The Republican.

Saturday, June 19, 1858.

A public meeting was called and held last Monday evening, in New Haven, to sympathize with the censured Bank Commissioners. The meeting was well attend ed and resolutions approbating said commissioners were passed. The effect was such that an attempt was made to reconsider the bill in the House on Tuesday and in the Senate the resolution passed by only one majority even with the aid of all the Democrats. The House indefinately postponed a resolution to remove the Commissioners from office as the tide of Shad-water was decidedly against it and the four mileages stuck in their consciences.

We have some evidences daily before us that business is not entirely dead, and that Yankee enterprise is not entirely dormant. On our left we have near by the improvements of Mr. E W. Spurr, and further down Broadway we have the daily row of teams that are in waiting for loads of merchandize to be conveyed to the respective places of consumption, and on our right we hear the repeated booming not of Iron Cannon but of Rocky Mortars made to order for present and temporary use, by Mr, N. Higgins band of workmen, out of the marble hills and see the marble fragment shot, as they go up and down after each discharge. These and many other industrial operations which may be witnessed hereabouts, give evidence that a good business day is slowly coming upon the coun-

We would call attention to the advertisement of Mr. Fisk, in another column, in which a new establishment is made known to the public. He has opened a Music School and will no doubt succeed in giving entire satisfaction to those who may patronize him. Mr. Fisk has been for several years engaged in teaching music, and we believe has given good evidence that he is qualified for the place he now assumes .--We would advise those, who wish to learn music, to put themselves under his care .-He opened his school with a good class and no doubt will be well supported. His terms as all will see by refering to his advertisement, are ressonable and such as to place a thorough musical education within the reach of all. Mr. Fisk is also prepared to furnish Piano Fortes and Melodeons, to those who may wish to hire or purchase at reasonable rates, and will furnish them perfectly tuned, as he personally attends to the purchases, and is very particular in his selections. Those wishing to purchase cannot do better than to call and purchase through him. Read his advertisement.

Kelley was found to have a good majority for that office, and was declared elected. The meeting then adjourn ed till Saturday afternoon next, at I o'clock, when it is proposed to fill the remaining town offices.

The deed is done, and now we advise all to drop party feeling in all future town elections, and to vote for men, and the best business men too, rather than for party men. As for ourself we shall ever hereafter vote for such men and such men only to manage our town matters, as we may think to be the best men.

It is reported that G. H. Hollister, has sold his History of Connecticut. (copyright, plates and every thing connected) to L. C. Stebbins, a Hartford Publisher. It is supposed that Mr. Hollister has not realized anything like a fair compensation for the labor and money he has expended upon the work.

Why could not the Legislature have bought it as well as to spend money as foolishly as they have done the past session? For the reason that some of the political suckers would have been deprived of their pap thereby.

E. C. Goodwin, late Editor of the Litchfield Enquirer, has committed the awful sin of matrimony, and is about to expiate the crime by traveling in Europe. He will no doubt reach a temporal heaven by his penance at least he ought to-what a change-poverty and a printing office-af. could bear it.

Robbery of \$4,700 !- Mr. R. S. Prati, director of the East Haddam Bank, stopr ed at the American Hotel, on Monday night, and early in the evening he asked the clerk if they had a safe to lock up valuables in. and the reply was that they had not. Mr. Pratt handed a package to the clerk saying that it was a package of some consequence, and he wished it locked up in a drawer in the office desk. The drawer is a large one, and is used as a receptacle of packages and bundles left temporarily with the clerk, but it is not generally locked. Mr Pratt said nothing about the package containing money, (which it did to the amount of \$4,-700.) had he have done so, the clerk said that he should not have taken it to keep. The only other person present when the money was handed to the clerk, was the head waiter, and the clerk soon after remarked to him. that if the package contained money, it would be a good haul for some mark, it was not with any idea that it was dam Bank, and were of the denomination of one's two's and three's, returned from the Suffolk Bank, Boston, through the

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Backand Limbs, Female Complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

Prof. Valentine Mort, the distinguished Surgeon of New York City.

Doct. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.
These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been ob-

effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending physician and as he could not represely indee of a

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful redicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

VIRGINIA LAND FOR SALE!!

A RARE chance to make profitable investment is now offered. A tract of land in Prince Vitiam's County, Virginia, containing 525 acressoffered for sale at \$10 per acre CASH. About 150 acres are in cultivation, and of the remainder 150 acres are covered with the finest growth of Vinte Oak, and Pine timber, that the undersigned has ever seen. Besides the timber which would be worth more than the price of the land to a 'live Van-'see,' who uses his hands as well as his head, there is probably 10,000 cords of wood growing upon the place. There are two comfortable dwellings upon it, several springs, two smalls reams fed by springs running through it, and one side is bounded by a brook of considerable size. The land is located in sight of the P-tomac and but two miles from the head of boat navigation, on a Creek which empties int: the Potomac. The land is equal to any in the valley of the Connecticut. The wood and timber can be easily del vered in marke's, where it commends a fine price. Any necessity is the reconstruction of the connecticut. A FORTUNE CAN BE MADE, and a permanent income for old age can be secured, by all respectable, industrious men and women who are competent to seil a Medical Book. No capital or security required. No attention paid to correspondence: if you wish to obtain information and full particulars, you must call personally at

ONE OF THE BEST PURGATIVE AND LIVer Medicines now before the public, namely, Dr. Sanford's Invigorator, or Liver Remedy, that Dr. Sanford's Invigorator, or Liver Remedy, that acts as a Cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its moroid matter, then or the stemach and bowels to carry off that matter thus accomplishing two purposes effectually, without any of the painful feelings of the stemach and bowels to carry off that matter thus accomplishing two purposes effectually, without any of the painful feelings of t experienced in the operations of most Cathar-tles. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses will strengthen and build it up with unusual rapidity.

Dr, Sanfo d's Invigorator is compounded entirely from new articles of medicines, name-sir, Gums.

been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have hone of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bibus Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body. these gums bave been but little known to phythese gums have been but little known to paysicians, and never used in their prescriptions until used in the form of the Invigorator, which net with such unprecedented success as to induce the proprietor to offer it as a family medicine trial and known in its effects. It has icine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

Sy gradually diminishing the dose, the bowels are left in a healthy and active state and or left in a healthy and active state, and work a regularly as clock work.

sequence of disease action in the live. As an aperient, they afford prompt and sure relief in Costiveness, Files, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of scasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, Dr. Sanford's Invigorator came to us recommend of as a cure for Liver Complaints, and all diseases arising from diseased Liver. The testimonials of so many of our Physicians in its favor, induced us o try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspep-ics, for it made a complete cure before the first necessary dosing should never be carried too far. as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but ottle was taken and now we can eat anything ed ble without trouble, while before rothing but the ightest food would digest, and often that gave they suggest themselves to the reason of every body; and it is confidently believed this pill will ain. Now what we want to say to a l our reader body; and it is connectify believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. s, if Liver Complaint or Dyspepsia trouble you, do ot fail to try this the greatest remedy in the world.

TWENTY TWO YEARS Experience has rendered Dr K. a most successful practitioner in the cure of all diseases of a private nature; manhood's debility as an impediment to a arriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE. There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them; and which, if not reformed in due time, not only begets erious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who give devastating allections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, and feel strange and unaccountable sen-sations, and vague fears in the mind. [See pages 27, 28, 29, of Dr K's book on "Self Preservation."] The unfortunate thus affected becomes feeble, is mable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull irresolute, and energies even in his superhis mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual. If he emancipate himself before the practice has done its worst, and enter natrimony, his marriage is unfaultful, and his sense tells him that this is caused by his early fellies. These are considerations which should awaken the attention of all who are similarly situated.
