NEW HAVEN DAILY PALLADIUM. THURSDAY, APRIL 24, 1862. DAILY... Per Annum... \$5 00

Partnership for Men. There appears to be an extensive effort on the part of a considerable portion of the press to disparage on the one hand and the labors and motives of two of our noted Generals, making both of them military heroes and strategists of the highest order.

At a meeting of German citizens in Hartford, April 23, a committee of ten was appointed to raise contributions for the relief of German families who suffered by the fire and flood in that city on Monday, April 21.

The handsome steel cannon presented by Minister Sanford to the State of Connecticut has been beautifully mounted by Messrs. G. D. Cook & Co., of this city, and is now at their repository.

Every act of Gen. Fremont has been pointed upon as evidence of his incapacity and of not of absolute dishonesty; yet his warm friends and partisans maintain that he did nothing that he should not have done, and that he was a victim of persecution by jealous and dishonorable rivals.

Those who encourage party divisions now are the enemies of their country, whether they design to be or not. And yet what are the facts? The one faction declares that unless the Administration and its Generals uproot at once and everywhere the cause of the rebellion, which is slavery, there can be no present peace or future security.

There is a rational ground between these two extremes which the Administration is pursuing. It will not embarrass and injure the Union men of the South, whether there be few or many, by any reckless scheme of emancipation—or will it foster freedom by nationalizing slavery as the conditions of peace. Knowing that slavery cannot exist except by local law, it allows the free States to wash their hands of slavery in the District of Columbia, and thus leaves slavery to the local law of the States. Aiming to relieve the Border States from the sufferings they have endured in affording the chief battle grounds for the North and South, it offers these Border States pecuniary inducements to rid themselves of slavery if they will; or to leave themselves exposed to a repetition in future time of similar horrors to those now endured. Viewing the rebels as outlaws by their own acts, it leaves their slaves to the chances of war, to scatter before our advancing armies, just as the rebels themselves are scattered. This slavery is daily undermined, and will long ago as the rebels choose to expose their institutions to this sort of destruction. If it falls by their

own infatuation it is better than that it should fall by an act of Congress, in regard to which there would be such divisions among parties as might protract the contest and make it more costly. Is not this middle ground the most rational, the most patriotic and the most sure of a speedy and successful issue of the war.

Let us then sustain the Administration in its policy—sustain its Generals, McClellan and Fremont—and the end will be that slavery will no longer rule the nation in its legislation, or again attempt to subjugate it by the sword.

The case of George S. Murphy, et al. against William C. Rogers, is still upon trial before the jury. This is an action for a representation of the solvency of the Cornwall Iron Company, by which the Plaintiffs were induced to sell upon credit about \$2,000 of merchandise, at New York, in the spring of 1857.

At a meeting of German citizens in Hartford, April 23, a committee of ten was appointed to raise contributions for the relief of German families who suffered by the fire and flood in that city on Monday, April 21.

Soon after the first discharge, our force was strengthened by the arrival of the 8th Mich. and 100 of the hardy tars from the frigate Wash, which is now lying at Hilton Head.

The rebel Buchanan. We learn that a private letter received here a few days since from some member of the family of the rebel Buchanan, commander of the Merrimac, announces the fact that he is alive and now well, having received but a slight flesh wound at the time of the engagement of the Monitor and Merrimac. This is authentic unless the rebel portion of the family desired to deceive their personal friends at the north.

It is now afternoon.—A wild shout of joy rings along our lines. What is the cause of it? The rebel flag is struck and the emblem of submission appears. The haughty spirit of Pulaski succumbs and the day is ours! An order comes for the 7th to fall in and I must close for the present.

Fort Pulaski, Ga., April 13, 1862. The promised land has at length been gained. Our reward has come, and from within the walls of the above named Fort, I wish to mingle my rejoicings with yours. Our regiment was put in motion soon after the order "fall in;" and at 8 o'clock, p. m., we rested in the lunette upon which we had fastened our eyes for full two months past. Of our victory, of course the busy telegraph has long since acquainted you. What was predicted has been accomplished, and the trust that was reposed in us by the people of Connecticut, has not been destroyed.

made a pretty good trade, and have no desire to trade back again. The fort presents a crippled and very disabled condition. The south-eastern angle is breached badly, showing the terrible effect of the "James projectile," which the enemy have styled "cart wheels." Under the wisdom of Gen. Benham, this was done in order to have a fair chance at the magazine, which on examination to-day proves to have been the cause of their early surrender. Though the magazine, and in fact, the entire interior of the fort, was strengthened by "hindages," yet the pointed projectile and the ponderous shells from our mortars crushed everything in their course.

At noon kind Providence seemed to smile upon us through the swift-winged clouds and we rejoiced in the fact that the coming day bore premonitory symptoms of fair weather.

Early on the morning of the 10th a flag of truce was borne to the fort by Lieut. Wilson of the Eng. Corps, who demand the unconditional surrender of the Fort and all its garrison. The officer in command replied that he was placed there "to defend the place; not to surrender it."

Some of them are conversant and mild in their manners; while others are rude and loud in their declamations, against being ruled by an abolition President. Most of them are natives of Savannah and its vicinity, and of course, reasoning with them is out of the question. However, we shall soon be rid of them, and they will be on their way to the green hills of New England. I commend them, dear souls, (!) to your special care and favor.

RELIGIOUS INTEREST AT DANBURY.—A meeting has been held for some weeks in the Baptist church and some eight or ten members have been added. At the Disciples church, in the same village, a series of meetings has resulted in the addition of eighty-two new members.

How Mr. Beecher Lost His Boots. The following is in Henry Ward Beecher's best vein: The difference between 7 and 8 is not very great; only a single unit. And yet that difference has never even made a whole temper, convenience, and dignity. Thus, my boots were set out at night to be blacked. In the morning no boots were there, though all the neighboring rooms had been served. I rang, I rang twice. "A pretty fellow—nearly eight o'clock, going out at nine, breakfast to be eaten, and no boots yet!" The waiter came, took my somewhat emphatic order, and left.

How "Uncle Tom" came to be Written. Ten or eleven years ago, Mr. Bailey, the editor of the National Era, a weekly paper published at Washington city, wrote a note to the following effect: "My Dear Mrs. S.: I enclose a \$100 bill. Please send me a story—anything you choose."

Col. Donnelly made a reconnaissance on Wednesday, towards Harrisonburg, and when approaching he was fired on by the rebel cavalry scouts. Two companies of the Ohio cavalry were deployed on the left, towards the Gordonsville turnpike, the same number of the Vermont cavalry on the right, and the Michigan cavalry in the center. Hampton's battery and the Connecticut 6th formed the reserve.
