Suppose, however, that yet more had been done in the way of conquest. Suppose that every military point in Virginia were held by Northern troops. What then! We are thrown upon the necessity of maintaining at great expense and at constant risk, these isolated garrisons in a hostile, and more: singly

hostile country. Still there is no conquest, and surely no Union.

But unless the people forbid, this war must go on. It must go on because it is necessary that the Administration should meet Congress with it and because meet Congress with it, and hand it over to that body, or who will meet these enormous expenses?

It must go on for the benefit of the mili-tary Generals. It must go on for the benefit of the swarm of logusta in high places and low, who, by contracts and purchases, feed low, who, by contracts and pu themselves fat upon the people's patriotismapigeon for them to pluck.

Outside of these interested parties, no one,

either among the lookers on of Europe, or among ourselves, dreams that the Southern States can be subjugated, or the Union re-constructed. In institutions, social condition and interests, they are alien to us. In the formative stage of our country they only united with us under guarantees and compromises which we have not kept; perhaps not been able to keep. If we give them the hand of friendship and brotherhood, if we hand of friendship and brotherhood, if we look with sorrow upon their pervetity, and lament that they will not partake of our good things, but say go and walk in your own ways, we might have yet a prosperous aister empire by our side, bound to us still by many ties of friendship, only separated from as by those things which render Union impossible. Better this than to go on tearing down our own house for material with which to drive them from their homes.—Journal of Commerce.

Yet it is nevertheless the fact that, if a fug'tive from service, whom the Constitution and laws of the United States require to be delivered up, be in the custody of a Marshal of the United States to retain that custody, the laws of the United States to retain that custody, the laws of Massachusetts require every Judge of its Supreme Court, its Superior, its Probate, or Police Court, (or any Justice of the Peace, in some contingencies,) to issue a writ requiring the Marshal of the United States, having such custody, to bring the fugitive before a State tribunal, and to relinquish his custody upon its order. And having thus taken the fugitive from the custody of the law of the United States, the State tribunal is to proceed to a trial of the matters in issue, with forms and principles of its own, which it is believed have never been applied to any other case, which are wholly inconsistent with the laws of the United States, and in open iples of its own, which it is believed have never applied to any other case, which are wholly inconti with the laws of the United States, and in open see of their authority. It is stated that Lincoln and Gen. Scott think they must have two hundred and fifty thousand men to carry out the aggressive principles of the Chicago Platform. The Tribune, Evening Post, and other Republican prints are fierce for the prompt execution of the prisoners taken or the Southern privateer Savannah. From the tone of these papers one is led to infer that this war is not only a "war for the extermination of slavery," but a war for the extermination of the white population of the South also. The Abolitionized appetites of the Republican editors are of a sanguinary order-and yet none of the contemptible cowards have courage enough to help fight a war they have been the main instruments in bringing about. voice in favor of peace:

Above all the wars, a civil war is the most deplorable and the most destructive in its consequences, both to the victor and vanquished. Its progress is marked by ruin and desolation. It gives a loose rein to the worst passions of human asture; rapine and carnage, though horrible to grave upon, though terrible to witness, cannot be compared to the moral evils which it inflicts upon society. It is not is civil strife that the nobler attributes of our nature are shown; the mind of man becomes hardened and callous smid scenes of blood and devastation. The transition from a peaceful republic to a military despotism is more easily effected through such a medium than people generally suppose. Mankind are pretty much the same in every age of the world. Material civilizatiod, it is true, may develop the mind and sharpen the intellect, but it does not purify the aspirations nor elevate the moral nature of the race.

We have heard a proposition made by a prominent speaker at the great demonstration which was lately held at Union Square, that we trust was either not seriously entertained, or had its origin in the excitement of the moment. It was nothing more or less than a recommendation of the policy which England has pursued towards Ireland. The speaker expressed himself in favor of taking away the plantations from the Southern owners and bestowing them as land bounties upon the Northern soldiers. The idea, as we have intimated, is not an original one, as it was partially carried into effect against the people of Ireland, and as a means by which that people were to be utterly exterminated. For our part, we protest against such a wholesale system of spoliation—a system which is calculated to plunge the country irremediably into a war that this generation may never see the end of, and to arouse feelings of hatred and revenge that may live through centuries.

The proposition to which we have referred is, however, comparatively mild to its character when compared with the suggestion that has been pu

Have we now sunk so low in the scale of humanity, have we so far forgotten our obligations as Christian men, even before we have rightly entered into the heat of the conflict, to calmly tolerate or sanction a proposition as fiendish and as inhuman as that against which the elder Pitt raised his voice?

O.S. Ferry has been appointed colone of one of the Connecticut Regiments of Volun teers. This fanatic when in Congress abused the South in his speeches and by his acts and exerted himself to the utmost to force her out of the Union? Now we are given to understand that he intends to do all he can to force her back. During the past few years he has catered exclusively to the depraved Abolitionized appetite of the community, and has done everything he possibly could to plunge our country into a civil war. It is the only preparation ever offered the world in a popular form so as to be within the reach of all.

PROF. WOOD'S RESTORATIVE CORDIAL—It is recorded in the classics that Psyche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the lid of the box was removed, out fiew all the fills that fiesh is helf to. Fortunately, hope was found in the bottom of the box. PROF. WOOD'S RESTORATIVE CORDIAL revives the recoilection of the story, for it invigorates the blood, aids the organs of digestion, imparts strength to the nervous system, and fortifies the citadel of health, so as to bid defiance to the assanits of discase. Palpitation of the Heart, &c., &c., will here find an infallible panacea.—St. Louis Daily Express.

LOOK TO YOURSELF IN TIME.—How many in con sequence of a false delicacy suffer from suppressed, painful, or obstructed menstruation, and think because they are young that bye-and-bye nature will work itself clear from obstructions, and all come right in the end, little dreaming that the seeds of death are already germinating in the system because the vital energies are impaired, and the entire animal economy deranged, debilitated; and yet, careless of themselves as they are, if a remedy were set beofre them which would restore all the functions of the system and re-invigorate the body, they would take it, and thus been in time to save their lives. Parents, think of this, and at once give them a bottle of PROF. WOOD'S RESTORAT IVECORDIAL AND BLOOD RENOVATOR.—The New York Courier.
