The Sickles Trial.—This trial has engrossed the attention of Washington, the whole country and the columns of the New-York Daily for the past two weeks, and is slowly approaching the end. The evidence discloses facts pretty much as published before—but few new ones have come to light as yet. The confession of Mrs. Sickles after being read before the Jury was not allowed as evidence but might as well have been—it discloses facts enough to justify him in administering severe punishment but as to the taking of life is a question upon which there may and will be a difference of opinion. The present aspect of the case would point to a verdict of not guilty and no doubt Sickles will be acquitted. An attempt has been made to show that the Derringer pistol found in the street belonged to Key, and that the first shot was made by him—if this should be the case it would tell in Sickles favor upon the result of the trial.

Another week, the result will probably be known.

The Final Result.—We this week give the figures of the Election compared with 1858, as a large number of our subscribers have no other means of seeing them, also we give the names of the Representatives elected. These occupy a large portion of our local columns, so much so that considerable other matter is crowded out which would otherwise have been inserted this week.

NOTICE. An application will be made to the next General Assembly for a division of Litchfield County, or for the Establishment of Two Half Shires in said County, as in the opinion of said General Assembly may seem proper. April 12th, 1859.

Hungarian Grass Seed.—We can furnish the above most excellent grass seed now upon short notice to any who will give us due notice soon.

Prince Albert Potatoes.—We can furnish a few bushels of these superior potatoes for seed, to those calling at our office and leaving their orders soon.

The Superior Court, Judge Butler presiding, commenced its April session at Litchfield Wednesday. Owing to the short term in January, there is likely to be more business than usual at the spring term; and if all the cases are tried that should be, the Court must continue into May.

The following is from the Cecil Whig, one of the most respectable Journals in the country: The Gift Book Trade.—The Principles on which G. G. Evans, the Founder of the Business, conducts it.—A general denunciation on the part of many persons and presses throughout the country, of that branch of the publishing business denominated the "Gift Book Trade," has induced us to devote a few remarks to the subject, and to speak particularly of the business as conducted by Mr. G. G. Evans, 439 Chestnut Street, Philadelphia, with whose principles and practice in the trade we have made our selves acquainted.

Because swindlers or ignoramuses, in any trade, subjects us to loss, we are not therefore to censure men engaged in legitimate trade; because "Peter Funk" traders in watches deceive and cheat the public, honest watchmakers are not to be denounced and avoided; and so because a number of "Peter Funk" concerns in the Gift Book Business, encouraged by the great success of Evans' enterprise, sprung up in various cities, and for a time cheated those who

were deluded into dealing with them, there is no reason that a fair, liberal and energetic publisher should be condemned along with them. No injustice could be greater. People must deal with tradesmen; they must have watches—they must have books—and let them take care to seek the place where they can procure the article they want, without deception, and on the most advantageous terms.

Mr. Evans originated the Gift Book Business in 1854, and his great success in it is the result of the energy, the integrity, and the liberality that have characterized his course from that day to the present.

The sham concerns that have from time to time arisen, in imitation of his establishment, have now mostly perished, while he pursues the even tenor of his way, giving satisfaction to all who deal with him.

The fairness and honesty of the business is not to be doubted and are easily understood. He is an enterprising man, and setting out to do a large business, he purchased his books in large quantities; in order to increase his sales, he determined to give part of his profit to purchasers, in premiums.

The principle Premiums or Gifts has been adopted in many branches of business, and, perhaps, every newspaper that has spoken against the Gift Book Business has recognized the principle, either in deductions to clubs, extra copies, or gifts of engravings, &c. Evans purchases whole editions of books at the lowest figures; sells them at the regular retail prices, and gives a premium with each book; in every \$10.00 worth of books he appropriates \$5.00 worth of jewelry, watches, &c. which are given away with the books, purchasers often receiving gold watches, costly cameras, &c. In every case of sale, Evans gives what he pleases—and surely the most fastidious moralist can find no fault.

On the same principle, if a man buy a chest of tea, is the grocer to be blamed or commended, if he gives his customer a few pounds of coffee into the bargain? The question needs no reply. His encouragement to American authors, publishers, and manufacturers, is very great; in a single year he purchased from one manufacturer alone, \$38,000 worth of jewelry, and thousands of persons engaged in printing, book binding watch making &c, receive employment through his agency.

His assortment of books embrace the standard works of the languages, and every department of American literature, and through his agency, vast number of useful books have been spread through every part of the country, to the great advantage of the rising generation, and in this respect he may very properly be held to be a public benefactor.

In short, in Mr. Evans we find an enterprising man—the originator of a business which he has followed with the greatest energy and strictest integrity, until it having a vast extent and importance, a host of imitators (some of them honest, perhaps, but ignorant of the business) arise and disappoint and cheat the public, bringing down condemnation not only on themselves, but on the man whose trade they were counterfeiting. To rescue Mr. E. from this unmerited censure, and to state what we understand to be the nature of the Gift Book Business, as established and conducted by him, has led to this article. No one who deals with him can be wronged or disappointed; not only will the purchaser receive the full value of his money in books, but with each book a premium, or gift, and that often of valuable and lasting value.

Harper's Magazine. The Publisher's believe that the Seven Volumes of Harper's Magazine now issued contain a larger amount of valuable and attractive reading than will be found in any other Periodical of the day. The best Serial Tales of the foremost Novelists of the time; Lever's "Maurice Twyman" Bulwer Lytton's "My Novel," Dickens's "Bleak House" and "Little Dorrit" Thackeray's "Newcomer" and "Virginians" have successively appeared in the Magazine simultaneously with their publication in England. The best Tales and Sketches from the Foreign Magazines have been carefully selected, and original contributions have been furnished by Charles Reade, Wilkie Collins, Mrs. Gaskell Miss Muloch, and other prominent English writers.

The larger portion of the Magazine has however, been devoted to articles upon American topics, furnished by American writers. Contributions have been welcomed from every section of the country; and in deciding upon their acceptance the Editors have aimed to be governed solely by the intrinsic merits of the articles, irrespective of their authorship. Care has been taken that the Magazine should never become the organ of any local clique in literature or of any sectional party in politics.

At no period since the commencement of the Magazine have its literary and artistic resources been more ample and varied; and the Publishers refer to the contents of the Periodical for the past as the best guarantee for its future claims upon the patronage of the American public.

Who ARE THE MISERABLE?—Let the Dyspeptic, who suffers physically and mentally, and who has had the druggists' remedies, relief exists in the Oxygenated Bitters; they are "a cure for all his woes."

Dr Wistar's BALSAM OF WILD CHERRY. The editor of the Flag of our Union says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from Coughs, Colds, Consumption and Pulmonary Disease generally by the use of his Balsam. The invalid need fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising results, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED. The following from a highly respectable gentleman, speaks for itself: KEYSBORO, N. J. May, 20, 1858. I was for many years afflicted with a disease of the lungs until I became so weak that it was with difficulty I could walk. My cough during this time was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose I was advised to try Wistar's Balsam of Wild Cherry. I did so, and before using the first bottle I was entirely restored to perfect health and strength. I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician, and all other remedies had failed. Humors of the Human System. It is well known that the juices of the body are governed by natural laws such as regulate the vegetable life in the change of seasons. In winter the sap rises in the sap rises in vegetation, and in common parlance the "sap is down," the pores are closed, and our whole body is hard and firm, and an accumulation of impurities takes place in our system.

Helmhold's Genuine Preparation. HIGHLY CONCENTRATED COMPOUND FLUID EXTRACT BUCHU. For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Hematuria, Stricture, Gonorrhoea, Scalding, Female Complaints, and all diseases of the Sexual Organs, arising from Excesses and imprudences of Life, and removing all Improper Discharges from the Bladder, Kidneys, or Sexual Organs, whether existing in MALE OR FEMALE, From whatever cause they may have originated, AND NO MATTER OF HOW LONG STANDING, Giving Health and Vigor to the Frame, and Bloom to the Pallid Cheek. JOY TO THE AFFLICTED!!! It cures Nervous and Debilitated Sufferers, and removes all the Symptoms, among which will be found, Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Langour, Universal Lassitude, the Muscular System, Often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of the Face, Dryness of the Skin, Pain in the Back, Heaviness of the Eyelids, Frequent Spasmodic Spasms, before the Eyes, with temporary Suffusion and Loss of Sight; Want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more Desirable to such Patients than Solitude, and nothing they more Dread for the moment, than the more Repose of Manner, no Earnestness, no Speculation, but a transition from one question to another.

These Symptoms if allowed to go on—which this medicine invariably removes—soon follows Loss of Power, Fatigue, and Epileptic Fits—in one of which the patient may expire. Who can say that these excesses are not frequently followed by those direful diseases—Insanity and Consumption? The records of the Insane Asylum, and the melancholy deaths by Consumption, and Epilepsy, witness the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief, ever visits it. Should a sound of the voice occur, it is rarely articulate.

Infalible Remedy. If you are suffering with any of the above distressing ailments, and are convinced of its efficacy, cure you. Try it and be convinced of its efficacy. BEWARE OF QUACK MEDICINES & QUACK DOCTORS, who falsely boast of abilities and references. Citizens know and avoid them, and save long suffering money, and exposure, by sending or calling for a bottle of this Popular and Specific Remedy. It always all pain and inflammation, is perfectly pleasant in its taste and odor, but immediate in its action.

SLATE ROOFING.

WHAT is the use of taking a ten or fifteen years lease when you can have a warrant deed forever just as cheap. Now you can have slate of uniform width and length, delivered in any of the depots on the Housatonic railroad north of Kent, or the Harlem railroad north of Doer, free of any charges, and laid by the owners of the quarry, for \$7.25 per hundred square feet, for the first quality; and \$6.25 for the second quality.

All you have to do is to transport the slate from the depot on to the roof and board the men while laying. This slate is called the best metal by the Chemists wherever it has been analyzed for roofing of any yet discovered, and is expected to last for all time to come.

These prices leave no profit for working the quarry, and probably will be advanced next year. Any building suitable to shingle is (with the roof boards close together) strong enough to slate, as the snow slides off before a large quantity accumulates.

All work warranted to keep on the water, and from 20 to 50 cts. worth (per hundred feet) of tarp paper will keep out every particle of snow. All orders will be promptly attended to by JOHN ORMAN SPURR, Agent, Ashley Falls, Feb. 10, 1859. 71t.
