

LORD SALISBURY RETIRES

RESIGNATION TENDERED TO KING AND ACCEPTED.

Right Hon. A. J. Balfour, First Lord of the Treasury and Government Leader in the House of Commons Accepts the Premiership—Speculation as to Personnel of the New Cabinet—Chamberlain and Balfour in Agreement.

London, July 13.—The Marquis of Salisbury has resigned the premiership of Great Britain, and Right Hon. A. J. Balfour, the first lord of the treasury and government leader in the house of commons, has been appointed to succeed him.

The Marquis of Salisbury tendered his resignation at an audience which he had with King Edward last Friday.

Yesterday Mr. Balfour visited the king and accepted the premiership.

While it was expected in official and political circles that Lord Salisbury's retirement would be coincident with the coronation of King Edward it was scarcely looked for prior to that event.

Consequently, about the only surprise expressed as the news spread through London concerned the date, rather than the fact, of the resignation.

The real interest was not so much in reference to Lord Salisbury's withdrawal as it was in the appointment of his successor.

The liveliest speculation is rife as to the personnel of the new cabinet. The most discussed feature of the pending change is the position of Mr. Chamberlain, the colonial secretary, who, in many quarters has been regarded as the best promising candidate for the premiership.

A representative of The Associated Press learns that prior to the acceptance of his new office Mr. Balfour first had an interview with Mr. Chamberlain and then consulted with his other cabinet associates.

This is regarded as an assurance that the future positions of Messrs. Balfour and Chamberlain will be satisfactory to both. Mr. Chamberlain's friends say he always recognized the reversion of the premiership to Mr. Balfour's right as government leader in the house of commons.

As to Lord Salisbury's withdrawal, the main reason is considered by practically all the best informed persons to have been simply a desire for a quiet life on the part of a man advanced in years, whose activities have been unusual, and whose scientific tastes predisposes him to study and seclusion.

That the retiring premier's health has failed to some extent is undeniable; but this is not more than, perhaps, is to be expected in a man of his years and the close of the war in South Africa and the return of the commanding general there is considered to be an appropriate time for his withdrawal.

Though alert mentally the retiring premier's physical condition, especially since the death of his wife, has not been satisfactory.

That loss seemed to affect him greatly and since that event he has done little entertaining. In a social aspect, Mr. Balfour's accession is not expected to make much difference, neither Mr. Balfour nor his sister, who acts as his hostess, being very fond of society.

Although Lord Salisbury's resignation does not necessarily involve the reconstruction of the cabinet it is believed the occasion will be taken to make some changes. It is not considered unlikely that some of the ministers will be made peers in order to make room for new blood in the cabinet.

It has been the idea that Mr. Balfour would be elevated to the peerage, leaving Mr. Chamberlain to lead the house of commons, the motion being that this arrangement would be the best to conciliate the divergent interests of the cabinet; but it is understood that, at any rate for the present, Mr. Balfour will continue to lead the commons.

The Associated Press learns that Lord Salisbury in resigning, expresses the desire that no new title or honors should be conferred upon him.

The retirement of this last great statesman of the Victorian age is universally regarded as the transition from one generation to another and as marking the close of an era in the national life.

ATTEMPT TO WRECK A CAR.

Terrible Accident Narrowly Averted Near New London.

New London, July 13.—A dastardly attempt to wreck a trolley car on the Montville line was made to-night about three miles north of this city. A heavy steel rail was laid across the tracks a short distance from a bridge which crosses an arm of the Thames river, and had the car left the track it surely would have gone over the declivity and the list of dead and injured would have been appalling.

The Montville line connects Norwich with New London. Fast time is required to make proper connection, and it is nothing unusual for the cars to attain a speed of thirty miles an hour. The 8 o'clock car was crowded and it struck the rail with a crash, sending the obstruction to one side.

Almost a panic ensued immediately, as the shock to the passengers was terrific. The motorman checked the speed of his car and an investigation was made. The rail was found alongside the track. It had been carried for a considerable distance to a position on the tracks with the evident purpose of throwing the car with its passengers into the river.

The road at this point runs along a high declivity and a terrible accident has been predicted many times. No clue to the would-be wreckers has been found, although the authorities have a posse scouring the country for information that would lead to their detection. The trolley company will offer a large reward for the arrest and conviction of the guilty wretches.

COMING TO THE U. S.

Crown Prince of Siam to Make a Visit to Us.

New York, July 13.—It is learned from authoritative sources that the Crown Prince of Siam will come to the United States in the same simple manner that he has visited King Edward and the various continental rulers, accompanied only by his brother, the next in succession to the crown prince, and two aides-de-camp, officers in the Siamese army. The crown prince is in his twenty-second year, and for more than eight years has lived in England, speaking and writing the language. He has been educated at Oxford, is president of the Cosmopolitan club of that university, and is most simple and unaffected in his manner. He possesses a fine, liberal mind and is said to be thoroughly imbued with western civilization, as is also his father, the King of Siam. He will call on the president and secretary of state officially, either in Washington or such other place as the American authorities may designate.

MRS. A. E. V. LESLIE DEAD.

Wife of Alfred Leslie, a Son of Frank Leslie.

New York, July 13.—Mrs. Ada Eugenie Vrooman Leslie died to-day at her home in this city after a lingering illness. She was born in 1845 and when only sixteen years of age was widely known by her contributions, in prose and verse, to the leading periodicals. She married Alfred Leslie, a son of Frank Leslie. After his death Mrs. Leslie edited the Lady's Bazar and a number of other papers. In recent years she assisted her sons, Arthur and Frank, in organizing the Leslie syndicate.

PELEE BURSTS FORTH AGAIN

IN ERUPTION SATURDAY NIGHT AND YESTERDAY.

Several Villages Covered With Stones and Rendered Uninhabitable—Dense Column of Flame Emitted Accompanied by Electrical Phenomena—Inhabitants of Northern Part of Island Panic Stricken.

Fort De France, Island of Martinique, July 13.—Last night and to-day Mont Pelee was in eruption, the activity being as great as that of Saturday and Wednesday last. Morne Rouge, Ajoupa Boulon and Mcanian were covered with stones and were rendered uninhabitable.

The volcano emitted a dense column of flame, and at the same time electrical phenomena were observed. The eruption was accompanied by deep rumbling resembling continuous thunder. There were no fatalities reported, but the inhabitants of the northern part of the island were panic-stricken, all the residents of Fort De France remaining calm, however.

The French scientific mission has been recalled from Guadeloupe by the governor and started this morning for Mont Pelee.

EJECTED FORMER PASTOR.

Exciting Scene in St. Paul's Baptist Church, (Colored) Boston.

Boston, July 13.—A most exciting scene was enacted at St. Paul's Baptist church (colored) at the close of this morning's services when as the culmination of troubles that have existed between a portion of the society and the former pastor, Rev. Simon P. W. Drew, the latter was thrown bodily from the church by half a dozen constables. A faction of the church has been trying to have Mr. Drew resign, but he has defied their attempts and has had quite a number of supporters. On account of the society's financial difficulties the Boston Baptist City Mission society acts as trustee of the church and to-day's meeting was held under their direction. Rev. Mr. Drew applied to Judge Bell of the superior court for an injunction to prevent the holding of to-day's services, but the injunction was not granted and it was in view of warnings that attempts would be made to break up the meeting that the trustee society installed a force of constables.

Rev. Mr. Drew occupied a seat in the auditorium and interrupted the sermon several times by attempting to assert his alleged rights and intimated that he would not leave the church unless he was forcibly removed.

At the close of the services the request was made that every one should leave the church and all complied except the defiant pastor and the constables, the congregation lining up in the street awaiting developments. They soon came, and Mr. Drew made a forcible exit from the front door and landed on the sidewalk with the constables upon him. His hat was knocked off while his personal appearance indicated that he had not been ejected without a struggle. He then attempted to address the crowd, but his remarks were drowned by hisses and jeers and he quickly took his departure.

Funeral of Archbishop Feehan.

Chicago, July 13.—The funeral of Archbishop Feehan will be held in the cathedral. The services will be most impressive in the ritual of the church. Pontifical mass, participated in by bishops and archbishops from all over the country and with more than 1,000 priests forming the congregation will be celebrated.

King's Progress Continues.

London, July 13.—The progress of King Edward toward recovery is maintained and it is understood that he will be transferred to the royal yacht Victoria and Albert at Portsmouth at noon next Tuesday.

NEW MINISTER FROM CHINA

SIR LIANG CHEN TUNG TO SUCCEED MR. WU.

Newly Appointed Diplomat Attended Yate—New Ministers to Russia, France and Italy Also Named—Sir Liang's Appointment Pleases the Americans in Peking.

Peking, July 13.—Sir Liang Chen Tung, secretary of the Chinese embassy to the coronation of King Edward, was to-day appointed Chinese minister to the United States.

New ministers to Russia, France and Italy have also been named. The selections for these posts show that the dowager empress continues to regard the diplomatic service as unimportant. None of the appointees is of higher than the blue-button rank, and none has held any important office. All of them, except Liang Chen Tung, are unknown to the foreign community. Liang Chen Tung's appointment pleases the Americans here.

The newly appointed diplomat was educated in America. He once attended Yale university and is able, dignified and honest. He is the first of the body of students sent to America in the seventies to receive recognition befitting their accomplishments, the Chinese officials having disliked them because of their progressive views.

MR. WU NOT SURPRISED.

Had Been Informed His Services Were Needed in Another Capacity.

Washington, July 13.—Mr. Wu, the Chinese minister at Washington, was not surprised to hear the appointment of a successor to himself, as he has been expecting an announcement of this nature for some time. He had received notice that his services would be required in another capacity, and for this reason has been prepared to hear of the naming of his successor at any time. Sir Liang Chen Tung, the newly appointed minister, is a comparatively young man, being only a little over forty years of age. Like the present minister, he is said to be a man of progressive ideas, whose opinions have been formed from his education, which was received partly in the United States, from his former connection with the Chinese embassy here and from his contact with European civilization in the course of several special missions. Cheng was one of the four parties of Chinese boys who were sent to the United States about twenty years ago for the purpose of completing their education. The idea of the Chinese government was to have each of the boys spend fifteen years in this country, ten years of which were to be in the preparatory schools and the remainder in the universities. Before Cheng had completed his course, however, the plan was discontinued and he returned home. While Cheng was minister to Washington some years ago Cheng served as interpreter during the three years of his incumbency; later he was secretary of a special mission sent to Japan; and when the Jubilee of Queen Victoria was celebrated he filled a similar position to the embassy which went to London. It was from his connection with the latter mission that he obtained his knighthood and received the title of Sir. Last year, when China signed a special mission to Germany to make formal apologies for the murder of Baron von Ketteler, Cheng was a member of the party.

Minister Wu has not been officially advised of the appointment of his successor. Mr. Wu has been at this capital since April, 1897. His relations with the administrations of Presidents McKinley and Roosevelt have been of a most cordial character. The ordinary term of ministers in the Chinese diplomatic service is three years and they are not reappointed. Mr. Wu's term of service, however, has been continued indefinitely from time to time. He was of great assistance to his government during the Boxer troubles. Several months ago he was appointed a member of the commission to codify the existing Chinese laws and prepare a set of modern laws for his country, and it is this business which in all probability the Chinese government has in store for him when he returns to his native land. Mr. Wu also is minister to Spain and Peru.

Death of a Business Man in Waterbury.

Waterbury, July 13.—William Sumner Babcock, president and treasurer of the Waterville Cutlery company, died at his home, "Oak Cliff," in this city, this morning. Death was caused by pernicious anemia. Mr. Babcock was about forty-five years of age and was born in Hebron, Conn. He came to Waterbury twelve years ago and, with his brother, bought the stock and buildings of the Waterville Cutlery company. He leaves a mother, a widow, one child and one brother.

A Third Victim.

New York, July 13.—Patrick Kenny, who was one of the seven persons injured by an automobile during the speed tests on Staten Island May 30, at which time two persons were killed, died to-night.

Object to Forcing Friars Out.

Grand Rapids, Mich., July 13.—A mass meeting of the Catholics was held here to-night to protest against the United States forcing the friars out of the Philippines. All the Catholic clergy, including Bishop Richter, attended.

King's Progress Continues.

London, July 13.—The progress of King Edward toward recovery is maintained and it is understood that he will be transferred to the royal yacht Victoria and Albert at Portsmouth at noon next Tuesday.

HAY ASKS EXTRADITION.

Action of State Department in the Greene-Gaynor Case.

Washington, July 13.—Steps have been taken by the state department for the extradition to the United States of Colonel John F. Gaynor and Captain Benjamin D. Greene, now under arrest at Quebec, Canada, formal application for their extradition has been made by Secretary Hay to Mr. Raikes, charge d'affaires of the British embassy, who is now at Newport and request promptly to his government. The grounds on which extradition is asked are comprehensive in character. This action of the state department is independent of the proceedings now in progress to obtain the extradition of the men through ordinary judicial process. The secretary has not yet acted on the suggestion of the department of justice that there were obstructions placed in the way of the Canadian proceedings by reason of connections between counsel for Messrs. Greene and Gaynor and crown officers.

Charged With Firing His Own House.

Danbury, July 13.—Patrick Ford, aged forty years, was arrested to-day, charged with arson. Fire broke out at Ford's house about 3 o'clock this morning. The firemen upon their arrival found a bed burning, and a strong odor of kerosene was noticeable. The chief of the department made an investigation and Ford's arrest followed. It is said that he was intoxicated at the time.

COAL STRIKE SITUATION

MUCH DEPENDS ON INDIANAPOLIS CONVENTION.

Should Solid Support be Voted to the Hard Coal Men the Conflict May be Prolonged Indefinitely—If Substantial Support is Not Given It May Discourage the Men.

Wilkesbarre, Pa., July 13.—The tenth week of the great anthracite miners' strike may witness the crisis. Everything now depends on the national convention which meets at Indianapolis Thursday. If the convention votes solid support to the hard coal miners now on strike the conflict with the operators may be prolonged indefinitely. On the other hand should substantial support not be forthcoming it may have a discouraging effect on the strikers and the operators taking advantage of it, may attempt to resume operations at some of the collieries. This is the consensus of opinion as expressed in operators' and strikers' circles. No effort will be made by any of the large coal companies to start up any of their mines this week. Indianapolis must speak first before any move is made in that direction. Many of the local assemblies of union mine workers of district No. 1, United Mine Workers, held meetings to-day to give final instructions to their delegates who will represent them in the national convention. Just what the instructions are is not known. It is expected, however, that all the delegates from the anthracite region will vote as a unit in the convention.

Assembling at Indianapolis.

Indianapolis, July 13.—The advance guard of delegates to the greater miners' convention, which will meet in this city Thursday, will arrive to-morrow morning. Whether a general strike will be ordered or not will be ordered or not will be the great question of the convention. The national officials of the miners' organization are expected to oppose this movement. The radical element, which is in favor of the general tie-up will have a great deal of strength in the meeting, however, and may be able to control affairs.

The five districts that called the convention, the three anthracite districts of Pennsylvania, with West Virginia and Michigan, will probably vote for a general strike. A majority vote is all that is needed to decide on this action, and the five districts will have over one-third the nominal voting strength of the convention.

It is almost a foregone conclusion that the convention will take steps to provide a defense fund for the anthracite strikers, whether a general tie-up is decided on or not.

KNOW CAUSE OF MINE DISASTER

Man Responsible for It Killed—A Day of Funerals.

Johnstown, Pa., July 13.—"We know where the explosion in the rolling mill mine occurred. We know what caused it. We know who caused it. If he were alive criminal action might reach him. He is dead undoubtedly. There is nothing sensational about the cause. I will only say that the explosion was not caused by a blast."

Those of Newport Yacht Club Will Take Place in August.

Newport, R. I., July 13.—Because of the lack of entries the three races of the Newport Yacht Racing association, which were to have been sailed off this port during the coming week, have been postponed until later in the season, probably some time in August. It was found after the last race yesterday that there were only one or two large boats left, the Elmina being laid up for repairs after the accident yesterday, the Mineola having gone to New York, the Vigilant in the same direction and the Westmore also repairing, and consequently the remaining races were declared off. The association, however, expects to have them sailed some time after the New York Yacht club cruise, probably after the return of the yachts from Marblehead.

ACADEMY CRIBBING CASES

A STATEMENT ISSUED FROM PHILLIPS-ANDOVER.

Vice Principal Stearns Severely Criticizes Princeton's Methods of Conducting Examination—Great Carelessness Shown—Two Men Worked at Each Paper in One Examination—Princeton Had Been Warned.

Andover, July 13.—In response to numerous inquiries and in answer to many criticisms regarding the recent cribbing at the Princeton examinations Vice Principal Stearns of Phillips-Andover academy has made public the following statement:

A dispatch from Princeton dated July 2 and published through the Associated Press in the papers of the following morning states that twenty-two out of the thirty-one from Phillips-Andover academy who had taken the Princeton examinations had been found guilty of cribbing, and had been rejected by the Princeton examiners for this reason. The chairman of the Princeton entrance examination committee is quoted as saying that the papers as a whole were the poorest lot Princeton had had submitted this year. The article has been commented upon extensively by the various newspapers, and in a way to show clearly that the real facts are not understood. In a Hartford paper of July 3 the following editorial comment appears: "It is inconceivable that two-thirds of those who were supposed to be fitted for college at the academy should be found cribbing at an examination unless the standard of honor in such matters had fallen very low."

These statements call for explanation, and the academy authorities would long ago have made a statement regarding the case had not Princeton, for some unknown reason, failed to notify them of the fact until the matter had been before the public for several days. The boys concerned appeared and requested permission to take the examination. They were refused by the school on the ground that the papers from Princeton had arrived, and that it was too late to provide more. One of the boys then telegraphed to Princeton for the desired permission and the next

WATERBURY ECONOMISTS.

Organize a League—Platform Adopted—Its Features.

Waterbury, July 13.—The Economic League of Waterbury to-day effected a permanent organization, elected officers and adopted a platform. The platform declares for municipal ownership, the popular election of United States senators and state judges, free public baths and lavatories, free text-books in the schools, the initiative and referendum, and pledges the members to support any party that will declare for these principles. James M. Lynch, a local newspaper man, was elected president of the league.

EXHAUSTING CHASE OF TRACY

HARD PRESSED BUT STILL AVOIDS CAPTURE.

Keeps in Hiding Despite the General Belief That He is on the Verge of Collapse from Buckshot Wounds and Illness—The Hunt Being Pushed With Greater Zeal Than Ever.

Seattle, Wash., July 13.—Notwithstanding the general belief that Tracy is on the verge of collapse, as the result of buckshot wounds and illness resulting from exposure in the wet brush, he managed to keep hidden from the officers to-day. This was especially disappointing to the four sheriffs now on his trail, as they had led him an exhausting chase up to last night, and hoped to push the pursuit to an actual encounter to-day.

Vigilance had been redoubled and the encircling cordon about the district where it is almost certain the man was hidden, was stronger than ever. The deputies scoured the neighborhood, but beyond discredited reports of the convict's appearance near Enumclaw, nothing was heard of him.

The officers, however, have not wavered and the hunt is being pushed with greater zeal than ever. It will be continued without cessation. The sheriffs are convinced that the convict is within the territory guarded by the deputies and posse men.

RACES AT VAILSBURG.

6,000 People See Hurley Take Both Amateur Events.

Newark, N. J., July 13.—There was an attendance of over six thousand at the Vailsburg track to-day. Marcus M. Hurley, of the New York Athletic club, won both of the amateur races. While the long-mark men captured the money in the half-mile for professionals, they did not do so well in the Spartan open for professionals at two miles. This was the race of the day and brought out thirty-three starters. The men were sent away to a rolling start, and as a \$10 prize went to the winner of each lap it was a series of constant sprints which kept the spectators on their feet most of the time. Hausman won the first lap and set up, as he was all out. Then Krebs led at the second, third and fourth laps. Bald won the fifth, Fenn the sixth and Tom Butler the seventh. Then the champion, Kramer, got his wheel going and he won the race in a fighting finish by about two feet. The time 4:11 is probably the fastest ever made in a scratch race. The summary: Half-mile open (amateur)—Won by M. L. Hurley, New York A. C. Time, 1:02.5. Won by a length. Half-mile handicap (professional)—Won by Ralph De Palma, Brooklyn (59 yards); T. J. Grady, Chicago (50 yards); second, Time, 56:4.5. Won by five lengths. Two-mile open, Spartan (professional)—Won by F. L. Kramer, East Orange. Time, 4:11. Won by two feet. Five-mile handicap (amateur)—Won by M. L. Hurley, New York Athletic club (scratch). Time, 11:15. Won by a foot. Winner of lap prize, Jose Rockowitz.

WILLIAM J. SHEEHAN.

Well Known New Haven Merchant Died Yesterday Morning.

William J. Sheehan, the well known wholesale liquor dealer of 175 State street, died yesterday morning at 8:15 at his home, 429 Washington avenue, West Haven, after an illness extending back to March of this year. Mr. Sheehan was fifty-six years old and had carried on an extensive business in this city since 1881, when he came here from Easthampton, Mass. He was a director of the F. S. Ashbrook Distilling company, of Cynthiana, Ky., and a prominent member of the Knights of St. Patrick club. He was for many years a member of the board of school visitors in West Haven.

Mr. Sheehan leaves a widow and seven children. The funeral services will be held at the house Wednesday morning at 8:30, with a requiem high mass at St. Lawrence church, this city, at 9 o'clock. The interment will be in Holyoke, Mass.

At a meeting of the Knights of St. Patrick to be held to-night action on the death of Mr. Sheehan will be taken.

LATEST FAIR HAVEN NEWS

TO-NIGHT'S IMPORTANT BOROUGH MEETING.

It involves the Extra Tax and the Engine House Question—Borough Alive on the Subject—New \$100,000 Church for Former Pastor's Congregation.

The legal voters of the borough of Fair Haven East should not forget that an important borough meeting is to be held in the engine house this evening at 8 o'clock. The usual tax is five mills, but at the recent annual borough meeting the basis was made five and three-quarter mills. This move was in the interests of the East side freemen and it was understood that the extra three-quarters of a mill, which would raise about \$800, was for the improvement of the engine house.

The plan first mooted was to remove the engine house from East Grand avenue in the vicinity of the churches to a lot on Quinipiac avenue, near East Grand. It is understood this plan is now abandoned and that the three-quarter mill tax will be used in improving the rooms in the engine house and in buying hose and other fire apparatus. The petition to be acted upon to-night is for the appropriation of this three-quarter mill tax to the benefit of the fire company.

There is a counter petition from a number of citizens and taxpayers to revoke the five and three-quarter mill tax and make it five mills. The borough is pretty well stirred up over the matter and the engine house, which is a small place for a meeting of such great interest, will undoubtedly be packed to the doors. The champions of both sides will endeavor to get out a big vote to carry their respective plans. The meeting has been discounted in advance and there have been some lively discussions. These discussions will be revived this evening and there will undoubtedly be lively oratory. The borough meetings are always peaceful, however, but if there should be any unruliness the two borough patrolmen, who are always in attendance, will squelch any undue manifestations in that direction.

The Housatonic Manufacturing company, which is building a big factory on Peck street for the manufacture of silverware and cutlery, has just been incorporated. The capital stock is \$150,000, in 1,500 shares of \$100 each. The shareholders are C. A. Hamilton, Ridgefield; E. A. Russell, Wallingford; J. P. Elton, Waterbury; G. E. Terry, Waterbury; A. C. Hitchcock, Waterbury; G. C. Edwards and H. B. Curtis.

BRIDGEPORT: R. S. WOODRUFF, NEW HAVEN, AND W. H. WATROUS, HARTFORD.

Attorney Wallace S. Moyle of Woolsey street has returned from a week's stay in Massachusetts. A week ago last Sunday evening he sang at a praise service in Dr. Mitchell's church in Attleboro and with great acceptance. On his return trip he rode his bicycle from Sharon to New London, making the 125 miles in eleven and three-quarter hours. The hilly route between Westerly and New London, about twenty miles, required three hours to make. This is Mr. Moyle's second century run this year.

Friends of Rev. Dr. Mitchell, formerly of Fair Haven, will be pleased to learn that the society of the Second Congregational church of Attleboro, Mass., of which he is pastor, are building a new \$100,000 church. The society is now worshipping in the old church which has been moved and the foundations for the new structure are being prepared on the site of the old one. The new church is to be of brick and stone and will require about one year to build. The money for the enterprise is all raised.

It is expected that the shelling season will be in full tide to-day, and several oystermen will begin this morning. Several hundred thousand bushels of shells will be planted and for a month to come this work will make it lively on the river and down on the oyster beds. The shell heaps have been accumulating for a year and it will cost considerable money to move them and several extra boats will be employed and scores of men hired as shovelers. The shells are used on the beds out in the Sound to catch the young oyster spat for new sets.

Mrs. Grace Brown Salisbury is now at Chautauqua, where she will remain several days. Her classes in current events which were so popular last year are all made up for the coming season.

Mr. and Mrs. A. B. Thorpe of Townsend avenue are visiting relatives in New Britain.

AT TRINITY M. E. CHURCH.

Address by Rev. Phillippe Splevacque, Jewish Christian. At Trinity Methodist church last night the Rev. Phillippe Splevacque, editor of the "Jewish Evangelist," and superintendent of the Brooklyn Christian mission to the Jews, occupied the pulpit and gave a most interesting address to the congregation. He dwelt largely on the facts which led to his conversion to Christianity, after having been educated to be a rabbi. He also told of his experiences connected with his work among his own people in an effort to bring him to think the same as he does. He says that he is not alone in this work and has the support of many people in all parts of the country, who are also devoting their time along this line. He said that his conversion was for him the empty of the great majority of his people, but he was sure that the time would come when they would believe the same as he does and accept Christ as he has. He asked his hearers to assist in the cause in several ways which are open, to subscribe for the paper which he publishes and also to contribute to a fund accumulated for the purpose of carrying on this work.

The speaker has been working in New Haven for a short time and will continue his work for several weeks yet. He is an interesting talker and held the close attention of his auditors last night.

TURN-VEREIN ELECT.

New Officers and Plan to Celebrate Fiftieth Anniversary. The New Haven Turn-Veren held its annual meeting in the Turn Hall last evening. Considerable business of private importance was transacted and the election of officers for the ensuing year took place. The society voted to celebrate its fiftieth anniversary with appropriate exercises and a committee, with Dr. E. A. Arnold as chairman, was appointed to arrange for the occasion.

THE COOL SUMMER.

People in the Elm City Find it Cheerful—Bathing Resorts Quiet. There are summers and summers. This one is clearly out of the ordinary run of summers. Nobody complains of the heat, thus far there having been but two or three really hot days. Cooling breezes have prevailed, and, with the exceptions noted, the weather has been delightful for city people. The stay-at-homes have been more comfortable than those at the seashore. Overcoats and wraps have been the order of the day, or rather of the nights, among the shore cottagers. The receipts at the bathing at the bathing resorts have been wofully small thus far in comparison with those of the like period last summer. As said one of the shore caterers Saturday: "My receipts from my bathing houses on many days this season have been from one-tenth to one-fifth of what was received last year on corresponding days."

All along the shore cottagers have many days refrained from bathing, the water being too cool, and even the boys, eager for a plunge, withheld themselves from that delight and contented themselves with wading about, and shivering at that.

But these, as remarked, have been delightful summer days for the stay-at-homes. On the tolerably warm days people find great comfort on trolley car rides, and yesterday the cars were all laden to their fill, especially in the busy part of the day.

And this extraordinary cool weather is of wide extent, prevailing in the northern states from the Rocky Mountains to the Atlantic coast. Scientists are cogitating over this state of things weatherwise. There has been, it is proven, a succession of cool waves coming from the North Pacific ocean and due to unusual air currents in the Pacific, generated by an unusual increase in the potency and intensity of the solar rays in the tropics. And the present cool weather, it is said, will, according to indications, continue right along through August and into September.

COURT CASES. Legal Questions of Interest Disposed of and Other Cases to be Heard. Two lawsuits which at the time of institution created quite a sensation were settled in the superior court last Saturday by the attorneys involved. The suits were against the executors of the will of Millionaire Henry A. Taylor of Milford. The outcome is virtually a victory for the plaintiff, Mrs. Margaret E. Conroy of 21 Morningside Heights, New York, who is the grandmother of Bayard Taylor.

Bayard Taylor during an illness was cared for by his grandmother and she died for \$5,000 of his care. The claim in the probate court was not allowed after hearings. With the appeal to the superior court on one count Mrs. Conroy gets \$2,200 and on another about \$3,000.

WANTS PROPERTY RESTORED. Former Fire Captain William H. Johnston has made application in the probate court to have his property restored to him. Captain Johnston, who is on the retired list in the department, recently returned from Middletown, where he was being treated at the asylum. The property is in the hands of a conservator. There will be a hearing on the application this week.

A NON-SUPPORT CASE. Patrick McCarthy, an expressman, living at 24 Edgar street, was charged by his wife with non-support in the city court last Saturday morning. The family includes five children, from seven to seventeen years of age. Mrs. McCarthy said that her husband gave her no money at all for four months until six weeks ago, when he gave her \$8. Since then he has given her no support at all. McCarthy was ordered to pay his wife \$4 per week, and to give her \$8 at once. If he lapses within six months he will be arrested again on the same charge.

ERICSSON BUSHNELL ILL. Noted Singer is Down With Typhoid Fever. Ericsson F. Bushnell, the celebrated American baritone singer and a prominent New York wholesale grocer, is critically ill with typhoid fever at the summer residence of his brother, Winthrop G. Bushnell, at Pine Orchard, a summer suburb of this city.

Mr. Bushnell took a chill while playing golf on July 4, an attack was diagnosed by physicians as the case as one of malarial fever. Saturday night a consultation of physicians was held and it was found typhoid had developed. Yesterday Mr. Bushnell was resting comfortably and it was said he was in no immediate danger.

ENGAGEMENTS DO NOT PERMIT. Hartford, July 12.—President Hadley of Yale, whom John F. Gunshanan had hoped to secure to open the first meeting of the Workingmen's club in the fall, has written that it will be impossible for him to do so as he has six engagements for outside addresses during the first four weeks of the university term and at least as many more invitations to address schools and associations which have close relations with Yale and have special claims upon its president, who says that a speech to be worth anything means hard work and he cannot spare the time necessary for the preparation of one for the occasion referred to. He may be secured later.

PINE ORCHARD NOTES. Preaching at the Chapel Yesterday by Rev. Mr. Sage. The Rev. E. C. Sage of the Hope Baptist church preached at the chapel in Pine Orchard yesterday and was greeted by a large congregation.

John Macville, auditor of freight receipts of the Consolidated road, who is one of the prominent summer visitors, was elected chairman of the committee on fire at the annual meeting of the Pine Orchard association Friday and the treasurer elected at the same meeting was William S. Wells.

THE EDWIN BANCROFT FOOOTE BOYS' CLUB. Work will soon be begun upon the building by the Y. M. C. A. to prepare it for its purpose. It is proposed to make it a first class club home for newboys and other boys of the city.

CECIL RHODES WILL

Provide for Proper Food for Students.

Cecil Rhodes, in his late will left a bequest of \$50,000 for the improvement of the high table for resident Fellows and tutors at Oriel College, Oxford.

"I am rejoiced to find that one millionaire has at last given some thought to the question of dietetics in educational institutions," says Elizabeth Cadz Stanton in the New York Journal.

"One of the crying evils in our schools, colleges and universities is the bad system employed in feeding growing boys and girls.

Students, above all other classes, need plenty of good, well-cooked food and a happy state of mind in anticipation of their various meals.

Dyspepsia is one of the common diseases among the literary classes, and the foundation for this prevalent ailment is laid in our colleges and seminaries. Of what avail is a knowledge of art, science, philosophy and government when health is seriously undermined?"

All this comes from ignorance as to the kind of food element the body must have to supply the daily loss from brain work. Bacon, meat, potatoes, white bread and coffee absolutely will not keep a hard brain worker well. A food expert perfected a perfect food for brain workers.

Not only in the schools but in the home should the food be looked after. The necessity of selecting food to supply proper nutrition to replace the daily waste of tissue of brain and nerves is of the greatest importance.

Grape-Nuts is the ideal food for young and old who use the brain actively; the diastase of the grains being perfectly developed and the starch transformed into grape sugar in the most perfect manner.

In this condition, Grape-Nuts is ready to be quickly absorbed in to the blood and tissue without taxing the intestinal digestive machinery. The phosphate of potash found in the cereals is retained, and this with albumen, supplies the elements required to build the gray matter in brain and nerve centers.

Flynn; pillow inscribed "Daughter," from mother; a standing wreath from Mr. and Mrs. A. W. Flynn; a large standing harp from William and Harry Flynn, and many others. The interment was in the family plot in St. Bernard's cemetery.

JOSEPH HANLEY. The funeral of Joseph Hanley was held from his late residence, 54 Hamilton street, at 8:30 Saturday morning and from a requiem high mass at St. Patrick's church at 9 o'clock. The interment was in the family plot in the St. Lawrence cemetery. The bearers were Patrick Roach, Michael Roach, Joseph Heffernan, John Flinnity, Patrick Mack and George Heffernan.

PATRICK E. BRADY. The funeral of Patrick E. Brady was held at St. John's church at 9 o'clock Saturday morning. The remains were brought from Carlstadt, N. J. He was the son of the late Patrick E. and Mary Brady.

NEW HAVEN CRICKETERS. Defeated by the Bridgeport team in the First of a Series of Games on Saturday.

A team of New Haven cricketers composed principally of members of W. E. Gladstone lodge, Order of the Sons of St. George, journeyed to Bridgeport on Saturday to play the first of a series of games with an eleven representing the Elm City Sons of St. George. The New Haven team were at a decided disadvantage when compared with their Bridgeport opponents, the latter having had several practice games, while the New Haven men appeared at the wickets for the first time this season.

After the contest the New Haven players were royally entertained by the Elm City team. The next game of the series will take place at New Haven on Saturday, the 19th, when the home team expect to put a strong eleven in the field and hope to win the game.

AFTER FIFTY-SEVEN YEARS. Rev. W. T. Hill, of this city, preached at the Methodist church in Seymour recently. Mr. Hill was stationed in Seymour at the beginning of his life's work in 1855 and 1856. He had charge of the Seymour and Great Hill M. E. churches. In 1861 and 1862 he was in Derby. In 1876 to 1879 he was presiding elder of the Seymour district and in 1894 had charge of Beacon Falls and Shelton. He was superannuated in 1899. There were but one or two who remembered him as pastor, though several had recollections of his being presiding elder of New Haven district.

STRIKE ON ANSON PHELPS STOKES' HOUSE. Greenwich, Conn., July 12.—Work on the \$250,000 summer home which is being built for Anson Phelps Stokes at Colchester Point was suspended Friday owing to the refusal of the bricklayers to continue at their jobs. The house is being built by A. K. Whitney, jr., of New York. It is understood that the bricklayers have demanded an increase of wages from \$3.90 to \$4 a day. The rate of wage fixed by the union here is \$3.50 a day, but it is said the contract was taken on the New York scale, and the men claim they are entitled to \$4 per day.

Mrs. Julia, wife of C. E. Julia, secretary to the mayor, has returned home from a very pleasant stay with relatives in Chicago.

OBITUARY NOTES.

David Meads.

Funeral services over the remains of the late David Meads, who died at his residence, 68 Wallace street, on Friday, were held yesterday afternoon at St. Patrick's church. There was a very large attendance of friends of the deceased and his family. The interment was in the St. Lawrence cemetery.

FUNERAL OF MISS ELIZABETH FLYNN.

The funeral of Miss Elizabeth Flynn, a sister of Dr. James Flynn of Howard avenue, who died on Thursday, was held at her late residence, No. 19 Waverly street, at half-past nine o'clock Saturday morning and from a solemn requiem high mass at the St. John's church at ten o'clock. The mass was celebrated by Rev. Father Walsh, Rev. Father Coyle, deacon, and Rev. Father Brennan, chaplain in the United States navy, sub-deacon, and Rev. Father Keating master of ceremonies. The services both at the house and at the grave were very largely attended by numerous friends and the priesthood was largely represented, the deceased having been preparing for church work at the time of her death.

At the grave the services were conducted by Fathers Walsh and Keating, who feelingly chanted a requiem for the dead. After the mass Father Coyle spoke very feelingly of the deceased. He described briefly her home and church life, her love for the church and the great loss that her many friends suffered at her untimely removal.

A quartette composed of Mrs. Keenan, Miss Julia Kennedy, Dr. Thomas Bergan, Miss and Louis Wintchenbach, sang Schmitt's mass with solos by Mr. Lautenbach and Dr. Bergin.

The funeral was one of the largest that has been held in this city in over a year, there having been about one hundred hacks in the procession. The pallbearers were brothers of the deceased, and were:

Dr. James H. Flynn, A. W. Flynn, Charles Flynn, Harry Flynn, William Flynn, Thomas Carty, and the flower bearers were cousins of the late Miss Flynn. They were: Charles Flynn, Thomas Carty, William McDonough, William Flynn, Herman Ellis, Louis Welch.

Many beautiful floral tributes, for which the family wish to express their gratitude, were given by friends, among which were:

Plaque of carnations from Mr. and Mrs. Carey; plaque of roses from John Carroll; plaque of carnations, Mr. and Mrs. Leary, Plainfield, N. J.; plaque of sweet peas from Mrs. Cronan; wreath from Mrs. Shannahan and Miss Farrell; standing cresset from William Dawson; plaque of roses from Margaret and Thomas McGuinness; plaque of Easter lilies from Dr. and Mrs. Hildebrandt; plaque of carnations from Miss Fanslow; plaque of sweet peas, Miss Winters and Dunlop; plaque of carnation, Mr. and Mrs. John E. Skinner; standing wreath, Mrs. Henry Vogel of New York; plaque of carnations, Mr. and Mrs. E. A. Cation; plaque of carnations, Mr. and Mrs. Arthur Wright; large standing cresset and lyre, Dr. and Mrs. James Flynn; standing lyre, Mr. and Mrs. C. F. Flynn; pillow inscribed "Daughter," from mother; a standing wreath from Mr. and Mrs. A. W. Flynn; a large standing harp from William and Harry Flynn, and many others. The interment was in the family plot in St. Bernard's cemetery.

At Savin Rock Next Thursday, Afternoon and Evening.

Next Thursday afternoon at 5 o'clock will occur the first balloon ascension at Savin on the ball grounds and it is free to everybody. In the evening at 9:50 another ascension will take place, and with it will be a grand display of aerial fireworks.

The balloon experts who give these ascensions are the best in their line of business, as they have shown their ability to do this by their past showing here. They are the original in this vicinity for giving night ascensions, and they are not looking for cheap notoriety through the newspapers, as they understand their business and know how to tie their balloons so as not to lose them.

AT SAVIN ROCK. The first grand illumination will take place this week.

The first grand illumination at this famous resort will take place on Tuesday, Wednesday and Thursday nights, July 15, 16 and 17. The grove and concert park, peristyle and theater will be one mass of colored lights, and the grounds will be covered with mimes of red fire, transforming the grounds into a gorgeous vision of fairyland. Thousands of Japanese lanterns and other Japanese effects will be shown, making it a veritable picture of "Japan at Night." During these three nights numerous novelties will be added, which will be announced later in the newspapers.

MOHAUGUIN BAND CONCERT. Fireworks Wednesday Night.

Momauquin will on next Wednesday night have another big time in the shape of a band concert by Frank Fichtl's Second Regiment band and one of the finest displays of fireworks that has ever been seen in this vicinity.

The railroad company was well pleased at their success last Wednesday and will continue to have some novelty to present to the public each Wednesday during the season. The grounds at Momauquin are about as charming as any around the city. They are beautifully illuminated with electric lights, also plenty of seats for the summer visitors.

garet Brady, who were well known members of St. John's parish. The family recently removed to New Jersey. The services were very largely attended, and the interment was in the family plot in St. Bernard's cemetery. The pallbearers were James, Edward and Thomas Halligan and Edward Brady.

WALLINGFORD.

The ball game between the Wallingfords and Graphophones, of Bridgeport, on the South Colony street grounds Saturday afternoon was not what was expected and was full of bad plays and errors. The game was called at the end of the sixth inning to enable the visitors to catch the 6:19 train. The Wallingfords started in with a rush, did some lively batting and scored nine runs in the first two innings. Then they stopped and failed to score again, while the Bridgeports in the fourth inning scored seven runs on three safe hits and numerous errors. The attendance was not large. The score by innings:

Bridgeport.....0 0 0 7 2 1-10 Wallingford.....5 4 0 0 0 0-9 Base hits—Bridgeport 9, Wallingford 10. Errors—Bridgeport 7, Wallingford 8. Umpire—Sheehy.

The big steam derrick to be used in putting in the new flues from the lake to Watrous company's factory has arrived here and was on Saturday carted down to the factory. While the tall boiler was crossing at the corner of Hall avenue and Washington street the electric globe over the street was broken by contact with the boiler.

The factories will start up again this morning after the usual summer vacation.

Inventory

This week. Mercantile honor, mercantile success—business life—depends on a firm knowing at frequent intervals just where it stands, financially.

We take stock twice a year, January and in July. We have no guess-work; we do not estimate things—we know. And the books show it in unimpeachable figures. Every stock is plugged and sampled and examined—what might be worth less later, is sold at some price right now, no matter what the loss.

Bargains? They'll be popping up every day, as we go poking through our stocks, scraping up all the short lengths and odd lots and stray pieces—and marked at less prices than anybody ever heard of.

You'll have to visit the store regularly to get them though, for such small lots seldom get into the newspapers.

For the Veranda.

Porch Screens 48c up to \$1.28 each. Awnings to order. Rugs 3 ft., 4 ft., 6 in. and 6 ft. wide, seamless, any length you may require, made from Prairie Grass. Bamboo Stools and Tabourets.

ACADEMY CRIBBING CASES

(Continued from First Page.)

day a telegram from the Princeton registrar instructed us to "admit all candidates" and "divide papers." This was done, and the twenty-seven men who finally appeared were set to work, two at each paper. The examination was a veritable farce, and the academy authorities were justly indignant. The man whom the school had provided to take charge frankly admitted that he was powerless to conduct the examinations in a proper way. The extra boys who appeared represented the weakest element in the school. Many of them belonged to lower class rooms in our judgment were totally unfit to try college examinations of any sort. Their aim was to get released from their regular school work, or to pass, if possible, a small list of subjects, and to use the credit thus obtained in applying for admission to some other college later. Princeton was notified by us of the situation, and the other colleges were warned against accepting these candidates. Regular returns, however, were received from Princeton for each candidate. Of these twenty-seven men, only two to Princeton, and one of these as a special. Four were refused readmission to Andover, and of the thirteen who returned seven were either dropped or disciplined during the year.

This spring four men applied in the regular way to take the Princeton examinations. When the time came in June thirty-one men appeared, one-half of whom needed at least one year more of work to fit them for preliminaries. The four who were regularly qualified passed with credit. Of the others eleven were either dropped at the end of the year or were subject to special faculty votes because of poor work or department, and this before there had been any intimation of the cribbing trouble.

Soon after the examinations began I myself went into the examination room with the consent of the Princeton professor in charge sent four boys from the room and back to their work. These boys were from our lowest classes. The professor in charge agreed to cancel their names from the list of candidates, but when the reports came back from Princeton all of these men were included, and three were among those reflected for cribbing. At the time I visited the room I found the boys in some tables, and I warned the instructor in charge that in view of the character of the majority of the candidates, such conditions should not be allowed. Coming into the room later still and finding little change, I again warned him of the danger of exposing boys to such severe and needless temptation. As the examination at our request was conducted wholly by Princeton, and as the academy had no official connection with it, except in providing a room, this was the most that could be done. The academy will go to the full extent in punishing those who have been guilty of this rank dishonesty. Cribbing has always been severely dealt with by us, and the present case demands the severest treatment. A most rigid investigation will be made, and those who are found guilty will not be allowed to return to the school.

CZAR RECEIVES KING VICTOR.

Report That They Are to Discuss Disarmament.

St. Petersburg, July 13.—Emperor Nicholas II, wearing the chain of the Order of the Annunziata; the czarowitch, the Russian grand duke, Count Lamsdorff, the minister of foreign affairs; the other cabinet ministers and a number of officers greeted King Victor Emmanuel, of Italy, upon his arrival at the railroad station here at half-past four this afternoon. Preceded by a band playing the Italian national anthem, a guard of honor escorted their majesties to the palace, where the czarina and dowager empress welcomed King Victor. A banquet in honor of the royal guest was given to-night in the hall of Peter the Great, in the palace, in which the cabinet ministers, the members of the Italian embassy and high court dignitaries were present. Count Lamsdorff, at the czar's command, handed to Signor Prinetti, Italian minister of foreign affairs, who accompanied the king, on his arrival, the insignia of the Order of Alexander Nevsky. The good relations which have long existed between Russia and Italy make the King Victor Emmanuel a sympathetic greeting declaring that the interests of Russia and Italy are antagonistic in no quarter whatever.

At the banquet the czar, in toasting the king, said: "It is with lively and deep satisfaction that we greet your majesty, and it is especially agreeable to us that your majesty has begun his travels by visiting us. The whole of Russia sees therein a fresh proof of the bonds of true friendship which unite us and identifies itself with our sentiments. These feelings of mutual sympathy, which are increasingly apparent between our two peoples, favor the development of the most desirable relations and interests of the two countries. I thank your majesty sincerely for your visit, and I raise my glass to the glory and happiness of your august person, of Queen Helena, of the Queen Dowager and of the whole royal family. I drink prosperity to Italy." The band then played the Italian national anthem. King Victor Emmanuel in reply said: "I thank your majesty for your hearty welcome and for the gracious words with which you have referred to me, to my country and to the ties of personal friendship which heartily unite us. The good relations which have long existed between Russia and Italy make my visit especially agreeable to me. I come to St. Petersburg with the approval of my people, who perceive in the closer drawing together of these bonds a fresh pledge of peace and prosperity. I raise my glass in honor of your imperial majesty, to the glory of your government and the prosperity of Russia, to the Empress Maria and to the Empress Alexandra, as well as to the whole imperial family."

The Russian anthem rendered by the band. Rome, July 13.—The representative of the Associated Press learns from a high source that one of the principal questions of discussion between King Victor Emmanuel and the czar will be the reduction of armaments. The presence of the king at St. Petersburg and the re-establishment of friendly relations between France and Italy are held to prove that the dual and triple alli-

ances have lost their original antagonistic character, and that, therefore, the moment is propitious for the discussion of disarmament. The Italian papers recognize the fact that the visit of the king to the czar marks the introduction of a new and essentially peaceful element into European politics.

WINDWARD SAILS TO-DAY.

Will Pass Through Sound on Way to Relieve Peary.

New York, July 13.—The Peary Arctic steamer Windward arrived at Jersey City to-day and will go into commission and depart for the north tomorrow via Long Island Sound. The Windward came down under her own steam in the early morning from Newburgh, N. Y., where for the last two months she has been receiving new equipment of boilers and machinery, making the run in very creditable time and with a very satisfactory performance of the new engine. The ceremony of transfer from the contractor to the club was very simple. The stars and stripes having been hoisted for the first time at the peak, under the special act of congress, signed by the late President McKinley, allowing an American registry to the Windward, little Marie Peary, daughter of the explorer and the most northern born child in the world, hoisted to the foretruck the club pennant, designed by herself, and also displayed for the first time.

The Windward will coal at Sydney, C. B., and proceed north through the Straits of Belle Isle, touching at Godhaven and possibly at Upernavik, and should, with all favorable circumstances, reach Peary's headquarters and him in August.

During yesterday the members of the Peary Arctic club and many guests visited the Windward, inspecting with much interest the quarters which Mrs. Peary and Miss Peary will occupy on their northern voyage. The club has faithfully seconded at home all of Mr. Peary's efforts in the north; has sent the Hope in 1898, the Diana in 1899, and the Erik in 1901, the second and last of which communicated with him, spending nearly a month at Ingfield Gulf, and brought home complete journals and records, and a large amount of valuable material rescued by him from Fort Conger, and brought over 250 miles over the ice to Grinnell Land. The members of the club have the most unqualified faith in Mr. Peary's ultimate success, and have undertaken the expensive outfit on the Windward this year with perhaps more enthusiasm than anything else in its history. They recognized the fact that Mr. Peary's ample stores and the best dog foods, his thorough familiarity with the route from his Cape Sabine headquarters to Mount Hecla, the point of departure from the North American coast for the Pole, give him great advantage, and confidently expect the return of the ship early in September with the explorer and the news of his complete success.

1783-1902—SOCIETY OF THE CIN-CINNATI—19TH ANNIVERSARY.

The annual meeting was held at the senate chamber of the capitol on Friday, July 4th. The usual business was transacted. Prayer was offered by the chaplain, after which the "Immutabile Principles" of the order were read, all standing. The treasurer's report showed that the permanent fund is \$10,750. Two candidates were proposed for membership. The following officers were elected: President, Col. George Bliss Sanford, U. S. Army, (retired), Litchfield, Conn. Vice president, Brig. Gen. Henry Larson Abbott, U. S. Army, (retired), Cambridge, Mass. Secretary, Hon. Morris Woodruff, Seymour, A. M., Bridgeport, Conn. Treasurer, Charles Isham, A. B., N. Y. city. Assistant secretary, Timothy Huggins Bishop, M. D., New Haven, Conn. Assistant treasurer, Charles Hobby Pond, Bensonhurst, L. I. Chaplain and historian, Rev. Alonzo Norton Lewis, M. The Order of the Cincinnati was constituted by a convention of officers of the Continental Army in their cantonments on the Hudson River, near New Windsor, N. Y., May 13, 1783. Each regiment and staff corps sent representatives, and the convention was presided over by Major General Baron Steuben, inspector general. All commissioned officers of the American Army who had served at least three years, or resigned with honor, were made eligible to membership on contributing one month's pay to the charity fund. Officers of the Navy in and above the rank of captain, and officers of the French Army and Navy were also made eligible. Under this rule, Marquis de Rochambeau, Count D'Estaing, Count de Grass and other French officers became members. Lafayette joined as an American officer.

Thirteen State Societies were constituted in the U. S. and one in France. General George Washington was elected president-general, and continued in office until his death. Membership was to descend from eldest son to eldest son, and in the case of failures the male line to collateral lines. Soon after its organization a violent hostility arose against the order. It was thought to be an "order of nobility" which would sooner or later "monopolize all the offices," and overthrow the liberties of the Nation. It was proposed in several states to disfranchise the members. From this and other causes, the N. H., L., Conn., Del., Va., N. C. and Ga. Societies were dissolved, or became "dominant." Within the past 20 years all have been revived, and at the "general meeting" in Hartford, June 17 and 18, all were re-represented.

The Conn. Society has 50 members, of whom 16 are residents: Dr. T. H. Bishop of New Haven, James B. Davenport of Hartford; President Timothy Dwight of New Haven; N. O. Gorham of Stamford; John P. Harmon of Naubuck; Dr. R. S. Ives of New Haven; William S. Judd of New Britain; Col. Geo. B. Sanford of Litchfield; Morris W. Seymour of Bridgeport; W. J. Starr, New Milford; Morgan G. Bulkeley, Hartford; Charles E. Gross, Hartford; Lieut. Frank N. Kellogg, U. S. Navy; Hon. George P. McLean, of Hartford, and Hon. Jonathan Trumbull, of Norwich. The Connecticut Society had 268 original members. Less than 40 of these

are represented in the society. There must be many therefore who are entitled to membership, as descendants of original members or as descendants of commissioned officers who served in the Revolution. Every one so entitled ought to prize his inheritance. Such persons are invited to correspond with the undersigned, who will give all necessary information.

OUR VANISHING GRAIN TRADE. Some current statistics put forward by a committee of the New York Produce Exchange show in a startling manner the extent to which this port, and therefore all the United States, is losing the export trade in grain and flour. As we have hitherto pointed out, such trade is being diverted to Canadian ports. So far has the transfer proceeded that Canadian ports now ship the bulk of the grain crop of the continent, and the major part of our own crop goes abroad from Canadian ports.

According to official statistics, the population of Canada in 1900 was about 5,500,000, and her exports of her own grain and breadstuffs to Great Britain amounted to \$14,888,171. At the same time the population of the United States was 77,000,000, and its exports of grain and breadstuffs to Great Britain were \$155,006,445. Thus the United States, fourteen times the size of Canada in population, was sending to Great Britain ten times as much grain and flour. Yet last week there went abroad by Canadian routes 1,022,235 bushels, and through the Atlantic ports of the United States only 742,808 bushels. If we add the Gulf ports the United States' total was 1,311,811 bushels. That is to say, Canada, only one-fourteenth the size of the United States and selling only one-tenth as much grain, is shipping about 35 per cent. more than our Atlantic ports, and within 25 per cent. of our entire Atlantic and Gulf ports shipments. The explanation is, of course, that it is our grain she is shipping. Her superior facilities for getting grain from the interior to tidewater and her superior port terminal facilities are drawing the products of our Western farms away from our ports to her own.

There may be those who regard such trade movements as lightly. To most men there is a serious thing that we are so rapidly losing, and have so largely lost, the shipping trade in one of the very greatest of our exported products. Once New York exported more grain than all other American ports put together. Last week Montreal shipped about \$5 per cent. more than New York. New York may be able to endure such a loss and still to retain its primacy among American ports. But if the process should be indefinitely continued, what then? And why should New York and the United States suffer any loss at all which might be prevented by the exercise of such energy and enterprise as our Canadian rivals display?

We speak of New York particularly, not only because of especial interest in this port and city, but also because it is perfectly evident that New York's loss is the loss of the whole nation. The other United States ports are losing little, if any. The loss is all, or nearly all, right here. The United States has fallen behind Canada in grain shipments because of the decline of New York as a grain shipping port. The neglect of New York's harbor and terminal facilities and the discriminations made in various ways against this port have not only proved injurious to New York—they have also proved disastrous to the grain shipping trade of the United States.—From the New York Tribune.

EARLY POTATOES DOWN EAST.

Captain F. C. Turner of Hampden dug his first new potatoes June 24, who has beaten him? He planted his potatoes May 3 and they were in the ground just seven weeks. The land on which they were grown had been planted with potatoes for 55 years past and as yet shows no signs of exhaustion. In 1884 his father raised an early crop there for which he received \$12 per bushel in the Bangor market.—Kennebec Journal.

WALL STREET SITUATION

AS IT IS REVIEWED BY HENRY CLEWS.

Much Depends Upon the Size of the Corn Crop—The Prospective Money Situation—The Immediate Future.

New York, July 12, 1902.—Stocks seem more or less indifferent to either good news or bad news. This is because all railroad shares are so firmly supported by concentrated holdings and continued good earnings that any bear attacks upon values are usually futile and dangerous to the assailant. For nearly a year the market has resisted a series of shocks that in ordinary times would have produced periodical sharp declines. With a foundation of general prosperity to build upon, and rumors in the air of various amalgamations or buyings for control as a stimulus, there has been little difficulty in merely sustaining the market; for the reason that while these conditions lasted neither large nor small holders could be induced to sell. On the other hand, all efforts to infuse new activity and strength into the market have met with very limited success. A rise of two or three points has invariably been followed by a pause; then reaction to the former level. The result has been a good safe trading market, but with only moderate profits. The question is asked, how long will this deadlock continue? The answer is difficult to give; for an unusual variety of conflicting conditions have to be measured. In the first place we are now fairly in the vacation period, when little is done in the way of inaugurating new plans or policies. Perhaps the most important contingency is the crops; though, as the outlook in this respect is satisfactory, there is no present anxiety in that quarter. All that can be said about the crops is that failure or even partial failure, especially if it involves the corn crop, would be very injurious to the general market. An average harvest might permit a renewal of the upward movement if other circumstances favored; but it must be frankly admitted that there is not yet sufficient certainty in the crop outlook to warrant a pronounced bull stock market. The Government monthly report was rather more favorable than anticipated, indicating a 2,500,000,000 bushel crop of corn, or 1,000 million bushels more than last year, and a wheat crop of 638,000,000 compared with 748,000,000 of last year's bumper crop. The oat yield promises 916,000,000 bushels, an increase of 180,000,000. As to other circumstances, when vacations are over and the crops assured, we may have to pay more attention to the money market, unless during the next six weeks bank reserves are considerably strengthened either by contraction of loans or additions to the reserve items. Then the elections will soon follow with discussion of subjects that will have more or less effect upon the stock market; notably the trust question, which is likely to be a more active issue. The next session of Congress will be a short one, during which little actual legislation will occur; still talk will be plentiful, if only for effect in the next presidential election. These are the most important uncertainties which the market will have to face, and only time can demonstrate how far they will be counteracted by the continuance of prosperity. In the business and industrial worlds the only disturbing element at present is the labor situation. The coal strike is still in force, contrary to expectations, and new enterprises are likely to be deferred until a more settled feeling is obtained in labor circles.

The technical situation of the market has been somewhat confused by citizen operations in corn and the unexpected movement of funds westward to carry out this deal. Whether this money will remain at the West until crop demands begin or not remains to be seen; but it delays the building up of reserves at this center. Fortunately, expected gold exports did not occur, though there is little to fear in this respect except the moral effect upon the market. Our domestic production and Klondike arrivals of gold are likely to keep us well supplied, and London is already getting the benefit of increasing receipts from the Transvaal. Soft spots have been detected here and there in the market, which encouraged light attacks by a few bold operators; but good support seemed forthcoming on all important declines, and thus far there have been no signs of a break in the forces which have held the market together for the last twelve months. Until the crop outlook is assured we may look for a slightly unsettled market, but the general situation remains sound and promising, and there is no occasion for loss of confidence during the remaining summer months, which as usual are likely to be a period of recuperation. At any rate good railroad stocks promise to be a purchase on decided reactions. The July investment demand has not yet made itself fully felt; and, as these disbursements were unusually heavy this year, buying on that account must ultimately have some influence.

ATLANTIC COAST LINE BONDS. Brown Bros. of New York, Philadelphia and Boston, Hallgarten & Co. of New York, and Vermilye & Co. of New York, Boston and Chicago, have purchased \$13,750,000 par value of the Atlantic Coast Line Railroad first consolidated mortgage 50 year 4 per cent gold bonds maturing July 1, 1952. These bankers invite subscriptions for \$10,500,000, the unpaid portion of the above amount at 100-1/4 and accrued interest, payable July 24, 1902, at which time the bonds will be ready for delivery. They recommend these bonds as a desirable investment. Half yearly interest coupons beginning March 1, 1903, will be payable March 1 and September 1 in this city. The first coupon due March 1, 1903, will be for eight months' interest. The last coupon due July 1, 1952, will be for four months' interest. The United States Trust Co. of New York is the trustee under the mortgage.

The total amount of the mortgage is for \$80,000,000. Of this amount \$31,034,000 has been issued, \$35,102,000 has been reserved to take up underlying liens and \$13,864,000 has been reserved for acquisitions, extensions, improvements

and equipments. The bonds are limited to \$20,000 per mile of railway (including underlying divisional liens) and are secured by a mortgage covering all the property of the railroad company. They are a first lien upon about 570 miles of railroad.

It is estimated that the net earnings of the mortgage property for the year ended June 30, 1902, will exceed \$5,800,000, approximately double the interest charge of the consolidated company for the year ending June 30, 1903, which, including interest on \$31,034,000 first consolidated mortgage bonds outstanding, will amount to \$2,976,307.

The bonds cannot be redeemed prior to maturity. Subscriptions will be opened at the offices of the bankers on July 17, at 10 a. m. and close at 3 p. m. the same day or earlier, without notice. Application will be made to list these bonds on the New York Stock Exchange.

President Adolph Huber of Danbury, Secretary Henry C. Schneider and Commissioner Ottenheimer of the state board of examiners of barbers met in room 59 at the capitol Saturday and received applications from fifteen barbers, seven of whom were examined. The next examination will be held in this city July 25.

Ninety-seven per cent of the mines in the Tombstone Mining District of Arizona have been merged into a single Company—The Tombstone Consolidated Mines Company, Ltd.,—under the supervision of The Development Company of America.

These mines have produced from the surface to an average depth of 500 feet over \$30,000,000. Twenty-four hundred feet of still richer deposits remain to be mined, as demonstrated by the reports of such eminent mining engineers as Prof. John A. Church, Wm. A. Farish, Prof. W. P. Blake and W. F. Staunton.

We offer, at par, in denominations to suit the purchaser, \$3,000,000 of 6 per cent Special Contract Bonds of The Tombstone Consolidated Mines Company, Ltd., accompanied by a like amount of Capital Stock. Bonds are to perfect purchase, equip and further develop the properties.

The Consolidated Company should earn operating expenses, interest charges, retire the Bonds in four years and pay 4% on the Capital Stock during the retirement period. Under less favorable conditions these properties have earned as high as \$250,000, net, per month.

NOTICE TO SUBSCRIBERS.

The Second Week of The United Manufacturers' Sale.

When we began this sale we had lots of goods, enough to enable us to print fresh page-advertisements each day for about a week. Those lots are practically gone, although not more than half of them ever got advertised. It has been one of the "fastest" weeks we have known.

All through the week, factory-men and jobbers have been watching us and watching YOU to see how you took the goods. They have keen eyes for quick outlet, and when they saw how things were going we began to get telegrams reading "Make us an offer"—for this lot, or that. The result has been that we have selected many that are better than anything we had to offer last week. Here are some of the good things:—

A Manufacturer's Sale of Enameled Ware and Kitchen Goods.

You know the "Stransky" Blue Enameled Ware;—everybody who ever kept house knows it. It is "the ware that wears". Whenever have you heard of the Stransky ware (not seconds) selling at a lowered price? Read the letter that accompanies this news and come in and get your share of the goods on Monday. You know the regular prices, well enough. Look over this list:—

A Manufacturer's Sale of Baskets

With a bag to inform you that although the price on the job lot of baskets is such below cost, I have decided, in order to make room for the new goods coming in, to accept your offer inasmuch that I am very crowded for room.
Respectfully yours,
A. LEIPZIG.

These goods are of foreign make and are offered now at less than it cost to land them in this country. For the most part, they are Work Baskets and Paper Baskets and, in the pretty, artistic shapes and in the careful workmanship that brings the highest prices. There are a great many prices, but all of them are Just One Half what our own, regular retail figures would be. On sale Monday at store opening. Be prompt.

Half Prices on Small Things.

- Curtain Loops, 2 1/2c pair.
Wool Rug Fringe, 4c a yard.
Brass Headed Tacks, 3c box.
Brass Picture Hooks, 4c a doz.
Picture Wire, piece of 25-yds, 5c.

The Most Famous Books for Boys and Girls. Half Prices.

You must admit that, among writers for young people, these names stand absolutely among the first:—G. A. Henty and Edw. S. Ellis, for boys. Mrs. L. T. Meade, for girls. Bookdealers recognize their writings as "staple" and cut figures on their works are almost unheard of except when the character of the printing and binding is lowered. But a firm of publishers in Chicago, Geo. M. Hill & Co., needing the quick cash (the firm has since failed) has let us have 1500 copies of these books at less than half prices. The volumes are all in cloth binding and in big, clear type. Now's the time, if you have any little folks to make happy. All the Edw. S. Ellis titles, 19c regular price, 49c, for All the Mrs. Meade titles, 19c regular price, 49c, for All the G. A. Henty books, 15c regular price, 25c, for This list of titles is too long to print today. Probably 125 to 150 in all. Come in and make your choice. But they are ALL juvenile classics.

A Manfrs. Sale of Neckwear.

Fancy Colored Silk Stocks, 50c and 75c values. Manufacturer's Sale Price, 25c. Lawn Ties of very fine quality, hemstitched and fancy colored edges. 25c and 50c values. At 15c each. Linen Top Collars, 10c and 12 1/2c values. Manufacturer's Sale Price, 2c each. 25c and 35c Top Collars. Manufacturer's Sale Price, 15c each. 1 lot of Sample Ties in fine silk, trimmed with Renaissance lace on ends. Value \$1 and \$1.50. Manufacturer's Sale Price, 50c ea.

And Here's Something You All Know at a Price That You Have Never Known Before.

Munyon's Witch Hazel Soap 7 1-2c

You know Munyon;—he of the admonitory gesture and the scholarly countenance. And you must have heard of his preparations. In this "Which Hazel Soap", he carried a happy thought to a scientific success and gave the whole a felicitous name. Witch Hazel Soap is really a first-class toilet soap; perhaps as good a toilet soap as has ever been made in this country or in France. It is not only clean and sweet and good, but its actual curative and hygienic properties are beyond question. Munyon's price has always been 15c a cake for this soap, and that price so far as we know, has never been broken in Connecticut. We offer you this soap Monday at 7 1-2c a cake. We have lots of its here now. We don't expect to have any left by the end of the week.

A Manufacturer's Sale of China and Toilet Sets.

If you need, or ever will need china, and you miss this chance, don't blame us for not giving you full notice of the importance of it. Look here! Here's a number of English Porcelain Dinner Sets, in as handsome a decoration as you have ever seen. 112 pieces in the set, and it is one that we ourselves have always had on sale a \$20.50 even when we got it by hundreds and got the price down as low as we possibly could. Now, we can sell about fifty of the sets at Half Price; \$10.25 You will have to be quick, though. There are only fifty sets, and more than one hundred women will be after them Monday. Don't say we didn't warn you about that, either. Also,—and almost as good—A lot of 12 piece Toilet Sets, worth \$6.50, for \$4.

Dressing Sacques Worth \$2 to \$4.50 at \$1.50.

A Malley bargain, if ever there was one. The especial beauty of the offer is that the garments are in the very best styles obtainable. They are not "Plugs"—ugly styles that wouldn't sell—they are the very cream of the stock a of house that is famous in the trade for the daintiness and desirability of its product. New, clean, fresh—not rumpled nor shopworn. Made to sell at \$2., \$3.50 and \$4.50 each. Made of the finest grade white lawn, trimmed with lace and embroidery. Sale Price, \$1.50 each.

FIRES IN SUFFIELD.

Loss Estimated at \$12,000. Suffield, July 12.—A fire which started in the hay loft of a barn owned by F. S. Root of West Suffield, late this afternoon, caused damage to the extent of \$8,000, only part of which is covered by insurance. The fire started while the members of the Root family were away from home and was not discovered until considerable headway had been gained. It soon spread to another barn nearby and finally the house caught fire and was burned to the ground. The Root estate is situated so far away from the town of Suffield that the fire fighting facilities were useless to cope with the blaze. A fire brand was carried by the high wind half a mile away and ignited the barn of S. L. Woods. The barn was

A NEW HAVEN PRODUCT.

Chamber of Commerce Calls Attention to the Fair Haven Food Company. The chamber of commerce takes pleasure in calling the attention of the citizens of New Haven to the new food, "Ready Bits," placed upon sale this week by the New Haven Prepared Food Company. Upon trial the food will be found to be delicious and the best yet produced. The food company was established here through the intercession of the new enterprise committee, of which Colonel W. Corriff is chairman, and the chamber of commerce will feel especially gratified if the people of New

Haven will encourage a purely New Haven enterprise brought here by them.

LIQUOR LAW VIOLATION.

Daniel McNamara of Oak Street Arrested Yesterday. The lone saloonkeeper caught violating the Sunday liquor law yesterday was Daniel McNamara, whose saloon is at Oak and Vine streets. Four men who were found therein were arrested, their names being Thomas F. McCarty, Louis Pequinto, Charles F. McGuire and John T. Sheehan. The arrests were made by Sergeant Orr and Patrolman Cooney. Beryl—A good deal is thought of her singing. Sybil—It's merciful they don't put their thoughts into words.—Baltimore Herald.

THE LATE MR. COUCH.

The New Haven Y. M. C. A. weekly publication has the following: One of our most faithful directors of the association, Mr. Robert I. Couch, has just been called to his reward. While his death was not entirely unexpected, yet it comes as a terrible shock to all of his friends and especially to those who labored with him in the association work. Mr. Couch has been its treasurer for two years and a half, and was a conscientious worker and was always ready to do anything in his power to further the interests of the organization. He was superintendent of the Trinity M. E. Sunday school for twenty-five years and resigned only because of his physician's advice. During his illness he has been a most patient sufferer and until very recently was most hopeful as to his recovery. His life certainly will be an inspiration to the many

young men who have been helped by coming in contact with him during his very active Christian life, because wherever he went his influence was felt for good. Mrs. Couch has the sympathy of our members and directors as well as the auxiliary in this sad bereavement.

TO VISIT SCOTLAND.

Mr. and Mrs. James Leslie of Chapel street, along with their son, Master Ben Leslie, sailed for Scotland Saturday from New York by the Anchor Line steamship Anchoria. They will be gone about two months and besides visiting the important places on the other side will spend the greater part of the time at Mr. Leslie's home in the north of Scotland. Mr. Leslie is foreman at the car shops of the N. Y. N. H. & H. R. R. company.
