HITCH IN THE NEGOTIATIONS

RUMOR IN PARLIAMENT SHORT-LY AFTER MIDNIGHT.

A Bare Indication That it May be So-Dispatch from Pretoria That the Optimistic Feeling in South Africa is Hardly Based Upon Solid Facts-Sign That the British Government Expects

London, May 27 .- Just before parliament rose after midnight last night a rumor reached the lobby that a hitch had occurred in the peace negotiations. Nothing official concerning this rumor could be ascertained, but the dispatch argument, O'Brien pulled out a revolto the Associated Press from Pretoria (printed below), in which it was said Gordon and Hennessey ran to Brenthat the prevalence throughout South Africa of the optimistic feeling in regard to the peace negotiations was hardly based upon solid facts, may be regarded as an indication that such a hitch has occurred.

Little information from Pretoria has been able recently to pass the censor there. That the government vesterday fully anticipated a speedy conclusion of peace is believed to be shown by the postponement from yesterday until Friday or later of the budget bill in the lar affairs. committee stage, with the view, as was frankly admitted on the government side of the house, of enabling the budget to be recast in the event that peace is secured. The tax on grain has proved so unpopular throughout the country, and has had such an unexpected effect in reuniting the liberal party with a most effective election cry, that there is little doubt the government will welcome an excuse to drop it.

Pretoria, May 26.—The prevalence throughout South Africa of the optimistic feeling in regard to the peace ne gotiations is hardly based upon solid facts. The protraction of the conference at Vereenigning is not necessarily a hopeful sign. The delegates to the conference, although they have abandoned their hopes of securing independence, still have many points of difference with the government, while an obstinate minority continues to regard the resumption of hostilities as the best outcome of the present situation and at any moment these points of difference may be accentuated into a refusal to continue the negotiations.

It is most unlikely that those who are in favor of peace will throw up the sponge so long as a decent minority is desirous of continuing the struggle, and all these dissonant elements must be taken into account before it is possible to give any sort of prediction as to the issue of the present negotiations.

London, May 27 .- The Daily Mail this morning says the cabinet council to be held to-day will decide upon points of detail, mostly of a financial nature, which have been raised by the Boers in the peace negotiations. Great Britain's decision in the matter will then be communicated to the Vereeniging conference by the delegates at Pretoria, says the paper, and being the best obtainable terms, they will almost certainly be accepted. The result should be announced officially either Thursday or Friday of this week, probably on Friday, the day upon which King Edward's birth is celebrated, Peace is quite certain, says the Daily Mail, and the delegates at Pretoria are only engaged in endeavoring to gild the pill for the Vereeniging conference to swallow

The Daily Mail says further: "Our despatches from Pretoria assert that numerous communications are passing between Lord Kitchener and Lord Milner, in South Africa and London.

Lord Kitchener, although he is still full of energy is much aged in appearance as a result of the severe and continuous strain which he has under gone. The consensus of opinion is that the recent negotiations have proved Lord Kitchener to be a great diplomatist as well as a great soldier. It is difficult to appreciate the magnitude of the difficulties Lord Kitchener has had to contend with, the Boers leaders are all deeply impressed with his personality, and trust him implicitly.

'It is understood that Lord Milner has gracefully admitted that the ultimate credit for the accomplishment the great task is due to Lord Kitch-

Directors of the Company Issue Circular -North Atlantic Cabin Passenger Traffic to be Regulated by Special Against Outside Competition-In the Event of War.

Berlin, May 26 .- The directors of the Hamburg-American line have issued a circular divulging the terms of the agreement arrived at between the Morgan shipping combine and the Hamburg-American and the North German Lloyd lines. The two German companies undertake to pay the combination charges amounting to at least 20,000,000 marks (\$5,000,000). This provision was agreed on when the capital of the German lines was 80,000,000 marks (\$20,000,-000) each, and in the event of an increase in the capital, a contingency which in the meanwhile has arisen, the combine reserved the right of increasing the annual sum accruing to it to an amount equalling dividends on 25 per

ent, of the capital stock. The syndicate, in return pledges itself to pay the Germans 6 per cent, on a corresponding amount of capital and not to send any ships to a German port without the consent of the German ompanies. The latter are bound to limit their traffice from British ports. They can, however, continue the existing services. FINAL SESSION LAST NIGHT

COUNCILMEN RETIREFROMCITY GOVERNMENT.

Concurrence on the High School Bond Issue-Desk and Chair Resolution Withdrawn-A Picture of the Board Presented to the City-Accepted by Mayor Studley.

The last meeting of the present board of councilmen and the last meeting of any board of councilmen in New Haven unless that board is re-established in the future was held last night. The session which began about 3:20 was a rather brief one, the greater part of it being devoted to cleaning the table of minor matters. The most important matter up was the recommendation of the special committee that the additional issue of \$20,000 worth of high school bonds be approved. As soon as the recommendation was read it was adopted in concurrence with the aldermen without debate.

A matter to be taken up when other business had been transacted was the resolution adopted at the last meeting in a spirit of fun providing that the desks and chairs of the chamber be declared the property of the men occupying them. Considerable surprise was expressed that in some quarters this action had been taken seriously and the sense of humor of some of the newspapers which contained grave reports concerning it was commented upon in terms not very complimentary to the papers referred to.

Councilman Kelly of the Fifteenth ward, who presented the resolution isked permission to withdraw it and permission was granted while all referonce to the matter was ordered stricken from the journal ..

Finally, the table having been cleared President Harkin of the board vas designated a committee to wait upon Mayor Studley and request him to appear and accept on behalf of the city a large frame containing photographs councilmen which the board desired to present to the city.

President Harkin escorted Mayor, Studiey to the chamber a few minutes later, the councilmen rising to their feet as the mayor entered. Councilman Ellott, chairman of the picture committee, in well chosen remarks, made the presentation. Mayor Studley accepted on behalf of the city and in doing so said that he knew of only one thing better to offer to the city than the picture and that was the board of councilmen for another year. He thought that the frame of pictures would be banded down as pictures of men who, did their duty as they understood it. It was natural that thinking and honest men differ. If it was not so the world wouldn't progress and if all thought alike we would be a nation like the Chinese. The action of the board of councilmen in almost all matters met his approval. He thought that he had made more mistakes than the councilmen but the councilmen didn't have the veto power. He regretted that the board had been legislated out of office. He thought that the councilmanic board with a large membership was one of the best things for the city government and that to lessen the number to legislate for the people was a step backward and away from the people. He believed that there was more danger of scandal in a small board than in a large one. There was more danger of corporate influence when there were only eleven men to control instead of forty or fifty. He hoped that steps would be taken to restore the board of councilmen and if the board came back he hoped that the next board would be as good as the present one has been

Then rising votes of thanks were extended to the mayor, the president of the board, the assistant city clerk, the ity sheriff and the page and the board adjourned sine die.

The reunion committee announced last night that the annual banquet would be held at Gillern & Quinn's Morris Cove hotel on the evening of June 17, Bunker Hill day.

WILL PROBABLY REDUCE THE INTEREST RATE.

Change of Rate from Four to Three and One Half Per Cent.-Present Rate Incompatible With Decreased Earn ing Power of Investments.

The several savings banks of the city have now under consideration the subject of a change of interest rate on deposits, with the probability of deciding upon a three and one-half per cent. rate upon such sums as have heretofore borne a four per cent, rate. The decreased earning power of investments in bonds, owing to the low rate of interest and the high premium, and the restricted field for legal investments, is quite a factor in the case. The legislature of the state of New York has just enlarged the scope of investments for their savings banks and included many of those legal for this state, thus narrowing the field for Connecticut.

About three years ago all the savings oanks in Bridgeport came down to three and one-half per cent, and a large number of the banks in this state have already done the same. In all of the ad-joining states most of the savings anks have for some time been paying three and one-half per cent., and some of them are paying only three per cent The examiner of the Maine savings banks, October 25, 1901, reports that five banks in that state paid four per cent., twenty banks three and one-half per cent, three banks three and onequarter per cent., and twenty-three banks three per cent.

In New Jersey in 1900 five savings banks paid three and one-half per cent.. sixteen paid three per cent., three paid two and one-half per cent, and one paid one and one-half per cent.

In Springfield, Mass., all three of the savings banks there pay three and onehalf per cent. In Pittsfield, Mass., the wo banks pay a like dividend. In New York city many of the savings banks pay under four per cent.,

and the same is the case quite general ly all over. Proposition to Organize a State Associa

tion. Hartford, May 26.-The managers the savings banks throughout the state propose to form, possibly next month, a state organization similar to that which has existed for some years i New York. The object is co-operation in the various matters pertaining to th interests of the banks, such as measure ures before the general assembly, th rate of interest on deposits, the sce of the investments to which the bank are limited by law and other matter of a similar nature on which conference and concerted action may be of ad vantage to the banks and the deposit

In recent years the interests of the have been cared for by a committee of bank officials. The selection of this committee has been a matter of informal agreement between the managers of a few banks, and the advantage of a state organization will be that all the banks of the state will be associated in this and similar matters.

It is proposed that the managers of the banks throughout the state shall hold a meeting in this city in June to form the association referred to and Treasurer Nettleton of the bank at Newtown has sent out a circular lette to all bank managers to ascertain their lews. According to this letter the plan already has the endorsement of a large number of treasurers, including L. S. 'atlin of Merchants' and Farmers' Savings bank, Bridgeport; Thomas S Birdseye of Derby Savings bank, W Walker of Savings Bank of Nev Britain, J. E. Darrow of Mariners' Savings bank of New London, Franklin Miller of Stamford Savings bank. Thom as M. Smith of Dime Savings bank of Hartford, Noah D. Webster of Willi mantic Savings institute, John H. Sage of Freestone Savings bank of Portland A Hartford bank official said that the prospects were very favorable for the organization. Mr. Nettleton wrote him this week that replies had been received from the treasurers of fifty-five of the ninety banks, representing deposits aggregating \$105,000,000, or more than half the total deposits in Connecticut banks. The meeting will probably be seld in Hartford about the middle of

> CITY COURT CASE, The two charges of burglary against Patrolman John Kelly came up in the ity court yesterday morning. Upon request of Attorney Goodhart, who has been retained by Kelly, they were continued to June 2. Kelly denies that

he is guilty and Attorney Goodhart says his client is innocent of the charges preferred against him by B. Pastore of Grand avenue.

Suit was brought in the civil side of the city court yesterday by William A. Granville, through his attorneys, Lynch Thomas, against Nicohlas Civitella et al., for \$800. The writ sets forth that on the 27th of April, 1897, Charles J. and Carrie F, Huntley, husband and wife, owed the plainti ffthat amount and secured the note by a mortgage on a piece of property on Nash street There was then on the property a first mortgage of \$2,000 in favor of a Boston

Suit was brought yesterday by Rus-sell J. Eates of Cheshire, guardian, against Dr. Walter Hitchcock of Norwalk, for \$10,000 damages. The plain-tiff is the guardian of his daughter, Marlon, aged five years, who was injured in October last year by falling fown into an areaway maintained by the defendant in front of his property ear the postoffice in Cheshire. areaway was unprotected, so it is aleged. The little girl was injured badly. One of her arms was hurt so that will be deformed for life if not useless to her. It is alleged the defendant, through his negligence, was responsible for the accident and therefore damages of \$10,000 are claimed. Counsel for he plaintiff are Charles Kleiner of this ity and Attorney Coleman of Cheshire Deputy Sheriff Higgins served the attachment in the case.

James N. Keane has asked the city for damages, the amount not being stated but to be determined by the ommittee on claims. He claims his orse broke his leg on May 10 in front of 117 Olive street. The accident, Keane claims, was due to defective Chittenden and Wear, Morgan, Golden, highway, to many loose stones being Drake, Dorman, and O'Hara, Time, 1:50.

Albert A. Sampson, a bartender emyed in a salcon at the corner of Barum and Seaview avenuez, Bridgeport, started in to pitch for Meriden, Seaview avenue, the same city, are held by the police in \$500 bonds, he being charged with bigamy and she as a wit-Upon orders of Assistant City Attorney Tyner of this city they are not allowed communication with each other pending the securing of bonds The case was continued to June 10 vesterday so that witness may be secured from Detroit, Mich. Sampson loes not seem to be deeply impressed with the seriousness of the situation He admitted freely that he had a wife nd children in Dertoit and said that he left them on account of "too much mother-in-law," and came east having heard that bright young men could 'grow up with the country east.'

CAR AND TEAM COLLIDE.

Horse Knocked Down and Slightly Injured-The Car Also Damaged.

An accident happened shortly before o'clock last evening at the corner of Chapel and Chestnut streets, in which horse attached to one of the Peck & Bishop company's express wagons, was knocked down and slightly injured; the iriver, a young man named Jillson, was brown from his seat and injured about the head, and the trolley car was damaged about the front platform.

The accident occurred apparently as the result of the slippery condition of the streets, following the heavy rain rm, which made it impossible for the driver to stop the horse in time to avert the collision, and also hindered the moorman in bringing the car to a standstill. The car, which was a steamboat car, was bound uptown, while the express team was headed south on Chestnut street.

YESTERDAY'S BALL GAMES

YALE DISPLAYED THE YALE SPIRIT AND WON.

Surprised Most Sanguine Enthusiasts and Defeated Georgetown-Rain Prevented State League Games Except the One in Meriden-The Big Leagues.

The Yale base ball team displayed ome of the proverbial Yale form, spirit and fight in the ball game with Georgetown university on Yale field yesterday afternoon and won out by a good sized margin where defeat had been freely predicted. The Georgetown team is annually recognized as one of the strongest university teams in the country, and the playing of the Yale team during the past two weeks has been such that it was generally believed that the Blue would suffer defeat at the hands of the Georgetow men.

The story of yesterday's game is told n the playing of the second inning. Yale solved the curves of Blewett. Instead of trying to knock out home runs each man at the bat took a turn at bunting, and man after man reached first base on this style of play. Blewett became wild and the players behind him became a trifle rattled. Errors were made at critical times and when the inning closed the Blue had piled up five runs, making a total of six, one run having been scored in the first inning. Cox was substituted for Blewett and then Yale scored only at intervals, adding three more runs to their credit before the game was called in the middle of the seventh inning, the rain preventing further play. The score then stood 9 to 4 in Yale's favor. For Georgetown Cox pitched a great game during the time he was in the box. Dorman scored hree of Georgetown's four runs by smashing out a home run with two men on bases. Chittenden was given a chance on first base for Yale and did well. His batting was very good. Met-calf played at second in place of de-Barnwell made two difficult catches in the deep center field. The summary follows:

NEW HAVEN PLAYS TO-DAY. At 3:45 this afternoon the New Haven state league ream will meet the strong Norwich team on the Savin Rock grounds. The game is an important one as the teams are bunched in the percentage column very closely and a victory means a great deal to either team. The Blues will be represented by their strongest men, and the Norwich team will have to play the fastest kind of a game to win.

The race will be run under the rules which governed the amateur and professional sprint championships of the National Cycling association, the governing body of this branch of sport in

It leads the riders through a series of trial, semi-final and final heats and in the end there is very small doubt as to he superiority of the one who runs over

The trial heats will be unpaced, but in he semi-grand final pacemakers will

keep the contestants on the move There will be other races on the programme, which will be very interestng, and the two cash prize events will probably carry the spectators by storm. One of these races is a five mile cratch contest, with special inducenents of a bran new dollar to the lead-er of every lap in the race. This will likely keep the money chasers in a state of nervous activity.

The pick of New Haven's best riders

will compete in the amateur races and altogether the card promises well. The Second Regiment band will ren der a special programme of musical lovelties beginning at 7:30 p. m.

The races will begin promptly at 8 In the absence of Champion Frank

'A famous New Haven landmark, the old Basserman brewery, is being torn down and some of the material, wood as well as stone, is being used in the ings. The new dwellings stand on the rear part of the brewery land, at the foot of where the brewery park was. The Basserman brewery, it will be remembered, was erected by the late Colonel Basserman, who was one of the most prominent New Haven German citizens of years ago and for some time was colonel of the Second regiment, C. N. G., after having served the command | been built especially for this coming serman was a very popular, genial man, of fine presence, and had a great many warm friends. His brewery was for a time a great success and he established a small park in connection greatest of stage directors, especially with it, where beer was served at tables and which was a popular resort for German picnics. Here also evening carnivals were held, and, the park being on high ground, very picturesque scenes were presented when many Chinese lanterns were lit up. The colonel built himself a handsome home of stone | 30, (Decoration day). The foundations for some of the largest buildings for the factory are now being laid.

This section of the city has been rapidly growing for some years and has received quite a boom of late years, particularly since the erection of the Munson box factory, the Charles Gay factory and other shops in this region. Charles Gay has done considerable for

this section in erecting many houses with modern improvements, and Frederick J. Donnelly has erected fifteen or twenty well equipped houses on the old commons bounded by Lombard, Rowe. Atwater and Chatham streets. He is now erecting another one on Lombard street, east of Ferry. With this building the whole of the square is now occupied by residences, excepting one or two building lots.

ecuring Rich and Harris' funny farce "Are You a Mason?" for a return date at the Hyperion on Friday night, May nessed the performance on last Saturthe play and players and at the same time expressed a wish to see it again and their wishes will be gratified on Friday night.

In "Are You a Mason" George Richards has one of his favorite old rustic son-in-law, Thomas A. Wise, as a jovial old fellow of sporting proclivities, Gertrude Whitty, as Mrs. Bloodgood his autocratic wife; Esther Tittell as her pretty daughter Eva, who marries Fred Perry, the part played by Mr. Rice; Sally Cohen as an irrepressible cook, and the rest of this admirable company in minor parts. Mr. Ditrichstein, who adapted the farce, has the principal part-if there is a principal part-of George Fisher, who masquerades through the play in woman's guise to help his friends out of some domestic complications. The title of the play is given it because of the determintion of Mrs. Bloodgood that her husband, son-in-law and all her friends shall belong to the Masonic order. As a matter of fact there is only one real Mason in the cast. He turns up at the wrong time and makes the rest of them, who are practicing a deception, very uncomfortable. All this leads to very funny complications.

Extensive Additions and Improvements to be Made

An enormous increase in the bulk of business done by Sargent & Co., the local manufacturers of carriage and other hardware, particularly in the export trade, has made it necessary that extensive additions be made to their ala number of important changes be made in the buildings already in use. The principal building to be erected will be six stories in height. It will occupy the site of a famous old structure erected in 1821 and known as the Pavilion. It was for many years used of the kind in the city at that time and it frequently had as guests wealthy plantation owners from the West In-A bill that ought to draw the entire dies. In the course of a ing will be extended until it occupies the entire block from Wallace to East The box factory will be installed in the building as soon as completed and any unused space will be devoted to general storage. The basement f this building will be an extremely feep one and the five stories above it will have high ceilings, affording plenty

Immediately across Water street, or on the south side, corner of Wallace street extension, there are at present a umber of small wooden buildings. These are soon to be carted away and a new five-story structure of brick is to ake the place. This building will extend along Water street toward East or a distance of 145 feet. Immediately n the rear of this proposed new five story building and on the wharfage story building, which will be devoted to the purposes of the boiler and machinery, the sawmill and the woodworking machinery, especially that part which is used to turn out hardwood handles and other wooden articles. This building will be 250 by 50 feet. All of these buildings are to be as nearly fireproof as possible and to be modernly coulnped and constructed in every particu-

Besides these new buildings some elaborate additions are to be made to the buildings in use at the present In fact, some of the additions the course of construction and others will be as soon as the necessary material which has been ordered ar-One of the additions is that to the south foundry. This new addition is to be 151 feet long, so that when added to the present foundry that part of the factory will be 453 feet long and 100 feet in width. Another story, the ond one, is being added to the old brass foundry on Wallace street.

On account of the difficulty in secur ig the necessary materials it is quite likely that the work of erecting the proosed new buildings will not commence until about the first of September. It is said that the outlay to complete all this work will be over half a million THE NEW ANCHOR LINE TWIN-SCREW STEAMSHIP "COLUMBIA" Now IN PORT

The new Anchor Line steamship "Columbia" arrived in New York May 23 record time. She is by far the largest and finest vessel ever built for the New York and Glasgow trade, being five hundred feet over all, fifty-six feet moulded breadth and thirty-six eighty-four hundred tons. The "Columbia" is a strikingly andshome and imposing looking vessel, with a straight stem and elliptical stern, having two steel pole masts for fore and aft rig and three funnels. The as a hotel and was the principal resort vessel is divided into nine water-tight compartments and has six decks.

It is related that Zack Snyder, a citizen of Byron, Illinois, has won a wager made twenty-two years ago, and a re cent storm decided the bet. In 188 Snyder was in Oregon, Illinois, talking to G. A. LYNCHING. The recent burning of a negro in Tex-

is by lynchers has called attention to the fact that there are habitations of cruelty in other places than the Philipdines. Senator Gallinger of New Hampshire has been so moved by the acounts of the Texas tragedy that yes erday he offered a resolution providing bat the Judiciary committee of th Senate should make an investigation nto the subject of lynchings in the Inited States with a view of ascertain ig whether there is any remedy for nem. Mr. Gallinger said that he inroduced the resolution in full view of he fact that he might be charged with precipitating a sectional centroversy, out nothing was further from his thoughts. He said lynchings were not onfined to the South. Horrible cases had occurred in the North, and white men as well as black had been the victims. He thought it imperative that the Judiciary committee should take ome action upon the subject. If the strong arm of the law could reach out o prevent such occurrences he deemed

t desirable that it do so. Perhaps it will be found that the Federal government is powerless in this matter, and that the States have exclusive jurisdiction, but it will be a good thing to have the whole question thoroughly discussed-more thoroughly discussed than it is likely to be.

OUGHT TO HAVE IT.

We read with interest that several army officers belonging to the Medical corps have started a movement to secure a medal of honor for Private John R. Kissinger, of the Hospital corps, on account of conspicuously brave services rendered in the interests of science and humanity. This is the man who voluneered himself as a subject in the yellow fever tests that were conducted at Havana by a board of army officers in the fall of 1900. The officers were experimenting with the mosquito theory of infection, and two deaths had resulted talities, and with a full appreciation of he dangers that he was incurring, Kissinger offered to submit himself to the bites of the poisonous insects. The officers accepted his services, he was bitfeeted with the disease, but his life was

MUST BE CAREFUL.

The automobile is new in the streets and he must keep a proper lookout for them and keep his machine under such collision with another person also us-

No blowing of a born or of a whistle nor the ringing of a bell or gong withcient if the circumstances at a given point demand that the speed should se slackened or the machine be stopped, and if such a course is practicable, or, in the exercise of ordinary care and caution, proportionate to the circumstances, should have been practicable. The true test is that he must use all the care and caution which a careful and crudent driver would have exercised inder the same circumstances.

Most of the automobile "accidents" save happened because the automobile operators have cared more about going ast than going safely. They should be made to understand that they haven't any right to hurt or kill people and that it is their duty to drive their machines through the streets carefully.

A Dream in Spring. Like weary sentries, grim and gray, The stately houses stretch away. In long, unbroken line: Their berling trows in anger frown Upon a cottage old and brown pon a cottage old and brown Thy home, O heart of mine!

Yet there the veivet grasses grow, And there the pale, wild cowsifps ble The first wild bluebird sings, in dreams he sees the ting nest, Where downy fieldglings sway to rest Beneath his mate's soft wings.

And there a glant maple stands, Outspreading his protecting bands, Like plous friers of old, O'er sunken roof and moss-grown wall Where white catalpa blossoms fall— Snow arrows, tipped with gold!

Caressed by bee and butterfly
On either side the long walk lie
Low beds of tangled flowers;
And up and down the quiet street
The sunbeams dance with trippling feet,
Through all the fleeting hours.

But oh, the cottage lies so still! No more its list alog echoes thrill With childish laugh and song— The tireless mother hands have rest, Clasped close upon the pulseless breast— And, oh, the years are long!

Yet ever when the faint perfume From nodding purple lilae bloom Steals through the spring sunshine, In dreams that old time home I see, Which never more may shelter thee, O lonely heart of mine! —Mabel H. Eastman, in Kansas City Star.

The Proposed Constitution. To the Editor of the Journal and Courier

It seems to me that the new constitu

tion is a very great improvement upon

the old one and that it would be a very serious mistake for the cities and large towns to vote to reject it. Of course from the tests. In the face of these fa- it does not perfectly carry out the principle of popular representation. The marity in the convention had the idea that the towns, as a sort of governign ties, ought to be represented in at least one branch of the legislature rather than the people. The idea that boun ten by the mosquitoes and became in- dary lines, that is to say, imaginary lines, are to be represented rather than the people seems abourd. But we must remember that this very idea has gained a sort of standing from the constitution of the United States to which the representatives of the towns were fond of appealing as a full justifica-tion of their claim. The constitutional 45,090 inhabitants, as many representatives in the Senate as the State of State of New York, with its 7,000,000, is just as vicious as the present representation of the towns in the legislature of Con Considering idea of town representation had overwhelming majority in the far in WAV popular representation than could have been anticipated. The new constituprovides that all towns having less than 2,000 inhabitants shall have but one representative. This certainly is an important step in the right direction. Many of the small towns in Connecticut are old towns and consequenty have two representatives, and this isproportionate strength in the legisla-By the constitution of 1818 all owns thereafter incorporated were have but one representative. This provision will increase the representation of some of the larger populous towns in the State, which are not cities, are comparatively new ones, lities will have, by this provision, three representatives at least and New Haven will have four. Another excellent provision of the new constitution is that where there are three representatives to be chosen, the town electing them shall be districted, so that the hree representatives will not be chosen by the entire common city, but by the representative districts. This is likely to give a minority representation in the cities, and to secure a far better class of representatives than have been for-

The new constitution also provides for senate of 45 to be elected from disricts made as nearly equal as possible It is estimated that New Haven will ave five members in the new senate and it is to be remembered that these vill be elected from five separate dis rricts. New Haven will thus gain four chators. New Haven's representation enate and house is three, one senator nd two representatives. A FORMER FAIR HAVENER IN MARTINIQUE.

Pulaski Chapter's Committee Ready to Report-Sunday's Rain Welcomed by

Professor E. Otis Hovey, formerly of Fair Haven, as before stated in this pa-States steamer Dixie, to make some observations on the recent volcanic outbursts on the island. In yesterday's New York Herald he has a two column story sent by telegraph regarding his nvestigations. He is assistant curator History, Professor Hovey's father, Rev. Dr. Hovey of Newburyport, and a former paster of the Pilgrim church, is also a geologist of considerable note.

The committee having in charge the recent semi-centennial celebration of Pulaski chapter, Royal Arch Masons, held their final meeting on Saturday evening and will make their report to the chapter meeting on Wednesday ev-The expense of the celebration was about \$525, and 70 per cent, of the membership contributed. The present membership is 314. The committee has reason to be congratulated upon the success of its work, and will no doubt eceive the thanks of the chapter. Frank E. Brown, the oyster planter,

The excellent rain on Sunday was welcomed by the agriculturalists in this section, who report that the ground had been getting very dry and rain was greatly needed. With hot sunny weather now early vegetation will develop wonderfully.

On Memorial day, Warren Thomas circle, No. 5, ladies of the G. A. R., will serve refreshments in Polar Star hall to the veterans, Sons of eVterans, drum corps, and Boys' Brigade, after the morning exercises.

The service at St. James' church Sunday morning was one of great marit, the musical service being especially fine. It was to celebrate the freeing of the parish from debt and Rev. Dr. Phillips, in his address congratulated the parish upon this auspicious event.

that it is nothing short of foolbardiness or the voters of this city to reject this It is urged doption will delay complete reform. be remembered that this increased representation on the part of the cities and larger towns is a concession at the hands of an almost overwhelming majority against us, a majorty that is pretty sure to exist in an possible constitutional convention that may be called under the present constitution. We are rashly urged to reject this concession in the hope that we son, late as shall obtain larger concessions. It Volunteers, scarcely seems as if this was a conciliatory method. The smaller towns, which now have the majority, can be quite content to let things remain as they are, and their inclination towards oncession can scarcely be increased by rejection of the concession that they have already made.

The new constitution makes amendments easier than they were before. They may now be proposed by either house, where formerly they could be proposed by only one. A bare majori-ty in both houses is sufficient to secure submission to the people of a constitutional amendment instead of the vote of two-thirds, and when an amendment is once submitted to the people, it must be remembered that the cities have the majority. Thus, we have an improved constitution with a greater facility of

further improvement. There are other improvements in the onstitution aside from the provision for etter representation. The judges of the District courts and the Court of ommon Pleas are to be appointed by he governor, as are the judges of the Superior court. The legislature is given power to appoint a court of appeals. which may pass upon questions of fact, as well as law, an improvement which has been very much desired by the bar. It has been said in some newspapers that there is a general sentiment of opposition in New Haven to this constitution. So far as my observation extends, this is very far from the fact. E. P. ARVINE.

THE GOUNOD'S ANNUAL,

Board of Governors Chosen-Work to be Continued. The fact that the Gounod society has not held any meetings this year and in

consequence given any concert as has been the custom for many years past, and also that the People's Choral union recently organized, met with such success in its undertaking and drew to its membership many of those who had been enthusiastic in the work of the Gounod, caused the thought to become expanded into a rumor that the parent organization, as the Gounod may well be called, was about to become a thing of history. Such, however, is not to be its fate. At the annual meeting held in the hall of the Young Men's Republican club last night there was an unusual amount of enthusiasm and a generous attendance of members. In fact, it is stated that the attendance last night was much larger than at any annual meeting in the past three or four years. Charles S. STATE CATHOLICS TO MEET

CONVENTION OF GERMAN SO-CIETIES

To Be Held in Waterbury-Session on June 21 and 23-Programme of Exercises-Forty-nine Delegates Represented the Thirteen Societies of the State to Be Present

The fifteenth annual convention of the German Catholic Benevolent societies of the state will be held in Waterbury June 21-22. Forty nine delegates representing 13 societies will attend, as well as many unofficial guests. The delegates will be the guests of the local organization, which is making extensive preparations to entertain them.

The delegates are expected to arrive in Waterbury Saturday morning June with a view of arbitrating the strike 2. They will meet in Heliman's hall, question. It is said that the plan will where they will dine. Thence they will be sent to Senator Hanna for approval proceed to Concordia hall, where John before a recommendation for further J. Siefen will call the convention to order. On the evening of June 21 a reception will be given in honor of the dele-gates at Concordia hall. The following day at 10:30 o'clock they will attend a solemn high mass in St. Cecilia's church, after which they will again assemble in the hall to complete the business in hand. Sunday evening, June 22, a secred concert will be given.

Among the important things to come up for discussion at the meeting will the question of changing the constitution governing the state organization. In the opinion of many of the delegates the present constitution does not meet modern conditions. question of raising a funeral fund will also be discussed. It is probable that the constitution will be changed and

the funeral fund established. The state organization of German Catholic Benevolent socieities was instituted November 29, 1887, and a con-stitution adopted in 1888. The president of the state organization is John J. Siefen of this city. There are now 13 societies affiliated with the state or ganization, located in the following cities: Bridgeport (2), Meriden (2), New Haven, Hartford, New Britain, Bristol. Torrington, Danbury, Naugatuck, Wallingford and Waterbury.

The Waterbury society was organ-ized June 26, 1895. It has at present 63 members and a treasury fund of \$894. During its existence it has given for benevolent purposes \$1,700. The officers of the society are: President, John Schell; vice president, Otto A. Hermann; financial secretary, John J. Slefen: recording secretary, Louis Strobel. Trustees, Marcus Hellman, William H. Siefen, John Saxe. The members meet in Hellman's hall.

The committee that will have charge of entertaining the out-of-town guests is made up of John F. Schell, Otto A. Hermann, John J. Slefen, John B. Faller, Valentine C. Hahn, John Saxe, William H. Siefen, Albert Trenkle, Emile Muckle, the Rev. Dr. Martin,

EFFORT TO SETTLE STRIKE.

Conference in Chicago-Another Meet-

romises to change the aspect of the othracite strike was held in this city o-day between several members of the National Civic Federation and union inerests. President John Mitchell, of the United Mine Workers of America, who has been in Chicago since vesterday relative to the situation in the bituminous oal fields, met Frank P. Sargent and Franklin MacVeagh, of the federation, and Samuel Keefe, of the 'Longshoremen's union, and plans for further arbitrative endeavors on the part of the ederation were discussed.

The meeting was executive and definite statements as to the details of the conference were not announced. It is understood, however, that the plan agreed upon contemplates calling another conference of the mine operators and the whole committee of the Na-tional Civic Federation of New York arbitration shall be made. If the plan shall be carried into effect it is expected that some definite announcement of it will be made within a week or ten days President Mitchell declined to go into details of the meeting, but said it was not called by him and that his presence n this city was not for the purpose of bringing about a settlement of the an hracite difficulty. He said further that the mine workers were showing no indication of weakening in their position.

DEVASTATION OF ST. VINCENT. Report of Capt. Gallagher, U. S. A.

Many People to Sustain. Washington, May 26 .- Adjutant General Corbin has received the following cablegram from Captain Hugh J. Gal-St. Vincent, May 24:

"Area of devastation Saint Vincent about twelve square miles in northern extremity; population of this area was eight thousand, of which sixteen hundred lost their lives, remainder escaped by flight to Kingstown and other places. No such overwhelming cutastrophe as at Saint Pierre yet many peo ple to be sustatined by public because many escaped. Outside of area devastated no great damage done but people very apprehensive. This condition will not abate until volcano which is still active subsides. Second eruption oc curred eigtheenth, but no additiona damage wrought. Supplies of all kinds from Dixle most gratefully received and will, with what was on hand, provide for present population for three

months. "Lumber for rebuilding is asked Nothing is known of any disturbance outside of St. Vincent and Martinique Now that emergency has been would advise sending supplies gradually, and only after inquiry as to actual eeds, as a great quantity sent at once might prove more embarrassing than beneficial. Stores on the Dixie well se lected."

Secretary Moody also received the following cablegram from Captain Berry, of the Dixle, dated St. Lucia, May

"Dixie discharging remainder stores at Kingston, where most needed. Pro-visions now on hand for several months. Lumber for houses needed. Volcano active. No additional damage. Care of refugees and injured, approximately 8,000, well in hand by local authforities."

GERMAN PROFESSOR'S VIEW.

Dr. Hasse Says German Culture Can not Make Yankees Germans.

Berlin, May 26.-The Pan-Germans do not approve of Emperor William's proposed gift of a statue of Frederick the Great to the United States, nor, for that matter, of any special efforts on the part of his majesty to win the good will of the people of the United States, Dr. Hasse, a member of the reichstag, and prominent professor at Leipsic, spoke in this connection as follows before the nnual meeting of Elsenach of the Pan-German association:

"The present official German effort to remote German culture in the United States rests upon a misconception German culture can never make the Yankees Germans: it will only result in ncreasing the nobility of the race, in adding to their education and their wealth, and consequently, making them ore dangerous, in the same manne that the Poles were affected by the in-The troduction of German culture... United States is and will remain the grave of German characteristics." Dr. Hasse's remarks were greeted

with applause. Another speech delivered before the Pan-German association in which he granting of English scholarships to German students by the late Cecil Rhodes was denounced as a "shrewd plan to get Germans to act as Anglomaniae apostles in Germany," was received with enthusiastic applause, and resolutions calling upon German students to reject the Rhodes scholarships were unanimously adopted by the associa-

SEEN IN ST. PIERRE.

Some Impressions of a Visitor Before the Recent Cataclysm.

"St. Pierre was one of the most picturesque little cities in the world. I spent a few hours there once and shall never forget the gay appearance it preented," said Captain John A. Hassell, of New York, yesterday at the St. James Hotel, "The women of St. Pierre dressed more gayly than in any other part of the world I ever visited. They were many colors, and, strangely enough, combined them quite harmoniously.

"There was practically no harbor at St. Pierre, and the ships anchored a short distance out at sea. As soon as our vessels came within hailing distance of St. Pierre a number of small boats set out from shore. They were filled with women dressed in gaudy colors and carrying fruits, which they offered to the passengers. I remember that many of the women had coccanuts from which the ends had been removed. Part of the milk had been poured from the fruit and replaced by rum. Coconnuts prepared in that way are quite deicious and in great demand with trav-

"Few of the people in St. Pierre were oure black. The negroes originally in the island, the Malays who were brought there to serve as slaves, and the French and other white people who located there, intermarried so freely that most of the inhabitants showed only a trace of the negro blood. The women were quite dark, but had good features, and many of them were quite handsome. Their clothing was very unusual. On their heads they wore scarfs of bright colors and their gowns were very fantastic. All through the city there seemed to be an air of gayety

and abandon. "St. Pierre was located in a small inlenture in the shore line and its houses were queer affairs which seemed like a lot of fancy blocks piled up against the side of the mountain. Many of the houses were whitewashed or painted some very light color. They were all short buildings of quaint French architecture. Nobody worked in St. Pierre any more than was necessary. There was music and dancing everywhere, the immorality of the city will probably lead many people to suggest that judgment has been brought down upon the ill-fated city."-Washington

have commenced the mason work on the house to be built at the estate laid out by Howard Taylor, of New York city, on the banks of the Connecticut river just below his old homestead at Taylor Hill. The estate is half in Port. land and half in Cobalt. A road over eighty feet wide and more than a mile in length, including many turns been laid out leading from the Middletown turnpike down to the river. The estate comprises ten acres, of which six icres will be used as polo grounds. The house, which is to be built entirely of stone, will be one hundred and ninety three feet front, facing the river. It will include apartments for servants, with a small chapel at one end. A large barn, also of stone, is to be put up and provisions will be made for keeping many horses. The house and barn will be of the country club style of rchitecture and will surpass anything of the kind from Hartford to the sound. A lawn will be laid out in front of the building leading down to the river, where an old dock will be repaired for the use of steam yachts, etc. North of the estate or just south of the tracks of the Air Line division a large reservoir will be situated to supply the buildings with water. Work was started on the estate in 1900 and will not be completed before next year. It is planned now to lay tht corner-stone Saturday, June 7, the anniversary of Mr. and Mrs. Taylor's marriage. A number of relatives and friends from New York city expect to attend the festivities, as a gala day has been planned,

THOMAS MOLLOY

Whose Leg Was So Badly Chewed by a Bear That Amputation Was Necessary -The Bears and Their Owner's Body Attached in the Suit.

Thomas H. Molloy of 97 Water street, whose twelve-year-old son was so badly injured yesterday morning at the Starin dock by being bitten by a Russian bear, that amputation of the right leg just below the knee was necessary yesterday afternoon, brought suit against P. Batty, the owner of the bear, to recover \$15,000 damages. The suit was brought by Edward J. Maher, attorney for Mr. Malloy, and the papers were served by Constable Peter McNerney. Mr. Batty is exhibiting his five trained bears at Poli's theater this there yesterday afternoon and Michael Smith was placed in charge as keeper Mr. Batty's body was also attached in the suit, and he had not yet secured a bondsman last evening.

The bear which did the biting is a Russian bear and one of a troupe which Mr. Batty exhibits at vaudeville houses as "Batty's Bears." The animal arrived in New Haven by the Starin line boat yesterday morning and were being unloaded when a crowd of boys went to the dock to see them. Among the boys was twelve-year-old Thomas Molloy. In some way the bear seized young Molloy, and before he could be pulled away from the beast his right leg had been horribly chewed and lascerated from about eight inches below the k nee to the toes. The stories as to how the accident occurred differ. The bear was in a cage alone and some of the bystanders say that young Molloy stuck his leg through between the tars of the cage when it was seized by the bear, while others say that the boy was standing close to the cage and that the bear reached through between the bars and seized the boy's leg. Young Molloy screamed and men came running to his assistance and forced the bear to let go his hold and pulled the boy away from the cage. His father, Thomas H. Molloy, who keeps a saloon and restaurant at 97 Water street, was sent for. Mr. Molloy carried the boy to the Emergency hospital on Chapel street. There they found that the bones in the lower part of the right leg were completely crushed and that the flesh was terribly lascerated. Amputation was at once decided upon as absolutely necessary and the boy was put under the influence of ether and the leg was amputated about eight inches below the the father remaining present while the operation was performed.

Young Molloy recovered from the effects of the ether about 11 o'clock in the forenoon. Last night it was said at the Emergency hospital that he was resting as comfortably as could be expected and that the chances of his recovery were fairly good.

DIOCESAN CONVENTION

Will be Held in Hartford June 19 and

11. The annual convention of the diocese of Connecticut of the Episcopal church will be held in Trinity church in Hartford on Tuesday, June 10. It is not expected that the business will be entirely finished on the first day and adjournment will probably not be taken until Wednesday. Bishop Brewster will prelocese, will act as clerk. It is expected that all the Episcopal clergymen in the diocese will attend and each parish is entitled to two lay delegates. The last time the convention was held in Hartferd was in 1899.

Bishop Brewster will deliver his annual address before the convention. The annual sermon will be preached on Tuesday morning and at 10:30 o'clock there will be hely communion. At one o'clock lunch will be served in Foot Guard hall. It will be provided by the Parsons' theater, in a production of members of the Hartford churches. In the evening there will be a missionary convention and this will be followed by a reception by Bishop Brewster.

REV. MR. HAYNES' ADDRESS AT CITY MISSION HALL.

Rev. Mr. Havnes, pastor of the United church, preached an excellent sermon on Sunday evening at the City Mission hall. His text was the union of the two questions, "What think ye of Christ?" and "What shall I do with Jesus?" A delegation from the Young People's Christian Endeavor society accompanied their pastor and conducted the service. Frank Smith led the singing. Miss Boyce was organist, Mr. Hubbard soloist and Miss Ruby Street gave a soprano solo. Mr. Osborn and Mr. Fullerton led the responsive service. Mr. Mansfield read the scripture lesson and offered prayer.

Mention was made by Rev. Mr. Mossman, the missionary pastor, of the entertainment to be given on Wednesday evening in behalf of the Berkeley Men's club by the University Banjo club and the Apollo Glee club of the college, with readings by Professor J. W. Wetzel. Admission cards are fifteen cents and ten cents (children under twelve) and the proceeds will be used by the club to furnish their rooms in the new mission house on Orange street.

In a recent article a prominent physician says: "It is next to impossible for the physician to get his patients to hygiene or diet to the smallest extent; he has but one resort left, namely, the drug treatment." SUIT FOR \$15,000 DAMAGES THE MOTHERS AND FATHERS OF

Mobius has, to the best of his belief, BROUGHT BY FATHER OF YOUNG proved that poetle talent is in all cases traceable to the mother of the bard. The touch of sentiment in this position wine it ready acceptance. It is a feminine doctrine, the obvious influence from which is that the rougher sex is not apt to beget those gentle beings, the

Francis Galton, however, in "Hereditary Genius" has stated positively "in the case of poets and artists, the influence of the female line is enormously his assertion with a "summary of relationships of twenty-four poets grouped into twenty families." From this it would appear that Goethe alone can trace poetic talent to his mother. "From my father," he says, "I inherit my frame and the steady guidance of my life; from dear little mother (Mutterchen) by happy disposition and love of story-telling (fabultren)". Byron's mother is described as "strange, proul, week, and the bears were attached passionate and half mad," and Tasso's as gifted in all respects. The other poets mentioned by Galton have some of them gifted fathers, as Milton; others, gifted uncles and other relatives, mostly, alas, males,

There are familles in which literary and other talent is hereditary, as, for instance, the families of Coleridge and Wardsworth; but, as a rule, the sons of poets are dull dogs. The late Sir Percy Shelley should have been a paragon to judge by his ancestry, a poet father and a mother who wrote "Franken-Sir Percy Shelley, however, was content to win only social popularity as an organizer of private theatri-The son of the poetic Brownings is a meritorious painter-not a poetand the descendants of certain other famous poetic marriages are, alas, in lunatic asylums. DON'T FORGET THE BUFFALOS. Visitors to the Wild West exhibition should not miss seeing and examining the magnificent herd of buffalo to be found in the enclosure. It should be remembered that out of the two or three million bison that thirty years plains scarcely 100 head are now living. By intelligent care based upon intimate knowledge regarding the peculiarities and habits of these animals, Colonel Cody has succeeded in preserving the largest collection now extant. Despite the fact that they have traveled thousands of miles in the United States and Europe, these Wild West buffaloes have briven and increased. When the exhipition founded by Messrs. Cody and Salisbury is finally discontinued, as some day it must be, Colonel Cody inends to place his buffaloes on a suitable range on his extensive lands in Nebraska, where they may be perpetuated s a historic exhibit of the past. The Wild West will be with us June 3 and the great military drills of the foreign podies of soldiers, the battle scenes, the bucking horses. Indian war dances and all the other well known features will be seen. A grand mounted street side at the sessions and Rev. F. W. parade will go over the principal streets of the city here on the morning of the parade will go over the principal streets engagement.

MISS MANNERING HEARD OF

SMALLPOX. News of the outbreak of smallpox mong the members of the Hi Henry minstrel company has been considerably discussed among theatrical people, and Miss Mary Mannering, who is to appear here Wednesday night at "The Lady of Lyons" with Kyrle Bellew, was disturbed about it. In order to learn what the situation here was Manager Frank McKee sent here his personal representative, A. T. Worm, who reached the city last evening and had an interview with Manager Parsons. He learned that the minstrels had not played at Parsons' theater, but Mr. Parsons told Mr. Worm that, in order to allay Miss Mannering's fears, he would have all the rooms of the theater thoroughly fumigated before Miss Mannering's arrival. This was satisfactory and the sale of seats will proceed this morning without interruption and the performance will be given. -Hartford Courant.

TINGED WITH ROMANCE.

Yale Student Weds Miss Unkles of Adams Express Co Meriden.

New York, May 26 .- After a courtship extending over several years George Nelson Moser, a member of a promnent Brooklyn family, and a student a Yale, married Miss Laura Unkles o Meriden, Conn., a few days ago, and the young couple are now preparing to go to the West Indies, where Mr. Mose is to go into business as soon as his college studies are completed. Mr. Moses is a nephew of John H. Starin, the steamboat man.

Immediately after the ceremony the bride telegraphed to her father announcing her marriage and causing no end of surprise to not only her parents but also to her friends in Meriden. The next day the couple went to the bride's home, where full parental forgiveness was extended. They then returned to Brooklyn, where they will reside before starting for the West Indies.

THE STOCK MARKET.

Increased Activity Over Last Week. New York, May 26 .- There was more

ictivity in the market to-day than during the latter part of last week, but it was at the expense of values of standard stocks. Some of the specialties made striking advances, which would have served as a sustaining influence under ordinary circumstances. There was no bad news to account for the elling. On the contrary, the day's immediate developments were rather favorable. But the difficulty of attracting any general speculative demand for stocks apparently so discouraged some arge holders that they unloaded considerable lines to-day. A large specula-tive line of St. Paul and Union Pacific less amounts of various other stocks were urgently pressed for sale. The only immediate news of a depressing character was the spread of the coal mining labor trouble into some por-tions of the soft coal field in Virginia and West Virginia. The coal stocks, however, were little affected.

The rate for call money settled down o a quiet 3 per cent. basis without inducing any notable demand in the forign exchange market for raturn of borowed money abroad. In spite of the ellef afforded by the large sums borowed on the European continent and from our own domestic centers, bankers are inclined to nurse their reserve to some extent in order to strengthen their position against the future need. It is believed that the trust companies are also disposed to build up their re-serves in compliance with the intimation from the clearing house authorities that the total volume of oustanding credits ought to have greater reserves ack of them than those included in the banks' reserve alone.

The retention of the exchange rate at he low level, in spite of the easing of the money market, is the more remarkable in view of the considerable buying of British consols for American account. The arrangement for the holdng of certificates which are negotiable in this country has resulted, according o an official of the bank which made the arrangement, in the purchase of some \$10,000,000 worth of consols for the account of various banks in this country.

The apparent approach of peace in South Africa was an inspiring influence in foreign stock markets, but seemed to be disregarded here. Canadian Pacific continued its remarkable advance. which gave rise to rumors of something like a struggle for control between the present dominant interest and the Northern Securities group. There were few minor points of strength among the railroads. Rutland preferred scored a 9-point recovery on light transactions among the industrials, which were as irregular as the railroads, Pressed Steel Car was conspicuous for a rise of nearly 5 points without explanation. Favorable news from the crops, continued increases in railroad earnings reported for the third week of May and generally encouraging news from all branches of industry except the coal trade seemed to be ignored in the trading. The market closed quite active and irregular, but with many prominent stocks at about the lowest.

The bond market was rather dull and regular The total sales, har value, United States bonds were unchanged

SOUTH NORWALK SMALLPOX,

Many Persons Exposed to Contagion a Funeral.

Norwalk, May 26.-Two well defined eases of smallpox were discovered in South Norwalk yesterday. The victims are Mrs. Amelia Menz and her six-year-

old daughter, Augusta. Their home is in Statmford and they came to South Norwalk last Tuesday to attend the funeral of Louis W. Quit man, father of Mrs. Menz, who died last Monday in Statmford, and was buried from his home in Bouton street, Springwood, Thursday.

The next day, Friday, Mrs. Menz and daughter were taken ill and were un-able to return to their home. It was not until yesterday that the attending physician could say that they had smallpox.

He immediately called in the town health officer, Dr. William J. Tracy, who realized the gravity of the situation and established strict quarantine. Dr. Tracy said that every one of the 150 or so persons who attended the funeral of Mr. Quitman and mingled in the society of the patient and her child were exposed,
