SUNDAY CABINET MEETING

TO ATTEND IT M'KINLEY REMAINS AWAY FROM CHURCH.

Report of the Court of Inquiry Has Not Been Received but Indications Are That It Will be Made Public by the Middle of the Week-General Pando Reported to Have Conferred With Insurgent Generals Concerning Autonomy.

Washington, March 20 .- President McKinley did not attend church this morning, as is his custom, but instead spent two hours and more in conference with members of the cabinet. Assistant Secretary Day called about ten o'clock and remained until nearly eleven. Secretaries Long and Bliss were the other members present. Commander Glover, in company with Mr. Flint, who has been acting for the government in the negotiations in the purchase of ships, also called and was shown into the president's private office. The members of the cabinet on leaving the White house said there was no special significance in the meeting this morning. The report of the Maine court of inquiry had not been received nor was it definitely known when it would reach here. It was expected, however, early in the present week and as soon as received it would be handed at once to the president, and when it had been read and considered by the president it would be made public. Secretary Long in speaking of the report said that while fully realizing its importance, the country, in his opinion, would willingly accord to the president

TOWED INTO PORT.

Big Freight Liner Osborne Brought Int Hallfax by the Duffield.

Halifax, N. S., March 20.-The big freight steamer Osborne, Captain Rettie, from London bound to Philadelphia, was towed in here disabled tonight by the tank-oil steamer Duffleld, Captain Young, also on a voyage from London for Philadelphia. The Duffield had got her prize a mile inside of Camperdown, at the entrance to Halifax harbor, when the towing hawser broke away and the two steamers were sep arated. The Osborne fortunately found a safe anchorage and efforts were made by the Duffield to get hold of her again, but darkness set in and the work was very difficult and dangerous, though tugs from the city which had gone out to meet them lent as much

assistance as possible. It was 7 o'clock when the accident the Osborne into port two hawsers had been used to perform the towing, but when the steamers got inside the enin. The remaining one could not stand the strain. After the accident the Osborne began to roll so much that efforts to connect the hawser had finally to be abandoned, and Captain Rettle arranged with three steam tugs to late hour when the tugs got the disabled steamer under way and the Osborne was not expected to get all the way up the harbor before 3 or 4 o'clock in the morning.

The accident which disabled the Osborne was the breaking of her tall shaft on Friday night, 11th inst. For over two days she drifted helplessly. One day an east-bound passenger steamer came near enough to be signalled for assistance, but she declined to take the drifting Osborne into tow. The Duffield bore down on her at six o'clock last Monday morning and three hours later had her under way with two hawsers out. They started on the long tow from latitude 42.25 west, longitude 42.50 west, a distance of over one thousand miles from this port. Captain Young of the Duffield offered to take the Osborne to Halifax or Philadelphia, but the captain preferred Philadelphia. Admiral Sleard Authority for This Statement-Opinion Prevalls at Key West That a Synopsis of the Findings Up to Date Has Been Sent to Washington-Court Expected to Re-convene To-day.

Key West, Fla., March 20.-The court of inquiry, according to Rear Admiral Sicard, will continue its work through the present week, as it is not yet ready to make a report on the Maine disaster. the Spanish Navy. Havana, March 20.-Little work was lone on the wreck to-day by the divers or contractors. The city has been quiet after the festivities of last night which lasted until early morning at the Tacon theater, where a dramatic representation was given in aid of the fund for the Spanish navy. There was plenty of enthusiasm in the crowded theater. Every patriotic sentiment believed that the proceeds will amount to between \$30,000 and \$40,000 in gold. Former estimates were too large Even with the enormous prices paid for boxes and seats it was impossible that any such figures as \$80,000 or \$100,000 should be realized, as was hoped by some.

ON NATIONAL ISSUES. Worse Things Than War," Says Dr. Moxom

The morning services at Battell chapel yesterday were conducted by Rev. Dr. Philip S. Moxom of Springfield, Mass. His sermon was one of timely interest and aroused his hearers to great enthusiasm. The greater part of it was an ethical discourse along the lines of his text "Love thy neighbor as thy self." The fundamental idea of his sermon was that Christian principles apply to nations as well as individuals. He counselled peace throughout, saying that war should not be resorted to until all moral and proper statesmanlike resources have been exhausted. He characterized all arguments that war would increase trade and aid commerce in the United States as most reprehensible. In referring to the recent destruction of the Maine, he said, that of itself would not be a cause for war, but if it was plainly shown that the ship was blown up through Spanish agency we would have reason and a right to demand indemnity of Spain, and that If she hesitated in the least, war should be declared, as there are worse things than war. Should it, however, be necessary to wage war it should not be one of conquest, for the sake of gaining territory or getting revenge, but for the purpose of correcting the crying evils that exist in Cuba. It would be a Christian act to interfere and stop the atrocities perpetrated in

He scored the "yellow journals" of this country, saying that they had done as much to excite the people of Spain as had the Spanish papers. Spanish papers, however, are no better than ours, and it is an easy matter to arouse the Spanish people who are for the most part poorly educated. In regard to the annexation of Hawaii the speaker said that we as a stronger nation should protect the weaker and that it was our duty as a Christian nation to protect the people of the islands.

The greatest of enthusiasm was aroused by the forceful and patriotic sermon and "America" was sung at the close, with a spirit such as only young America can display. The last verse was almost a cheer instead of a song.

TO LOCOMOTIVE FIREMEN. Lecture Last Night Under Auspices of Brotherhood No. 284.

The Grand opera house was filled last night with a large audience to attend the free stereopticon lecture on "The Coal Industry" by George W. Carpenter, mechanical engineer of the Pocahontas Coal company, with headquarters in Boston. Mr. Captenter showed an unusually fine lot of pictures of the coal mining plants of Pennsylvania, and the scenery of the Blue Ridge mountains in that state. He was in-

troduced to the audience by William A. Pyle, of the Brotherhood of Locomotive Firemen, No. 284, of this city, under whose auspices the lecture was given. Mr. Carpenter was for twenty years employed on the New England system as a fireman and engineer. In his lecture he described the old and the new methods of mining coal with particular reference to the Pocahontas mines in Pennsylvania, the lecture becon. At the close of the description of the mines and mountain scenery of cruisers, battleships, monitors and tored of young men employed in the railthe song were roundly applauded. The singing by the quartet was a feature of the evening, several songs being sung in the intervals between the three parts of the lecture. The lecture by Mr. Carpenter and the pictures were greatly enjoyed by the 1,500 people present, and frequent applause attest-

ed their appreciation. Mr. Carpenter is well known among the railroad men of New Haven and is very popular with all of them. While he was engineer on the New England road he received a gold medal from a New York newspaper for having made the quickest run on record over the New England road between Hartford and Boston, a speed of a mile in fortytwo seconds being attained on the trip. The officer was unable to telephone for the here, resulting in the death of two ambulance but hailed a cab and took Flannagan and Lovelace to the central police station

Lovelace was in a serious condition and his wet clothes were removed and he was wrapped in dry blankets and was later taken to the hospital, where it was said last night that he was getting along nicely. Had it not been for the prompt action of Policeman Dunlan he would probably have died before he could have been taken to the hospital, as he was in a weakened physical condition from illness. Flannagan was locked up at the police station on the charge of being drunk.

for China's Disintergration,

London, March 21 .- The Chinese ambassador visited the foreign office Saturday evening by special invitation. It is supposed that the French demands in China were the subject of discussion. There are some doubts as to the extent of the demands. A dispatch to the Dally Mail from Nagasaki, Japan, mentions a report that the Yang-Tse valley is included, which tends to confirm the report from Pekin that France has demanded that China shall not cede any portion of the province of Pennsylvania, a number of pictures of Kwek-Chau, this province being within the valley.

The Times has a dispatch from Pekin, however, which explains that the demands apply only to the three provinces, Kwang-Tung, Kwang-Si and Yun-Nan. Discussing the matter editorially, the Times suggests as an ex-planation of these discrepancies that M. Dubail, the French charge d'affaires at Pekin, has demanded more than he was authorized to.

London, March 21 .- The Paris correspondent of the Times reports passages of a conversation with a diplomatist, in the course of which M. Hanotaux the French foreign minister, repudiated scheme for the disintegration of China The correspondent represents Hanotaux said that France had nothing to gain by taking Chinese territory; that Tonquin was enough for her; that she did not desire to settle in the Yun-Nan province or to seize southern China, and that M. Duball had not been outhorized to enter upon the important negotiations attributed to him. "France is not jealous of the Chineso" loan arrangement," said M. Hanotaux. "We think, on the contrary, it will induce England to keep China in as good a condition as possible."

Gentlemen—About one year ago, upon the urgent request of your Mr. Lehwald we placed at the disposal of our students, two Williams Typewriters.

Since that time, we believe that we have given them a fair trial, and are prepared to state that they have given us excellent sastisfaction. Our students speak in highest terms of the Williams Typewriter.

Thanking you for past kindness, we beg to remain,

Coming Grand Musical Event Under Clan McLeod's Auspices at Warner Hall April 1-Some of the Artists Who Will Take Part. The annual concert of Clan McLeod

No. 31, Order of Scottish Clans, is al-

ways looked forward to as one of the musical events of the season. oncert's given by the clan annually for the past ten years have been of such a high class of nature that they have come to be looked upon as one of the treats of the season that cannot be missed. It has always been the aim of the clan to engage only artists of the highest reputation for these occasions. Several times they have at great expense put before the New Haven public some of the best singers that Scotland has produced. these might be mentioned the famous Balmoral choir from Glasgow and 'Durward Lily," the great tenor. For this concert the clan decided to secure the services of New Haven talent and the committee was successful in securing the services of the following well known artists for the program: Mrs. Nora Russell-Haesche, soprano; Miss Edith M. Beers, contralto; Wallace S. Moyle, tenor: Dr. D. Jones, baritone; John Japp, eloclutionist: Alex Gillespie late of the London music halls, in his hornpipe and jig dances, and also the Amphion male quartet, and Fichtl's orchestra. With such an array of talent the success of the concert is assured. This concert will be amongst the last appearances of Wallace Movie previous to his departure for New York, May 1. and doubtless many will take advantage of hearing New Haven's favorite tenor. Miss Beers also leaves the city for Bridgeport at the same time as Mr Moyle. The clan's annual dance will follow the concert. Music will be sup plied by Fichtl and his orchestra. The committee is actively engaged with the programme and expect to publish it during the week. Tickets can be had in advance at Loomis' Temple of Music, Brown's harness store, George

Widow of the Late Ex-Governor, Oc curred in New York Yesterday. The death of Anna R. Morris English. widow of the late ex-Governor James E. English, occurred Saturday afternoon at her home, 13 West 82d street New York. A telegram announcing the death of Mrs. English was received by the English family in New Haven Saturday afternoon, and yesterday Henry F. English, a son of Governor English, and Benjamin R. English went to New York to assist in arranging for the funeral service. It is expected that they will return with the remains to-day after funeral services have been held at the residence in New York. It is probable that additional services will be held in this city at Evengreen cemetery, where the interment will take place in the English lot. The deceased lady had been in illhealth for some time, having been taken ill in Paris in June last. She returned to New York in September and since that time her mother had been living with her. TRINITY'S MUSICAL SERVICE.

Sir John Stainer's "The Crucifixion" Rendered by the Choir Last Night-Fine Musical Treat-The Sacred Edifice Crowded to the Doors and Many Were Unable to Gain Admission. No more distinct proof of Trinity

church choir's popularity in musical circles could be found than that of the large assemblage that crowded the sacred edifice last night, when the choir rendered Sir John Stainer's anthem, "The Crucifixion." Long before the usual time for beginning the service every seat, both in the area and in the galleries, was taken. Every inch of standing space was also taken advantage of, and many persons had to go home disappointed. Owing to the indisposition of Mr. Woodstock, the tenor soloist of the choir, Wallace S. Moyle of St. Paul's church filled the breach. The other soloist was the Rev. C. W.

Bispham. The anthem was a long and difficult one and taxed the abilities of the choir to the utmost. Mr. Moyle was in fine voice and did ample justice to the various solos entrusted to his care, while the rendering of the bass solus by the Rev. C. W. Bispham was all that could be desired. In the choruses the choir more than sustained their reputation and reflected the highest credit on their conductor, Mr. Bispham. In all probability the piece will be again rendered

MRS. ALBERT C. PECK.

Waterbury, March 20.-Mrs. Grace A. Peck, aged fifty-five years, wife of Dr. Albert C. Peck, dentist in the Odd Felows' building, died at the home of Mrs. Harriet L. Beecher, 32 Abbott avenue, where with her husband she had been boarding, yesterday afternoon at four o'clock. Mrs. Peck had been an invalid for nearly twenty-eight years, sometimes feeling well, but usually being far from well on account of nervous prostration. It was from this, supplemented by a grave attack of the grip, that she died. She was a very charitable woman, and during her three years' residence here had befriended many persons.

Dr. and Mrs. Peck came here from Woodbury three years ago in the hope that the change would benefit the invalid. They had no children. Among Mrs. Peck's relatives were numbered Dr. A. A. Crane and his father, Dr. Robert Crane, the latter formerly of Orange street, New Haven, where he She leaves resided for many years. also several relatives in Woodbury and Bethlehem and a brother and sister in California.

There will be services at the place of death, 32 Abbott avenue, on Monday morning at 10 o'clock, the Rev. Dr. J. G. Davenport officiating, while at 2 p. m. at Woodbury, at the South Congre-Woodbury.

LENTEN MISSIONARY MEETING. Large Attendance at Trinity Parish House

Saturday. There was a large attendance at the Lenten missionary meeting held at Trinity church chapel, Saturday afternoon, under the auspices of the Wo men's auxiliary of the Board of For eign Missions of the several Episcopal churches of the city. A quartette from the Yale Glee club was present and sang several appropriate selections Rev. G. B. Morgan, rector of Christ church, made the opening prayer. The meeting was then addressed by Rober E. Speer, secretary of the Presbyterian Board of Foreign Missions, on the subject, "The Personal Responsibility of Christians to the World and Christ." He spoke for some time on the neces sity of Christian missions in foreign

countries. The great needs of such work were shown by many examples of the con-dition of the people which he himself has observed. The account of his travels in Russia, Persia, India and China was graphic and full of interest. He said with the omission of the Christian civilization the Chinese were a race superior to the Americans Many interesting adventures in the in illness of about three months. He was followed by Professor William A. Knight, L. T. D., of St. Andrew's college, Scotland, who has for several years been engaged as a missionary in China. His subject was "Triumphs of Missions in China." He elected city attorney of the city of gave many personal reminiscences of Olympia, which led to his election as the conversion of Confucians and prosecuting attorney for Thurston Buddhists to Christians. He said that Buddhists to Christians. He said that those who are Christians are very sincere and devout and believe the Bible from cover to cover. They will not under any circumstances conduct people to call on Monday. Many peo ple speak of the Chinese as if they were dirt under their feet, but this should not be. They have souls and are good true, sincere Christians, They will give up anything they possess even to their life's blood rather than renounce the Christ they love and

The speaker said he could give so many concrete examples of the conversion of the Chinese that it was hard to decide upon any. One, however, was particularly striking and interesting. He said: "A very rich man who had been a worshipper of Confucius for about forty years and addicted to worshipping Christ they would be im-Christ in their own humble manner. Out of curiosity he watched them conduct their service and when they had "THE ADVENTURES OF LADY UR concluded, was so impressed that he asked them to go through it again. Only a few years ago Mr. Davis of Kansas proved conclusively that by 1895 there wouldn't the price would be too steep for any use. Since then wheat has been more plenty than ever, and the price has been very discouraging to the grower until lately, when it was raised by spe-

To the Editor of the Journal and Courier: This street is one sheet of water from it's just the nastlest, softest and deepest mud that could be found in this beautiful city. The gutters (or where they should be) are so filled up that it's impossible for the water to run off. Even the curbstones are trying to hide themselves in mud through very shame of the street they border. pleasant weather had nearly dried up the mud that has been left over since fall, but the light rain of Friday night has made it as had as ever. A few days since there passed through our street a horse and cart and three men, who were picking up small twigs that had fallen from the trees, and bits of appreciated their efforts to improve our street. It certainly did look clearer we could appreciate much more would be to have it hardened and put in as good condition as it is south of Whalley avenue. It has been prom ised us, but instead we have had several loads of dirt dumped in the middle way out towards the sides and makes matters worse. I think if we could be given some reason why we are so neg lected we might bear it better. Will some one inform us why? AUNT DEBBY.

FASHION NOTES,

At a time when fashions have take

a turn toward elaborateness, when most gowns for formal ceremonies are very highly wrought, an evening dress made somewhat simply of rich stuffs is sure to be in effective contrast if good taste governs its construction. For this reason the dress sketched here might easily enough outshinmany others that were far more show; and highly wrought. It was made from heavy white satin, the skirt having as trimming only two inconspicu ous ruffles of chiffon hear the hem.

The bodice bad a square cut out and a plain back laid in a few pleats at the waist, while the front was richly draped, a shirred piece of satin coming over the right shoulder, and satin ribbon straps crossing at the other side Ribboned knots and jeweled buckles held the front drapery, and a spray of pink roses and foliage over the left shoulder furnished the only bit of color A youthful wearer of clear, fresh com plexion will be finely sutted by such a

All that is necessary to seeing how different such a dress will be from most of the gowns among which it will be worn, is to examine the new silks, especially the new taffetas which go off like hot-cakes. Plaid, checked, figured, plain and chanegable, all are there, each sort with especial recommendation. It seems as if taffeta is being prepared to fill all the offices of silk, and that no other weave will enjoy any popularity worth encourag-Taffeta will be used for liningindeed, if you have silk at all no other silk is right, it will be used for dresses. for petticoats, for wraps, so if you see a bargain in taffeta, you'd better in-

POLO NOTES OF INTEREST.

Hartford Defeated Saturday Night-New Haven Finished in Second Place-Meriden at the Rink To-Night-Benefit Game Tuesday and Waterbury Friday.

The New Haven polo team won its

fifth successive game from Hartford on Saturday night. The score was 6 goals to 3. It was a well earned vic tory and was a fitting close to what might be termed a satisfactory season. True, it might have been more satisfactory had New Haven finished at the top of the heap instead of New Britain. But all things considered, the congratulated on the showing that has been made. New Haven held its grip on first place for quite an extended period. Force of circumstances, however, over which the manage-ment had little control forced them down the hill until they arrived at fourth place. Here their stay was of short duration. They steadily climbed up again until they reached second, where they remain until another penpant can be fought for.

Now that the league season is at an is—everything in this sale will be end and the New Britains at the top here Monday morning at 8 o'clock; of the ladder, their friends hasten to Tuesday or Wednesday-but that's congratulate the team, the management and its popular captain, genteel Willie Parsons, on the success of their labors. New Haven poloists wish them every success until the season

of '97-'98 opens again. The genial and obliging Secretary Peckham of the New Haven team has een very busy trying to arrange for series of interesting games the present week and his efforts have been highly successful. To-night Meriden appears at the rink. The team will be strengthened by the appearance of Conway in its ranks and a close game

is looked for. Tuesday night the game will be for the benefit of the old New Haven team, who will line up in their original form against the present players. It is to be hoped that the followers of the game will show their appreciation of the services rendered by turning out in large numbers on Tuesday night to honor Spencer, E. Gavitt, Jordan, Frank Gavitt and Mallory for their splendid form and fine play during the greater part of the season. But for their well earned victories New Haven would not to-day occupy the honorable position they do in the league.

The Waterburys are coming to play one of their protested games at the rink on Friday night. Waterbury say they will make it three straight. There's many a slip, etc. New Haven will have something to say in this matter. Whatever the result may be the crowd will be without doubt the

largest of the season.

The champion Fall River team will play in New Haven March 29, 30 and April 1, Tuesday, Wednesday and Friday evenings. Applications are coming in already for tickets. Owing to the heavy expense, the management have increased the price of first row reserved seats to fifty cents. The rest of the prices remain the same as here-

LEAGUE POLO SEASON CLOSED WITH AN EXCITING GAME,

Benefit Game To-night for the Loca Players-Barn Destroyed by Fire-Brakeman Injured-Professor Phelps'

Lecture-Personal. The Southern New England league season closed here Saturday night with a fine and exciting contest with the Waterbury team. The attendance was about 600 and that number of erazier polo cranks never before gathered in the local rink. The Brass City team came over here with two new players from the National league, Menard of Providence and Bartlett of Salem, and with two contract jumpers from the same league, and O'Malley from the Maine league, presented a team that in the end proved too fast for the local players, Walton, Wallingford's fast center, came on the floor and stayed less than three minutes and gave it up and Tierney took The game was intensely ex-

citing up to within ten minutes of the finish, when the visitors forged ahead and won the game by a score of 11 to 7. The game was a rough one. The score was as follows:

WALLINGFORD ....... WATERBURY First Rush.

W. Dawson ...... Menard Second Rush. Plerney ..... Williams Fanelle ..... Bartlett

Curley O'Malley Goal, Won by. Caged by. Time 

Wallingford Tierney ... 3:40 Wallingford J Dawson 4:10 Wallingford W Dawson 3:30 Waterbury Menard 2:50

Score—Waterbury 11, Wallingford 7, To tal stops—Curiey 25, O'Malley 30, Refered—Leahey.

To-night will wind up the polo season here. The game will be a benefit for the local players, who will have for their opponents the old New Ha-ven team. Before the game there will be several attractions, one of which will be a mile race between Charlie Walton, Wallingford's center, who skates a mile against Eddie Rawson and Louis Bernatche, who skate half mile each. An amateur game of polo between teams from the two hose companies will also be in order.

A barn owned by Selectman W. Burr Hall, situated west of the railroad and south of Edward Toelle's house, down near the North Haven line, was de-stroyed by fire Friday afternoon. The fire is supposed to have caught from sparks from a passing locomotive. There was about one ton of hay in building. The loss is about \$500 and there was no insurance.

James Sullivan, a brakeman on Conductor Johnson's freight train, fell from a car while switching at this station Saturday morning and was cut and somewhat bruised about the head. but no serious injuries were received. He was rendered unconscious by the fall and taken into the freight depot, and Dr. Wilson summoned. Just how he came to fall Sullivan could not tell

The second of the series of lecture by Professor William Lyon Phelps under the auspices of the Ladies' Library association will be given this evening in town hall. The subject will be "Robert Louis Stevenson."

Selectman W. Burr Hall and wife arrived home from Bristol Saturday afternoon and first learned early in the evening of the burning of his barn down near "Quinnie" the day before. Merwin W. Tuttle is ill with heart

trouble. Mrs. Herbert Lincoln is ill with bronchia! pneumonia.

George H. Nettleton, clerk of public works in Waterbury, was the guest over Sunday of W. A. Goodrich of Washington street.

Rev. A. T. Randall of St. Andrew's church, Meriden, will preach in St. Paul's church Wednesday evening.

Mrs. John Leahy died very suddenly about 9:30 yesterday morning at her home on Meadow street. She had at tended early morning service at the Church of the Holy Trinity and returned home. After she had been in the house about fifteen minutes she suddenly fell from her chair to the floor and expired in a few moments. She was the widow of the late John Leahy, who died about eight years ago, and had no children. She leaves a sister, Mrs. Hartigan, who keeps a store in the Leahy block, and a cousin in this place, Rev. Father Mallon. When John Leahy died he left to Mrs. Leahy a life interest in the Leaby block, which he built on Center street, and it is said that now the property, which is valued at about \$10,000, will, according to the terms of Mr. Leahy's will, revert to the Holy Trinity church.

Song by the choir.

The following hymn is a composition by the pastor:

How blest the bond which binds Our hearts in this glad hour, When each in each, true friendship finds, And love unfelghed is ours. Here on these Woodbridge heights One family we dwell, And in our ardent joys delight, Our mutual loves to tell.

Up to the heavenly hills

We wend our joyful feet,
And with our glad hosannas fill
Thy templed arch complete.

What changes time has wrought Since we in one were joined. Pastor and people in one flock, To labor in this fold.

How many loved ones crowned With silvered locks of age, And desirest children too, are found Starred on our memory's page. The names of loved ones gone afar We also call to mind; How blest their memories are Within our hearts enshrined.

But in the changes made We recognize Thy hand, Whose purposes sublime are made, And hast us in Thy plans.

For all thy mercies, Lord, Encircling all our lives; Here in Thy courts at this glad hour We offer grateful praise.

After the hymn William Wales Peck presented to the pastor at ornamented basket containing \$76 in silver and another containing \$40 in gold to Mrs. Marvin; also a check from an estimable young lady of Bridgeport (whose grandparents were of Woodbridge) for \$25. The whole amount of the

presents was \$147. Warren Tomlinson presented an Easter lily containing eight buds and

ilies on the stalk. The pastor responded for himself and his wife, expressing his surprise, and his appreciation of the marks of kindness his friends in Woodbridge and his summer parishioners had ture by natural means. The genshown him, and saying children were uine Carlsbad Sprudel Salt taken fond of birthdays, but there comes a time when they are not so pleasant, but if they were to be like the present he would like to have them come twice

The choir then sang a hymn and then Rev. Mr. Hoyt was introduced, who made the address of the evening, full of wit and good humor, keeping all in a happy frame of mind preparatory to the supper which was to fol-low. After an address by John M. pastor, they all arose and sang the Doxology, and adjourned to the dining coom in the basement of the church where a most, sumptuous entertainment was provided.

In the midst of the festival there seemed to be a feeling that they would rather hear Mr. Hoyt than to eat, and he was pressed into making another of his witty speeches somewhat at the expense of the pastor, suggesting that he was silver while his wife was pure gold, and as the wife gave direction to things the politics of the parsonage were safe. At the close of the occasion it was pronounced by all as one of the happiest events ever enjoyed in Woodbridge.

#### THE ARGUMENTS FOR PEACE

ABLE SERMON BY REV. W. F DICKERMAN.

Warlike Conditions of the Hour-A Test of Our Civilization-Lessons Draw From Previous Wars-Burden of War-The Millions Slain-What Makes a Nation

At the Church of the Messiah yesterday morning Rev. W. F. Dickerman preached on the subject, "Let Us Have Peace." The arguments for peace were clearly and forcibly presented. The sermon, which is given in substance below, was preached from the text "My kingdom is not of this world. If my kingdom were of this world, then would my servants fight." John xviii,

"O war! thou son of hell, whom angry heavens do make their minister, throw in the frozen bosom of our past hot coals of vengeance."-Henry VI.

Wars and rumors of war perturb the air on land and sea. The entire zone of earth's highest civilization vibrates with military movement. Never before has such an extensive area of the world's territory been invaded by the spirit of hostility. It would seem that Max Nordeau's indictment against our civilization might shortly be justified. Evidently the lust of power, the greed of territorial dominion and race hatred, not only survive, but ever grow in the very midst of modern enlightenment. A rational and peaceful settlement of these international difficulties would prove the redemptive power of our civilization; but the culmination in war of the present attitude would demonstrate how much of savage barbarity remains in our veins. The nations thus involved may be called Christian, a name quite as flexible as the word gentlemen, but in no consistent sense can they be called the followers of the Prince of Peace. The standing armies, miltary schools, naval equipment, the pride of station and parade, to say nothing of the starvation, slaughter and desolation incident to these, are maintained in open repudiation of the religion of the Nazarene And now shall we have war? We pray not. Great'credit is due our president for the calm, judicial temper manifest in our strained situation. Among the three or four provocations for war under warrant of international law, only one, to our mind, should be entertained, namely, that of humanity. Even in this we should be careful to maintain a defensive rather than an aggressive warlike position. If unhappiwe should be drawn into bloody strife in the discharge of duty, we should, of course, fight like modern "Christian soldiers."

In 1731 an English vessel, under command of Captain Robert Jenkins, was boarded by the Spanish Guarda Costa, near Hayana. Not finding the munitions of war expected, the captain was strung up to the yardarms and slashed with a sword to extort a confession of concealed treasures. The poor Jenkins resented the injuries in the name of his king, but the Spanish officer, pulling off a partly severed ear from the captain's head, offered it to him, saying: "Carry that to your king." Thus the ear of Captain Jenkins drove England to war with Spain. In October, 1739, the bells were ringing upon declaration of hostilities against Spain. They were ringing in April, 1748, upon the conclusion of the treaty by which not a single point was gained for which England had been fighting with Spain and France for eight years. England declared the war. The seven years the king of Prussia ended in 1763, leaving both parties in exactly the same position in respect to territory; nearly the same result attended the Franco-Prussian war and the Greeko-Turkish

Aside from the humanitarian considerations, the United States have nothing to gain, commensurate with the cost. It would be a poor satisfaction to humiliate a crippled and infatuated people. I wonder if our wild, hysterical jingoists have any realizing sense of what war means to our national treasury and the homes of the people? I wonder if these reckless incendiaries and merciless war speculators would be willing to serve on the gunboats most likely to be in the thickest of the

We should ponder well the financial burden that war imposes on posterity, the almost perpetual handicap on progress that retards for ages the virtue, industry and general well-being of community. One hundred years after the seven years' war every one of England's twenty-five millions of population paid two shillings annually to the taxation created by that war, and it continues to this day. The number of human beings slain during the last century in civilized states of Europe and America amounts to 20,000,000. The cost of each life was \$7,000. Every year Europe spends \$1,200,060,000 in preventing Christians from killing each other. France alone wastes \$400,000 a day in cultivating the barbaric graces. too, are paying the price of blood. Even at this remote period of thirty-three years from our last war we are drawing out of the toll of our citizens \$183,-000,000 a year. And this is as nothing compared with that deep undertone of woe which vibrates in sorrowful hearts all over our country. Let us not confound the stirrings of the ancestral beast in our blood with patriotism. Now is the trial of our nobility as sons of God, in which we shall choose be-

principles of the kingdom of heaven. Charles Sumner said: "The cost of the war system of Europe is larger than the entire profit of all the commerce and the manufactures in the world. Every warship costs more than well endowed college and more than the largest public library in Americamore than the price of all the food for man and beast upon the whole earth. The money spent in war will purchase every foot of land on earth; clothe every man, woman and child; build a schoolhouse on every hillside; erect and equip a university in every state, and maintain libraries, humane institutions and churches in every commu-

Technique in the construction of defenses and instruments of destruction is laid under tribute at every point to the study, workshop and laboratory. Military science is debtor to the peaceful arts; and here it does not find its highest application. Police service, while important, is not the noblest function in a state.

There can never be unbroken peace until the brotherhood of man becomes such a reality in the world that the professional soldier can find no fields of carnage on which his ambition can

THE LABOR QUESTION.

Some of Its Aspects as Discussed By

Dr. Philip Moxom. A large congregation was present at the United church last evening to hear the Rev. Philip S. Moxom, D. D., of Springfield, Mass., discuss "Some Aspects of the Labor Problem." He said, in part: "It is impossible for us to consider the labor question in any other way than by considering its relations to other questions. The laissez firm-looking man of above thirty. He faire principle of economics over- was not college bred, but had a good turns the foundations of all the moral tinguished for his courteous bearing law of the community. The great army of laborers is awakening to higher ideals of life than that which they now enjoy. It is the logical development of democratic principles. They have a feeling to-day that they have been sinned against. There is a feeling that the relation of employer and employe should be on something more than a cash basis. The workingman's labor is not alone to be reckoned as carried, by and supplied the name, but no other essential part of the light little anecdote, was a man worth knowing. The writer is sorry that he did not know him.

As before remarked, while a name is a splendid thing for a fictionmaker to have in stock, it is likely to prove embarrassing unless it is absolutely on the real Brig Adams, the man who supplied the name, but no other essential part of the light little was an and Northampton, 2 per cent., Payable April 1; books close March 18.

ing also that there is a great amount of labor unpaid. The combination of capital in our time into large corporations has introduced a non-conductor between the Sensations of Fasting Arctic Explorers employes and the employe. It has also reduced the number of the employers in relations to the number of

employed. It is often said by business men that to-day to get a foothold than it was years ago. The working classes are aroused to the unjust inequalities which exist for the enjoyment of life,

Dr. Moxom said that the dangers to be anticipated were not from the threats of the maudlin drunkard, but from men who realized the true condition of affairs. And those of the well-to-do class who while hearing the groans of the oppressed are indifferent to it or those who have given themselves over to the wrongs which exist. Never, he said, was there a greater need of a pure and undefiled religion.

Once a writer of fiction confessed that he eral demoralization incident to war- men. But it is not always safe to do

The writer of this department, journeying in the Teton country just south of the Yellowstone Park some years ago, heard among other names mentioned that of Brig Adams. That Brig Adams really existed was never stated; the name was simply carried into a conversation-when and under what circumstances is a matter of hazy memory. But, although the details of the first hearing of that appellation have long since faded, the name lived in recollection-lived on, waiting for a story to be written about it. A few months ago the story was written. That was the last of the name. and, having been used, it passed along the way of all used-up literary material.

That is to say, it was believed to be the last of it. But it was not, in fact. A few days ago Robert Anderson, of Idaho Falls, Idaho, wrote to say with great courtesy that a mistake had been made. There was a Brig Adams and he wasn't the kind of man the 'varn" pictured him at all. He did not fit any part of the storled description-not physically, morally, intellectually or otherwise. Besides which he had been dead for a long timesacrificed his life in a heroic manner to save and help another. (Parenthetically it may be said that they do

that kind of thing in Jackson's Hole.) "I have this to say of Adams," the Idaho man writes, "not because 'de mortuis nil nisi bonum,' but because tures him. Mr. Adams was a ranchman in Jackson's Hole; a stalwart, foolish for people to say that the teachings of Christianity will settle all of his death shows him more than a straightforward business man. A new settler came into Jackson's Hole late in the fall of 1896. The newcomer was ill provided for the winter-not even Adams was never behindhand in such cases. He started at once through the snow to the new man's camp, brought new life to the despondent family and got to work with a will, sired. While engaged in this Good who suffered and evidenced hardships in these fruitless struggles did it with the higher ideals for society in view. They were martyrs for the cause of better condition for the labor classes."

Dr. Moxom said that the more intelligent of the laboring classes realized that the ends they desire cannot be reached by any arbitrary distribution of wealth. The better class are not for the division of wealth, but for conditions are the first of the laboring classes are not for the division of wealth, but for conditions are the first of the laboring classes realized that the ends they desire cannot be reached by any arbitrary distribution of wealth. SECRETARY LOTZE.

The Lourval and Courier Delivers a Stirring Address at Epworth Church Last Evening.

> General Secretary Lotze of the Y. M. A. held the closest attention of 3 large audience at the Epworth M. E. church last night, while he spoke of the many evil influences that suround young men and tend to degrade them, and explained the way in which they can be saved and brought to Christ. He said many times the ques tion is asked what are we going to do to make the young men better? We should understand the influences and then our duty is to study the matter and try to offset the influences by healthy counter attractions. More young men are ruined between the nours from 7:30 until 10 in the evening than at any other time of day. The young mechanic goes to work at 7 in the morning and excepting an hour for dinner, works till 6 o'clock. He comes home, and after supper dresses himself and says he is going out. Why didn't he stay at home? Simply because there are no attractions. Most of the young men get small salaries and have to live very cheap. Their rooms will probably contain a bed, a washstand, a chair and a couple of pictures. Who can plame him for going out and going up own? Many a young man would be saved from going to perdition if he had a pleasant place to go. Instead of staying at home he goes to the gilded palaces, cheap theaters and other hell noles. 'Tis the worst thing he could do. He is drinking in the worst of evils. The saloons hold out every inducement or young men to enter their places. God bless the young women of the W. ". T. U. who are creating such a seniment against drink in the country.

curse from the earth. Let us go out as individuals and try to lead a young man who is astray back into the way in which he should go. We will be held responsible not for what mistakes we have made but more for what we haven't done.

May the Lord hasten the day when

their influence will reach the men at

the polls and cause them to sweep this

We are going to influence the young man to the proper way by making a pleasant place for him to go and get him interested in the work we are carrying on. We intend employing this time from 7:30 to 10 o'clock which may called wasted in instructing him and building him up and making a better man of him throughout. We will do this by the gymnasium, the reading cooms, the educational classes, receptions, lectures and other ways. A brief statement of the value of educational classes and of the manner in which it is proposed to conduct them was made
