A Joliet (Illinois) woman alleges in her divorce petition that her husband drank a keg of beer a day.

In a few months an electric railroad will be opened from Naples to the Cook station below the summit of Vesuvius.

The czar is much interested in all improvements in ships, and he has a collection of models of the most famous vessels of all kinds which he likes to show to his visitors.

England continues to ship horses from Canada to South Africa. Last week nearly one thousand were sent down from Montreal, making 5,148 animals shipped from that port alone this year.

The fact that during the first three months of their operation the free public employment bureaus which the legislature established in five Connecticut cities have received 3,233 applications for employment and have supplied 1,643 persons with situations is considered good evidence of the success of the experiment.

The city of Baltimore has appropriated \$15,000 to be used by the health commissioners to defray the expense incident to the extermination of mosquitoes, and in New Orleans preparations are being made for a vigorous campaign against the pest the coming year.

The Georgia Prison commission will urge the legislature of that State to pass a law creating a parole system. It is said there is nothing in law now to prevent the governor from pardoning a convict conditionally, but in the absence of a specific law on the subject the governor does not care to assume that authority.

The chair of Chinese language and literature in the University of St. Petersburg has been filled by the appointment of M. Popov, late Consul-General and First Dragoman of the Russian Mission at Peking.

The irrigating canal which has been opened by the State of Montana is a promising scheme. It is intended to water 33,000 acres of land in Lewis and Clark county.

"Whet!" exclaimed the first pigeon, "wasn't that sparrow mad when I sawed that grain of corn from him?"

NOT A COWARD.

One of the most curious things in the curious attack on Admiral Schley has been the attempt to make the people believe that a fighter with his glorious record had suddenly turned into a coward. The people have refused to believe such a preposterous thing, and the evidence now coming in shows that the people have been right.

It may be said that this is the testimony of a friendly witness, and it may also be said that it is as likely to be the truth as the testimony or the insinuation of an unfriendly witness.

A CHECK TOOKEN IN MEXICO. The government of Mexico doesn't look on the corner in grain in that country with approval, or even with toleration. President Diaz has suspended the duty on corn imported into Mexico for the period of three months, and also has exempted such imports from the payment of the internal revenue tax of 7 per cent.

This action will probably defeat undue greed and prevent much suffering. It will also make President Diaz still more popular than he has been.

MUCH has been said about the savage character of the war in South Africa, but if a South African correspondent of the London Times is to be believed, some of the military performances there are as polite as could be wished.

Good work. In the civil war in this country the opponents were often very polite to each other when they were not fighting, and much swapping of supplies was done.

LARGE DRINKING. The British Board of Trade has been looking into the consumption of alcoholic liquors in different parts of the world, and it has found some interesting and impressive facts. In the year 1900 every hundred English people drank between them 39 gallons, or 234 bottles of wine.

The stock market. Closeness at Level Lower Than Monday. New York, Oct. 15--The movement of prices in to-day's stock market lacked clearness and coherency at all times. Opening weakness gave way to a period of strength which was met by profit-taking, and the resulting reaction was vigorously contested by aggressive manipulators of Pennsylvania.

A movement in Pennsylvania which developed later and which carried the stock up 2 points was nominally based upon the heavy traffic movement over the company's lines. But the remembrance of old associations with market movements of this stock of the author of the invitation referred to aroused a suspicion of a possible connection on his part with the movement.

COUNTRY CLUB MEETING.

Annual Session Yesterday Afternoon—Further Matches in the Championship Round. The annual meeting of the New Haven Country Club was held yesterday afternoon at the club house. The attendance was a large one for an annual meeting, there being about fifty present. The regular routine of business was transacted such as the reading of reports, etc., and three new members of the governing board were elected. They were Henry L. Hotchkiss, Henry G. Day and James E. Wheeler. Mr. Hotchkiss succeeds himself, Mr. Day takes the place of Professor Woolsey and Mr. Wheeler succeeds Thomas Hooker. A proposition was introduced to admit Yale students to the club at a reduced initiation fee, but it was turned down. A limited number of students belong to the club and they pay the regular initiation fee, but the members could see no reason why they should be admitted at the reduced fee. The meeting was called to order at 5 o'clock by President Hotchkiss and adjourned at 6 o'clock. Yesterday afternoon on the links of the club three matches in the championship round for gentlemen were played. Professor Phelps defeated Professor Woolsey 1 up in 20 holes. Roger S. White, 2d, defeated Dr. Ger-vaise Green 1 up in 19 holes and E. G. Beach defeated Henry Stoddard 5 up and 4 to play. Between the semifinals to be played off between C. H. Zimmerman, Professor Phelps, Mr. White and Mr. Beach. They will be played before Saturday of this week, when the finals will take place. The finals will be over 36 holes, 18 to be played in the morning and 18 in the afternoon.

IMPORTANT POLO MEETING.

Held Last Night in the Garde—Circuit Made Up—Mr. Aurfort Elected President. There was a meeting of the polo promoters at the Hotel Garde last night, the following clubs being represented: New Haven, W. A. Aurfort; New Britain, B. Doherty; Ansonia, Jack Lawler; Waterbury, John Harrington; Meriden, Connie Miller. These men laid plans for the formation of a league, the circuit of which will include those cities and Springfield. The Springfield representative is J. D. Mills, but he was unable to be present last night. Mr. Aurfort, who is the main pusher in the formation of the league, was elected temporary president and secretary, and he will further the arrangements necessary for the formation of a permanent organization. Mr. Aurfort intends to show the people of Connecticut this winter that polo in this state is not dead by any means, and he proposes to have one of the most successful seasons in the history of polo in the state. There are scores of good players who could be secured for a Connecticut league, and with the teams well managed in each of these cities the promoters believe that the league would be a financial success and that it would furnish good sport for the many polo cranks this winter. Last night an adjournment was taken until next Sunday afternoon at 3 o'clock, when in all probability a schedule will be made and the arrangements completed. Mr. Aurfort said last night that there was a chance of Hartford and Bridgeport coming into the league, and in that case the circuit would be a very attractive one. HIDES, SKINS, ETC. J. J. Mansfield, who was associated in business with the late A. E. Barnett at 215 George street will continue the business at the old establishment.

THE EDW. MALLEY & CO. 49 BUSINESS YEARS. THE EDW. MALLEY & CO. Delayed-Building Sale!

The sun has come out on the sale. The public has come to it. First, a downpour of prices. Then the sun of widespread approval. Let us ask two questions. Can you remember, this year or in years past, when there was such a sale of brand new fall goods in the very middle of October? The other question is—will you have occasion to visit the store tomorrow—to see all that is taking place? It is unfortunate for us that our new store is not ready. For the splendid fall goods are now being sold at the most remarkable under-prices of 1901 without even having a fair chance to be exhibited.

The Great Sale of GLOVES.

Means more to people thinking of buying gloves than any glove event in—yes—a number of years. The fame of our glove store is too well known to require a description of the superior grade of gloves always carried. Yet this sale means nothing less remarkable than the sale of the entire glove stock in the former glove section. Not a new purchase for the sale—but the familiar brands that have found unshakable favor with our public.
