GAYNOR AND GREENE

WON IN THEIR EXTRADITION FIGHT IN THE QUEBEC COURT.

They Are Wanted in the United States t for Alleged Frauds in Harbor Work Amounting to Millions of Dollars-Judge Caron and Were Congratulated by Their Friends Present.

Quebec, Aug. 13 .- Colonel John F. Gaynor and Captain Benjamin D. Greene scored a decisive victory to-day in their fight against extradition to the United States, where they are wanted in connection with alleged frauds in harbor work for the federal government involving millions of dollars. Judge Caron in the superior court discharged the prisoners from the cushody of Sheriffs Langelles of Quebec and Valee of Montreal in whose custody they have been since their sensational arrest in Quebec last May. A large number of the prisoner's friends were in the court room and they heartily congratulated the two men upon their release. Col. Gaynor and Captain Greene left the court room soon after Judge Carond had concluded and proceeded to the Chateau Frontenac. Colonel Gaynor, who is suffering from rheumatism, retired to his room

It is understood that the United States government will institute new proceedings for the extradition of Greene and Gaynor, but up to a late dez, on the gulf of Cariaco. hour no step had been taken by counsel representing the Washington authorities.

Judge Caron, who spoke in French, occupied about two hour in delivering his judgment. In reviewing the legal proceedings since the arrest of the two prisoners, Judge Caron pointed out that their counsel had said that the warrant issued by Magistrate Lafontain was illegal on the ground that it did not contain the date nor the year in which the alleged offense had been committed by the accused, an important point. He could not presume when the offense was committed and it may have been previous to the signing of the treaty between the United States and Great Britain and if so the accused could not be held as the treaties had no retroactive effect.

According to a deposition made in Montreal by Mr. Erwin, counsel for the United States in May Iost, continued Judge Caron, the accused were charged with fraud committed on or about January 1, 1397. That crime was not included in the treaties and that of receiving money under false pretenses was only included in the treaty of 1900 This was fatal to the prosecution and the warrant issued by Judge Lafontaine was defective as the offense included therein did not fall under the extradition treaty, consequently the arrest was illegal and the accused must be set at liberty. After citing authorities in concluded as follows:

"Considering that the warrant in virontaitns no date of the commissin of the offense whereof the petitioner of the treaties of extradition existing between Great Britain and the United States, it is positively provided that these treaties shall have no retroactive effect for offenses committed before their passage; considering that the allegation of the date of the commission of the offense is in consequence essential to give jurisdiction of the commis-

The Coal Mining Strikers Displeased at His Sermon.

Scranton, Pa., Aug. 13,-At a big meeting of strikers in Dickson City today District President Nicholls and ex-National Organizer Dilcher bitterly denounced the Father O'Reilly sermon, Mr. Nicholls asserted that a man who would thus defile God's temple would have God's curses fall upon him. Mr. Dilcher asserted that the sermon was unwarranted and a tissue of falsehoods.

WORKMEN ATTACKED.

In the Woodward Mine Near Wilkes barre Yesterday Evening.

Wilkesballe, Pas., Aug. 13.-A number of workmen who were returning from the Woodward mine to-night claim a volley of stones was fired at them but no one was hurt.

The owners of the Warnke washery at Duryea have asked Sheriff Jacobs to protect their property. Yesterday a barbed wire barricade was built around the washery. Last night some unknown parties tore it down. A crowd of 500 men and boys collected around the washery to-day as it was expected operations would be resumed. When a number of deputies reached the place the crowd dispersed. It is said an attempt will be made to resume work to-

The presidents of the local assemblies of the United Mine Workers of the Wilkesbarre district met here to-day and adopted resolutions condemning Rev. Father O'Reilly of Shenandoah for his criticism of the officers of the United Mine Workers. President Mitchell addressed a personal letter to the Shenandoah clergyman, taking exception to certain remarks alleged to have been made by him in his church last Sunday, Rev. Father O'Rellly sent a curt reply saying that Mr. Mitchell had

GUILTY OF CONTEMPT.

Some of the United Mine Workers Were Discharged by the Court.

Charleston, W. Va., Aug. 13.-In the

miners' contempt cases here Judge They Were Set Free by Decision of Keller held John Richards and his associates guilty of contempt and fined them \$5 and costs each, holding them committed until the fines were paid or bail given. Richards is president of District No. 17, United Mine Workers. Chris, Evans, W. B. Purcell, J. W. Carroll, W. B. Wilson and C. S. Stewart were dismissed, the judge holding that the testimony did not show that they had violated the injunction. Evans is national statistician of the mine work-Purcell is distributing agent for supplies in this valley and Carroll a national organizer. Wilson is secretary of the National union.

INDIAN CORONATION TROOPS

THERE WERE 1,300 REVIEWED BY KING EDWARD YESTERDAY.

The Prince of Wales Presented Medals to the Men -The King Wore a Jeweled Sword That Cost \$50,000 - Scene on the Terrace at Buckingham Palace Was a Brilliant One-What the King Said.

London, Aug. 13.-The Indian coronation troops to the number of 1,300 were reviewed by King Edward at Buckingham palace this afternoon. The arrangements were similar to those of yesterday when a body of colonials was reviewed. The Prince of Wales presented medals to the men. Th Princess Victoria and other royal persons took snap shot pictures while the ceremony was in progress, Queen Alexandra and many notables were present. The king wore a jewelled sword that cost \$50,000. which was presented to him yesterday by the Maharajah of Jaipur.

The scene on the terrace was a very brilliant one, the European military and lEevee dress being quite outshone by support of his decision Judge Caron the splendid apparel of the Indian princes. The queen wore a heliotrope costume with a small toque of the same tue of which the petitioners are detain- shade. She received a greater ovation than the kind as both passed down a line of notables, bowing and shaking are accused; considering that in virtue hands. The great lawn below the terrace was a marvelous sight in red, yellow, green and blue. The Bengales, Sikhs, Gurkhas, and Punjab calavry made a strong contrast to a single khaki spot where the British regulars from India stood, At the word of command fluttering lances, rifles and carbines were grounded and the contingents one by one filed past the royal canopy, saluting their majesties and receiving medal's at the hand of the Prince of Wales.

At the close of the review the troops were drawn up in front of the king, who addressed the officers as follows: wish to convey to all ranks the high satisfaction it has given me to see this splendid contingent from India. I almost feared, owing to my serious illness. that I would be prevented from having the advantage of seeing you, but I am glad to say that by God's mercy I am well again. I recognize among you many of the regiments I had the advantage of seeing at Delhi during my tour of India. I hope the contingen has enjoyed its stay n England, and that all may return in safety to their homes. I wish you to convey these sentiments from me to all ranks of your command."

A DEFAULTING COLLECTOR.

Alleged to Have Stolen \$25,000 From Cumberland County, N. J.

Bridgeton, N. J., Aug. 13 .- County Collector William O. Garrison is missing from his home and the Cumberland county board of freeholders after its meeting to-day confirmed the rumor that he is a defaulter. An officer of the board estimated the loss at \$25,000. Garrison left Bridgeton last Friday, ostensibly to attend the Elks' gathering at Salt Lake City. He left a letter for his family, the seal of which was not to be broken until to-day. In it he conveyed the information that he had gone never to return and he stated further that it would be useless to search for him. Garrison is supposed to have used the money in his extensive coal and grain business. In his letter he acknowledged taking the county's money from the time he was first elect-

ed collector ten years ago, The missing man was a trustee of the First Baptist church, exalted ruler of trip for a committee of the citizens' al- the local Elks lodge and was prominen in all of the country's affairs. The tug sank almost immediately and ing and the name board came ashore with the ebb tide along Staten Island The wreckage consists of the upper works of the tug. The owners of the tug are G. D. Kuper & Bros. She was towing a lighter loaded with cotton from Brooklyn to Staten Island. The Staten Island ferryboat Castleton was near the scene of the explosion when it occurred and Captain Braisted of the ferryboat says the explosion and the sinking of the tug were almost simultaneous. The tug seemed to break in two amidships. The Castleton was at once stopped and boats were quickly lowered but only one man was picked up by the Castleton. His face was hor ribly burned and scalded. The Jacob Kuper was in charge of Captain Henry Lundberg. She was built in 1885, and was 96 feet long.

There were eight men on the tug and all were blown into the water. Four were rescued. Three of these are in jured badly and one at least is not expected to live. The tugboat sank immediately. The dead are Captain Harry Johnson of South Brooklyn, temporarily in command of the tug: William Purdy, engineer; — Lewis, cook, and Lewrence, deck hand. The injured are Henry Nichols, fireman, scalded; Lawrence Johnson, deck hand, condition serious; Christian Gregg, scalded; Edward Lane, slightly injured.

Captain Lundberg was not on board. The cause of the accident probably never will be known, as Engineer Pur dy is among the dead.

Arrangements have been made by the owners of the Kuper to have divers go down to-morrow morning and search the wreck for bodies of the missing and also to ascertain to what extent the vessel is damaged.

WILL HAVE A CAFE.

Feature of the Improvements Under Way at New Haven Rouse

Seth H. Moseley, of the New Haven house, is having the hotel completely renovated this summer, and many needed additions and improvements will also await the winter guests.

The most striking feature of the exonce. Mr. Moseley has decided to turn one of the reading rooms in front of the hotel into a thoroughly up-to-date ladies' and gentlemen's cafe, and if the plan turns out to be a success further arrangements in this line will be made to meet the demand of the New Haven people. The cafe will be in the large oom next to and running parallel with the main entrance of the hotel on Chapel street and will be fitted up in an attractive manner.

All of the furniture will be in Dutch oak on the plain mission style and some of it has already arrived at the hotel. Mr. Moseley said yesterday afternoon that the appointments would be plain to a degree, at the start, and that if the trade warranted his spending a great deal of money on the scheme he would do it immediately. "It is only an experiment," said he, "and, as I say, if the experiment proves a success, why, can go into my pocket and make a more elaborate affair of it later. Everything will be run on strictly first-class principles and the best of a la carte meals will be served. I will also have a complete line of beverages and intend to make the cafe a feature of the house." Mr. Moseley said that the work in

transforming the room into a cafe would be completed about September 1 The kitchen force will have to be increased when the work is done, and in order to have a better approach to the kitchen considerable work in this hange will be required.

Other improvements are under way all through the hotel. On the second floor, or parlor floor, one new bathroom is being put in, on the third floor there are four new bathrooms, on the next floor four more will be completed soon, and on the fifth floor there will be five

new bathrooms. Twenty-four rooms and suites will open into these bathrooms, and this improvement will be one that Mr. Moseley feels has been most necessary. The plumbing comprises all the new ideas

in that line and is almost completed. Mr. Moseley said yesterday that probably next year a new kitchen would be built so that it would be on the same floor with the dining room. At present the kitchen is in the basement,

Miss Yohe looked well and confirmed Strong's statement. She said: 'I was glad to come to Lisbon; we are perfectly happy and I hope our troubles are now ended." The Express says Miss Yohe and

Strong left Lisbon since the date of the above message and were at Bordeaux August 12, from which place they start-

PLANS FOR GOVERNOR'S DAY

HAVE BEEN ARRANGED ON EX-TENSIVE MILITARY SCALE.

Acting Governor Keeler Will Review the Troops.-The Four Regiments Began Routine Work Yesterday-Experiences in Provisional Camp-Accident on the Grounds-Many Interest-

To-morrow will be the great day of the week at Camp Keeler. Friday will be Governor's day, and the military events of the day will be conducted on an extensive scale. The programme will be carried out as though Governor Mc-Lean were present, no change being made because of his enforced absence. Acting Governor E. O. Keeler will be present and will review the troops. Many of the most prominent of the state's officials will also attend, the camp, and the attendance of interested spectators is expected to exceed that of any previous year. The weather conditions augur well, and the day will be a notable one in many respects from a military and social point of view.

The four regiments settled down to routine work yesterday afternoon immediately after the return to camp of the Second and Fourth regiments. The experiences of the Second and Fourth while in the provisional camp were of a to serve on so-called ward committees much more satisfactory nature than those of the First and Third. The men were in far better condition when they left the rendezvous than were the First and Third, and their first night at Lake Patagaunset was not made disagreeable by a downpour of rain. The only inconvenience was that of the cold, but tee of five members of the league wait tensive work of improvement will be a the men were astir at 4 o'clock yester- upon the members of the new cafe, work on which will begin at day morning and soon warmed up. As an illustration of the ability of the men in pitching a temporary camp, the Grays were obliged to change their location and within thirty minutes after finding a new site sixteen shelter tents and two officers' tents had been pitched by a detail under command of Quartermaster Sergeant Ward. WILL MAKE NOMINATIONS

ECONOMIC LEAGUE TOWN CON-VENTION NEXT TUESDAY.

State Ticket May Also be Named-Long Drawn Out Session Last Night-Resignation of President Andrew J. Kelly Finally Accepted-Organized Labor Expected to be a Factor.

After three hours of discussion, most of which dealt in personalities, the Economic league last night voted to call a convention of all members in the town for the purpose of nominating candidates for senator and representathe county. The secretary was also instructed to call the attention of all the other leagues in the state to this fact and ask that they call conventions in their respective towns and also in the state so that there may be a county conventon and a state convention in the near future. The town convention for New Haven is to be held in the hall of the Bricklayers' union on Wednesday night next and only members of the league are to be admitted as delegates, It was at first thought advisable to ages. have a mass convention at which representatives of the many labor organizations in the town should be asked to have representatives. This was voted down by reason of the fear that the old parties, co called, would have representatives in the convention and thus secure the delegates and have the nominces represent them while supposedly representing the Economic league. In this way it was said that the cause of the league would be defeated and that their work would amount to nothing. Several of the members were in favor

of putting an entire state ticket in the field, while others thought it advisable to pick out one or two offices for which they would nominate candidates and then ask the old parties to endorse these several candidates with the pledge on the part of the leaguers that all the remainder of the ticket, town, county and state, would be supported.

Several of the speakers seemed to place great faith in the union of labor in this city by reason of the way in which they seemed to sympathize with the strikers last week and in consequence were of the opinion that if a labor ticket was named that it would receive the hearty support of all organized labor in the city and state,

A motion to appoint a committee of two from each ward to endeavor to have a certain number of the delegates to the town conventions of the old parties pledged to the principles of the league also prevailed. however, to be a lack of members, and an unwillingness on the part of several and this plan was finally given up.

It was agreed that the scheme for calling of the democratic primaries for next Tuesday night was a scheme to defeat any plans which the members of the league might have, and in consequence it was voted to have a committo have them postpone the holding of the primaries until after September 10. Of this committee A. J. Kelly is chair-

The resignation of Andrew J. Kelly as president of the league, which was presented some time ago, and over which there has been considerable discusson, coming, as it was at that time stated because some of the members of the league were so-called "spoils politicians" was after three attempts ac Frank J. Horan was unanicepted. elected to succeed him and Joseph Foley elected vice president to succeed Mr. Horan. At the time of the election Mr. Kelly was asked to take the chair temporarily, and he declined to do so stating that he had been misrepresented as to some of his former statements. He said that he could better fight for the principles by being on the floor. He hurled invectives without number at the press of the state, saying that he had been grossly misrepresented and had made enemies in consequence of the stand which h was alleged to have taken in the matter of "spoils polticians.

The discussions on the various matters under consideration waxed warm towards the close of the meeting and personalities were indulged in to an

alarming extent. Mr. Rich, one of the- committeed appointed at the citizens' mass meeting last week to confer with the citizens' committee of fifteen in their effort to bring the trolly strike to an end, made a short report of its reception by the ommittee. He expressed the opinion that if either committee could have been biased it was the citizens' committee and not that of the mass meeting.

GENERAL SMITH ILL.

It is Caused by Nervous Collapse and News of Retirement.

Portsmouth, Ohio, Aug. 13.-General Jacob H. Smith is seriously ill to-night at the home of his brother-in-law, Judge James W. Bannon. His illness came late last night, but was not considered serious until late this afternoon, when physicians were called in. general's illness is in the form of a neryous collapse, attributed to the strain of his campaign in Samar, the subse quent court-martial and the unexpected ews of his retirement received on the date of his landing at San Francisco.

THE POWER INVESTIGATION.

An Attempt to Prove That There is a

King of Business Men. New York, Aug. 13.-In the examination case in the United States circuit court, which was held before United States Commissioner Mahey to-day, there was some interesting testimony given by Walter Cowtent, a broker, in the investigation which is goin on to prove that one Peter Power has been guilty of gross irregularities. Mr. Content is said to be the office member of the brokerage firm of J. H. Content & Co., and there was considerable dseussion over the possession of some Bay State Gas company stock and the witness declined to tell how much of the gas stock his firm had or carried, and

the question had to be passed. Mr. Content said that his firm had made payments of money to Captain Henry Stern on Mr. Weidenfeld's account and at the latter's direction on account of Peter Powers's case. He admitted that his house had an account with Ellsworth I. Chapman, but said it was in the nature of a loan made on securities about six months ago. Content denied that Camille Weidenfeld

guranteed that loan. Patrick Terhune, bookkeeper for H. Content & Co., was then put on the stand. His replies to questions by Mr. Guthrie were so unsatisfactory gentleman that the latter asked for an adjournment until to-morrow when the bookkeeper was instructed to return with a sworn transcript of the accounts

of Captain Stern. At the conclusion of the examination Lawyer Lamb assured United States Marshal Henkel that he would have Mr. Power in New York and at the marshal's office at 10 o'clock Suesday morn-

PLANS FOR GOVERNOR'S DAY

(Continued from First Page.)

The field work yesterday consisted of a drill by Troop A, the men performing many daring feats by riding their horses without bridle or saddle. There was also a very interesting exhibition of field work by the Machine Gun Battery. The second section, under command of Captain Sears, is showing up better than ever. Their drills are feature, not only to the officers but to the spectators, who apparently follow the movements with a feeling that some direful accident is liable to happen at any moment. Yesterday the expected did happen. A pole on one of the gun carriages broke while the battery was traveling at a rapid rate. Privates Samuel Johnson and Edward Smith of this city were thrown from the carriage. They escaped with a few bruises and were out of the hospital after a slight amount of attention. That no one was fatally injured seemed almost miracu Charles Poedall of the second section was also on the carriage and escaped without a scratch.

The Third regiment detail practiced yesterday throwing up entrenchments and minor defences. This ended the field work of the encampment.

Yesterday morning Acting Governor Keeler left camp with his staff for a sail on the sound on the United States steamer Elfrida, assigned to the Connecticut naval battalon. The vessel left New Haven Saturday in command of Lieutenant Commander F. S. Cornwall. and has been cruising in the vicinity of New London ever since. Yesterday morning she dropped anchor in Niantic hav, and the guests, who were accompanied by Commander F. L. Averill were taken on board at 10 o'clock. Commander Averill has been visiting camp for a day or so. The party returned in the afternoon ,and Actng Governor Keeler later, accompanied by several

ladies, enjoyed a drive through camp. Again yesterday the brigade was market 100 in policing, making two days record. The brigade average for quarters was 98.67.

The first brigade formation will take place to-day. NOTES.

of the tournament took place. tournament events were witnessed by in immense throng.

The day opened by a business meetng in the theater at 9:39 a. m. The nost important business taken up was resolution to pay the death benefit of \$550 to the widow and orphans of Captain J. O. Brainard, of Meriden the was killed, while off duty last Febuary, by a horse while giving it exer

President Gotsell, of Thomaston, op sed the metion to award the benefit on the ground that it was contrary to the constitution, which allows no benefit except where injuries are received in the performance of a fireman's duty, namely, fighting fires.

On the minority side the leader was x-President Pitt, of Middletown. He strongly favored paying the benefit money. The executive committee had presented a majority report against the esolution.

A discussion of the case followed and lasted several minutes. During this discussion Delegate Dunegan, of Hartford, arose and said that he was tired of the bickering. To put an end to it all he offered to write out a check for the amount, as he believed it ought to be paid. His offer was applauded and shortly afterward the question was put One ballot by acclamation was all that was necessary and the money was or dered to be paid to Mrs. Brainard. As soon as this case was disposed of

Captain P. F. Redmond, of steamer No. New Haven, brought up the question of Wilbur A. Peck's right to twenty-two days' benefit on account of an accident while testing an engine. Mr. Peck is the engineer of steamer No. 3, of this city, who had his clothes tern from his body and was severely injured by being hit by a stream of water from a burst hose.

Another discussion followed the mo tion to pay Mr. Peck the money. was terminated by a motion to lay the matter before the executive committee upon the withdrawal of Captain Redmond's motion. In executive session after the meeting the executive committee discussed the case for half an hour and adjourned to settle the matter at its next meeting.

The committee on resolutions tendered its report containing resolutions thanking Warden D. A. Kimberly, Chief Sohn, of the West Haven fire department, and the members of the department for their cordial welcome and entertainment; also Rev. A. J. Gammack. President Gotsell and others. The committee which presented this report was composed of Howard L. Stanton, George S. Pitt and Thomas R O'Connor. Their report was adopted by

The question of the place of the next convention was settled in favor of Branford. It will be held there in August, 1903, on dates to be fixed by the executive committee. At about 10 o'clock the convention

adjourned. Immediately after the session the delegates prepared for the big street parade. The lines formed on Main street and around the town hall, It was nearly noon when the parade started

"It is ordered that petitioners be liberated and discharged from custody."

Washington, Aug. 13.-The decision of Judge Caron in the Green and Gaynor cases was a decided disappointment to the government official interested, as they had hoped for a favorable outcome of the efforts that have been made to secure the extradition of the two men. Attorney-General Knox is out of the city, and in his absence Assistant Attorney-General Beck is acting as the head of the department. Mr. Beck declined to comment on the de-cision further than to say that he regretted it.

Mr. Beck sent a telegram to the counsel for the government at Quebec requesting the particulars in the case. About 10 o'clock to-night a reply came from Quebec, but Mr. Beck declined to reveal its contents. The full text of Judge Caron's decision in the case will be mailed to Washington, and the officials think it should arrive here by tomorrow night or early Friday morning.

No one in Washington is prepared to say what the future action of the government will be in the cases of Messrs. Green and Gaynor. That matter will be determined by Attorney-General Knox, who has given the case considerable personal attention, and who has felt confident that the effort of the government to secure the extradition of the two men would be successful.

THE HARVESTERS COMPANY.

Important Statement Made by the In corporators.

New York, Aug. 13 .- The incorporators of the International Harvester company, articles of incorporation for which were filed yesterday in Jersey City, to-day made public a statement which says in part:

"The International Harvester company has been organized, under the laws of New Jersey, with a capital stock of \$120,000,000, to manufacture and sell harvesting machinery. It has purchased the property and business of the following manufacturers: The McCormick Harvesting Machine company, Deering Harvester company, Plano Manufacturing company, Warder, Bushnell & Glessner company, (Champion) Milwaukee Harvesting company.

"The company is capitalized upon an exceptionally conservative basis. Of its assets \$80,000,000 are in cash ing capital. The company will require no financing and there will be no offer of its stock to the public, all the cash required having been provided by its stockholders"

After alluding to the advance in prices of raw material and the possible consequent advance in the price of harvesting machinery, unless economies in existing conditions of manufacture could be accomplished, the statement continues:

"The manufacturers realize that their welfare and the interests of the farmers are identical. An advance in the price of agricultural machinery would injure the farmers and react upon the manufacturers. But, on the other hand, it existing conditions continued, an advance in prices would be inevitable. It has become necessary that either the prices should be advanced or that substantial economies should be effected in the manufacture and distribution of agricultural machinery. The manage-ment of the company will be in charge of the gentlemen who have for years been identified with the business. The company will start with ample manufacturing facilities. It has five fullyequipped manufacturing plants in the of construction in Canada."

The officers of the company are as follows: President, Cyrus M. McCormick; chairman of the executive committee. Charles Deering: chairman of the finance committee, George W. Perkins; vice presidents, Harold F. McCormick, James Deering, William H. Jones and John J. Glessner; secretary and treasurer, Richard F. Howe: board of directors, Cyrus Bentley, Paul D. Of the Stock Market Letter of J. L. Mc-Lean & Co.

New York, Aug. 13 .- The steel stocks were decidedly strong, presumably on the strength of Mr. Morgans' embarkment for home, and it is generally believed that his arrival, together with that of Mr. Keene's will be followed by bull manipulation in these stocks. Certain it is that they have lain dormant long enough, to discourage the average holder. The probability is that the books of the company now show a much larger percentage of these stocks in the ands of insiders than has been the case before within a year. The people who are in a position to know most about these particular stocks are not afraid to carry them in their own accounts, as was recently shown by lists of stockholders published in connection with the bond conversion issue. general market was quiet but firm today and when operators return increased activity and a higher level in prices are expected.

A PRETTY WEDDING:

Weller-Rimler Wedding on Nash

Street. Miss Louise Weller, daughter of Mr. and Mrs. Albert Weller, and Frederick William Rimler, were united in marriage Tuesday evening at the residence of the young lady, No. 19 Nash street. Many friends, relatives and invited guests attended the ceremony, which at o'clock was performed by Rev. Mr. Timm.

The whole house was prettily decor-

ated, and especially the parlor, where the knot was tied. In the center was erected a large arch of golden rod, with a bell in the center; this bell was also made of flowers and can rightly be caled a masterpiece. Palms, smilax and lillies of the valley were profusely used everywhere. Shortly before 8 o'clock Herman Trisch seated himself at the plane and rendered Lohengrin's wedding march. The bridal party formed and marched to the arch, the prospective bride, led by Miss Mollle Weller, her sister, while Gus Dunsing acted as best man. Messrs. George and Albert congratulations on the popular young couple. The lawn in the rear of the house had been prettily festooned with Japanese lanterns and all paraphernalla necessary at such occasions. The whole presented an exceedingly pleasing appearance; the gay guests and the happy couple. At the wedding feast that followed speeches of congratula-tions were made by Rev. Mr. Timm. Mr. Charles Repp of Ansonia, an uncle of the bride; Herman Schwesinger; and last but not least, G. Wild, who by his ready wit and humor kept all laughing.

At 11:39 o'clock a hack, well prepared vith signs and other articles usually resorted to on such occasions, drove up to the house to convey the couple to the boat on their wedding tour. young people present then came in for their share of the celebration. Tin orns and various other instruments vigorously used made it quite lively from the house to the boat. Mr. and Mrs. Rimler will be away on their honeymoon to the Falls, Washington and other places of interest for two weeks. On their return they will reside at 43 Fulton street. Many wedding gifts were bestowed upon the happy pair.

Among those present were noted: Mr. and Mrs. Albert Weller, Sr.; Messrs. George and Albert Weller, Jr.; the Misses Mollie, Anna and Dollie Weller, Mr. and Mrs. G. Devery can certainly "sling language." He says of Sheehan: "You couldn't follow him through life by the pennies he has spent."

The proposed erection of a twentystory office building on the American plan in London has aroused vigorous opposition. The streets of the British capital are so narrow and dark under ordinary circumstances that to line them with skyscrapers would practically convert them into tunnels.

There is corn in Missouri. A man living near Hardin, Ray county, thinks he has the best stand of corn in the state. He is cultivating what was formerly a twenty-acre feed lot, and he expects his yield to be one hundred and twenty bushels to the acre. His prospects beat those of Harve Levi, of near Missouri City, who says he is confidently expecting one hundred bushels to the acre. But the prize corn story comes from Fulton. J. W. Craighead, a farmer living near there, claims he has a stalk that has fifty-six ears on it.

One more. A combination of lumber interests in the south and northwest is planned, to have the name of the Lumber Merchants and Timber Growers' Protective association. It will be capitalized at \$50,000,000, and is expected to include over one-half of the timber interests of the country. It is the intention of the incorporators to cultivate and prepare timber for the market, and will also govern the price of timber. They will have a private steamship line, which will be used for exporting prepared timber to foreign countries, and in return will carry to this country choice timbers grown in distant lands.

Secretary Moody of the navy received notification from the comptroller that he could not pay the subsistence of the congressional guests during the naval maneuvers out of the contingent fund of the navy department. He replied, rather tartly, that he had not asked permission, having intended all the time to pay the bill out of his own pocket. Comptroller Tracewell then producted a letter, signed by Secretary Moody, asking the quection which he had answered. It seems the letter was prepared by some responsible subordinate, and that Mr. Moody had signed it in the regular transaction of business without knowing it.

Information received from United States Consul G. Bie Rayndal at Beirut, Syria, shows that the Syrians are taking great interest in the World's Fair at St. Louis. The merchants and manufacturers of that country have been greatly benefited by the American expositions directly and indirectly. They not only have made money but have gained many new ideas by their contact with the people of the Western world. The silk weaving, filagree and other Syrian industries have been revived as a consequence of business built up through the influence of American expositions. Mr. Ravndal says that there will be a fine display of Damascus specialties by a Beirut syndicate and that a lively participation on the part of Syria in the Exposition may be expected.

The agricultural districts of Gugarat, India, are experiencing a plague of rats. They have consumed the crops of sowed grain and have caused much suffering among the inhabitants. In some places the people have dug out the accumulated stores of grain from the rat-holes and found as much as ten pounds collected in one burrow. acute has the crisis become that the government offers large rewards for the extermination of the pest. But the object of the government has hitherto been largely defeated owing to the superstitions of the natives, who persisted in their theory that the unusual numbers of rats represented souls of the departed in the late famine and refused to make any attempt to exterminate them. This curious apprehension, however, has now been overcome and many thousands of rats have been killed, The method adopted by the natives in destroying rats for the reward is unique. At night a party goes out with a lantern and armed with bows and arrows, speed of fifty miles an hour the resist-

HOW TO LIVE

It is related that Watts, the English painter, was a delicate, sickly boy, doesn't know what vigorous health is like, but has lived to see his eightysixth year. He never blew a cloud of tobacco smoke, he is a tectotaler, he goes to bed and gets up with the chickens. "I am a very negative sort of person," he says. "I cannot say that the joy of life has ever been mine. I enjoy my work; I am immensely interested in it, and am continually endeavoring to improve.

Ralph Bullock, of Brooklyn, has just celebrated his one hundred and fourth birthday with great follity, amid the congratulations of 170 great-grandchildren. He talked, laughed and sang on his birthday, and announced his intention to celebrate six more. To the admiring public the Brooklyn centenarian gives his recipe for long life. It might run as follows: "Be careful of your drinks; eschew tobacco and avoid catching cold." But it does run like drink when you feel like it, and never let worry enter your daily life." Mr. Bullock "has used tobacco and liquor nearly all his life, and even now finds comfort in an old clay pipe."

Pay your money and take your choice The paths of living, like the paths of glory, lead but to the grave.

It is evident that it is going to pay some people in this country to learn the Chinese language if they can. China is very friendly to us, and we must take advantage of that fact to extend our Charles Neuer, consular agent at Gera, who has been studying up on the Chinese language for the purpose of determining whether it is more difficult for an American to learn than Russian and other tongue-twisting languages. The marks for their writing. In the opinion 2,000 marks for mercantile correspondence and they will be easier to learn than the words of an ordinary foreign language. Russian is more difficult for Americans than Chinese, declares Consular Agent Neuer, who adds: "It takes much longer to learn the spoken languages, because of the variety of dialects; but any one can learn enough of the writings to answer ordinary purposes in a few months and have his knowledge perfected by a linguist within about a year. Exact instruction in one of the Chinese languages can only be given by a Chinaman. This method has been adopted in Germany. Beside the professor for the theory of language, there are four Chinese linguists in the Oriental Seminary of Berlin, teaching the business style and the languages of Peking, Shanghai and Can-

FASTIRAINS WANTED IN GERMANI A series of prizes has been offered by the German Society of Mechanical Engineers for the best design and specifications for a steam locomotive and group of cars which together would form an express train capable of carrying one hundred passengers comfortably with their baggage at a speed of seventy-five miles an hour. The purpose of this competition is to obtain a unit of equipment affording a greatly increased speed and yet adapted for use on the state railroads of Prussia as they now are, without any change being made necessary in the weight of rails and ties. The specifications require that this train shall be able to maintain for three consecutive hours a speed of seventy-four and a half miles an hour without stopping for water or fuel and with a minimum expenditure of power

Arthur Kirchoff, editor of a publication in Berlin devoted to engineering and machinery, has some interesting ideas concerning the formation of a fast train. Experiments made with every possible care have shown that at a

WHERE NEGROES RULE, BUT

All the Money-Colored Lords and Ladies vs "White Trash"-African Superstitions-Earthquakes and Rev-

Special Correspondence of the Journal

Port au Prince, Haiti, July 7, 1962. If you wish to be absolutely correct first unlearn that which was drilled inisland Espanola-pronunced As-panyo-lah, meaning "Little Spain," and the ounded is Santo, (not "San") Domeen-go. The latter name is now apof the island, while its western half is called Haiti-the French attempt at spelling the original Indian name. It should properly be spelled in three syllables, with a double dot over the first; to show that the al is not blended, but each letter sounded-making the correndition Hah-ee-tee-though many islanders use the Spanish pronunciation, dropping the "H," making

he Black Republic. An ex-Consul of the United States to Haiti, who now resides in Washington, declares that to enter Port an Prince is to take one's life in one's hand, by reason of filthengendered diseases and the perils of perpetual revolutions-to say nothing of private murder and robbery. He says that every element of civilization is almost wiped out in the decadence of the island under negro rule, and that the vast majority of the swarming black population is sunk in barbarism deeper than that of the tribes of Central Afriba. Haiti has 500,000 poulation-double that of Santo Domingo, though with much less area, and fuly seven-eighths of the people are full-blooded blacks, the rest, except an infinitesimal num Plain and fancy ber of foreigners, being mulattoes, taffeta Ribbons re- called by courtesy "Creoles." Philanduced from 25c and thropists to the contrary notwithstanding, the experiment of African selfruled has been a signal failure, even here where the race has enjoyed every advantage. For almost a hundred years (since 1804) the black man has had things all his own way in Haiti and been undisputed lord of the country, unhampered by political disabilities, prejudices, or degrading memories. This is the only country in the Western Hemisphere where negroes are the rulers, legislators, judges, generals, authors, artists and where the white man is indebted to the black for liberty to live. By the Haitian Constitution the years ago, its broad, well-paved boulewhite race has no legal right which anybody is bound to respect. They cannot own real estate, nor hold mortgages for longer than nine years, nor even good patterns they cannot vote nor obtain political positon. Even if they marry Haitian women they canot inherit their landed property, but only the proceeds of it when sold at public auction. They are the 50c Wr st Bags not allowed to engage in the retail trade and are not elegible to the bar, the bench, the pulpit, to military honors or any civil distinction whatever. They may be mechanics, merchants, clerks, teachers, engineers, or servants in any capacity to the black lords of the island. However, there are some concessions. The whites may be wholesale merchants (for that requires more money, learning and enterprise than belongs to the average Haltian), and all the foreign trade is in the hands of Englishmen, French and a few Americans. Some of the latter would amass colossal fortunes in a few year time, if they were permitted to get away with them; but it always happens that

the lands he had discovered. And truly there is no spot on earth more beautiful than this garden of the Golden Ocean. The words of the old hymn fit it exactly—"Where every prospect pleases and only man is vile." Every trace of the fine old civilization that existed here under the polished French planters-when their Capitol was appropriately called "The Paris of the West Indies"—has vanished as completely as that of the early Spanlards, and the lovely island has retro graded under negro rule from wealth and prosperity to poverty and semibarbarity. There are now no manufacturies, nor home industries of any sort; the government is bankrupt, the towns in ruins, and the men spend their time in idleness, when not "revoluting," sup-ported by the women. The paper money issued by the sucessive governments is enormously depreciated by frequent reof nature, the people of Espanola find existence so easy a burden that they rarely exert themselves to labor; and so mild is the climate the whole year through, severity being only in the way of added heat, that the younger portion of the population goes entirely without clothing, winter and Holding our noses with one hand and

our skirts with the other while picking precarious way through indiscribably filthy streets of Port au Prince, we heartily endorse Froudes' opinion-that the Black Republic presents the most ridiculous caricature of civilization to be found in the world. Listen to his eminently truthful description: "I had seen Jacmel and therefore thought myself prepared for the worst. But Jacmel is an outlying symptom; Port au Prince is the central ulcer. Long before came to shore, there came off whiffs, not of drains, as at Havana, but of ac tive dirt fermenting in the sunlight Calling our handkerchiefs to our help and looking to our feet carefully, we steped up the quay and walked forward as judiciously as we could. With the help of stones we crossed a shallow ditch, where rotten fish, vegetables and other articles wer lying about promiscuously and entered upon what does in the pronunciation of the various duty as a grand promenade. We were names of this big island, you must in "The Paris of the West Indies," with boulevards and plazas, flacres and to you at school. I saw a flacre broken down in a black pool, out of which a plied to all the Spanish-speaking part blacker ladyship was scrambling. Fever breeds so prodigiously in that pestilential squalor that forty thousand people were estimated to have died of it in a single year. There were shops and stores and streets, men and women in tawdry European costume, and officers on horseback, with a tatter of lace and gilding. The rank, beauty and fashion of Port au Prince were at their morning mass in the cathedral-for they are all Catholics, with African belief underneath. They have a French clergy, an archbishop and a bishop, paid miserably but still subsisting-not at all as objects of reverence, as elsewhere, but as humble servants and ministers of black society. They are called "white trash" and exists only on tolerance. Black dukes and marquises drive over them in the streets and swear at them. If this was the worst, or even if the dirt and disease were the vorst, it might be borne. But this is far from being the worst. Immorality is so universal that it ceases to be a fault, for a fault implies an exception, and in Haiti it is the rule. Behind the immorality, behind the religiosity, there lies, active and alive the horrible revival of the worst African superstitions; the serpent-worship, the child sacrifice, the cannibalism. There is no of which 188 were horses. In spite of the old French aqueduct, the the white elephant stricken out, the red city's water supply is very defective, especially during the dry season, from June to December, when the heat averhus' heart. He looked upon it as the ages 100 degrees in the shade. The one Ophir of Solomon—an Eden without a solitary relic of the old regime that is

near one of the parks, which was built expressly for bathing horses-a degree of equine luxury hardly to be expected in such a place as this. There are a good many extensive warehouses in the ower part of the town, owned by the foreign wholesale merchants, who reside on the second floors above theid places of business. The best residences the wealthy negro aristocrats are ittle better than shantles, notwithstanding their absurd assumption of tyle and show. There is some reason for this in the fact that the government offers no encouragement to more substantial building by making an effort to stamp out incendiarism. Whenever onflagrations are unusually frequent it is a sure token that a fresh revolution is brewing, for the self-styled 'patriots" always begin their work of eform by wonton destruction of other people's property.

HORSE ATTACHED TO BAKERY WAGON CAUSES EXCITEMENT.

Has Run Away Three Times This Week -News of the Royal Arcaum-Many Items of Local and Personal Interest.

These seem to be unlucky days for Ye Olde Time Bakerie's delivery wagon. Last evening about 6 o'clock the horse became frightened at the bell of a passing trolley car and started to run while Winter, Mr. and Mrs. W. Adams, the driver tried his best to hold him. When opposite the car barn on Grand avenue the wagon collided with a buggy and and ice wagon, the horse freeing London, England, yesterday for home himself and running to Lloyd street, where he was caught. Just before the collision the driver jumped out thus escaping uninjured. Last Monday the same horse ran away twice turning over the wagon in both cases. The first run on Monday did little damage, but about 3 o'clock Monday afternoon while George S. Schwagerman, a cousin of the proprietor, was feeding the animal the horse again became unmanageable and started to run, dragging with him Mr. Schwagerman and before the horse could be stopped Mr. Schwagerman had Milford. been thrown violently against a hitching post and run over by the wagon. He was rendered unconscious, and Dr. Cohane was called. It took ten stitches to close the wounds in his head and he was removed to Grace hospital where it

the accident will not result seriously. Live Oak council, No. 1027, Royal Arcanum, will hold its regular meeting this evening in Workman's hall, 25 Grand avenue. The members are urged to be present as there are two candidates to be initiated.

A VERY PLEASANT OCCASION.

Employes Enjoy Again the Hospitali-

ties of Their Employer. The many employes of the I. New man company corset factory on Oak street were vesterday afternoon given

their annual treat of ice cream and cake and other refreshments. This occasion is one of much pleasure and is always thoroughly enjoyed by all who participate. Yesterday's event was none the less enjoyable than any previous affair and the several hundred people will long remember the event. It has been Mr. Newman's custom for some years to favor his employes in this manner and his efforts are always appreciated. Beside the feasting there were numerous speeches in which occasion was taken to express the thanks of all the participants and of Mr. Newman's generous attitude toward those in his factory. It is one of the factors | which have made him so successful in business that his employes are always treated with respect and kindly and courteously. Many felicitations were expressed on Mr. Newman's success and employer and employe both profited by

THE STOCK MARKET.

No Improvement in Activity, but the Tone Was Firmer. New York, Aug. 13.-There was no uprovement in the activity of the rading in the stock market, but the disposition to liquidate on all advances which was a feature of yesterday's market. For the most part, however, the representative stacks were neglected and sluggish. The Gould stocks were the most conspicuous in the trading, Missouri Pacific leading in point of activity. There were heavy dealings, also, in all of the Wabash securities and in Texas and Pacific. Brokers who have been active in these stocks for a eng time past were responsible for nost of the operations. The southwestrn rallroads are expected to gain a special benefit from the large corn crop and the winter wheat crop in that ter ritory is also in achigh average condi-The Wabash stocks were especfally affected by reports of aggressive teps being taken to secure terminal fallities both in Pittsburg and in Baltimore for the use of Wabash's eastern extensions. Dear Sirs:—Mr. William E. Sutton of the Rocksfellow's mine, and myself spent yesterday inspecting the Nancy Gold Mines & Tunnel Co. property and we would say it is one of the best propositions ever offered here in the East. The stock is worth a great deal more than you are asking for it. We are very jubiliant over the property and do not like to see the stock sold so cheaply. Mr. Schroeder and party are at the alines today and they cannot help being greatly pleased. The above from Mr. E. P. Crooker, for twenty-live years a practical miner, who thoroughly appreciates the company's properties. The report speaks for itself and we take pleasure in giving you this valuable information.

Ninety-seven per cent of the mines in the Tombstone Mining District of Arizona haves been merged into a single Company -The Tombstone Consolidated Mines Company, Ltd.,-under the supervision of The Development Company of America.

These mines have produced from the surface to an average depth of 500 feet over \$30,000,000. Twenty-four hundred feet of still richer deposits remain to be mined, as demonstrated by the reports of such eminent mining engineers as Prof. John A. Church, Wm. A. Farish, Prof. W. P. Blake and W. F. Staunton.

We offer, at par, in denominations to suit the purchaser, \$3,000,000, of 6 per cent Special Contract Bonds of The Tombstone Consolidated Mines Company, Ltd., accompanied by a like amount of Capital Stock. Bonds are to perfect purchase, equip and further develop the properties.

The Consolidated Company should earn operating expenses, interest charges, retire the Bonds in four years and pay 4% on the Capital Stock during the retirement period. Under less favorable conditions these properties have earned as high as \$250,000, net, per month.

Brief Mention.

High water to-day, 7:51 a. m. Miss Christie Dwyer of this city is visiting friends in Adams, Mass.

Miss Elizabeth Cooney of New Britain is the guest of Mr. and Mrs. James Ryan of No. 544 East street,

Mrs. L. E. Schaeffer of Crescent ave nue, Springfield, Mass., arrived in this city Tuesday and will spend a month at Savin Rock.

Mrs. William H. Rochfort and her daughter, Miss Mabel E. Rochfort, of 72 Edwards street, left yesterday for a Hanifin 2, off Waller 1, off Lindermann stay of a month n the Berkshire Hills,

Miss Kittle Calnan and Miss Anna Brassell of Derby, with a party of friends, were visitors at Savin Rock yesterday attending the State Firemen's outing.

On Saturday the Edgewood baseball team of New Haven will go to Mystic to cross bats with the Mystic nine. The Edgewoods have defeated the Mystic team twice this year.

James H. Parish, of the firm of M. B. Newton & Co., arrived home Tuesday night from a very pleasant trip to Europe. He was with two Hartford friends during the trip. The three gentlemen landed at Glasgow, Scotland. and traveled thence through Scotland and England, through Holland and Belium. They also spent nine days in Paris and some days in London.

This afternoon the Ladies' Aid society of Humphrey street Emanuels church will enjoy an outing. A special car will leave the central green at two o'clock sharp, and will run through State street. At State and Humphrey street those residing in that section will be taken aboard and will be conveyed to the Morris Cove cottage of Mrs. Gerner. The afternoon will be spent there.

Mr. Travis, treasurer of the New Haven Gaslight company, is a former member of the executive committee of the State Firemen's association. His heart was with the firemen at the state gathering at Savin Rock this week, but the extraordinary rush of business at company's office in connection with the taking of subscriptions from stockholders to the company's bond issue made it necessary that he should forego the -pleasure of joining in the festivities. When a resident of Torrington he was one of the leading firemen of the

An unusual occasion will be the sixtyfifth wedding anniversary of Mr. and Mrs. Alonzo Grannis of Prospect street, Waterbury, which will be celebrated at their home on the evening of October 6. He was for fifty-nine years an employe of the Benedict & Burnham Manufacturing Co. He retired several years ago from active work, however, under a pension bestowed upon him by the company which obtained so many years of his faithful service-almost a life time. The Hon. Frederick A. Grannis, the only son of Alonzo Granniss, is spending the summer at his cottage in Pine Orchard. In 1885 he was republican representative of the town of Cheshire in the state legislature.

Italian Woman in Italy Brings Suit Against Marcellina del Grego.

Constable Peter McNerney attached property yesterday afternoon belonging to Marcellina del Grego at 361/2 Fair street. The suit is returnable to the common pleas court on the first Tuesday in September, and is brought to recover on a note of \$550 alleged to have been loaned the defendant a few years ago when she was in Italy. The note expired August 2.

When Marcellina del Grego and her husband were in Italy a few years ago they went to the old home of Mr. Del Grego. Before the visit to the old coun try came to an end Marcellina borrowed \$550 for her husband's sister whose name is Paulina del Grego, and who has considerable property in Italy. The Del Grego family live in the province of Marcellina and her husband sailed to this country and the time for the note came due, but there was no Paulina's representatives then attached the property of Marcellina and the suit will now come up for trial next month.

Clintons Beaten for the Third Time by the Collegians. The Eclectics defeated the Clintons by the score of 11 to 6 at Clinton yesterday in the third game and the third

consecutive victory of the season for the collegians over the east shore strong team. The features of the game were long running catches by Captain Hackett and Welch, of the Eclectics, and a fine sharp catch by Peck of what looked like a safe hit off Peet's bat in the first inning, closing the inning and preventing the Clintons from scoring when they looked dangerous. Hull made a sensational foul catch for the home team, and Lively took care of two hard flies. Both pitchers were effective. The score by innings:

Business over the company were entertained by recitations by Mrs. Fanny Nettleton, Miss Beatrice Nettleton and little Miss Platt. The selection by Miss Beatrice Nettleton was the event of the day after a general expression of good wishes and hope that all would be able to meet another year the party separated for their homes, the occasion having been very much enjoyed. Thaddeus Nettleton association is composed of descendants of Thaddeus Nettleton, a prominent Milford man, who dled about fifty years ago.

AT THE COLISEUM.

Another Treat of Note Next Tuesday Night.

Cycling enthusaists will have another treat of an unusual sort next Tuesday night, when the amateur championships of America will be decided on the little eight lap track on Howard avenue. By special permission from the National Cycling association, Manager Volgt will run the one-half and two mile sprint championships, besides the fifteen mile paced championship. There will be other open events which will attract hosts of first class riders and probably the very best racing of the year will result.

Champion Marcus Hurley has arrived in town and is training diligently to preserve the laurels he captured last year. That he will have great opposition there is no doubt and the careful manner in which Hurley has trained leaves very little room to doubt that the red-headed wonder is determined to put up the best fight he knows how.

The races will be decided in the same manner as the professionals, several sprint championships, but four men qualifying for the final heat. The title of champion of America goes with the winner of each race and the fight for glory will be keener in these events than has any race held this year for the almighty dollar or jewelry.

Tickets for the meeting are already on sale at S. Goodman & Co.'s, 820 Chapel street, and Beck's drug store, 339 How-

Some Handkerchief News Remarkable, Even For Us.

THIS is the "biggest" thing in handkerchief selling that we have ever done, and it deserves your very careful attention. We have secured, at our own price, from the house of Robert Watson & Sons, one of the most prominent of Irish manufacturers, a lot of about a thousand dozen of odd lots of

We have these at a price that will not begin to cover their cost of manufacture;to say nothing of freight and duty charges. We expect to sell the whole 12,000 handkerchiefs before Saturday; if we don't, we shall learn for the first time, that New Haven people don't know a bargain when it is shown them.

Here are the goods and prices;-we have divided them into five lots.

Lot I. 10c and 12 1-2c Values at 5c.

Over 500 dozen of Women's Fine Lawn Handkerchiefs. A choice in this lot of more than fifty styles. All widths of hem; tucks and reveres; lace corners, etc. We have never before offered such goods for 5c each.

Lot 2. 12 I-2c to I7c Values at 8c.

These are all-linen Handkerchiefs and hemstitched in 1/4, 1/2 and 1 1/2-inch widths of hem. They are typical Watson goods, the unusually sheer, fine quality that would make them remarkable at 121/2c to 17c. Sale price, 8c.
