GEN. SCOTT'S ADVICE.

We copied yesterday, into the Farmer, a Washington letter published by the New York Express, in which the writer says he is authorized to state that Gen. Scott and Gen. Totten wholly disapproved of the proposed reinforcement of Fort Sumter.

The New York Times paper, leading Republican, copied the same letter also into its columns, and then commented upon it thus:

We shall not believe that the President would order upon such an enterprise as the attempted reinforcement of Fort Sumter, without the support, and will be very anxious to see the confidence of the public in the wisdom of his Administration.

It is a positive information—indeed, it is a positive information—that the reinforcement of Fort Sumter, at the cost of an engagement between the fleet and the powerful batteries of the rebels, such an engagement could have had but one result, the defeat of the attempt, with the destruction of the vessels and the ultimate reduction of the fort, was certain as any future event could possibly be.

WASHINGTON AND SOUTHERN NEWS.

President Davis has issued a proclamation authorizing the issue of letters of marque and reprisal against the commerce of the United States. This is an extreme war measure, which we hoped would have been omitted from the programme of the Confederate States, as it has been from the warfare of all European Governments. How far it is likely to be carried into practical effect, we are unable to judge.

The Confederate States are also raising all the money and troops they can, and are likely to have a very large army. Thus the two parties are preparing for a ferocious war, the ultimate proportions and results of which no mortal can foresee.

Every day increases the sombre character of events. Unless a merciful Providence interposes, the blackest page in the history of blood and carnage, is about to be written. The Missouri State Journal publishes the following reply of Geo. Jackson, of that State to Secretary Cameron:

EXECUTIVE DEPARTMENT, MISSOURI, JACKSON CITY, April 17, 1861. Sir—Your dispatch of the 14th inst. in relation to Missouri for four regiments of men for immediate service, has been received. There can be, I apprehend, no doubt that these men would be a part of the Confederate States. My judgment, in my judgment, is that it is inadvisable to send them to the front, unless they are accompanied by their families, and cannot be furnished with not one man will of the State of Missouri, furnish or carry an arm or any other article of war.

Foreigners are already beginning to profit by this awful fratricidal contest. British vessels at New Orleans are taking the places of American ships in cotton freight; while many Northern bottoms have been obliged to clear in ballast.

The Border States, we fear, will all go. Fifty thousand Tennessee and Kentucky troops said to have been offered at Montgomery Wednesday morning, by Tennessee and Kentucky alone!

Ex Vice President Breckinridge writes from Richmond, Ky., to a friend in Lexington—Kentucky should call a convention without delay, and Mr. Lincoln's extra session of Congress should be confronted by fifteen States. This alone can prevent a civil war!

Active and great preparations are making for the defence of New Orleans. The city council has appropriated \$200,000 for the defence of the city. Everything in the way of military matters in that city is making rapid progress. Several vessels are fitting out as privateers.

Governor Ellis, of North Carolina, has telegraphed to the Secretary of War of the Southern Confederacy that he has taken possession of the forts of North Carolina.

It is stated that President Davis will call one hundred and fifty thousand more troops into the field at once.

A dispatch from Richmond, Va., dated April 17, says that the ordinance of secession has not as yet passed the Convention, and they are still in secret session. Nothing certain is known of the proceedings transacted.

A gentleman who left Richmond, Va., on Wednesday, says that business in that city is entirely ruined; that the people express the greatest bitterness towards the North.

There is a report from Texas that all the American vessels at Galveston have been embargoed.

Great preparations are being made to defend Washington against the anticipated attack of a Confederate army.

WHO ARE THE DISUNIONISTS? Some of the Abolition Republican editors are apparently quite earnest in asking the question, "Who are the Disunionists?" Feeling disposed to aid them in their researches, we submit the following extracts copied from unquestionable Republican papers:

Groveland and Garrison—the Tribune and Liberator—have been the first to bring servile insurrection and the abolition of slavery—[New York Courier and Enquirer, September 1860.]

The Tribune, during the same decade, has been equally consistent in its hostility to the Union. It has opened its columns to every man who ventured to express a dissent from its anti-slavery and anti-Union views. It has not only done this, but it has done it with a boldness and a consistency which have made it the most influential and the most powerful of our newspapers.

Let this secession movement go on just so far as it will, we feel that it is going to be one of the most important events in the history of our country. It is a positive information—that the reinforcement of Fort Sumter, at the cost of an engagement between the fleet and the powerful batteries of the rebels, such an engagement could have had but one result, the defeat of the attempt, with the destruction of the vessels and the ultimate reduction of the fort, was certain as any future event could possibly be.

PEACE THE TRUE NATIONAL POLICY—NO CONCESSION, NO FORCE.

The venerable Senator Crittenden delivered a speech the 26th of March, before the Legislature of Kentucky, on the deplorable condition to which the country has been brought by the Abolition Republican crusade against the Southern States of the Union. From this speech we extract the following, which we commend to the attention of our readers:

Now, the great question, which we are called upon to decide, is, what, in this unparalleled, stupendous crisis, shall we do? Seven States of our common country—lately moving in harmony—claiming no other rights than as the freemen of a common Government—withdraw from this Government, and are now denying their allegiance to it—Government, and actually forming a separate Government, and claiming treatment as a foreign power. What is the wish of us all? It is, and ought to be, by some means, to bring about a reconciliation with the seceding States, and to bring back into perfect reconciliation with us, all the citizens, who have thus gone astray and abandoned us.

What is the policy for the Government to pursue? Now, Mr. President, without undertaking to say what is the best policy, under circumstances so unusual as the present, I will only venture to say that they ought not to pursue a course of forcible coercion. Not the policy of coercion, I say. Our object and desire is to bring them back into terms of union and fellowship. That is the object of our private actions, as well as of our public ones. We do not wish to see them driven back into the Union at the point of the bayonet—to shed their blood—for the policy of coercion. This Government is not bound to patronize revolution against itself—therefore, I say, let us try to bring about a reconciliation with the seceding States, and to bring back into perfect reconciliation with us, all the citizens, who have thus gone astray and abandoned us.

War drives Nations, States, and men to madness. As a nation we are swiftly rushing upon great calamities. A peace policy could avert them; and for this we plead. Our opinions are right, and a few short weeks will convince thousands who are now fanatical and unreasonable. Still more stars are to be torn from our National Flag. War can never bring them back. And what patriotic mind is there that will not be shocked to see them torn away? Give us a peace policy. It is not too late yet to save our country from all the horrors of a civil war.
