The old man paused. The better intentioned of the deputies, who had been silenced by the violence of their companions, presed about him. He repeated his counsels; he entered more particularly into the subjects of dispute; more and more gathered to the ranks of peace; and, in short, it is a matter of history that the earnest address of the good man worked an entire change in the temper of the Diet. In one hour's time the country was saved. It may be doubted whether there is on record, in the whole course of history, so striking an instance of disinterested wisdom upon a public assemble. disinterested wisdom upon a public a at a moment so critical. Probably, at a moment so critical. Probably, such a incident could only occur in a simple state of society, where legislative pride and legislative weakness had not made such rapid strides as in later times. Happily for Switzerland, the question was decided on the spot; during that same day's session every subject under debate was peaceably settled. The confederacy was saved. To the present day the Swiss thankfull recur to the 22d of December, 1481, and the appeal of Nicholas von der Flue to the Disof Stantz as a memorable epoch in their his tory. Certainly the incident is very remarkable, and almost without a parallel in history. those who boast of his own blood and name can scarcely claim a deeper and more hearfelt veneration for his remory than that which is felt throughout the whole confideracy. There is no name in Switzseland, not even that of Tell, revered more highly than the name of Nicholas von der Flue. "Blood are the peace-makers for they shall be called the children of God."

Probably, if earnest efforts in behalf of concord. like those of the old hermit wars more frequently made, history would, on many occasions, show less gloony plotters than those which she now unfolds to the world. But it is a singular fact that, generally good men are more easily disheartened, and consequently, far less active in times of internal disturcance than the selfish and intriguing. Surely this ought not to be. intriguing. Surely this ought not to be.

Can any one now fail to see the truthfuless of these predictions? Do not the events that have already transpired, and those daily transpiring, prove the correctness of all that was then foretold as to the tendency of that sectional system of political agitation known by the name of Abolitionism, but which since has been kept up under various popular disguises, designated and recognized

by the names of Liberty men. Free Democ racy, Maine-Lawism, North Americanism Unionism, People's Party, Republicanism Black Republicanism, Helper Republicanism and Abolition Republicanism. In 1853-4 the old Whig party went to pieces, and the great er portion of its members flocked into the Know Nothing organization, preceded by the

old leaders of Abolitionism, who had taken the front rank in the Maine Law agitation and thus held the balance of popular power in this and other States, in their own hands Since then, they have exercised a controlling sway, not only in Connecticut, but in all the Northern States, and under their direction cloaked by one disguise or another, the Antilavery or Abolition crusade against the South has been carried on with a degree of pitterness and violence ten-fold greater than was ever before known in our history. The sult has been a dissolution of our inestimable Union-just as Calhoun, Clay, and thouands of others, predicted. From this dissolution and the condition of things incident thereto, the pecuniary loss of our Northern cople (the manufacturers, mechanics, workngmen and others) is estimated by the Standard to be already not less than five hundred millions of dollars. But this, it seems, is not nough. The disruption must be made complete and perpetual. To this end, a civil war, in utter violation of the articles of Union, has been commenced by the President, and thus, apparently, all hopes de-

Let our suffering mechanics, manufact rers, workingmen, ship-owners, and property-holders, bear these facts constantly in mind. Great efforts are now being made by the organs of Abolition-Republicanism to confuse the understanding of the people on the subject, and to make them believe that the present disastrous state of things is not the result of their long and violent crusade against the South and against the articles of National Union. But these efforts cannot be successful, we are sure, for any consider able length of time. The facts are too plain and too potent to be kept out of sight, or kept from having a weight that will be overwhelmingly convincing on the minds of the people. We have yet an abiding, unshaken faith in the common sense and general intelligence of the masses; in their ability to finally see through all the tricks of political demagogues to impose upon and to cheat them. The public should remember that they continue to draw these salaries during their absence from their posts, and also draw high salaries as commanders of volunteers. This is certainly beautiful "patriotism." The people will soon begin to see, if they have not already, why most of the Republican leaders are so extremely anxious to serve their country as military commanders during our existing troubles. It is because they can get two large salaries instead of one.

We see it stated that the Post Master General has decided not to make any more removals from office except "for cause." The New Haven Register says in that vicinity the guillotine is being greased up. The heads begin to fall. If the Republican office seekers are so very anxious to show their patriotism and to serve their country so badly why don't they enlist at once ? THE APPRAY IN BIDGEFIELD. The Republican papers had an article o Tuesday about some men being shot in Ridgefield on account of their "great patriotism." Such is not the case. According to letter we have received from Ridgefield, the pien who were shot, were shot because they

were engaged with others, in attacking unanimously adopted : Our correspondent says the facts matter are these: On Saturday afternoon s the grave of Washington, be polluted by the flag was hoisted in the easterrn part of Ridgefield, known as "Florida." The flag was an old American flag, made some years ago. to " hoist on the Fourth of July." About nine o'clock a body of Republicans started for the

place. On arriving at the spot they tore the flag down. Not satisfied with this, they made an attack on the house of the man who had as they thought, something to do with raising the flag. They were warned to desist, but paid no attention to the warning. After they had succeeded in breaking in the door, they were greeted with a discharge of fire arms. They then thought discretion the better part of valor ' and beat a hasty retreat." The attacking force we are told was composed of fourteen valiant Republicans, while the force that resisted the attack was composed of only one single man. He. however, is a descendant of a celebrated Kentucky Colonel, and like his ancestor, does not believe in "backing down" when defending his legal rights.-

Our correspondent adds that all Repub lican mobs in Ridgefield that endeavor to put down freedom of speech or infringe upon the constitutional rights that belong to every American citizen will be treated in the same manner the mob was treated on Saturday

PROCLAMATION BY GOVERNO

Gov. Letcher, of Virginia, has just issued the following proclamation, accompanying it with a designation of the places of rendez-vous for the troops from the different counties: The Sovereignty of the Commonwealth of Virrinia having been denied, her territorial rights ssailed, her soil threatened with invaby the authorities at Washington, and every artifice employed which could inflame the people of the Northern States and misrepresent our purposes and wishes, it becomes the solemn duty of every citizen of this State to prepare for the impending conflict. Those misrepresentations have been carried to such an extent that foreigners and naturalized citizens who, but a few years ago, were denounced by the North and deprived of essential rights, have now been induced to enlist into regiments for purpose of invading this State, which then vindicated those rights and effectually resisted encroach-ments which threatened their destruction. Against such a policy and against a force which the Government at Washington, relying upon its numerical strength, is now rapidly Virginia to prepare proper safeguards. To this end and for these purposes, and with a de-termination to repel invasion, I, John Letcher, Governor of the Commonwealth of Virginia by authority of the Convention, do hereby authorize the commanding General of the military ferces of this State, to call out, and to cause to be mustered into the service of Virginia, from time to time, as the public exigency may require, such additional numbe of volunteers as he may deem necessary.

ORIGINAL VIGOR AND PURITY.

RESTORATIVE CORDIAL

It is precisely what its name indicates; for, while pleasant to the taste, it is revivifying, exhilirating, and strengthening to the vital powers. It also revivifies, reinstates, and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted, so as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilirating in its effects, and yet it is never followed by leastlude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

MOTHERS should use it, for it is a perfect relief, taken month or two before the final trial, she will pass the dreadfu period with perfect case and safety.

THERE IS NO MISTAKE ABOUT IT. THE CORDIAL IS ALL WE CLAIM FOR IT!!

MOTHERS TRY IT.

And to you we appeal, to detect the illness or decline not only of your daughters, before it be too late, but also your sons and husbands, for while the former from false delicacy often go down to a premature grave, rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they too would travel in the same downward path until it is too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-falling affection will unerrin. by point you to Prof. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR, as the remedy which should be always on hand in time of need.

Read what the Press say after thoroughly testing the mater, and no one can have a doubt:

PROF. WOOD'S RESTORATIVE CORDIAL AND BLOOD RENOVATOR is a genuine medicine of real merit, pleasant to the taste, and invigorating to the system. While it purifies the blood and soothes the nervous irritation, it aids the organs of digestion to perform their functions, and resist the assault of disease. It is a chemical compound so skillfully combined that while it exhibitates, it does not provoke the lassitude which usually follows excitement. LOOK TO YOURSELF IN TIME.—How many in consequence of a talse delicacy suffer from suppressed, painful, or obstructed mens truation, and think because they are young that bye-and-bye nature will work itself clear from obstructions, and all come right in the end, little dreaming that the seeds of death are already germinating in the system because the vital energies are impaired, and the entire animal economy deranged, dobilitated; and yet, careless of themselves as they are, if a remedy were set before them which would restore all the functions of the system and re-invigorate the body, they would take it, and thus been in time to save their lives.
