PRESIDENT IN SIOUX FALLS

SPENDS QUIET SUNDAY IN SOUTH DAKOTA CITY.

Committee Makes Mistake as to Which Church He is a Member of and He Attends Divine Services Morning and Evening as a Result-Pickpocket Capfured in Crowd Outside of Church.

Roosevelt is the guest of Sloux Falls and will remain so until 9:10 o'clock to-morrow morning. His special train the house, when King Edward having arrived here about 8 o'clock this morning and he was met by a delegation headed by Mayor G. W. Burnside and Kittridge also greeted him. The president was escorted to the Cataract Cardinal Rampolla, who would arrive house by detachments of the two local while the king was still there. The obmilitia companies and enjoyed a day of comparative rest, the first he has had since his trip began.

He attended church, both in the morning and evening, and in the afternoon went for a horseback ride, accompanied by Seth Bullock, superintendent of the Black Hills forest reservation. The fact that President Roosevelt attended divine services twice to-day was due to an error on the part of the local committee. The committee had the impression that the president was a member of the German Lutheran church, and accordingly arranged to have him attend that church this morning. When it was learned later that the president worshipped at the Dutch Reformed church, arrangements were made to have service in the evening at the Livingstone Reformed church here. While it is not the custom of the president to attend services on Sunday evening, he made an exception to-day when the facts were made known to him. The services this morning were conducted by Rev. Herman Seit, president of the German-English college at Wilton, Ia., who came here for that purpose. The German language was used throughout. Owing to the fact that both in Milwaukee and Minneapolis the length of the programme did not permit the president to reach his car until after midnight, he has been obliged to announce that hereafter he will not begin speaking later than 8:30 in the evening and always will be back in his car by 10 o'clock. He will adhere strictly to this rule.

A pickpocket tried to work his game in the crowd gathered in front of the Lutheran church this morning. Just as the president was about to enter the edifice a man who gave the name of G. W. Earl took \$23 from the pocket of a resident of this city. He was detected in the act, but before he could be seized, he handed the money to a confederate, who disappeared. Earl was ar-

Ingalls in Cincinnati and Johnson in Cleveland are credited with being candidates this | the outcome of a demonstration against year for the democratic nomination for an objectionable police regulation, and governor, as well as for the mayoralty of their respective cities and next year

The election to-morrow also will be watched closely on account of its bearing on the candidacy of Myron T. Herrick, of Cleveland, for the republican nomination for governor, and on the re-election of United States Senator Hanna. The legislature selected next November will elect Senator Hanna's successor, and the control of the municipalities is considered of importance in the coming state election. Hanna, while taking special interest in the contest in his own city, has been as far south as Dayton to speak in this campaign. While the result to-morrow is thus considered as indirectly consid ering the coming election of state officers and members of the legislature, it is also conceded that it will have a bearing at Cleveland on both the democratic and republican nominations for governor, and at Cincinnati it may develop the democratic opponent of Senator Hanna, as well as affect the next democratic nomination for governor.

THE GOLDEN RULE FOR SETTLE-MENT OF STRIKES.

Our City Sets Good Example-Not Rent by Strikes Secause Amicable Methods of Settlement of Labor Disputes Prevall-Examples of Opposite Methods Elsewhere-The Wabash R. R. Case-The New Baven Road's Equitable Spirit-Cause for Congratulation by Our Citizens-Mr. Fitzpatrick a Model

Rev. Dr. Smyth's admirable and timely sermon yesterday forenoon at Center church on the golden rule method for settling labor disputes was listened to with deep interest by the congregation, and the essential features of the sermon are herewith given as follows: The text was Romans xii., 21: "Be

not overcome of evil, but overcome evil

with good."

In the course of his sermon Dr Smyth said that men too generally are disposed to act on the first part of this text, and to leave the last part of it in the air. They will resist evil, overcome their own passions, stand up for their own rights, but do not seek to overcome wrong by finding some good with which to meet it. But herein lies the differ-ence between a Christian and a churl. As one illustration of this rule, Dr. Smyth referred to an address, prepared for an association of manufacturers, which called employers to resist cer tain evils which are threatening, such as assaults upon free labor; but it faileu to seek for any good among these evils, or to bring forward anything better by which they may be overcome. To assert only the half-truth of resistance, and not the whole truth of this gospel rule, serves to excite men's passions, and to provoke the very evils to

Dr. Smyth referred to the fact that here in New Haven we are living and working peaceably together, while some other communities are rent with ed this to the fact that those in charge merely in a spirit of resistance. He

way of overcoming evil with good: The use of methods which are clearly right, and the refusal to fight young man was asked to join with othward; he found that the would-be remethods, smelling of corruption, which ere employed by those whom they This is a good rule or citizenship; the whole text needs to e taken by young men into politics,

As another illustration, Dr. Smyth which it was stated that an organizagion were organizing to fight a threatened union strike by banding together under a bond of \$250 not to sell supplies to others of their number employing union men. This is seeking to overcome evil with evil, fighting fire with fire. We may perhaps find some excuse for men who, with a blind sense of injustice in their hearts, are swept away into a disastrous flood of passion; but the more intelligent men are, the more they are charged with the responsibili-ties of our prosperity, the more it should be required of them that they avoid any methods which are unlawful and wrong in resisting the industrial evils which they fear. Dr. Smyth re-buked scathingly anything tainted with the evil of a boycott in combinations of employers.

2. The increasing appeal to reason, and the diminishing appeal to force. Alike in religion and in civilization, both in the progress of revelation and n the advance of civilization, the appeal to reason becomes greater and the use of force less. The Bible begins with the revelation of the Almighty One; it closes with the vision of the lamb upon the throne. For men to apeason, is to set the wheels moving backwards. Not more strikes, but more reasonableness all around, is the true

way of industrial progress. Dr. Smyth referred to the hopeful setdement of the strike on the Wabash system by a regard of all concerned for the law, and a fair deliverance of the ourt, and subsequent negotiation, as a notable example of the right way of

overcoming evil. 3. The evolution of sane leaders, and the rejection of the unfit. No man will be allowed by public sentiment to keep finance, or as a leader of any class of men, unless he shows himself to be a broad, wise man, regardful of our common prosperity, and not a selfish ad-venturer. We should honor sane leaders among all classes; we should reject wild men, utterly selfish, reckless lead-

ers, who ought to be damned.
One of the hopeful signs of the present industrial situation is the slow, perhaps, but sure moral evolution of sane leaders. In this connection Dr. Smyth referred to the New Haven and Hartford railroad trouble and said of Mr. 5:30 to 10 p. m., reserved seats can be Fitzpatrick: "There came to this city obtained; twenty-five cents entrance; a leader who showed himself to be, not an agitator, but a man of large intelilgence, of gentle and generous spirit. who in all these negotiations kept his self-poise, and who, neither in public nor even in much private conversation which I had with him, has spoken an ungenerous or bitter word against those with whom he was dealing. This community owes more than it knows to his afternoon at 2:30 at the Hotel Garde in leadership of men. When asked in my seats and such enthusiasm that if this city, Four of the seven directors presence whether the settlement had been reached through fear and intimiseat could be sold. LOSS \$50,000.

Heavy Damage by Fire at Salisbury-Ald from Neighboring Village.

Salisbury, April 4.-This village was threatened with destruction early today by a fire which burned six buildings, causing a loss estimated at \$50,000, and was extinguished only after assistance had been secured from the neighporing village of Lakeville and from Millerton, N. Y., six miles distant. It is believed that the fire was started in an 9:30, and quite a number of employes fort to cover up a burglary in William Spurr's barber shop. When Mr. Spurr eached his shop shortly after the fire as discovered he found the money drawer, in which he had left a small amount of cash, lying empty on the ounter.

There is only one hydrant in the town and even with the assistance of the fire ompanies from the ather villages it was a difficult task to arrest the progress of the flames, but after a stubborn fight of four hours the fire was got under control.

The principal losers are George H. Clark, residence and general store, \$15,-000; W. W. Hortes, business block, \$10,-600; C. F. Wagner, plumbing shop, \$5,-000, and the postoffice, \$5,000. Other losses were by tenants of the buildings. The contents of the postoffice were saved, as were also the town books, kept by Mr. Clark, who is town treasurer

BRANFORD'S HIGH SCHOOL.

The Branford board of education has placed the appointing of a principal of the high school in the hands of a committee of three, Rev. K. A. Martin, chairman of the board: Rev. T. S. Dewitt, acting visitor, and Dr. C. W. Gaylord, chairman of the committee on teachers. Mr. Murdock, the retiring principal, will return to the school room with the opening-of the school term to-day and remain about two weeks, by which time his successor will be appointed. Mr. Murdock lays down the work of teaching, in which work he has been engaged for fifteen years, four of that time in Branford, to engage in an entirely new work, viz., that of insurance with office in Waterbury.

Miss Lauretta Babeock of room 3, who has been a yetch of scarlet fever, will return to her work.

Miss Herbert of New Haven will succeed Miss Birge (resigned) in grade 7 Center school.

Address by A. F. Howell of Boston at Men's Meeting.

Yesterday afternoon in Foy auditorium Augustus F. Howell of Boston spoke to a large gathering of men at the regular Sunday afternoon mass meeting for men. Mr. Howell, who is the well known impersonator and whose readings from "Eben Holden" have delighted large audiences all over the country, took for his subject "Old Fashioned Folks and Their Religion."

Mr. Howell based his talk on the book 'Eben Holden," drawing lessons from the simplicity of the lives lived by the characters in that book. He told of visiting the peaceful valley where dwell the people of whom the book is written and his talk was a genuine heart to heart talk of the plain, perhaps almost homely ways, in which old country folk live out their religious beliefs,

Mr. Howell's address was most touch-His description of the characters of the book was delightfuland the wholesome country people whom he portrayed in his delightful fashion, seemed to stand before the meeting and present an example for young men and older men of the hard, rushing days in which we are living now.

REPUBLICAN CONVENTION.

NOMINATIONS ALL MADE UNANI-MOUS.

Mayor Studiey Renominated-The Other Nominations Heartily Approved -Resolution Offered to Amend Rule for E ection of Delegates to State Con-

The republican city and town conventions were held in the Young Men's Retickets selected receiving the unanimous support of all the delegates. Delegate Isbell, of the Tenth ward, submitted a resolution that the republican town committee and the members of the state central committee from this district be requested to use their best endeavors to secure the repeal of the party rule regarding election of delegates in districts where there are towns with more than one senatorial district ! within their limits, and the adoption of ! a substitute therefor which will insure for each senatorial district the right to select the delegates apportioned it.

DON O. SHELTON'S ADDRESS

(Continued from First Page.)

"The measure of obedience that we yield to Christ is something very tangible. His commands are so plain, His teaching so clear, that it is always possible for us to test the thoroughness of our loyalty and devotion.

"Let us take two statements of our Lord, and by them seek to determine the degree of reality that there is in our Christian life. On one occasion Jesus said: 'As my father hath sent me into the world, even so send I you into the world.' Later He said: "The Son of man is come to seek and to save that which is lost.' Herein we see that it is His purpose that His disciples work in His spirit for the accomplishment of His ends, the redemption of mankind. To what degree are we doing this? How much of our thought, energy, means, are we using to exalt Him in the sight of all men, and to bring all men into vital union with Him?

"Christ alone can meet the world's Only as men evehywhere are The first of the four candidates for brought into a right relation to Him, aldermen-at-large was nominated by can they fulfill their ends. Our Saviour rightly demands a place at the heart of every man's life. All things epistle to the Ephesians, are to be summed up in Him as head. His truth, His will, recognized and obeyed by men, will bring the greatest boon earth

"A deep, thorough conviction of the essentialness of Christ to every man, will impel us to take or send the Gospel message to all. As without the sunlight the earth would have neither bloom nor heauty, so human character, unillumined and untransformed byHim who is the light of the world, comes far short of full growth and development. A keen sense of the absolute need of every individual of Christ will lead to such a use of time, talent and sessions, as will insure world-wide diffusion of the light of the divine mes-

What have the Congregational churches done, and what are they doing through the Congregational Home Missionary society, to make effective in this twentieth century the gospel of Christ? Last year over 1,800 home missionaries were employed. They worked in forty-six states and territories. They regularly supplied 2,741 churches and outstations. One thousand nine hundred and eighty-three Sunday schools were conducted, with a membership of 147,000.

"In seventy-five years, through the work of this society, 483,000 members have been added to the churches. Fourfifths of all the Congregational churches in America have had its aid at some time in their history. Throughout this eventful and fruitful period the aim at every point has been to establish a church in charge of an ordained preacher. Thus there has come permanency and efficiency. In gathering up the results of home mission endeavor in the past century, Dr. J. B. Clark in his new, illuminating book on 'Leavening the Nation' says: 'To the credit of home missions should stand the undoubted truth that an overwhelming majority of evangelical churches own their being to its nurture and care. And what does such a fact mean in the religious development of the country? Figures here are quent; they palpitate with life. Begween 1800 and 1890 the population of the United States increased 11.8 fold. municants increased 38 fold. From 1859 to 1390, the population increased 170 per cent. Evangelical communicants increased 291 per cent.' And then, too, we must keep in mind the incidental fruitage: the promotion of Christian education, the founding of colleges, the stimulation of zealous and intelligent patriotism. The record of home misis so full of encouragement and cheer that even a brief consideration of it strengthens one's faith in the efficiency The Craigs with a refined musical act, proved and Jacob B. "To the Christian people of the present generation the call of Christ comes. In the nomination for selectmen that I is distinct. It is forceful. It is importunate. Vast opportunities for extension are open to the Christian church. Before the Congregational Home Missionary Society are many new and splendid openings.

"In Cuba the need for extension is instant. Though work has been organized at six points there are a large number of places unoccupied. There is not a city or town that is not open for the Gospel. Nothing but the Gospel can lead the Cuban people out of their unfortunate physical and moral state.

"Enlargement of effort must also be nade in the great southwest. This vast section is having a rapid industrial and commercial development. On the part of the church there is required strong faith and persistent enterprise that the religious and spiritual needs of these hundreds of thousands may be met."

Young Messenger Working for Sargent & Co. Loses \$1,400.

New York, April 5.-Within plain view of a score or more pedestrians and under the walls of the Tombs prison, Warren Smith, a fourteen-yearold boy, employed as messenger by Sargent & Co., hardware manufacturers, was held up by two men Saturday and robbed of \$1,400, belonging to his employers. The boy was returning from the Mercantile National bank where he had been sent to cash a \$1,400 check and was carrying the money in a large leather wallet chained to his waist. As he was passing the Tombs prison two men stopped him, one holding him while the other with a pair of nippers, cut the chain holding the wallet. Both men escaped before those who witnessed the hold-up could recover from their astonishment.

The above dispatch was read over the telephone to Henry B. Sargent of Sargent & Co., of this city, last even ing, and in reply to the query as to whether he had heard that the messenger of the firm's New York office had been robbed, said he had not heard of t. In order to lessen the temptation to desertion from the navy, which is getting to be a serious evil, the department has instructed commanding officers to try the effect of giving their men longer periods of shore leave; and when the North Atlantic squadron gets into port in May, the men will be allowed to stay ashore for ten days. Forty-eight hours' liberty is now the longest given. It is believed that when the men return to their homes and see the difference between the kind of living they have ashore and that which they receive in service they will be more disposed to remain on board ship.

In St. Louis, where the schools have become crowded until good teaching was almost impossible, these portable buildings have done much toward the relief of the situation, The idea of portable school buildings first came from Paris. Then the idea reached the United States, about five years ago, and Milwaukee was first to adopt it. In St. Louis, which next adopted the portable schoolhouse, the plan was a great success. Several large eastern cities have within the last Editor-No. I thought my readers year or so commenced on a small scale to have portable schoolhouses as a part of the educational facilities.

In St. Louis there has been a great influx of people on account of the World's Fair. When the city schools opened a few weeks ago the increase was enormous, but the schools were well able to care for them. The portable school building, however, is all that saves them, and when in any neighborhood there is a likelihood of an over crowding, a portable school building is at once moved in. At present there are twenty-seven schoolhouses of this kind in the World's Fair city, and all of them are in use.

These portable school buildings are so constructed as to enable the school Long-What did he do that started | board to order them sent anywhere at any time. They are easily taken apart and moved from one schoolhouse to another. They are set up in the regular where the portable school plan has reached perfection from actual use, the portables are made of frame, are twenty-six by thirty-six feet inside measurement, with a clear-story height of twelve feet. The floor is constructed in eight sections, the sides in six sections, the ends in four sections and the pitched roof in sixteen sections. Each section is built upon frames which are readily bolted together in such a manner as to make a perfectly tight and secure room; all joints between the sections are covered, both inside and out, by movable pieces secured with screws, The rooms are heated and ventilated by an indirect furnace with double ca-s ing. The fresh tir is taken directly from the outside, which supply cannot be cut off by the teacher. The building

Easter Display: All Over The Store

"What shall I wear this Easter?" "Where shall I buy it?" "What shall I pay for it?"

How many women are puzzling their brains over those questions just about now.

No Store is so Fully Prepared for Easter Buying.

The most approved styles in Tailored Suits and Skirts, Coats and smart Shirt-Waists for Easter are ready here for your inspection.

Stylish Costumes: For Easter

If we could tell you how many more women have bought their Easter suit here this year than last, you would wonder why the other stores were doing business at all.

The Tailored Suits which we show are what a tailor would make to your order at perhaps double our regular price. This season we have more fine suits than we ever had before-hardly two styles alike.

The finest are of broadcloth, etamine or voile. For trimmings they have braids, fancy buttons, pipings, small capes over the shoulders; sometimes a bright little vest or trimmed cuffs and collar. Many of these trimmings are in colors to make a contrast with the material from which the gown is made, for the most part Persian, where all the colors mix and blend into one another. You can't help but be suited from our immense assortment.

Price range \$12.50 to \$85.00.

Women's : Globes

There's no lack of styles in gloves for Easter wear.

C. M. C. gloves at \$1.00 are the Black Capes ! best we know of at the price; and great numbers of the women of New Haven think so too. They and browns for wear with the new have an excellent \$1.25 glove-two over silk. clasp glace, in all the new Spring shades; and at \$1.50 we have the "Monopole"—our best seller—in both two and three-clasp—glace and suede.

Easter Millinery Rush

Is At Its Zenith Here! And there's never been such a rush as we're having this Spring. It's because we're giving people the Right Kind of Hats at the prices they want to pay.

We're making Hats for people at \$5, \$6, \$7 and \$8 that are as full of True Style as those we make for the people who don't mind paying \$20, \$25 and \$35. We're giving more attention than we ever gave before to these medium priced Hats. We have in mind the hundreds of our customers, who, until they came to us, couldn't get a Hat they liked without having to pay more than they could afford. And we have in mind you who haven't been to us and are dissatisfied with your Hats.

We don't want you to pay more than you can afford to. Moreover it's not necessary that you should if you choose the Right store.

Have your Hat Right by all means. And here's a pointer for this season -- Right doesn't mean piling on materials; Elegance, Simplicity is the Millinery Keynote as it has never been before.

Here's another point-the milliner that knows "How" can give you Elegance and Simplicity and you'll be astonished for how little.

"I used to hate to get a hat until I came here," the writer heard a woman say the other day. "I never got what I wanted and never wanted what I got. I've learned Hat-economy too."

Stunning Easter Suits And Wraps---Modestly Priced

If you want to be Frenchy with your wrap this Spring, get one of these black silk half loose Coats, or one of these that suggest the Louis Fourteenth period.

Prices begin at \$12, then crawl up slowly to \$45

So you see they're within the reach of modest purses. They're of peau-de-soie, of unlined taffeta, and of etamine combined with silk; as simple or as elaborate as you like. Some are all-over lace and silk applique; those are the most expensive. Among the medium priced of these black Silk

Coats are these showing a touch of white silk on the reveres.

Silk Foulard Suits, \$10 to \$18; Some new black and white silk Shepard check silk gowns, just in: They're vieing in popularity with the blue and black ground polka dot Suits. Charmingly dainty Suits, made with an elaborateness of de-

ail that is simply astonishing when we look at the price. We're selling these stylish little Foulard Silk Gowns as fast as we can get them made.

Tan Jackets. We call 'em corset shaped because they are so perfectly tailored and because they fit so faultlessly. And how popular they are. \$8.50 to \$20

The Wraps Popular --- Capes. You've simply but to tell us what you want in a Cape this season and it's yourswhether silk or cloth, long, medium or quite short. \$5 to \$25 They never made so many kinds and such pretty ones.

When you come, ask one of the salespeople to show you some of the capes at \$7.50 and \$8.98 They're among the values we pride ourselves particularly upon having for you.

Black and Navy Voile Gowns. Absolutely charming some of these Voile Suits in black and navy, with prices down as low as \$14 for a suit that the most finicky woman wouldn't sniff at. So many kinds here though besides this one particular price we name; that you'll wonder how its possible to get so large a collection.

Three Exquisite Tailored Suits In Detail, Singled From Among A Remarkable Collection.

\$39.00

Made of fine wool crash, a delicate mix rure, between tan and modes to color, the blouse being combined with dark olive green silk veiled with that new heavy ecru lace, near the waist line, reveres, neck and sleeves

Another, of stylish English Cheviot in a medium mode shape. There's a touch of soft pale green cloth on the blouse altho' the green is nearly covered by fine black braid---an indescribably pretty gown.

This third Tailor Gown is of silk and wool novelty goods; an almost black ground with an irregular blue stripe. There's the same blue shown in the trimming on reveres and generally on blouse, and cut steel buttons-a gem. \$42.50

STRIKE ON WABASH AVERTED.

Men and Officials Reach an Agreement. St. Louis, April 5.—After four months of controversy between the employes of the Wabash road and the officials of that sys controversy between the controversy between the controversy wabash road and the officials of that system, during which, at one time, a strike was imminent and was prevented only by an injunction restraining the employes from vacating their positions, and which injunction was dissolved last Wednesday, the differences were finally adjusted and the controversy effectually and satisfactorily settled Saturday evening. Officials of the brotherhoods representing the employes declare the settlement is eminutly satisfactory and is a sweeping victory for organized labor. The Wabash officials declare that all differences with the employes have been finally terminated in a satisfactory manner and that their future relations in all probability will be most harmonious. The following are the main points embraced in the settlement:

In the settlement:

An increase of 12 per cent, for the firemen, 15 per cent, for the trainmen, is granted over the rates which existed January 1, 1902, west of the Mississippi river. East of the Mississippi river the rates will be brought up to this standard when competing lines in the same territory shall grant similar increases.

The various yardmen receive a substan-tial increase, varying in different localities,

MR. BEEDE ON SCHOOLS.

AN INTERESTING PAPER READ AT UNITED CHURCH.

Marvelous Growth of New Haven Schools-The Foreign Element-De- theory and in practice, shall exemplify termining the Citizenship of the Future.

F. H. Beede, superintendent of the public schools, read a paper of absorbing interest to a very large audience at the United church last evening. The meeting was under the auspices of the Men's club. The subject of Mr. Beede's paper was "Some Problems and Needs

of the Public Schools." Among other things Mr. Beede said: "During the calendor year 1902 about 18,500 children attended the public schools and military academies are Russchools of this city. This number does not include 3,000 others who attended private and parochial schools at that time. These 18,500 public school children were a little more than 17 per cent. of our entire population. That is, seventeen persons in every 100 who resided in this city were in our public schools last year, or rather more than one in every six. If these 18,500 children could have been organized into a separate municipality, such a community would have been nearly as large as Norwalk, about 1,000 larger than either New London or Norwich, 2,000 larger than Danbury, nearly 3,000 larger than Stamford, more than twice as large as Wallingford-and as large as Middletown and Willimantic together. This number, moreover, owing to the natural growth of the city, is, year by year, rapidly increasing. During the decade 1890-1900, the population of New Haven increased 32.8 per cent. The average annual increase in the number of pupils in the public schools for ten years ending 1901 was 255, that for five years ending 1901 was 372, while the increase in the number of public school children the present year over last year was 897. These statements suggest one of the most providing adequate accommodations for a largely increasing number of school eight children to a room, a larger numa single teacher, 879 pupils, the increase of the present school year last year, would require a school building of eighteen rooms, while 500 or 600, which would probably be a more normal annual increase would require a building of ten or twelve rooms. In other words, if the school department is to keep up with the constant increase in the number of school children of the city, it must erect a large school building every year. No other plan can meet the con-ditions which exist. Neglect of these conditions one year only produces a year. Owing, however, to lack of adequate appropriations for this purpose, it has not been possible to erect, during the past ten years, school buildings as result, at the present time, nearly all our school houses are crowded, basement

CONFIRMATION EXERCISES

At the Zion German Lutheran Church Yesterday Morning.

The rite of confirmation was conferred on Ida Klein, Rudolph Lau, Charles Loos, Ernest Cramer, August Zimowski and Charles Ringwald at the Zion German Lutheran church, corner Davenport avenue and Ward street, yesterday morning. The officiating clergyman was the pastor, Rev. Frederick A. Ottmann. The church was handsomely decorated with palms, potted plants and flowers, while an arch of evergieens covered the passageway to the chancel. The blending was beautiful. There was a large concourse of parents and friends present to witness the ceremony. Max Dressler presided at the organ and rendered special selections. The choir sang a song and the children of the parochial school connected with the church also sang. They were in good voice. The pastor fittingly closed the service with the Lord's Prayer. The children confirmed yester. day will partake of the Lord's Supper for the first time next Sunday morn-

Services will be held in the Zion church next Thursday evening at 7:30 o'clock, and Good Friday morning at 10:30 o'clock. The pastor will preach at both services.

Champagne is naturally fermented in the bottle.

It takes from three to four years to make a bottle of this wine.

Connoiseurs pronounce it superior to all other American wines on account of its fine flavor, clean taste, and delicate bouquet.

It contains only a minimum of alcohol, and is just the wine for those who can afford a good article.

The New Shapes in the "Temco" Shoe.

HE "Temco" is our own, pet and particular shoe for women. It is shoe on the made expressly for us and presented in competition with any \$3.50 shoe on the market, although the price is but \$3.

Next to its superb wearing qualities and the scientific making that makes it a comfortable shoe to wear, is its wide variety in shapes and styles, which enable any foot or any fancy to be fitted.

The Temco lasts are copied from the highest class custom work—copied from shoes especially designed for the reigning queens of style in this country. In wearing the "Temco" you wear a reproduction of a shoe for which somebody paid from \$8 to \$25 for a single pair. The prevailing style shows a tendency to return to narrow toes and high heels but we have a

choice in the so-called "common sense" shapes if you prefer them. Twenty-two styles in all the Spring assortment of "Temco" shoes. Choice of any, \$3.00 a pair.

A new feature was adopted Saturday night at the debate, each debate required to take up the thread of the debate where the previous speaker let it off and try to rebut his predecessor's argument. This work excelently and will probably be followed in the future. It had the effect of making the contest a real debate instead of a delivery of set speeches and arguments.

As near as can be learned, four painters, non-mion us h in the employ of the Winehester company, were put to work on the building kalsomining. The union men objected and protested to Superintendent Erickson, receiving no satisfaction. Twenty-one carpenters, cleven painters and twelve laborers, all union men, quit work. The Berlin Construction company have the iron work in charge. Whether the fact that the bridge and structural workers have many strikes on hand had any effect on the stand that Mr. Erickson took could not be learned.

ANNUAL TURNER CONCERT.

The annual concert of the New Haven turners' Arion section was given last-night in Turn hall to a large and appreciative audience. Perhaps the most thoroughly enjoyed numbers on the programme werd found to be the soles by Miss Mary Hugo, alto; Miss Annie Dahlmeyer, soprano, and the violin sole by Mrs. Louisa Kricek Hesseler, the latter being accompanied by nersister, Miss Jessie Kricek.

The full male choras by the members of the Arion section made a most favorable impression. The entertainment concluded with a zither sole by Charles Badura, which showed a thorough mastery of this difficult instrument. difficult Instrument.
