for the moment. But, to reinforce Sumter with men and provisions, and to hold it after it was reinforced, would require a vast expenditure of human lives, and national treasure; and after all, its retention by the United States would accomplish no good purpose. Fort Sumter is a mere local fort, intended for the protection of Charleston against a foreign enemy, and good for nothing, in a national point of view. The administration of Mr. Lincoln wisely concludes, that under all the embarrassing circumstances, it would cost more to hold Sumter, than Sumter would be worth to the nation, if held. If Buchanan had done his plain duty, and amply reinforced Sumter in time, there would have been no present necessity for its evacuation; but even in that case, it would have been a source of irritation to South Carolina, without being of any practical importance to our nation. [From the Hartford Courant, March 12.]

To all these plain, impressive considera. tions, and to the advice of Gen. Scott, of Col. Totten, and also, it is said, of Major Anderson himself, Mr. Lincoln and his Cabiare told, to "reinforce Major Anderson's command at all hazards." The results of matter of history. Civil war is upon us. Fort Sumter has been evacuated by compulto sustain him in the unnatural and unhallowed war which he and his ministers have thus needlessly begun. God have mercy upon our suffering people, and save the Republic from the total and permanent destruction apparently aimed at by its mad rulers.

THE WAR.

No true lover of his country can look upon Commerce remarks thus upon the war:

Commerce remarks thus upon the war:

Right or wrong, for weal or for woe, the nation has drifted into a war, the results of which cannot fail to be most important, and we fear most disastrous, to the interests of the whole country, North and South. The secession of most of the other slaveholding States will, we fear, be one of the earliest results of the movement, in which case the strength of the belligerent parties will be nearly enough equal to ensure a protracted war, unless a merciful Providence shall provide a way of escape or adjustment which we cannot at present foresee, and scarcely dare hope for. We cannot express the sorrow with which we contemplate such a state of things, in this so recently united and happy country. We have labored hard and long to prevent it, but the fates were against us.

* * * When both parties shall be exhausted and impoverished, and when reason shall have taken the place of passion, negotiations will probably be made which might just as well be made now if the parties were disposed, by which they will agree to respect each other's rights, either as one nation or as two. If by possibility the North should conquer the South or portion of it, and compel it back into the Union, the basis of our voluntary system would be destroyed, and the foundation laid for new complications at no distant day.

The Standard editor says he has looked up to the flag of our country from boyhood, with a feeling akin to reverence." That may be. But during the war with Mexico, he had a very odd way of showing his Hartford Courant, well known as the leading reverence, to say the least. From first to last, he said and did all he could, through the columns of his paper, to give "aid and comfort to the enemy," and to bring defeat and dishonor upon his country's flag. His reverential feelings for the stars and stripes, as the doctors would say, "are evidently spasmodic," and the spasms are clearly quite too unfrequent to be alarming to the patient or beneficial to the flag. In this case they appear to be the result of bitter sectional hatred, and not of any love of the Union or the Constitution.

Civil war is upon us, and the questions which now supersede all others are-What are the consequences now before us? where is this war to end? and how and when? and what are the movements and the conditions necessary to change this state net turned a deaf ear-and resolved, as we of war to a state of peace? These questions will irresistibly impress themselves upon the mind of every thinking man, North and their mad determination are now in part a South. And it must be evident to all that it is far better, even now, to let the South go in peace, than to have a prolonged bloody sion, and Mr. Lincoln calls for 75,000 men civil war, with all its horrors and then be obliged to let her go. No good ever yet resulted from a civil war-no good can ever result from one.

fairs in this country remarks thus:

Aud, if the President then could and would but look beyond the "Chicago Plat form," and comprehend the country, and its past history of mutual concessions, and compromises,—we could then dare to indulge a hope, that the merciful God, which has so far protected us, even in Charleston, amid two thousand cannon shot, i from sacrificing the life of a single human being, would yet avert from us that most terrible calamity of civil war. It is not too late, even now, to save us from this fratricidal war,—if we fully prepare for it overwhelming means and men, and if we at the same hold out the Olive Branch of Peace. The kind Providence, which has passed from us the bitter cup of blood will yet watch over us, and keep it from us, as it has watched over us to this terrible week past' if we, ourselves, will but try to forget passion, party prejudice, fanaticism, and pray to Heaven to spare us from that calamity we are too weak, ourselves, to save ourselves from.

The Norwich Aurora administers the following well-merited rebuke to the Republi can editors of this State :

Can editors of this State:

The first appointment of the new administration in Connecticut is that of Babcock, the editor of the New Haven Palladium, to the office of Collector at New Haven. This man has probably had more to say against office holding editors, pensioned presses, &c., than any other man in the State, yet the moment Lincoln arrived at Washington, Babcock was there, begging like a hungry dog. This chap is a fair sample of the whole tribe. There is not one of them who will not snap at anything he can get from a respectable office to a pair of old boots.

The pews in the St. John's Church were rented for the year ensuing last evening. They brought about \$3,000.

The flames were seen to burst through the roofs of the houses within its walls, and dense columns of smoke shot quickly upward. The shells from this mortar were thrown with esolutions, which were unanimously passed : great precision. You now have all the positions of the works, bearing directly on Fort Sumter. All through Friday morning the greatest activity at all points was displayed. Three time Major Anderson's barracks were set on fire, and twice he succeeded in putting out the flames, and to do this it was necessary to employ all his forces passing along the water. To get water it was neces sary for some of his men to go outside the walls and hand the buckets in through the port holes, during all which time they were exposed to a most terrific fire from the

various batteries. This last expedient was not resorted to until the fort was one fire for the third time. and the flames had ncreased to an alarming pitch. Meantime Major Anderson's guns were silent. He allowed his men to be posed to the galling fire upon them but for a ew moments, and then ordered them in and shut the batteries, as the smoke was too thick to work them. At noon the flames burst from every quarter of Fort Sumter, and the destruction of it was complete.

DR. M'LANE'S CELEBRATED LIVER PILLS, PREPARED BY FLEMING BROS. OF PITTSBURGH.

The following is a sample of certificates received daily from our own citizens:

New York, August 1, 1852.—This is to certify that I have been subject at times to severe headache; sometimes the pain would be so severe I could rest neither day or night. Hearing of Dr. M'Lane's Gellerated Liver Fills, prepared by Fleming Bros., I sent and got abox, of which I took two pills on going to bed, for two nights. They relievely me entirely. Some time has now elapsed, and I have had no more trouble from sick headache.

COSTIVENESS AND DIZZINESS CURED.

NEW YORK, APRIL 5th, 1660.

DR. B. BRANDRETH—DEAR SIR—In the spring of 1853 I had the misfortune to break my thigh, in consequence of which my constitution became greatly debilitated, and I suffered with great costiveness, attended with dizziness and severe pain in the bead and side and oppression of the heart. I was attended by several physicians of this city for three years without obtaining relief, and had despared of a cure till finally I was induced to try your Fills, which almost instantly relieved me, and in a short time completely restored my health. I consider them the best medicine in the world. Yours truly,

CANCER CURED WITHOUT PAIN

AND WITHOUT THE USE OF THE KNIFE.—
I have devoted many years of time and close investigation to the cure of Cancers, and have at last an unmistakable remedy for this most distressing and dangerous form of Scrotula. So successful have I been in my mode of treatment, and so certain am I of my ability to do what I promise, that in shi cases where I undertake a cure, I do not bestiate to warrant that it shall be effected.

REMEMBER THAT YOUR CANCERS CAN BE CURED.

AND THAT I CAN CURE YOU.

DR. BABCOCK is the original Cancer Doctor of New England, and the only one who removes Cancers without pain—land, and the only one who removes Cancers without pain—land, and the only one who removes Cancers without pain—land, and the only one who removes Cancers without pain—land, and the only one who removes the cers without pain—land, and the only one who removes Cancers without pain—land, and the only one who removes the freterences to those with the secondary search order, or no notice with the taken of himself of the Skin Marka, Scrotlious and Mailgment Ulceras. Testers, Scield thend, and all Diseases of the Mouth and Throat Illeeration of the Skin May Concern. About wo years ago, a spot made is appearance upon my nose, which, though in of the Skin, PERMANENTLY CORED.

TO WHOM IT MAY CONCERN.—About two years ago, a spot made its appearance upon my nose, which, though a first I thought little of it, soon proved to be that dreaded attease, called Cancer. Dreading to have it cut out, and also naving little confidence in the kinfe treatment, it had been growing from one and a Aller to two years, when see up the advertisement of Dr. N. Barcock, of this city, and so hearing him spoken of as being skillfull in the removal of General by means of plasters, and that, too, without pain, it is myself under his care, and in a few days learned by expelence the entire truth of what had been said of him. The Cancer be entire truth of what had been said of him. The Cancer came out, and the wound quickly healed over without dispuring my face. I am free to say, that the operation was entirely satisfactory, and that I feel myself entirely cured. I most cheerfully certify to the knowledge and skill of Dr. Barcock, in the treatment of my ancers, and do recommend him to all such as may be affilicted with this dreadful disease. A DISTINGUISHED ST. LOUIS PHYSICIAN WRITES

ST. LOUIS, July 10th, 1850.

O. 1. Wood, Esq.:—Dear Sir.:—Allow me the pleasure and selisfaction to transmit to you the beneficial effects of your HAIR RESTORATIVE, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time! have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from candruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even faster your vanity at this late day, as I am well aware they are all well known aiready, and even more wonderful ones taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it and without effect. In every instance, how ver, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good as yours, and selling at about haif the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have

reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word in several mattances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you personally, at your original place of business here, but learned you were now living in New York. You are at liberty to publish this or to refer parties to may consumme the promptly answered. Yours truly JAS, WAITE M. D.

Warren Springs, Perry Co., Penn., June 7, 1886.

Prof. Wood—Dear Sir.—I was induced more than a year ago to try your valuable HAIR RESTORATIVE, for the purpose of cleansing my head of dandruff. I had suffered withit upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gloss & Kunkie's argustore, and bough a boule, and now am prepared to recommend it to universal use, for it has completely removed all dandruf from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness. I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c., than at any time stace I was a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this or any part of it in any shape you think proper, if it is worth anything to you.

Yours, &c., H. H. ETTER.

Bioomington, ind. July 30, 1859,
DEAR SIR:—I hereby send you a statement that I think you are entitled to the benefit of. I am a resident of Bloomington, and have been for over thirty years. I am now over 5 years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I have seen a number of certificates of the very wonderful effect of your HAIR RESTORATIVE, but supposed there was more faction than truth in them; but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my lyounger days a beautiful black, I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, at one dollar, and commake the experiment commenting in a shaat way. I parchased one of your small bottles, at one dollar, and commenced using. following directions as nearly as I could. I soon discovered the dandruf removed, and my hair, that was failing off in large quantities, was considerably tightened, and a radical change taking place in the color. I have conditued to use it till I have used three of your small bottled and just begun on the fourth. I have now as pretty a hean of dark brown, or light black bair as any man, or as I had is my youthful days, when a boy in the hills of western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off and is as soft and fine, and feels ar oily, as though it was just from the bands of a French cham pooer. Many of my acquaintances frequently say to me "Butler, where did you get that fine vig?" I tell them I was the effects of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head Yours tuly, FRED. T. BUTLER,

Bloomington, Monroe Co., Ind.

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases of ten they are quack noarums, but we take great pleasure in recommending Professor Wood's article to all whose had is failing off or turning gray. Our well-known contributor, Fioley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it and baid heads will be as rare as snow in summer — Butimere Patriot.

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its prestine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually cradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the six disappear wherever it is used. There is no hazard attacting to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Roston Transcript, April 22, 1879.

A GENUINE BOON.—In our capacity as conductor of a pub-lic journal, we are called upon to advertise the curealis of the day, each of which claims to be unadules ated in its compo-sition and infallible in its curative effects, with what justice

ALI. HAIR DYES ARANDONED—WOOD'S GREAT ARTICLE HAS TAKEN THE FIELD.—Professor Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic has ever before reached. His fame is sudden but world-wide, and thousands who have worn wige or been baild for years, are now, through the use of this preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its diseases, and how to restore the decaying visibility of that ornament; he saw, as in his own case, that gray hair is unnatural tunless the age of the individual had reached four score, and he oclieved that the hair could be naturally revitalized. He tried his own case—almost bail and quite gray at the age of thirty-seven, he restored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—New York Day-Book.

GREAT CURE! DR. LELAND'S ANTI-RHEUMATIC BAND, IS THE ONLY KNOWN REMEDY FOR RHEUMATISM, GOUT & NEURALGIA, AND A SURE CURE FOR

It is a conveniently arranged Band, containing a medicated compound, to be worn around the waist, without intury to the most delicate persons: no change in habits of living is required, and it entirely removes the disease from the system, without producing the injurious effects arising from the use of powerful internal medicines which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medicinal properties contained in the Band, come in contact with the blood and reaches the disease, threigh the pores of the skin, effecting in every instance a perfect cure, and restores the parts afflicted to a healthy condition. This Band is all os most powerful anti-Mercurial agent, and will entirely relieve the system from pernicious affects of Mercury. Moderate cases are cred in a few days, and we are constantly receiving testimonials of its efficacy in aggravated cases of long standing.

MORE VALUABLE THAN GOLD. Doct. JNO. L. LYON'S FRENCH PERIODICAL DROPS FOR FEMALES.

This truly valuable medicine now for the first time offered to the American Public, has been extensively and successfully used on the Continent of Europe. I have used it in my own practice for the past twelve years with unprecedente success, having never known it to fail in a single instance.—From the nature of its ingredients IT CANNOT HARM the most delicate person. OBSTRUCTION OF MENSES

(Or Monthly Sickness,) from whatever cause, is sure to remove. It is impossible to enjoy the bloom of health, and vivacity of spirits unless the Menses are regular as to the time, the quantity and quality. When they are obstructed nature makes her efforts to obtain for it some other outet, and unless these efforts of nature are assisted, the patient usually experiences Despondency, Nervousness, and finally Consumption assumes its sway and prematurely terminates a miserable life.

DO NOT BE IMPOSED UPON

By those who have not the least claim to Medical Science, and have even stolen the title of Dr. or M D.; they well know the sick grasp at every gleam of hope, and they acruple not to tempt them with glowing advertisements. Many can testify of having derived more benefit from reading of their no strums than from taking them.

BEAR IN MIND THAT I GUARANTEE My DROPS TO CURE Suppression of the Menses from whatever cause, though care should be taken to ascertain if pregnancy be the cause, as these Drops would be sure to produce mi-carriage; they will also certainly PREVENT conception if taken two or three days before the monthly period; therefore I wish it distinctly understoo! that I do not hold myself responsible if it should produce abortion when used under such circumstances. For Dysmenorrhea or painful mentrustion, it acts like magic, producing the full and natural flow. I also guarantee my Drops to cure speedily Menorrhayia, or to profuse menistrustion so weakening to the sufferer. I could produce hundreds of the best voluntary testimonials, but the practice of parading bought and fictitious ones before the public is so prevenent I do not deem it advisable. My object is too place my medicine before the public not alone to make money but to do good. His proverbially true of the American ladies that not ten perfectly healthy ones can be found in any one vicinity.

BE WISE IN TIME.

Let not disease destroy your constitution. Send for a bottle of my PERIODICAL DROPS, and you will be satisfied that I am no impostor. Tell your afflicted friend what restored the bloom of health to your cheeks, and thereby confers favor more valuable than gold. REMEMBER I GUARANTEE

My Drops to cure Irregularity of the Menses from whatever cause, if taken according to directions (which accompany each bottle) They will also alleviate and permanently cure all the various forms of disease arising from such irregularity, for by removing the cause nature will herself remove the effects. My Drops are prepared solely by myself, and sent effects. My Drops are prepared solely by myself, and sent effects. My Drops are prepared solely by myself, and sent effects. My Drops are prepared solely by myself, and sent effects. My Drops are prepared solely by myself, and sent effects. My Drops are prepared solely by myself, and sent cause for Canadas, on receipt of \$5.00. All can rely upon their communications being strictly condiential. One trial will convince the most skeptical, and never after will you be induced to try any other. All orders addressed to
