In the Riot of Last Monday it is Believed That at Least Ten Persons Were Killed-Hand to Hand Fight Took Plac:-Streets Patrolled by Troops.

London, Oct. 2 .- The Post will to-mor row publish a dispatch from Constant inople saying it is believed ten persons were killed and forty wounded in the streets during the rioting on Monday. Five hundred persons have been arrest ed on the charge of participating in the riot. Among the prisoners are a number of Armenians. These, when arrest ed, were beaten and then bound. One Armenian was struck with a bludgeon and afterwards shot and killed. gendarmes were about to selze an Armenian near the sultan's palace, where the trouble originated, when shots were fired from a crowd of students and both officers killed. Several other gendarmes were wounded. It is stated that eight Armenians were killed within the ministry of police, which was attacked by the rioters. A crowd of armed Softas assembled later and threatened to massacre the Armenians. The police, however, dispersed them. A dinner which had been arranged at the palace in honor of Prince Albert of Schleswighas has been cancelled.

A French dispatch boat, the Petrel, which was about to sail for Toulon, has been ordered to remain.

The demonstration of the Armenian had long been pre-arranged. Copies of the petition against the governmen to present which to the grand vizier was the object of the visit of the Armenians to the gate of the palace, were sent to some of the embassies with an intimation that the petition would be forwarded to the grand vizier. The police hearing of this, orders were given to prevent the petition from being pre

PRINCE SENT AWAY.

It Was Due to a Quarrel With His Brother the Emperor.

London, Oct. 2.-Recently a rumo that Admiral Prince Henry of Prussia brother of Emperor William, had been sent away on leave of absence for year because of a serious quarrel with the emperor was discredited in Berlin court circles, and it was asserted that it had long been arranged that Prince Henry should go on a protracted tour after the naval manoeuvres at Kiel. Today the Daily News and Truth, of this city, reiterate the rumor. The Daily News publishes a dispatch from its cor respondent in Rome giving an interview with an unnamed diplomat who ascribes the quarrel to a difference of opinion as to the organization of the

Turth says the trouble rose over some question in connection with the Kaise Wilhelm I canal and that the dispute resulted in Prince Henry being virtually banished for a year, despite the efforts of Empress Frederick, mother of the emperor and Prince Henry, to effect a reconciliation between her sons. Princ Henry and his wife are now at Balmor al, the guests of the queen, Prince Henry's grandmother. They will probably remain there for a month.

An Imposing Service at the Congress of the tatholic Church-

Washington, Oct. 2.-The first eucharistic congress of the Catholic church in America began this morning with the celebration of a solemn pontifical high mass at St. Patrick's. The edifice was crowded to the doors. The services brought together nearly every member of the episcopacy and also dedicated the new St. Patrick's cathedral, which after a thorough renovation was opened to-day, and presented the most beau tiful church interior in Washington.

The pontifical celebrant was Mgr. Saolli, the apostolic delegate, assisted by Very Rev. F. Murray, pro-fessor of Mount St. Mary's seminary, incinnati. The deacons to the thron were Very Rev. William O'Kenney, V. ., Jacksonville, Fla., and Very Rev. S. Fox, V. G., Green Bay, Wis.; deacon of the mass, Rev. J. McMahon, rector of St. Thomas' church, New York city, with Rev. Professor Cestelli of St. Paul's seminary, St. Paul, as sub-deacon. The masters of ceremonies were Rev. J. F. Gle of St. Patrick's church, Washington, and Rev. G. Dougherty of St. Augus-

Gathered about the beautifully illumnated altar were the dignitaries of the Catholic church in America, dressed in their purple robes and barettas. These under softly shaded lights and the soft r glow of the wax candles, presented picturesque surroundings for the yellow hasubles of the celebrant and assisants, while the front part of the nave was occupied by the priestly members of the eucharistic league, clad in black assocke and white surplices. Among those who sat within the altar railing were Archbishops Williams of Boston, Elder of Cincinnati, Ryan of Philadetphia, Corrigan of New York, Janssens of New Orleans and Kain of St. Louis. Bishops Maes of Covington, Ky., Horst man of Cleveland, Keane, rector of the Catholic university; Foley of Detroit, Sullivan of Mobile, Van Devivere Richmond, Donohue of Wheeling, Burke of Albany, Michaud of Burlington, Vt., McGovern of Harrisburg, Pa., and Nitin

of Marquette, Mich. The orchestral and vocal renditions made the occasion one to be rememberd. Under the leadership of Signor Mariano Gaina a classical program was presented, beginning with a selection rom Rossini's grand mass. Solos by William D. McFarland and Miss Marv Helen Howe, two accomplished violinsts, a harp obligato by Miss Anita Cliss, a violin obligate by Professor Anon Kaspar and a fugue by Professor John Porter Lawrence, the organist,

were the features of the mass. The electrical display was very fine, and was made effective by detailed and general features, the most beautiful of which was the invisible illumination of

Several were adopted, but these do not change the measure to any material extent except to make it still more effective As a result of these amendments the bill will be returned to the senate to norrow, but its adoption in amended form will be delayed no longer than necessary to call the roll. It will then be sent to the governor and when his signature shall have been attached t will become a law.

The bill makes prize fighting a felony and imposes a punishment upon th principals for every infraction of the law by imprisonment in the peniten tiary for a term of not less than two and not more than five years.

John T. Manson of the board of education was master of ceremonies.

Dr. Conwell arrived a few minutes late, but the time from the arrival of the distinguished guest to the close of he meeting was enthusiastically improved. About two hundred of the prominent ministers and laity of the different Protestant churches in the city shook hands with the Philadelphia divine. The particular object of the reception was that Dr. Conwell should tell what he could in the short time he was allotted of the object of the coming convention of Christian Workers, which will be in session in this city next

MERIDEN FAIR.

A Large and Cred table Exhibition for a Local Affair. Meriden, Oct. 2 .- The Meriden Society fair, which supplants the state fair this year, opened this morning with a good attendance. The exhibits are large for a local affair. The Grange building is occupied by the Storrs Agricultural school exhibit, which is not as large here as in Willimantic. About 150 varieties are shown of fruits and vegetables, chiefly the latter. The Meriden grange has the only straight grange exhibit. The Mad River grange cart ared by the people for hours. The poultry exhibit is also in the grange tent, and the upper floor contains the usual display of fruits and vegetables. The cattle show is one of considerable excelence, and the large tent is well filled with a fine display of carriages and agricultural, implements.

THE YALE-BROWN GAME. Yale Won by a Score of 4 to 0-Captain Thorne Made the Touchdown-An Un-

usually Large Attendance. Much forerest was centered in the Yale-Brown fotball game yesterday, as it was thought that Brown would score. Yale's new men, however, did themselves credit, and prevented this calamity. The game lasted through two twenty-minute halves. Cross at Yale's center, was rather weak, making holes quite easily. Browns guard was good, and the back tried the old well known "criss-cross" dodge, but could not get around Yale's end. In the first half Captain Thorne of Yale made the only score in the game by getting a touchdown in getting around Brown's end. The goal was not kicked. Chadwick, as Yale's guard, did good heavy work, and Brown only broke through once. Rodgers at guard in the second half also did well. Louis Hinkey played left end. Hitchcock made a fine play by breaking through Brown's line and stopping the back before he started. Murphy '97, the hope of the Yale fearn this year, did not play but looked on from the side "Tot" Murphy, Yale's well known spider shortstop in former years and who played with the Giants, was present at the game. An unusually large crowd was in attendance for a minor game, about 600 being present.

CLETY'S MEETING LAST EVENING

Largely Attended-Several Interesting Addresses-Rev. Mr. Dickerman Exhibited a Vial of Ashes From a Crematory-Talk of Establishing a Crematory in New Haven-The Matter Looked at From a Sanitary Point of View.

The annual meeting of the New Haven Cremation society was held last evening in rooms of the "Courier" building and was largely attended. The president, J. P. Dejon, not being present, Frank A. Hermance presided and called the meeting to order. Mr. Hermance then made a short address, saying that the society was formed one year ago with only thirteen members. Last night it was just a year old and had sixty good, and again the crowd thought the members, more than were at first antic-Clevelands were defeated. In the last ipated, and now it hopes to secure forty half of the ninth Tebeau's men greeted more members during the coming year. On the memo rial window of the columbarium will b placed the names of the first one hundred members of the society and on a memorial window opposite will be placed the names of the first one hundred associate members. Mr. Hermance then introduced Rev

Mr. Dickerman, pastor of the Church of the Messiah!

Mr. Dickerman said it was a novel gathering to him and the first time in which he had been called upon to ad dress a cremation society. From the first time he heard of the matter of cre mation he has been committed to it He has not been able to divest himself to some sentiment, but he has become convinced that cremation is the only scientific manner of disposing of dead odies. There is so much prejudice that the reform works slowly, and sentiment cannot always be displaced by the soundest arguments, especially those sentiments formed when young. This reform of cremation has much sentiment against it. The problem is, however, more than one of sentiment-it is rived, and its novel features were stud- an economic problem. The matter has en settled that the cremation of bodies after death is a sanitary one. subject is receiving serious attent n and most medical men heartily end irs incineration. While sentiment holds great place in the world, yet facts stare us in the face and we are obliged to meet them and set aside sentiment. I is an incontrovertible fact that a new means of disposing of human remains is required. It is a question of duty. lecomposition of bodies bads the air water and earth with the deadliest of poisonous gases. The last outbreak o cholera in London, in 1851, bas been di rectly praced to the on-ning of the tombs of people stri ken by the plague in 1665. In Modena, Italy, the plague broke out 300 years after bodies of persons having died of it were interred, wing to the earth above these grave being opened. It has been found that bacilli of various diseas a lurk in the earth, and the assertion that earth is a disinfecting element is not always true. He then told of other instances to illus trate this, and said that the Schuylkill river near Philadelphia is much effected by many near-by cemeteries and much fever is caused thereby. It has been said that "when you drink water from he Schuylkill you sample your grandfather." He then described a visit to the crematory in Newton near Brook lyn. In Newtown there is one grave to very ten square feet of ground, and eighty dead to one living. The death rate there is said to be greater than that of any other place in New York state. So dangerous has it become that the boards of health of Brooklyn and New York city have called attention to the matter.

The process of decomposition is sort of combustion, and cremation makes the combustion more rapid. entering a crematory one is not effected by the same feelings as they are on entering a cemetery. In the co-umbarium the funeral urns are placed in piche in the walls. He then described a cremation and showed a vial containing the ashes of a German professor, who believed in cremation, and who was one of the first to order his body disposed of in this way. The ashes are of a light grey and are exactly similar to bone ash. Mr. Hermance read two letters regretting the inability of the writers to be present at the meeting One was from Judge William K. Townsend and the other from Rabbi David Levy.

Dr. John A. Hutchinson was then introduced and said that when he had first heard of other than the method of disposing of bodies which he had corsidered the proper way, by burial, it passed before him like a nightmare After sober thought, however, he became convinced that incideration was the only proper means of disposal of bodies. There has been much discus ion, he said, as to whether the term cremation or incineration should be applied to the process, but inciners ion seems the proper term, as cremation means reducing the bole to asher by fire, and the term is so correly con sected with the idea of fire that many shrink from it, while by incineration the body is not at all exposed to the fire. If people are to be convi seed they must be talk d to in mild terms. Gases from incinerated bodies take their places in the air, where they are mean to be. Incineration is said by some to be a fad, but it was practiced by people in Europe centuries ago and would probably have continued but was stopped by the priests. It is also said that incineration interferes with result rection, but nothing is found in the question, but a question of custom, The Chinese and Slamese are no h Buddhists, yet the Chinese bury their scene of the wreck.

dead in the ground, while the Coreans CITY BUSINESS IS ACTIVE cinerate theirs, thus croving that the matter of religion does not inter inte the question. The only proper way to swead the idea is to educate the pele so they can judge for themselves

and then teach them. Dr. E. H. Arnold was introduced and spoke to some extent on the sobject and ended up by telling how much cheaper incineration is than bursal. He said that it is better to spend one dollar on the living than on cent on the dead.

The election of new officers for the ociety was postponed until the council meeting at 71 Orange street November 5. After the speaking was concluded Ralph Russo and E. Fancher delighted the audience with several selections on the harp and mandolin. Drs. Gill and Arnold were received as members of the society. A circular was given out to those present, giving a list of prominent intelligent people who are vor of incineration, among them being Rev. Edward Everett Hale, Ella Wheeler Wilcox and General Horatio C. King. SEVERAL MORE MUNICIPAL MEET-INGS HELD LAST EVENING.

Board of Public Works Transacted Considerable Business-Band Stand on the Green-New Sewers to be Constructed-Two New Engine Houses Recommended.

In the absence of Mayor Hendrick Commissioner Johnson presided at the meeting of the board of public works. All the commissioners were present, and considerable routine business was disposed of. A complaint was read to the effect that the railroad bridge on Columhus avenue and Arch street was in such a condition that it held water in wet weather, and prevented pedestrians from walking over it. The matter was

referred to the city engineer with power. N. W. Kendall, president of the Quinnipiac Brewing company was present and asked that a small piece of land at the intersection of East Pearl and East Chapel street, adjoining property recently purchased by the brewing company, be cut off as ordered by the court of common council last year, as the company intended erecting buildings on their property next year. The matter was referred to the city engineer with instructions to make a layout. Mr. Kendall also asked that some crushed stone be placed on South Front street, and this was referred to the superintendent of streets with power to act.

Solomon and F. S. Meade, the sidewalks in front of whose property on Derby avenue has been lowered to conform to the grade of the street, were epresented by Attorney Charles S. Hamilton, who claimed that about fifteen years ago City Engineer Fowler had established a street and sidewalk grade on Derby avenue and in front of the Meade property the sidewalk remained about two feet above the curb Recently the court of common council ordered Mr. Meade to lay his sidewalk on a level with the grade of the street. Attorney Hamilton also argued that by recent decisions the court of common ouncil cannot compel anyone to lower the grade of his sidewalk at his own expense, and that if he does so he can ollect damages from the city. He also laimed that if the sidewalk was lowered geveral valuable trees would be destroyed and more damages incurred thereby. He also asked that the members of the board visit the place and inspect it for themselves. On motion of Commissioner McGann the matter was tabled for executive session, but when the members later met in executive session no action was taken on the matter. A number of complaints concerning dead trees were read and referred to the committee on parks, trees and telefirst district. James H. A permanent band stand in the central green is one of the probabilities of the near future. The committee on band concerts of the court of common council held a brief executive session in the mayor's office last evening and desided to recommend the erection of a permanent band stand around the flag staff in the green. The band stand is to be an iron covered structure twenty feet in diameter, with sounding board and all modern accoutrements, and is to be erected at a cost not to exceed \$1.700. It is also recommended that the work shall be done under the supervision of the city auditor.

NEW ENGINE HOUSES RECOM-

MENDED. The residents and taxpayers of the Fourth and Twelfth wards were largely represented at the meeting of the committee on fire department and repreentatives of both wards were on the same mission. Both want fire engine houses located in their respective wards. The Fourth ward representatives want theirs located in the vicinity of Howard avenue and Kimberly avenue, and the residents of the Twelfth ward want one located on the corner of

Lombard and Poplar streets. The residents of both wards claim that the erection of engine houses is a pubic necessity, and that the surrounding property is very inadequately protected in the event of fire. The nearest engine house to the Twelfth ward is No. 5's house at East Pearl and Pierpont streets, and the nearest engine house to the Fourth ward property owners is No. l's, located on Howard avenue, near Congress avenue. In both wards considerable valuable property is practically unprotected in case of fire.

In executive session the committee decided to recommend the location of engine houses in both sections of the city. also the locating of a fire hydrant on Washington street, between Howard and Columbus avenues, and of a fire alarm call box at the corner of Grant street and Kimberly avenue

Captain R. M. Bradford, Lieutenant Commander Eaton Schroeder and Lieutenant Mulligan, the trial board, went Scientists in West Haven and it seemed on board the big liner early this morn- too bad that innocent children must ing. They will have charge of the submit to this kind of treatment be-

The United States despatch boat Dolphin and the coast survey boat Bache were used yesterday by the trial board to stake off a course between Cape Porpoise and Cape Ann. The St. Paul was unofficially tried

for speed for an hour yesterday afternoon and ran twenty-one knots with ease. The engines attained a maximum of ninety-four revolutions with a minimum of ninety. She developed 20,-000 horse power, which is 1,000 less than is required by the contract.

It is expected that to-day's trial, with all conditions favorable, will develop better results, both in speed and horse power, than were attained yesterday. The St. Paul, in her run of 400 miles from the Delaware breakwater to this port, showed good weather qualities. The run to Cape Ann was made in the face of a strong northwest wind, and the vibrations of the engines were scarcely noticed during the entire trip. Observatory, Rockport, Mass., Oct. 2.—Another of the famous trials of the products of American ship yards over the American marine Derby, the trial course off Cape Ann, was scheduled

which gradually disappeared.

At 10 o'clock the St. Paul was in sight, heading toward Thachers at a full head of steam. She moved through the water very cleanly, seeming to cut through the waves like a knife.

Great clouds of smoke were seen coming from the funnels of the St. Paul

as she steamed toward the starting line, about a mile beyond Thacher's The course was exceptionally clear of

From the observation stand a few moments later it was apparent that something was the matter, as the St. Paul moved slowly through the sea. It was evident that things aboard ship were not to the liking of her hand-

lers, or that something was the matter with her machinery.
The St. Paul crossed the starting line at 12:19:24, and a few seconds later appeared to be ploughing through the water at the rate of twenty miles an hour. She got a tremendous move on, and in a short time was hull down

Dr. Barnett said yesterday morning that there were quite a number of the cause their parents believed in it. onsidered it very rough on the babies.

"If we can find out that these Chris-tian Scientists receive money for their visits," he said, "they can be arrested under the medical practice act for prac-ticing without being registered by the state board of health. Of course the board would never register any of them and so in that way they can be prevented from practicing, but it is difficult to find out if they do receive money Whether they do treat for money or be cause it is merely a part of their religous belief, I cannot say.

"Of course they cannot sign a death certificate, and accordingly whenever a case turns out unfavorably and it is vident that the child cannot live they call a cegular physician, who arrives in time to issue the certificate, and that is about all. Or if no doctor arrives then they must turn the case over to the medical examiner before the child can be buried."

Death of homas F. Martin.

Thomas F. Martin, aged twenty-seven years, son of Thomas F. Martin of 31 Wallace street, died Tuesday afternoon the Hamburg-American liner Fuerst after a short illness. Mr. Martin was one of the best known young men down town. His funeral will be held from his father's residence to and later from St. Patrick's church where a high mass will be celebrated.

A wedding celebrated was that of Miss Lollie Reynolds of 107 Oak street and Mr. James E. Clyne of 54 Munroe street. The wedding ceremony took place at St. John's church, Rev. Father oyle celebrating a nuptial mass.

The bridesmaid was Miss Stasia Reynolds, a sister of the bride, and the best man was Mr. John J. Clyne, a brother of the groom. After the cere-mony a wedding breakfast was served at the residence of the bride, at which

many friends were present.

Mr. and Mrs. Clyne will visit Niagara Falls during their wedding tour, after which they will reside on Fillmor street. Mrs. Clyne is a daughter of the late Readmaster John Reynolds, The groom is employed by John Clancy, the

I also felt so low spirited that I often said I wished I was dead. A friend suggested that I try Hood's Sarsaparilla. I gave it a trial and was more than surprised to see what a great change came over me after I had taken the first bottle.

I felt better right away. I have now taken Hood's Sarsaparilla At the office of the state highway nearly five bottles and am happy to say I am entirely cured. The millinery display is larger if anything this fall. Green effects seem to predominate. All the hats are stylish and wearable felt hats, velvets and ribbons are also there in plenty. In cloak and dress goods the display

is fully as ambitious. The attendance will show you new capes of cloth or plush that have a sweep of from 100 to 185 inches. Boucle effects predominate. AT F. M. BROWN & CO.'S.

At F. M. Brown & Co.'s they show a brilliant line of hats, bonnets and dress goods. The millinery department was the center for all the ladies. One of the styles which they show exclusively is a velvet hat built on the lines Tam O'Shanters with bunches of stiff girdles trimming them on the sides. A fetching little theater bonnet is a pink velvet, broad in effect and also hat of fur of the toque effect, with muff of velvet and sable tails form a set for carriage or the theater that could not be excelled. They are also showing a choice lot of exclusive English walking hats suitable for the tailor made suits, just the thing to wear. In cloaks there are stunning styles and a great variety of jackets. Buttons for these garments were never before so varied and pretty and prices range all the way from 25 cents to \$2.75 per doz-The rich and beautiful window display of this firm is a noticeable feature of their fall opening.

AT HOWE & STETSON'S.

Prominent in the garments at Howe & Stetson's were boucle and mohali combinations which undoubtedly is the favorite weave of the season. These are to be seen in every color, inter woven with black mohair in curls splashes and dashes, in stripes, serpentine effects, plaids, etc. In plaids a new weave has a crepon effect in the ground. She had een sick with typhoid fever for about hree weeks, and it was hoped that she would recover until a day or two, whe she became much worse and her mother, matron at the Masonic home, was

ent for. Miss Lester was a past matron of Myrtle chapter, O. E. S., and a mem ber of the grand chapter of Connecticut. Her connection with the office of the secretary of the Masonic Mutual Aid society made her acquainted with a great many of the fraternity. Her place will be hard to fill, as she was so thoroughly conversant with Masonry and the order in this state. Miss Lester ad been connected with the office for about seven years, and she was always kind, accommodating and courteous.

Her father was the late George W. Lester, who was superintendent of the olling mill and a prominent Knight

The Chicago Tribune says of the epidemic of typhoid fever in that city that nearly 100 patients are now in the city hospital, and that the number of persons smitten with the disease is swelled to not far from 1,000 by those under treatment at their homes. The death rate is increasing. Furthermore, it is claimed that the cause of this is traceable to the dumpings of dredgings from the river into the lake near the cribs, which contaminates the drinking water of the people; that the attention of the Commissioner of Health was called to this fact weeks ago, and that he did not at once take measures to prevent a continuance of the wild prac-

The eminent French specialist, Professor Joly, declares that crime is ranidly on the increase in France and quotes figures to prove it. latest census and the preceding one the number of children decreased by 206,000. The increase of offences committed by youths of sixteen to twenty one is much greater. With regard to habitual offenders, the statistics of 1892 show that in that year they exceeded 100,000, the highest number on record. As to the offences which escape punishment altogether, M. Joly points out that they are constantly on the increase. In 1891 there were 83,000 offences which escaped punishment, and in 1892 \$9,000. With regard to the nature of the unpunished offences, M. Joly says that first of all come robberies, 90 per cent, of which were unpunished in 1890. Then follow criminal attempts against trains and railroads, thefts, the forging and uttering of false coin, arson (of which crime only 40 per cent. are brought to trail), cutting and wounding infanticide, etc., which shows, says M. Joly, that the state is eriously wanting in its duty in the detection of crimes against the public safety as well as against private interests.

KNOCKED OUT.

Three cheers for Governor Culberson of Texas! And also three cheers for the legislature of Texas! The anti-prizefighting bill, including the emergency clause was passed vesterday by the legislature called in special session for the big fighters are knocked out, as far as Texas is concerned. If Corbett and Fitzsimmons really mean to fight it looks as if they would have to go to Mexico, where bulls fight. This country has been made too hot for them, and every right-minded citizen will be glad of it.

The situation which has thus been

cleared up in Texas was an interesting

one and showed what can be done by legislators. Some years ago Texas permitted prize-fighting upon payment of a law was passed prohibiting such fights, and imposing heavy penalties for a violation of the statute. Then a revision of both the civil and the penal ture, this work being completed last One of the interesting characters of April. When the projected fight at was made that the new civil code contained the old provision legalizing prize new criminal code included the section prohibiting and punishing them over the other, and this in turn the question as to which became a law the earlier, the issue being complicated by the fact that neither code received the governor's approval, and that the one which got through the legislature first happened to be presented to the execu tive last. So inextricable was the tangle that there seemed no way out or it except by calling an extra session of the legislators whose carelessness resulted in leaving on the statute book two laws, one of which legalized what

> the other pronounced a crime. But it is all right now. Governor Culberson and the legislature have acted nobly for themselves and their

Pashion Payo a the Brunette. The millinery code at present is domnated by uncertainty, it would seem o judge by the lack of positiveness in the rules that are laid down. A great many large hats are seen, trimmed with enormous plumes and with a few flowers just thrown on anywhere they hold. As to the arrangement of the trimming, it is apparently left to the fancy of the wearer. Then another favored type of headgear is of the sort shown in the accompanying picture where a round hat appears that is made of dark green braided chenille and felt with a low crown and rather wide brim bent at the sides. Its trim-

consists of two large loops green satin ribbon arranged on either

side and ruffled cock's feathers. Veils follow the craze for white in all dress accessories and from the enormous variety still offered in white veils t would seem that till the snow flies these extremely becoming tissues will remain in vogue, During the winter the brunette ought to be at her best, for all her colors and all varieties of them will be the favorite shades. As for yellow, it will range from ivory white to really brilliant and unmistakable orange in one direction, and bright butter in the other, with, of course, the preference awarded by people of taste for dull bronzes, deep lyories and kindred creamy, deep-tinted brunette will revel in the characteristic ombination that is suggested by the opluarity of purplish red, damson coland brown fur.

The all becoming stock collar is to b nodified, but those who cannot wear the low collar may finish the top of the dress with a band like the stock, only drawn into a point right under the chin. It may still fit high and close at the sides, and thus spare the neck under the ears. Belts are not to be surrendered, but will be worn long and drooping to a jeweled buckle in front. Don't despair! You can put two of the belts you have now together and make very nice new one. A lot of the new and costly ones seem to be planned this way, with gold web part way round, silver web for the rest. It suggests that the dealers are getting rid of their overstock of short belts.

AN OFFENDED OSTRICH.

An Innocent Kitten Wistook His Legs for Sapling and Climbed Up. [From the Philadelphia Press.]

The ostrich at the zoological garden fore. stood in the long yard adjoining its cage in the deer house yesterday. It gazed contemplatively through the bars of the fence at the world beyond and shivered every once in while as the cool breezes swept down upon it. It was thinking of the differences in climates and wondering whether if it buried on of its eggs as t used to do in the long grass during such weather the cool wave would hatch out an ice cream

While it was revolving the question in its mind a playful kitten came through the fence into the yard. It was a pretty kitten-pure white, except for a few blotches that looked as if somebody had thrown an ink bottle at it, after carefully removing the cork. The kitten went running along the yard until came to the ostrich. Thinking its long thick legs were saplings, the playful kitten gave a run, and quickly climber up them, and was soon on top of the ostrich's back

The kitten never moved It had taken a firm hold of the os trich and did not propose to be shaken. "I stood the earthquake this morn-ing," said the kitten, "I guess I can

stand this." Finding that the strange beast re fused to be thus summarily dispose of the ostrich became less scared and nore angry. It curled its neck and twisted its head so as to get a fair look at the kitten. The kitten never winced. It began to think it had barke up the wrong tree, but it was deter mined to see the matter out. The os trich aimed a blow at the undesirabl rider with its beak, but it dodged. I tried it again, but the result was the same. Again and again the agile head and long neck rained sledge-hammer blows at the tricky little kitten. It escaped them all, though some were to

near for comfort. Finally the kitten got scared. It ran out on the ostrich's neck to get out of the way. Then it smiled. The ostrich Wildman in September Overland. couldn't hit it there. It's smiles did no last long, however. With a sudder provement the ostrich stretched its necl backward, encircled the kitten round the waist, and squeezed it until it was Then it unwound itself and placidly looked at the dead animal. After a moment or two of contemplation it picked up its victim and flung it as far as it could. Then it calmly resumed the meditations that had been o ruthlessly interrupted.

READY-MADE CLOTHING TRADE. lood Cloth, Well Made Up, Characterizes the Industry.

[From the New York Sun.] It does not follow that the cheap, ready-made clothing that has astonish ed this town for the last two or three years is necessardily poor stuff. The best of it is, in fact, very good, and the manufacturers of established repute have sold it, cheap as it seems, at a very handsome profit. One concern last year is reported to have cleared well in to \$400,000. Much of the material is so cheap, when bought in the quantities that the large clothiers take, 'Jones has a good deal of money, as to make the cost of the material in hasn't he?" One afternoon, astride diminutive burros, we left the hotel and dove down into the cool shadows of the canon. We were bound for a glant fig tree far up the mountainside. As far as we could see were vast vistas of mountains and valleys. The denuded aides of Eagle Rock rose above a growth of manganita and madrono. A hawk in gradually lessening circles glided down the gray walls of a volcanic slide and ascended in another moment with a rabbit in its taions. The sun found its way in blotches of light through the network of leaves and wild grapevines above our heads. The burros, impervious to our blows and threats, hardly moved along the narrow trail that ht times wound along shifting beds of gravel where but one misstep would have dropped the rider down hundreds of feet among the great boulders in the bed of the creek. Ofttimes the trail The huge bird did not know what to was so steep that we held on with difficulty, and yet our long-eared, shortlegged beasts plodded on with the same unvarying regularity that we had found fault with on the level. FAIR AT WOODBRIDGE

One of the Finest Exhibitions of Vegetables and Fruits Ever seen in Old Woodbridge -Farm Products in Profusion-Throngs of People-Many New Haven Visitors-Interesting Addresses.

Woodbridge grange, P. of H., yesterday held their annual fair and exhibition of farm products, machinery, carned fruits and all the other products so inseparable from a well regulated country fair. The rooms on the grounds surrounding the Woodbridge church were devoted to fair purposes. The exhibition was open from 10 a. m. until 1 p. m., and was attended by throngs of people, Woodbridge, Bethany, Seymour, Ansonia and New Haven being well represented. Among those from New Haven present were Hon. N. D. Sperry and family, Willis M. Smith, the builder, and wife, Henry L. Cowell, David Cowell October day for the fair could have been desired. The exhibition of fruits and vegetables was a splendid one; in fact, the Edgewoods only made one more run. was equal to anything in the line ever displayed at the old Woodbridge fairs. The big pumpkins, mammoth tomatoes, potatoes, turnips, etc., were in indisputable evidence, and the visitors were more than pleased with the whole exgrange and to its enterprise and public

During the afternoon an agricultural address was delivered by H. W. Collingwood of New York, the managing editor of the Rural New Yorker. An address was also delivered by Mr. Hale, the famous Connecticut peach grower, who has great peach orchards in the south from which, as he told a New Haven gentleman recently, he raised The addresses were listened to with close attention. Bicycle and other athletic contests followed.

In the evening a musical and literary entertainment under the management of the committee of woman's work and entertainment was given. It was largely attended and much enjoyed. The day's effort was a success in all re-

The New Cruiser Successfully Launched at Cramp's Shipyard Yesterday-A Great Throng Present-A Few Words About Uncle Sam's New Boat-Outclasses the New York-Most Perfect Vessel of Her Philadelphia, Oct. 2.-The United

States armored cruiser Brooklyn was successfully launched at Cramps' shipyard at 1:08 o'clock this afternoon. A great crowd was present. The stand was filled with invited guests. The Washington party was as follows: Postmaster General and Miss Wilson, Rear Dr. Wilson of Bristol was summon Admiral Ramsey and Mrs. and Miss Ramsey, Captain and Mrs. Sampson, Paymaster General and Mrs. Stewart, Engineer-in-Chief Melville, Chief Naval Constructor Hichborn, Captain R. D Evans, Commodore and Mrs. McNair Commodore and Mrs. Howell, Lieut Singer, Lieut, and Mrs. Knapp, Lieut and Mrs. Reamey, Lieut. Laird, Mr. Benjamin Micou, chief clerk of the navy department, and Mrs. Micou and Mr. H . Snyders.

The Brooklyn is thought by naval experts to be the most perfect vessel of her class in existence. She exceeds all Natrolithic Salts, other ships of her class in the world in steaming radius, fighting efficiency and the weight of the projectiles discharged from her batteries.

The Brooklyn will outclass the New York, whose sister ship she is, as all the most valuable features of the lat ter have been adopted and wherever possible, improved upon, while many new ones have been added where experience has shown them to be advisable The construction of the Brooklyn was

authorized by an act of congress o July 19, 1892, calling for an armore cruiser whose cost should not exceed \$3,500,000. Not including her armor and guns she will have cost when finished about \$500,000 less than this amount Her main dimensions are: Length of load water line, 400 feet 6 inches; beam

64 feet 4 inches; draught, 24 feet. Her displacement is 9,150 tons and he engines are designed for 16,000 indicated horsepower, which will give a speed of twenty knots, although a greater horse power can be developed when neces sary. In fact the contract calls for a speed of twenty-one knots on a four ours run, and it is the belief of the builders, the Cramps of Philadelphia,

such Startling Words Bring the Truth Home to Us.

When Prince Bismarck, Germany's reat leader said. "The world is not uled by parliaments and political meet ngs, but by blood and iron," he utter d a truth, the extent of which few omprehend. The world is ruled by ace-race is ruled by blood-pure pring of individual force and power. vitalize's or enervates the physical and mental strength. We speak of plooded stock in the animal kingdom; t will apply with equal force to the human race.

When Greece was full of vital en rgy, when she cultivated her physical sealth, she became mistress of the world, and her great Alexander wept or other worlds to conquer; but when she became effeminate a horde of barbarians overran and destroyed her,leaving behind them a path of mournful ruins. In tainted blood, impure and weak, was written that nation's sad epitaph. So queenly Rome and CLAIMS HE WAS DRUNK WHEN HE many other nation has suffered in the ess of physical prowess and been destroyed or hurt. We need, both as a nation and as individuals, to take this mportant lesson to ourselves. Be well and keep so; mend up the waste places; strengthen the nerves and purify the blood. Then, long life is assured; good work in the world will come, and you will know the blessings sound body and happy mind. Nothing has yet been discovered to accomplish this like Dr. Greene's Nervura blood and nerve remedy.

The great Bismarck did no more for Germany in discovering her elements of unity and enforcing them, than has this distinguished specialist done for mankind in discovering his wonderful remedy for all blood allments and nerve weakness, giving health and strength and happiness to all who will take it and be cured of their suffering. Do not fall to improve this fortunate opportunity. Take Dr. Greene's Nerura blood and nerve remedy and you can be well and strong, strong to conquer what end you undertake in life. Mr. F. A. Arnold of Woodsville, N.H., says: "Three months ago I was in a

considerably discouraged "I was about my condition, and feared that I should be obliged to give up work. I heard of Dr. Greene's Nervura blood and nerve remedy, and its wonderful results upon others, and I determined

to try it. "I had no faith in the virtues of the remedy when I began its use, but now I am reloiced to say that I cannot help having faith, for it completely cured me, and I work with comfort every day. "My business is railroading, which I could not now do if it had not been for Dr. Greene's Nervura blood and nerve remedy, and I gladly recommend it to

Why waste time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th street, New York City. If you take this medicine you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case, freely and without charge. This is a guarantee that his remedy will cure, possessed by no other medicine in the world,

The parties in the suit has been enraged in taking evidence for about year before examiners, and the time f the defendants' taking of such evitence would have expired on October 7 The defendants claim that they did at have time enough to prepare their ase, and that is why the parties were

before Judge Townsend. Attorney C. L. Buckingham of New York, counsel for Thomson-Houston, made a motion for extension of time, and the matter was argued for ome time, Attorney Leonard C. Curtis appearing for the Westinghouse company and Tesla. Judge Townsend granted an extension of time to the defendants of forty days, and gave the plaintiffs twenty days more in which to cross-examine.

aperior Court-Civil Side-Judge Hall Ex-Judge Harrison, as counsel for Ednund Zacher, receiver for the Newport News and Mississippi Valley company, ood. All genius and all talent, in yesterday morning submitted to Judge var and in peace, is dependent on the Hall in the superior court a form of enditions of the blood. It is the main decree to be entered in the case in accordance with the judge's suggestion made last Friday, when he appointed Attorney J. H. Webb as a committee to investigate the claim of H. H. Chittenden, as assignee for A. S. Hatch & Co Ex-Judge Stoddard, who appeared for Mr. Chittenden, and at whose request an investigation was ordered, was also provided with a decree, which he beleved set forth the ideas expressed by Judge Hall last Friday.

Judge Harrison said that the decree presented by Judge Stoddard was much nore far reaching than he had supposed, and he did not care to agree to it. Judge Hall assigned a hearing upon the form of decree to be held after the short calendar session on Friday

EXECUTED A DEED. A suit brought by John Scully of Ansonia against D. J. Mahoney of the same place for the surrender of a mortgage note of \$800, was heard in the superior court yesterday by Judge Hall. Mahoney is a saloon keeper, his place of business being at 30 Liberty street, in Ansonia. Mahoney had as a boarder in his house Scully, who is the landlord of the premises. Some time fast August Mahoney, it is alleged, got Scully under the influence of liquor, and while in that condition, Scully was induced by Mahoney to give a note on the property. Scully claims that the note was obtained fraudulently, and brings action to have Mahoney surrender the

deed. Judge Munger appeared for the plaintiff and Williams, of Birmingham, for the defendant. The defense consists of a general denial of the allegations.

Probate Court-Judge Cleaveland. SHE WAS WILLING TO GO TO THE ASYLUM.

FIRE IN NEW BRITAIN.

Ward's Block on Fire, But is Extinguished. New Britain, Oct. 2.-About 2:10 o'clock, this morning, fire was discovered in the rear of R. W. Hadley's store, in Ward's block, on Main street. The flames soon spread, igniting the adjoining stationery store of Mrs. H. Chatfield and burning through the rear of the building and up to the third floor. The firemen succeeded in pre venting the flames from spreading any further, but even as it was a great deal of damage was done.

The two stores down stairs were de stroyed and the damage to the block, aside from the individual losses, is estimated at about \$3,000, all of which is covered by insurance, in the opinion of me of Mr. Ward's tenants, his home being in West Hartford. He was not around this morning. There was so much water poured into the burning building that a great deal of damage was done in that way. The upper floors were flooded and, this morning, it was found that the water had soaked through into George Swain's and D. J. Hill's saloons, damaging the former about \$1,000 and the latter about

Break in Sterling Exchange Had an Influence on the Market.

New York, Oct. 2.-A further break in the posted rates of sterling exchange of the to \$4.87@\$4.88, had a strengthening influence on the stock market tolay. This break settles the question of gold exports for some time to come, especially as cotton is moving more freely and negotiations for the sale of a block of Erle and Southern Rallway securities abroad have just been com-

The industrials were by far the most active. The activity in these stocks was not due wholly to a sharp decline in sterling exchange. There were other auses at work in the cases of Sugar and Chicago Gas. The first named jumped from 108% to 111% on reports that the company's business was more profitable than for some time past. Chicago Gas rose from 7014 to 7114 on statements that the Central Trust company will issue the plan of reorganzation this week. The committee having the matter in charge include R. P. Flower, A. N. Brady and F. P. Olcott. Distilling and Cattle Feeding ran off

a little over a point on realizations, but later recovered the loss. The declaration of the usual dividends on Tobac common and preferred had no in fluence on the shares. A report that the Illinois Steel company will resume dividends led to an advance in that stock of 4 per cent., to 8014@80. Tennesses Coal and Iron jumped from 421/2 to 45 or rumors of favorable developments shortly. In the railway list proper business was on a smaller scale, tendency of prices was upward through out. The anthracites were less promient. Authorities states that the trads improving steadily, and that no further advance in prices is contemplated at the present time. Rates will cerminly be put up later on.

The improvement in the general railway list ranged from 14 to 214 per cent., the latter in Manhattan. Speculation closed strong with prices from 4 to 34 per cent, higher than on yesterday. Bonds were strong. Sales footed up

CONDITION OF THE TREASURY. Net Deficit of Nearly 1 on Millions for Three Montiles.

Washington Oct. 2.-The official treasury statement of the receipts and expenditures of the government for September and the fiscal year to date was issued yesterday. Receipts for the month were \$27,749,678; expenditures, \$24,320,481; receipts for the past three months of the fiscal year, \$85,572,972 expenditures, \$95,456,739; net deficit, \$9. The figures are exclusive of

postal revenues. Compared with September, 1894, the receipts for the last month were nearly \$5,000,000 greater, while the expenditures were \$6,000,000 less. For the three months of the fiscal year to date the receipts are more than \$12,000,000 less than for the corresponding three months of 1894, and the expenditures more than \$3,000,000 less.

Secretary Carlisle, in his last annual reportfi estimated the receipts for the fiscal year 1896 at \$476,907,407. This included receipts from the income tax which has been declared void. At the present rate of receipts the total of the year will be \$430,000,000. The secretary estimated expenditures for the same period at \$448,092,486. At the present rate the expenditures will be \$472,000,000.

In the expenditures for three months of the fiscal year to date nearly \$5,000,-000 less was expended on civil and miscellaneous account than for the corresponding period of the previous fisca year; nearly \$1,000,000 les on the per sion account; \$1,500,000 less on the naval account. The interest account show an increase of \$1,250,000; and the Indian account about \$1,100,000.
