THE DEPARTURE OF THE BRIDGEPORT TROOPS.

The Bridgeport Volunteers, Captain Fitzgibbon, and the German Rifles, Captain Spiedel, took their departure for the rendezvous at New Haven this morning. At an early hour the streets were filled with people, and crowds assembled at the armories of the different companies.

The troops were ranged upon the platform awaiting the arrival of the train. The scenes here witnessed baffles description, and excited emotion in the stoutest hearts.

WASHINGTON AND SOUTHERN NEWS.

At the rate at which troops from the Free States are flocking to Washington, there will soon be one hundred thousand men about the Capital, prepared to defend it at all hazards.

The doubtful attitude of Maryland has complicated the difficulty, and the obstruction to travel, by the Baltimore mob, has compelled a new and circuitous route to Washington.

Mr. Breckinridge addressed a large audience at Louisville, Ky., Saturday, denouncing the President's proclamation as illegal and unconstitutional, saying he could not make his 75,000 troops efficient till after the meeting of Congress.

A dispatch from Baltimore says that the excitement is unparallelled there. Hundreds of private citizens are openly carrying arms. Along the line of railways the houses have got muskets and missiles, and even some small cannons in them.

We have a New Orleans telegram, dated April 22, announcing that the Atlantic, which sailed from New York with troops about a fortnight ago, had on the 13th communicated with Fort Taylor, and sailed next day for Sand Key; also, that the Powhatan was off Key West. There is nothing from Fort Pickens.

In Eastern North Carolina the excitement is utterly wild. Sixty-two six pounders from Charleston for Fort Macon, have reached Wilmington. Troops were pouring into that and other forts. One hundred and sixty free negroes have been impressed to work on the fortifications.

Captain Lawry, of the ship Julia E. Tyler, arrived at New York Monday; reports that he left Hampton Roads on the 21st inst., and was informed by the pilot who took his vessel to sea that the city of Norfolk and the Navy Yard at Gosport were both on fire.

According to last accounts Washington is considered entirely safe. The number of U. S. troops already there is quite large, and others are constantly arriving. We have intelligence of the arrival of the New York Seventh Regiment at Annapolis, and before this time it is doubtless in Albany.

Louisville, Ky., and New Albany and Jeffersonville, Ind., are forming a military alliance to preserve the peaceable status between these cities and maintain amicable relations. A home guard has been organized at Louisville.

Mr. Trimble, formerly President of the Baltimore and Ohio Railroad, was shot dead Saturday, by one of the armed guard, who attempted to defend the property of the road.

General Cadwallader's mansion, reported burned by the revolutionists, is nineteen miles from Baltimore; cost \$100,000, with gas works and splendid grounds.

At New Orleans the free colored population, at a meeting, have resolved to tender their services to the Government for the defence of Louisiana.

Eight thousand kegs of powder, destined for New Orleans, and shipped four months ago, were prevented reaching their destination by stress of weather, and have been brought back to New York.

In some of the Western counties of Virginia it is said there is a strong Union feeling, and measures are proposed for a division of the State.

Hon. Thomas B. Lowry, special messenger from Washington, has arrived in Philadelphia. He said that it was his opinion that Virginia and Maryland would become a common grave-yard.

A company of regular troops have been sent to Cockeysville, Md., to hold that position.

Mexicans are erecting batteries opposite Brownsville, Texas. The Texans think they mean mischief.

WAR NEWS, &c.

The Pacific Mail Steamship Co. have taken prompt measures to secure the protection of passengers and the security of freight and treasure on their steamers in the Pacific.

Besides supplying them abundantly with small arms, including revolvers, muskets and outlasses and ammunition, each steamer will carry at least two heavy cranes, or twelve pound cannon; and instructions have gone out, sometime since, to thoroughly sheath the bows of each ship with iron, so as to enable them, without injury to themselves, to run down and sink any pirate or privateer which might attempt their capture.

There have been up to this time very probably not less than two hundred and fifty thousand offering their services to the governments of the different States; and in a week from now we should not be surprised if the number was swelled to half a million, so great is the military ardor evoked.

Massachusetts has, within six days, responded to the President's requisition with five full regiments of infantry, a battalion of rifles, a splendid corps of Flying Artillery, with six brass six pounders and horses fully equipped.

The first Connecticut regiment will be ready to start for Washington on Thursday, and the second regiment very soon after. A third regiment has been called for, and will be filled immediately.

Col. Ellsworth's Regiment of New York firemen, in Zouave dress, over twelve hundred strong, are now at Fort Hamilton ready for duty. Another such regiment will probably be formed.

The citizens of Birmingham have subscribed \$3,000 to the war fund. The Common Council of New Haven have also appropriated \$20,000 to the same object.

The North is all alive with military movements, and the cities designated as mustering places—Boston, New Haven, New York, &c.—are like military camps.

Agents of the woolen mills throughout Connecticut have telegraphed to their commission houses in Baltimore to re-ship all the goods in their hands to Philadelphia.

A large quantity of munitions and arms going South, were seized in Philadelphia, Sunday.

All over the North, military preparations are going rapidly forward, and enthusiastic meetings are held in support of the government.

Carpenters have been sent from Harrisburgh, Pa., to repair the bridges on the Northern Central Railroad. They will be protected by troops.

No goods of any description are hereafter to be allowed to pass through Pittsburgh, Pa., to the South.

The Maine Legislature met April 22. The Governor recommends raising ten regiments of troops, and appropriating ten millions of dollars to fit them out.

The Vermont Legislature assembled today.

The Republican presses are now calling upon all men to give up all party feeling and sustain the government. This, says the Norwich Aurora, is what the national men in Congress and out have been pleading with the Republicans to do for the last twelve months.

If this advice had been heeded the trouble which is now upon us might have all been avoided. But we have no objection to the advice although it comes from a suspicious source. We see daily how Mr. Lincoln and his subordinates look at it. They are dismissing thousands of men from the public service, who are as loyal to the constitution as the President himself, for the bare offence of having failed to vote for Mr. Lincoln.

MEETING SATURDAY EVENING.

The meeting, in response to the call of the Mayor, was one of the most enthusiastic that ever assembled in this city. Men were there who have always been opposed to each other in politics, and all were animated by one patriotic impulse, to sustain the constitutionally chosen Executive of the nation in preserving the Union and executing the laws.

Mayor Sterling presided. Hon. D. H. Sterling, Vice-Presidents—Russell T. Tomlinson, Wm. H. Noble, C. Spooner, P. H. Skidmore, J. C. Blackman, Wm. G. Lineburg, Stephen Lounsbury, J. D. Alvord, James Wilson, Frederick Wood, Amos N. Benedict, Emory F. Strong.

SECRETARIES—Frederick Frye, S. B. Ferguson, Jr., F. Hurd. On motion, the "Star Spangled Banner" was read by Wm. H. Noble, Esq., which was sung by the whole assembly.

The following resolutions were offered, and unanimously adopted by the meeting: WHEREAS, The Government of the United States is one of a Constitution and laws under which the rights of every portion of the Republic are protected and under which an appeal to our courts or to the people at the ballot box has never yet failed to remedy any real grievance.

AND WHEREAS, Nevertheless, in a time of profound peace and unexampled prosperity, a portion of our people have under a mere asserted apprehension of wrong, but without a plausible pretext of necessity, by force and arms, and powerful military organization, set at defiance the laws of the land, and the property of the nation, killed its officers and defenders, insulted its flag, and now threaten its capital in the name of the open and defiant enemies who seek the violent overthrow of the Union and the Constitution; And whereas, in this emergency, the constituted authorities of the nation and of this state have summoned all loyal citizens to the aid of the government and the laws, to defend not merely our common rights and liberties, but our very existence as a nation, and have for that purpose called for volunteers to enter the field and aid in suppressing this alarming rebellion, therefore,

RESOLVED, That we hereby solemnly pledge ourselves, as a community and as individuals, to meet this crisis in our history in a manner worthy of our patriotic sires; that we will so act that future generations shall not be ashamed of us; that we will stand by the Government, the Constitution and the Union, at all hazards and at every sacrifice, and that for the support of this holy and glorious cause, "with a firm reliance on the protection of Divine Providence, we hereby pledge our lives, our fortunes, and our sacred honor."

RESOLVED, That whereas, many of our citizens, in the noble spirit of '76, are ready to volunteer their services to fight under the National banner against the traitors and patriots who would trail it in the dust, it thus becomes at once the duty and the privilege of those who remain, to make due provision for the families and others dependent upon their services, and their common liberties; and therefore,

RESOLVED, That the Selectmen of this Town be requested to call immediately a Town Meeting for the purpose of voting such sum or sums as may be deemed necessary or advisable, for the purpose aforesaid, to be applied in such manner as shall best accomplish the object—and that in the meantime, we as individuals will guarantee respectively the amounts to be subscribed by us for the purposes aforesaid, agreeing to pay the same on demand if the town should fail to make the proposed appropriations, or the next Legislature should fail to legalize such action if taken by the town.

AND WHEREAS, a considerable sum is necessary to be raised immediately for the purpose of equipping such volunteer corps as shall organize in this town, and providing them with conveniences of various kinds,

RESOLVED, That we do hereby pledge ourselves and agree as individuals, to pay on demand the sums to be respectively subscribed by us, to be used in such manner as shall be deemed best by the committee appointed for that purpose.

RESOLVED, That from a personal knowledge of the patriotic volunteers, both from native and adopted fellow-citizens, who have enrolled themselves for active service from this place, we have entire confidence that the honor of Connecticut may be safely entrusted to their keeping; that we honor their courage and devotion, and that we will stand by them to the end.

The meeting nobly responded to the call for material aid to equip the volunteers, and to support the families of those who had volunteered. The subscriptions at this meeting amounted to \$7,000.

The meeting adopted the following resolutions during the evening. The first was offered by A. S. Treat, Esq.

RESOLVED, That this meeting, fully appreciating the patriotism of our adopted fellow-citizens and their willingness to defend the country in this hour of its peril, do recommend to Governor Buckingham that the Montgomery Guards of this city be speedily reinstated among the enrolled militia of this State.

RESOLVED, That the Governor of this State be urgently requested in order that we may be ready for every emergency, in defence of the Laws, the Constitution and the Union, to have put under immediate and efficient discipline and drill the entire military force of Connecticut.

RESOLVED, That His Honor Daniel H. Sterling, George W. Bacon, John C. Blackman, and Joseph Thompson Joseph Cronenberg, and such others as they may associate with them, be committed to carry into effect the objects of this meeting, and that they are hereby respectfully requested to act in such capacity, and to take immediate measures to carry out the same.

RESOLVED, That such of our citizens as are willing to associate themselves for the purpose of forming a Home Guard, and perfecting themselves in military drill be invited to assemble for that purpose at Franklin Hall, on Tuesday evening, April 23, at 7 o'clock.

TO ARMS!

A gathering of our citizens will be held at Franklin Hall, this evening at seven and a half o'clock to organize and discipline in readiness for the call of our country.
