To them for this act of generosity, are hereby tendered the thanks of the Association and the Fire Department generally.

My Dear Sir: The glad news received to-day of the capture of Roanoke Island, is saddened by the tidings of the death of Colonel Charles L. Russell who fell at the head of his regiment, and who, to use the words of Gen. Burnside's report, "fought most gallantly."

While his commander has thus given Colonel Russell an honorable place on the records of the nation, it remains for us, his neighbors and townsmen, to do fitting honor to his memory, and to perpetuate in our midst, in a suitable manner, the remembrance of the patriot and valor which sacrificed a life to maintain the honor of our flag and the integrity of the Union.

I would wish to see a monument erected to his memory in our village cemetery, and which could also bear record of the fact that the regiment which suffered most in that desperate fight, was our own gallant 10th, which he commanded.

You are authorized to subscribe my name for \$250 towards such monument, and to increase the sum to \$500 if a like amount be raised in our town. I doubt not that other citizens of the town of Derby, and of the State, would likewise be glad to join in doing honor to the memory of the first officer of our Connecticut volunteers who has fallen in combatting, in defense of our loved Union, a wicked but expiring rebellion which vainly seeks to destroy it.

Yours truly, HENRY S. SANFORD. EDWARD N. SHELTON, Esq. The United States Superior Court, Chief Justice Taney, presiding, has decided that the State of New York has no jurisdiction over the waters of Long Island Sound, where the murder by Jackalow was committed, and advised the U. S. Circuit Court, for New Jersey to proceed with the case.

Major Henry Wessels, of the 6th infantry, U. S. A., is nominated for a Brigadier-General in this State, and a West Point.

The Secretary of War has complimented Gen. Shields and his command for their valor at the late battle near Winchester, and extended them the thanks of the Department. To Gen. Shields himself, he says: "Your wounds as well as your success proves that Lander's brave division is still bravely led, and that wherever its standard is displayed rebels will be routed and pursued."

Death of Frank Gallagher, Esq. We must regret that among the killed near Winchester, in the battle of Sunday last, was Capt. Frank Gallagher, who was at the head of his company. He was a brother of Jas. Gallagher, of this city, and was a lawyer in Palmetto; and widely known. His name is now added to the martyr's list—those who gave up home, kindred, property and life itself to serve their country. Peace to their ashes and glory to their names.

The National Freedmen's Relief Association. The National Freedmen's Relief Association has been organized in New York, under the Presidency of Hon. J. W. Edmonds, with the approval of the United States government, to provide immediate relief and protection to a large number of freed colored persons who are now within the territory occupied by the Federal forces on the Atlantic coast.

A New London Vessel Sunk at Newbern. Messrs. Frink & Prentiss, of New London, the Chronicle says, have received a letter from Capt. Tribble, of the U. S. transport, A. Segur, at Newbern, N. C., stating that their schooner, the Transit, which was captured by the rebels last summer and taken into Hatteras Inlet, is lying in the Neuse river about a mile below the vessels which the rebels sunk to prevent the capture of the Federal gunboats to the city. Captain Tribble thinks she could be raised and repaired without difficulty, if there was any one there to look after the job.

Messrs. Editors: A lady came near losing her life on Wednesday evening in consequence of an engine coming with great rapidity on the sidewalk. One passed on the other side at the same time; and, in the excitement and confusion, she was unable to reach the steps of a house which were but a few paces from her. She clung to the fence with such force that her clothes were literally torn off. She escaped with her life and but one bruise, which was occasioned by holding on to the fence one way while the engine pulled her the other. Is there not a law prohibiting the running of engines on the sidewalk?

By telegraph we are informed that the censorship of the telegraph was abolished by the Secretary of war on taking military possession of the telegraph, and a military Supervisor is appointed. The duty of the supervisor is to prevent the transmission by telegraph of information concerning late, present or contemplated movements of the armies of the United States, and all other information the publication of which is of a military character and that ought to be concealed from the enemy.

Burnside in the Fight. A volunteer, in writing home to his family in this city, after the battle of Newbern, remarks that to that fight Roanoke was but a skirmish. He also remarks, "You would have laughed if you had seen Burnside on that day. He was a compound Italian brigand, a counterfeit and a Corsican Brothers played, you can form an idea of his costume."

An Incident at Fort Donelson. A Fort Donelson correspondent, writing from Cairo, gives a most graphic description of the attack of Gen. C. F. Smith's division upon the enemy's works in that splendid fight. Captain Hillier, Gen. Grant's Aid-de-Camp, rode down to Gen. Smith with the order to charge at the point of the bayonet. It had long been impatiently expected. "I'll do it," he said, "I'll do it," he was the reply, and then, facing his men, he shouted, "Soldiers! we are ordered to take these works by assault—we are ordered to take these works by assault—we are ordered to take these works by assault—Charge bayonet. Forward—double quick march!"

Sub-treasurer Cisco sold \$3,000,000 worth of 7 3/10 per cento to the New York banks, on Monday, at par and interest, after fifteen minutes' negotiation. The money will be used in buying out the army. This ready sale shows that the shrewdest financiers are buying Federal stocks, confident that they will never be worth less than they are to-day.

Some business men of Boston are starting a farming corporation to be located on the line of the Hannibal and St. Joseph railroad, in Missouri.

Terrible Murder.—A Lady shot—Her Recovery Hopeless. In the village of Rensselaer, a day or two ago, a murder, of apparently a most malicious and cold-blooded character, was committed. The victim is Mrs. Buckingham, wife of Frank Buckingham, Esq., of Chicago, and daughter of Col. Mather Decker, of Rensselaer—a beautiful and estimable lady, about thirty-five years of age.

The murderer is one Hoffman, a German, sixty-one years old, father of a large family, not unconvulsed with the interior of jails, a hardy, active old fellow, and known as a revengeful and dangerous character.

In pursuance of his plan, he loaded a five-barrel revolver, put five extra cartridges into his pocket, took a sharp heavy dirk, and thus murderously equipped, called at the house of Col. Beecher and requested an examination of certain papers held by the latter.

An Executive Committee was afterwards constituted, composed of Prof. A. C. Twining, Chairman; Dr. M. C. White, Charles Carlisle and Daniel C. Gilman. A depository has been secured in Bishop's Block, No. 229 State street, and placed in charge of Rev. John Dudley, Secretary of the Committee.

The citizens of New Haven and the country are now appealed to for immediate and generous contributions, in view of the great destitution which prevails. New cloth, or cast off garments for men, women and children, and also bedding, are especially and earnestly solicited. If requested, the Local Secretary will send for such parcels as may be reported to him; but those who can, are urged to send their gifts without delay to the above mentioned depository.

The remains of Col. Stokum, Maj. Ballou, and Capt. Towers, were taken to-day from the State House, where they lay in state during yesterday, and escorted by a squad of cavalry to the Kensington Depot and took the 9 o'clock train to New York.

Charlotte, daughter of Mr. Sylvester Smith, aged about 11, while at her father's stable on George street, yesterday afternoon, got upon the saddle of his horse. She slipped from her seat, and, in falling, caught her foot in one of the stirrups. Her screams frightened the horse, who, by a sudden movement, loosened her foot from its fastening; but, at the same instant he kicked violently, his feet striking her head, just above the ear, and fracturing her skull badly.

A body of men, some forty in number, who got out their naturalization papers here yesterday, undertook to control the 4:20 p. m. train on the New York road.

Conductor Bradley and the brakemen of the road landed two of them somewhere in the town of West Haven. He then ran back the train to the Engine-house yard here when they concluded they had not yet purchased the road or any of its appliances.
