A dispatch to the Daily Mail from Bloemfontein dated Friday, March 16, gays: "Events have occurred which induce many to predict that the war will only last so long as it takes to march to Pretoria. The educated Boers, even the Transvaalers, are ready to accept the inevitable. I am told that a corps of two thousand women has been formed at Pretoria. It is called the Amazon corps. All the members are uniformed in kilts and are armed."

Bloemfontein, Saturday, March 17 .-General Pole-Carew's force has returned from Springfontein, where a junction was effected with General Gatacre. General Carew also proceeded to Norvals Pont, from which point he heliographed to General Clements that 800 Free Staters had submitted at

18.-A dispatch from Mafeking, dated Saturday, March 10, says: "The garri-son is holding its own. We have heard numerous rumors that the siege will be raised, but so far that is not the case. We are pegging away patiently on quarter rations, supplemented by the made gun bombards the Boer trenches. Horrible stories are current that the Boers are inflicting nameless tortures upon captured native runners. These may not be true, but they are tending to inflame native passions to such an extent that it may soon be impossible to hold the natives in check. Owing to the Boers having deliberately bombarded the native stadt, which is full of women and children. Colonele Baden-Powell has armed the natives, but he has only allowed them to act on the defen give, although they have clamored to be allowed to go out and attack at the point of the assigazi. This will be prevented as long as possible to prevent reprisals on the Boers."

LONDON VIEW OF SITUATION. It is Extremely Probable That Mafeking Has Been Relieved.

London, March 19, 4:30 a. m.-The news from South Africa to-day is en tirely satisfactory to the British public. The relief of Mafeking is not yet an nounced; but it is extremely probable that this is already accomplished by Colonel Plumer's advance, Lady Charle Bentinck, at Cape Town, has received a telegram from her husband, dated Mafeking, March 12, saying that he expected to join her shortly. The actual relief movements have not been publiely developed in detail, but it seems that Lord Methuen only started very recently and is rather engaged in dispersing the Boers of the district than aiming at actual relief. Colonel Peakman has dispersed 500 Boers at Fourteen Streams. Lord Roberts probably ascertained from Mr. Frazer, the new mayor of Bloemfontein, before despatching General Pole-Carew southward, that, in all likelihood, the railway was clear. The next move will be to collect at Bloemfontein by railway sufficient stores for the immense army Lord Roberts will have when the Orange river forces have joined him. This will probably occupy from two to three weeks. Therefore the next important operations may be exepected in Natal.

The cavalry brigade which Lord Roberts has sent to Thaba Nchu, thirty-five miles east of Bloemfontein, is destined to cut off some two thousand Boers who are escaping from the southward. The Boers are reported to have destroyed the railway in the neighborhood of Kroon-Lord Kitchener is still quietly stadt. organizing in the northeast of Cape Colony. Predictions and betting are beginning here that the war will be ended by the middle of May.

Dispatches from Durban, Pietermaritzburg and other South African towns describe most enthusiastic celebrations on St. Patrick's day. A London newspaper credits to Lord Roberts the suggestion to the queen that the wearing of shamrock be permitted. Whether this be so or not, it has been a most advantageous political move.

British at Sundays River.

London, March 19 .- A dispatch to the Times from Ladysmith dated Sunday, March 18, says: "Our advance camp is on Sundays River, two miles north of Elandslaagte. The Boers hold two positions on the Biggarsberg range, about ten miles north. The strongest is on the Newcastle road, where several guns have already been mounted, and where the are digging extensive trenches. The second position, which is on the Dundee road, is not strong.

THE ART EXHIBITION.

It would interest all lovers of pic torial art to visit the exhibition of reproductions of the world's finest paintings at Warner hall, on account of the high merit of the photographs and the careful selection of subjects.Old favorites hang near others rarely seen out of the country which boasts possession of the originals. The object of the collectionuse in the public schools-has been kept always in view, and the result fulfills the requirements summarized by W. S. Goodnough, director of drawing in Brooklyn: "They should be large and sufficiently bold in subject or treatment to be seen by the children at their scats. They should include pictures, always by good artists and artistically reproduced, that will appeal strongly to children and childish interests; pictures that will aid in the cultivation of a love of nature; pictures that will illuminate history, literature and geography; but should always reach a prope standard as works of art." The pleasure evinced by the children

at the exhibit was a sufficient proof that works of the great masters, if well chosen, will make a strong impression on young minds. It was pleasant to see the glee with which a group of little boys recognized Washington and Dewey, and to hear them whisper to one another, as they stood before the Louvre Bottleelli "there's the Lord Jesus." MORE MEN AT CHURCH.

REV. DR. GILBERT SPEAKS OF A WANT IN CHURCH CIRCLES.

The Subject Suggested by an Eloquent Address by Rev. Dr. Lines Before the Trinity Brotherhood

bert's sermon at the Trinlty M. E. church last night, suggested by the eloquent address of Dr. E. S. Lines before the Trinity brotherhood the Mon- vaudeville in a summer beer-garden. day night preceding. Dr. Gilbert said

Where formerly everyone went to of men at church services is matter the causes which are suggested. First, The complexity of our modern life. Men are too fagged and prefer to sleep and rest on Sunday. This frequently keeps the wife at home also. The intensity of business life must be mitigated. Everything-home joys, health, recreation. social pleasures must not be sacrificed to gain, Non-church going arising, perhaps, from some little dislike for the minister or petty disagreement with some other church member, soon easily forms into a habit. Again, the events of secular life are absorbingly interesting, the national extension, the Spanish war, the Philippine discussion, the problems in Puerto Rico and Cuba, the Anglo-Boer contest, the complications of political Europe, the new situations in Africa and China, all engross the mind and draw it off from religious things. Men de not have as much time as formerly to think about religion. As Rudyard Kipling tells us, wealth, colonies, armies, navies are not lest we forget; lest we forget." The Sunday newspaper offers reading at a all, "Lord God of Hosts be with us yet, small price to last the day out. Without being essentially evil it is ephemeral. What one reads on Sunday ought be the highest and best literature. The mind filled with its miscellany, with all the distractions of the week dragged in to spoil the soul's Sabbath rest, is in no receptive mood for God's truth. If read after morning service every good impression is obliterated.

The general comfort of life, the easy possession of luxuries by the many, breed in man the same contentment with the good things of life as Jesus depicted in the parable of the Rich "Take thine ease, eat, drink and be merry," it says, forgetful that the soul's life shall be required. The seems such a good place, and of amusement, good and bad, to take the edge off from care. Life is not serious enough. The insanity makes spirituality, withdraws from interest and work, Sunday becomes a day of We must indeed have enjoyment, but not at such cost or forfelture of higher things.

There is also the break between capftal and labor. The mechanic says he will not enter "the capitalists' church." He says the poor are not wanted there. As a matter of fact there are comparatively few rich in the churches. The poor are in the majority, and are welcomed. But the artisan does not cred- and saw a man standing there. It is claimed that men are not con vinced that preachers preach what they believe-thinking that they are suspiciously silent or equivocate on vital matters. Our testimony may be exparte, but it is our conviction that never was there frank, honest, bold preaching out-of-the-heart, unfearing consequen ces. Others say there is no bond be tween men and ministers. The pastor visits women in their homes and gets their thought. He ought, indeed, to see men in their offices and shops and mix with them in their assemblies.

What are some of the things the church must do? (1) It must make itself a warm, eocial, solar place, whose hearth-glow shall attract men; not a cold-storage warehouse, a dormitory, a morgue, an Eden musee, a collection of There ought to be many free socials with no money-tag. Men's clubs for frequent meetings, to listen to the best addresses, should be in all of his commission from work. This, Mr. nal orders shows the craving of men for social intercourse. The church should take the hint. The laity must not leave everything to the minister, who may get discouraged under the unequal load. They must do more than come to church -perhaps irregularly-once a Sunday. No preacher, however eloquent, can fill a church in these days. There must be invitations by individuals. Brotherhoods must be formed. The old-fashioned revival seems to have given place to perhand-to-hand, heart-to-heart That is the way Christ did His work; not by strained, mechanical means, but by easy, natural friendships and companionships. The old truths of sin and salvation which have always stirred men's souls may be relied on yet. The revival may not come in the same form, but is just as much needed.

We need to emphasize the main pur ose of going to church-to worship God. Men will not then stay away or account of the minister or come expect This was the subject of Dr. Gil- ing to be entertained, and if not enlivened vote it a bore. They will not listen to the sermon as to a lecture or to the choir as to concert singers. Many are read a sermon at home is not a substi tute for a social, public meeting where the common needs of a common human

The feverish-ness, fret, turmoil of life needs to be counteracted by the great calming steadying thoughts of God, the soul, eternity, immortality, responsibility. Men need to be rested through great Ideals and seeing duty under high lights Never was there an age that needed worship, spiritual culture, prayer, Biblereading, true preaching, more than this It is probable that they will not go now nervous time.

Several thousand acres in southern Plorida will be devoted this year to the raising of espinosa, otherwise and roffee-weed. It gets its name from its seed, growing in pods, and somewhat resembling the coffee-bean. To what use it is put the Florida growers profess not to know. It is sufficient for them that it has a market. Like the sunflower seed, so largely raised in western Iowa, it is probably used as an adulterant. The plant is a native of Mexico, and its seeds have been imported into the United States in large quantitles for a number of years, large firms in the West and North buying heavily, So large was the demand that attempts were made to grow the plant in the United States. Experiments with it in Arkansas and Texas failed, but satisfactory results were obtained in Florida last year, and a rapid growth of the industry there is predicted.

Once in awhile a real appropriate thing is done, and when such a thing is done it ought to be generally proclaimed and commended. It is announced that Professor Glazenap and a society have elaborated an entirely new calendar which they hope will be universally adopted. This calendar provides a common year of exactly 365 days and leap years of 366 days. The that no more than one day's difference can occur in 100,000 years. If the Protthis system and Russia does, the latter, nstead of being thirteen days behind. will be one day in advance now and two days in advance for 1920. The committed proposes also the naming of March "Peace" in honor of The Hague conference.

Isn't it appropriate to name a month "Peace" in honor of a peace conference that accomplished so much for peace, and isn't it especially appropriate to choose March as the month to name "Peace?"

A MORTGAGE TAX BILL. That is a warm and important protest which is made against the mortgage tax-bill that is now before the New is to make the holder of the mortgage pay the tax, but many clear-eved people see that whatever the law might be the tax would in the end come out of the mortgager. So they are oposing the societies and organizations which have to do with mortgages in the insurance part of their business. The result was that \$2,000, the sum necessary to meet all outstanding obligations, was pledged in less than half an hour, and about \$500 over that sum was also pledged. The debt is due to the recent improvements that have been made at

The members of the church were very enthusiastic in their response, and pledges of \$100, \$50, \$25, \$10 and \$5 were made almost as fast as they could be recorded in the book of the clerk. On the platform was a large blackboard marked off with squares representing various amounts of money, the sum total amounting to \$2,000.

There were four \$100 squares, ten \$50 equares, twenty \$25 squares, the rest being made up of squares representing \$10 and \$5. The pledges of \$100 were called for first and they were given almost immediately. Next came the pledges for \$50, and these also were speedily given. The blackboard now showed only squares representing \$25, \$10 and \$5, and calls were made by Rev. Dr. Leete for pledges for those amounts. J. Richard North, who was at the blackboard, was kept busy filling in the squares and finally a little after twelve o'clock the squares were entirely filled up, the pledges amounting to just \$2,500 Even after the \$2,000 had been raised the members of the congregation were so enthusiastic that further pledges for amounts up to twenty-five dollars were

NEW HAVEN MANUFACTURERS

And the Outcome of the Suit Against the M.Seward & Son Co.

Much interest among our manufac-turers attaches to the famous civil suit of Carleton E. Hoaley against the M. Seward & Son. Co., an action brought by the plaintiff to restrain the defendants, who are extensive manufacturers of carriage and other light hardware, from using drop hammers and other machinery in their factory on Bristol

As has been already stated final judgment was entered in the superior court recently the substance of it being that the Sewards are compelled to cease operating their works on Bristol street after March 13, 1901, or pay a penalty of \$5,000 for violation of the order. This decision not being confirmed by the supreme court does not become a precedent on the records of the highest tribunal of the state, but the tone and sweeping character of it has set many of New Haven's largest manufacturers to thinking and some of them do not hesitate to say thta if the law has been interpreted correctly New Haven's manufacturing interests have received a decided setback and new industries will think twice before locating here.

the chamber of commerce have watched this suit carefully. They were in sympathy with the defendants for the ceason that they appreciated full well what a barrier a decision for the plaintiff woud be to getting any new manuacturing companies to locate here. 1 The Sewards spent thousands of dol-lars trying to lessen the noise of their machinery, and did minimize it, but this did not prevent the bringing of suits. The injunction has been granted, and as the result the Sewards, one of the oldest manufacturers, will be obliged to

THE DEATH OF SUPERINTENDENT CLARK BUCKINGHAM.

A Loss to the Community and to th Masonic Fraternity-A Sketch of His Career-Interment Will be in New Haven-General News of the Town,

The sudden death of Superintendent Clark Buckingham of the Masonic home, which occurred at 12 o'clock Saturday noon after only a few days' Illness with pneumonia, was a great chock to his many friends and to the public in general, by whom he was well known and universally respected. He had been suffering for three weeks with an attack of the grip, which developed into pneumonia, and owing to his weakened condition from the effects of the grip he was unable to withstand the attack and passed away at noon.

Superintendent Buckingham was born in New Milford August 5, 1831. He served three years during the civil war having enlisted in Pitisburg in the Fourth Pennsylvania cavalry. He went to New Haven in 1868 and for fourteen years was foreman in the envelope works there. Previous to coming to Wallingford he was foreman of the Folding Box company in New Haven.

In 1874 Mr. Buckingham became a Ma gon by joining Trumbull lodge of New He was a past master of this lodge. He was also a member of Franklin chapter, R. A. M., and New Haven will not take time to enumerate, merely commandery, K. T., of New Haven. He was a member of Pyramid temple, Mystic Shrine, of Bridgeport. • In 1890 he was grand master of the Grand lodge, F. and A. M. He was past grand patron of the Order of the Eastern Star. He was also prominent in G. A. R. circles, being a member of Admiral Foote post of New Haven. He was a member of the board of managers of the Masonie Charity Fund for five years, and was one of the committee chosen to select the location of the Masonic home. He was made superintendent of the home April 1, 1895, and had held that position ever since. He was also a member of Wallingford grange.

Superintendent Buckingham was unconscious during most of hie last sickness, and passed away peacefully. He leaves besides his widow, who was his third wife, a son in New Haven, another in Wallimantic and a son and daughter in Wallingford.

The arrangements for the funeral were agreed upon late on Saturday. There will be services at the Maeonic home Wednesday noon. The body will be taken to New Haven on the 1:47 train for burial in the Evergreen cemetery. Trumbull lodge will have charge of the services in New Haven.

The board of managers of the Masonic home has appointed one of its number, William B. Hall of Wallingford, to act as superintendent until Mr. Buckingham's successor is chosen.

The basketball team of young wome from Rosemary hall, accompanied by about twenty-five other pupils, each carrying one of the Rosemary blue flags, went down to New Haven on the 1:47 train Saturday afternoon to meet in contest the team from the Anderson gymnasium. The game was a close and interesting one and resulted in a tie. each team scoring four points, and by an agreement between the captains it was and decide as to superiority at some game in the future. The Rose returned here on the 5:26 train. The Rosemary's

The hose in question is now in the electric plant in the original box it came in, and has never been taken out. It came along with some of the electric supplies from the depot and remains where it was left at the time. Who ordered the hose is not known and thus far cannot be ascertained or what it was intended for. The matter will be thoroughly investigated before the bill is

ATGRAND OPERA HOUSE YESTER-DAY AFTERNOON.

Addressed by Rev. Dr. A. F. Schauff; of New York City-A Large Audience.

Dr. A. F. Schauffler of New York was the speaker at the Y. M. C. A. mas meeting in the Grand opera house yes terday afternoon. A large audience was present, many ladies taking advantage of the opportunity to hear this

noted speaker. Rev. A. F. Irvine in presenting the speaker said: "I have great pleasure in ntroducing to you Dr. Schauffler this afternoon for many reasons, which I stating that a great many years ago he I found me in a book publishing hous in New York and laid his hand upon me and pushed me into preaching the gospel, and ever since that has been t me two things, two indispensables to a minister-a good father and a theolog ical seminary." Dr. Schauffler after alluding pleasantly to Mr. Irvine's introduction Dr. Schauffler spoke from the words of David; "There go the ships." His address was made up principally of comparisons between ships and men, and during the thirty min utes he spoke held the closest attention of the audience. He spoke partly as follows: "Men, like ships, are made to go. A great many years ago when the Great Eastern' was launched she stuck on the ways and was a subject o ridicule to the bystanders. So a man who has been placed on this earth for a purpose, and who has no 'go' in him is a subject of ridicule also. Some men are born tired, live tired and die tired Then a ship, if it amounts to anything has a cargo, You, too, young man, have a cargo—a cargo of appetite, of pas-sions and of lusts. Have you got them under control? Nothing pleases me

more than to get behind a pair of fas horses for a drive, but always with this consideration-that they be under perfect control. Any man can drive ar old spavined, knocked-kneed, broken winded nag, but when you have a horse full of life going his three-minute gait you need mastery to be safe. I like to see a young man going along in full possession and appetite if he is under control. A very essential thing is a compass. You say what is man's com-I answer, Conscience! I have

talked with a great many men and of different nationalities, but never found one who did not have a conscience "There is one more point of similarity between a ship and a man. HOME FROM A CUBAN TRIP. Rev. C. E. Woodcock's Health Restored -Conditions on the Island,

Rev. Charles E Woodcock, rector of

Christ Church, Ansonia, formerly of New Haven, arrived home from his Cuban trip, Saturday, and conducted services, Sunday. During the trip he increased in weight eighteen pounds. He says that he is now entirely well and will enter on the work of the Lenten season will all his old-time vigor. Before leaving be had suffered from an attack of grip that left him very weak.

Mr. Woodcock reports conditions in Cuba as anything but cheerful., Trouble is brewing constantly and he was told by army officers that they should not be surprised should an outbreak occur within a year. The unsettled future of the country is at the bottom of the discontent. While the entire Spanish population and the better class of Cubans wish annexation to the United States, there is an element consisting of the lower class, idlers, ex-soldiers, politicians, etc., who oppose and threaten revolt at any time. While some marked improvements have been made in the way of schools and sanitary systems, many of the old Spanish methods of rule still remain, the administration of justice, for example, be-

ing open to the severest censure. Thomas A. Wyre, through his attorney, James D. Dewell, jr., has applied to Referee Newton for a discharge in bankruptey. A hearing on the application will be held Monday, April 2, at 11

A Thought For a Day.

"Never promise more than you can perform." 528th Maxim of Publius Syrus.

Publius Syrus didn't write this for the special benefit of the "Big Store." We began only 49 years ago, while Publius wrote in 42 B., C. But we took it to heart when we started. And we have never let go. It's our policy to-day. It will be to-morrow, the next day-every day. It means a great deal to you.

The Swellest Spring Suits.

An Introduction. Some of the Designs.

IF you called and found your hostess busily re-arranging her house, you'd make allowances. You'd sort of look and admire the changes, but you would really give her your best thought.

We are ready with what are really the swellest ready made suits that have ever been shown in New Haven. But we are not quite ready with the palatial new quarters upon which the artists are now engaged. We hope completeness is here a matter of a few days.

For the suits, swell is the only word. Only a few metropolitan stores would have a demand for the degree of elegance they show. Here are reproductions of Paquin, Baer, Armiston and other designers of equal note. There is the Henley Eton suit with high collar, the Vincenis walking suit with flounce skirt, the Auto driving suit and the decided novelty-the Exposition Collarless Jacket Costume. Besides this there are the new Rumchunda and accordion waists-among all the other things worth seeing.

Stylish Eton suits of all gin at \$2.98 and then go up. at \$14.75. wool cheviot serge. Jacket lined with taffeta silk, box or inverted pleat skirts, lined with finest percaline. Value, \$14.00. At \$9.75.

Cheviots, nomespuns and ed jackets, Eton straps, box and panneled skirts, whole suit trimmed with stitched and box shapes. Prices be- satin bands. Value, \$18.00.

Fifty others up to \$50.00. We cannot describe all. The real satisfaction consists in one fare's well.
