OLD. TOUGH AND STRONG.—The Belfast Age says that Mr. John Page, of Stockton, Me., aged sixty-nine, traveled the distance of six miles, carrying a bag containing two bushels of meal on his shoulder, in one hour and forty minutes, without taking the meal from his shoulders or halting to rest during the whole time. He did it on a wager with one of the Stockton traders, the conditions being that he should have the meal if he accomplished the distance. A present of a barrel of flour and four bushels of meal was afterwards made him by the bystanders.

We are struck with MINGLED AMAZEMENT and rery American citizen. It is UNWORTHY, of a STATESMAN but a MAN. It is a policy HAIR-BRAINED and RUINOUS, If Mr. contemplated this policy in the inaugural ad-e is a GUILTY DISSEMBLER; if he has con-tunder the excitement raised by the seizure of miter, he is a GUILTY HOTSFUR. In either case ISERABLY UNFIT for the exalted position in the ENEMIES of the country have placed him. People instantly take him and his administration town hands if THEY WOULD RESCUE the management of the UNION FUNCTION. ODSHED, and the UNION FROM ETRIEVABLE DESTRUCTION.

So says Prentice. Standard, please copy el, traitorous columns, and add, that the UTTERLY HAIR-BRAINED and RUINOUS POLICY announced by the GUILTY DISSEMBLER, whom the ENE-MIES of the country placed in the Presidential Chair, drove four of the largest States head-long out of the Union, plunged the country into an "utterly damnable" civil war, and bankrupted the Government, in the war, and bankrupted the Government, in the pl debt, present and prospective, amounting to at least three hundred and sixty-five millions of dollars. What a glorious administration At this rate, to what an amazing, dazzling pitch of splendor we shall be elevated, at the and of four years! "Great is the Abolition Diens!"

The officers and crew of the Southern privateer Savannah, have arrived in New York. The blood-hounds of the Abolition press have again commenced the cry of " hang them !" " hang them !" Mr. Lincoln may perhaps feel inclined to gratify the sanguinary desires of his Abolition supporters, but he dare not do it. The people will not sit idly by and see him perpetrate cool-blooded murder. Neither will they sit idly by and allow him to trample upon the Constitution with impunity much longer.

Capt. Montgomery, of Kansas, has been appointed a Colonel in the U. S. Army. This ruffian was quite a prominent actor in stir up disunionism and discord every where the Kansas troubles. He is nothing more than a land pirate and a horse thief. The U.S. Government must have fallen quite low, either in material or in morals, when such villains are placed in office. It is a disgrace to the country. It is a rule with commencing at eight o'clock. This band is tyrants, however, to use the most desperate tools they can find to carry out their plans.

One of the prisoners taken by the Southern troops has been exchanged. He gives a discouraging account of the state of things at Richmond. No other account could be expected from such a source. If he had given a favorable account of the condition of the revolutionary troops, it never would have been sent over the telegraph

The mills of Gov. Sprague, of Rhode Island, in the new town of Sprague, are running night and day, on heavy drillings for tents. The supply of good cotton in the New York market is pretty much out, it is said. So it seems Gov. Sprague "supports the Government " for the purpose of making money! It shows that he is not over stocked

am Lincoln, the great head of the Abolition Republican disunion party. By the mal acts of this man, this once happy united nation has been plunged into a

war. According to his belief "there is an irrepressible conflict between freedom and slavery in this country; and the union cannot exist half slave and half free." Then what is the war for ? Is it not clearly, either for the Abolition of slavery or the dissolution of the Union-or both? Let reasonable men and patriots look at a portion of the price we shall have to pay for allowing to be divulged. Abolition Republicanism to rule with untrammelled sway-A bloody civil war with all its attending horrors! A dismembered Union-dissevered forever! A national and individual bankruptcy! A national debt proceeded thither on Monday night, but no that will increase taxes to a burdensome degree! A Constitution unceremoniously thrust aside, and a military despotism substituted! This is but a small portion of the price we shall have to pay if we permit

POLICY OF THE ADMINISTRATION The party organs and the confidential mouth pieces of the Administration have given out its future policy, and proposed changes which they intend to make in the Government while the power is in their hands. The following among other points are of the number proposed:

I. The consolidation of the Union by abolishing State Governments, and the concentration of all the functions of Government in a national power.

II. The creation of a national bank unde the control of the national Government.

III. The increase of the army and of the navy to a sufficient degree to keep down all opposition to the proposed Government.

IV. To remodel the Government in such manner as to strengthen the power of the Executive, and to make the now co-ordinate branches of Government subordinate and subservient to that of the Executive.

This being accomplished, of course any thing else desirable towards establishing a military despotism, the great object which the leading Abolition Republicans have in view, can be readily and easily brought about. We ask the people to reflect upon these foreshadowings of what is threatened to be the doom of a once great, glorious and prosperous country.

News from California has been received in Washington to the effect that the revolutionists of that State are about to proclaim the Southern portion of it below 36:30 a separate State, and to ally themselves with the Southern Confederacy! It is said that a strong party in New Mexico, Arizona and Nevada Territory is in favor of the project, and prepared to second it. Mr. Lincoln will begin to find out by-and-by, if he has not already, that something is going wrong.

Gen. Rousseau is endeavoring to raise some U. S. troops in Kentucky. The result of this movement, if persisted in, will be to drive Kentucky out of the Union,-and that undoubtedly is just what Mr. Lincoln wants to do. This great disunionist is determined to he is able.

DISTINGUISHED ST. LOUIS PHYSICIAN WRITES

SEE WHAT

Sr. Louis, July 10th, 1880.

O. J. Wood, Esq:—Dear Sie:—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your HAIR RESTORATIVE, after a trial of 5 years. I commenced using your Restorative in January, 1885, since which time! I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks time there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scale perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even fatter your vanity at this late day, as I am we'l aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbug. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

divertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no eputation, when there is one at hand that has been proved seyond a doubt.

Apparently, some of those charlatans have not brains mough to write an advertisement, as I notice they have sopled yours, word for word in several inatances, merely inerting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preicaid nead, dandrun, and every disease the scale and near res subject to.

I called to see you personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this or to refer parties to me. Any communication eldressed to me, care box No. 1,227, well be promptly answered. Yours truly JAS, WAITE. M. D.

WARREN SPRINGS, Perry Co., Penn., June 7, 1860.

PROF. WOOD—DEAR SIR:—I was induced more than a year ago to try your vauntole HAIR RESTORATIVE, for the purpose of cleansing my head of dandruf. I had suffered withit upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gloss & Kunkie's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely remotyed all dandruff from my head, and an application once in we weeks keeps it free from any litching or other unpleasan ness. I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 60 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me, in keeping it clean, &c.. than at any time since I was a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this or any part of it in any shape you think proper, if it is worth anything to you.

Yours, &c., H. H. ETTER.

Yours truly, FRED. T. BUTLER,

Bloomington, Monroe Co., Ind.

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases of ten they are quack nostrums, but we take great pleasure in recommending Paoresson Wood's article to all whose hair is falling off or turning gray. Our well-known contributor finley Johnson, Eaq. has experienced the benefit of its application, and joins with us in speaking of its virtues. Leall try it and bald heads will be as rare as snow in summer — Bultimore Patriot.

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its prestine vigor. Where the head had became of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable proparation for all classes. Its Ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Boston Tvanacript, April 2 1899.

A Genuine Boon.—In our capacity as conductor of a public journal, we are called upon to advertise the curealis of the day, each of which claims to be unadultes ated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however.—Prof. Word's Hair Restorative—we are so well assured of the notable qualities of the article, that we give i our endorsement as all that its inventor and vender claims i to be. Its effect upon a falling head of harr is universally known to be magical. Like lime or guano on exhausted land, it brings the crop wherever applied. Our own thatch is fortunately healthy, but we advise our friends with sparsely-growing hair to try the Restorative.— Columbia Spy
