COURTS AGAINST CORBETT

THE NEW TURN OF THE AUTHORIS TIES CAUSES A SENSATION.

The Champion Says He Cannot Imagine What is Wanted of Him and His Trainers -Arguments Were Heard Before the Supreme Court in Regard to the Validity of the Laws.

San Antonio, Tex., Oct. S .- Sheriff Campbell to-day received from the heriff of Travis county attachments or Jim Daly, Billy Delaney, Joe Corett, John Donaldson and John McVey. all members of Corbett's training pary, subpoenaing them to appear before he district court grand jury a. Austin to-morrow as witnesses. The attachnents were served late this evening and all witnesses left for Austin to night. This turn caused a sensation at he Corbett training quarters and much peculation was indulged in as to the object of the Austin court. The only embers of the party not subpoenaed nd this fact makes it appear that the dictment against the champion and O'Donnell.

When asked what he thought of th said: "I cannot imagine what they want with my trainers as witnesses We have certainly not viloated any law. regret that they must go to Austin, as it will set me back in my training. The only possible charge that the grand ury can bring against me is that I am tervelt. party to a conspiracy to bring off the fight with Fitzsimmons. I received a telegram to-day from Brady stating that the prospects were that the fight would take place at Hot Springs, Ark.. or in New Mexico. I do not think it ossible for the fight to be pulled off at any place in Arkansas, as Hot Springs is too near Chicago, and the Gill, Beam, Cross, Madison, Delehanty, governor has stated that there can be no fighting in that state."

It was learned to-night that the grand jury of the Travis county court will seek to secure indictments against Corbett,

Articles 960, title 18, chapter 1 of the Texas penal code provides that a conspiracy entered into in this state for the purpose of committing any felony in any of the states or territories of the United States or in any foreign son. territory shall be punished in the sam manner as if the conspiracy entered into was to commit the offence.

In this state the penalty for such conspiracy by the Texas criminal code is confinement in the penitentiary not less than two nor more than five

Austin, Tex., Oct. 8 .- The supreme court to-day heard arguments in the case where the tax collector of Williamson county seeks to make the comptroller issue a prize fight license unr the law passed by the regular ses sion of the Twenty-fourth legislature While the plaintiff admits that the law just passed by the extraordinary session declared prize fighting a felony he desires an opinion on the old laws in regard to the validity of the law in case the new law is knocked out as is vetts. threatened. The state contends that the new law knocks the old law out but even if it did not under the bill of that legislature the comptroller would have no authority to license a fight between man and man.

for the arrest of William Brady, manager of James J. Corbett: Martin Julian, manager of Bob Fitzsimmons; W. K. Wheelock, secretary of the Florida 3,266. Two years ago the republicans Athletic club, and presumably for Dan carried the city by 3,100 and last year A Stuart Joe Vendig and others. The papers were issued from Austin and arrived in Dallas to-day. Wheelock's papers were served on him to-day. None 4,000 stay-at-homes and from 1,200 to of the others has so far been served.

Where the Corbett-Fitzsimmons fight will be pulled off is still a matter of conjecture. President Stuart says it will not be decided until Joe Vendig and others arrive. The Hot Springs proposition is under consideration, but the fight will go to the highest and most responsible bidders. It may be several days before it is finally decid-

Later-Papers were also served on W A. Brady and Martin Julian. Brady, Julian and Wheelock gave ball to appear before the Travis county grand jury.

It is understood that they will leave for Austin to-morrow. Papers are here also for Vendig. They will be served by Sheriff Cabell when Vendig arrives. There are no papers yet for Stuart. The idea is said to be that everybody is to be used as witnesses against Stuart before the Travis county grand jury to indict him for conspiracy to compound a felony.

Defeat for Republicans.

Indianapolis, Oct. 8 .- The republicans of the city suffered the heaviest defeat in the history of the city to-day. Fair-Dallas, Tex., Oct. 8.-Papers are out ly complete returns at 10 o'clock show that Thomas Taggart, dem., is elected mayor by about 4,000 plurality and the rest of the democratic ticket by about the city went republican by 2,479 on the state ticket. This change of 6,500 in the result is accounted for by about 1,500 republicans voting the democratic ticket. The main causes of the defeaas stated by the republicans are that the present administration has aroused enemity by the rigid enforcement of the liquor law, assisted by the rigorous Nicholson temperancedaw passed at the last legislature. General Harrison voted a straight ticket this morning. Two weeks ago he advised all republicans to support the ticket.

McCarthy of the southern New York district sent two of his deputies here and they found their man on Oak street. He was brought to the station to be held while the officers looked up some other parties concerned.

The writ on which the man was ar-rested was headed: "The President of the United States of America to John H. Forehell, the marshal of the United States for the Southern District of the State of New York." It says: "Whereas, complaint has been made on oath under the convention between the United States of America and the empire of Russia for the extradition of criminals concluded March 16, 1887, ratfied February 14, 1893, and proclaimed June 5, 1893, that one Ivan Voitchchehor Ribitcki, a citizen of the empire of Russia and a fugitive from justice and nov in the United States, charged with the crime of larceny and burgiary as follows: On May 21, 1893, at the village of Plutitch in the empire of Russia he stole four horses of the value of over 400 roubles and did forge and counterfeit a bill of sale for two horses for which crimes he has been indicted before the criminal court of the Bulsky district of Russia and that the secre ary of state of the United States ha issued his certificate stating that the Russian government has applied for

the provisional arrest of said Ribiteki." The prisoner, who is a typical Rus sian, of the lower class, trembled while in the presence of the burly deputies and when he realized that he was t be sent back to Russia for trial h face depicted the terror he felt at th possible sojourn in a Siberian dungeon in common with most of his country men he little thought that the far reaching arm of Russian law would cenetrate to the center of an American

BANQUET TO CAMBRIDGE MEN.

Enthusiastic Sentiments Were Expressed by Various Men. Boston, Oct. 8.-The complimentary banquet tendered by Harvard men to

the Cambridge athletic team at the University club to-night probably equalled which Harvard representatives have ever participated. There was cheer upon cheer, and the sentiments expressed by the various speakers apparently fell upon the ears of attentive and thoroughly appreciative listeners. The representatives of the press were not permitted to actively participate, but those who did pronounced it a most enjoyable and cordial occasion.

Lientenant Governor Wolcott presided and acted as toastmaster, making the first address of the evening, and was followed by Hon. Henry L. Higginson, both of whom extended warm greetings to the English visitors. E. J. Wendell of Harvard made a particular ly address, in which he spoke of the warm friendship existing between Yale and Harvard, notwithstanding the temporary coolness which has prevented an intercollegiate game this year, and expressed the hope that all differences between the two colleges would be speedily banished. This sentiment was heartily seconded by Captain Louis P. Sheldon of the Yale team, and the

speakers were cheered to the echo. Captain F. S. Horan of the Cambridge team responded feelingly to the words of welcome that had been spoken Dr. William Everett made a speech in his characteristic style that brought the company to their feet, and he was

rewarded with twenty-seven cheers Then the same number were given for Cambridge, Harvard and Yale respectively. Hon, George S. Hale read a poem prepared for the occasion, and the speechmaking was brought to a close by Gordon Bell '93, now of the law school. The gathering broke up after

singing "Fair Harvard" and "Auld Lang Syne." During the evening the Harvard Glee club sang a number of its college songs, which were especially to the Englishmen. The visitors will go to New York at 10 a. m. Wednesday. Appointed to Annapolis,

FALL MEETING OPENED. Weather Delightful for the Kentucky

Breeders' Trots. Lexington, Ky., Oct. 8.-The fall meetng of the Kentucky Horse Breeders' association opened here to-day. The weather was delightful and a shower last night had put the track in excellent condition and laid the dust. The chief event of the day was the Kentucky Futurity for the three-year-old rotters, the first money of which amounted to \$17,250, the second horse to O. Tebeau, 1b 0 1 10 pull down \$3,000, the third \$1,000 and Zimmer, c 0 1 3 1 the nominator of the dam of the winner another thousand.

Seven of the pick of the year's youngsters scored for the word, the talent naking Shadow the favorite. Major McDowell's Impetus carried considerable money and was probably a second choice up to the second heat of the ace. Colonel Stoner's Oakland Baron, the winner of the event, was not considered fit for the occasion and last night and early this morning sold with

In the first heat the judges decided that Katrine Bell and Oakland had finshed on even terms and declared it a dead heat. In the second heat Shadow got off first.

Oakland Baron took up the lead before the quarter was reached, Impetus oming in for second position. Oakand Baron finished first by five lengths. Impetus second and Scourene this d. the third heat Milan again sent Oakland Baron out, winning all the way by five lengths, Scourene second and Impetuous third.

In the fourth and final heat Oakland Baron again led all the way, leading Scourene under the wire by two lengths, Boreal third. There were few persons who did not believe Oakland Barch won the first heat.

The other good race on the card was the Tennessee Derby for 2.11 pacers. Star Pointer was a strong favorite and won in three straights after dropping the first heat to Frank Agan. The best time was 2:0512, which is the fastest heat ever made in a race over this track. The 2:17 trot was not finished on ac-

THE RASEBALL CONTEST HAS AT LAST COME TO AN END.

In the Battle Royal Yesterday Neither Side Scored Until the Seventh Inning-At One Stage of the Game Excitement Ran High and Imprecations Filled the Air.

Baltimore, Md., Oct. 8 .- The Temple cup contest came to an end, and as last year the champions must content themselves with second place in the contest for the prize. Tebeau and his spider aggregation took to-day's game with something to spare. Neither side scored until the seventh inning, but despite the goose eggs and cold weather there was lots of enthusiasm because of numerous brilliant plays. From the opening of the seventh inning until the teams had left the grounds there was excitement a plenty and to spare.

Up to the end of the sixth inning thirty-two out of 164 towns that voted there had been but three hits made off Hoffer. Young was the first man up in the seventh. He cracked ont double; Burkett singled and McKean sacrificed. Young, was however, held on third. Kelley's error in dropping a ball from Child's bar allowed Young to score. Singles by McAleer and Tebeau and two dumb exhibitions by Gleason and Carey give the Clevelands two more runs. Three singles and an error netted them two in the succeeding innings. Baltimore earned one run in the seventh. In this inning an incipient riot followed Tebeau's attempt to spike Hoffer, as he ran past first. Re owns more than the year before. The turning to the base Hoffer vigorously. pushed Tebeau, felling him to the ground. Excitement ran high as the players rushed in from the field, while yells and imprecations filled the air. ot, and that no license people thought The champions added another tally to their score in the ninth, and at one time had a chance of winning the game. With two out McGraw and Keeler drew bases on balls, and Jennings was hit by the pitcher. The crowd meantime was wildly encouraging the home players and trying to rattle the others. With the bases full Keller was besought in frantic terms to bring them in. The best he could do was to single, scoring McGraw. With a chance to win the game and possibly the cup, the rooters begged and besought Brodie to punch out a triple or homer, but he failed miserably.

The crowd left in bad humor, lining up about the players' club house awaiting the appearance of the Cleveland team. The police frove the mob back until a passageway had been made for the Forest City men. As they filed into surrounded it and opened an avenue for the 'bus to drive through. Several policemen rode in the vehicle while others were on top. The very formidable array of bluecosts deterred the crowd

REPORTED ACQUISITION OF THE MERIDEN TROLLEY LINE.

Metals of the Road Give No Confirmation of the Report-What Vice President Hall and Directors Robinson and Brainard Say Department of the Company-Taking

ric railroad men all over the state. he possibility of a through electric line being established between Hartford and New Haven. It was expected that within a year this continuous y mlles would be completed, as New Wallingford, Meriden, New Britain and Hartford are cranching out with trolley lines. WHAT VICE PRESIDENT HALL

SAYS. Vice President Hall when enquired of y a "Courier" representative on the subject said that he coud give no confirmation of the report and was surprised that such a rumor shoud be floatng around. So far as he knew there was no foundation for the report. The company had acquired the Stamford ystem, but further than that no investment in street trolley lines had been

WHAT DIRECTOR ROBINSON SAYS. Hon. Henry C. Robinson of Hartford was asked by a Post reporter yesterday morning whether there was any truth in the report that the Consolidated road had purchased the Meriden trolley line in order to forestall any combination which would make a through trolley line between Hartford and New Haven ossible, Mr. Robinson said: "There was no such action taken at the last meeting of the board of directors and I know nothing directly about any such A street railroad man told me that the company bad purchased the Meriden trolley road and that is all I know about it

MAYOR BRAINARD DOUBTS IT. Mayor Brainard, who is also a direcor of the Consolidated road, said when asked in regard to the same matter 'I do not believe that the New York, New Haven and Hartford railroad is going into the trolley business, but I know nothing about it one way or the I heard the rumor, but do not think there is any truth in it."

This rumor is in line with the other rumor that gained currency a few days ago-that the company intended to ge possession of many of the trolleys in the state. This policy was begun by the purchase of the Stamford electric road, as stated in the directors' annual

At the office of the New York, New Haven and Hartford Railroad company It is stated that more than \$10,000,000 has already been subscribed for the new stock and debentures, about threequarters of this coming from forme holders and about one-quarter on as signments. All the larger shareholders it is said, have taken their rights. The large subscription from former holders is in spite of the fact that they have been pretty heavily loaded up already in the earlier stock and debenture divions, and it shows their confidence in

Treasurer Squires of the road is : very busy man in these days, as he is in fact, most of the time. Just now he is signing the new certificates of stock, and the other evening wrote his signature 8,000 times on as many cerfificates, in the course of two hours About 1,000 stock certificates were ready for delivery yesterday. The clerks in the stock certificate and debenture department are working considerably over time of late in order to keep up with the extraordinary amount of work in this department in consequence of the issuing of new stock.

Vice President Hall of the Consolidated road was asked yesterday if there would be any change in freight rates on account of the new arrangements, and he said if there was any it would be in the nature of cheapening the rates on the New England. There would be no increase. Rather the plan would be to cheapen rates whenever in was possible. He added that under the new ar rangements there would be greater ac commodation for the people, both in the freight and passenger service. Furthe than that the New England road would be run on a responsible basis, and fo the interests of the people and their ac-

It is expected that after a while som arrangement will be made that the re pairs of the equipment of the New England road would be done at the Con solidated road's shops. By this means there will be a considerable saving. Under the new relations between th

Consolidated and the New England roads it is probable that the mileage books will be interchangeable, and that each book will be good on both lines. One great saving in operation aris ing from the new arrangements will be the reduction of operatives and june tion points. The New England touch-

es the Consolidated road at twenty five different points, and it will be possible, in most cases, to employ only one switching and one yard gang, and wherever it is possible the ticket offices will be consolidated.

A Hartford dispatch says: One re sult of the change in the ownership of the New England is that already a number of changes in the passenger ser vice are contemplated. New passenger trains are to run from Middletown t Waterbury, by way of Berlin branch and New Britain, and to Waterbury over the New England road. It is un derstood that the service is to begin about October 20, and several other proposed changes in passenger arrange and Richmond on the way home, being ments and connections between the tw roads are under consideration.

TO TAKE WATER ON THE FLY. Hartford, Oct. 8.-Orders have been issued by the New England road to have the water troughs near Putnam put in repair and the locomotives that are to be used on the new fast trains between Boston and New York are being equipped with scoops to take the fected.

THE CONSOLIDATED ROAD water. New passenger trains are to be run from Middletown to Waterbury via the Berlin branch and New Britain and to Waterbury over the New England road ELECTRIC ROAD WIRES AND THE

GUARD'S COMING. According to the Atlanta papers, the local subject of discussion is about equally divided between the exposition bon. and the coming visit of the Second company, Governor's Foot Guard. The result of all this is that the people of that city are becoming as familiar with the history of this ancient organization as are the people of New Haven. One editor writes to know how many care will constitute the special train and tumn flowers and leaves, cut flowers which one will be occupied by Benedict Arnold." It is expected the itinthe meeting Friday night. NEW HAVEN'S EXPENSES.

For the Ensuing Year So Far as Mapped Out by City Officials and Which Are Now Before the Board of Finance.

The estimates of the board of public works and the board of health for the coming year, presented to the board of aldermen at their last meetng, and by them referred to the board of finance, are given in detail below. The members of the fire and police departments are still at work on their estimates, but they will be returned in

As usual the amount of the estimates of the board of public works is n excess of what was allowed by the board of finance for the previous year and the estimates this year are greaty in excess of what was allowed by the board for the year 1895.

The sum specified for bridges, lowever, is more than \$4,000 less than what has been spent for this year The salary account for superintendent of streets and city engineer is he same. The contingent expense account asked is a trifle less than last year, the account for cleaning sewers and drainage is \$500 more than will be spent for 1895. In cross walks and obble gutters \$1,500 more is asked. For general repairs and ordinary labor n the cleaning of streets \$49,000 is asked. Last year \$20,000 was allowed by the board of finance. An item of \$9,000 for pairol service on several of the busiest streets in the city is included for this amount.

For grading streets an account of \$24,000 is put in, which has no exact counterpart for last year. For stone crusher and road roller \$1,000 more is asked, the same sum is asked for

walks and curbs. For opening and widening of streets \$89,650 is asked. Last year \$25,540 was granted for the purpose of widening Washington street. For parks and trees \$18,350 is asked, while last year \$6,475 was allowed for the work. Then there is an additional appropriation asked of \$25,000 for required pavements in a number of streets.

There are also a number of items, including street sprinkling, which ar given below, for which the board specifies no appropriation. The total, in cluding \$100,000 for sewers, is \$354.650. against \$219,079, also including \$100,000 for sewers, which was allowed by the board of finance last year for the expenses of 1895.

The estimates are as follows: Estimated expenses for the board of

WORKING GIRLS.

WILLING, ABLE, AND AMBITIOUS, But Often Held Back by an Illness They do not Understand.

A young and intelligent working-girl of Brooklyn, N.Y., graphically pictures the working-girl's life.

Day in and day out, month after month,

may live. Rain or shine, warm or cold, she must get to her place of employment sharp on time. With the sunshine and gladness all crushed out of her life, til she falls.

Oh! this pie tures only one of thousands. Some work in cramped positions, but the great majority of working girls, so to speak, live on their feet.

Among the latter the symptoms of female diseases are early manifested by weak and aching backs, pains in the lower limbs and lower part of the stom-ach. The "monthly period" is irregu-lar: with some profuse, with others a cessation. The sure symptom, leucor-rhea, is present, and with faintness, weakness, loss of appetite and sleep. She may be sure that a womb trouble assails her. She knows not where to go

Goods made in European jails have become subjects for investigation by United States consuls. In Bayaria i costs fourteen cents to make a pair of pants in jail, and \$1,091/4 to make a whole suit of clothes. These prisons are fitted with machines which turn out a supply large enough to materially affect the business of local manufacturers. These machines are chiefly for the manufacture of knitted goods, especially hoslery of all kinds, and there is very little doubt but that some sort of this hosiery finds its way into the American market. A new and simple "cure for headache" is made known by the Boston Journal, which says that an apostle of physical culture says that an excellent and never-falling cure for nervous headward. Ten minutes is as long as to sometimes, however, requires more than ten minutes to walk at all, if one is stood that it is necessary to walk a chalkline. Any kind of walking will do, provided it is backward. It is well the windows are high, and walk very sicwly, placing first the ball of the foot on the floor, and then the heal. Besides curing headache, this exercise promotes a graceful carriage. A half hour's walk backward every day will do wonders toward producing a graceful gait.

Do horses weep? is a question discussed by the Admiralty and Horse Guards Gazette. It tells us that there is a well authenticated case of a horse weeping during the Crimean war. On the advance to the heights of Alma a battery of artillery became exposed to the fire of a concealed Russian battery, and in the course of a few minutes it was nearly destroyed, men and horses killed and wounded, guns dismounted and limbers broken; a solltary horse, which had apparently escaped unburt, was observed standing with fixed gaze upon an object close beside him; this ington Star-

THE TOWN ELECTIONS. As usual, there is some cheer for verybody - including prohibitionists and Woman-in the reports from the own elections in this State. But it cannot be fairly denied that the Republicans are entitled to three cheers for the part they played in the voting. They have substantially held the wonderful gains they made last year. It was not expected by anybody that they

xpected that they would do as well. It is the custom for the leaders of he party that makes a poor showing n these elections to say that they don't amount to much as indications of the state of polliteal opinion. During the pext few days the Democratic leaders will be busy explaining how their followers didn't happen to be any more onspicuous and influential. But they will find it hard to explain, on any theory that will seem suitable for their use, how the Republicans have managed to be so unpleasantly conspicuous and unanimous. Probably the truth is that the people became so sick of Democracy that they haven't yet got through spewing it out at every opportunity. If their sickness becomes chronic it will be a good thing for the

A NEW LIGHT. When electricity first came into use for lighting purposes many thought that the use of gas for light, except in a small way, was doomed. But gas is still conspicuous in the dark, and there has been such an improvement in the quality of gaslight that electricity doesn't outshine it to any very damaging extent. Now the important news comes that our old and odorous friend, kerosene oil, which has lately been overwhelmed by the brilliancy of both electricity and gas, is about to sten into the front rank as a lighter. A new system of obtaining light from petro leum has been invented, and is now in limited use in Europe, which promises, if it can be adapted to household and civic purposes, to rival results thus far looked for from electricity. kerosene, and burning this vapor or of intense brilliancy, having an illuminating power, contingent somewhat upon the size of the flame, from 3,500 tion sufficient to enable one to read small type at a distance of 360 feet from this light has been for military purposes, as it secures means of illumination which can be introduced and used

is needed. With gas and kerosene in the same rank with electricity as light-givers we don't see what remains except for some ingenious man to find out something that will give one candle ten or fifteen

The man who can make one blade of grass grow where none grew before is a public benefactor, and so is the man who can have some new innocent fun W. F. Haynes, of the State of Washington, is a farmer who does much good chief claim to public notice and praise some chickens. He likes his chickens and they like sunflower seeds. Sunflowers in the glorious climate of the State of Washington grow to such a height that even the enterprising chickens of the State can't reach the seeds ingenious man and he likes fun. He sat himself down and figured how he could bring his chickens and the sunflower seeds together without cutting down the sunflowers or putting the chickens on stilts. After long pondering he concocted a plan which stamps him number of delicate spring-boards and carefully set them at the proper distance from the sunflowers. He has trained his chickens so that each will run with all its might, strike a springboard in the proper way, bound through the air with the greatest of ease, snatch a seed from a sunflower, and come down as gracefully as the circus man who bounds from a spring-board, turns a triple summersault over seven elephants and comes down on a mattrass.

It is said to be a great sight to see those chickens earning their daily sunflower seeds and their right to be called spring chickens, Mr. Haynes has laughed so much while watching them that he is taking anti-fat, and the neighbors who are privileged to see the performance don't feel the need of any of the new farce-comedies of the sea-

JAPAN AND OUR RELIGION.

Missionary Work as Affected by the Recent Victory of Japan Over the Chinese -Missionaries and the Native Priests. (From the Chicago Record.)

A piece of one of the ropes was sent to the National Museum in Washington some years ago as evidence of the devotion of the Japanese o their religion.

Mr. Akamatzu was educated in Eu-He spent some years in England, and afterward went to Germany, where he was a pupil of the famous Max Muller. The latter alludes to him in one o his books. I asked him the other day if he desired to say anything concerning into materialism. They have adopted he anti-foreign crusade that now prevails in Japan, which is popularly atributed to the Buddhist priests and helr desire to drive Christian missionarles out of the empire

"I think," said he in reply, "the antioreign feeling that has sprung up so suddenly and has extended so rapidly over Japan is due more to the developnent of national pride and indepenlence than to any religious prejudice. Our people are naturally vain of their own achievements, and have reached a point now when they consider themelves able to get along without foreign assistance. They want to throw away their crutches and walk alone, and you can scarcely blame them for such an ambition. It is the natural and logical consequence of their advancement in knowledge. No doubt many priests of my own church and the Shinto faith have taken advantage of this national spirit of independence to promote the nterests to which they are devoted. It would be natural and logical for them o do so, but I think there is more liberality and religious tolerance among the people of Japan, particularly among the younger generation, than ever be-

"We recognize Christianity as a permanent institution, I think, judging from observation alone, that the Chrisald from abroad. Formerly there was a great deal of friction and distrust The Buddhist did not know what Christianity is, and very few Christians now understand what Buddhism is. They came here with violent prejudices. which have been exaggerated by conbecome of the hat, but large as the tact with indiscreet and unreasonable persons, but many of the ablest of the Christian teachers and many of the ablest of the Buddhist priests recognize that there is merit in both reli gions, and that both are capable of doing good. There is no reason why Buddhism and Christianity cannot exist in Japan without friction, because both appeal to the hearts and minds of men, and there are those who would be better satisfied with one than with the other. The Christians have gathered in a great many Japanese who had left the Buddhist church and were without a religion. Religion has become a matter of individual opinion among the educated people of Japan, as It is among similar classes in other countries, and they should study both and find out which is more suitable to their wants, "You believe that Buddhism is the

only true religion? "No. I am not so bigoted as that. and when cherries or currants are do believe, however, that it is the most used instead of flowers and there is a suifable religion for this people. It is impossible to say that one religion is better than another. They are all based, more or less, upon faith and mysteries, and every one has his own gion as Christ taught it is peace probable that any Christian you might ask would express the same belief regarding his own religion as applied to America and Europe. At the time, I fancy an impartial and disinterested man might say that both have their value and usefulness, because the human mind is so constituted that different principles and dogmas are ac septed by one and rejected by another fust as among Christians believers are divided into different sects, such Presbyterians, Methodists and Catholics, on the line of their natural tenden cies and their individual interpretations of the teachings of Christ. Buddhism is divided into sects in a similar manner over differences of opinion regarding the meaning of the teachings of Buddha, but all genuine religions and all honest sects have the same pur pose and the same tendency, and I suppose that all good men will enjoy im mortality together in the place where the souls of the good will spend eternity, call it beaven or Nir-vana.

"I encourage all of my students and friends to study Christianity and other religions, because it makes them broad-minded. It can do no harm to any intelligent man to investigate oth er religions than his own. I do not be lieve in proselyting. I would never ask a Christian to become a Buddhist, bu explain the creed and the principles of "I understand you are playing the my religion I should take great pleas missionary work. I should simply encourage all men to study all religions and adopt that which is most suitable to their tastes, just as travel develops a man and enables him to choose the most agreeable country to live in. "No. It is not necessary to send the oreign teachers away, although it is not necessary to keep them here, exept in some particular cases where instruction is needed in special sciences. I think, however, it would be much better for our young men to go o America and Europe and get a gentine foreign education in the instituions there than to receive simply a veneer from foreign teachers in Japan. They would have better advantages there, and they would absorb the real spirit of American civilization into their entire beings, instead of having it administered to them in small doses by imported experts."

"I have seen newspaper paragraphs about a proposed Congress of Religions to be held in Japan. Do you know any thing about it?"

"No. I do not think it can be true of would have heard of it. Besides, it is contrary to the policy of our govern ment to interfere in religious affairs. I hope, however, that there will be more frequent interchanges of ideas and hospitality, like the Congress of Religious at Chicago. I hope, too, that there will be peace and good will and cordial feelings between members of different churches. The Edward Harrigan company, a famous organization, comes to the Hyperion theater to-night in "Old Lavender." Since Harrigan built his new theater, and moved to the uptown part of New York, he has met with continued big success. His stage productions are sketches as true to life as Dicken's dress in mighty London. The types of character may all be found in the lower stratum of New York life. In all the works of this clever author and actor, he has eliminated everything objectionable. There is a good side even to the Bowery, but it took Harrigan to find it and picture it on Broadway, there is pathos in the Fourth ward an honesty on Chatham street, but the people had never thought of it until Harrigan fished it out and dressed it with sweet music and abowed

The first of the series of choice entertainments in the people's course at the Grand avenue Congregational church was given last evening with a large audience in attendance. The talent for the evening were the Mozart Symphony club, assisted by Mme, La Roche, soprano and chromatic harp soloist. The club includes the following well known artists. Mr. Otto Lund, solo violinist; Mr. Theodore Hoch, vlolinist; Mr. Richard Stoelzer, viola, and

Mr. Mario Blodeck, celloist. The program opened with an overture by Mo-zart "Tittus," rendered by the Mozart Symphony club. This was followed by viola d'amour solo, "Melstersinger, by Wagner, rendered by Mr. Stoelzer The above instrument has fourteer strings similar to the viola in theory but far more expressive in power of tone. When listening to it a person at times get the impression of a complete ensemble. Seven of the strings only are used in bowing, while the balance are directly under the original seven and vibrate in unison. The tone must be heard to be appreclated, and it is claimed to be superior to the violoncello in tone. It is the largest instrument held under the chin. Herr Stoe zer is the only soloist before the public at present who plays this instrument. Mme. La Roche's rendition of "The

Holy City," was not very acceptable her tones being of very poor range The cornet solo, "Fantasie in Old Berlin," was delightfully rendered by Herr Theodore Hoch and was received with loud applause. He rendered for the encore "In Old Madrid." The club very artistically played the following quartete: a, Andante, Rubenstein; b, Intermezzo, Traumgeister (new), Stix; c Spanish Serenade, Habanera (new)

Stix, very artistically. Mr. Błodeck's Da Gamba solo was very finely rendered, he receiving hearty applause. This rare instrument was in ented in the seventeenth century by an English prisoner who was granted

The horse races commence to-morrow afternoon with the 2:45 class for a purse of \$300. A dozen horses have been entered for this event. THE CHESHIRE OUTRAGE.

Cheshire, Oct. 8.-Nothing new has developed in the case which the detectives are investigating of an attempt made to blow up the residence of Justice of the Peace Readle of this place. Detectives John Leete and McInerney of New Haven were in town again today continuing the investigation, but they have learned nothing new or any information that would throw any light on to the identity of the persons who left the bombs under Justice Beadle's front door step. While the investigation goes on the rumors continue to rise regarding the case. It is still a mystery who placed the explosive there and who those were who were concern ed in the plan to wreck the justice's home. It is the general opinion that the guilty parties were some of Justice Beadle's enemies at the political meeting last Thursday night. The bombs were undoubtedly taken from a contractor who is engaged in doing some blasting on the Waterbury road, as believes that the dynamiters will be in custody within a short time.

Y. P. S. C. E. Willimantic, Oct. 8.-The annual meeting of the Christian Endeavor union was opened here this afternoon with devotional exercises, and addresses were delivered by Mrs. E. L. Ely, state secretary of the junior society.

RAILROAD WORK.

Winsted, Oct. 8 .- The Philadelphia and Reading road is being rebuilt behave completed the work of laying the rails. The work will be pushed on, and year. It is expected to have the entire road relaid within two weeks. The road will be double tracked within two years. CORONER NVESTIGATING.

Middletown, Oct. 8 .- Medical Examiner Sears of Middletown is investigating the sudden death of Thomas Kinney a well known character in Portland, who was found dead to-day in a barn owned by John Allen. Kinney was seen about the barn early this morning, but about noon he was found in a stupor in one of the stalls. He died soon afterwards. He was fifty-three years of age, and was married, but did not live with his family.

A \$11,000 MAUSOLEUM.

Norwich, Oct. 8-James B. Shanion, a wealthy real estate owner and liquor dealer, is to erect in the Catholic cemetery at Norwich a mausoleum that will cost at least \$11,000. The sculpton will be an Italian artist, who has been engaged on the Vanderbilt marble palace, and the designs selected for the exterior are Faith, Hope and Purity,

The mausoleum is to be constructed of Indiana granite, and twelve car loads of the stone has arrived at Norwich It is to be completed by December 1,

The extra expense entailed each year by voting on the license ques ion is a waste of money and could eas ily be dispensed with, as the majority for license, nearly 400, shows that that question is not a debatable one, and there is no use of having it brought up every year. The women's voting amounts to nothing and makes another useless expense, as they can only vote for a school visitor and their votes do tween Campbell Hall, N. A Highland Dance at Balmoral. After a day's successful deer-shoot ing, one of the sights of the season at Balmoral or Abergeldie castle, but chiefly at the latter, is a deer-dance, wherein the deer do not dance, but lis impassive and dead enough, head and tall, in numbers of two, three, or more, at the chief entrance. After the royal dinner-and the darker the night the

married, though not living with his fir bound together with green birchen the absence of the latter it is mischlev wife. A daughter is living in Fall withes, are lighted and held aloft by a ous in the extreme. If your husband River. He had been on a spree for a number of staiwart kilted Highlanders, will stand the treatment, begin by tartan and silver, strike up a march, of steak, hot rolls, potatoes, etc., and by all the princesses, ladies and gentle- and coffee, men of their suite, come forth into the lurid circle to view the trophies of the day. After inspection and remarks, a torch is handed to each of the princes invariably dressed in full Highland ostume, four or more of whom take their places at the head of a long line of jagers, keepers, foresters and gillies, each with a flaming torch, to dance reel. The piper manipulates a strathspey and reel from his drones and chanter, and all foot the light-fantastic "Highland Fling." with whoops and yells and wild hurrahs. To the quick pulsations of "Monymusk" and "Hulachan," tartan kilts and plaids, brawn; limbs, and jewelled belts and dirks fleet and whirl in wild yet measured onfusion beneath the lines of scintillaing flame. But the powers of muscle and lung soon flag on the dull gravelly

surface that serves for dancing-floor A bonfire is made of the "sownack" stumps, amid a chorus of cheers that esound far through the dark welkin, Jingling glasses are charg'd with the 'strong wine" of the country, and emptied to toasts, by the dancers; then ovalty seeks its bedchamber, the great lock overhead chimes forth some hour near midnight, and the grand spectacu ar display is over-for a night.

All the royal family are fond of daning, and among the "events" of their ojou rn in the Highlands, balls, to which tenantry and servants are all invited, have held a prominent place. As might be expected, life is gayer at Abergeldie than at Balmoral. At these balls all social distinctions are dirse garded. The one flat is "dance," which the Highlanders are not slow to do. Their dancing is characterized by much vigorous leaping, kicking and interjec ional "woochs."

Another occasion of merrymaking hat comes with birthdaylike regularily is the great Scottish festal night of Halloween, celebrated on the 31st of October of each year. The mystic rites of that evening, so graphically porrayed by Burns, are somewhat h abeyance at Balmoral, but instead the Highland custom of robbing witchspells of their terrors through the leansing agency of fire may here be witnessed in all its pristine glory. Blazing "sownacks," carried round the castle literally in hundreds after sunset, constitute the purifying media, and form, especially at a distance, a sight that must be seen to be fully apprecia-

All these amusements are varied by

the attendance of first-class concert and dramatic companies. There is no monotony. The tone of everything said and done, grave as well as gay, is de cidedly healthy. Life goes "merry as a marriage bell," whose chimes bring to recollection the fact that Balmoral has ever afforded idyllic facilities for court ship. Besides the Imperial Prince of Germany, here the Grand-Duke of Hesse and the Marquis of Lorne wooed and won their brides. In each case there was far more wooing and fewer 'reasons of state" than sentimental outsiders are in the habit of believing. Royalty in its free, unassuming and oyous intercourse with the Highland character of proverbial independence meets with no coarseness of feeling or action, no fawning formalities, no dis simulation and no mistrust. The social gap between the monarch and the peasant is here bridged with a facility as graceful as cordial, that might well be imitated by the noble and commoner elsewhere.-From "Queen Victoria's Highland Home," by J. R. Hunter, in

Harper's Magazine for October. THE EVILS OF OVER-EATING.

Unless Neutralized by Exercise High Feeding is Extremely Harmful. I assert that it is the duty of the good housewife to keep down the appe tite of her husband, writes the Rev. F. S. Root in the October Ladies' Home Journal, Particularly is this necessary

in the cases of well-to-do professional and business men. In the families of mechanics earning low wages such warning is almost wholly unnecessary but it may be said of most men in good circumstances that they eat too freely of rich food. If men would begin care ful and systematic physical culture in early youth and continue the practice through life, good health would be the result. Beyond the age of forty-at a period when so many are physically lazy-the superior value of exercise i apparent; but ordinarily, this is just the time when the hygiene of athletics is neglected. There is no reason why a punching-bag, rowing-machine, pulley-weights and other apparatus should be relegated to college boys and clerks, But having done a good deal of work in his time it is almost impossible to persuade a business or professional man, turning forty, to give any sort of at-tention to physical culture if such training has been previously neglected. Hence, I say it is the duty of a woman to keep from her husband all rich com pounds that will ultimately ruin his

Wilson, University of Pennsylvania, vs. A. E. Foote, Yale.

Five matches only were played yes tersday on account of the bad condition of the courts. They resulted as folows: Preliminary round, E. P. Fisher lefeated L. A. Sankey, 6-3, 6-0. First ound, M. G. Chace defeated A. E. McVilty, 6-9, 7-5; M. D. Whitman defeated A. A. Barrows, 5-7, 6-3, 6-2; E. G. Thompson defeated E. P. Sheldon 6-3 6-4; A. E. Foote defeated R. U. Wilson 6-0. 6-4.

All men from all departments of the university, who are interested in gym nastic work, will meet in Dr. Ander ion's office this evening at 7 o'clock, at which time the work of the year will be

explained. The first regular meeting of D. B. K. will be held at 7:30 this evening in the rooms of the classical club in Old Chapel, Prof. Goodell will give an informal talk on modern aspects of

The following seven men were elected yesterday by the students' eating club commons as a committee to confer with the students in regard to the wants and suggestions of the men boarding there, and are requested to meet Mr. Tilson to-day at 1:15 in the hall. The committee consists of W. H Clark '96, C. V. Clark '97, I. N. Swift 98, G. H. Cocks '99, F. C. Theall '96S., R. A. Hickok '97S., and H. Parkhurst

It has been decided this week by the faculty that hereafter diplomas will be awarded to those who complete the courses in music. These courses include work on the violin, piano and organ. The course is only open to those who pass an entrance examination and those who pass this must necessarily be well advanced in their respective musical studies. The committee on entrance examinations will be Professor Parker on the organ and theory, Professor Sanford on the plane, and S sadore Troostwyk on the violin. This is an entirely new departure and will probably help graduates from the course greatly in their profession o teaching music, as very few music teachers have diplomas from accredit-

Earnes '99, M. Clark '97 S. The directors of the gymnasium have decided to establish a new department in order to meet the needs of those students who require particular treat ment in some way, such as to remedy curvature of the spine, indigestion, headache, etc. Many of such cases can be cured by proper physical treat-ment and careful training. For this purpose a medical department has been added. A special room has been fitted up for these cases, and students will not be obliged to leave the building. Dr. Seaver will examine each man as usual and Dr. Anderson will direct the treatment. No extra fee will be charged. Several new pieces of apparatus have been added as follows; The Sayre's suspension apparatus, a Swedish ladder and special appliances for placing the body in a correct position.

A change has been made in the place of holding the Yale-Princeton football age set apart for resting places, but game this fall. It will be held on Manhattan field instead of Columbia Oval. as already announced. The management of Columbia Oval had proposed to fix up the field so that it would be ready to accommodate the customary tion or cremation, we shall get that lucrowd, but the necessary funds could not be raised, and, therefore, the change

has been made to the Manhattan field. The list of entries to the chees tour nament has been placed in the Co-op. Entries will close on October 12 at 1 o'clock p. m. The entrance fee for nonmembers of the chess club will be fifty cents. The tournament is open to all

members of the university, The game of basket ball which was introduced into the gymnasium last night's meeting and arrangements for year by Mr. A. H. WALTER CAMP IN CALIFORNIA. Walter Camp leaves on Saturday for California, where he will coach Leland Stanford university football team. Mr. Camp said vesterday that the trip was taken largely for the benefit of his health and for pleasure, although he has become much interested in the Stanford university team through his two years' successive experience with them. He will return the latter part of November.

This will make two of Yale's famous football players who will be in California, the other one being Frank S. Butterworth, who is coaching the University of California football team.

ASHES TO ASHES.

Resurrection and Cremation. (From the Urn.)

Preaching on Easter Sunday in the ond street, from the text: "Death is swallowed up in victory." Dr. Tal. mage incidentally referred to cremation, which from his point of view was in no way obstructive to a resurrection of the body.

The doctor argued in part as follows: "You and I do not want our bodies returned to us as they are now. We want to get rid of all their weaknesses, and all their susceptibilities to fatigue, and afternoon on the last charge, County all their slowness of locomotion. They Health Officer Hoadley prosecuting. will be put through a chemistry of the soil and heat and cold changing seasons out of which God will reconstruct them much better than they are now. These men will please report at Cal- But as to our soul, we will cross right locities beyond computation.

"This view, of course, makes It of but importance whether we are crelittle mated or sepultured. If the latter is dust to dust, the former is ashes to ashes. If any prefer incineration let them have it without caricature. The world may become so crowded that cremation may be universally adopted by law as well as general consent. Many of the mightiest and best of earth have gone through this process. Thousands and tens of thousands of God's children have been cremated. P. P. Bliss and wife, the evangelist singers, cremated by accident at Ashtabula Bridge; John Rogers, cremated by persecution; Latimer and Ridley, cremated at Oxford; Pothinus and Blondina, a slave, and Alexander, a physician, and their comrades, cremated at the order of Mareus Aurelius; at least a hundred thousand of Christ's disciples cremated, and there can be no doubt about the resurrection of their bodies.

"If the world last as much longer as t has already been built, there perhaps may be no room for the large acrethat times has not come. Plenty of room yet, and the race need not pass that bridge of fire until it comes to it. The most of us prefer the old way. But whether out of natural disintigraminoue, buoyant, gladsome, transcendent, magnificent, inexplicable structure called the resurrection body."

The Daughters of Scotia.

The Daughters of Scotia will begin their regular meetings for the season at St. George's hall to-night. The society expects to make great progress during the coming winter. Quite a number of new members will be initiated at to

John Brown, the harness maker on colleges. Several challenges from op-posing teams have already been re-visit to Springfield, where he has been caived. Candidates for the team will since Saturday.

Superior Court-Civil Side-Judge Hall. Arguments were made yesterday morning before Judge Hall in the case of John Scully against Daniel J. Mahoney of Derby, which involves the tetting aside of a mortgage deed of \$890. It is alleged that the deed was obtained by fraud and that Scully was kept intoxicated for three weeks by the defendant for that purpose.

Later arguments were made in the ase of Alice Mesham against the Connecticut Indemnity Insurance comoany of Waterbury. In this case the laintiff sues for a balance of \$600 on tate. 1 \$1,000 policy upon the life of her sister. A Charming Wedding-A Temperance

Lecture. Oct. 8 .- A charming wedding was that which took place at the Congregational church Monday evening at 6 o'clock, when Miss Emma Louise Pardee daughter of Mrs. Hayden Pardee, and Henry S. Brooks, son of Mr. and Mrs. Jesse the home of the bride's parents on Ma- R. Brooks, were united in marriage. The ceremony was performed by Rev. James P. Hoyt in the presence of large number of relatives and friends of both parties.

> Invitations have been sent out fo the marriage of Milton W. Hall and Viola Ludington, daughter of Mr. and Mrs. Benjamin B. Clark of Meriden, the wedding to take place Wednesday evening, October 6, at the M. E. church in Meriden.

> Mr. Cyrus Baldwin of New Haven, a former resident of Cheshire, has been spending a few days in town. Mr. and Mrs. C. C. Tyler of Hartford were guests Sunday of Mr. and Mrs.

> A temperance lecture was given in the town hall Tuesday evening by the Rev. Emerson Jessup, and it was his farewell iddress to the citizens of Cheshire. Mr. Jessup leaves town with his family this week to take up his residence in West-

field. Mass. The welcome rain has come at last, or which many have been praying, as many wells are without water.

A bold and dastardly attempt was made last Friday night, as reported in your columns yesterday, to destroy property and lives at the residence of Henry Beadles. Some miscreant placed three dynamite bombs on the front piazza, with a fuse of about one hundred feet, which burned to the bomb, and for some unaccountable reason it went out and so saved the lives and house and other buildings near at hand. It is hoped that the villain or villains. and brought to justice

Break in Chicago Gas Relieved the Mo-notony of the Exchange.

New York, Oct. 8 .- The monotony a the stock exchange was relieved late in the day by a break in Chicago Gas to 66%, and against 69% earlier in the day. There was moderate selling of the stock throughout the morning, owing to the publication of a circular by a firm connected with gas properties, which casts doubt on the ability of the present reorganization committee to carry out its

It was not until the last hour, how better and more economical is better and more economical is better and more economical is important amounts of the stock were thrown on the market and at the samtime rumors were current that fresh legal proceedings had or would be in You can't think of any draw- stituted to harass the Flower-Brady it that hasn't been met and committee. Long stock came out and a certain Chicago operator, who has been sand times over. Millions of identified with the bull side of the ac-Pearline now. Ask some count, was credited with closing out his holdings. Leather preferred was more promi

nent in the dealings and figured for 10,-00 shares. The stock opened at % wer, at 83, broke to 81% and then ounded up to 83% @84 on the declaration of a special dividend of 2 per cent. Sugar was feverish, ranging between 108% and 109%, but closed only % lower in the day.

The railway list was weakened by renewed talk of higher interest rates and the freight war at the west. London was also a seller of Louisville and Nashville, St. Paul and Atchison, and this contributed in no small degree to the weakness of the railway shares speculation. The market closed weak and 1/4 to 31/4

per cent, lower on the day. Northern Pacific preferred, Omaha, Leather preferred gained ¼ to ½ per cent. In the specialties Alton and Terre Haute broke 4 to 63. Bonds were lower. Sales were \$1,141,-

Resulted in Conflicts.

Muenster, Westphalia, l Oct. 8 .- A recent order of the authorities that all public houses must be closed at 11 p. m. has resulted in numerous conflicts between citizens and the police The public generally refuse to comply with the order and since Saturday there have been nightly rows.

May Purchase the Boardman Building. It was rumored yesterday that negotiations were going on looking for the purchase of the Boardman building at the corner of Chapel and State streets The intended purchaser was said to be Max Strouse of Spier & Co., the State street coal dealers. Mr. Strouse was seen last evening and stated that he had been talking of buying the building, but had not done so as yet. It was stated that the price asked for the property was \$125,000. It is owned by two Boardman brothers, one of whom lives in New York and the other in the west.

Waterbury's Muddle.

Waterbury, Oct. 8 .- In the discus sion among the lawyers in this city re garding the legality of yesterday's election is carried on, there bids fair to be an interesting time for both parties in this city. It appears to-day that the booth tenders in nearly all of the wards in the city failed to comply with the new law relating to the en dorsement on the envelopes distributed USING THE to the voters from the booths. According to the new law it is explicitely stat ed that the booth tenders must write out their full name upon the bact of the envelopes that are distributed to the voters. This law was disregarded in this city as was shown by the envelopes to-day. The booth tenders followed the requirements of the old law by putting their initials upon the envelope instead of writing out their full name, and thus it is that the city and town elecflon here yesterday is in question. Thus fur nothing has been done in the mat ter, but it is expected that the elec tion will be contested.

BREAKFAST—SUPPER.

"By a thorough knowledge of the natural laws which govern theoperations of digestion and nutrition, and by a careful application of the fine properties of well-selected Coccoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage, which may save us many heavy dectors' bills. It is by the judicious use of such articles of diet that save us many neary or articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maiadies are floating around us ready to attack wherever there is a weak point. We may escape manya fatial shaft by keeping ourselves well fortified with pure blood and a properly nourished frame. —Civil Service Gazette.

Individuality in Playing.

Everyone can play the ÆOLIAN but no two alike. Some play with more expression than others, even ren-dering Symphonies or Wagnerian Operas with better effect than the average orchestra.

With an EOLIAN in the home, the standard musical works are as available as the books of your library. In either case, it is simply a question of reading, or interpretation Description is useless. One must

see the Æolian to understand and appreciate it. The M. Steinert & Sons Co.
