Democratic principles are, or course, the "only Stantoguide us through the dark and troubled future," and our own Butler is the Standard bearer of those, who, is endeavoring to maintain the Government, will not transple upon the rights of American cliticus, nor become contaminated with that vile monster, Abolitionism—which run the Ship to total ruh, unless patriots become the pilot to redeem and save!

But I am satisfied that if the master and elave had Christianity, the relation would be quite tolerable; much better than any relation without Christianity. The Wallingford communionists attribute unhappiness in the marriage relation to the ordinance of matrimony, but the ordinance is all right; unhappiness is for want of that spirit which makes "all tree in Christ." "Art thou called, being a servant, care not for it." I write thus, Messrs. Editors, to do what little I can to modify the 'awift wrath" which will "best down" the American Union "to the earth."

Now, as all are guilty who pandered to and voted for Gillette, Boyd, Ferry, Chase, Seward, and Lincoln, when Abolitionism was growing more and more powerful and dangerous, and when told by Henry Clay that "If the Wbig party was to be marged into a contemptible abolition party—he was no longer a Whig"—It behooves all such as favored them to pull down that national sentiment which had such noble expression under the Whig and Fillmore administration, to go back.

Now, as by building a platform to satisfy the old brassmounted and oft-kieked traitors, Democracy was defeated, you can help to undo this sectional sentiment, and thereby give the South some confidence in the North, in the acpeof their offering to come back if they will be let alone to their domestic institutions!

WHO ARE THE DISUNIONISTS? The Tribune now gives loose rein to its instincts, and will wax bolder and become more exultant as the bonds of union are weakened or dissevered. Indeed, there is ground for the belief that the Tribune would regret nothing so much as a reconstruction of the dismembered Republic, and that its labors are directed, not to bring back the slave States, which have seceded, but to drive off those which still remain.—Albany Evening Journal (Re-

WHO ARE THE DISUNIONISTS ?

Had Washing ton's Farewell Address appeared as an original document any time during the last ten years, the Tribune would have scouted its union-loving sentiments, and have made them the butt of its jeers. The Bridgeport Farmer offers an excellent chance to anybody who wishes to publish his own infamy in its treasonable columns. The Farmer having gone on its trees before Secession and Treason, and having thereby aroused the indignation of an abused people, is evidently losing ground, and now fills two whole columns with proclamations of its own merits as an advertising sheet! We should like to see the names of its new patrons—Hartford Post.

One great trouble with the Farmer is that it disbelieves in the Republican Disunion Platform and in their Disunion Nullification Laws. Its views in reference to these, are well expressed in the following words of Mr.

The question at this time is, the Union, and how we shall preserve its blessings for the present and for all time to come. To MAINTAIN THAT UNION, WE MUST OBSERVE, IN GOOD FAITH, THE CONSTITUTION AND ALL ITS PARTS. If the Constitution be NOT OBSERVED IN ALL ITS PARTS, THE WHOLE OF IT CEASES TO BE EINDING.

1 HAVE NOT HESITATED TO SAY, AND I REPEAT, THAT IF THE NORTHERN STATES REFUSE WILFULLY AND DELIBERATELY TO CARRY INTO EFFECT THAT PART OF THE CONSTITUTION WHICH RESPECTS THE RESTORATION OF FUGITIVE SLAVES, AND CONGRESS PROVIDE NO REMEDY, THE SOUTH WOULD NO LONGER BE BOUND TO OBSERVE THE COMPACT. A BARGAIN CANNOT BE BROKEN ON ONE SIDE, AND STILL BE EINDING ON THE OTHER SIDE.—Demiel Webster.

Anotherstrouble with the |Farmer is that it believes in that part of the Declaration of Independence which says a people have a right to alter or abelish their form of Government whenever the objects for which the stroved Its views on this point are very well expressed in the words following rom the New York Tribune :

What we have affirmed, and still maintain, is the right of a PROFLE to frame and modify their political institutions in accordance with their own convictions of duty and policy, as affirmed in the immortal Declaration of American Independence. If our correspondent

We have repeatedly asked those who dissent from our view of this matter, to tell us frankly whether they do or do not assent to Mr. Jefferson's statement in the iDeclaration of Independence, that governments "derive their just powers from THE CONSENT OF THE GOVERN-ED " and that, whenever any form of government becomes destructive of these enda, IT IS THE RIGHT OF THE PEOPLE TO ALTER OR ABOLISH IT, and to institute a new government, &c., &c. WE DO HEARTILLY ACCEPT THIS DOCTRINE. BELIEVING IT INTRINSICALLY SOUND, BENEFICENT. AND ONE THAT, UNIVERSALLY ACCEPTED, IS CALCULATED TO FREVENT THE SHEDDING OF SEAS OF HUMAN ELOOD. AND, IF IT JUSTIFIED THE SECESSION FROM THE BRITISH EMPIRE 10F THREE MILLIONS OF COLONISTS IN 1776, WE DO NOT MILLIONS OF COLONISTS IN 1776, WE DO NOT SEE WHY IT WOULD NOT JUSTIFY THE SECES. For our own part, while we deny the right of sizveholders to hold sizves gainst the will of the intet, we cannot see how Twenty Millions of people can rightly hold. Ten or even Five Millions in a detested Union with them by military force.—Tribune, Dec. 17.

If ever "seven or eight States" send agents to Washington to say, "We want to get out of the Union," we shall feel constrained by our devotion to Human Liberty, to say, Let them go! And we do not see how we could take the other side WITHOUT COMING IN DIRECT CONTACT WITH THOSE RIGHTS OF MAN WHICH WE HOLD FARAMOUNT TO ALL POLITICAL ARRANGEMENTS, however convenient and advantageous—Tribune, Dec. 17. them by mi ary force. - Tribune. Dec. 17.

The fathers of our country were denounced as traitors for believing and giving utterance to such sentiments, and navies and armies were sent to butcher and subjugate thembut the God of Battles was on their side: nerved their arms for the contest : and finally gave them the victory. These principles. for which they "fought, bled and died," they transmitted, as a precious inheritance, to their posterity, and, we trust, we never shall prove recreant to the obligation which rests upon us to defend and maintain them, If this is treason, then we are traitors, -and we say, as Adams is reported to have said, when urging the adoption of these principles :-"Sink or swim, live or die, survive or perish, we are for the Declaration."

From the most reliable information at our command, we are satisfied that there are now not less then 225,600 men mustered into the service of the United States government and under pay. All these troops have been called out to support a man in office, simply because he prefers to trample upon the Constitution rather than obey it. This immense army has got to be paid; the administration in front of Mr. Henry Hall's house, Fairfield is now expending over a million of dollars a Avenue, and ran. MESSERS. POMEROY & MORSE—GENTLEMEN:—I am much gratified with the tone of, and policy advocated by your paper. I wish that our countrymen would look at the existing state of things calmly, and reason with justice and humanity. It is certainly sad to think of the awful consequences of civil war—and also to think of the terrible calamatics that awatts us as a people if our rulers persevers in carrying out the war policy they have inaugurated, it ought to be the wish and aim of every patriot and lover of his country to do all in his power to avert the rule that now threatens us. I trust you will continue the advocate the policy you always have.

HISTORY OF THE WAR OF 1861 .- Frank Leslie, the enterprising publisher of the 11lustrated Newspaper and Magazine, has commenced the publication of a new and valuable semi-monthly periodical, entitled "History of the War of 1861." It is designed, not only to preserve, in as compact a form as the nature of the case will admit, all the essential facts and documents connected with the present era in our national affairs, but also to present biographies of the "Men of the Times," statistics bearing on the question at issue, and such "Scenes and Incidents" as may illustrate the spirits and tempers of the period. This department is under the charge of a gentleman of established literary and scientific reputation-Hon. E. G. A special feature of the work. however, is its pictorial representations of events and places rendered conspicious or important; with plans of fortifications, portraits, maps, etc., without which the clearest descriptions are scarcely intelligible. No effort or expense will be spared to render this feature equally accurate and interesting. The publisher has now upwards of twenty capable artists in the field-a number in the South as well as in the North-attached to the various army corps, on whose faithfulness the public may rely. The work deserves, and it will undoubtedly have, a liberal patronage.

These persons probably think it is really too bad that the Bridgeport Proscribing Committee did not succeed in their pious design of "crushing ouf the Old Farmer." If they had accomplished their purpose the Abolitionists in the town referred to evidently would not be quite so much annoved. A SMALL COMPASS.—DERANCEMENT OF THE STOMACH AND BOWELS.—Few people are conversant with the manner in which the blood is created, or that the stomach with the gastriculces, the secretions of the liver and the action of the lungs are the chief agents for converting the food we eat into blood, hence the great necessity for preserving the stomach in a sound and healthy condition. Nothing has yet been discovered more effectual for this than Hollowar' famous Pilles, which act directly on the stomach, liver, howels and circulation. In billious disorders, indigestion, costiveness and all consequent complaints, headache, piles, and debility, there is no medicine in use which insures such certain and beneficial results.

The statement in the dispatch of yesterday that the rebels [had retired from Bethel, is true, only so far as their main body is concerned, but the plain is still held by them and they can be reinforced at short notice.

Capt. Davis, Lieut. From there to Yorktown they were conducted by bridle paths under the escort of a sergeant and four troopers, who met them at New Market bridge, three miles from Hampton, to which point the secession pickets now extend. They were courteously treated by Ool. J. B. McGruder, who commanded at Great Bethel.

There is a large encampment of cavalry at Yorktown and the place is strongly fortified. There are also batteries between Great Bethel and Yorktown.

O. J. Wood, Esq.:—Dear Sire.—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your HAIR RESTORATIVE, after a trial of 6 years. I commenced using your Restorative in January, 1825, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its failing, and in three weeks time there was not a gray hair to be found, neither by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even fatter your vanity at this late day, s. I am woll aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your raticle at all, but had used some new article, said to be as good as yours, and selling at about haif the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of those charlstans have not brains enough to write an advertisement, as I notice they have copled yours, word for word in several instances, merely inserting some other name in place of yours.

I have, within the past if we years, seen and talked with mere than two thousand persons that have used your preparation with perfect success—some for baldness g DISTINGUISHED ST. LOUIS PHYSICIAN WRITES CLARK & DERRICK, LORD & TAYLOR, JOHN BARR & CO.,

Prof. Wood—Dear Sir.—I was induced more shan a year ago to try your valuable HAIR RESTORATIVE, for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for vears, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gloss & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely remoyed all dandruff from my head, and an application once in wo weeks keeps it free from any liching or other unpleasan ness. I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c., than at any time since I was a citild. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this or any part of it in any shape you think proper, if it is worth anything to you.

BEAR SIR:—I hereby send you a statement that I think you are entitled to the benefit of. I am a resident of Bloomington, and have been for over thirty years. I am now over 50 wears of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white, and very stiff and unpliant. I have seen so mumber of certificates of the very wonderful effect of your HAIR RESTORA-TIVE, but supposed there was more fiction than truth in them but entertaining a strong desire to have my hair, in possib e, restored to its original color and fineness, as it was in my lyounger days a beautiful black, I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, it one dollar, and commenced using, following directions as nearly as I could. I soon discovered the dandruf removed, and my hair, that was failing off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it till I have used three of your small bottled and just begun on the fourth. I have now as pretty a he a of dark brown, or light black hair as any man, or as I had isn my youthful days, when a boy in the hills of western Virgina. My head is entirely clear of dandruff, and the hair ceased entirely falling off and is as soft and fine, and feel and colly, as though it was just from the bands of a French cham pooer. Many of my acquaintances frequently say to me "Builer, where did you get that fine wig?" I tell them I was the effects of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head Yours truly, FRED. T. BUTLER, ford.

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its prestine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attacking to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innectious.—Boston Transcript. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its proporties, its diseases, and how to restore the decaying vitality of that ornament; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached four score, and he believed that the hair could be naturally revitalized.
