Many familiar faces I notice from New York, all patiently waiting for something Micawber-like to 'turn up.' There are hundreds in the city who have been accustomed to good salaries East, who have immigrated with the hope of doing better, and who, having spent their little all, would gladly go to work for their board. A few have been fortunate, but they are exceptions Again, I say, remain at home, unless sure of a situation as soon as you get here, for although wages are, as a general thing better than in the Eastern cities, the thing has been over-done, and you would have to take your chances with the hungry hundreds."

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best-of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should ly, Gums.

As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. Dr. Sanford's Invigorator came to us recommendvate the strength of the body, and restore the wasted or diseased energies of the whole organism. TWENTY TWO YEARS
Experience has rendered Dr K. a most successful practitioner in the cure of all diseases of a private nature; manhood's debility as an impediment to narriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury. TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, and feel strange and unaccountable sensations, and vague fears in the mind. [See pages 27, 28, 29, of Dr K's book on "Self Preservation."] The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual. If he emancipate himself before the practice has done its worst, and enter natrimony, his marriage is unfaitful, and his sense tells him that this is caused by his early fellies. These are considerations which should awaken the attention of all who are similarly situated.
