RELIANCE AGAIN VICTOR

THE CONSTITUTION'S TOPMAST CARRIED AWAY.

About Nine Miles of the Contest Had Been Sailed When the Accident Happened and the New Boat Was but Half a Mile Ahead-Reliance and Columbia Finish, the Former Winning by Eight Minutes and Twenty-four Seconds.

New York, May 28 .- The Constitution's miles of the first leg of the race the Constitution's topmast was carried away in a little puff of wind and with her top hamper hanging in a mass she was out of it for the day. When the accident occurred the Constitution was half a mile behind the Reliance and was leading the Columbia by an equal dist-

Reliance and Columbia finished the race, but it had become a procession, for Columbia was never formidable after Hance crossed the finish line a winner by eight minutes and twenty-seven seconds over the former favorite.

Constitution had sailed a game race until the accident and had been handled skillfully but had been unable to hold

the slick Reliance. After a bit of jockying at the starting line. Captain Rhodes had put the Constitution in the position he coveted on the windward quarter of the Reliance, although Captain Barr had sent the Reliance the whole length of the starting line clear to the mark opposite the committee boat before he would give way and permit the Constitution to cross and take that position. The luffing game continued after the starting line was crossed and until the Reliance's superior speed had pulled her out of a bad position. For twenty minutes after the start the two rivals kept off for the turning mark. The Constitution was carrying a big balloon jib topsail, while the other boats wore smaller reaching

Reliance had drawn away half a mile on the Constitution when the latter felt the disastrous puff. The starboard upper spreader which stiffened the topmast gave way and the hollow, wooder topmast snapped off eight feet above the balloon jib topsail and the topmost rigging hung suspended by the club topsail which hung across the main peak halyards. The topsail was torn half across of the spars had struck the deck. The was passed regarding business men rid- berlain expressed surprise at the fact came W. S. Fanshawe's Hope. It was the prettiest spectacle of the day for the wind had freshened to twelve knots and the Reliance had her lee rail down into the froth and was reeling off eleven knots to the hour while the pride of former years rragged a mile and a half astern. Mr. Belmont said to-night that he would use his utmost endeavorrs to get the Constitution ready for Saturday, He ordered a new topmast from Bristol as soon as he get ashore and hopes it will arrive to-morrow. He seemed particularly anxious to get into the race, taking personal charge of putting the yacht in shape. The yacht will probably go to City Island to have the stump taken out and the new top mast fitted. It now looks as if she would be in the race. Mr. Belmont said he had no regrets over to-day's showing by the Constitution as he thought the boat did

SHAMROCKSSAIL

The Lipton Flotilia Off for America-170 Men on It.

Scotland, May 28.-Sir Thomas Lipton's flotilla, consisting of Shamrock III., Shamrock I., the steam yacht Erin and the ocean tug Cruiser whose combined crews number 170 men, sailed from here for Sandy Hook at 1 o'clock this afternoon. Great crowds of people bade them farewell, flags were everywhere displayed and cheering of the spectators to give the

cup challenger a great send-off. Erin headed the flotilia, the challenger following and Shamrock I. in tow of Cruiser bringing up the rear.

Before leaving the challenger Sir Thomas Lipton addressed Captain Wringe and the crew as follows:

"You are starting on an errand the result of which will be watched by Britishers the world over. I know you will all do your best to bring back that long-lost mug, and I think we are justified in our hopes of success. You are starting under favorable auspices. We have got a very good boat, and it remains for you to do the rest. Good

MOMENTOUS DISCUSSION

CHAMBERLAIN MAKES BOLD Lenox, Mass., May 28.-Joseph War-SPEECH IN COMMONS.

> Cause Reversal of Great Britain's Fiscal Position-Again Proves Himself the Strong Man of the Cabinet.

London, May 28 .- Mr. Chamberlain may prove the most momentous of the bold speech, further developed the polas an entire reversal of Great Britain's fiscal position, and at the same time he proved that he has managed to carry the government with him against its convictions.

The impression left on the minds of the crowded chamber was that the cabinet is on the eve of dissolution, and that, as in 1900 Mr. Chamberlain carried the country with him on the South African war policy, he has now converted his colleagues to the belief that he will be able to carry it again on the policy of preferential trade within the empire. In addition to asking for a mandate to the food, he asks for power to engage in a tariff war with Germany on Cahada's account and to fight the American

Nearly a hundred conservative members immediately intimated to the gov ernment whip and to Mr. Chamberlain their intention to take the opinion of their constituents on the new policy during the Whitsuntide recess.

Among the liberal members great confidence was expressed that upon such a straight and well-defined issue they could fight as a strong, united party, while the speeches of Lord Hugh Cecil and Winston Churchill in the course of the debate showed that a strong section of the conservative party

TWELVE-MINUTE SERVICE TO WOODMONT A FEATURE.

Double Track Now From That Place to Momanguin-Cars Also Every Twelve Minutes to Lighthouse Point and Mo mauguin-Late Cars Saturday Nights to Accommodate Buriness Men.

The summer schedule of the Fair Haven and Westville Railroad company goes into effect to-morrow-Decoration and they are of more importance than heretofore made in the schedule of the road for the hot season.

One of the most important of these is on the Woodmont division. Cars which are now running once an hour from either end of the line will be operated every half hour, the fine double-track improvement being practically completed. The first car will leave Church and Chapel streets at 5 a. m. and every thirty minutes until 11:30 p. m., and from the Woodmont end every thirty minutes, beginning at 5:45 a. m., until 12:15 p. m.

In addition to this the schedule has been so arranged that the Lighthouse and Momauguin cars will run through to Woodmont, thus giving a twelveminute service to Woodmont from 6:06 a. m. from Church and Chapel streets to 10:18 p. m., and leaving Woodmont in the morning, under the twelve-min ute schedule, from 6:54 a. m. until 11:06 p. m. This is over a double track all the way from Momauguin to Wood-

On the Lighthouse division the service has been doubled and cars will run every twelve minutes instead of every twenty-four. The first car leaves the corner of State and Chapel streets at 5:48 a. m. and every twenty-four minutes until II p. m. by way of Chapel street and Grannis Corner, and leaving the Lighthouse at 6:06 a. m. and every twenty-four minutes until 11:42 p. m.

The twelve-minute schedule to Lighthouse is brought about by running cars to that point by way of State street and Grannis Corner, these cars running every twenty-four minutes, but twelve minutes each time after the Chapel street cars. The first car leaves Church and Chapel streets at 6:18 a. m. and every twenty-four minutes after until the seventeenth Brooklyn handicap at 16:42 p. m., leaving the Point at 6:18 a. m. until 11:30 p. m.

The service to Momauguin is every twelve minutes. The Branford cars leaving State and Chapel from 6 a. m. until 10:48 p. m. connect at East Haven green with cars for Momauguin at 6 m. and every twenty-four minutes until 10:48 p. m., but on Saturday the last cars will leave State and Chapel streets at 11:12 p. m. and 11:36 p. m., thus affording business men good time to get to their shore homes after busi-The first car leaves Momauguin at 6:06 a. m. and every twelve minutes until 11:42 p. m., and Saturday nights at 11:54 p. m. and 12:18 a. m., or just after midnight.

guin is arranged by running cars by way of State street and Grannis Corner every twenty-four minutes, leaving the orner of Church and Chapel streets at 6:06 a. m. until 10:54 p. m.

On the Congress avenue line the double-tracking from Congress avenue and Howard avenue to Ward's Corner will begin and the usual schedule will be maintained.

To Savin Rock cars will be run every six minutes from Church and Chape beginning at 6 a. m. until 11:30 p. m. the last car leaving the Rock at 12:30,

A two-ounce bottle of chloroform was found near the body from which only a very small quantity had been exbeen soaked in chloroform was also say, there is no doubt that it was a case of suicide. She was between fifty and height and weighed about 200 pounds She had mixed gray and black hair, The body was clothed in a black skirt, white shirtwaist, black hat trimmed with red, and she had on a pair of gray silk gloves. The bottle of chloroforn which was found near the body bore the label of Arthur B. Simpkin, the

Howard avenue druggist. Detective McGrath was sent out to investigate with Detective Dailey. The young man who is clerk at Simpkin's stated that a woman answering the de scription of the one found in the woods came into the store Tuesday afternoon After eating some ice cream she pur chased two two-ounce bottles of chloroform and then went out without giving any reason for her purchase. It is thought that she then took a car to the body was found, committed suicide This theory is thought to be the correct one, as the body looked as if it had been

there for some time. Although everything possible done to discover the woman's identity last evening, the attempt was unsuccessful. The body was taken to the morgue in this city and another attempt will be made to-day to find out who the woman is. A peculiar feature of the affair is the fact that the other bottle could not be found. The little amount of liquid which had been extracted from the bottle found was not enough to produce death. It is thought that she soaked the sponge with the entire contents of the other bottle, but what she then did with the empty bottle is the mystery.

POSTOFFICE INVESTIGATION.

Large Corps of Inspectors Now Work.

Washington, May 28 .- A large corps of inspectors, including some of the veterans of the service, were at work probing into the alleged irregularities at the postoffice department to-day but no further arrests were made. It was said to be possible that the intermediary whose alleged connection in the transactions led to the arrest of August Machen, the former general superintendent of the free delivery service, may turn states evidence. His identity has not yet been disclosed. Mr. Machen's counsel issued a statemen asserting his ability to fully disprove all the charges. The investigating officials are equally confident. The government is anxious to expedite the trial of Machen as much as possible consistently with the proper handling of the case. It is arranging to have its witnesses at Machen's preliminary hearing June 5. The preliminary hearing of the Groff brothers, the profits been set for June 9,

U. S. AMBASSADOR HURT.

Mr. Meyer Injured in Accident Near

Rome, May 28 .- United States Ambassador Meyer was slightly hurt today through an accident to his automobile. The ambassador was driving one of a party of four motor cars com ing from Civita Vecchia to Rome and was going at a pace of twenty miles an hour. The dust on the road was very thick and at times, when raised by the wind, obscured the view of the road ahead. Mr. Meyer on passing through one of these dust clouds suddenly found himself confronted by a long line of wagons on one side of the road, while the other side was obstructed by heaps of stones, not leaving room for the automobile to pass. Mr. Meyer, seeing the danger tried to stop the motor car but it ran onto the stones. None of the occupants of the car was hurt except Mr. Meyer, whose face was scratched by a branch of a tree overhanging the road. The Marchionss of Dibagno, who was riding with Mr. Meyer, was frightened and jumped out of the car, but the other occupants, Princess Di Cervetri, the Marquis of Patrizs and the Marquis of Raspondi, kept their seats. The automobile was temporarily disabled. The whole party, including Mrs. Meyer, who was in one of the other motor cars, returned to Civita Vecchi and thence came on to Rome by train.

LIQUOR LICENSE CASE BEFORE about all the burdens they should as-THE SUPREME COURT.

Case is an Important One-Several Damage Suits Brought-One for \$20,000-Several Cases in the City Court.

Michael J. O'Connell, who was granted a Icense to sell liquor at the O'Connell house, at Savin Bock, after two years' contest with the county commissioners, may not be able to sell liquor this summer at all. Yesterday morning the matter took a sudden jump into the supreme court.

The question came up in the superior court when an appeal from the action of the county commissioners was to have been tried. Attorneys Kleiner and Pond, who ap-

tried. Attorneys Kleiner and Pond, who appeared for O'Connell, said that the remonstrants should file reasons of appeal from the commissioners. Attorney Newton for the remonstrants objected, and Judge Elmer ruled against him. On this ruling the matter went up to the supreme court.

Mr. Newton filed reasons according to Judge Elmer's decision, and to these a demarrer was made. This will be heard today at the short calendar session. One of the points to which a demurrer is made is the claim that O'Connell, being convicted of Sanday selling, was not entitled to a license. Mr. Kleiner maintained that former convictions did not now enter into the matter.

CASE UNDER ADVISEMENT.

Judge Elimer of the superior court has under advisement the case of John S. Madden, the well known real estate dealer of this city, against John Semon.

The plaintiff brought suit for an assault alleged to have been committed on him in April, 1802. It was alleged that Semon, smarring under some act of Madden, jumped out of his wagon in Church street, near Chapel stret, and chastened Madden. Damages of \$5,000 are claimed.

WANTS \$100 DAMAGES. WANTS \$100 DAMAGES.

Papers in a suit for \$100 damages were served late Wednesday afternoon on the Smedley firm. The suit is a civil one, and is brought by Michael Kimler, who conducts a botting establishment at Shuetzen park. It is alleged in the writ that one of Kimler's teams was run into by a team belonging to the Smedley firm, near the corner of Chapel and Union streets, and that the horse and wagon were considerably damaged.

SUES FOR \$20,000.

William C. Robinson of Stonington, who lost both legs as the result of an accident at Groton January 22, while he was serving as brukeman on a freight train, has brought suit against the New York, New Haven and Hartford Raliroad company for \$20,000. The case is returnable to the superior court for New London county, the first Tuesday in June.

SUIT FOR \$2,000.

The suit of the New England Merchandize company against Frederick W. Miner went on trial before Judge Elmer in the superior court yesterday. The plaintiff claims that Miner, who was a former treasurer of the concern, juggled with the books and appropriated \$2,000 for himself thereby. Suit is brought to recover that amount.

CITY COURT CASES.

In the city court yesterday Alfred H. Corey, arrested for assaulting his wife, was remanded until to-day.

Andrew Murray, arrested for begging and drunkenness, was sent to jail for ten days. The case of Daniel Cavanaugh, held for assault on Churles Kane, was continued until Saturday to get more witnesses.

Charles M. Foyles, well known to the police, was before the court or keeping a disorderly house. He was fined \$10 and costs. William Lynch was before the court on a charge of breach of the peace. He was discharged.

NORTHFORD.

May 27 .- Arthur M. Williams is rebuilding the barn which was destroyed by fire some months ago.

Work on the grading of the eight-mile hill is progressing well. Springs of water were struck near the top, which formed brooklets in the gutters and caused heavy work for the teamsters. The bridge at the foot of the hill has been nearly doubled in width. Mrs. Ann Hartigan has deeded her place, consisting of twenty acres of land, with dwelling and barn, to her nephew. Thomas A. Blair of Wallingford, who has moved his family into the house. Mrs. Hartigan will make

her home there as heretofore. The ladies of St. Andrew's guild will hold a strawberry and ice cream festival in Association hall next Tuesday evening, together with a musical enteralnment, including pleasing vocal and nstrumental selections, with a graphophone recital.

The school in the upper district has ncreased its appurtenances by the addition of four wall maps and an eightinch globe.

A concert will be given in Association hall Friday evening, June 5, under the auspices of the local Y. P. S. C. E., by a quartette from the Wesleyan University Glee club, assisted by an elocutionary reader. This-will undoubtedly be a fine entertainment. Ice cream and light refreshments will be served. HOME TO BE SECURED

For Presiding Elder-Action of Methodist Convention.

As a result of action taken at the meeting of the district stewards and laymen's convention of the New Haven district of the Methodist church held at the Derby M. E. church Wednesday afternoon, a home for the presiding elder will probably be purchased or built in this city for a short time. The project occasioned quite a discussion among the delegates but a committee was finally appointed to take hold of the matter at once. The committee was named by the committee of three which was composed of Attorney Andrew T. Bierkan of New Haven, Judge George H. Cowell of Waterbury, and Mr. Treat of Higganum.

They named the following committee to take charge of the matter of creating an elderage: H. H. Benedict, John T. Manson, B. B. Savage, News Haven; W. E. Sessions, Bristol; I. E. Spenser, Waterbury; Cephas Rogers, Meriden; Howard A. Camp, Hartford; Franklin Burton, Ansonia: Mr. Bailey,

New Britain, The session held Wednesday was one of the most interesting in years. The attendance was larger than usual. During the discussion as to best equipment for district work, it developed that one of the important matters was a home for the presiding elder. There was some difference of opinion but during the lunch hour the leaders of the two sides had a conference and the matter was straightened out. It was found that those who opposed had been led to believe that the entire ex-

pense of about \$19,000 would immediately fall on the churches mi the dis-NEW HAVEN ORPHAN ASYLUM

REPORT ON PROGRESS OF MEDICINE. Dr. Walter R. Steiner of this city read the first paper to-day, his subject being "A Report on the Progress of Medicine." Dr. Steiner began by referring to the death of Virchow, September 5, 1902. He mentioned his great work for medicine in establishing exact methods of medical research, and formulating the principles of cellular pathology. The year's progress in medicine was then reviewed, especial attention being paid to pneumonia, uncluaria, duodenale, smullpox, typhoid fever, paratyphoid fever, americana and strongylorides intestinalis. He closed by saying that the outlook of further progress in medicine is most promising, and that much will be done in this country to further our knowledge by the permanent establishment of the Rockefeller Institute of Medical Research in New York. AN HONEST SKEPTIC

And Where He Landed. An honest skeptic will learn things that a prejudiced and ignorant person misses. There have been many skeptics of the great rebuilding value of the pure food Grape-Nuts simply because they did not understand the scientific

principle upon which it is based.

A Cincinnati man prepared to die and then got well and strong in spite of his convictions. He says: "I have always regarded your food as only another eatch penny to fool the public but I am now forced through simple justice to admit that it is all you claim.

'I suffered for years from indigestion and had 'set my house in order' to die, Then I took up the study of the alimentary table, bought a set of chemical devices to analyze the different foods and set to work to intelligently study the food question.

"I selected and ate those vegetables and meats in which I found the most nutriment and which were supposed to be the most easily digested, but I continued to waste away and my stomach grew to be a veritable hell; sour scalding eructations came up in my mouth taking my breath away for such a long while that I thought many times my end had come. I would fall in a faint and remain unconscious for some time when revived would find great dark spots obscuring my vision to such an extent that it seemed to be almost night in my room,

"My stomach grew so weak that I could not digest even well boiled rice. While lying in bed, badly discouraged and more willing to die than live, a voice seemed to come to me, "Why don't you give up your prejudice and the Fair Haven cemeteries and in cem-try Grape-Nuts.' I thought about it eteries in the vicinity of the city will every little while during the day and late in the evening sent out for some and ate a little, expecting it would hurt me and cause all the terrible trouble over again, but an hour passed and everything was right so I took another little meal and waited, I felt better and the old sick feeling quit. So about 9 o'clock I took a pretty good meal of Grape-Nuts and went to bed feeling good. I laid awake some time fearing my poor weak and scalded stomach would suffer, but strange to say I dropped off to sleep and slept sound and peaceful and enjoyed the most glorious night's rest I had for several

"I go heavy on Grape. Nuts now, and I have gained 10 pounds in the last five weeks; have sound, refreshing sleep, no sour eructations of the stomach, no dark blind spots and my nerves are as steady as can be. I am truly myself again and all due to having at last found the proper food." Name furnished by Postum Co., Battle Creek, Mich. | that the drouth is broken.

Constantinople, May 28.- Advices which reached here to-day from Asiatic Turkey show that a terrible earthquake occurred on April 29 at Melazgherd, in the vilayet of Van, eighty miles southeast of Erzroom, on the Euphrates. The town was totally destroyed, with its entire population, numbering 2,000 souls. These included 700 Armenians, as well as the troops forming the garrison of Melazgherd. More than 400 houses in neighboring villages collapsed.

A solmewhat severe, earthshock was felt here this morning, but no damage was done.

LATEST FAIR HAVEN NEWS.

The members of Persevering circle King's Daughters, of the East Pearl street M. E. church, gave a reception to the aged members of the church, from 3 to 7 p. m. on Wednesday, in the church parlors. The rooms presented a very homelike appearance, with the rockers and easy chairs and the decorations of flowers, etc., and the new parlor furnishings, all contributing to make an ideal place for such an occasion. Rev. Dr. Streeter made a few remarks, hymns were sung and there were solos by Mrs. Clark and Mrs. Barnes. There was also a reading by Miss Cooper. Supper was served late in the afternoon. Those attending included Mr. Fidler, Mr. Crawford, Mrs. Mansfield, Mrs. Platt, Mrs. Avery, Mrs. Hokins, Mrs. Brooks, Mrs. Avery, Mrs. Chase, Mrs. Benedict, Mr. and Mrs. Leonard Bradley, Mrs. James Smith, Mrs. Catherine Smith, Mrs. Tuttle and Mrs. Dann. Following these evercises there was an impromptu gift of a palm from Perservering circle to one of their New Haven .. 0 0 1 2 0 0 0 1 *members, whose wedding anniversary some one had accidentally discovered fell on that day. Dr. Streeter presented the gift in a very happy many, much surprising the recipient.

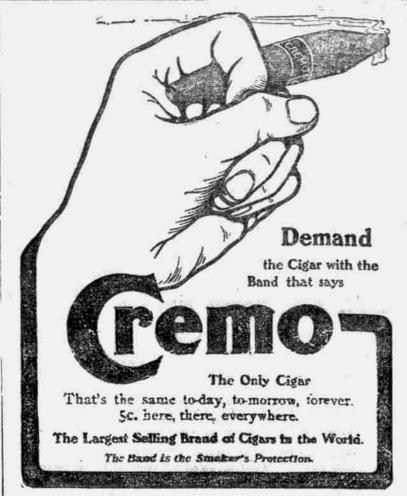

At the Strong school there is no regular instructor in manual training at present, but Principal Graves gives as stolen bases, Holyoke 2, New Haven 3; much time as he can spare to this department. After school hours, a number of boys of the seventh and eighth grades work in the carpenter shop and attain considerable proficiency in this ine of instruction. There is room for fifteen boys to work at once and they have turned out some very fine work in ioinery.

INTERESTING GAME

From Hol oke on Savin Rock Grounds Were Numerons-Results of Other Games-springfield Here To-day.

The champions walloped the Holyoke State league team on the Savin Hodge and Theisen. Rock grounds yesterday afternoon in a close and interesting game. Holyoke started the game by scoring two runs, hitting the ball squarely. Tuckey then settled down to business and after that the visitors were at his mercy. In the out a two bagger, followed by a single first tally, Fitzmaurice smashing out a neat double with a man on bases and scoring a moment later on a long fly to deep center. The fans started the shouting in the fourth when the local batters hammered the ball in

the circuit. Not until the eighth did the Blues get another run. Connell made a hit. He then stole second, went to third on a sacrifice and started for home when Canavan filed to left field. The ball was returned and Weeden touched Connell just as the runner touched the rubber. The umpire's decision caused a lengthy wrangle, Holyoke claiming

good shape and sent two men around

One of the features of the game was the pitching of Vickers, whom the crowd dubbed "Rube" because of his countrified appearance. The summary: HOLYOKE.

Headquarters Journeymen Bakers' Union No. 11,

May 22, 1903. To Master Bakers' Association: Gentlemen-It was voted that the ple bakers can start their work at twelve 'clock on Sunday night, but this is only conceded to ple bakers because they have a large shipment of ples to go out of town on early trains. It was voted that this union, No. 11, will not start to work this day unless our agreement i signed after 12 o'clock noon.

One of the master bakers, in speaking of the situation, characterized the demands of the journeymen bakers as unreasonable, and said that to agree to them the bosses would be obliged to double the amount of capital they had now invested in their business. If they gave in to the men and brought both shifts of men to work at the same hours they would be obliged to double the size of their plans in order to accommodate them. This would put them to a great and wholly unnecessary expense, which ought not to be asked for. The men, on the other hand, are also confident of winning and claim that their demands are not unfair.

Both Sides Still Confident of Victory-Master Bakers Submit Letters Which They bay Will Substantiate Statement That They Were Auxious to Settle Matters Amienby.

The strike of the journeymen bakers remains about the same, no more of the boss bakers having signed the agreement submitted by the union. A delegation from the Master Bakers' association, when seen last evening by a representative of this paper, summed up the situation as follows:

"We are just as firm as we were on the first day of the strike and are confident that we will win in the end. It seems to be the impression among the public that the fourneymen bakers offered us arbitration and we refused it. On the contrary, we are the ones that offered the arbitration and it is they that refused it."

To substantiate the statement the master bakers offered the following letters as evidence: Headquarters of Master Bakers'

Association,

May 13, 1903. Voted-That the Masters Bakers' association adhere to the proposition as presented to Bakers' union No. 11, and ask for a committee of conference to be composed of six members of the Master Bakers' association, three members of Bakers' union No. 11 and three mem bers of the Trades council; if said com-mittee does not agree, then the said committee shall be empowered to select one disinterested person to act with them-the finding of said committee to be presented to all parties interested for final action; both parties to meet at their respective halls at 8 o'clock, May 14, 1903, for the purpose of hearing and acting on the report of the committee; If time is sufficient, then said report be

made this evening at 8 o'clock, (Signed) MASTER BAKERS' ASSOCIATION. The following reply to the letter was made:

"Our gunnery department has adopted a new system which, I believe, will shortly make it the best in the world," said Lord Charles Beresford of the British navy at Belfast. Guess the noble Lord forgets the men behind the guns in the United States navy.

A number of farmers in Lafayette county, Missouri, are making a specialty of growing cob-pipe corn. They say they get as much corn from it as from other corn, and have the receipts from the cobs besides. One man raised twenty-five acres, from which he got \$198 worth of cobs and 1,120 bushels of corn, or about \$336 worth. That is, his receipts were about \$21.36 per acre-more than most farmers get from an ordinary corn crop.

The Municipal Laboratory of Paris recently obtained the conviction of a manufacturer of tinned meats, whose so-called preserved venison, hare larks, etc., were found to be simply horseflesh cooked and seasoned in various ways. Nearly all the witnesses who came forward, however, testified to the excellence of the meats, and in spite of all proof that they had eaten horseflesh for game, were loud in their praise of the productions of the enterprising manufacturer.

A negro preacher down South has discovered the real cause of the recent volcanic disasters. He says: "De earf, my friends, resolves on axels, as we all know. Somefin' is needed to keep the axels greased: so when de earf was made, petrolyum was put inside for dat purpose. De Standard Oil Comp'ny comes along an' strax dat petrolyum by borin' holes in de earf. De earf stix on its axels an' won't go round no more: den dere is a hot box, just as of de earf wuz a big railway train-and den, my frien', dere is trouble."

To Mrs. C. B. Hollarn of Dallas probably belongs the distinction of holding more important offices than any other woman in Texas, if not in the country. She is deputy United States circuit court clerk, deputy United district court clerk, both for the Northern District of Texas; stenographer for the United States marshal and holds a commission as deputy United States marshal for this district, as the law requires the marshal's employes to be and act as deputy marshals. The last gives her the right to carry "deadly weapons."

Menelik, King of Abyssinia, knows how to deal with bad trusts in his dominions and has the power to do it. For a number of years certain companies, mostly English or Italian, have enjoyed monopolies in exporting the products of the country, such as ivory, gums and fruits and have defied any competition. Menelik is not embarrass ed by any courts or other bodies through which there may be long legal delays. He simply puts his foot down, makes known his wishes and they are obeyed. He has not said that these monopolies must cease and that trade shall be free to all. He has given no reason for his action, for that is not necessary.

The California State board of health is contemplating the removal of Chinatown from the heart of San Francisco to some outlying region, where sanitary conditions may be enforced in the building and the maintenance of the houses, and where if necessary strict quarantine may be enforced without inconveniencing the whole city. In the meantime, it is proposed that the Chinese who live underground shall be compelled to come up to street level. The city board of health will be asked to co-operate. There is some doubt about there being law enough for all this, but if there is it is going to be found.

The monks of St. Bernard have taken advantage of modern inventions in their work of saving lives. Ten days ago two Swiss alpenists started out to go to the hospice. Half way up they were overtaken by a snow storm and lost their way. After wandering around the summit for several hours they came across one of the new shelters built by the monks. In it they found bread, cheese, wine, a spirit lamp and a telephone. With the latter they called up the hospice and asked for help. By the time they had finished a good decided that the operations of the asmeal a monk and a dog arrived to show them the way. THE POWER OF HOPE.

breast. So yesterday afternoon Sir | fare there. Thomas Lipton's flotilla, consisting of the Shamrock III., the Shamrock I., the steam yacht Erin and the ocean tug Cruiser, whose combined crews number 170 men, sailed from Gourock bay for Sandy Hook. Great crowds of people bade them farewell, flags were everywhere displayed and bands, whistles and sirens combined with the cheering of the spectators to give the cup challenger a great sendoff. The bands played such airs as "Rule Britannia" and The Dear Little Shamrock."

This is proper. It is also wonderful when the past is considered. It takes a lot of hope, pluck and money to come after the cup again. Hope, confidence pluck, skill and money are enlisted in its defence, and if Sir Thomas gets it he will be well entitled to it. Whether he gets it or not he and his supporters are well entitled to the respect of those who admire courage in the face of disaster.

A QUEER AND QUIET BOOM. The Cleveland boom isn't very active or conspicuous just now, but we suppose it is still in existence. The Washington Post assumes that it is, and makes some rather pointed criticism of Mr. Cleveland's part in it. "In permitting himself to be boomed for a third Presidential term," says the paper, "when a word fitly spoken would have put a stop to that performance-to a booming that is generally regarded as worse than folly-Mr. Cleveland has grieved many of his judicious friends. They cannot imagine that he desires or thinks it possible, to get another nomination, nor can they suspect him capable of believing that, if he were ominated, he could be elected. 'Why, then,' they ask themselves, 'is he permitting this booming to go on? Why has he not repressed this mistaken zeal?" The suggestion that it would be indelicate for him to decline before he s formally asked is nonsense."' '

Many will think there is more truth than poetry in this criticism. Of course if Mr. Cleveland were really afraid the lightning might strike him again and if he really didn't want it to he could say so in a way that would be understood. By the way, that is a curious statement which is made by the Brook lyn Eagle, the chief Cleveland boomer It says: "If, as Mr. Chandler says, the captains of commerce are hostile to Roosevelt, deliberate and determined bids for that hostility have been made One of the essentials to the continu ance of prosperity is confidence, and with confidence the captains of commerce can depend upon Grover Cleve land. Hence the Cleveland boom, for which, by the way, there are other reasons, too numerous to mention."

APPARENTLY ADIQUATE LAW.

Awhile ago it seemed doubtful that

the had trusts could be reached by the

law. Now it looks very much as if they could be. How searching and effective the law may be is indicated by decision which has just been given by the United States Circuit Court of Appeals. The question before the court was whether a "voluntary association" which fixed no prices on the goods handled by its members is repugnant to the Sherman Anti-Trust law. The association is composed of "active" and "inactive" members, the former being mantel and grate dealers in California and the latter the encaustic tile manufacturers of the United States, an English firm and an Ohio foundry company. The by-laws of the association provide that any "acceptable" dealer of San Francisco or vicinity may become an "active" member while all manufacturers of tiles in the United States may become non-resident members by paying a nominal entrance fee and subscribing to the rules. The rules prohibit members from buying certain articles from any persons except members or selling these articles to non-members at less than list prices. The prices to members were 60 per cent, less than to outsiders. After the association was formed a San Francisco dealer, who was not a member, was unable to purchase materials as cheaply as before from the Indiana concern with which he had formerly dealt. In order to fulfill his contracts he was compelled to buy at the higher price from a San Francisco manufac turer. The dealer brought suit for damages under the Anti-Trust act against the Tile, Mantel and Grate Association of California and also against the San Francisco manufacturer who was a member of that association. The Circuit Court of Appeals for the Northern Circuit gave judgment for the plaintiff. It is contended by counsel for the defendants that the transaction was a purely local one and not within the scope of the Federal statute as to interstate commerce. It is alleged that as between the dealer and the manufacturer the asssociation made no attempt to fix prices. Finally, it is contended that the association could not be in restraint of trade or a monopoly when any local dealer or manufacturer could become a member.

The case has been appealed to the United States Supreme court, and it

be easy. The French, as well as the English and Germans, are awakening to a sense of the vast future possibilities of the cotton growing industry in Africa. The whole question was disussed at a meeting of the French Colonial Union in Paris the other day, when General de Trentinian, pioneer of cotton cultivation in the French Soudan, and other influential persons were present. M. Pelterie, President of the French Cotton Association, said that the experiments of General de Trentinian in the Soudan proved that cotton of good medium quality could be grown in that region without any improvement in the method of cultivation. Had his initiative been followed France would now be several years in advance of her African neighbors in Togoland and Lagos. He referred to the danger of the absorption of the European cotton trade by the United States, and maintained that French Africa and the Soudan were better qualified than either Togoland or the Congo coast land for cotton growing. He deprecated the introduction of American methods of cultivation on the ground that Africa was not ripe for them, while the superior fertility of the soil made them unnecessary. In a general discussion which followed special emphasis was laid upon the necessity of encouraging native cultivation by buying all the cotton which

The June Sale of Muslin Underwear

Is in full swing. This is a semi-annual event that hundreds of our patrons wait for each year.

The fine soft nainsook, cambric and muslin used in this sale, and the very much better finish of even the least expensive undermuslins puts this sale far ahead of any we've ever had.

At present writing, the counters are surrounded and every grade is selling fast. The medium grades-88c to \$1,88—sell fastest; but there's a constant buzz around the 18c to 58c things (regular 25c to 75c garments)-for they are well-made and good, and in many cases, cost less than the materials they are made of. Everything is safe and clean-most of it made in the country-some of it marked with the label of the Consumers' League.

Demonstration of the "Arnold" Goods.

A lady representative of the Novelty Knitting Co. who is an experienced demonstrator is with us for a few days to exhibit and explain the merits and points of superiority of the "Arnold" Goods.

These popular garments are endorsed and recommended by the most prominent physicians in the country and are widely know as Reform Garments of the highest character. They are healthful, sensible and serviceable. They comprise in part:

WOMEN'S Dressing Sacks, Lounging Robes, Knit Umbrella Drawers, Night Robes, Accouchement Bands, Underskirts, Serviette Napkins and Belts, Knit Bedroom Slippers, etc.

CHILDREN'S Night Drawers with feet, Knickerbocker Drawers, Night Gowns, etc.

INFANTS' Gertrude Suits, Diapers, Bands, Vests, Bibs, Night Gowns, Wrappers, Leglets, Bath Aprons, a complete Knit Out-

We trust it will be your pleasure to call upon us while the demonstrator is here, that she may be allowed to explain their merits.

As a special inducement to attend the demonstration, for one week a Serviette Belt will be presented to each purchaser of one-half dozen Serviette Napkins.

BROKEN TEAMSTERS' STRIKE. Work.

It was learned last evening from an intimate friend of Mr. Farley, who brought the strike breakers for the boss teamsters to this city that Mr. Farley was here to stay until the strike was broken up. Mr. Farley claims that about all the men he brought here are at work here. The friend said: Mr. Farley had been successful in all of the attempts similar to this one and quoted as an example Waterbury, to which place Mr. Furley brought a number of men to take the places of the striking motor-men and conductors. Mr. Farley was in Providence attending to some business, but returned to this city last night.
It was claimed by the strikers last night that there has been a number of deserters in the ranks of the men brought here by Farley, and they claim in a number of instances the men would not accept their fares to New York from the local strikers, but took freights back to their homes. A number of the men brought here from New York are members of the Teamsters' union of that place, and claim that they did not know that there was a strike in this city or they would not have come here. Outside of this the strike remains about the same as heretofore. Both

sides are confident of victory and claim that they will win in the end. The coal dealers continue to deliver coal and this branch of the teamsters' strike is practically overcome.

The strike of the hack drivers seems to be about dead. A number of the men have deserted the cause and returned to work, and this has greatly weakened the union. The boss liverymen are satisfied over affairs as they are going on and the boss teamsters are confident their strike will end the same way.

YALE MEN BURN BOOKS.

After Completing the Course-Old Custom Berled.

In days long gone by there was a custom among the undergradutes of Yale of burning certain of their text books when the subjects had been completed. But this ceremony died out as the present generation of Yale men have not taken part in any of these celebrations up to date. In Sheff, there seems to be a movement on foot to start up the custom once more.

After the last recitation in the subject. Wednesday the members of the biological mechanical divisions gathered in front of North Sheffleld hall and nade a pile of the text books that they will never again open for the purpose of study. A match was touched to some of the loose pages and as the flames licked them out of existence the men stood about and cheered.

YALE WILL DEVELOP

Gymnasts in a More Thorough Manner
The Yule Gymnastic association is planning an active campaign for the coming year and has already begun to arrange the details for handling the men. The advisory committee, which is to consist of John E. Heaton, Dr. Anderson and the captain and manager of the gymnasium team, will give the men all the assistance possible. Captain Anderson will meet the men twice every week to give them special training on the apparatus. He wil be assisted in this work by George Menrie and Mr. Bellis and several older men on the team.

It is intended to hold a series of contests next year for freshmen and medals of silver and bronze will be given to the men for excellence on the selected apparatus. It is expected that this innovation will arouse new interest in this sort of work among the freshmen. During the senson coaches will be engaged to look after the tumbling and ring work and particular atention will also be given to the freshmen who are promising.

The new builetin board, which is the present to the association from the captain, W. L. Anderson, will contain the records and lists of champions for the past seven years. This board will be placed in the gallery next to the Heaton builetin, and will serve as a healthy incentive for the new members of the Y. G. A.

community loses one of its most influential, esteemed and benevolent citizens. He was born in this city January 28, 1812. At an early age he entered in the battle of Fair Oaks he was mercantile life, being the principal owner of the large carpet and dry goods house of Marble & Foster, doing an extensive business for many years. Their location was on Chapel street, south side, midway between Orange and State streets. During the civil war he, with Henry Hooker, Leverett Candee and James Brewster, being endorsers for the firm of G. & D. Cook & Co., who were among the ploneers of the carriage industry, assumed their liabilities and a company was formed, known as Hooker, Candee & Co., which was afterwards incorporated as Henry Hooker & Co. in 1868. From that time to the present there have been only two presidents of the company, Henry Hooker retaining the presidently until his death in 1873, Mr. Marble succeeding him which office he retained up to the time of his death. Previous to Mr. Marble's last illness he daily visited the office, retaining his interest in all affairs of the company, and his advice and judgment aided greatly in the conduct of the business.

Mr. Marble was the son of Simeon Marble, who was a Chapel street jewelry merchant.

About 1848 he formed a co-partnership with Henry W. Foster, who now resides | three days. at 187 Lawrence street. The firm's title was Marble & Foster. These two men twenty years. Then Mr. Marble decided to enter the wider field of carriagemaking, which then was one of the largest industries in the country and in which New Haven took a leading part, becoming identified with the Hooker

At one time Mr. Marble was a large holder of real estate, but he disposed of this during the hard times of the early seventies to invest the money derived from it in other enterprises, particularly that of the carriage firm of which he

No direct heirs survive the deceased His wife died about five years ago. He had a daughter, a talented young woman, who married Mr. Rood, but she dled about 1873. She left a boy, but he died when he was about two years old. Mr. Marble also had a sister, who married the late Professor H. N. Day. She left two daughters, the Misses Day, who reside at 956 Chapel street. They are Mr. Marble's closest relatives.

Mr. Marble was a devoted church member and all his life had been a constant and consistent worshipper at the United church. He was a man who gave a good deal to charity in an unpretentious way. For years he took a deep interest in the Young Men's Institute and helped it in various ways. He was president of the institute for years, and one of the great popular local events of those days were the courses of lectures by men of national renown whom Mr. Marble secured for those lectures. Other unusual entertainments and crowded houses were the rule. The entertainments were given in the old

KNIGHTS OF COLUMBUS.

Plans for National Convention are Now All Made.

Extensive preparations for the annual national convention of the Knights of Columbus are in progress. The convention will be called to order Monday morning, June 1, at St. Aloyslus Hall, on Meadow street and continue for

Delegates from practically every state in the union and from several Cacontinued together in business about nadian cities will be present and much interesting and important business will be transacted.

The Knights of Columbus has grown immensely during the past five years and now numbers ninety thousand on its rolls.

The growth has been largely due to the decision to admit social members, and so strongly attractive has the social side become that these members now far outnumber the insured.

At first the organization was pudely an insurance band, but the social advantages were so many, that prominent and influential men clamored for admission with the result as above noted. Edward L. Hearn of Boston, Supreme Grand Knight of the order, will arrive in town Friday and will stop at the quarters of the delegates during the convention, and every available inch of space of which has been engaged.

P. J. Bailey of Cleveland, national treasurer, and a man of high standing and pronounced influence in the order, will be present at the convention.

Daniel L. Colwell, of this city, national secretary, will present his usual very interesting report.

RAILROAD COMMISSIONERS. Hartford, May 28 .- The railroad commissioners have decided to reserve their decision in the matter of the complaint of members of the general assembly of the dilatory train service of the New London Northern Railroad company. The railroad company claimed that, owing to defective coal and a congestion of freight traffic, in common with other railroads in New England, during the past winter, delays were unavoidable, but that these conditions were now improving and the service it is now rendering is reasonably prompt and regular. This improvement is admitted by the petitioners, and the railroad company has promised to still further improve the service.

igain Develops Acute Wenkness-Stor Loss Orders Distodged.

New York, May 28 .- The stock market developed acute weakness again to-day. There was evidence this morning also of pressure to sell stocks, which encouraged the professional bears, who offered down prices briskly and succeeded in dislodging stop-loss orders, which had evidently been freely placed all through the market slightly below the existing price level. The stream of offerings on this account gained notably in volume when prices broke through the previous low level. The large selling, which spread pretty generally through the list, was as little accounted for by any news as that of last week and Monday.

YESTERDAY'S STOCK MARKET.

Cheviot Shirts,

Chapel Street.

It was evident that the fall in prices was itself the motive for a large part of the selling and the maneuvers of the bears conduced materially to the fall in This was made clear by the substantial rally in the last three-quarters of an hour, when the covering by the shorts to take their profits on the day caused recoveries of from 1 to 2 points in the principal active stocks. A notable center of disturbance for the whole market was Amalgamated Copper. Its decline was shared in by copper securities all over the world, and a violent slump in the price of the metal in London gave color to the suspicion that the metal market was under manipulation for a rise to assist in a speculation in copper securities. Rio Tintos were sold in Paris and Lendon on an enormous scale. The extreme decline in Amalgamated reached 4% and its rally on short covering left it still 3% lower

on the day. It was believed that a long standing pool in the stock was forced to unload. When the concentrated selling was detected the bears joined freely and attacked the stock flergely. Rock Island was under severe pressure all day. The heavy selling of Union Pacific and its lack of support caused a bad impression. The same was true of the abandonment of St. Paul and Pennsylvania to the vicissitudes of the market. Na-tional Railroad of Mexico preferred was among the market features on realizing, following the announcement of concessions granted by the Mexican government.

Rumors of a freight handlers' strike n western railroads were given as a reason for some of the afternoon selling. Other depressing factors were authoritative denials of reported conferences looking to adjustment of the Pennsylvania railroad and Gould dispute, obstacles in the way of organization of the anthracite conciliation board, the reduction in the amount of Bessemer pig iron said to have been purchased by the United States Steel corporation from yesterday's reports, and the bad effect produced by the United States Shipbuilding reorganiza-

The very strong tone of foreign exchange gave intimation/that further exports of gold are likely. Call money re-mained very easy. Rates for time money were appreciably firmer to-day. St. Paul's April statement showed about one-quarter of the increase in gross saved for the net.

Rock Island bonds were heavily sold. The bond market otherwise was irregular. The total sales, par value, aggregated \$2,590,000.

United States bonds were unchanged on the last call.

RESIDENTS AWAKENED.

East Haven Denizens Aroused from Their Early Morning Slumbers. The good citizens of East Haven were awakened early yesterday morning, not as customarily by the proverbial crowing of the roosters, but by a chorus of catcalls that would have delighted the heart of any gallery god.

The frightened natives quickly donned their garments and an investigation by the heads of the families was instituted. The surprise could hardly be pictured as they opened the doors of their abodes. Quantities of kittens were found scattered about the town on doorsteps and highways, one and all crying lustily for their morning breakfast food. The fondlings were carried into the homes of the sympathizing denizens and they have all at the pres-

ent time been adopted. Some one came through the town the night before last with a load of the young felines and kindly left a generous supply on the doorsteps of all the

NEW POWER PLANT TO BE IN-STALLED.

Engines and Motors to be of Immense Motive Power-Company Will Erect and Operate its Own Pumping Station-Vice-President H. Stuart Hotchkiss Says Greater Efficiency and Economy are Expected.

Plans are under way at the L. Candee & Co. rubber factory, of this city, to entirely renew the power plant of that mammoth manufactory. The engines and motors to be installed are of the most improved and scientific construction, greatly increasing the economy of operation by increased motive power and lessening of steam consumption. The programme contemplated will be in keeping with the advanced ideas and methods adopted and pursued by the management, and is on a scale that will guarantee the greatest efficiency in power for the next decade. Asked regarding the changes to be made H Stuart Hotchkiss, vice-president of the company, said to a Courier representative:

The changes in the power plant of L. Candee & Co., as originally planned, contemplated the installation of a 180 horse power General Electric motor, replacing the 150 horse power George H. Corliss engine used to drive the machinery in the rubber wash cellar, carpenter shop and machine shop. This part of the plan has already been completed, the power being furnished by our new 300 kilo Watt General Electric

generator. An order has been placed with the Westinghouse Machine Co., of Pittsburg, through Westinghouse, Church, Kerr & Co., for two Westinghouse Corliss tandem compound condensing engines of the following dimensions:

One 26 and 52x54 and one 24 and 48x48. The two have a rated horse power of 1,400 with a maximum of 2,700. These are to replace the following George H. Corliss non-condensing engines:

One 34x72 and one 30x72, having a total rated horse power of 1,100.

It is also the intention of the compa ny to run the entire plant condensing, instead of non-condensing, as heretofore. This will be effected by connecting a Bulkley injector condenser by a 20 inch pipe with Mill river, crossing the property of the New Haven Gas Light Company and the New York, New Haven and Hartford railroad.

Arrangements have been also made for the establishment of a pumping station on the property of the Gas Light Company, which will contain a Worthington volute centrifugal pump, driven by a sixty-five horse-power mo-

It is expected that as a result of these improvements, the efficiency of economy obtained from the two main engines will be increased from twentyfive pounds of steam per indicated horse-power per hour to fourteen pounds of steam per indicated horsepower per hour, while it has already been demonstrated that by the substitution of the 180 horse-power a subtution of the 180 horse-power motor a substantial saving already has been made.

ing will be continued. In the earlier days of the asylum this could not be accomplished for want of funds, but for the last quarter of a century, owing largely to the means provided by our Donation day committee, we have been able to attain this very desirable result with increasing efficiency. It was twenty-five years ago on the fourteenth day of this month that our visitor, Mrs. Candee, made her first visit and she has continued in this service to the present time. Its duties are not always agreeable, but they have been performed faithfully through this long period, with that personal interest and spirit of love for the unfortunate which always makes sacrifice a pleasure,

MRS, SILAS GALPIN.

She Expired Wednesday After a Long

Illness. The many friends and acquaintances of Susan P. Kilbourn, wife of Silas Galpin, of 78 Whalley avenue, will be deeply grieved to learn of her death, which occurred Wednesday. Mrs. Galpin had not been in good health for the past two years and a half, but she was able to be about until last January, when she suffered a fall and sustained a fracture of one of her limbs. Since that time she had not been from her bed. Her five months of suffering she bore with the same patient Christian fortitude with which she met all her troubles or sorrows. Wednesday she suffered a shock and death resulted from congestion of the brain.

Mrs. Galpin would have been eighty years old on July 30. She was born in Bird, East Hartford and was the daughter of Nathan and Lucy Kilbourn. Fifty-five years ago the seventh of this month she was married to Silas Galpin. They had no children.

During the active years of her life Mrs. Galpin was connected with United church as one of its most influential members. She was a prominent member of the Ladies' Aid society of the church and even when her strength permitted her no longer to take the same active interest in the work of the society she lived with it and had ever its best interest and the best interest of her church in her heart. She was a Paper Boy. member of the United church for almost fifty years.

Mrs. Galpin leaves to mourn her loss, besides her husband, four sisters and They are Mrs. Charles one brother. Andrews, of this city, Mrs. Myra Bradley, of Middletown, Mrs. Sophia Buttricks, of this city, Mrs. Nelson Taylor, of Lebanon, and George Kilbourn, of this city.

The funeral services, which are to be conducted by Rev. Dr. T. T. Munger, will be held at her late residence this afternoon at 3:39 o'clock. The interment, which will follow immediately, will be in the family lot in Evergreen
