LIBRARY NOTICE

In response to numerous letters to various publishing companies the library has recently received donations of many valuable and interesting books. Goodheart Wilcox sent us some new auto mechanics text books which look very useful for those wanting to learn more on this subject. Rodale Press has given us a good cross section of their titles including books on natural foods, nutrition, gardening, energy, bicycling, and shelter. Harper and Row has made us a gift of an assortment of non-fiction and fiction books which should also help to supplement our collection. These books should be on the shelves by now so come by and check them out.

★ AQUARIUS: THE WATER BEARER

This Sign symbolizes Judgement and forms the starry original of the Urn of Minos from which flow wrath and condemnation or blessings and reward. The earlier baptismal urns of the primitive Christians and the elaborate stone fonts of the modern churches are relics of this great Astral religion.

The Sign Aquarius signifies the legs of the Grand Man and represents the locomotive functions of the human organism. It is the natural emblem of the changeable, movable, and migratory forces of the body. The Water-Bearer, upon the esoteric planisphere, is occupied by Reuben, "The excellency of dignity and the excellency of power. Unstable as water thou shalt not excel."

A simple but magnificent Astrological description of this Sign, symbolized by two wavy lines, are the ripples of running water. This Sign signifies consecration, and not only contains the rites and mysteries of consecration, but reveals the potency of all sacred and dedicated works. The mystical gem is the Amethyst. Aquarius is the third emanation of the Airy Trigon and the constellation of Uranus.

AQUARIUS: (January 21st to February 18th) A masculine, airy sign. The ruling planet is Uranus. They have a quiet, patient, faithful, and preserving nature. Usually philosophical, refined, and ambitious. They can discriminate and concentrate and are both theoretical and practical. They sometimes have quite advanced ideas and have a strong temper, but it is easily controlled. They love liberty and freedom and will not be driven. They may be interested in occult or psychic matters and in the mystical things of life. Are literal success-finders and often too generous for their own good. Therefore, they may be imposed upon. They can bear responsibilities and have high ideals. They tend to be straightforward, artistic, retiring, sincere, ambitious, and magnetic.

SUN IN AQUARIUS: Broad-minded. Deep sympathies, prudence, liberal, and generous. Always helping relatives or friends. May travel much. Occult or mediumistic tendencies.

MOON IN AQUARIUS: Broad minded, thorough, keen imagination, intuitive, lover of luxury, fond of travel, interested in national affairs, good company. Inclined to day-dreaming; may have healing or mystical powers. Slight tendency to nervous ailments.

The first House shows your personality. You are electric, magnetic, inspirational, impressionistic, studious, affectionate, and intuitive. You have strong powers of concentration and usually attract attention in whatever circle of society you choose to move. You have deep feelings, a great love of beauty, art, music, and Nature. You have a keen appreciation of the Mystical or Occult Sciences.

The second House deals with your financial affairs. It is controlled by Pisces and ruled by Neptune. This shows that you possess great powers of accumulating wealth but are likely to be too generous and sympathetic so that others force themselves upon you and cause you to lose money. All through life you will be assisting someone financially. You are not very fortunate with speculative ventures or get-rich-quick schemes. It is better for you to invest wisely in real estate, land, and large corporations.

Aquarius

Continued.....on next page

Continued.....

The third House deals with travel and the Mind. It is controlled by Aries and ruled by Mars. This gives you an observing Mind and shows you have great faculties for meditation, investigation, and constructive thought. You are sensitive, alert, ambitious, and aspire to the finer things of life. Love of travel is denoted, and all things point to several important trips.

The fourth House deals with your home affairs. It is controlled by Taurus and ruled by Venus. The men of Aquarius are great home lovers and usually exert great effort to maintain a happy home. The ladies of Aquarius are wonderful housekeepers and companions. You are always endeavoring to improve your domestic affairs and take pride in keeping your home cozy and comfortable. The background of a happy, peaceful home seems necessary to enable you to do your best in life.

The fifth House deals with your affections and romantic experiences. It is controlled by Gemini and ruled by Mercury. You appreciate deep affection more than the average person. However, your affections will likely play over a large keyboard before you find someone who will really appreciate your nature. Not until after middle life does the average Aquarian find the ideal romance. Without love, your life does not seem to amount to much; therefore, you will keep on searching until your desires are realized. With loving companionship you will rise to heights of success and prosperity; without it, you have little ambition.

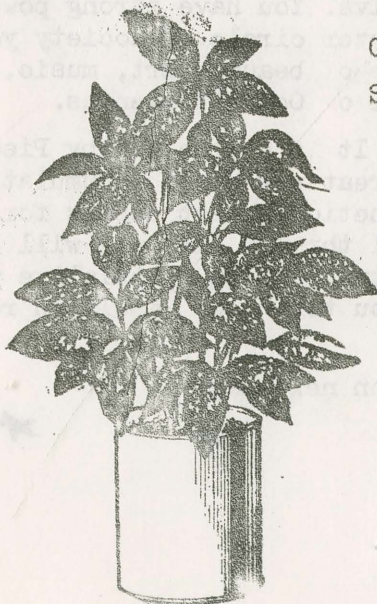

The sixth House deals with your health and work. It is controlled by Cancer and ruled by the Moon. You are likely to suffer from nervousness, despondency, liver, kidney, or stomach disorders, but with proper care of your health these ailments may be prevented or overcome. Work wherein beauty is expressed is best for you. In anything you do you are very proficient and conscientious.

The seventh House deals with marriage. It is controlled by Leo and ruled by the Sun. For the happiest marriage your mate should be someone born in Leo. Most Aquarians marry more than once and have very peculiar experiences. There are exceptions, of course. To them marriage is not usually as romantic as they expected. If you do not make too great demands, your marriage will prove successful.

The eighth House deals with length of life and Spiritual gifts. It is controlled by Virgo and ruled by Mercury. This shows a fairly long and eventually successful life. Your adversities will really be blessings in disguise. You possess mediumistic gifts and could do much with mental telepathy. You will be the recipient of many gifts, and you will enjoy financial independence throughout the latter part of life. Your natural gifts and talents will give you the opportunity to be much before the public.

DISEASE OF ANIMALS

Meat eating is becoming more and more dangerous on account of the steady increase in disease among animals. Some time ago I had a nice flock of registered Jerseys, and one morning we noticed in the paper that in the adjoining county there were thousands of heads of cattle which they were obliged to kill on account of disease, so I decided to sell my drove of stock and keep three of the best milk cows. About six or eight months later, one morning a neighbor said to me, "Did you hear that Anderson had sixteen cows die yesterday and could not do anything for them?" So I decided to sell two of my three cows and just keep "old Lizzie," which was a registered Jersey. Her milk tested six and a half per cent butter fat. She never had anything but the very best of feed and the very best of care possible. A few weeks later she became sick and refused all food. I told my wife not to use the milk for a day or two, hoping there would be a change for the better, but there was none. Old Lizzie walked as if she was afraid to step on her feet and made queer movements with her lower jaw, and all at once she fell over and was dead. We decided then that we could never use any more milk. Some time after this we noticed in the paper that there were four or five states in which the chickens as well as the cows were so diseased that for a long time they were not permitted to ship any eggs or butter or livestock. While we had not eaten any milk for a long time prior to this, we stopped using milk, meat, or eggs, and have not used them since. We found an abundance of good things which take the place of these. A few years prior to this I was up in the northern states near the clear water lakes, and found millions of fish dead on the water. On being examined they were found to have a live worm along the spine which killed them. Not long ago while in San Diego the dead fish were so thick in the water that the steamers had a hard time to run through them.

For many years I have spent much money and time to produce articles of food which most perfectly take the place of meat, milk, eggs, and butter. These articles taste very palatable, are easily digested, furnish perfect nourishment, and are very inexpensive, costing only a fraction of the amount paid for animal products. You will find all of them given in this book: Back to Eden, by Jethro Kloss

WATER

Water is one of the most abundantly supplied elements of nature for remedial uses. The blood and brain of the human body are composed of about four-fifths water. The fluid secretion and excretions are more than nine-tenths their weight in water.

The chemical compositions of water is represented by the chemical formula, H_2O , which means that it is composed of two gases, hydrogen and oxygen, proportionately, two volumes of the former and one of the latter. Both are odorless, colorless, tasteless, and transparent. Oxygen is the greater supporter of combustion in life. Hydrogen is one of the lightest gases known.

Use of water.-Water exists in the form of ice when below 32 degrees F. When at 212 degrees F. or above, it is changed into vapor. Between 32 degrees F. and 212 degrees F. it is a liquid. Water possesses the greatest amount of heat required to elevate temperature to a given number of degrees, of any substance. Water also absorbs more heat by elevation than any other substance. When passing from the ice to the liquid state, it absorbs a great amount of heat from the objects it comes in contact with without any elevation of temperature. Water conducts heat much more readily than air, and communicates its heat to bodies with which it comes in contact, but

Continued.....

it also abstracts heat when at a lower temperature.

Rain water.-Rain water comes the nearest to being pure water of any attainable. But it is unwholesome because it gathers many impurities as it falls. Filtered rain water and distilled water are the purest forms.

Hard water,- When water is hard, it will not produce a lather with soap. The hardness is due to salts of lime, gypsum, and chalk, and others, which makes it unfit for use externally, and especially internally.

Mineral water.-These waters contain solutions of salts of magnesia, iron and others, as well as iodine, arsenic, and sulphur, which give them a medicinal taste and they have been much used for cures of chronic ailments. These waters are absolutely unfit for drinking or cooking purposes. They contain no particular value for cleansing. One would naturally know that water which is unfit to cleanse the outside of the body, could not be of much benefit as an internal application.

With the exception of pure air, there is no other element of nature that is as important in sustaining life as pure water, or has as important a relation to the human system. A person can live longer on water alone than if deprived of it. A large proportion of our food, in variance to the type, contains from fifteen to ninety per cent water.

Water undergoes no change in the body, but is absolutely essential to the performance of the vital functions, as it enables various organs to perform their work so that life is maintained. The circulatory system is one that is especially dependent upon water. Water is the solvent which floats the blood corpuscles, nutritive, and waste elements which the blood is carrying. By the aid of water, nutritions enter the blood and are conveyed to fibers of the intricate human mechanism, where repair and growth are needed.

There is no other element which is so adapted for this exact purpose as water. It circulates through the most delicate capillaries, without friction, and even passes through membranes into parts that are not accessible by openings.

Water is continually passing away from the body from some organ of elimination, either skin, kidneys, or lungs. If the kidney becomes obstructed, we all know there is serious trouble. The dry air entering the lungs all the time absorbs moisture from the pulmonary membranes. Therefore it is necessary to supply the body with plenty of pure water at all times. The average person eliminates about five pints of water in twenty-four hours, and an equal new supply must be made in order to preserve the fluidity of the blood. People whose work is of laborious nature which necessitates profuse perspiration naturally require more water than others.

DEGREES AND RITUALS

In relation to freemasonry, surprising enough there is no grand lodge in this country. There are only separate and independent grand lodges for each state; the District of Columbia and Puerto Rico.

The 116000 Blue or symbolic lodges has an enrollment of approximately 4,200,000 Masons in the United States while the Prince Hall lodges for Black Masons claim to have about 312,000. Some lodge activities are coordinated by the Masonic Service Association, there is another group of people that call themselves the M.S.A. for Muslim Student Association, but it has no power over Grand Lodges. About thirty one of the state grand lodges maintain homes for children and the elderly. The Masonic lodges does not provide insurance benefits for its members, but the Knights of Columbus and the Forresters are two groups that do. An individual lodge may choose to establish sick and death benefits funds, but these funds are very likely to be small. Masonic aid is traditionally given only to Master Masons in good standing such as the Shrine which do offer assistance to non-Masons.

American Masons patronize the higher degrees to a greater percentage than European Masons. There are three basic Masonic degrees: Entered Apprentice, Fellow Craft, and Master Mason. In an appended degree of fun organizations. This means that he only has to keep up payment of his regular dues, but not necessarily attend meetings. Master Masons are allowed to join such fun organizations as the Grotto and Tall Cedars of Lebanon. The National Sojourners is organized for retired and active officers of the armed forces. Deaf Masons may join the Desoms. For those who are interested in Masonic Philaethes. A Master Mason may choose one or both of the two Masonic higher rites: The Scottish or York rites. About one quarter or about 1,000,000 Master Masons have taken the Scottish rites. This rite was organized in the United States in 1801 consisting of thirty two degrees plus the honorary thirty third degree. The Blue or Symbolic Craft Lodge work the first three degrees.

In applying to the Scottish, there is a fee of about one hundred and fifty dollars. Then the applicant usually spends two or three days witnessing the enactment of the degrees in a Scottish rite Cathedral. Because of the time involved, this rite seldom works all twenty nine degrees and therefore, many of the degrees are simply summarized for the candidates. This type of communicated degree consists of a short lecture, then an oath recitation. A candidate may also take his degrees in stages rather than all at one time. Within the Scottish rite, there are four subordinate bodies which confer the degrees. The Lodge of perfection confers the fourth to the fourteenth degrees chapter of Rose Croix confers the seventeenth and eighteenth, and the consistory confers the nineteenth to the thirty second. Distinguished Scottish rite Masons may receive the thirty third degree for honorary and distinguished work in Masonry.

There is less than 8,000 men who hold this in the Northern and Southern jurisdiction which governs Valley rite, claims more than 500,000 members in thirty five Southern and Western states, the District of Columbia, and United States territories and possessions. The North jurisdiction which operates in the fifteen other states, have slightly fewer. There are about 400,000 Masons who belong to the York rite which is closed to Blacks, Jews, and other Masons who are non-Anglo Saxon Christians.

BY Howie Evans

I received a call the other day that blew my mind. The caller, obviously white, jumped down my throat before I could say hello. He called me a racist, referring back to our story on the bowl games and how Black Schools are ignored by the selection committees. Well in case you missed what was said, so there can be no mis-understanding. THE SELECTION COMMITTEES OF THE VARIOUS BOWL GAMES ARE OUT AND OUT RACISTS: DID YOU GET THAT? If telling it like it is brands me a racist, then yeah! I guess thats what I am. Case in point - Tennessee State University is the only predominate Black university in the nation in division 1-A of the NCAA college football alignment. Thats the same division as Ohio State, UCLA, Michigan, USC, Notre Dame, and all those people. Only those people refuse to play Tennessee, a school without any conference affiliation. So is Notre Dame. Of the major independents, Tennessee State is 9-1, having lost only to Grambling, who should be playing in division 1-A. But coach Eddie Robinson says, "What for? Those schools refuse to schedule us. Ofcourse they're afraid of us." Anyway, Tennessee State with their 9-1 record will not go bowling this year. The Rose Bowl, Cotton, Orange and Sugar bowls, wisely tie up their games with conference champs. But what about the Peach Bowl, Independence Bowl, Liberty, Sun, Bluebonnet, and the Hall of Fame Bowl along with the others? What about them? The Holiday Bowl selection committee in San Diego chose Southern Methodist with a 7-3 record. The Tangerine Bowl picked up Maryland 7-3 and Florida 7-2. At the Hall of Fame Bowl, those folks selected Arkansas with a 5-4 record to go against Tulane with a 7-3 record. The Liberty Bowl ignored the best team in Tennessee to go with Purdue 7-3, and Missouri 7-3. Virginia Tech with a 8-3 record has been tabbed by the Peach Bowl committee. Their opponent has not yet been announced. Tennessee State and head coach John Merritt, without a douth, just like South Carolina State and Grambling, deserve bowl bids. How many players from Southern Methodist is in the pros? How many from Arkansas, Virginia Tech? No school in the country, including Notre Dame, has as many players in the NFL on current rosters as Grambling, Tennessee State and Jackson State. They each have (25) players in the NFL. That's (69) players from three little black schools in the pros. They must be doing something right. And with all the money allocated to the big schools with mediocre records in the bowl games, someone has the nerve to call me a racist. The Rose Bowl will give Washington and Michigan each well over one million dollars for playing. And that's the bottom line. The pro scouts know where the players are. But the Bowl committees don't want to know from nothing. The idea of giving a predominant Black school an opportunity to make some big bucks is against everything they stand for. Forget about George Stienbrenner and the Yanks. The biggest story in sports today is the one that is yet to be told. How the selection committees of the various Bowl games and the likes, all combine to keep Black schools out of the big-time sports framework of this nation. You cannot argue with facts. They are there for all to scrutinize. Underneath everything is the continuing drama to phase out Black colleges and universities across the nation. Louisiana State would just love to see Grambling merged with a white school. Then they would have the recruiting rights to the Black prep talent in the state. Right now, Eddie Robinson, his staff, former students and players out-hustle the big pre-dominant school for most of the prime Black football talent in the state.

** OF ALL THE SOULS THAT STAND CREATE **

Of all the souls that stand create I have elected one,
When sense from spirit files away, And subterruge is done;
When that which is and that which was Apart, intrinsic, stand,
And this brief tragedy of flesh Is shifted like a sand;
When figures show their royal front And mists are carved away-
Behold the atom I preferred To all the lists of clay!

*** MY LIFE CLOSED TWICE ***

My life closed twice before its close; It yet remains to see-
If Immortality unveil A third event to me,
So huge, so hopeless to conceive, As these that twice befell.
Parting is all we know of heaven, And all we need of hell.

** NEUTRAL TONES **

We stood by a pond that winter day,
And the sun was white, as though chidden of God,
And a few leaves lay on the starving sod;
They had fallen from an ash, and were gray.

Your eyes on me were as eyes that rove
Over tedious riddies solved years ago;
And some words played between us to and fro -
On which lost the more by our love.

The smile on your mouth was the deadest thing
Alive enough to have strenght to die;
And a grin of bitterness swept thereby
Like an ominous bird a-wing.....

Since then, keen lessons that love deceives,
And wrings with wrong, have shaped to me
Your face, and the God-curst sun, and a tree,
And a pond edged with grayist leaves.

** MINE **

Mine by the right of the white election! Mine by the royal seal!
Mine by the sign in the scarlet prison, Bars cannot conceal!

Mine, here in vision and in veto! Mine, by the grave's repeal
Titled, confirmed, - delirious charter! Mine, while the ages
steal!

Waiting For Jesus's Body!

Jesus isn't dead,
They have corrupted your head!
So that you can sit and waste your time,
Don't you know, Jesus is in your mind?

He isn't here in the form of a man,
So don't think you can shake his hand.
But he is here every-day,
And with true people in every-way!

So now! all of you people,
Who are waiting on Jesus's Body,
Open up your mind,
And put your faith in God Almighty!

God alone will bring you peace,
With Him there is no grief!

Master Money

You need me to be free,
So some may say.
You need me to enjoy yourself
At time of play.

You do all sorts of insane things,
To get some of me.
Then when you get some,
You think you are free.

You must open your eyes,
And try to understand.
That having some of me,
Doesn't make you a man.

Yes, you best believe,
That you are my fool!
Because when you fall in love with me "Money"
You play by all of my rules!

ASÍ ES LA VIDA.

Indignado por la multa que me querían imponer por exceso de velocidad, protesté con energía ante el Juez:

- El agente me escogió sólo a mí entre toda la fila de infractores!
- Es verdad eso, agente?
- preguntó el Juez al patrullero.
- Me temo que sí, señor Juez...
- Por qué lo hizo?
- Pues toqué la sirena, encendí las luces rojas y este señor fue el único que se detuvo.

... de los programas de nuestro seminario de Psicología Cristiana consistía en calificarnos a nosotros mismos, del 1 al 5, según una lista de actitudes y emociones. El 5 denotaría "sin Problema", el 1, "necesito ayuda". Me pidieron que explicara al grupo cómo me había calificado.

- Pues bien - contesté-, aquí me usé inicialmente un 3; luego lo cambié a 2 y por fin a 1.
- En que pregunta? - inquirió el psicólogo.
- En la referente a decisiones.

La noche de la fecha límite para hacer la declaración del impuesto sobre la renta las oficinas de recaudación suelen convertirse en verdaderos manicomios.

A las 11:30 de la noche una contribuyente atribulada preguntó por teléfono: "Hasta que hora puedo llevar mi declaración para que le pongan el matasello de este día?" Le respondieron que tenía hasta las 12 en punto de la noche. "Y donde puedo conseguir las formas para llenar?"

Mi Marido, que es a la vez ganadero, maestro de escuela y funcionario municipal, se va a veces a la cama con la cabeza llena de problemas. Una noche comenzó a hablar dormido con un amigo con quien había estado disputando: "Jorge, vamos a aclarar esto de una vez por todas. Puedo vencerte cuando quiera". Empezó a forcejear y a revolverse en la cama, hasta que al fin humildemente, preguntó: "Bueno, te parece que sean dos caídas de tres?"

Conozco a cierto hombre de negocios que hace poco adquirió por vez primera un automóvil Rolls-Royce. Durante varias semanas no habló de otro tema. Un día, al terminar una partida de golf en el club deportivo, se enteró de que otro de los socios del círculo necesitaba trasladarse al centro de la ciudad y no traía coche.

Encantado de poder lucir su auto, se ofreció a llevarlo. De camino a la ciudad le dijo con actitud condescendiente:

- Supongo que nunca había viajado en un Rolls-Royce.
- A lo que el invitado respondió secamente:
- En el asiento delantero, nunca.

Wouldn't the University of Tennessee love to see Tennessee State done away with. Hey! we are talking about a real thing. Across the nation, at this very moment, folks are gearing up their forces for an all out battle to destroy Black schools. So I'm a racist? In this case, I love it. Tell me one thing. What Black Person in this nation has done anything lately to destroy the predominant white institution? Tell me something else. Why are the Southern political leaders where most of our Black schools are located, not doing one damn thing to ensure the future of the financial windfalls, it becomes more difficult each year to recruit students and athletes to these universities. Attacking the racist practices of the Bowl games is just a small battle in the war. There are other battles to be waged before the system can be defeated. We are going to keep fighting on our front. Hopefully, folks like Tony Brown will keep the heat burning high on other fronts. Calling me a racist for speaking out against injustices is a compliment.

PARDON BOARD

SPRING SESSION

APPLICATIONS: All inmates who are planning an appearance at the next sessions are encouraged to submit their requests to SUPERVISOR OF RECORDS, at their respective institutions. Your request should be submitted immediately, if possible, and inmates are reminded that the last day for submitting requests is February 13, 1981.

After having submitted your request, you will be sent (3) three copies of the Board of Pardon Petitions. You must fill these petitions out completely and return (2) two copies as soon as possible to your Record Office for scheduling of your appearance. Retain (1) one copy for your records.

APPLICATIONS RESULTING IN A STARRED (*) CASE: Under the established rules of the Pardon Board, cases are rarely heard if the petitioner has: 1) Appeared within the year. 2) Served less than one year. This one year cannot include jail time. 3) Appeared or was eligible for parole. A starred case in one of these categories is very rarely heard, therefore, by waiting for a regular session, not only are inmates saved the labor of preparing required letters, but friends, lawyers, prison staff, State's Attorney and Board members are spared the effort which should be given the regular petitioners. It is suggested that before undertaking the task of a starred petition, an inmate should seek the advice of the prison staff which is readily given.

Neither the Department of Correction nor the Pardon Board will assign Attorneys. Each inmate must retain his own council.

JUNTA DE PERDON

LA SESION DE PRIMAVERA

PETICIONES: Todo preso que piense presentarse en las próximas sesiones deben someter sus solicitudes al SUPERVISOR DE ARCHIVOS, en sus respectivas instituciones. Debe someter su solicitud inmediatamente, si es posible, y se les recuerda a los presos que el último día para someter las solicitudes es el de 13 Febrero de 1981.

Después de haber sometido su solicitud, usted recibirá (3) tres copias de la Petición de Junta de Perdon. Tiene que llenar estas peticiones completamente y devolverlas lo más pronto posible a su Oficina de Archivos para fixar la fecha de su audiencia. Retenga una copia como referencia personal.

SOLICITUDES QUE RESULTAN EN UN CASO MARCADO (*): Bajo las reglas establecidas de la Junta de Perdon, rara vez se oyen los casos si el solicitante haya: 1) Aparecido dentro del año. 2) Servido menos de un año. Esto no puede incluir tiempo de carcel. 3) Aparecido o sido elegible para libertad bajo palabra. Un caso marcado en una de estas categorias my rara vez llega a ser oido, y por eso, al esperar la sesion regular, el preso evitará el trabajo innecesario de preparar el papeleo; y las amistades, los abogados, personal de la prision, la oficina del fiscal, y los miembros de la Junta podrán dar mejor atencion a los solicitantes regulares. Por lo mismo, se sugiere que antes de someter una peticion en un caso marcado, el preso debe pedir consejo de algún miembro del personal.

Ni el Departamento de Corrección ni las Junta de Perdon asignará abogados. Cada preso tiene que conseguir su propio abogado.

IS THIS FOR YOU ????

How did your day begin??? Free??? Fair??? or, not so good???
Do you have family problems ???
How are you doing financially ???
Are you an Alcoholic ???
What kind of state of mind are you in at this precise moment ???
Is there someone very close to you that's not doing so well, or
even a friend that may be sick that you find yourself wanting to help ???
But you can do nothing because you are limited ???
Do you have a steady job ??? If so, how are you doing on your job ???
Do you get along with your fellow workers ???
Do you have a great deal on your mind, and find yourself imprisoned
with thought ???
Are you depressed ???

What I'm asking you my friend, is are you truly and honestly
happy with your life ???
I mean with all the everyday problems, or situations that we may encounter ???
Do you find it pretty hard to be happy when everything is just the
opposite of what you expect ???
Well, my friend we know for a fact that the sun doesn't shine every day - huh ???
For we know as a people, that as long as we continue to walk in the flesh -
then we are slaves to the world. Yes slaves my friend.

But, we don't have to be slaves to the world any longer.
For I have found something very precious and important to tell you - -
if you have a listening ear. As a matter of fact - it can change your way of
thinking, as well as give you a new way of life.

Are you at Peace with yourself ???

Are you at Peace with GOD right now ???

Well, no matter what your problem is today - you can be rid of it forever -
starting right now.

There is no cost or payment required. It's all been paid in full.

However, there is one thing asked of us, and that is, that we as a people
believe in him, Christ Jesus, and the reward for our belief is life -----
everlasting life, with our lord and savior, "Jesus", There's just something
about that name.

Our Heavenly Father gives us this promise as his children in the
Gospel of St. John 3:16.

My friend, when you get home, can you re-read this article, and maybe
pick up your Bible and see what GOD, our most Precious and Heavenly Father says.

It is not GOD's will that we should suffer, but to be set free from bondage.
I ask you now --- don't you want to be set free and have salvation through
Jesus Christ Our Lord ??? Jesus paid the price in full with his very own life =
in order that we could have life.

You see, I too was once heavy laden... And I surrendered it all to Jesus.
And now I'm Free - - and you too can be, right now. Ask Jesus to come into
your heart.

THANK YOU LORD JESUS FOR THIS FREE, WONDERFUL, NEW LIFE.

ISLAM THE RELIGION

#15

THE CATTLE or (AN'AM)

11. Say: "Travel through the earth and see what was the end of those who rejected Truth"
12. Say: "To whom belongeth All that is in the heavens And on earth?"
Say: "To God. He has inscribed For Himself (the rule of) Mercy. That He will gather you Together for the Day of Judgement, There is no doubt whatever. It is they who have lost Their own souls, that will Not believe."
13. To him belongeth all That dwelleth (or lurketh) In the Night and the Day. For He is the One Who heareth and knoweth All things."
14. Say: Shall I take for my protector Any other than God, The Maker of the heavens And the earth? And He it is that Feedeth but is not fed."
Say: "Nay! but I am Commanded to be the first Of those who bow To God (in Islam), And be not thou Of the company of those Who join ~~gods~~ gods with God."
15. Say: "I would, if I Disobeyed my Lord, Indeed have fear of the Penalty of a Mighty Day."
16. "On that day, if the Penalty Is averted from any, It is due to God's Mercy; And that would be (Salvation) The obvious fulfillment of all desire."
17. "If God touch thee With affliction, none Can remove it but He, if He touch thee with happiness, He hath power over all things."
18. "He is the Irresistible, (watching) From above over His worshipers; And He is the Wise, Acquainted with all things."
19. Say: "What thing is most Weighty in evidence?" Say: "God is witness Between me and you; This Qur'an hath been Revealed to me by inspiration, That I may warn you And all whom it reaches. Can ye possibly bear witness That besides God there is another God?" Say: "Nay! I cannot bear witness!" Say: "But in truth He is the One God, And I truly am innocent of (your blasphemy of) joining others with Him."
20. Those to whom We have given the Book know this as they know their own sons. Those who have lost their own souls Refuse therefore to believe.

THE GREAT SANTINI

(118).....PG.....Oct. '79

Drama. The story of a father-son conflict between a tough, rowdy Marine air ace and a strong-willed teenage son who has no tolerance for his father's brand of gung-ho action. Robert Duvall, Blythe Danner, Michael O'Keefe. Producer: Charles A. Pratt. Director: Lewis John Carlino.

Return of the Street Fighter

New Line Cinema 75 Minutes Rel. July '75

Back for another crack at the kung fu title vacated by the death of Bruce Lee is Shin'ichi (Sonny) Chiba, whose skill is as impressive as his huge build. The Japanese karate and judo expert is seen in a continuation of his Street Fighter character, Terry Tsugury, first seen in New Line's "The Street Fighter," released last November. The new film, produced by the Toei Company and directed by Shigehiro Ozawa, has a screenplay by Koji Takada and Steve Autrey which tones down the violence of the X-rated original. Although only 75 minutes, "Return" has been padded out with footage from "The Street Fighter" (in blue tints) and features several semidocumentary scenes in which the various types of weapons and exercises are identified via titles. Dubbed in English with dialog that verges on the infantile, the film moves at a rapid pace as Chiba performs some unbelievable stunts while cleaning up the gang that had hired him. Pretty Yoko Ichiji is seen as Chiba's jive-talking girl friend, a character about 30 years behind the times. In Actionscope and Eastman Color, "Return" should have returns of a very high order. With at least two more sequels already completed, the Street Fighter cult looks solvent for several more years.

Sonny Chiba, Yoko Ichiji, Masafumi Suzuki, Donald Nakajima, Milton Ishibashi, Zulu Yachi.
