The New War Policy.

Congress having adjourned the burden of public affairs rests upon the Executive, and criticism, if made, must be pointed toward the President and his immediate advisers in the Cabinet. The adjournment of Congress is a relief to many, who have feared that legislation would inaugurate, under the pressure of the revolution, some evil in the shape of despotism, to curse our land. A great deal of work has been done, concerning our interests and welfare in the present and future, but none more productive of good than the passage of the act strengthening the Executive in dealing with rebels and traitors, by striking home blows. At the North there has prevailed, until late, a misconception as to the character of this rebellion; the belief was that the South generally, had no earnest purpose of forever dividing the Union; the error was in supposing they were to be conquered back by mere force of numbers, within a reasonable period, and avoiding foreign interference. This error is now apparent. The magnitude of the rebellion is seen—the actual state of things realized. The necessity of harsher measures and more terrible blows is felt; and a bill of outlawry has been found against the rebels, their property, slaves included, to be confiscated to the use of the Government. That this act will be productive of much good, if thoroughly carried out against the rebels, we do not doubt. Forbearance and leniency have harmed the Union cause more than any or all the reverses on the battle-field since the war began. Loyal men have been discouraged, and rebels encouraged. Now all this mild treatment is to give way to a new and efficient WAR POLICY. Rebels are to be learned that they will be punished.

The Government appears thoroughly in earnest in this matter. No more dallying. No more favors. No more squabbling over technicalities among ourselves. Down with rebellion, by any and every means. If loyal men must fight to preserve their liberties, they shall have all the aid of legislation on their side to harm their foes. Thus aided by the whole power of the Government, it does seem probable that short work will be made of the rebellion. And we believe it is the purpose of the Government. Eighteen months of hostilities have brought distress upon the entire nation, financially and otherwise. Another year, like the past, would irretrievably ruin the Republic. In the plainest common sense view, the war must be hurried, or another year will find us at the mercy of England, France and the rebels combined, and the struggle will be at the North—in Connecticut, as elsewhere. Now, the Government calls for troops; now is the time of need; now is when the blows are to fall heavily and fast. The Government is terribly in earnest. It must stand or fall by the issue, and it is resolved to stand! Three hundred thousand volunteers are wanted, to finish up this war, in connection with those already at the front of war. If they do not come forward, half a million of drafted men will be put in the field in less than three months. Does it need the bayonet to urge loyal men to the help of the Union?

The War Meeting.

The meeting at Brewster's Hall last Monday evening was well attended. G. W. Peet, Esq., was appointed President, and Col. H. Holcomb and Sidney Esnig, Vice Presidents, and A. C. Randall, Secretary. Messrs. Graves and Lollister, of Litchfield, addressed the meeting in eloquent appeals to the patriotism of our citizens, to come forward to the help of the Union cause, and were followed by Rev. Mr. Dean, of North Canaan, in a few terse remarks. Of the addresses, we can, for want of space, say no more than that they were convincing arguments, to all who would hear. Esq. Peet gave notice that all who volunteered from this town would receive \$100 each, additional to the State bounty and other pay, on enlistment. We suppose this bounty will be paid to those who volunteer between the time of meeting and the 20th of August, 1862, after which time the State bounty will be discontinued, and, in all probability, drafting will be resorted to. This offer of our citizens should be responded to with alacrity, and Canaan send forward her quota at once. Messrs. Peet, Botsford, Spurr, and Kelley were appointed a committee to receive enlistments. The three last named gentlemen were also appointed delegates to the County meeting at Litchfield, on Tuesday last, to take steps for the formation of the Litchfield County Regiment.

Summary of News.

There has been four hundred men enlisted in Hartford within ten days.
Bos. John Phelps of Missouri has been appointed military governor of Arkansas.
The traitor Gen. David E. Twiggs is reported to have died at Augusta, Ga., on the 15th inst.
A complete exchange of prisoners has been agreed upon by our Government; and the Jeff. Davis concern, to be consummated shortly.
It is stated the Tax Law will not go into operation before the 1st of September, for the reason that it is impossible to get everything prepared to make it work efficiently.
A regiment of Illinois troops is second to respond to the President's call. It is the 68th, and was organized in ten days after the call was issued. They reached Washington on the 18th.
Two church members got into a fight in the vestibule of one of the churches in New Haven last Sunday, as the congregation were entering church. Their faces were disfigured by blows, and the excitement became general. Finally they were forcibly separated.
A few days since as the afternoon train from Hartford was passing near Hamilton-street bridge, New Haven, the engineer discovered a man lying with his head uncovered on the track. The train could not be stopped in time, and the wheels took off the lat, leaving the man asleep and uninjured.

Newspapers.

"Confound the papers!—they lie so, the d—n can't believe 'em!" was the exclamation we heard some time since, while standing at a railway station. We had the curiosity to watch the individual, and made a mental inventory of his characteristics. He was one of those bustling, impulsive, excitable men, with special aptitude to be either right or wrong, or both at the same time.—He was an enthusiastic war man, and advocated stringent measures, in dealing with the rebels. Inconsistently with his above exclamation, but naturally under the circumstances, he quoted extracts from the rebel papers, in support of his argument, referred to them as his authority for propositions and facts, and, a few minutes afterwards, when the railroad train came along, was first and foremost in a crowding, pushing, struggling group surrounding a newsboy. In a moment after, he was earnestly engaged in search of intelligence in the columns of his paper. The incident was suggestive of very many thoughts, and human nature does not gain more than it loses by the reflection. It is a fact that the newspaper is the mentor of the people—the popular Educator. Thousands have no time to spare for other reading; with many others the means for information are limited, and books are not the general reservoirs of knowledge; therefore, the newspaper becomes the informant, the adviser and the public speaker of the multitude. One of the most eminent of British statesmen, Burke, spoke of the newspaper as a most important instrument in creating popular intelligence. Of the writers for the press, he adds, that although unknown, "they are like a battery in which the stroke of any one ball produces no effect, but the amount of continued repetition is decisive. Let us only suffer any person to tell his story, morning and evening, but for a twelve-month, and he will become our master."

A fact which signifies American progress is the number of newspapers published in the United States. In 1850 the number of papers and periodicals was 2,526; in 1860, the aggregate was 4,051. Of these, 3,242 were political in their character, 298 are devoted to literature, and the remaining 511 are very nearly equally divided between religious and miscellaneous character. The whole circulation of these papers amounts to 927,951,548 copies. The total white population in 1860 of the country is stated at 27,008,081, making the annual circulation over 34 copies per person.

Litchfield County Regiment.

The meeting of delegates from the various towns in the County at Litchfield, on Tuesday, we understand, was good one—Only two towns in the County were not represented. A committee appointed, recommended that the citizens or authorities of each town provide for the payment of \$100 bounty to each volunteer, Leverett W. Wesells was recommended by the convention to the Governor for the Colonely of the regiment, and other resolutions were passed, respecting appropriations, &c.
Now the talking is over let us have the work! The Litchfield County Regiment must be made up in less than thirty days, to prevent drafting; and it will not do to wait and be the last regiment filled in the State. At other places enlistments are going forward rapidly, and the prospect is that the six regiments will be early in the field. Old Litchfield must arouse to do her work. But one objection to the matter presents itself to us. That is the place recommended by the Convention for rendezvous—Litchfield. Cut off from railroads and cheap and easy transit, it surely has not many recommendations as a rendezvous. Half a dozen other places might have been selected within the County with more advantages. No matter! Let the thing, now it's started, go ahead!
Onward! Litchfield County Regiment!

\$438,00

Is the sum received by every volunteer from the town of Canaan for one year's service in the Union army, providing the war is terminated within one year and he volunteers before the 20th of August—\$100 from the town, \$80 from the State, \$100 from the United States, and the regular pay of \$13 per month, with \$2 additional on enlistment. And it is almost certain the war will terminate within that period.
The volunteer, with wife and two or more children, receives \$558.
If he has a wife and no children, he will receive \$510.
A nice little sum, but if drafting is resorted to the amount will be reduced to only \$156, or the Government pay.

PARSON BROWNLOW'S BOOK.

"Sketches of the Rise, Progress and Decline of Secession," by W. G. Brownlow, editor of the Knoxville Whig. Parson Brownlow is an earnest man, in thought, speech and action, and his book affords incontestable evidence of this. He can be regarded as an exponent of American principles; his personal narrative, at least, takes that form, and the demand for it by the people, already reaching 100,000 copies, shows how popular is the cause he represents. The narrative makes a large volume of 450 pp., fully illustrated, and handsomely bound.—Sent free by mail on receipt of price, \$1.25. George W. Childs, publisher, 628 and 630 Chestnut-st., Philadelphia, Pa.

The Hartford Courant says, we understand that camps are to be formed in the State for six regiments. The 14th and 16th at Hartford, 15th at New Haven, one at Bridgeport, one at Litchfield, and one at Norwich. When they are all fairly started, there will be a strife to see which will fill up first.

Gen. Halleck is officially announced as the General in Chief of the Armies of the United States.
Of the arms now in the Government arsenals, 160,000 stand, costing \$20 and upward a-piece, are worthless.

The War.

Gen. Pope, on the 18th inst., issued three general orders, the first directing his army shall subvert in the country where they are or may hereafter be operating, on rebels, without remuneration, and upon Unionists, who shall be paid; the second commands that baggage trains attached to cavalry are to be dispensed with hereafter, and the villages and towns are to be laid under contribution for the support of his men; the third notifies the people in the region of his operations that they will be held responsible for any injury to public property, or any attacks upon trains or straggling Union soldiers. The Richmond Enquirer says of him, "he is notoriously one of the most dangerous of the Union commanders. An officer of great activity and daring, and very apt to do unexpected things." We shall see. Quite a number of skirmishes have occurred in his department of late, and it is not improbable that he may form a junction with our army in East Tennessee, at Cumberland Gap, and threaten the rebel capital from the West. Events of importance are likely to occur shortly, also the signs of the times greatly mislead.

"All is quiet on the James River," save customary doings in camp, but not so in Kentucky. The guerrilla, Morgan, made one of his raids through the State, committing all sorts of depredations. It appears, however, that his band was pursued, overtaken, and after a sharp fight scattered, by a body of Union cavalry. His depredations, it is said, have increased the Union sentiment among the people.
The President issued the first war order under the Confiscation bill on Tuesday. It authorizes the military commanders in the various rebel States to seize and use any property, slaves included, and to keep accounts of all such property seized and from whom, as a basis for compensation to those who may be so entitled.
The rebel gunboat Arkansas recently made a dash, exploit on the Yazoo river. She ran the gauntlet of three or four Union vessels, engaged one of them, till the latter got aground, when the Arkansas steamed away down the Mississippi, to Vicksburg.

The Magazines.

Harper for August is unusually attractive. The illustrated papers, "A Flying Trip through Norway," and "Along the Wharves," sketching some of the features of New York, are very interesting. The serials, by Thackeray, Trollope, and Miss Muloch, are continued, and speaking of this feature of Harper, we cannot but say that these English stories are of that natty-panty class of literary works that become musty on library shelves. They are deficient in vigorous thought, and only characterized by the evanescent display of the paltry insipidities of the drawing room, and the diluted nonsense of Lord A. and Lady B. and their friends.
The Atlantic for August, is a premium No. "The New Gymnasium" article is alone worth a year's subscription price, and we wish our young countrywomen and men could be induced to practice what it suggests. A Connecticut lady, Miss Pritchard, furnishes the first part of a promising tale, entitled "Mr. Artell." Other interesting articles contribute to make this number attractive, as it is the character of this magazine always to be.

The Knickerbocker for August is received. The Chicago story maintains its interest, and then we have a poetic Eastern story, "Stray Chapters," "My Great Mistake," "The Allerman of York," "Love and Fame," "Two Aprils," "Geological," and a number of other articles make up this No.

Mr. George P. Bissell, the banker of Hartford, went to Corinth a short time ago for the purpose of purchasing cotton, upon the strength of an order issued by Gen. Halleck for the encouragement of trade.—Mr. Bissell was interrupted at the outset by the guard, requiring a pass. He had none, having been informed that there was no need of one, and returned to the General, and asked for one. Halleck flew into a passion, swearing and blustering in such manner that Mr. Bissell deemed it beneath his dignity to remain. Mr. B. has found out that "a little brief authority" is not a guaranty of gentlemanly manners.

A company of 70 men left Meriden on Tuesday to join the 15th regiment at New Haven.

BUCKEYE

MOWING MACHINE

IMPROVEMENTS FOR 1862.

- 1st. The knives can be thrown in or out of gear by the drivers foot, without stopping the Machine.
- 2d. The motion of the knives is more rapid.
- 3d. The knives cannot slip below the Finger-bar and interfere with folding it.
- 4th. The Track-Clearer can be adjusted to drag on the ground, or sustained any desired distance above it, from a parallel of four inches to a perpendicular; which is an advantage often, in heavy mowing, and when backing.
- 5th. The chain to hold the track-clearer in its place, after the bar is folded, is dispensed with.
- 6th. The Machines are lighter and more compact.

AMONG ITS ADVANTAGES OVER MANY OTHER MACHINES, ARE

- 1st. The Folding-Bar, by means of which it can pass through a gate or pair of bars, or be transported any distance with the facility of a wagon.
- 2d. The Double-jointed Finger-Bar, by which it adapts itself to the uneven surface of the ground—rising above or falling several inches below the level of the bottom of the driving wheels, the knives cutting with equal facility in either position.
- 3d. It has two driving wheels and no Side Draft.
- 4th. Backing the Machine throws the knives out of gear, and turning it forward brings them in again.
- 5th. The driver with one hand can elevate both ends of the finger-bar from 12 to 18 inches, when desired to avoid any obstacle, and a ratchet then holds it there if necessary.
- 6th. Both ends of the knife can be adjusted to cut any required height of stubble.
- 7th. The knives are in front, and in sight of the driver.
- 8th. Steel fingers are fitted to the Malleable Guard-Fingers for the knives to cut against, securing perfect sharp cut.
- 9th. It can be stopped and started in the heaviest grass or grain.
- 10th. The driving wheels have no cogs attached to them, to get clogged with sand or grass.

Reduction of Prices.

The Machines are sold \$10 less this year than ever before.
The Combined Mower and Reaper, cut 5 feet when reaping, \$135 00
No. 1 Mower, cut 4 ft. 8 in. 115 00
No. 2 " or "Junior," cut 4 ft. 100 00
No. 3 Mower, 1 horse, cut 3 ft. 5 in. 80 00
Machines will be delivered at North Canaan, Falls Village, West Cornwall, Corn wall Bridge, Kent, Sharon Station, or Litchfield at the above prices.
Those desiring to purchase Machines can have a pamphlet, issued by the manufacturer, setting forth the merits of the Machines more at length, sent to them, by addressing the undersigned.
Farmers are requested to send in their orders for machines early, as the demand for them is greater than the facilities of the manufacturer to supply, and it is desirable that the orders be sent in as soon as possible.

New Settlement of Vineland.

REMEDY FOR HARD TIMES.

A Rare Opportunity in the best Market and most delightful and healthful Climate in the Union. Only thirty miles south of Philadelphia, on a railroad; being a Rich, Heavy Soil and highly productive Wheat land; Amongst the best in the Garden State of New Jersey.

It consists of 20,000 acres of good land, divided into farms of different sizes to suit the purchaser—from 20 acres and upwards, and is sold at the rate of \$15 to \$20 per acre for the farm land, payable one-fourth cash, and the balance by quarterly installments, with legal interest, within the term of four years.

Is, in great part, a Rich Clay Loam, suitable for Wheat, Grass and Potatoes—also a dark and rich sandy loam, suitable for corn, sweet potatoes, tobacco, all kinds of vegetables and root crops, and the finest varieties of fruit, such as grapes, peaches, apricots, nectarines, blackberries, melons and other fruits, best adapted to the Philadelphia and New York markets. In respect to the soil and crops there can be no mistake, as visitors can examine both, and none are expected to buy before so doing, and finding these statements correct,—under these circumstances, unless these statements were correct, there would be no use in their being made. It is considered

The Best Fruit Soil in the Union.

[See Reports of Solon Robinson, Esq., of the New York Tribune, and the well known agriculturist, William Parry, Cinnaminson, New Jersey, which will be furnished inquirers.]

By looking over a map the reader will perceive that it enjoys the best market in the Union, and has direct communication with New York and Philadelphia, twice a day, being only 22 miles from the latter.—Produce in this market brings double the price that it does in 10 cities distant from the cities. In this location it can be put in the market the same morning it is gathered, and for what the farmer sells he gets the highest price; whilst groceries and other articles he purchases, he gets at the lowest price. In the West, what he sells brings him a pittance, but for what he buys he pays two prices. In locating here the settler has many other advantages. He is within a few hours, by railroad, of all the great cities of New England and the Middle States. He is near his old friends and associations. He has school for his children, divine service, and all the advantages of civilization, and he is near a large city.

Is delightful, the winters being salubrious and open, whilst the summers are no warmer than in the North. The location is upon the line of latitude with northern Virginia. Persons wanting a change of climate for health, would be much benefited in Vineland. The mildness of the climate and its bracing influence, makes it excellent for all pulmonary affections, dyspepsia, or general debility. Visitors will notice a difference in a few days. Chills and fevers are unknown.

CONVENIENCES AT HAND

Building material is plenty. Fish and oysters are plentiful and cheap.

Visitors must expect, however, to see a new place.

Why the Property has not been Settled Before?

This question the reader naturally asks. It is because it has been held in large tracts by families not disposed to sell, and being without railroad facilities, they had few inducements. The railroad has just been opened through the property this season, for the first time.

Visitors are shown over the land in a carriage, free of expense, and afforded time and opportunity for thorough investigation. Those who come with a view to settle, should bring money to secure the purchase as locations are not held upon refusal.

The safest thing in hard times, where property has been thrown out of employment or business, and possess some little means or small income, is to start them selves a home. They can buy a piece of land at a small price, and earn more than wages in improving it, and when it is done it is a certain independence and no loss. A few acres in fruit trees will ensure a comfortable living. The land is put down to hard-time prices, and all improvements can be made at a discount rate than most any other time.

The whole tract, with six miles front on the Railroad, is being laid out with fine and spacious avenues, with a town in the center—five acre lots in the town lots at from \$150 to \$200; two and a-half acre lots at from \$80 to \$120, and town lots 50 feet front by 150 feet at \$100—payable one-half cash and the balance within a year.—It is only upon farms of 20 acres, or more, that four years' time is given.

TO MANUFACTURERS

The town affords a fine opening for the shoe manufacturing business, and other articles, being near Philadelphia, and the surrounding country has a large population, which affords a good market.

This settled area, in the course of several years, will be one of the most beautiful places in the country, and most agreeable for a residence.

It is intended to make it a vine and fruit growing country, as this culture is the most profitable and the best adapted to the market. Every advantage and convenience for settlers will be introduced which will insure the prosperity of the place. The hard times throughout the country will be an advantage to the settlement, as it compels people to resort to agriculture for a living.

Large numbers of people are purchasing, and people who desire the best location should visit the place at once.

Improved land is also for sale.

Timber.—Land can be bought with or without timber. The timber at market valuation.

The title is indisputable. Warrantee deeds given clear of all incumbrances, when the money is paid.

Boarding conveniences at hand.

Letters promptly answered, and Reports of Solon Robinson and Wm. Parry sent, together with the Vineland Rural.

Report of Solon Robinson, OF THE NEW YORK TRIBUNE, UPON THE VINELAND SETTLEMENT.

The following is an extract from the report of Solon Robinson, Esq., published in the New York Tribune, in reference to Vineland. All persons can read this Report with interest.

Advantages of Farming near Home—Vineland—Remarks upon Marl—Soil: its great Fertility—The Cause of Fertility—Amount of Crops Produced—Practical Evidence.

It is certainly one of the most extensive fertile tracts, in almost level position, and suitable condition for pleasant farming that we know of in the whole of the western prairies. I have found some of the oldest farms apparently just as profitably productive as when first cleared of forest fifty or a hundred years ago.

The geologist would soon discover the cause of this continued fertility. The whole country is a marine deposit, and all through the soil we found evidences of calcareous substances, generally in the form of indurated calcareous marl, showing many distinct forms of ancient shells of the tertiary formation, and this marly substance is scattered all through the soil, in a very commingled form, and in the exact condition most easily assimilated by such plants as the farmer desires to cultivate.

Marl, in all its forms, has been used to fertilize crops in England, from the time it was occupied by the Romans; and in France and Germany a marl bed is counted on as a valuable part of the manure, that can be dug and carted and spread over the field. How much more valuable then it must be, when found already mixed through the soil, when new particles will be turned up and exposed and transformed to the owner's use every time he stirs the earth.

Having then satisfied our minds of the cause, they will not be excited with wonder at seeing indubitable evidence of fertility in a soil which in other situations, having the same general characteristics or at least a few, is not entirely unproductive except by artificial fertilization.

A few words about the quality and value of this land for cultivation, of which we have some strong proof.

Our first visit was to Wm D. Wilson, Franklin township, Gloucester county, who purchased some eight miles north of Millville, about three years ago, for the purpose of starting a new manure, to work up the timber into lumber, to send off by the new railroad, as well as the firewood and coal, for which he built a branch track and a half long. He also furnished sixteen miles of the road with ties, and has also made the mill profitable, though his main object was to open a farm, having become convinced that the soil was valuable for cultivation. In this he has not been disappointed, as some of his crops prove.

First, in the second time of cropping, 306 bushels of potatoes on one acre, worth 60 cents a bushel in the field. This year, seven acres, without manure, produced 356 bushels of oats. In one field, the first crop was potatoes planted among the roots, and yielded 76 bushels. The potatoes were dug, and wheat sown, and yielded 16 bushels; and the stubble turned under and sown to buckwheat, which yielded 23 bushels; and then the ground was sown to clover and timothy, which gave as a crop 2 1/4 tons per acre.

The fertilizers applied to these crops were first, ashes from clearings; second, 225 lbs. of super-phosphate of lime; third, 200 lbs. Peruvian guano; then 50 bushels of slaked lime has been spread upon the clover since it was mowed, and turned in for wheat.

Mr. Wilson's growing crops and the stubble of his land as productive as any part of the State.

At Mary Barrow's, an old style Jersey woman farmer, several miles south of Mr. Wilson's, we were so particularly struck with the fine appearance of a field of corn, that we stopped to inquire of the hired man how it was produced. We found that the land had been the year but one before in wheat, and then the clover, and this out one season, and last spring plowed once, with one "poor old nag," and planted with corn.

"Yes, but you manured high, we suppose?" we said interrogatively, and got this reply:

"Well, you see, we couldn't do that, 'cause we hadn't but forty one-horse loads altogether, for 23 acres, and we wanted the most 'n't for the truck."

The truck consisted of beets, carrots, cabbages, onions, melons, &c., and a very productive patch of Lima beans, grown for marketing. So we were satisfied that the soil was not infertile, even unaided by clover, which had fed the corn, because the "truck patch" had not been clovered, and had been in cultivation long enough to obliterate all signs of the forest.

Our next visit was to the large farm of Andrew Sharp, five miles north of Millville from half to a mile east of the railroad, and just about in the center of Vineland. Mr. Sharp commenced work here in December, 1858, upon 270 acres. In less than three years, he has got 234 acres cleared and in crops this season, all well inclosed and divided into several fields, with cedar rail or pole fence; has built a two story dwelling, about 36 by 40 feet, and a smaller house for farm laborers, a stable and granary, and some other outbuildings.

Considerable part of the land was cleared for the plow at \$9 an acre, and on some of it the first crop was buckwheat, limed with 50 bushels in powder per acre. This crop may be put in July 4th to 20th, and yields 20 to thirty bushels per acre, harvested in November; when the land being sowed with 150 lbs. of Peruvian guano and seeded with rye, yielded 12 to 15 bushels per acre, and \$10 worth of straw. The rye stubble turned, after knocking off a large growth of oak sprouts, and dressed again with guano and seeded to wheat, gave 15 or 16 bushels. The crop which was thrashing white we were there promises more, of a very plump grain, and the straw is very heavy.

We went over the stubble, and found the clover and timothy, from seed sown last spring, on the wheat without harrowing, looking as well as we ever saw it upon any old cultivated farm, and with a little work done in the winter to clear off some roots and rotten stumps, and setting stakes to mark permanent ones, he will be able to out the crop next year with a mowing machine, and we will guarantee two tons per acre, if he will give the overplus if it overruns the estimate.

Part of the land was planted with potatoes for a first crop, which yielded 120 bushels per acre. It was then limed with 50 bushels per acre, and seeded with wheat and seeded with wheat and clover, yielding an average of over 15 bushels per acre, and the clover now looks beautiful.

Other portions have been planted with corn as a first crop, which yielded 30 bushels of yellow flint corn, and the second crop 40 bushels, and the third crop, treated to 150 lbs. of guano, we are sure to see one would estimate below 40 bushels per acre.

[The reader will recollect that the writer is now speaking of land perfectly new, and which can scarcely be considered in good agricultural condition.—Ed.]

In other cases, the corn crop of last year was followed with oats this season, not yet threshed, but will average probably 40 or 50 bushels. Sweet potatoes, bellas, melons, and in fact, all garden vegetables, as well as young peach and other fruit trees, planted this year, show very plainly that this long neglected tract of land should remain so no longer, and there is now a strong probability that it will not; for under the auspices of Mr. Landis, it will be divided into small lots, with roads located to accommodate all—the surveyor is now busy at this work—and all purchasers will be required to build neat comfortable houses, and either fence their lots with uniformity, or agree to live without fence, which would be preferable, by which means a good population would be secured, who will establish churches, schools, stores, mills, mechanic shops and homes—homes of American farmers, surrounded by gardens, orchards, fields and comforts of civilized life.

If any one, from any derangement of business, is desirous of changing his pursuits of life, or who is in any case desirous to find a new location and cheap home in the country, and who may read and believe what we have truly stated, he will do well to go and see for himself what may be seen within a two hours' ride out of Philadelphia.

FINKLE & LYON SEWING MACHINE COMPANY

538 Broadway, N. Y. 164 FULTON STREET, BROOKLYN.

IMPORTANT FACTS.

FACT NO. 1. This Company being duly licensed, their machines are protected against infringements or litigation.

FACT NO. 2. These Machines make the look-stitch, alike on both sides, and use a little less than half as much thread or silk as the chain or loop-stitch machines.

FACT NO. 3. These Machines are better adapted than any other sewing machines in the market, to the frequent changes an almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of materials, without stopping and make every stitch perfect. They will even sew from the finest gauze to the heaviest cloth, and even stout hard leather, without changing the feed, needle, or tension, or making any adjustment of machine whatever. It is not such a machine best adapted to family use? and if ever adapted to family use, why not for every variety of light sewing manufacture? For work to heavy for our Family Machine? We recommend our larger sizes.

FACT NO. 4. These Machines make the most elastic seam of any sewing machine in use, a fact of very great importance in sewing elastic goods, or goods of any kind on a bias.

FACT NO. 5. No Machine is more simple in its construction or more easily understood. The reputation of these Machines, where ever used, will fully demonstrate each of the above facts.

FACT NO. 6. These Machines took the highest Premium at the Franklin Institute, Philadelphia.

FACT NO. 7. These Machines took the highest Premium at the New Jersey State Fair.

FACT NO. 8. These Machines took the highest Medal at the American Institute, in the city of New York, together with the highest Premium for sewing machine work.

FACT NO. 9. These Machines took both the highest Premiums at Mechanics' Fair Utica, New York.

FACT NO. 10. These Machines can do the same thing generally, whenever properly exhibited in competition with other first class sewing machines.

But we have space for only one fact more it is the most important fact of all.

FACT NO. 11. We warrant every machine we sell to give BETTER satisfaction than any other sewing-machine in market, or money refunded.

The peculiarities of the FINKLE & LYON Machines seem quite incredible to persons who have never seen or used them—Hence the constant inquiry of thousands from almost every part of the civilized world is: "What are the peculiar merits and distinctive characteristics of the Finkle & Lyon Sewing Machine?" To this inquiry we offer the above explicit and undeniable Facts—Facts that are facts—not Facts made such by mere reference to certain kind, personal friends, who may wish to relieve themselves of certain personal obligations, but Facts demonstrated by the practical use of the Machines, in every variety of family sewing, or manufacturing.

The Company being determined to meet the Times, have reduced the price list of their excellent Machines, and have furnished them with all necessary appendages, including the hemmer, gauges, etc., to be found anywhere. Please call and examine them.

Cure Your Cough for One Dime!

THE BEST AND CHEAPEST HOUSEHOLD REMEDY IN THE WORLD.

Madame ZADOC PORTER'S GREAT COUGH REMEDY

Madame ZADOC PORTER'S Curative Balsam is warranted if used according to the directions, to cure in all cases, Coughs, Croup, Whooping Cough, Asthma, and all affections of the Throat and Lungs.

Madame Zadoc Porter's Balsam is prepared with all the requisite care and skill, from a combination of the best remedies of the vegetable kingdom affords. Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the blood, through the lungs. It is not a violent remedy, but emollient, warming, searching, and effective; can be taken by the oldest person or youngest child.

Madame Zadoc Porter's Balsam has been used by the public for over 18 years, and has acquired its present sale simply by being recommended by those who have used it, to their afflicted friends and others.

Most Important.—Madame Zadoc Porter's Curative Balsam is sold at a price which brings it in the reach of every one to keep it convenient for use. The remedy of a bottle will prove to be worth 100 times its cost.

Notice.—Save Your Money!—Do not be persuaded to purchase articles at 4s. to 8s., which do not contain the virtues of a Dime Bottle of Madame Zadoc Porter's Curative Balsam, the cost of manufacturing which is as great as that of almost any other medicine; and the very low price at which it is sold makes the profit to the seller apparently small, and unprincipled dealers will sometimes recommend other medicines on which their profits are larger, unless the customers insist upon having Madame Zadoc Porter's Curative Balsam, price 10 cents, and in large bottles at 20 cents, and take no other. If you cannot get it at one store you can at another.

Sold by all druggists and storekeepers at 10 cts. and in larger bottles at 20 cts. HALL & RUCKEL, Proprietors, New York.

THE NEW AMERICAN CYCLOPEDIA: A Popular Dictionary of General Knowledge. Edited by George Ripley and Charles A. Dana, aided by a numerous select corps of writers in all branches of Sciences, Art and Literature. This work is being published in about 15 large octavo volumes, each containing 750 two-column pages. Vols. I. to XI. are now ready, each containing near 2,500 original articles. An additional volume will be published once in about three months.

Price in Cloth, \$3; Sheep, \$3.50; Half Mor. \$4; Half Rus., \$4.50 each.

The New American Cyclopaedia is popular without being superficial, learned but not pedantic, comprehensive but sufficiently detailed, free from personal pique and party prejudice, fresh yet accurate. It is a complete statement of all that is known upon every important topic within the scope of human intelligence. Every important article in it has been specially written for its pages by men who are authorities upon the topics of which they speak. They are required to bring the subject up to the present moment; to state just how it stands now. All the statistical information is from the latest reports; the geographical accounts keep pace with the latest explorations; historical matters include the freshest just views; the biographical notices not only speak of the dead, but also the living. It is a library of itself.

GREAT IMPROVEMENTS IN SEWING MACHINES. EMPIRE SHUTTLE MACHINE

Patented February 14th, 1860.

Salesroom, 510 Broadway, NEW YORK.

This Machine is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be Simplicity and Perfection combined.

The following are the principle objections argued against Sewing Machines:

- 1.—Excessive fatigue of operator.
- 2.—Inability to get out of order.
- 3.—Expense trouble and loss of time in repairing.
- 4.—Incapacity to sew every description of material.
- 5.—Disagreeable noise while in operation.

The Empire Sewing Machine is exempt from all these objections.

It has a straight needle perpendicular action, makes the Lock or Shuttle Stitch, which will neither break nor run in, and is like on both sides; performs perfect sewing on every description of material, from Leather to the finest Nanook Muslin, with cotton, linen or silk thread, from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

Emphatically a Noiseless MACHINE

It requires Fifty per Cent less power to drive it than any Machine in Market. A girl of twelve years of age can work it steadily, without fatigue or injury to health.

Its strength and wonderful simplicity of construction render it almost impossible to get out of order, and is guaranteed by the company to give satisfaction.

DR. M'LANE'S CELEBRATED VERMIFUGE AND LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,

For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,

For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. IN CASES OF FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivalled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,

FLEMING BROTHERS,

PITTSBURGH, PA.

to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'LANE'S Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to

FLEMING BROS., Pittsburgh, Pa.

Wholesale and Retail Dealers from others than Fleming Bros., will be supplied on their order, and will be held responsible for the quality of the goods they supply. We will forward by mail, post paid, to any part of the United States, one dozen of Pills for twelve cents, and one dozen of Vermifuge for twenty cents. Three-cent stamps, or one dollar from Canada, will be accompanied by a 75 cent note.

FRESH AND RELIABLE TESTIMONY.

"Wistar's Balsam of Wild Cherry.—We call the attention of our readers to the advertisement of Wistar's Balsam of Wild Cherry in another column, and assure them that we can find no better remedy for coughs, colds, asthma, bronchial affections, or any disease of the throat or lungs."

In August, 1858, an estimable friend of ours returned from a visit in the country much emaciated, and laboring under a severe cough, which had made such rapid progress upon her constitution, that we felt something must be done at once, or she would become a victim of consumption. Having known the beneficial results which have occurred from the use of Wistar's Balsam, we made purchase of some for her, and we are happy to say, that before she had taken the contents of one bottle, her cough had entirely left her, and she is now in the enjoyment of excellent health.—Glasgow, June 25, 1859.

GLOVER, Vt., June 20, 1858.

Messrs. S. W. FOWLE & CO.:

Gentle,—I hereby certify that I have been troubled for several years with a difficulty of the heart and lungs, and have applied to several physicians for help, and have tried almost every remedy of the numerous ones which have been recommended, without receiving any assistance, but had been growing weaker and weaker, until, hearing of Wistar's Balsam of Wild Cherry about a year since, I commenced using it with immediate relief. It has not only relieved my lungs, but I am now able to do all my ordinary duties, and I feel that I am entirely relieved of the difficulty of disease of the heart. I have no hesitation in saying that it is the best lung medicine before the public, and I most cheerfully and conscientiously recommend it to all persons suffering with pulmonary complaints.

Ayer's Sarsaparilla

A compound remedy, in which we have incorporated the most effective and delicate ingredients, has been prepared. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Struvinous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experience on many of the worst cases to be found of the following complaints:—

SCROFULOUS AND SCROFULOID COMPLAINTS, Eruptions and Eruptive Diseases, ULCERS, FURUNCLES, BOILS, TUMORS, SALT RHEUM, SCALD HEAD, STY, SPINDLES, AND SPITTING OF BLOOD, MENTAL DEPRESSION, NEURALGIA OR THE DOLOREUR, DEBILITY, DYSENTERIA AND LINDIGMONT, ERYSIPELAS, RASH OF ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring; to expel the foul humors which fester in the blood at that season of the year. By the timely exhibition of them many of the diseases which are so common in the Spring, and which are so often the result of the impurities of the blood, may be avoided. It is a safe and reliable remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, though which the system will strive to rid itself of, and which it is not assisted to do through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities manifesting through the skin in pimples, eruptions, or sores; cleanse it when you find it obstructed and sluggish in the various organs, and wherever it is impure, and it will be no longer a hindrance to your health. Some or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug does not have all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been found upon the shelf, and have done no more than to waste the money of the patient. Hence, later and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, and the same result is justly to be expected, and has been experienced by many of our readers. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the hands of cheap quacks who rest upon it. And we think we have ground for believing it has superior advantages for the cure of the ordinary run of the diseases it is intended to cure. In order to receive their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral,

has been for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recite the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we are enabled to assure the people its quality is kept up to the best it ever has been, and that it may be relied on for their relief all the way to the end of the world.

DARLING'S LIVER REGULATOR AND LIFE BITTERS.

Are pure Vegetable Extracts. They cure all bilious disorders of the human system. They regulate and invigorate the liver and kidneys; they give tone to the digestive organs; they regulate the secretions, excretions and exhalations, equalize the circulation, and purify the blood. Thus, all bilious complaints—some of which are Torpid Liver, Sick Headache, Dyspepsia, Piles, chills and Fevers, costiveness or Loose-ness—are entirely controlled and cured by these remedies.

DARLING'S LIVER REGULATOR

Removes the morbid and bilious deposits from the stomach and bowels, regulates the liver and kidneys, removing every obstruction, restores a natural and healthy action in the vital organs. It is a superior FAMILY MEDICINE. Much better than pills and much easier to take.

DARLING'S LIFE BITTERS,

Is a superior tonic and diuretic; excellent in cases of loss of appetite, flatulency, female weakness, irregularities in the side and bowels, blind protruding and bleeding piles, and general debility.

BEAD THE FOLLOWING TESTIMONY

James L. Brumley, merchant, 184 Fulton-st., New York, writes, August 18, 1860: "I have been afflicted with piles, accompanied with bleeding, the last three years; I used

DARLING'S LIVER REGULATOR AND LIFE BITTERS,

And now consider myself entirely cured."

Hon John A. Cross writes, Brooklyn, March 15, 1860. "In the spring of 1859 I took a severe cold, which induced a violent fever. I took two doses of

Darling's Liver Regulator,

It broke up my cold and fever at once. Previous to this attack, I had been troubled with dyspepsia several months; I have felt nothing of it since."

OTIS STUDLEY, Esq., 128 East 28th Street, N. Y., writes: "August 13, 1860.—I had a difficulty with kidney complaint 3 years, with constant pain in the small of my back. I had used most all kinds of medicines, but found no permanent relief until I used

DARLING'S LIVER REGULATOR AND LIFE BITTERS

I passed a flood by the urethra. I am now entirely cured, and take pleasure in recommending to my friends."

Mrs. C. T. T. writes, New York, N. Y., writes: "I had a difficulty with kidney complaint 3 years, with constant pain in the small of my back. I had used most all kinds of medicines, but found no permanent relief until I used

Darling's Liver Regulator

in affording immediate relief. It is a thorough Liver and bilious remedy."

Mrs. Young of Brooklyn writes: "February 28, 1860.—In May 1st I had a severe attack of Pile, which confined me to the house. I took one bottle of

DARLING'S LIFE BITTERS

and was entirely cured. I have had no attack since."

D. Westcott, Esq., of South 5th, near 8th Street, Williamsburg, L. I., writes: "August 5, 1860.—Having been troubled with a difficulty in the Liver and subject to bilious attacks, I was advised by a friend to try

Darling's Liver Regulator.

I did not think it to operate admirably, removing the bile and arousing the liver to activity. I have also used it as a

FAMILY MEDICINE.

When our children are out of sorts, we give them a few drops and it sets them all right. I find it meets the general wants of the stomach and bowels when disordered."

Cephalic Pills

CURE Sick Headache
CURE Nervous Headache
All kinds of Headache

By the use of these Pills the periodic attacks of Nervous or Sick Headache may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing the Nausea and Headache to which females are so subject.

They act generally upon the bowels—removing Costiveness.

For Literary Men, Students, Delicate Females, and all persons of Sedentary habits, they are valuable as a Laxative, improving the Appetite, giving tone and vigor to the digestive, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use for many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the Nervous system or from deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children.

Friends and Relatives

ALL who have Friends and Relatives in the Army or Navy, should take especial care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

Coughs and Colds Affecting Troops.

Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the directions which are attached to each pot of

Sick Headaches and want of Appetite, incidental to Soldiers.

Those feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to be well. The Pills, taken according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness or Debility Induced by over Fatigue.

Will soon disappear by the use of these invaluable Pills and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or nudily acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach, and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system, however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

Volunteers Attention! Indications of Youth.

Sores and Ulcers, Eruptions and Swellings, can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part or break out in another. Whereas this Ointment will remove the humors from the system and leave the patient a vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

For Wounds either occasioned by the Bayonet, Sabre or the Bullet, Sores or Bruises.

To which every Soldier and Sailor are liable, there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment. The poor wounded and almost dying sufferer might have his wound dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all round it, then covered with a piece of linen from his Knapsack and compressed with a handkerchief. Taking night and morning 6 or 8 Pills, to cool the system and prevent inflammation.

Every Soldier's Knapsack and Seaman's Chest should be provided with these valuable Remedies.

Important Caution!—None are genuine unless the words "HOLLOWAY, NEW YORK & LONDON," are discernible as a water mark in every leaf of the book of directions, and in each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome award will be given to any one presenting information as to any party counterfeiting the medicines or reading the same, knowing them to be spurious.

Sold at the manufactory of Prof. HOLLOWAY, 50 Maiden Lane, New York, and by all respectable druggists and dealers in Medicine, throughout the civilized world, in boxes, at 25 cents, 62 cents, and \$1 each.

Reliable Testimony.

We call the attention of the reader to the following letter from President Smith, of Wesleyan University.

MIDDLETOWN, Conn., Feb. 25, 1859.

Messrs. SETH W. FOWLE & Co., Gentlemen:—I first made use of the Oxygenated Bitters seven or eight years since. Having suffered for twenty years from a form of dyspepsia, which was attended with a nervous headache, on an average of not less than one day in a week, I was induced, by the unpretending recommendation of Dr. Green, to try one bottle, and if no benefit was received to discontinue the use of it. The use of one bottle warranted a further trial, to the extent of some three or four, with a careful observance of the accompanying directions. The result was, an almost entire relief from the usual dyspeptic symptoms and their depressing, painful consequences. I believe these Bitters produced an entire change in the habits of my system, and upon the active energies of the digestive system. I now deem myself as exempt from Dyspepsia as most persons. These Bitters have also been of service to other members of my family.

Very respectfully yours,
AUGUSTUS W. SMITH.

STODDARD, N. H., Sept. 30, 1859.

Messrs. SETH W. FOWLE & Co.,
Gentle:—I was, for many years, a great sufferer from Dyspepsia or Waterbrash, and tried almost everything within my reach, but to no avail, until I was induced by the recommendation of my physician, Dr. H. H. H. to make use of the Oxygenated Bitters. The first bottle produced but a slight alleviation in the disease, and had it not been for the urgent request of my physician, I should have discontinued the use of them, thinking them to be of no avail; but his confidence in the use of the Oxygenated Bitters as an invigorating tonic, containing no alcohol in its composition, and possessing more real merit than any preparation of the kind I have ever known.—Ogdensburg Republican.

OLD SACHEM BIRN-BLUE WIGWAM TONIC

THESE delicious and far famed Bitters are recommended by the First Physicians of the Country, on account of their utility in Great Medical Virtues. They are pleasant to the taste, and are pronounced the best Tonic an stimulant ever offered to the public. The curative powers in cases of General Debility, Loss of Appetite, Constipation, &c. are unparalleled, and as a guarantee that we feel warranted in claiming what we do we beg leave to state that our assertions are endorsed by

MRS. WILSON'S COCOA-NUT OIL HAIR DRESSING.

Mrs. Wilson's Hair Dressing is put up in large bottles, and retails for 37 1/2 cents per bottle, and for dressing the hair of any person, young or old, there is not its equal in the world. It will make the hair soft and beautiful, to all who want to restore gray hair to its original color, or to any who are troubled with dandruff, or a disagreeable itching of the head, or humors, or to those whose hair is falling from the head.

Messrs. HENRY P. WILSON & Co. write: "I have used your Regenerator and Hair Dressing for several years, and have secured great benefits from them. I do not think the articles worthy of high commendation, and cheerfully recommend them to all who want to restore gray hair to its original color, or to any who are troubled with dandruff, or a disagreeable itching of the head, or humors, or to those whose hair is falling from the head."
