Briston R. I., May 17 .- Among the visitors to this town to-day was W. He is considered an authority on yachting and as an intimate friend of Mr. Iselin has been given charge of the Defender's interests in her coming races. Mr. Duncan said, in speaking of the prospective merits of the Columbia as be the greatest in the history of yachtpoints, one of which is that the steel mast is for the Defender, when all along it was thought to be for the Cothe declarations of the congress of lumbia. Mr. Duncan said the experiment of a steel mast would be tried on the older boat and its success or fallure would have an important bearing on the ultimate rigging of the Columbia. The second point brought out by Mr. Duncan was corroborative of an interview had by the Associated Press a few days ago with Mr. Iselin, in which the latter said that he would not interfere with the builders' plans as to the launching. After Mr. Duncan's visit it was learned from a competent authority that the date of the Columbia's but it is likely to be within a day or

WHIPPING AS A PUNISHMENT. ige Baldwir.'s Views Applauded b

New York, May 17 .- The Medico-Legal society to-night discussed the subject of "Corporal Punishment for Crime." Vice President Clark Bell presided. Addresses were made by several prominent advocates of corporal punishment, and letters indorsing such a method of punishment read. Justice Simeon E. Baldwin of the supreme court of Connecticut was one of the speakers. In part he said: 'I do not hesitate to avow my convicminor offences and a useful addition to Imprisonment for a graver one.

"I believe that President Woolsey was right when he said that the only theory of criminal punishment which rested on solid ground was that to punish was to give the offender his deserts and that a government had a right to use its power for that end. But if we were to accept the sentimental or humanitarian position, that the right to punish rests on the duty to educate the ignorant and reform the vicious, I should none the less insist that whipping was, for many cases, the best incentive to education and reform He who has learned to refrain is half reformed. A whipping has a very direct tendency to teach a man to refrain from whatever is likely to entail another punishment of the same sort." Justice Baldwin was applauded frequently.

CZAR MUCH PAINED. The Effect of His Reading of Professor

Stengel's Pamphlets. Berlin, May 17.-The Lokalanzeiger to-day prints an interview with William T. Stead, who recently interviewed the czar for the second time, in which the newspaper man is quoted as saying the czar read the pamphlets of Prof. Stengel of Munich university, one of the German delegates to the peace conference, who defended war and declared that eternal peace ought not to be the aim of culture, with much pain. The exarina, it appears, also greatly regretted that the ezar's idea had found "such an unfriendly echo in the German home." Throughout Russian official circles it is added Mr. Stead found a conviction that Prof. Stengel's appointment meant a slight to Russia.

Committee of Peoples Party. Kansas City, Mo., May 17 .- An address to the populists of the country was issued here to-night by the national organization committee of the people's party with the endorsement of the National Reform Press association. These two bodies, whose common object is to keep the populist party in the middle of the road, avoiding fusion with other political parties everywhere, had been and the adopted address concluded their cussions was an address agreed upon. A hard fight was made to secure the endorsement of Wharton Barker and Ignatius Donnelly for president and and that to hold the fight on that day vice president in 1900, but this the committee refused to recommend. Instead a thorough organization of the middleof-the-roaders in every section of the ountry is urged with the understanding that they shall enter the national campaign with the present populist organization, but that wherever fusion shall gain the day, state or national, the middle-of-the-roaders shall boit and begin an active campaign to carry out their principles. DESPERATE ATTEMPT OF A NEGRO TO EVADE ARREST.

Defended Himself from a Loft Againt Washington, D. C., Police Officers Surrendered Only When Preparations Were Made to Burn Him Out-Coolness

of Officers Saved Him from Lynching.

Washington, D. C., May 17,-Humphrey Taylor, a negro, suspected of to-day shot and killed Police Sergeant Fritz Passau, wounded Policeman Gow, and kept a posse of half a dozen officers at bay from the loft of a house for nearly two hours. Dozens of shots were exchanged between the officers and the fugit ves who only surrendered when propositions were made to

burn the premises. Last Sunday morning Lewis Rosenstein and his wife, who kept a small store at Slidell, were found insensible and horribly wounded in their store room. Rosenstein died and the woman is believed to be near death. Suspicion fell upon Humphrey Taylor, allas Brown, who had disappeared. The police here were notified. This morning Taylor was seen entering a small house n Fowler's Hill, a quarter of a mile west of Georgetown. A posse of offiwere posted about the house to which Passau, Gow and another officer tried to gain an entrance through the front Repeated knockings failed to elicit a response, and finally the door was f reed. The two small rooms on the first floor were empty, and the officers ascended to the second story. The front rom was also untenanted. the men passed into the rear apartment Taylor opened fire from the trap door of a cock loft, in which he had taken Sergeant Passau sank to the refuge. floor dead with two bullets through his chest. His companions rushed forward, and Policeman Gow opened fire through the trap, but failed to hit the fugitive. Taylor, however, retreated to a corner of the loft and realizing his advantage, the officers picked up the body of the sergeant and retreated. Gow received a bullet in his right hand. badly shattering it, and another struck his metal badge and glanced downward the entire length of his coat. The reserves of two precincts were called out ing had attracted several persons. Occasionally the negro would fire a shot would answer it, but no one was hurt. With revolvers in hand the officers watched every window and tried several ruses to draw Taylor's fire. Most of these were successful, for he stemed to have an unlimited supply of ammunition. While he realized escape was hopeless, he was evidently determined

to hold out as long as possible. Finally concluding that he would not surrender, the police prepared to fire the Tuffs 10, Harvard 4.

He said that a man named Brown had committed the murder and that he waited on the outside and kept watch, receiving from Brown \$60. Upon searching the premises the police found \$192, a gold watch and chain and a diamond ring. His conflicting stories as to his movements and where he obtained the money led the police to believe that he is the man the Maryland authorities are looking for. It is probable, however, that he will be detained by the district authorities and tried for the murder of Sergeant Passau.

General Eaton is doing good work in this respect. There is an English teacher in each of the ten districts and English is taught in all of the schools of San Juan. When I left San Juan I was given a reception in the theater in San Juan, in which 200 school children took part. They sang American patriotic songs and several delivered addresses in English. The same thing took place at Ponce, where there are five English teachers.

IN AND ABOUT THE COURTS

WRITOF CERTIORARI GRANTED BY UNITED STATES SUPREME COURT.

Famous Suit on a Contract-William Holland Found Guilty of Non-Support of His Wife-Sen. Callahan's Bondsman, William Neely, Asked to Pay a Deficiency of \$4,887.11-Other Matters.

A writ of certiorari has been granted by the supreme court of the United States on the application of Attorney T. M. Maltbie of Hartford in the suit brought against Mrs. H. Drusilla Mitchell of Bristol, by the First National bank of Chicago. Word has been received that the supreme court had decided to grant the motion and the question will now be argued before the highest body and gone into anew. Owing to the amount of litigation which has been involved in the state and federal courts considerable interest is being taken in the outcome of the suit.

GUILTY OF NON-SUPPORT. After forty-five minutes' deliberation the jury in the common pleas court yesterday found William Holland gullty of the charge of non-support preferred by his wife. He was sentenced by Judge Hubbard to pay his wife \$4 a week for six months.

On Tuesday Mr. Bishop made a formal demand upon Senator Callahan for the return of the \$4,887.11. The document was handed to Senator Callahan while he was in the cloak room at the He accepted the document

and made no reply. There was a conference over the matter yesterday, and it was afterwards stated that the bondsman would settle with Executor Frank S. Bishop to-day.

IN EXECUTOR'S HANDS.

Attorney George Hall has applied to Judge Cleaveland for an order compeling Executor Elliot H. Morse, of the will of the late Rev. Dr. William H. Vibbert, to distribute to the heirs the sum of \$600 now in his hands, being a part of the estate yet undistributed. The amount to be distributed was \$19,-000. This was divided April 7, 1895. Executor Morse retained \$600 for a trust fund. George A. Vibbert, a son, claims that the codicil depriving him of the bequest of \$5,000 absolutely and making it a trust fund, of which the interest only is given to him, is illegal, no having been executed in accordance with the statute provisions. A hearing will be held to-day.

Theodore Sucher was appointed conservator over Mary Keirn, an inmate of Springside home, by Judge Cleaveland. The appointment was made in order to secure the insurance money coming to the woman.

Notice of a suit has been given by Attorney S. A. York, trustee under the will of Samuel Perry, against N. A. Ludington and others. The suit is one of foreclosure on property on South Front and Quinniplac street. The mortgage is \$1,000.

Charles Z. Bailey and J. H. Wilson have been appointed appraisers on the estate of Olie S. Johnson, assigning debtor. Johnson kept a store at the corner of Elilott and Oak streets, but assigned about two weeks ago.

AGAINST FIREMAN REAGAN. Florence Smith has instituted bastardy proceedings against Jeremiah Reagan. Deputy Sheriff Dejon served the papers. Bicey Bees an furnished a bond of \$700 and Reagan's discomfiture was only temporary. The suit is returnable at the next term of the common pleas The usual claim of support for the child until it reaches a reasonable age is made. Reagan was tried in the city court on the charge of seduction, but was acquitted of the charge. The new suit is the outcome of the former harge, the last suit being a civil one, and the truth of its allegations depending upon entirely different evidence

WALKER'S CASE SETTLED. The suit brought by David N. Walker and wife of West Haven against Clarence L. Thompson to enforce the specific performance of a contract relating to some property which exchanged hands between them, has been estiled out of court with satisfaction to both parties. Lawyer J. B. Tuttle and E. tiffs and Harrison & Zacher for the defendant.

Only the Numbers Were Left-U. S. Treasurer Honors the Fragment. Miss Evelina Lederer of this city recently had a decidedly interesting experience. About two weeks ago she reperience. About two weeks ago she re-ceived from her employer an envelope tettes by Pinsuti, Edward German and containing \$5.80, representing her week's Robert Franz, all three "Spring" wages. On reaching home she tore one Later came a difficult and intricate corner of the envelope off and took out plece of four-part writing, a "Rhapsothe eighty cents, leaving the \$5 bill in dy" by Rheinberger. Finally came the envelope on the kitchen table, Af- the Sunshine," by Bohme. Each memter doing this she stepped out of the per of the quartette did solo work. Mrs. com for a minute. Her mother entered during her absence and seeing the envelope with the corner torn off lying sung in English. Mrs. Smith sang them on the table thought there was nothing in it and threw it in the fire. The young lady returned at this time and asked her mother what she had done with the envelope. On being told she hastily took the lid off the stove and succeeded in rescuing the bill from the flames, but not before all of it but the small part containing the number of Feast." His voice is especially true and the bill had been destroyed. The fragnent of the bill was later taken to Maier Zunder, president of the National Savings bank, who employes at his store two of the young lady's brothers, and to him was explained the circumstances, Mr. Zunder presented the case to Charles H. Trowbridge, cashier of the Mechanics' bank who took the tes timony of the mother and daughter as to the occurrence, and Mr. Zunder testified as to the worthy and reliable character of the people. The frag-mentment of the bill was then sent by Mr. Trowbridge to the treasurer of the United States with the story of the occurence. Yesterday an order for \$5 was received from the United States treasurer by Mr. Trowbridge and the money was presented to the young lady, who was very grateful to receive the same.

CASTORIA For Infants and Children. The Kind You Have Always Bought THE MUSIC FESTIVAL ENDED

ASSOCIATION'S MOST SUCCESSFUL MEETING

> loses With a Splendid Performance of Arminius by the Gounod Society-Other Features of the Closing Enter-

The big festival is over, and peace reigns again within our halls. The most ardent devotes of the heavenly maid mention of this performance, which was has been satisfied, and the weary, satiated music teacher can now return to his duties and save up his pennies for the next great pleasure in 1900. It has been the most successful festival, both artistically and financially, that the association has known, and great things are expected for next year. The attendance has been enormous at every concert and the weather has been propitious; there have been no disappointments or substitutions, and the business end of the affair is managed in a wonderful way.

The festival has come to be a serious and dignified occasion, and the ambitions of the promoters of the association are to make it the big annual festival of southern New England. If things continue to improve as rapidly for the next two years as they have in the two gone by, this does not seem improbable or overweening. If the price is raised to two dollars, as is proposed, it will enable the management to alter some features which are not altogether sat- is an old favorite, Mr. Van York made isfactory now, and it is hoped that this change will be made

THE MISCELLANEOUS CONCERT. perceptions Yesterday's pleasure was begun with miscellaneous programme at 9:30 o'clock. The music teacher is apparently an unpleasantly early bird, for at the appointed hour a numerous assemblage was ensconced in the best seats. Fryer, E. A. Parsons' precoclous pupil, was the first performer. The wonderchild is usually a bore, but Master Fryease as to relieve one entirely of the ist. feeling that his talent has been forced by unnatural means. He plays remarkably for a boy of his years, and Mr. Parsons has every reason to be proud of him. He played three pieces by Raff, Liszt and Macdowell, and az an encore Later he played Grieg's "Papillons." Weber's brilliant and showy concerto op. 79 with Mr. Parsons at the second plano. After this he was twice recalled, fastener. playing first the Hilnsky "Berceuse" in G flat and second Mendelssohn's "Spinning Song," which brought him into unfortunate comparison with Szumow-

W. R. Clarke, a baritone from Bridge port, sang next. His selection was Tours' old ballad of "The Three Singers," and Miss Swan-accompanied him. Miss Florence Isabel Cummings, one of Mr. Troostwyk's pupils, was next heard. Miss Cummings substituted Leonard's 'Souvenir de Haydn," which consists of variations on the Kaiser-Hymn, for the number on the programme. Like all of Mr. Troostwyk's pupils, Miss Cummings has a good tone and plays with finished Max Dessauer accompanied her beautifully in this as well as in her second number, which was Wienlawski's "Legende." Miss Cummings' encore piece was the familiar Hauser "Wiegen-

Miss Marguerite Rockwell sang two songs by Specker and Harriss. Rockwell is a Middletown girl and sings at the Church of the Redeemer in this city. She has a resonant, rich contralto

Mrs. Mary Morse Granniss, accompacharged with theft of five wooden nied by F. B. Granniss, sang Nevin's horses worth \$3 apiece. The case was "Rosary," and with considerable verve is Mine.

AT ELEVEN O'CLOCK.

At 11 o'clock came the concert by the

Park church quartette of Hartford, assisted by Miss Sarah Hamilton, planist; Miss Emma Spieske, violinist, and Miss Bertha Spieske, accompanist. The Park church quartette is famous throughout the state, and its annual contributions to the festival are always of interest, Timethy Ryan was charged with The quartette consists at present of Maercklein and Mr. Barrington, and is, of course, directed by John S. Camp. one of the best known musicians in the state. Mr. Barrington did not sing this year, but sent E. L. Couch, jr., as substitute, so that he was hardly missed. The quartette sang beautifully yesterday and their selections were, most of them, unfamiliar and of particular merwhich lost much of their effect by being with her customary intelligence, and they are difficult and ungrateful things except in the hands of a finished artist Mrs. Reynolds sang "Non torno," by Mattei, in French. She has a superly contralto voice and she controls it with great skill. Mr. Maercklein sang "Onaway, Awake," the tenor aria from Cole vibrant in the upper register, and this

aria suited him well. Mr. Couch, who made an excellent impression, sang the familiar "Israefel." John S. Camp accompanied all of his singers with his usual taste. Mr. Camp prefaced Mrs. Smith's solos and Mr. Maercklein's aria

with some explanatory remarks which were rather amusing because they were in no way illuminating. THE GOUNOD CONCERT.

The festival was brought to a close with a superb rendition of Bruch's "Arminius" by the Gounod society of this city under the direction of Emilio Agramonte. Space forbids more than a brief the crowning event of the festival. Gounod society has never sung better, and has never been heard to better advantage. There were nearly three hunthrilling and impressive. knows the work perfectly and the performance was without a single hesitation or weak attack from beginning to end. Mr. Agramonte was perfectly cer-tain of his forces and he conducted with great freedom, inspiring the singers to splendid dramatic achievements. The society has never showed so much regard for nuance and the gradations from the clear planissimos to tremendous, sonorous climaxes were most artistic and admirable. The Gounod society has never had a better orchestra than the one last night, which was made up partly of men from the New Haven Symphony orchestra and partly of men from New York. The soloists were wholly satisfactory in their parts. Miss Stein a favorable impression last year, and Mr. Martin is a promising singer with a voice of beautiful quality and artistic

THE SONG RECITAL. The biggest audience that assembled for the daytime event came to hear Mr. Bushnell's song recital at 2 o'clock. Mr. Bushnell sang yesterday as he has never bristling and alert. PRISONER OF ZENDA TO-MOR-ROW EVENING AT HYPERION.

"The Prisoner of Zenda" with its me more or less engaged in the discussion of lange of nineteenth century costumes theological questions there had been and sixteenth century romance will be presented at the Hyperion theater on Friday, May 19, by a fine company under the direction of Daniel Frohman. This is probably the last time the play will be given in this city, as a new play will enlist the attention of the company next season. The cast is essentially the same as in the past and is still headed by Howard Gould, who has made a reputation as the two Rudolphs. The play itself is too well known to require any extended description of it. charm lies in the atmosphere of mance, which, although the action is laid in modern times, continually pervades the story, and is in no wise weakened by the occasional disclosure of the tourist of Norfolk blouse and knickerbockers. The sale of seats is now in progress. Prices \$1.59, \$1 and 75c.

Particular attention is called to the fact that the curtain for the presentation of the "Prisoner of Zenda" to morrow evening will rise at \$:30 o'clock-

HEARING THIS EVENING. Proposed Double Tracking on Whitney Avenue Electric Road.

The question of double tracking Whitney avenue will come up this evening at the hearing before the city's committee on railroads and bridges at the city hall at 8 o'clock. The question is whether the residents on the avenue are going to be satisfied with the present necessarily poor service or whether they will be in favor of a double track, which will afford the best kind of ser vice, shorten the time, remove the delays and in every way be an improve ment for those who use the cars for all time to come. The hearing to-night affords an opportunity for all interested in the proposed improvement to be heard upon the subject.

North Haven Congregational church, of which deceased was a member over forty years, officiated, assisted by Rev. George B. Cutten of the Montowese Baptist church. Mr. Cutten made some appropriate remarks, in which he referred to the virtues of the departed, to her long and useful life and to the loss sustained by the church, the family and the community in her death. The selections, "Jesus, Saviour, Pilot Me," "Some Sweet Day" and "O Morning Land," were sung by Miss Mae Smith of New Haven and Mrs. Allie Ross Smith of Fair Haven. There was a large number of beautiful floral offerings. The bear-ers were three nephews of the deceased William E. and John Brockett Nathan H. Marks; two cousins, Henry L. Clark of New Haven and Albert H. Young of West Haven, and Dairy Commissioner Noble of Hartford. The interment was in the Montowese cemetery.

At the annual meeting of the Ecclesiastical society of the Second Congregational church Willet A. Hemingway was re-elected clerk and Charles Keeler freasurer. The financial reports were satisaftcory, showing that all debts are paid and there is a balance of about \$550 remaining on hand.

And he died worth several millions.

In several of the western States the ranchmen and farmers are making use of the wire fences as conductors for telephone circuits. It has been found that the fence wires worked perfectly for this purpose, and local companies have been formed in several counties of Kansas to further the idea. Many of on railroads the same as Christian minthe ranches are a considerable distance isters. from railroad and telegraph facilities, so that ranch owners have eagerly availed themselves of this method of communication with the towns and stations.

A San Francisco newspaper man tells this story about one of Patti's visits but to keep its population within the to that city: "The diva stepped from the train, and, after inhaling a lungful of fog. remarked: 'Oh, this is heaven! 'All my troubles are paid for! Thank heaven I breathe the air of San Franclsco once again!' This was all very sweet in the high priced canary bird, and the newspaper boys were all delighted. However, it was only a short time before I went down to the train to meet Pattl at Salt Lake City. She was descending from her car, and as her feet touched the ground she exclaimed: 'Thank heaven, I breathe the air of Salf Lake City once more! All my troubles are paid for! Oh, this is heaven!' The newspaper boys were all delighted with her. As for myself, on both of these occasions I was delighted also-with the diva's lovely hypocrisy, that accursed sin which the poet tells us takes the best men in. > Even the unspeakable Turk has his friends and defenders. Every American and Englishman whom I met in Con stantinople went to the trouble to assure me that the Turk was not as wicked as some persons would have us believe, writes the Constantinople corre spondent of the Chicago Record, and he continues: There was no denying that the Turks had slaughtered several Armenians now and then, but this pastime was not wanton and malicious, but had been provoked. My informants did not pretend to justify the killing of Armenians, but they did say, without exception, that, taken as a class, the Turks were better than the Armenians. They said that the religious prejudice in favor of the Christian Armenian as against the pagan Turk had colored the opinions of Europe and America. As an instance of Turkish tolerance the attitude of the government toward the American college was cited. Here is an institution seeking to displace the religious belief of the country and put the constant protection of the Sultan and has received presents, favors and concessions of every sort from the government officials. If the Mahometans founded a college in America and began to teach the Koran would they be as well treated? They would be tolerated, of course, but would they ride half-fare

A FINE CONVENTION CITY.

The music teachers' convention closed last evening in a blaze of enthuslasm, and the fire of enthusiasm has been bright and steady throughout the whole proceedings. The music teachers have had a good time, and so have many who are not music teachers. The splendid fitness of New Haven for a convention has again been shown. Anybody who can come to a convention in New Haven at any time in the year is lucky, but anybody who can come at this time in the year is more than lucky. Our visitors will carry away with them sweet memories of the spring beauties of New Haven Green, the rock parks, and the scenery along the trolley lines in the suburbs. Never have those beauties been more striking and satisfying. What have Hartford, Bridgeport, Meriden and Norwich to offer big conventions compared with New Haven? No wonder the music teachers want to come here again, and no wonder New Haven wants to have them come again. They have been pleasant and profitable.

AN INTERESTING SCHEME.

The scheme of Rufus L. Perry, a colored lawyer and politician of Brooklyn, on the eastern end of Long Island is The inhabitants of this town, it reems, are to be carefully chosen negroes from the South. Every one of them must be of good character and industrious habits, and the head of each family and each unattached colonist must possess a capital of \$75 on which to begin the new life. No white person will be allowed to own real estate in the new city, but employment is to be provided by factories erected and operated by the money of some unnamed white captalists. These are the essent al features of Mr. Perry's scheme, and it is said that, owing to the recent lynching in the South, his trouble will be, not to get enough inhabitants for his town, limits proposed-1,000 at first and 15,000 after things get to running smoothly. It will take model negross and model management to make this scheme a

NOT TOO ELEGANT.

Rev. F. Perry Powers makes short omist of the curious argument that many people stay away from meeting gant. He has made a special study of New York meeting houses, and he says: None of these churches has a showy exterior. A few of them, built many years ago, when the wealthy people of New York lived near them, are fine brownstone structures, but plain, much plainer than the modern sayle of commercial architecture. The interiors are are good enough for any one to worship in, and yet they are too fine for no one. FASHION NOTES.

Where Looks Win Over Comfort.

In many of the newest shirt waists a great sacrifice of comfort has been made in order to attain a greater degree of dressiness. In some models the out-lines are exactly those of a stylish bodice; the accompanying picture shows them faithfully. The sleeves are quite as tight as they are in any current form of bodice, and the fit elsewhere is certainly not of shirt waist character. The resemblance to the dress bodice is helped along by a yoke that often is of different material from the rest. This waist was white lawn, and the yoke, which was in front only, was of the lawn fine-

While there is no denying that such bodices are more dressy than shirt waists, and that perhaps they are more sulted to the finest materials at home ever conceived. All the talking than are simple wash stuffs, yet if they is in strained falsetto, and there is yellare to be admitted permanently to the ling and posturing and wailing and cor strongly as it has done in the past. Those points are what has made it welbe downed. Consider waists like this and horned, rush on the stage and gypictured one as an expression of the rate and flout banners, and draw up in dressmaker's jealousy or ambition, and the truth won't be far away.

possible. Many cotton goods are made theater. with cloth finish and in cloth coloring. Cotton covert can hardly be distinguished except by the touch from covert cloth. Cottons are to be made up with the simplicity of cloth gowns well into the summer, and denims and ducks come in shades that make this possible. Elaboration is to be expended in organdies, wash silks, mulls and lace dresses. FLORETTE.

The Happiest Heart.

Who drives the horses of the sun Shall lord it but a day; Better the lowly deed were done, And kept the humble way.

The rust will find the sword of fame. The dust will hide the crown; Ay none shall unit so high his name. Time will not tear it down.

The happiest heart that ever beat Was in some gulet breast Was in some quiet breast That found the common daylight sweet, And left to heaven the rest.

The elephant superior quality. weighs 10,000 pounds, is ten feet high and the tissue through which the veterinary will cut is six inches thick and of the toughest nature. Dr. Kings-Dodds has received hundreds of letters from veterinarians and surgeons who solicit permission to witness the operation and the management of the show has received hundreds of letters of a similar import.

The elephant is a "man-killer" and has killed several circus employes. keepers fear it and are unable to exer cise any sort of control over it. It is known to circus people all over the world as the "---- elephant" and has the most evil and vicious reputation of any wild animal in capture. A big delegation of surgeons will come down to witness the operation, which is expected make and lay all carpets to curb the flerce spirit of the animal A specially constructed derrick will be used to facilitate the operation and tons of iron cable will be used to restrain the beast while the operation is being per-formed, so that the life of the operating surgeon and attendants will not be endangered. THE BREAD FRUIT TREE.

The bread-fruit tree of Ceylon is very remarkable. Its fruit is baked and eaten as we eat bread, and is equally good and nutritious. In Barbutu, South Amer, is a tree which by plercing the trunk produces milk with which the inhabitants feed their children. In the interior of Africa is a tree which produces excellent butter. It resembles the American oak, and its fruit, from which the butter is prepared, is not unlike the olive. Park, the great traveler, declared that the butter surpassed any made in England from cow's milk, At Sierra Leone is the cream-fruit tree, the fruit of which is quite agreeable in taste. At Table Bay, near the Cape of Good Hope, is a small tree the berries of which make excellent candies. It is also found in the Azores. The vegetable tallow tree also grows in Sumatra, in Algeria and in China.

In the Island of Chusan large quantities of oil and tallow are extracted from its fruit which is eathered in Navember or December, when the tree has lost all its leaves. The bark of a tree in China produces a beautiful soap. Trees of the sap-indus or soap-berry order also grow in the north of Africa. They are amazingly prolific, and their fruit contains about thirty-eight per cent. of saponin,-

Mystery Solved

Can't recollect a time when most stores weren't underselling us on Maple Syrup-we've simply never really been in it when it came to price.
In the valuable "Hints to House

wives" column of a prominent Sunday journal, we find the following receipt: 'How to Make Maple Syrup Without the Maple.

Take clean cornools and cover with water; let coil until all the substance is boiled out and you will have a liquid about the color of tea; strain this arefully through a fine cloth and add brown sugar and boil down to a nice syrup; let stand one day and it is ready for use; you cannot tell this from our maple syrup and it is much cheaper.—MRS. C., No. 232 Wells lane, Sisterville, W. Va; **

H. H. Jackson of Bridgeport Elected Grand Master-Grand Secretary Botsford Also Re-elected-Latter Criticises Financial Policy of Order in His Annual Report - Reports of Other Officers.

The Grand lodge of Odd Fellows of Connecticut held the first of its two big sessions in the Odd Fellows' building yesterday. It opened in the morning at 10 o'clock with about 500 delegates in attendance, among whom was Grand Secretary Pinkerton of Worcester, Mass. The meeting was caleid to order by Grand Master Z. S. Robbins of Norwich, who opened the meeting with the reading of his annual report. Follow ing him came the reports of Grand Secretary Botsford and Grand Treasurer Marigold of Bridgeport. The names of 135 members of the order were propose: for membership in the Grand lodge, and all were elected. Nominations for officers of the Grand lodge for next year closed the morning session and the meeting adjourned at 1 o'clock.

During the recess the delegates dined and then enjoyed short walks in groups of five and six around the central portion of the city. All wore their delegates' badges and caused considerable comment among other pedestrians. The convention was one of the largest held in years in point of numbers, as present besides the delegates were a number of grand masters from other

The afternoon session opened at 3 clock. The first business transacted was the election of the new officers. Those elected were as follows:

Grand master, Horace H. Jackson, Bridgeport; deputy grand master, Sel h G. Blakeman, Shelton; grand warden, William S. Hutchinson, South Manchester: grand secretary. Frederick Botsford, New Haven; grand treasurer, William H. Marigold Bridgeport: grand representative, Zebulon R. Robbins

The appointive officers are as follows: Grand marshal, J. A. Carpenter, Terrington; grand conductor, Hanry H. Nichols, Danbury: grand guardian, Albert L. Mansfield, Putnam; grand her-ald, Horace Huntington, Meriden; grand chaplain, Rev. Charles A. Smith. Plymouth.

Following the election of officers came the reading of the reports of the other officers and finally the installation of the newly elected officers. NEW INDUSTRY FOR HARTFORD. Skerry Steam Carriage to be Manufactured There.

In all probability, Hartford is to have a new enterprise in the shape of a motor carriage company. The new company will manufacture the steam carriage recently exhibited in this city by its inventor, a Mr. Skerry of Waltham, Mass., and will have a capitalization of \$300 .-The new organization will probably be known as the Director Motor and Wagon company, of Hartford, Conn., U. S. A., and it will manufacture pneumatic as well as steam carriages.

This carriage is no experiment, but a practical and simple development of the that it can be easily understood by persons of average intelligence, while to and fuel, it is one of the most inexpensive of the power carriages to operate yet put on the market. The carriage itself costs but \$700, while the expense of operating it is but 1-2 cent per mile.

The company under its proposed articles of organization will be licensed by the New England Motor Carriage company, and the articles will allow it to manufacture vehicles propelled by steam, electricity, oil gasolene, and other powers, consisting of motor carriages for pleasure purposes, with one or more seats, for delivery wagons, for express wagons, for busses, for carryalls. and consisting of wagons, buggies, runthis company have options upon the property, business and goodwill of the 'Director Wagon company," of Hartford. option (an additional and positive source of profit) upon an established business which has been so prosperous in your midst stamps the enterprise a success and places the whole proposition upon velvet, because the moment you invest your money it commences to earn without waiting for a plant to be built and the help to be educated. The money invested goes immediately into an established business which has the highest prospects before it. The people desiring to form this company consider themselves exceedingly fortunate in securing this option from the 'Director Wagon company,' which in sixty days can fill orders for steam vehicles, while in the same sixty days they will be paying expenses and giving returns for money invested.

"Figuring from known demands and known profits the capitalization mentioned above can reproduce itself in five years and pay handsome dividends besides."

DEATH OF THOMAS HACKETT. One of the Oldest Members of the Police

Farer. Patrolman Thomas Hackett, one the oldest members of the police force. died about 6 o'clock last evening at his home, No. 143 West street. Mr. Hackett had been ill for some time with cancer of the stomach, and on February 18 last was obliged to cease duty on account of III health. Since that time he had failed steadily, but had been able to walk about near home until about died last evening. Mr. Hackett joined the police force in December, 1870, about three weeks after Sergeant James Cook was appointed a member of the force. He was always known as faithful officer in the performance of his duty, and as a worthy citizen of New Haven. All who knew him highly respected him. He was sixty-two years of age, and for the past four years had been on day duty at the corner of George and Church streets up to the time when he was obliged to leave on account of his ill health three months ago. He leaves besides his wife four sons and three daughters. One of the sons is William H. Hackett, instructor in Latin in Hillhouse High school. The other sons are Thomas, Jeremiah and John, who reside at home. One of the daughters is Mrs. Frank Farrell of this city. The other two daughters reside

Warner Hall.

Yesterday afternoon in Warner hall occurred the third and last of the series of musical programmes given by the public schools under the direction of Professor Jepson. More children took part in this than in the two previous recitals, and in every way it was the most interesting and most dred and twenty-five pupils from Web-Welch schools participated.

ness of the school, have done duty for especially noticed for the accuracy and and Willie Borgwardt,

One of the best quartettes that has been heard came from Strong, and is composed of Grace Ryals, Bessie Roberts, Christella Glynn and Frederick Smith, who sang with remarkable sweetness and harmony, their voices blending well.

As on the previous days, the original exercises proved of great interest. Out of many that were very good, those of May Luddington of Strong, Rosie Polio of Hamilton, Mary Tinkey of Wooster and Willie Krause and Diana Merits of Welch elicited greatest applause. A pleasing incident of the afternoon

was the extempore singing of Mrs. May Loveridge Robbins, who happened in just before the work of the children began. She graciously responded to a request that she sing for the children and allowed Professor Jepson to introduce her as a former Webster school pupil, which at once established a bond of sympathy between her and her youthful auditors

She was in the best of voice and the delight of the children knew no bounds, they showing their appreciation by applauding to the echo. She was accom-

panied by Willis Alling. The exhibit of written work has received much attention, and many expressions of astonishment have been heard that children could write music

All who have attended the recitals at Warner hall have become convinced that New Haven certainly leads in the musical ability of her pupils, and the credit is given, where it is justly due, to the untiring labors of Professor Jep-

NATIONAL EDUCATIONAL MEET-

Arrangements for an Attractive

On the occasion of the National Educational association meeting at Los Angeles, July 11-14, the New York Central and Hudson River Railroad company has arranged a "personally-conducted excursion" to leave New York July 5 by special train of Wagner vestibuled sleeping cars, visiting Colorado Springs, Manitou, Garden of the Gods, Pike's Peak, Santa Fe, spending four days at Los Angeles and four days in San Francisco, with side trips to San Diego and southern Californian points, Grand Canon of the Colorado, the Yosemite, Monterey, San Jose, Santa Cruz. Return trip is arranged from San Francisco via the Shasta route, stopping at Portland, Tacoma, Seattle, St. Paul, Minneapolis, Chicago and Niagara Falls, and through the Yellowstone National park.

The tour is to cover a period of thirtyone days, six days in the Yellowstone, and the cost, including railroad and car and at dining stations, and at the best hotels en route, is \$216. Option is also given members to return direct. icut with a membership of 1,500. In from San Francisco at a much less cost, tent tourist agents and teachers.

An attractive Illustrated Itinerary giving all particulars of the tour has been issued and a copy can be had by addressing Milton C. Roach, general eastern passenger agent, New York Central and Hudson River Railroad company, 413 Broadway, New York city,

MOUNTAIN-CLIMBING A FINE

The little republic of Switzerland, which is acknowledged to be a model in more respects than one, has produced nothing more marvelous than her brood of expert mountain climbers. The habit was first acquired by them for the pleasure and excitement of it. It was and is a most fascinating sport, but so dangerous to the novice that professional aid was sought to help scale such dizzy heights as the Jungfrau and Matterhorn. The latter was first ascended in 1865, four of the party losing their ives; but nowadays the "trick is turned" by many persons each year, and with little peril, thanks to the knowledge, nerve, strength and skill of the sure-footed Swiss, who climbs for a living. And the business must be a great deal more profitable than "scratching for a living," since the Canadian Pacific Bailway company has just importof the a-sociation are invited to attend ed three of Switzerland's acknowledged "star" climbers and has sent them out lumbia Rockies in the vicinity of Banff. the Lakes in the Clouds and the Great Glacier. Reception to Members of Musical Club. The St. Ambrose society of this city gave a reception yesterday afteronon to members of other musical clubs throughout the state, visiting the May festival. Lunch was served in Prof. Fowler's studio, which is the regular habitat of the club, by Caterer Francis and was greatly enjoyed by those participating. The St. Ambrose, which was organized about four years since by some of the best planists of the city for musical study, has steadily advanced in growth and reputation until it has reached a position where it can be of service to other similar clubs. The acquaintance thus formed between members all over the state was exceedingly pleasant and the interchange of views and plans for work and advance ment of musical interests cannot fail to

Financial. The Stock Market New York, May 17 .- When it was an nounced on Monday morning that some of the most powerful financial interests in the country had banded themselves together for the support of prices in the stock market it dissipated very largely the timidity of holders of the group of securities which had been so narvelously increased under the favoring activities of the late ex-Governor lives of this well mated couple extended Flower. In fact the Flower stocks as a 1812; Mexican, civil and Spanish, in group were quite conspicuously quiet which the United States has engaged in during the early part of the day. Their position seemed to be left to the natural course of events and the general trend course of events and the general trend of the market. It was the events of the day in the general market that seemed to confirm the purpose of the financial leaders. These events were a very marked disinclination on the part of present holders of securifies to proceed with any liquidation and a quiet and persistent outside demand for a wide persistent outside demand for a wide range of stocks. Some very large transactions in bonds, especially in recent or contemplated issues of railroads of the 3 1-2 and 4 per cent. grades were also in evidence of the pressing demand for investment from a large reserve of capital. The money market was noticeably easy and advices from different points in the interior were of large funds on hand. The statement of St. Paul's May, showing an increase of over \$24,dicate a continued prosperous condition of railroad traffic. London also showed

gross earnings for the second week in 000 compared with the corresponding week last year, when the extraordinary deal was in progress, was taken to in- LARD: of railroad traffic. London also showed a favorable disposition towards American railroads and advanced prices there before the opening here. And although part of teh purchases were resold here later before the opening some rossible effect. In the later before the opening some rossible effect. later, having some possible effect strengthening the rate of exchange on London, the sales were not in sufficient volume to threaten the money market here. More mature consideration of the trade statistic for April disclosed the continued strong position of our international commerce, notwithstanding unfavorable comparisons at some points with the unprecedented period of last year The market gradually but persistently hardened under these various influences early in the day, Central and Southern

Pacific, Chicago Terminal, the Iron and Steel shares, Sugar, Tobacco and New York municipal corporation stocks, advancing sharply. In the late afternoon the market leaders undertook to push up Brooklyn Transit to where it was last Friday. This they did through a flood of offerings and held it there to the close, over 7 points above yesterday's close. People's Gas, the Federal Steel stocks, International Paper, Rock Island and Atchison preferred are from 1 to over 4 points higher. The railroads

shared very generally in the later strength of the market, the close being buoyant and active at the very top. The large demand for bonds sough

persistently for pretty much all issues not already at prohibitive prices. Total sales, \$4 890,000. United States new fours and the old fours registered advanced 1-1 in the bid price.

35 Years Buying Crowded Into a Week!

Away back in 1864, we placed our first order with the house of Chas. M. Rosenberg & Co., the big New York City importers and jobbers in hosiery and underwear. We have bought from them, year after year, ever since. But now we go beyond all other hosiery and underwear occasions.

This firm is giving up the business they have so long and so profitably followed. We were the first to be advised of their intention and made our own selection from all their great and varied stock.

The first offerings go on sale to-morrow morning. Every article is seasonable and summery-every piece this spring's make. We think both men and women will see their opportunities. For the hosiery and underwear stores have not announced such chancessuch prices in six years.

Keeping Ice

And

Keeping an Ice Box.

Somehow or other few people realize all that a refrigerater stands for. The prevailing idea is that it is to keep cool. But, like a first chapter, it's only a part of the story.

An ice-box ought to ke p things c ol, ought to keep things the ice from melting too fast. And it ought to be built so that without much labor it can, itself, be kept per fectly clean.

This is the weather that trings a matter of this kind right home. It leads us to tell you what we have been doing. Of course it is generally known that we sell more refrigerators than any other establishment in all Conn- new Empress style, square ecticut. The biggest and best manufacturers naturally neck, rows of insertion and come to us first a d we hear them right in the middle of tucks, winter. And when we buy it is in car loads. So that we have first selection and get prices no one else could think of getting unless they did the business we do. ,

Hence we say to you-look at the refrigerators in the Busy Bas ment-look at the Lapland and Mascot. Solid oak in the one, solid oak in the othe. 170., 290., 490., 790., 890.,\$1.49,\$1.98, \$2.98, \$3.98.

This represents an enormous purchase made at the factory of this company, in Springfield, on Friday of this past week.

It is the remainder of the Spring business and all are pictures of this Spring's creation. We secured them at prices positively lower than even we anticipated. We offer them at correspondingly low prices-in fact, you would be unable to purchase the frame and glass alone, at the prices we quote.

There are between 1000 and 1100 of these pictures. The lot compr ses genuine oils, watercolors, photograph medallions, lithographic representations from original pantings, colored photographs, artotypes, etc.

Sizes are from 8x10 inch to 28x36 inch.

Prices, 17c., 29c., 49c., 79c., 98c, \$1.49, \$1.98, \$2.98, \$3.98.

The regular worth is from two to three times these prices. The entire front of show windows is given up to the display. Within, you will find them in both upper and lower stores, upon bargain tables, counters and in the regular picture department in the gallery.

At the prices we offer them the selling will be short and spirited.

We have some new decoraons in Haviland China, Ice Ready at 8 o'c ock this morn-Cream Sets, Pudding Sets ing, and on sale while the supand Whip Cream Cups, and ply lasts. No more can be and also in new pottery ware obtained at these prices.
