

burn, she found, on recovering from the painful fever which followed the fearful shock of nervous system, that she had become prematurely aged. Her sunburnt and scarred face was wrinkled with deep lines, while her once beautiful locks had been bleached to a snowy whiteness.

Madame Godin remained until she was entirely recovered, when she was conveyed by them, in their own way, to the Pastaz, to the settlement of her kind friends; from whence, in the following spring, notwithstanding her terrible experiences, she again essayed the passage of the river; and without further accident, and after months of travel, rejoined her husband at Para.

But during her subsequent life Madame Godin could never hear any allusions made to the terrible sufferings she had survived, without feelings of horror bordering upon insanity.—Boston Wide World.

WASHINGTON AND SOUTHERN NEWS. News from the South is that Mississippi, Alabama, &c., are all a-flame with excitement, and companies are mustering in and drilling at every town. The revolutionists have control of the telegraph, and all movements of the Southern troops are kept private.

A Washington dispatch states that Mr. Lincoln has decided to receive out of the 75,000 volunteers called for, 40,000 men to serve for three years, 25,000 for five years, and 13,000 out of the regular army to serve for five years, besides enrolling 18,000 sailors for the navy.

The rumor that Senator Mason was arrested in Pennsylvania, is untrue. A dispatch to the Herald states that the Baltimoreans are determined to resist the passage of the Pennsylvania troops through Maryland, notwithstanding the reaction said to exist there, but on the other hand it is stated that the Pennsylvanians are ready for any emergency.

The Maryland Legislature, now in session at Frederick, has decided not to call a convention of the people on the question of secession, and also resolved that the troops of the United States Government shall be permitted to pass through the State.

The rumor that the Virginians were erecting fortifications on the Potomac proves to be a war excitement hoax. Gentlemen from Virginia give it as their opinion that the ordinance of secession in that State will be affirmed by over one hundred thousand majority.

Some of the residents of Baltimore a few days since sent the Seventh Regiment at Washington a jug of gin cocktails, as a present.

The twenty days allowed by proclamation being up, it is stated that the President will demand, in a day or two, that the custom house at Alexandria be given up or it will be taken by man force. This is from an official source.

The Navy Department has issued an order similar to that from the War Department, that amounts due to the recent officers from the States claiming to have seceded, will hereafter be paid them from the United States funds heretofore sent to or deposited in those States, except in cases where the Department shall otherwise direct.

A dispatch from Washington says some excitement has been produced in diplomatic circles, growing out of the proclamation of the President directing a blockade of the Southern ports. It appears that a blockade, to be respected by foreign Powers, must not only be effective, but due notice must be given of such intention to their representatives. It has therefore become necessary that specific inquiries be made of the Federal Government in relation to this subject, so that treaty rights and privileges be not damaged. The foreign Ministers will insist that the stipulations shall be respected and observed; otherwise naval forces will be despatched hither as a means of foreign protection. The delicacy of the question is apparent, and from what is known may involve serious consequences to all concerned, at all events produce trouble now, as well as in the future.

Gen. Harney, who was arrested at Harper's Ferry, while on his way to Washington, has been released by order of Gov. Letcher.

News from Pensacola has been received up to April 26. No attack had as yet been made on Fort Pickens.

It is reported that the Tennessee Legislature has passed an ordinance of secession. Persons from Western Virginia have reached Harrisburgh to arrange for procuring arms for the defense of the West of the State.

The Administration is said to have notified Gov. Letcher that any advance of troops from Richmond will be followed by an invasion of Virginia from the West. This is probably a mere war excitement rumor.

The President has issued a proclamation extending the blockade to the ports of North Carolina and Virginia.

THE FOURTH REGIMENT. The Fourth Regiment is full. The following companies constitute it: Rifle Company A, New Haven, Captain Nicholas S. Hallowell.

Rifle Company B, New Haven, Captain Oscar A. Dennis.

Rifle Company C, Derby, Captain Eliza S. Kellogg.

Rifle Company D, Plymouth, Lieutenant and Torington.

Rifle Company E, Hartford, Capt. Southard.

Rifle Company F, Bridgeport, Capt. James D. Merrill.

Rifle Company G, Plainfield, Captain Henry B. Lester.

Rifle Company H, Suffield.

Two companies from Middletown.

WAR NEWS, &c. The government has decided to establish an arsenal at once at Rock Island City, Illinois, in place of the Harper's Ferry Arsenal just destroyed. Rock Island City stands on the banks of the Mississippi, one hundred and eighty-two miles southwest of Chicago. It is situated at the foot of the Upper Rapids which extend nearly fifteen miles, and in low stages of water obstruct the passage of vessels drawing a heavy draft. In the channel is an island from which the city derives its name, three miles in length, presenting a perpendicular front of limestone from twenty to thirty feet high; the channel to the east of the island has been dammed, so as to produce an immense water power above, and leaving a fine navigable channel on the west side. It is very probable that the arsenal will be located on this island, and its geographical position seems very favorable for this purpose.

An additional call has been made upon Pennsylvania for twenty regiments of infantry and one of cavalry, all of which have already been tendered to the Governor for the service of the United States government.

Intelligence received from Harrisburgh intimates that a prompt movement is about to be made from Pennsylvania at once which may result in the occupation of Baltimore by federal troops within forty-eight hours.

Troops are being hurriedly concentrated at Camp Scott, and Chambersburg, Pa., to the latter point ten brass field pieces and a large quantity of ammunition were forwarded within a few days.

There are probably not less than a quarter of a million of men in the different Northern States enrolled at present, of whom about sixty-eight thousand are qualified for active service in the field.

Indiana has appropriated \$500,000 for war purposes.

Seventy-one thousand volunteers have offered their services to Governor Dennison, of Ohio, to fill the thirteen regiments required.

Indiana's quota—six regiments—are now fully organized, and four regiments, it is understood, will march soon. Six more regiments will be mustered into the service of the State.

FOR THE FARMER. A WORD TO "W. G. S." MESSRS. EDITORS:—I read with inexpressible disgust the correspondence in the Standard of yesterday, signed "W. G. S." I thought party spirit was to be done away with. I think a communication of this character from a man who subscribes one hundred dollars on the "contingent side," and nothing on the "pay down side," for our brave volunteers, is to say the least hypocritical—and a subscription from any man who fails to pay his liabilities to the tune of thousands, is of rather questionable honesty. We may have "weather-cook" men in our midst, but a discerning public will at once see that they are composed in part of men who like W. G. S. dare not go so far South even as New York.

He further says—"They would not raise a finger to rescue the National Banner, &c." Now I would ask the man who are all the brave volunteers from Connecticut and our city, that have so nobly responded to their country's call, for the protection of the glorious Stars and Stripes and for the salvation of our glorious Union? Are they the Abolitionists? Are they the Republicans? Are they the Wide Awakes? No! oh no; it is the glorious old Democracy, ever the first when our country is in danger, as well as ever the first for honorable peace.

"They have not contributed so much for the cause of freedom, as the cost of the bunting they so gallantly wave," &c., &c. Beautiful sentiment—isn't it? W. G. S. probably intends to convey the idea that the flags displayed by the Democracy, were either stolen or purchased on credit, without the intention of paying for them.

"Let the lines be drawn." Aye, and they are drawn between honest men and double-faced hypocrites. W. G. S. quotes Scripture. I would offer for his benefit the following: "When thou givest alms, let not thy right hand know what thy left hand doeth." Apply this rightly, oh W. G. S., if thou canst.

PATRIOT. "Why don't you wear a rosette?" said a prominent Republican to a Democratic friend he met in the street on Saturday.

"Because Democrats are now, as they always have been, lovers of the Union and the Constitution, and have ever been ready to uphold their government and their country's flag, and therefore do not need to make any extraordinary show to convince people that they are patriotic in their feelings"—was the reply. The conversation, we learn was suddenly closed by the abrupt departure of the Republican.

[From the Journal of Commerce.] A SONNET FOR THE TIMES. How canst thou, Sun, illumine a land Where Christian life is dead, To spill a brother's blood, and send the wail Of widowed wives and orphans on the gale; And crush anew our country's blood-bought aid, Made sacred to true hearts by Freedom's God?

April, thou month of coming birds and flowers, How canst thou smile upon the frenzied Powers! Methinks the clouds and storms of March should still Hang heavy o'er our every vale and hill. Trees should not bud, nor blossoms lift the head, But weep their lifeless limbs on a falling star. Whose beacon-light is dimmed by cruel war; And hide the head in consequence on a lower. While o'er our heads a kindling war's red flame? Wisdom should hand in hand with love be joined, And charity have place in every mind. Till he who sheds a beam in his own eye, May to "his brother's mote" the knave apply.

Wives! mothers! daughters! have ye sought to say? No voice to raise, war's bloody hand to stay? Think of your children; husbands; lovers; aires; Think of your homes; your fathers; and your fires; Think of your country; and the blood-bought aid, And pierce Heaven's concave with your prayer for peace.

And pierce Heaven's concave with your prayer for peace. Till God shall make the raging billows cease. LOUISA B. FLENDER.

RELEASE OF GEN. HARNEY CON. FIRMED.

GOV. CURTIN'S MESSAGE. HARRISBURG, April 30.—Gov. Curtin's message speaks of the unexampled promptness and patriotism with which Pennsylvania and other loyal States have responded to the call of the President.

He says the slaughter of Northern troops in Baltimore for a pretended offense, imposes new duties on the State and administration of this State. These things cannot be submitted to, whether Maryland professes loyalty or otherwise. A hostile soil is no obstruction to the thoroughfare between States undoubtedly loyal and their national capital.

There is reason to hope that the route through Baltimore will be no longer closed against the peaceable passage of our people, armed in service of the Government, but we must be fully assured of this and of the uninterrupted enjoyment of a passage to the Capital by any and every route essential to the purposes of the government.

This must be attained peaceably if possible, but by arms if necessary, for a temporizing forbearance of this rebellion is past.

On Saturday a requisition was made for twenty-five regiments of infantry and one of cavalry. There has been more companies tendered than will make the entire complement.

The Governor communicates the fact that the banks have tendered any amount of money necessary. The loan of \$500,000 is not yet exhausted, but a much larger sum will be required.

The Governor recommends the immediate organization of fifteen regiments of cavalry and infantry exclusive of those already called, for the protection of the border. He also recommends an act legalizing and authorizing appropriations by corporations for the families of volunteers, and a law to prevent the sacrifice of property by forced sales for the collection of debts.

FROM WASHINGTON. WASHINGTON, April 30.—Senator Hunter, Wm. D. Preston, Judges Camden and Brockingham, have been appointed by the Virginia Convention, delegates to the Southern Confederacy.

Proclamation of the People. Fellow Citizens of Connecticut generally and Ladies and Gentlemen of the State of New York.—Another proclamation of secession has been made upon the North, even in this old State of Connecticut. Southerners of the most Southern kind are running off with our arms and accoutrements. We have been periodically nearly every mail bringing orders for Wallaces Crackers, to be distributed to Southern people, thereby threatening to starve us out. We can endure this no longer, and therefore we do firmly declare to the United States and New Jersey that henceforth we will maintain our rights and buy up all Wallaces' Bread, Cakes and Crackers, and we will not be any longer in any way connected with the Government or any of its agents.

Call and look at those beautiful Cakes and Crackers. They are so much more than the ordinary kind. They are so much more than the ordinary kind. They are so much more than the ordinary kind.
