ground is very wet and almost, if not entirely, impassable on both sides of the last two miles of the road. Where the rebels have gone seems not yet to be fully known. They fled by railroad and by the common roads and through the woods and swamps. They released all the federal prisoners taken at Pittsburg and Shiloh, because they could not feed them. It is believed that a portion of their troops have gone to Richmond, and that the greater portion have become scattered.

Now, with the fall of Charleston, Richmond and Savannah, which is near at hand, the rebellion may be considered as fairly at an end, so far as it has any "confederate" importance. The rebels in spots, will doubtless have "the nuts" for a day to come, but their teeth are surely for the drawn, and the continuance of the war on their part will only exhaust what little of means or spunk may yet be left to them.

At the Hospital Grounds. The wounded soldiers at the hospital are getting along very comfortably, under the care of the following physicians, who are in attendance: Drs. Knight, C. Hooker, W. Hooker, Jewett, Daggett, Hubbard, Peck and Linsley.

Board of Education. A correspondent of the Journal and Courier advocates open sessions of the Board of Education. In this suggestion, we most heartily concur. The educational interests of this community is of vast consequence morally and financially, and the people should know from time to time what their agents are doing—what their system of instruction and discipline, and their modes and amounts of expenditure. To this end and for this purpose we, a year or more ago, moved, (as one of the members of the Board), for a committee to report rules and regulations for the government of the Board, (for it appears they never had any rules until the past year.) Among those reported and adopted was one requiring open sessions and permitting the publication of the proceedings. One other rule should have been added, namely, the othering of the time and place of each meeting in the daily papers, by which every citizen would be informed of his opportunities.

Dr. Lucas A. Thomas was elected Superintendent of the Schools, at the last meeting but one, by a vote of five to three, one member being absent. Dr. Thomas has always taken a lively interest in the schools, and has great and deserved influence with the parents, teachers and pupils connected with them. The schools have been well cared for the past year, and it is believed they will be equally so in the year to come.

An incendiary fire took place at Hartford on Saturday night, in the brick barn of Henry Eaton, on Linden place. Three horses and a child in it were drowned. The fire was caused by the carelessness of S. V. Sikes, who first discovered the fire. Loss \$400; insured.

A terrible flood occurred in the Naugatuck river, owing to the violent rainstorm last week. The dam at Burrville, five miles below Wested, broke away, and the water swept off fences and all the bridges, both railroad and highway, for 5 miles. The railroad carried away two dwelling houses, one of them a brick one, which was cut down by an uprooted hemlock tree, and a child in it was drowned. A great pond of lake at Winsted overflowed, and many families removed, including those in the Bearsley and Humphrey hotels. On Sunday 300 men labored all day to strengthen the banks of the pond and prevent a general outbreak.

A Eight With Jackson's Rear Guard. The following dispatch was received at the War Department on Monday, by telegraph from Fremont at Harrisonburg. Mountain Department, Army in the Field—Harrisonburg, June 7.—To the Hon. E. M. Stanton, Secretary of War: The army reached this place at 2 o'clock, yesterday, driving the enemy's rear guard from the town. Severe skirmishing continued from that time till dark. The enemy's rear being closely pressed by our advance. At 4 o'clock the 1st New Jersey cavalry, after driving the enemy through the village, fell into the woods in the south of the town, in which Col. Wyndham of that regiment was captured, and considerable loss sustained. Col. Chesnut, with his brigade, subsequently engaged the enemy in the timber, driving him from his position and taking his camp. At about 8, a battalion of Col. Kane's Pennsylvania regiment, entered the woods under the direction of Brig. Gen. Bayard, and maintained for half an hour a vigorous attack in which both sides suffered severely, driving the enemy. The enemy attempted to shell out troops, but a few shots from one of our batteries soon silenced his guns. After dark the enemy continued his retreat. Full particulars will be forwarded by mail.

An Elephant in a Fix. The monster elephant, Hannah, belonging to Van Amberg & Co.'s Menagerie, cannot lose his life a few days since, while travelling from Keyport to Freehold, in New Jersey. The keeper had taken him off the road, in order to avoid an unsafe bridge, when, in crossing a tract of swamp land, the ground gave way beneath him, and the enormous animal sunk up to the middle of his sides in the yielding mud, where he floundered away for some time without being able to extricate himself; his struggles, on the contrary, resulted in rendering his situation each moment, more dangerous, until it was feared that it was impossible to save him. The heavy shackles with which he was fettered preventing a free movement of his limbs, made his position still more critical until help arrived, when, placing timbers in front of and around him, he was enabled after a short time to extricate himself. At first he was very much frightened, trumpeting loudly, and struggling wildly, but after the timbers were placed within his reach, he went to work more systematically, and exhibited much intelligence in his subsequent operations, depending principally upon his tusks to raise himself. When exhausted by his exertion he would throw himself over on one side, in order to gain all the buoyancy possible until he became rested, when he would resume his upright position and go manfully to work again. His efforts were finally crowned with success, no less to his own satisfaction, than that of his owners, to whom his loss would have been irreparable, as he is much the largest elephant ever seen in this country.
