Attempted Robbery of the Safe of the New Haven Steamboat Company. The office of the New Haven Steamboat Co. at the corner of Front street and Peck Slip, New York, was entered by two burglars on Saturday night about 10 o'clock. Mr. Henry J. Wright, the agent, accidentally returned to the building, and finding the inside office door locked, had nis suspicions aroused that all was not right. He communicated with some policemen, and a part of them ascended to the roof through an adjoining building, while the others entered the

They found the burglar-proof safe had been opened by being bored through the side, and the contents, amounting to \$3,852, in bills from \$10 to \$100 each, extracted. The burglars were found on the fourth floor, seated under the scuttle, from which they could not escape, owing to the presence of the officers on the roof.
They gave themselves up quietly, and stated the money to be hid in a cotton bale, which they had ripped up for the purpose of concealing it, and it was subsequently found there. Theg stated they bored through the safe in the space of forty minutes. Upon being taken before Justice Brennan, yesterday morning, they gave their names as Daniel Kelley, alias Wiliam Burroughs, and James Nesbitt, and were committed for examination.

VACCINATION. VACCINATION.

VACCINATION.

Py authority of the Board of Selectmen, the following places have been established for the gratuitous vaccination and re-vaccination of such indigent persons in the Town as are not now protected by that process, from the contagion of Small Pox:

Dr. Sumn'r's Office, cor. of Olive and Cherry sts.

Dr. Nicoll's Office, cor. Lafayette and Prince sts.

The Medical College, Dr. White in attendance.

Curt ss' Drug Store, cor. Grand and Franklin sts.

Dr. Lindsley attending. indsley attending.

The above named Medical men will be in attendance a

the places mentioned each day, except Sundays, for four weeks, from TUESDAY, May 20, at 8 o'clock, a. m., and weeks, from TUESDAY, May 20, at 8 o'clock, a. m., and 4 o.clock, p. m.

The thorough protection of the community from this dreadful disease, Small Pox, is only obtained by the vaccination of every individual.

The expected arrival of several hundred sick and wounded soldiers in our midst, from our armies at the South, among whom there may be many cases of Small Pox, would seem to make these precautionary measures necessary. STEPHEN GILBERT, Town Agent.

### 2,000 PRISONERS.

Washington, May 31, 1862. The following has been received by the War

HEADQUARTERS, CAMP NEAR CORINTH, May 30, 1862.

To Hon. E. M. Stanton, Secretary of War: The enemy's position and works in front of Corinth were exceedingly strong. He cannot occupy a stronger position in flight. This morning he destroyed an immense amount of public and private property, stores, provisions, wagons, tents, &c. For miles from the town the roads are filled with arms, haversacks, &c., thrown away by his flying troops. A large number of prisoners and deserters have been captured, estimated by Gen. Pope at 2,000. Gen. Beauregard evidently distrusts his army or he would have defended so strong a position. His troops are generally much discouraged and lemoralized. In all the engagements for the last few days their resistance has been weak. (Signed,)

#### Corinth and Vicinity. CORINTH, May 30, 1861

It is now ascertained that the evacuation ommenced the night before last the, enemy retiring southwardly until they reached the railroad bridge which was burned by a detachment

of our forces whence they went to Grand Junc-

tion and thence southwardly on the Jackson R. R. Some ladies and several citizens remain The citizens inform us that Richmond has

een evacuated and that Memphis is almost wholly deserted, all the stores being closed with the exception of a few groceries. It is ascertained that Van Dorn had a band

of Indians under him. Col. Jackson reports finding the roads for everal miles strewn with knapsacks, haver-

sacks, arms and canteens, showing great denoralization. The woods are full of stragglers who are be-

ng brought in as fast as possible. Probably between 2,000 and 3,000 including almost the entire 13th Louisiana are in our lines now. Many of them are deserters and the balance have been captured since the evacuation.

A United States Military Telegraph line was ompleted to this point to-night.

#### Norfolk and Vicinity. BALTIMORE, May 31, 1862.

No late news from Newbern, Gen. Veile visted the British war steamer Rinaldo yesterday, by special invitation. He was received with a salute af seventeen guns, and the manning of the yards. The American ensign was displayed at the fore. The Rinaldo left this morning for sea. At Norfolk extensive preparations are making for a Union demonstration; the oath of allegiance has been administered now to nearly 2,000 citizens. They offer themselves in large numbers daily, to take it voluntarily; in fact, if is not made compulsory in any one. If the statements of the proposed meeting are satisfactory to Gen. Wool it will probably induce the President to open the port. There is a report from our scouts who

are advanced some miles beyond Suffolk that Petersburg has been evacuated by the rebels. The Seaboard and Roanoke railroad has been ascertained to be in good order as far as Black

Property to the amount of 3 or 4 thousand dellars, belonging to a rebel Sutler, formerly of Craney Island, has been found in a sloop below the Island.

### LATEST FROM RICHMOND.

Two fugitives arrived yesterday direct from Richmond, and report an army of 200,000 men

in that vicinity; among whom, both officers and men, dissatisfaction is very general. They are living on half rations of bacon and

The fugitives state that Davis was heard to say he would make the streets of the city run with blood before surrendering.

Col. Hawkins, of the 9th New York, with 20 men, arrived in the steamer Port Royal last night. He left Roanoke Island yesterday morning; passed through Currituck sound, and by canal to Elizabeth river.

Several sloops and schooners came through flying the American flag, and were allowed to Sr. Louis, May 30, 1862.

Brigadier General Schofield commanding the Missouri State Militia has issued a general order stating that hereafter all guerillas and marauders in the State when caught in arms engaged in their unlawful cause will be shot down on the spot, and that all citizens who give shelter and protection to these outlaws or who do not give all the assistance in their power to the military authorities in detecting and bringing them to

SUBSTITUTE FOR LEAD PIPE.

WE have, during the last two years. manufactured and introduced into market 100,000 feet of all sizes, from 1/2 inch to 3 inches diameter, and have no hesitation in saying that, for the purpose of conducting water, it is superior, in every respect, to any other ar icle yet brought into use. It possesses the following properties:

roperties:
It imparts no deleterious substance to the water, under the imparts no deleterious substance to the water, under the imparts of th

by eircumstances, nor in any way affects it unpleasanter a few days' use.

It is sufficiently elastic to be easily bent into curves, it is not affected by either heat or cold.

It will not burst if water is frozen in it.

It will not burst if water is frozen in it.

It is not injured by exposure to the atmosphere or sun. It may be coiled and transported in almost any way, and (if handled with care) innumerable times, and from its elasticity cannot be easily made to collapse.

Its durability must be great. Samples can be shown which have been in constant use exposed to the atmosphere for five years, and also some that have been attached to a common house pump and buried in the earth for three years, none of which show any sign of decay. In short, the Pipe is composed of ingredients which are indestructible except by fire.

The price at which this article is offered, must, together with its invaluable properties, commend it to all who are in want of pipe for conducting water.

We captured 6 officers and 150 privates. Among the officers are Capt. Beckwith West, of the 48th Va., First Lieut, Gremmell, of the 8th La., and Lieuts. P. R. Dickson and Waterman, of the 12th Georgia. We recaptured 18 of our own troops taken by the enemy at Front Royal a week ago, among whom were Major Wm. F. Collins of the 1st Vermont cavalry, Geo. H. Griffin, Adjutant of the New York cavalry, Lieut. Duryea, of the 5th New York cavalry, and Fred. Farr, Adju-

tant of the Maryland Infantry. We captured a large amount of transportation means, including 2 engines, and 11 cars. Our advance was so rapid that the enemy was surprised, and was, therefore, not enabled to burn the bridges across the Shenandoah.

A dispatch from the Associated Press reporter gives the names of our killed as follows: Capt. Wm. P. Ainsworth, Corporal Jno. C. Babcock, Corporal D. B. Barnard, privates Edward R. Barnard, Cyrus A. Brackett, Calvin Cushman, Ben Lachure and E. Ballen of the R. I. Cavalry. The loss of the enemy is not yet ascertained, but it is said to be large, as our cavalry cut in among them in splendid style.

VACCINATION.

Y authority of the Board of Selectmen, the following places have been established for the gratuitous vaccination and re-vaccination of such indigent persons in the Town as are not now protected by that process, from the contagion of Small Pox:

Dr. Sumn'r's Office, cor. of Olive and Cherry sts.

Dr. Nicoll's Office, cor. of Olive and Cherry sts.

Dr. Nicoll's Office, cor. Carlayette and Prince sts.

The Medical College, Dr. White in attendance.

Curt ss' Drug Store, cor. Grand and Franklin sts. Dr. Lindsley attending.

The above named Medical men will be in attendance at the places mentioned each day, except Sundays, for four weeks, from TUESDAY, May 20, at 8 o'clock, a. m., and 4 o.clock, p. m.

The thorough protection of the community from this dreadful disease, Small Pox, is only obtained by the vaccination of every individual.

The expected arrival of several hundred sick and wounded soldiers in our midst, from our armies at the South, among whom there may be many cases of Small Pox, would seem to make these precautionary measures necessary.

GREAT EXTERNAL REMEDY FOR RHEUMATISM, GOUT, NEURALGIA, LUMBAGO STIFF NECK AND JOINTS, SPRAINS, BRUISWS, CUTS AND WOUNDS, PILES, HEADACHE, AND ALL KHEUMATIC AND NERVOUS DISORDERS.

For all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr. Stephen Sweet of Connecticut, the tamous bone setter, and has been used in his practice for more than twenty ears, with the most astonishing success.

AS AN ALLEVIATOR OF PAIN, it is unrivaled by an reparation before the public, of which the most sk hav be convinced by a single trial. This Liniment will cure rapidly and radically, Rheumat c Disorders of every kind, and in thousands of cases where it has been used in has never been known to fail.

FOR NEURALGIA, is will afford immediate relief in F. Wilkinson, Co.B, 2d reg.; Geo. Weed, Co. very case, however distressing.

It will relieve the worst cases of HEADACHE in thre ninutes, and is warranted to do it.
TOOTHACHE also will it cure immediately.
FOR NERVOUS DEBILITY AND GENERAL LASSIrude, arising from imprudence or excess, this Linime is a most happy and unfailing remedy. Acting direct upon the norvous tissues, it strengthens and revivines to system, and restores it to elasticity and vigor.

FOR PILES.—As an external remedy, we claim that it is the best known, and we challenge the world to produce an equal. Every victim of this distressing complains should give it a trial, for it will not fail to afford immediate which and is not presented. ate relief, and in a majority of cases will effect a radical QUINSY AND SORE THROAT are sometimes ex remely malignant and dangerous, but a timely applica-tion of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlarge-ment of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two of three days.

> EVERY HORSE OWNER should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Economy-phobia. Every three or four years there breaks out in the General Assembly an economy-phobia. An element appears, which either lacks the courage or the genius to take hold of a great reform in which reputation may be lost or won, but which noses around among the spittoons, counts the quills or steel pens used, moves that the printed roll shall not be one thousand but five hundred copies-that there shall be but eight copies of the Connecticut Register, costing sixteen cents each, for the use of the House instead of twentyfive. The result is that all these sessions in which this peculiar element is embraced, are invariably more expensive than any other. The time lost by them is more than the money gained. They keep up a continued annoyance during the entire session, protracting it a week or two at an expense of six to eight hundred dollars a day. Most of these mighty efforts, which result in a saving at the spigot and a wasting at the bung, end in an attack upon the printer.

Economy is a virtue in a State or an individual; but all that claims to be economy is not such. There is no State in the Union whose orinting on the whole costs so little as that of our own, or whose finances are so well and bly injured internally on Saturday at Port Chescarefully managed. While there is supposed to be absolute corruption in some legislative bodies, we believe there is none purer than ours. Much as we have seen of Connecticut legislation, we have never known or even heard of an instance of a member taking pay or being improperly influenced in his vote, unless the ordinary logrolling, so called, is an improper influence, as it exists sometimes, where the friend of one candidate votes for another on condition that his own shall be supported. So much for the honesty of Connecticut legislation. But for its parsimonious elements, we cannot speak so fa-

for members of the House so as to cut down the members to one hundred and thus save the pay of more than one-half and secure a much more equal representation and much better legisla tion. But that is too great a subject for some be reduced, so as to make a considerable saving there; but that is too comprehensive a thing there; but that is too comprehensive a thing for these gentlemen. Then the shaving off of time, is another matter worthy of somebody's attention. These things have been tolerated because it is known that the pay of members is small, many not meeting their expenses. But f economy is the order of the day in small things let us have economy throughout; but don't make the printers the scape goats of the whole corneern. If there are abuses anywhere they should be corrected. That is admitted. The journals of the two Houses have of late years been needlesly bulky; the clerks have been paid by the page instead of the day or the job; but that evil can be and will be corrected the present year. A committee have been appointed and have, in accordance with the sense of the House, reported the manner in which the journal should be made up, by which there will be a saving of several hundred dollars, and this report should satisfy all reasonable men. But if it does not, and the skinning process is to go on, we beg to insist that the State Printers should not alone be the target for the reform shooters. Let the State officers submit to a reduction of their salaries, or their clerks be dismissed, and they perform the duties chiefly done by others. There are competent men enough to be found that will take those offices for half the salaries now paid, although they are not too large now. Yet there is not one of them, unless the Treasurer, whose labors and anxieties during the year are greater than the State Printer. We ask the spasmodic economists to go into this whole business if they go into it at all. The matter of State Printing has been grossly misrepresented by interested parties, and some members have honestly believed those gross exaggerations. There is competition in all trades, and some persons have not hesitated to keep up their warfare on the Printers in hope of gain to themselves.

Then there are other motives at work. There is a minority in the Legislature who, according to their own confessions, have laughed at the muss they have stirred up, and said their only object was to see the fun-and the majority seem to lack the courage to take this little bull by the horns.

Instead of this, they seem to be as fearful-of the new "reform party," with its long line of Governors, Congressmen, &c., as the scared boy was of the grave-yard at midnight. For ourselves, we are disgusted with this wishywashy, shilly-shally business; yet we understand the points in the case thoroughly, and the different agencies and motives at work to make political capital, as well as to get a lick at the

We have been appointed by the two Houses State Printers for the year ensuing. By former legislative precedent and general understanding of our cotemporaries, of both parties, the appointment came to us in due course, but it been given in such a grudging manner, and

is so hampered by conditions and uncertainties as to take from it all its value. The Journals of the House, daily and revised, we have printed up to this time according to custom, and yet the majority, though assured that they will cost and Managers chosen for the ensuing year: them less than heretofore, will not decide

whether they will have them or not.

We have in good faith incurred obligations as State Printers to the amount of about two thousand dollars to this time. We have eight followed them through or ten men, busy, often out of hours, and then pointment, giving it to those more anxious for the most hopeful, and fill their hearts with painful than we are under such circumstances. If the office paid all that its interested exaggerators have pretended, it would not be worth our tors have pretended, it would not be worth our ful prosecution of their labors.

Your most Obedient Servant, WILLIAM ISAACS LOOMIS, Founder of the American System of Astronomy New Haven, June 2, 1862,

The Twenty-ninth Annual Meeting of the Ne Haven Orphan Asylum was held on Thursday, May 29th, in the Lecture Room of the North Church when the following reports were read, and Officer

he days of darkness and trial which have marked its course. The year commenced under auspices peculiarly idle half the time in regular hours, without discouraging. The treasury, overdrawn to a larger THE DAILY PALLADIUM IS THE OLDEST knowing what a day may bring forth in regard amount than ever before—an unusually large family noying even to disgust, we propose that the majority of the two Houses, compensate us for our present outlays, and take back their ap-DAILY PAPER IN NEW HAVEN, AND BEING AN to the whole subject. As such a position is an-

> similar alternations of despendency and hope. The autumn found them still more deeply in debt. An earnest appeal made at the time of the annual Donaion Visit, and liberally responded to, relieved their embarrassments for the winter, for which they thanked God and took courage. But owing to the unual size of the family, (the number during the winter being about ninety,) the expenses have been greatly increased. The School was now so large that it was necessary to divide it, and an Infant Detions, lay taxes, &c., will take place to-morrow, partment was established, requiring, of course, an-Tuesday, June 3d, at 9 o'clock, at the State necessity, and was purchased, and a considerable House. The new Common Council will meet was indispensable.

To these causes of increased outlay, has been added a visitation of disease. About the middle of March, the measles and scarlet fever appeared in the March, the meases and scarlet level appeared in Asylum, and a season of desolating sickness followed, demanding and exhausting the energies of all the employees of the Board, and involving great expense in every direction. Nearly forty of the children have been the subjects of one or the other of those maladies, and eleven of the little ones, all under six years of age have been removed by death—trans-ferred to their Father's house above, to be forever free from the ills and perils which awaited their

earthly life. A reference to the report of the Treasurer, wil show a large excess of expenditure over the receipts of the year, and though the residue of a legacy (nearly \$600,) has been taken up to meet these expenses a load of debt still remains uncancelled. But amid sensation actress, will appear in the character these painful and gloomy scenes, the year has not been without its circumstances of cheering brightness and nothing has more tended to lighten the burdens of the way, than the patience and unwearied fidelity with which those who have presided over the family, have in their separate spheres discharged the trust committed to them. From the efficient Matron and her kind and capable Assistant, down to the lowest responsible co-laborer, all have performed their du ties well, and merit the gratitude of the Board and of every friend of the Asylum. The children, too, have made a steady advance in conduct and educa tion, giving the most gratifying proof of their sus ceptibility to improvement, and to their preceptors the highest reward for their labors on their behalf.

The condition of the Institution in all its depart nents, has been highly satisfactory, and every com nittee whose duty it has been to investigate their nanagement, and the numerous visitors who have sely, and often with a captious spirit, examined Many of the children have been sent to good omes, while letters received from some who former y enjoyed the benefits of the Asylum, have been most gratifying. Nearly forty of the children have relatives more or less remote in the army, and of he former inmates, some are themselves in its ranks the Reform School, are in regiments now in the field doing well, and demonstrating the benefits of the reformatory discipline to which they have been sub ected. Interesting letters have been received fr them; also from the fathers, now in the service of heir country, all expressive of warm gratitude and appreciation of the care bestowed upon their chil

ren during their absence. One item of encouragement for the future may b mentioned, viz: that during the last month the Board of Education have assumed the care of the school; and surely no class of children have a stron ger claim on the schoolsmoney, than those of the rphan Asylum.
But the satisfaction which this prosperous condi

tion of the Institution affords your Managers, and this proof of its inestimable value and high position in the scale of Christian beneficence, serves but to

Orphan Asylum has been now in existence for many years, -has been able to meet its expenses -has been provided by a generous citizen with a noble building for its occupation,-and its affairs are so well and noiselessly conducted, that It is a well oiled machine which, having been wound up, will go of itself .-But there never was a greater mistake. Its main pring is the sympathy and aid of the Christian put this fountain closed, the wheels would soon stop. Again and again has it been stated that it has no en dowment-no vested funds to fall back upon when other resources fail. With the exception of the board money, often irregularly paid, its chief depend ence is on the annual subscriptions, obtained by the personal application of its Managers, or their agent. A large increase of funds is now imperative for th support of this Institution; and unless the citizens of New Haven will generously unite to make this object their duty and their care, the dire alternativewhich would be pronounced by all alike, a disgrace and a public calamity-that of possible dissolution presses itself upon the consideration of the Board. Can such a thought be entertained with compl eency for a moment, by any who have once visited the Asylumn, and seen the cheerful, happy faces of its inmates, and the order and comfort vades every part of the establishment? Would not every Christian and philanthropic heart recoil, from allowing these little mortals to return to the associaations or vice and ignorance from which they have

been rescued? But these children must be supported, and that by the public-if not in this abode of peace and virtue, they will gnd their homes in the institutions provided by the State for paupers and juvenile de inquents. Shall it be by the voluntary offerings of Christian hearts rejoicing in the temporal and spiritual well-being of their beneficiaries, or by the relutant tax paid to protect the community against evils which it is the aim and glorious mission of Christian

love and forethought to prevent? Owing to their pecuniary difficulties, the Manager nave deemed it a duty to refuse all recent applications for admission to the Asylum. It must be evident hat in the present condition of the country, such applications will be greatly increased, but without

esources, the only response can be: "We cannot take your children. When we hear from day to day that many of the prave defenders of their country's liberties are falling on the battle field, shall it be thought too great a sac fice by those whose homes have been protected, whose equal laws and free institutions have been preserved from destruction, to evince their gratitude providing a refuge for the children of the men who have purchased these blessings with their heart's plood? For the answer to these questions, the Manigers of the Orphan Asylum throw themselves and the cause they represent upon the sympathy and ben-

evolence of this Christian community. Many persons have aided the Asylum during the year, especially in its time of trial, by watching with the sick and supplying needed delicacies. To all such the Managers would tender their warmest thanks. They would more especially notice their obligations to the gentleman of the Press, who have lways befriended the Inititution, and never more ffectually than during the past year.

Words are inadequate to express their grateful ense of the continued interest and sympathy of Deaon G. F. Smith, Mr. A. Heaton and Dr. Austin, whose services during the year, and more particular ly in the recent period of calamity, have been so nremittingly and unceasingly given. To these and ali who have borne the orphan's cause upon their hearts, they would say, the record of your ence is on high, where also is your reward.

Letter from the Fifth Connecticut, PANIC AMONG THE TEAMSTERS .-- OUR SICK TAKEN PRISONERS-A HASTY BREAKFAST-THI CONNECTICUT FIFTH ENGAGE A NORTH CAR OLINA REGIMENT -- OUR FORCES RETIRE -- AR-RIVAL AT MARTINSBURG-LOSS OF THE FIFTH WITH A FEW NAMES.

CAMP NEAR WILLIAMSPORT, May 28, 1862. Editors Palladium: We of the 5th ar uietly encamped at present, on the right bank f the Potomac, and the sacred soil of Old Vir rinia, is quite plainly visible on the opposite side of the river looking so invitingly to us. Circumstances have occurred lately of such a character that our presence in the vicinity of Strausburg and Winchester more particularly, seemed to us at least not to require our stay onger than was absolutely necessary.

Our quiet slumbers were disturbed early or the morning of the 24th, somewhere in the vicinity of 2 o'clock, by the stirring call of the bugle, for the line officers to rendezvous at the Colonel's tent. Very soon after, "turn out nen," "pack up," "strike tents," "one day's rations in your haversacks," and we grouped like gipsics around small fires, making coffee and waiting for the order to "fall in." At sumise the first brigade were on the move We of the First were above Strausburg, some 5 miles or more. After a short halt in Strausburg, waiting for the wagon trains to get out of our way, we resumed our march. When we arrived near Middletown, which is 13 miles south of Winchester, we were met by our wagons returning, driven by somewhat excited teamsters, who conveyed the cheering intellirence that our trains were cut off by the rebel cavalry. The next order was "halt," 'load at will," "right face," "forward," from

Lieut. Col. Chapman commanding; and we resumed our march at quick time, along the line of our wagon train for the scene of operations. ance, riding on at a brisk pace, loudly cheered niles confusion seemed more confounded and ttle group of officers, among whom Gen. Banks seemed conspicuous, appeared by the padside and the order to halt made us begin to think that there was business ahead. Our division train has lately been equipped with a arge number of "contraband" teamsters, who at this point of our march were quite numerous, mounted on mules, cut loose from their vagons. Such an excited crew of darkies could not be scared up any where else in Virginia Order, after a while, was developed from chaos, by the judicious application of the switch to the

delinquents, who confessed to the head wagoner of the train, that they belonged to the train nd had left their wagons.

Skirmishers deployed to the right and we folowed close after and continued on to Newtown where we were informed that our infirm and sick were taken prisoners by a cavalry force of he enemy, numbering some 100 or more One poor fellow of them was shot by the rebel cavalry on their charge through the town. One battery of artillery at the rear of the train, had ousiness enough to attend to to keep the enemy rom advancing close enough to take our train. In this order we made Winchester late in the evening, and bivouacked on the east side and in front of the town from Strausburg. Here we nade ourselves as comfortable as circumstances would permit, without blankets or tents for the night. Our slumbers were disturbed by the occasional volleys from our pickets. Near dayight most of our men were engaged in making coffee in their cups at small fires in the open ot, each man being his own cook. About sunrise, a pattery which had been planted in the night, commanding our camp, opened upon us by firing a ball among us as we lay on the ground drinking our coffee. Fortunately, however, it skipped along among the entire groups without injuring any one of us. "Fall in "take arms;" and we formed in line of battle with the 28th N. Y. on our left, and 46th Penn on our right, just in time to repel a large force of the enemy who charged on us of the left The firing of the rebel battery in front wing. of our lines at this time, was brisk enough to suit the most fastidious. A North Carolina

regiment made an advance on our regiment o'clock, a. m., on the 30th. heltered by a stone wall, some 8 or 10 rods in front of our line. They fired two volleys and then over they came for us, but their receptio was of such a character that they were glad to fall back to the wall and behind it, when they commenced a running fire. Lieut. Col. Chap man gave the order to fall back to the hollow Regulars or tried veterans could not have executed the movement with more coolness than we did, for with an unbroken line facing the enemy, we coolly and deliberately retired. the same time Co. D, was ordered to halt and were deployed as skirmishers in front of our regiment, where they stood loading and firing

as long as the enemy remained in our front. The battle lasted 31 hours, when the enemy succeeded in forcing our centre, and we of the 1st brigade were obliged to retire, forcing our way through the enemy's lines in good order, pursued by artillery, infantry and cavalry, for some miles. The 46th Pennsylvania succeeded in uniting with the right wing. The 5th and 28th New York pursued their devious way for some miles through woods, fields of wheat, swamps and cow paths, in a circuitous route towards Martinsburg, where we arrived-or rather some two miles in the rear of that place on the Williamsport side of it-when we rested for an hour or so, and then continued our march to the Potomac, at dam No. 4, where we crossed the river during the night, and bivouacked on

-till some time in the afternoon, when our two regiments were taken on board of some canal oats and transported to this place on the Ches-

apeake and Ohio canal.

The loss in killed, wounded, taken prison and missing of the 5th Connecticut, is some-where in the vicinity of 90, which will be much lessened, probably, by the arrival of a good many stragglers who are coming in occasionally, and who figure in the list as missing. Our entire loss, so far as ascertained is, killed, 1; wounded, 12... James Higgins of Rockville, of Co. F, is killed; Capt. Betts, of Co. A, is wounded in the groin; Lieut. Rice, of Co. I, is infantry. The rebels commenced moving their missing; was last seen in Winchester. I will endeavor to furnish you with a complete list of the killed, wounded and missing, at the earliest opportunity. In haste.

Banks's Division.

A dispatch from Harpers Ferry, June 1, says all is quiet there. The rebels have evacuated Martinsburg and Charlestown. The Union cavalry occupied the former on Saturday afternoon, and refugees in large numbers are returning home. Col. Kenly is reported to be at Winchester wounded.

The Rebel Retreat from Corinth. It now appears that the rebels succeeded carrying away from Corinth absolutely everything except a few prisoners. They took every invalid from the hospital, and every letter from the Post Office. They did not leave a single gun, and had been moving away troops more than six days, and stores two weeks.

Gen. Dix left Baltimore on Sunday evening for Fortress Monroe, it is said to relieve Gen Wool, who, report says, comes to Baltimore.

Rev. N. W. T. Root, formerly of this city sick and wounded at Booneville. passed through this city on Thursday last as chaplain to recently raised Rhode Island

Brilliant Cavalry Exploit.

WASHINGTON, June 2, 1862. The following was received at the War Department this morning : Halleck's Headquarters Department Mississippi, Camp near Corinth, June 1st. The following dispatch has been received from Gen. Pope to Gen. Halleck It gives me pleasure to report the brilliant success of the expedition sent out on the 28th inst., under Col. Elliot with the 2d Iowa cavalry. After a forced march by day and night through a very difficult country, and obstructed by the enemy, he finally succeeded in reaching the Mobile and Ohio railroad at Bonnesville, at 2

He destroyed the track in many places both south and north of the town, blew up one culvert, destroyed the switch and track, burned up the depot and locomotives, and a train of 26 cars loaded with supplies of every kind; destroyed 10,000 stand of arms, 3 pieces of artillery, and a great quantity of ammunition, and paroled 2,000 prisoners which he could not keep with his cavalry. The enemy had heard of his movements and had a train of box cars and flat cars running up and down the road to prevent him from reaching it. The whole road was lined with pickets for several days. Col. Elliot's command subsisted upon meat alone such as they could find in the country. For daring and despatch this expedition

been distinguished in the highest degree, and entitles Col. Elliot and his command to high distinction. Its results will be embarrassing to the en-

emy, and contribute greatly to their loss and demoralization. He reports the road full of small parties the retreating enemy, scattering in all

GEN. HALLECK'S HEADQUARTERS, May 31, 1862

Our cavalry found all the tents of the enemy standing, and took hundreds of barrels of beef and 7,000 stands of arms in a large encampment, on the Mobile and Ohio railroad. They are said to belong to Price and Van Dorn's forces who left on Thursday night. The rebels are being brought in in squads of 40 or 50. infantry. The rebels commenced moving their sick last Monday. Beauregard and Bragg were at Corinth on Tuesday, p. m.

The recently published card of army newspaper correspondents gives an erroneous impression that Gen. Halleck had prohibited the New York Associated Press here, from telegraphing any thing, even when not contraband, except such items as he approves. Gen. Halleck has never used such influence over the Associated Press dispatches, and erases only such items as are of a contrabanh character.

CORINTH, June 1, 1862. Residents say that the rebel guard burned the Cypress Creek Railroad bridge by misapprehenion, causing the destruction of seven locomotives and perhaps as many trains laden with commissary and quartermaster stores. This accounts for the smoke seen by the signal corps from the tall tree tops.

Col. Elliot and command returned after destroying the railroad in several places, burning a large amount of stores, capturing three pieces of artillery, 30 wounded prisoners, and about 600 infantry, with little loss. He found 2,000

Memphis papers report that all the newspapers have removed to Grenada, Miss. Gen. Pope congratulates Col. Elliot on the brilliant success of his expedition

Little Rock, Ark., in Possession of the Federals.

A dispatch from Cairo on Saturday, says as Arkansas refugee reports Little Rock, the capital of the state, is occupied by the Union forces. The state legislature is scattered and the Governor has fled the state.

In St. Louis and different parts of Missouri, several arrests of secessionists have been re-cently made. Disloyalty in whatever form it presents itself, is to be suppressed.

The Enemy Driven Back by the Bayonet

HEAVY LOSS ON BOTH SIDES.

Washington, June 1 .- The following dispatch was received at the War Department this FIELD OF BATTLE, June 1-12 M.

We have had a desperate battle, in which the

corps of Gens. Sumner, Heintzleman and Keys have been engaged against greatly superior Yesterday at one o'clock the enemy, taking advantage of a terrible storm which had flooded the valley of the Chickahominy, attacked our

General Casey's Division, which was in the first line, gave way unaccountably and disu-nitedly. This caused a temporary confusion, during which the guns and baggage were lost, but Gens. Heintzlemen and Kearney most gal-lantly brought up their troops, which checked the enemy. At the same time we succeeded, by great exertions, in bringing across Gens Sedgewick and Richardson's Divisions who

drove back the enemy at the point of the bayonet, covering the ground with his dead. This morning the enemy attempted to renew

the conflict, but was everywhere repulsed. We have taken many prisoners, among whom started this week, and a more extensive Union are Gen. Pettigrew and Col. Long. Our loss is heavy, but that of the enemy must

> With the exception of Gen. Casey's Division, the men behaved splendidly. Several fine bayonet charges have been made, of which the Second Excelsior regiment made two to-day.

Washington, June 2, 1862. Despatches of an unofficial character received from the headquarters of the Army of the Potomae say the importance and dimensions of our victory of Sunday increase as they are hourly developed.

An Important Capture.

New York, June 1, 1862 The prize steamer Patras, of London, arrived this morning. She was captured on the 26th, off Charleston Bar, by the steamer Bienville, while attempting to run the blockade.

She is an iron steamer, and has 1,400 kegs of powder, 50 cases of rifles, 800 bags of coffee and a quantity of quinine. The vessel and cargo is valued at \$300,000, She had no papers on board.

The ship John J. Boyd arrived from Liverpool this morning, with 700 Mormons. The Great Eastern sailed from below at 8:30 this morning. Washington, June 1, 1862.

During the whole battle of this morning Prof. Lowe's balloon was overlooking the ter rific scene, from an altitude of 2,000 feet. Telegraphic communication from the balloon to den. McClellan, and in direct connection with he military wires, was successfully maintained, Mr. Park Spring, of Philadelphia, acting as operator: Every movement of the enemy was byjous and instantly reported. This is believed to be the first time in which a balloon reconoisance has been successfully made during a battle, and certainly the first time in which telegraph station has been established in the air to report the movements of the enemy and the progress of a battle! The advantage to Gen. McClellan must have been immense.
