Every apof Stantz, Heinrich Imgrund, was one of these who most sincerely mourned this state of things. One day, when matters were at the worst, and the danger appeared most in nent, the worthy man took his walking st and proceeded to the Melchthal. It was winter, the last week of December, and the winter, the last week of December, and old priest made his way over the snow toe to the hermitage of the pious Nicholas the Flue. There he hastened to lay bef the good man the state of things in Stan and the dangers that threatened their or mon country. THE PHILOSOPHY OF FACT !

Awiter in Hall's Journal of Health combats in a very forcible manner the prevailing but erroneous opinion that sudden deaths are invariably the result of heart disease. Nothing could be further from the truth as it has been ably demonstrated from solentific investigations that 5½ per cent. only, arose from disease of the heart, and that the mortality from costiveness alone was threefold greater than from the heart, apoplexy, or pulminary affections. This universa! and popular fallsey should be dissipated at once, and the real cause of sudden deaths, with the best preventive measures submitted to the people.—This has been the doctrine of Dr. Holloway through a long and arduous career in all parts of the civilized world. The Third Regiment of Connecticut Volunteers will leave for Washington as soon Mrs. Wigfall, wife of the Senator of that name, is now residing in a country town of Massachusetts, near Boston. Far from the best preventive measures submitted to the people.—
This has been the doctrine of Dr. HOLLOWAY through a long and arduous career in all parts of the civilized world. In aimost every disease he prescribes his CELEBRATED FILLS whose immediate action is on the stomach and bowels. Unlike ordinary cathartics, however, which create a necessity for repitition until the functions of the bowels have become paralyzed, Dr. HOLLOWAY'S PILLS penerate to the seat of the disorder, and not only expel the acrid matter from the stomach and viscera, but so removate and invigorate them that a future recurrence of the maiady is actually impossible. The influence of those remedies is not confined to those organs alone. Their active principle combining with the blood is conveyed to every part of the system, so that the whole constitution becomes invigorated, and the general health of the patient established on a more firm and durable basis than ever. During Dr. HOLLOWAY'S brief sojourn in the United States, he visited our principal cities, and gave popular lectures on the cause and origin of disease in general, clearly showing their effect upon the system. He also explained in an easy and familiar style the peculiarity and operation of his Pills and Ointment in all phases and types of disease.—Eclectic Enquirer being jealous of her presence as a spy, her neighbors take a pride in bestowing every attention, and ask only that what she writes shall be the truth regarding things around her. This shows that the Republicans in the community in which Mrs. Wigfall resides are high-minded and honorable. Our attention has, however, been called to a despicable occurrence, which recently took place in Stratford. A Southern widow lady who resides in that town, was waited upon by a leading Republican, a few days since, and

Grey and bald heads are beginning to be unknown, for Heimstreet's Restorative cures both. RESTORATIVE CORDIAL

It is precisely what its name indicates; for, while pleasant to the taste, it is revivifying, exhilirating, and strengthening to the vital powers. It also revivifies, reinstates, and renews the blood in all its original purity, and thus restores and renders the system invalnerable to attacks of disease. It is the only preparation ever offered the world in a popular form so as to be within the reach of all.

So chemically and stiffully combined as to be the most powerful tonic, and yet so perfectly adapted so as to act in powerful tonic, and yet so perfectly adapted so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive or gans, and allay all sorrous and other irritation. It is showed perfectly exhilirating in its effects, and yet it is composed entively of vogetables, and those thoroughly combining powerful tonic and southing properties, and consequently can never injure. Prof. WOOD'S RESTORATIVE CORDIAL AND BLOOD
RENOVATOR, as the remedy which should be always on
hand in time of need.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it sids the organs of digestion to perform their functions, and resist the assault of disease. It is a chemical compound so skillfully combined that while it exhibitaries, it does not provoke the leastinde which usually follows excitement. A tonic composed exclusively of vegetable matter, it is absolutely beneficial, and no ill effects can possibly accompany its use. It is an infallible and speedy remedy for Loss of Appetite. Faintness, Nerswoug Bebliny, Neuragiag, Falpitation of the Heart, Falling of the Womb, and other delicate diseases to which woman is subject. For Steiness of the Stomach, Bilious Attack, Liver Complaints, Coatwoness, Dyapopsis, Consumption, and a host of evils feat is helr to, it is a certain cure.—St. Louis Morning Herald.

PHOF. WOOD'S RESTORATIVE CORDIAL—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserphen in a box. After some delay the messenged out flower in a box. After some delay the messenger returned, and as soon as the ild of the box was remeded out flower in the list that flesh is heir to. For unastely, nope was found in the bottom of the box. PROF. WOOD'S RESTORATIVE CORDIAL revives the recollection of the story, for it invigorates the blood, alds the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health, so as to bid defance to the assaults of disease. It is a healthy tonic, composed entirely of vegetable productions, and while it is exhilarating as pure wine, no injurious results can possibly follow its use. It is a desideratum in the medical world, and those who are afflicted with Loss of Appetite, Dysepsia, Consumption, Fainness, Giddiness, Neuraigis, Palpitation of the Heart, &c., &c., will here find an infallible panacea.—St. Louis Daily Express.

A PURE HEALTHY TONIC, and one free from the deletrious and injurious effects sure to follow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so shilffully combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and that soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone so like the regans of which the human body is composed, is offered in FROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR. Hence it is perfectly adapted to old and young. Reader, try it. Thousands have already done so, and the testimony is universal in its favor.—New York Atlas.

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, for the cure of General Debility or Weakness, arising from any cause; also, Dyspepsis, Nervousness, Night Sweats, Incipient Consumption, Liver Complaints, Billousness, Loss of Appetite, Female Weakness in all its stages; also to prevent the contraction of disease, is certainly the best and most agreeable cordial tonic and renovator ever offered to the sufficted, and so comically combined as to be the most powerful tonic ever known to medical science. Reader, try it. It will do you good. We haven hesitation in recommending it, since we know it to bela safe, pleasant, and sure remedy for the diseases enumerated.—New York Dispatch

LOOK TO YOURSELF IN TIME.—How many in consequence of a false delicacy sufer from suppressed, painful, or obstructed menstruation, and think because they are young that bye-sand-bye nature will work itself clear from obstructions, and all come right in the end, little dreaming that the seeds of death are already germinating in the system because the vital energies are impaired, and the entire animal economy deranged, debilitated; and yet, careless of themselves as they are, if a remedy were set beofre them which would restore all the functions of the system and re-invigorate the body, they would take it, and thus been in time to save their lives. Farents, think of this, and at once give them a bottle of PROF. WOOD'S RESTORAT IVECORDIAL AND BLOOD RENOVATOR.—The New York Courier.
