

NEW HAVEN DAILY PALLADIUM. TUESDAY, JANUARY 7, 1862. PUBLISHED WEEKLY. PER ANNUM \$2.00. PER SEMESTER \$1.00. PER QUARTER \$0.50. J. F. BARBOUR, PUBLISHER.

THE UNION AND CONSTITUTION. Where freedom has its birth, before us! With Freedom's soil beneath our feet. And Freedom's banner streaming o'er us!

Union Convention. The proposed Union Mass Convention of this State, will meet at Hartford to-morrow, on the 8th inst. It is expected that the Hon. Andy Johnson, United States Senator of Tennessee, will be present and address the Convention on the momentous issues of the day.

Harbor Defenses. We learn that the Hon. Mr. English recently had an interview with Secretary Cameron, regarding the Harbor defenses for this city, when Mr. Cameron informed him that he had in mind to make a survey for the purpose, as soon as a proper man for that purpose was designated. The resolutions offered by Mr. Pardee last evening, and accepted by the Common Council, were drawn by Mr. English, in view of our necessities, and will be presented by him to the attention of the National Government.

France and America. The Opinions Nationale, of Paris, of which the Prince Napoleon is part owner, contains a noble article on the affairs of England and America, from the pen of Monsieur Guizot. He cautions his countrymen against being made the catspaws of English cunning and duplicity.

raised and drilled at great expense, these fortifications thrown up everywhere on the coasts of England. It is not against America, it is against France that they are prepared. If England is so well prepared today it is owing to her distrust and insatiable hatred of France. In the love of peace and in humanity we do not ask that we should profit by the embarrassments of England to assail her, but for God's sake do not let them ask us to aid them against our national allies. All France would join in indignation at the very thought.

LOCAL AFFAIRS. Counting-House Almanacs. We have received counting-house almanacs in handsome shape, from J. H. Beahan and Tuttle, Morehouse & Taylor.

Sunday School Festival. The Fair in Chapel's Building on Chapel street, by the ladies of St. Paul's church, for the benefit of the poor of the parish, will be continued this evening.

Presbyterian Music Hall to-night, must not be forgotten. We understand that the reserved seats are selling very rapidly. Herrmann has arrived in town and our citizens must prepare to be astonished. They must remember that, to-morrow evening, is positively his last night here.

Messrs. James Creed, James Swift and George C. Collins, whom it was feared were lost in the late blow, have turned up safe and well. The little West Haven sloop they were aboard of, put out from New London for this city, but found the gale so strong, they could not live in the boat that morning, and they put back into New London Harbor. Young Collins has arrived home, and the sloop will doubtless soon be here.

Harbor Defenses. We learn that the Hon. Mr. English recently had an interview with Secretary Cameron, regarding the Harbor defenses for this city, when Mr. Cameron informed him that he had in mind to make a survey for the purpose, as soon as a proper man for that purpose was designated. Common Council Meeting, Jan. 6, 1862. Records of last meeting read and accepted. Lucius Gilbert, City Auditor, presented a statement of expenses of George Brewster, for which the City Meeting appropriated \$12,000, and the Common Council, subsequently, appropriated \$3,000. The total expense is \$15,000, of which the day laborers have been paid \$6,000; the amount \$1,500; the auditor \$1,728; Wm. Harley, surveyor, \$189. There was an excess of about \$200 worth of black left. The deficiency of surplus material and tools, of the deficiency of the appropriation is about \$1,600, for which an appropriation was asked.

Resolution appointing Alderman Beach Chairman of Sewerage Committee, in place of Alderman Cahill, resigned, passed. Resolution requesting the Mayor to appoint a Committee to provide for the city assuming control of the streets and highways, passed, and Messrs. Tyler, Wier, French, Healy, Countryman, Mix and Harrison, appointed said Committee.

Annual Report of Chief of Fire Department read and accepted. Resolution instructing the City Clerk to cause to be printed 400 copies of the Mayor's Address, the Report of the Treasurer, Auditor, Water Committee, Sewerage Committee, Chief Engineer, and such other documents as the Mayor shall designate, passed. Mayor's Office, City of New Haven, Jan. 6, 1862.

STATE NEWS. They have done a good thing in the 18th Regiment, now in the New Haven Barracks, by organizing a temperance society among the soldiers. The Government pilot boat Zouave—the first yacht formerly owned by Mr. Mallory of the Navy, and assigned for duty on board the Key-Stone State.

John Edwin Jones, of Waterbury, has been appointed Master's Mate in the United States Navy, and assigned for duty on board the Key-Stone State. The report of the Committee on the matter of a contract for the supply of the city with water was read, and the terms offered by the New Haven Water Company, and rejecting those of the Metropolitan Company. The latter wanted \$150,000 from the city for the right to use their water forever. The terms of the New Haven Company will be published.

The report was ordered laid on the table till the next meeting, for the purpose of having it printed in the newspapers. Several new members were admitted to the Fire Department. The Committee of Board of Engineers nominating J. R. Knapp as Engineer of Steam Fire Engine No. 1, in place of A. R. Stillwell. Laid on the table by a vote of 13 to 10.

G., 79th New York Regiment, whose release from confinement at Richmond and arrival at Fortress Monroe is mentioned in our dispatches this afternoon, is a native of this city, where he was formerly engaged in business. His friends here will be pleased to learn of his safe arrival north.

Fire in Philadelphia. A destructive fire occurred in Philadelphia, on Monday afternoon, causing a loss of \$75,000 worth of property. The fire broke out in the drug warehouse of G. W. Lewis, No. 45 Fourth street, originating by the upsetting of a stove, and the floor being saturated with essential oils instantly took fire. The flames ascended from story to story with furious rapidity, being encouraged by the inflammable nature of the contents, and soon burst from the roof and spread to the adjoining buildings, No. 43 occupied by Wm. Mann, stationer and manufacturer of blank books, and No. 47, J. S. Delorick, shoe dealer, and J. Miles & Son, boot and shoe manufacturer. The entire inside of Lewis's Warehouse was destroyed, only the walls being left standing. The upper stories and back portion of the lower stories of Mann's building were burnt. Woodward & Co., tobacconists, sustained a loss of \$5,000 in damage by water. The insurance covered \$55,000 of the entire loss.

REPUTATION OF ENGLISH DRY GOODS.—The young ladies in a popular Sunday in Maine last week, and mutually agreed that they were justified by the more fraternal action of England toward the loyal party in this country, they would neither purchase nor wear materials of English manufacture for clothing. Acting on the hint thus given, the young ladies of several seminaries and schools in Massachusetts have made the same resolution. In one instance in Chelsea, as we are informed by a citizen of that place, one school—teachers and pupils—have entered into the compact, and pledged themselves to be diligent, at all times, to propagate their feeling. This shows that the damns of the present age inherit the principles of their great-grandfathers in 1776, whose self-denial for patriotic purposes is a proud feature in the history of that time.

THIRTY-SEVENTH CONGRESS. FIRST SESSION. SENATE. Various emancipatory petitions were presented, also a petition from Pennsylvania, that Fremont be appointed lieutenant-general. The correspondence in the Trent affair was received from the Secretary of State, and made the special order for Thursday. The Judiciary Committee reported and advised the contested Kansas case, that no new facts had been discovered, that no new facts had been discovered, that no new facts had been discovered.

Foreign News. The King of Portugal is supposed to have been poisoned. His body is to be dissected and analyzed. Great excitement exists there and troops are patrolling the streets. The English are awaiting the response of America regarding her demand of the rebel commissioners. A variety of opinions prevailed as to the character of the reply.

BY TELEGRAPH. From Fortress Monroe. Letters for prisoners at the South and others have accumulated so fast here, that the members of Gen. Wool's staff, who examine them cannot attend to a third of those daily arriving. Orders will be soon issued to limit the number allowed to pass, and meantime, all persons desiring to communicate with friends South, are requested to make their letters as few, and brief as possible. Several thousand are now waiting examination, and many of these being too long will be destroyed without being read.
