

DEUTSCHLAND IS FLOATED.

PULLED OUT OF MUD IN GEDNEY CHANNEL.

Puts Quickly to Sea—Got Off Once Before but Again Got Stuck—Fleet of Tugs and Her Own Screws Used in the Final Effort to Free Her—Passengers Not Much Excited Over Delay.

New York, June 5.—The Hamburg-American line steamship Deutschland after being stuck in the mud off the Hook for nearly twenty-four hours was worked free at high water late to-day and proceeded to sea. It took the combined efforts of seven vessels and her own powerful screws to get her into deep water, and once back into the channel she headed for the sea and crossed the bar under the escort of small boats. She was not injured and it is expected that she will make her average speed in crossing. The passengers did not appear to be very much excited over their delay, and those who were able to shout to the tugboat men were anxious for the latest news and seemed to regard their experience with good humor.

The Deutschland got off earlier in the afternoon but owing to the condition of the tide she went on again almost immediately while trying to turn her bow toward the entrance of the channel. The vessel was finally floated at 4:35 p. m.

The vessel sailed from Hoboken with many passengers shortly after 2 o'clock yesterday afternoon. The first news of her going ashore was received by wireless telegraph from the outgoing French liner La Savoie. As soon as the news was received here the I. J. Merritt, a big wrecking boat, was sent down to try and get her off. The Deutschland went aground on the north edge of the Gedney channel about three-quarters of a mile inside of the bar. She was said to be drawing 31 feet of water and apparently ran into the mud half her length.

The Merritt lowered a ten ton anchor and then passed a steel hawser to the grounded vessel. This was wound on her steam vessel and by this means the vessel's stern was pulled round so that she was lying with her nose pointing east by southeast.

Preparations were made to get her off at high tide about 4 o'clock this afternoon. The passengers watched the wreckers working with interest. Captain Behrens would allow no one to get on board. Charles T. Yerkes, Mrs. J. Ogdon Armour and Kocian, the violinist, were among the many who watched at the rail.

The final effort to pull her off, and the one which was successful was made about 4:30, and at 4:35 the big liner began to slip free of the mud. Three tugs worked at her port bow while on the other side of her bow the pilot boat New Jersey and two more tugs puffed and snorted. The Merritt was at her stern. The big vessel worked her screws and then with a mighty effort began to move and was soon free. Captain Behrens at once started for sea and the fleet of tugs, blowing their whistles, followed the Deutschland until she passed the bar, the passengers lining the rail and waving farewell as she sailed into the mist.

PRESIDENT RETURNS.

Back in Washington After a Remarkable Trip.

Washington, June 5.—President Roosevelt returned to Washington to-night from his memorable trip of over two months throughout the west. He was given a hearty reception by the people of the capital, who lined the sidewalks as his carriage, escorted by the battalion of high school cadets, was driven to the White House. The president cordially responded to the greetings given him and repeatedly stood up in his carriage and waived his hat and bowed his acknowledgments. He looked the picture of health.

The president spoke a few words from the White House steps. He said: "I have been absent over two months and I have traveled many miles. During that time one thing has struck me, and that is the substantialness of the American people. One can travel from ocean to ocean and from Canada to the Gulf and always be at home among one's fellow Americans."

The trip just completed has been, in some respects, the most remarkable a president ever took. Mr. Roosevelt and his party traveled over 14,000 miles on railroads and several hundred miles in stage coaches and carriages, but not an accident marred their journey. Not five minutes' delay was occasioned during the whole trip on account of train conditions.

During the sixty-five days that the president spent on the road he made 265 speeches.

One of the remarkable features of the trip was the non-partisan spirit displayed in the reception of the president everywhere. Democratic as well as republican mayors united in extending him a welcoming hand, while at Springfield, Ill., former Vice-President Stevenson rode in the carriage with the president. The crowds in the different places visited were orderly and friendly, and gave the secret service men little cause for concern.

MINERS FEEL VINDICATED.

Believed Their Position Strengthened by Judge Gray's Opinion.

Wilkesbarre, Pa., June 5.—Since the reported statement of Judge Gray, taking sides with the miners in their contention that their first conciliation committee was legally elected, the miners have taken a new stand and prominent officials of the mine workers in this city stated to-day that there would very likely be a suspension of work unless the operators receded from their position. The opinion of the chairman of the coal strike commission is regarded by the miners as a vindication of their position and has stirred them to resist the stand of the companies' representatives and to insist on the recognition of the board as first selected.

90,000 CHILDREN CELEBRATE.

Judge Cleveland Present at Sunday School Union's Anniversary.

New York, June 5.—Upwards of 90,000 children, representing 225 Sunday schools of the Sunday School union, today celebrated the union's seventy-fourth anniversary of activity. Among the out-of-town visitors was Judge Livingston W. Cleveland, of New Haven, who is a guest of Marshal Cornelius Leder.

SOME FIRES STILL RAGING.

OTHERS IN VARIOUS SECTIONS ARE DYING OUT.

Situation in Vermont Very Much Improved—Fires Near Lakewood, N. J., Somewhat Abated—Montclair Clergymen to Offer Special Prayer for Rain—Fear That Orange Mountain Forest Will Catch.

Burlington, Vt., June 5.—Reports sent the Free Press from different points about the state show that the forest fires are pretty well under control and that some of the damage reported earlier was exaggerated. Mr. in charge of the business of S. L. Griffin at Danby, says that there have been no serious fires on his property. He has had no timber burned and only a small tract of waste land burned over. No fires are raging there now. The reported destruction of the cottages at Spring Grove proves to be erroneous. The fire on Worcester mountain has been subdued. It is estimated that thirty-five hundred acres of timber land have been burned over there and a half million feet of logs that had been cut were burned.

Portland, Me., June 5.—Additional reports of the havoc done by Wednesday's forest fires continued to come in to-day but no estimate of the losses was possible. Only a few fires were reported, owing to the unfavorable condition of the wind, but the brisk breeze which sprung up to-night is likely to cause much additional loss. Reports from every section of northern Maine only confirm the first suspicions of tremendous loss to the lumbering and other interests. In addition one town has been completely destroyed, hundreds of buildings have been burned in all the heart of the state; at least two lives lost because of the fires, and much suffering, labor and inconvenience caused. Maine's lumbering interests are hard hit by this misfortune, following close on the track of snow in the woods this winter and the drought which caused the loss of more than 25,000,000 feet of logs.

A report of heavy losses in the vicinity of Patten was received to-night, rounded by fires at close range for forty-eight hours. Eight townships have been burned over causing a loss of \$250,000 to the lumber interests there. Except in Aroostook county and other parts of northern Maine, the conditions to-day were quite favorable.

St. John, N. B., June 5.—The generally improved tone of the day's fire news was disturbed by the report from Albert county to-night that the flames had swept down upon the village of Hopewell Cape and twenty-one buildings were reduced to ashes. These included the court house and nine residences, some of them very handsome. A new steamer being built for Warren Dickson, of Hopewell, also the tug Delta, was destroyed.

At Black River, St. John county, five houses and a bridge were destroyed this evening. But for these two places New Brunswick reports are better. There was a sprinkling of rain in this city to-night.

Montclair, N. J., June 5.—Aroused over the continued long spell of drought and fearful lest the Orange mountains will soon take fire, clergymen of this place will on Sunday offer prayers in their various churches for the much-needed rain.

Lakewood, N. J., June 5.—The forest fires in this vicinity, which have surrounded Lakewood in a dense fog of smoke for the last two days, somewhat abated to-night. Large tracts of timber land have been ruined and many cranberry bogs are past recovery.

Hoosic Falls, N. Y., June 5.—The smoke cleared away for a short time to-day, but later became very dense on account of fires gaining new headway. The fires on Graton mountain are extending and new fires have broken out south of here, burning fiercely and destroying valuable timber lands.

TWO MORE POSTAL ARRESTS.

RURAL FREE DELIVERY CLERKS CHARGED WITH CONSPIRACY.

Accused of Entering Contract With Baltimore Man to Defraud Department—Received as Their Share of Spoils in the Purchase of Pouches \$8,000 Which the Government Would Have Saved.

Washington, June 5.—As a result of the sweeping investigation of affairs at the postoffice department, Thomas W. McGregor, a clerk in charge of the supplies for the rural free delivery service, and C. Ellsworth Upton of Baltimore, one of McGregor's assistants, today were arrested on the charge of conspiracy, with Charles E. Smith of Baltimore, to defraud the government in the purchase of the leather pouches furnished the rural carriers throughout the country. Their cases make seven arrests in all since the investigation began. Other arrests are expected later.

The story of to-day's arrests is best told in the following official statement given out by Fourth Assistant Postmaster General Bristow this evening: "Thomas W. McGregor and C. Ellsworth Upton were arrested this afternoon upon warrants sworn out in Baltimore by Inspectors J. D. Sullivan and R. D. Simmons, charged with conspiracy, with Charles E. Smith and others, to defraud the United States government in the purchase of pouches from C. E. Smith of Baltimore. The complaints set forth that McGregor and Upton agreed with Smith to obtain for him orders for many thousands of leather pouches such as are used by rural letter carriers. The price agreed upon was 90 cents per pouch, the actual value was less than 50 cents. Smith was to pay to them the difference between ninety and fifty cents per pouch. It is stated at the department that the actual number of pouches which were purchased exceeded 20,000, for which the government paid ninety cents each, or \$18,000 in all. Smith received and retained of this for his own use \$10,000. The remaining \$8,000 was paid to McGregor and Upton. The government could have bought the entire number of pouches from the manufacturers for \$8,000.

McGregor was the clerk in charge of the rural free delivery supplies, and Upton was one of his assistants. McGregor has been in the postal service since 1891. He came here from Nebraska as a messenger and subsequently was promoted to a clerkship and finally was appointed by Mr. Machen in charge of the supply work of the rural free delivery service. Mr. Upton is a Baltimorean and has been in the postal service for thirteen years. Both the men arrested are married.

MACHEN INDICTED.

Grand Jury's Decision in Case of Accused Postal Official.

Washington, June 5.—The grand jury to-day reported an indictment against August W. Machen, former superintendent of the free delivery service of the postoffice department who was arrested several days ago charged with sharing profits on government contracts for letter box fasteners. The indictment was brought for violation of section 5501 of the revised statutes, the penalty for violation of which is "fine not more than three times the amount asked or accepted or received, and by imprisonment not more than three years." The amount which the indictment states he received illegally is \$18,957.79. Mr. Machen was in court with his attorneys when the grand jury reported, and immediately gave bond in the sum of \$20,000 for his appearance in court. His securities were C. C. Staples, David Moore, F. M. Criswell and Emanuel Speich of this city. The trial will occur in October.

DECISION IN MAIL CASE.

Government Wins in Fight Over Second Class Matter.

Washington, June 5.—The court of appeals of the District of Columbia in an important opinion to-day reversed the lower court and sustained the contention of the government that the postmaster general was empowered by law to exclude from the mails, at second-class postal rates, the publication known as the "Riverside Literature Series," issued by Houghton, Mifflin & Co., of Boston, and also "Masters in Music," published by the Bates & Guild company, of Boston. The opinion is quite sweeping in the comprehensive discretion it gives to the postoffice department to classify mail matter. The lower court in each of the two cases reversed to-day had decided that the postmaster general had no authority to prevent carriage of the two publications in question at second-class mailing rates. The Riverside Literature Series had been published for some years and sent through the mails at second-class rates, but Postmaster-General Payne held that the publication really was a set of books converted into a periodical publication by the use of a serial name and numbers, and that it should pay the postage rate on books. To-day's opinion upheld the postmaster general.

Princeton's Commencement.

Princeton, N. J., June 5.—Princeton's one hundred and fifty-sixth annual commencement opened this afternoon with a golf match between the graduates and undergraduates. This evening the sophomores paraded and called on President Wilson, who spoke to them briefly. Scores of persons are coming in on every train to be on hand early for the big Yale-Princeton baseball game to-morrow.

THREATEN TO MOVE.

Protection Asked for Non-union Men by Hecla Iron Works.

New York, June 5.—The directors of the Hecla Iron works at North Hill and Berry streets, Williamsburg, held a meeting to-day and discussed violent acts on the part of the strikers during the last forty-eight hours. The directors decided to make an appeal to District Attorney Clark of Brooklyn for the prosecution for all non-union men's assaults, and to demand from Police Commissioner Greene better police protection. The directors decided that unless these demands are complied with they would at once shut down their plant and remove from the city.

ILLNESS OF LORD SALISBURY.

Former British Premier Recovers from Chills That Caused Alarm.

London, June 5.—It was reported this morning that the Marquis of Salisbury was seriously ill at Hatfield house, his Hertfordshire seat; but inquiries showed the report was exaggerated. According to the ex-premier's private secretary, Lord Salisbury had a chill during the night, which occasioned some alarm, but he was better this morning. A telegram received from Hatfield house this afternoon announced that Lord Salisbury was making good progress towards recovery, and that there was no cause for alarm.

RIVAL CREWS ON THAMES.

CRIMSON MEN MAKE INITIAL APPEARANCE ON RIVER.

Light Practice Spin Taken—Dissatisfaction at Yale Quarters Over Defeat of 'Varsity by the Freshmen—Particular Attention Paid to Getting a Quick Catch.

Gales Ferry, Conn., June 5.—Both the Yale and Harvard crews were out in their shells on the Thames river to-night, the Harvard men in their initial appearance of the season. The crew from Cambridge arrived at New London at 5 o'clock, and immediately entered the launch John Harvard and were taken up the river to Red Top. Little time was lost in donning rowing suits and the 'varsity eight oared shell was out into the water. To better demonstrate to the oarsmen his idea of the stroke Coach Higginson stroked the crew to-night in place of Captain McGrew. Two miles up the river and return in short stretches covered the evening's work. The crew rowed as follows: Stroke, Higginson; 7, Lawson; 6, Siley; 5, Duffy; 4, Foster; 3, George; 2, Wolcott; bow, Swain; coxswain, Litchfield. The latter held the ropes in place of Coxswain McGrew, who was detained in Cambridge by examinations. The 'varsity four oared crew went out on the river soon after the return of the eight and rowed in the following order: Stroke, Dillingham; 3, Ayer; 2, Webster; bow, Hartwell; coxswain, Ivy. The men simply limbered up a bit and rowed only short stretches. The freshmen squad is expected here to-morrow.

At the Yale quarters the coaches expressed considerable dissatisfaction because of the manner in which the freshmen eight defeated the university crew this morning. All the oarsmen were hard at work this afternoon getting their examinations out of the way and it was 5:30 before the freshmen appeared at the boat house. They rowed up stream one mile in stretches and returned in the same manner. The youngsters were coached along general lines. At 6 o'clock the 'varsity eight and four put out in their shells and rowed up stream three-quarters of a mile. They were coached from the launch by Mr. Kunzig, who paid particular attention to a quick catch. There was a very noticeable tendency to rush the slides by several of the men but it is hoped that this matter can be overcome.

MONT PELEE ACTIVE AGAIN.

Has Emitted Flames and Clouds of Vapor.

Paris, June 5.—Colonial Minister Doumergue has received a dispatch from the governor of Martinique announcing that Mont Pelee is again active. For some days past the volcano has been emitting flames and clouds of vapor.

Chamberlain Has Changed His Mind.

London, June 5.—Replying to a correspondent who drew attention to a speech, delivered in 1881, in which Mr. Chamberlain said a tax on food would mean a decline in wages, the colonial secretary says that circumstances have changed, and he thinks experience has shown that the view he expressed in 1881 was erroneous.

Church Destroyed by Dynamite.

Rochester, Minn., June 5.—The Baptist church in Byron was blown up by dynamite this morning at 1 o'clock. There has been a bitter feeling there between the churches ever since the Baptist minister, the Rev. Mr. Utton, now of Lanesboro, resigned and united with the Methodist church. No arrests have been made.

Three Straight Races.

New York, June 5.—The date of the Reliance, Constitution and Columbia yacht race, which was to have been sailed June 12, has been changed to June 5. This will give three straight days' racing—June 8, 9 and 10.

CZAR'S AUTHORIZED VERSION.

KISHINEFF OUTRAGES AND THE ANTI-JEWISH FEELING.

Reply to Christian World's Request for Official Report—Causes of the Outbreak—Punishment of the Guilty—Impossible to Give Jews Rights of Citizenship—Russian Feasants When Aroused Worse Than American Lynchers.

New York, June 5.—The Christian Herald, in response to a cablegram sent to the czar asking for an official report of the occurrences at Kishineff has received a reply from the director of the Russian police department. The reply follows: "St. Petersburg, June 4.—The Christian Herald, New York: "Russia's agricultural and laboring population is ill at ease, living the common life with Jewish inhabitants of widely developed commercial instinct; hence there is constant antagonism, the material differences in racial and religious character coming to the verge of frenzy at the least possible occasion. "The strained relations existing between the Russians and Jews of Bessarabia were made worse by the fact of finding in an outlying village a murdered Christian boy. The murder was attributed by the population to the Jewish ritual habits. Official denials of the ritual murder were not given credit by the peasants, who attributed other misdeeds of Christians in the towns of Kioff and Kishineff likewise to the Jews. "On Easter day, in the market place of Kishineff, the workers while holiday making, saw the Jewish proprietor of a carousing machine strike a Christian woman, who fell to the ground, letting go her infant baby. This incident was the immediate cause of an outburst. The workers began breaking windows and pulling down Jewish stores as a sign of protest. The police, who always leave much to be desired in provincial towns, failed to make efficacious intervention, and many thousands of the mass of on-lookers and holiday makers, approving the riot and hindering the policemen's actions. "After demonstrations came plunder— (Continued on Third Page.)

PLAN FOR INDUSTRIAL PEACE.

Building Trades Employers' Association Has Scheme.

New York, June 5.—Building Trades Employers' association has a scheme of arbitration for securing industrial peace. The plan has been sent out to all employers and to all unions of laborers in the building trades. Briefly the plan provides that when employers have a trade agreement with their employees there shall be organized a trade arbitration board where all difficulties of that trade can be discussed and adjusted and in addition a higher court of general arbitration board for the settlement of all disputes. The former board is to consist of two arbitrators chosen by each association represented in the Building Trades Employers' association and two from each union whose employers are represented in the employers' association. Such union arbitrators shall not be business agents or members of any central board of employees. From this body of general arbitrators not less than two from the employers' association and two from the unions shall constitute a court of appeals to meet within forty-eight hours when notified so to do by the general secretary. Strikes and lockouts are prohibited before the matter in dispute has been submitted to the general arbitration board for settlement. The plan has been endorsed by a large number of the leading firms in the building trades.

SITUATION IN ORIENT.

Assembling of American Squadron Considered Significant.

Washington, June 5.—Coming close on the heels of a long report from Rear Admiral Robley D. Evans, commander-in-chief of the Asiatic squadron, concerning the grave internal situation in China, the assembling of his squadron in Chinese waters is regarded here as significant. The battleships Kentucky and Oregon and the protected cruiser New Orleans have arrived at Chefoo, the monitor Monterey and the collier Pompey at Shanghai. The gunboat Villobios has sailed from Kow Kiang for Nan Chang. Chicago Laundry Strike Ends. Chicago, June 5.—The laundry strike, which was begun here May 1, was settled to-night, and the strikers will return to work Monday. All grievances are to be submitted to a board of arbitration, consisting of three representatives of the employees and a like number of the owners. These six are to choose a seventh member. Dr. Lorimer Emphatically Declines. Boston, June 5.—Rev. Dr. George Lorimer of the Madison Avenue Baptist church, New York city, has emphatically declined the call extended to him to become once again pastor of the Tremont Temple church in this city, his decision being announced in a letter which was read to-night at the prayer meeting. Great Cloudburst Reported. St. Louis, June 5.—Reports are received to-day of a cloudburst that struck Penton and Valley park about twenty miles west of St. Louis. The country for miles around was flooded to a depth of six inches for several hours. The loss to crops along the Meramec river bottoms is heavy.

GALLIVAN DISCHARGED.

Surprising Verdict in Case of Boy Once Found Guilty of Murder.

Norwich, June 5.—After being out two hours and five minutes the jury in the superior court at 5:25 o'clock this afternoon found William H. Gallivan not guilty of murder in the first degree in taking the life of Jeremiah Shumway in Montville on November 20, 1901. The court room was filled with friends of the accused, and when the verdict was announced they set up a cheer which was continued for several minutes in spite of the efforts of Sheriff Jackson to preserve order. Judge Roraback at once discharged the jury and ordered Gallivan discharged. Gallivan was tried a year ago and found guilty of murder in the second degree, but an appeal was taken to the supreme court of errors, which set aside the verdict and ordered a new trial. The chief witness against Gallivan was Thomas M. Wormsley, of this city, a colored boy, who confessed his share in the crime and implicated Gallivan. State Attorney Lucas expressed himself to-night as astonished at the verdict, and the public at large was much surprised at the announcement.

BRIDGEPORT TROLLEY STRIKE.

Effort of the Business Men Said to be Futile.

Bridgeport, June 5.—The committee of the Business Men's Association met the trolley officials to-day and will report to the association next Tuesday evening. Nothing was accomplished. It is understood that the reply of the company does not change the situation in any way.

GREAT LEVEES GIVE WAY.

DAMAGE WILL RUN INTO THE MILLIONS.

Miles of Country About Louisiana, Mo., Inundated—Several Towns Within the District—Water Pouring Through Break at Madison, Ill.—Situation at St. Louis Becoming Graver.

Louisiana, Mo., June 5.—The Sny levee broke just below this city to-day and the Mississippi is now falling here at the rate of six inches per hour on account of the break. The Sny is the most important in the north end of the river and is seventy miles long. In some places it is twenty-eight feet high and eighty feet across at the base. It includes a fertile farming section from three to seven miles wide, containing more than 100,000 acres. There are several towns within the district, the population of which is probably 10,000. Many of them remain and loss of life is certain. This district has not been overflowed since 1888 and the damage will run into the millions. The break occurred as a point used by the railroad as a roadbed. It was unexpected until just before the break occurred. When seen a rush was made to repair it, but forty yards went out and a torrent poured through. St. Louis, June 5.—The great flood that is sweeping down the Mississippi is steadily increasing in volume and is now being felt in St. Louis and vicinity to an alarming extent. The stage of water reached 34.2 feet to-night, a rise of seven-tenths of a foot to-day. Government Forecaster Bowie to-night issued a bulletin predicting a stage of thirty-five feet by to-morrow noon, thirty-six feet by Sunday and thirty-seven feet on Monday. The Mississippi north of the mouth of the Missouri is still rising, but the rapidity of the rise has been diminished because of the breaks in levees. The flood also forced a passage (Continued on Third Page.)

MRS. STOUT BEATEN.

National Golf Champion Vanquished by Miss Vanderhoof.

New York, June 5.—The semi-finals in the Women's championship Metropolitan Golf association tournament were played at Donegan hills, Staten Island, to-day. Mrs. Charles T. Stout, Apawamis, who, as Miss Genevieve Hecker became national golf champion, was defeated by Miss Louise Vanderhoof, Ardsley, 2 up and 1 to play in a slow, close match that held a big gallery spell-bound on the last half. There were few spectacular plays but plenty of real straight-forward golf. The first hole was halved. Mrs. Stout took the second and third, Miss Vanderhoof fourth, Mrs. Stout the fifth and Miss Vanderhoof the sixth. Cards: Miss Vanderhoof— Out.....5 5 4 3 6 4 3 5 6-42 In.....4 4 4 4 4 6 7 5 \*-38-80 Mrs. Stout— Out.....6 4 3 4 5 5 3 5 6-41 In.....5 5 4 5 5 5 6 6 \*-41-82 Mrs. E. A. Manion, Baustroff, beat Miss Ruth Badgley, Essex county, 6 up and 4 to play. Miss Badgley got a 2 on the third short hole going out, but soon seemed unnerved and was 4 down at the turn. She recovered somewhat on the return but too late to be of avail. Cards: Mrs. Manion— Out.....5 5 3 4 4 5 3 6 5-41 In.....3 5 5 4 5 \* \* \* -22-63 Miss Badgley— Out.....5 6 2 5 5 5 4 8 5-45 In.....5 4 6 6 5 \* \* \* -27-73 The consolation cup semi-finals were close and fairly interesting.

350 Arrested in Pool Raid.

New York, June 5.—Two hundred white men and 150 negroes were arrested to-day in a raid by the police on the alleged pool room of "The" Allen at 30 Sixth avenue. Entrance was forced through front and rear doors by detectives with axes.

MORRISSETTE TESTIMIES.

Waterbury Strike Breaker Tells of Waterville Assault.

Waterbury, June 5.—The principal witness for the state this afternoon in the case of the trolley strikers charged with the assault on William Merna and George Morrisette was Morrisette. He told a clear and connected story of the assault. According to his account of it, which at times was even dramatic, he received a terrible beating at the hands of the gang, the majority of those implicated knocking him down and kicking him. Morrisette identified Edward Winnegar, William Vandemark and David Marsh, the last named only partially, as three members of the gang. Dr. F. G. Graves testified to the character of the injuries of both Morrisette and Merna, and said that at one time he was apprehensive neither would recover. The defense tried to prove collusion between the doctor and the two victims of the attack yesterday. Frederick Bretat, a passenger of a north-bound car that night, testified that there were piles of stones on the track—a point of evidence that had not been admitted before.

The feature of the day's trial was the refusal of nine of the boys charged with implication in the affair to testify. They refused on the ground that it would incriminate them. The testimony of James Ennis, the only boy who would answer the questions put to him, was not of great value. He said that he and several others were sixty yards from the car at the time. It was the testimony of these boys in the city court that led to the binding over of the nineteen accused. Court adjourned at 4:30 till 11 o'clock Tuesday morning. Marsh, Breaton, Warren, McGuire and the two Vandemarks were taken to the New Haven jail at 6:15 by Sheriff Dunham. Ross and Winnegar are out on bonds.

Body Not Found.

At 2 o'clock this morning the body of Earl F. Gibbons had not been recovered. Men were searching all night at Lake Whitney for the body.

### WHY The MATHUSHEK?

Because your selection of a piano is a selection for years to come—to a large extent step is irrevocable. You want quality; you want value. You want assurance of both. The only piano house in New Haven following a strictly ONE PRICE SYSTEM is ours. You can have no better assurance of value than this. In quality no piano equals the Mathushek in durability; no pianos excel it in richness of tone, elegance of design and excellence of workmanship. Moreover it is one of the very few pianos in this country made in its entirety in one factory; therefore, our guarantee means a guarantee of the piano from beginning to end.

### NEWS FROM THE CHURCHES

#### FEATURES OF THE RELIGIOUS SERVICES TO-MORROW.

**Bishop of Porto Rico To-morrow Evening at Christ Church—Rev. Mr. James of Plymouth, Mass., to Preach Here—Song Service at Trinity M. E.—Musical Programmes—Services at Dwight Place—Other Notes.**

The Rt. Rev. James H. Van Buren, bishop of Porto Rico, will tell about work in our new possession in Christ church on Sunday evening at 7:30. A general invitation is extended to all interested to attend.

#### AT TRINITY M. E. CHURCH.

The evening service at the Trinity M. E. church during June and July will be a special service. It will open with a congregational service of song led by the chorus choir. The whole service will be brief and interesting. There will be a brief sermon of fifteen or twenty minutes by the pastor, the Rev. H. Frank Hall, Ph. D. For the Sunday evenings of June, Dr. Hall will give a series of "Sermons in a Word." The subject of the first of these will be "So." The remaining topics of the series will be "Therefore," "All," "One." Trinity Sunday school will celebrate next Sunday as children's day, the service being held at 10:30. A large number of children will be baptized, and the pastor has made the request that all parents who have children to be baptized will confer with him before that time.

Arrangements have been made for a series of union services such as were held in the summer last year. Trinity church uniting with Plymouth and Dwight Place churches. The services will be held on the six Sundays beginning with the last Sunday in July, the services being held on the first two Sundays in Plymouth church, on the next two in Trinity, and on the last two Sundays of August in Dwight Place. These services were very successful last year and were very well attended.

The services of the First Sunday in June will open at the Grace M. E. church with a love feast led by the pastor at 9:30 a. m. At 10:30 the sacraments of baptism and the Lord's supper will be administered. The waters of the Jordan are used for the baptismal ceremony. The junior class of probationers will be received with full membership in the church. At 11 o'clock p. m. Rev. A. J. Smith will address the men's mass meeting in the Foy auditorium of the Y. M. C. A. In the evening he will preach at Grace at 7:30 from "Wedding Joys, Wedding Gifts and Wedding Garments." The Epworth league will hold its regular vesper service at 6:30 p. m.

#### DWIGHT PLACE CHURCH.

The Brotherhood has invited Miss Mary Page Wright to speak Sunday evening upon the topic "The Scripture Illustrated by the Habits of People in the Orient." Miss Wright has served the last year as special Bible school worker at the Dwight Place church and having lived among the people whose customs most nearly conform to those of Bible times she will speak in a very forming and interesting way, using some of the young people to illustrate various sayings in the Old and New Testaments. The quartet will sing some appropriate songs. Everybody is welcome. Service one hour long. The congregational church meets at this church Monday evening, Midweek service Tuesday evening at 7:45 o'clock. Children's Sunday, June 14.

#### AT UNITED CHURCH.

The regular Sunday services will be held to-morrow in the church on the green and at the chapel, 292 Temple street. Mr. Haynes will preach at 10:30 in the church. The public are cordially invited to all our services.

#### EPWORTH M. E. CHURCH.

Sunday morning there will be the usual communion service held on the first Sunday of each month. The pastor, Rev. Henry E. Hiller, will preach a short sermon.  
At the evening service the cantata, "Penitence, Pardon and Peace" will be rendered by the choir. The words of this cantata were selected by Rev. W. J. Bettison, and the music composed by J. H. Maunders. The choir at Epworth has been doing very successful work and this musical Sunday evening will furnish all who enjoy fine music an opportunity to hear some of the best. The pastor will speak briefly upon the three used as the title of the cantata.  
The Sunday school will meet at 12 o'clock and the Epworth league at 6:30 p. m. Prayer meeting will be held on Tuesday at 7:45 p. m. The prayer meetings of late have been well attended and very inspiring. All who enjoy an hour of helpful devotion with God's people will be made very welcome each Tuesday evening.

#### ST. PAUL'S CHURCH.

On Trinity Sunday there are two communions at 9:30 and 10:30. The rector preaches in the morning and Rev. Mr. Stokes in the evening. #### NOTED ATHLETE HERE.

William Motz, the famous ball player, boxer, dancer and all round athlete is now a resident of the Elm City, and is employed at Cooley's cafe as manager and dispenser of liquid refreshments, and would be pleased to have his many friends pay his visit. Motz has played ball since a small boy, beginning when fifteen years of age and continued in the game every season until 1898, when he had to give up the profession owing to a bad arm. In his prime he was considered one of the greatest hitters and first basemen in the country on the Pacific coast. He was termed "Home Run" Motz, due to his long drives and timely hitting. He has traveled to almost every city and town in the country, and has played in every league that ever employed professional players. Not only has he played ball in each of the important cities of the country, but he has introduced with others the game to Mexico. In that city he played exhibition games when thousands of the natives came to see a sport of which they understood but little.

#### BUSY AT THE ARMORY.

Two Inspections—Light Guard Elected Two Officers to Fill Vacant Positions.

Last evening was a busy one at the armory, there being two inspections and the Light Guard elected two new officers to fill vacancies. It was the regular monthly meeting of the Light Guard and there was a large attendance. Edger Thomas was elected first lieutenant and John L. Graver was elected second lieutenant. Both elections were unanimous. The company voted to hold its annual clam bake in July. Major Hamilton and Captain Sparks, two United States officers from New London, made the annual inspection of troop A, and the first separate company last evening. The inspections were a great success. Captain Ludington of troop A, as well as the captain of the separate company, were both highly complimentary of the splendid appearance, as well as the excellent drilling done by the men.

New York Company to Play "Hamlet" Next Friday Night.

William Barrett Smith, the well known actor, will bring a fine company of actors to the Hyperion, this city, next Friday evening. They will play "Hamlet" with Mr. Smith in the leading role, for which he is admirably fitted both by long training and his previous successes in his profession. Mrs. Morjmer, also a well known artist, will play the part of the Queen, and Walter Benn, who is noted for his having supported such actors as Forrest and Murdoch, will enact the role of the ghost.

Mr. Smith has a large circle of New Haven friends, this city being his home city. He is a son of the late Dr. J. H. Smith of this city, who was for many years one of New Haven's leading dentists, and a man greatly esteemed. Announcement as to sale of seats and other details concerning this star performance will be given next week.

### His Last Hope Realized.

[From the Sentinel, Gebo, Mont.] In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first solid sleep for a fortnight. This one little bottle worked a complete cure, and he cannot but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by all druggists.

TO FIGHT FOR TEAMSTERS

TRADES' COUNCIL SO DECIDED AT LAST NIGHT'S MEETING.

Will Carry Cases to Highest Courts if Necessary—Should Strikers be Released the Council Will See Smalley Company—Strong Resolution Adopted—The Bakers' Strike Considered.

A long drawn out meeting of the Trades Council was held last night, several important things being under discussion.

The most important matter was that in reference to the arrest of the striking teamsters. The following resolution, which is self-explanatory, was adopted:

Whereas, The city attorney of the city of New Haven on June 4th, 1903, issued twenty-one warrants for the arrest of the leading members of the Teamsters' and Bakers' unions and a member of the Trades Council; and

Whereas, The said warrants were served, or rather met by the men for whom they were issued, these twenty-one men were placed under bonds of one thousand dollars, charged with the criminal offense of conspiracy, their cases now pending before the city court of New Haven for trial on Friday, the 6th day of June, 1903; and

Whereas, The substance of the charge against these men is; that they performed honestly and faithfully the work delegated to them by their unions in legitimately leading their unions to victory in the economic struggle that is going on in the city of New Haven between these unions and unfair employers, who have not only conducted the unfair fight to prevent honest workmen from a just return for their labor, but who have gone further, and through influence, that is not ours, with high officials, have been able to evoke the aid of the law as a menace against the workmen conducting the fight; and

Whereas, If it be so that the men arrested on the warrants issued can be convicted of the charges contained in those warrants, then the time when a legitimate, orderly, lawful strike can be conducted in Connecticut has gone by, and the workmen of Connecticut must be forever after denied the right to organize and to bring to bear upon the employers such influence as is honestly and lawfully theirs; to grant concessions which are reasonable and which would make life possible in securing adequate return for services rendered; and

Whereas, The conducting of this great and immense struggle which, perhaps, is the most important in which any labor organization has been engaged within the confines of this state, involving, as it does, the very right for our laboring men to struggle for our rights; and involving, as it does, the liberty of honest men who have sacrificed much in the interest of labor; and

Whereas, The issuance of these warrants has inaugurated a legal struggle which must necessarily be bitter, and in which, by reason of prejudice and bias, the workingmen's side will not have any more at least than a fair chance; and

Whereas, The prosecution of these

THINGS TO KNOW

About Coffee and What It Does.

"Being a very hard worker and of an extremely nervous temperament I fell into the habit of making coffee do for both food and drink when my work was pushing me and my appetite poor," says a trained nurse.

"This I would do for a day or two and then be prostrated with heart trouble, fluttering, faint spells and other disagreeable feelings. One day I was persuaded to try Postum Food Coffee in place of coffee. I liked the Postum as well as the coffee and I found I could drink as much of it and as often as I wished, and instead of knocking me out as coffee used to I steadily gained strength. I had no more trouble with my heart, no more bloating, and no more stomach sickness. I have now been using Postum 18 months in place of coffee which means that I have given up coffee and sickness for all time. I will stick to Postum and be well in the future."

"My mother had been a great coffee drinker from her youth and had suffered all of the minor coffee ills such as stomach trouble, heartburn, severe headaches, etc. She tried Postum, but did not make it right. Then I made some for her, boiling it 15 minutes and did not tell her what it was; she wanted to know what brand of coffee it was that was so delicious. I had taken it out of her own box of Postum and when I told her so, she was much surprised and pleased and has been drinking it ever since with the result that her coffee ills have disappeared and she is now healthy and contented."

"One of my patients (I am a trained nurse) is a great sufferer from ulcerated stomach and sometimes she does not eat a mouthful of food for several days. At such times she relies on Postum for nourishment. Since using Postum she gets over her attacks much quicker, is stronger and the attacks are less frequent than formerly. Her stomach seems to be getting better and we are quite certain that Postum will soon cure her completely."

"Another patient is a splendid example of what Postum will do. Her health had been very bad for three years and a year ago she was a wreck from nervous prostration and the worst form of dyspepsia, bloating, heart trouble, etc. I made her leave off coffee and all other drinks and gave her Postum and she improved immediately. She is now able to attend to her home and says that Postum has given her a new lease of life. She feels like a new woman and is getting fat."

"I must tell you of one more case, a person I nursed through what the physicians termed a morphia break-down. This woman's stomach revolted at sight or mention of food and she took absolutely nothing but strong coffee. I knew her heart would not much longer stand up under coffee and I told her husband to get a box of Postum. I made it strong for her and in less than a week she could take all necessary food and not once was the Postum refused and now after three months she is well and strong and is kept so by her steady use of Postum in place of coffee." Name given by Postum Co., Battle Creek, Mich.

GREAT LEVEES GIVE WAY

(Continued from First Page.)

through the levee at Madison, Ill., just north of St. Louis. This levee is fifteen miles long and for days men have been working to strengthen it, but the river found a weak point in a sewer main and the water broke through like a geyser. West Granite, a town of 2,000 people, is located in a depression between the levee and a railroad embankment. Ample warning had been sounded and the inhabitants sought safety when the deluge came. It is believed that all escaped.

The streets of Venice, Ill., almost opposite St. Louis, are almost waterways, and the inhabitants go about in boats. In St. Louis the buildings along the river front have practically been abandoned and the first floors are more than a foot under water, which stands to-night two feet deep on the top of the steamboat levee. In South St. Louis fully one hundred families living near the mouth of the river des Peres were forced to leave their houses to-day and many families living in houseboats fled to land for shelter.

A telephone message to-night from Waterloo, Ill., forty miles below St. Louis, situated in the lowlands several miles from the river, said that the flood has spread to that point and a levee erected for such an emergency is in danger of being washed away. Government aid is asked to strengthen the levee and avert the threatened inundation of the town. Investigation is being made and if it is found that lives are in danger a government boat will be rushed there at once.

At midnight the stage of the river registered 24.6 feet, a rise of almost five inches since sunset. Another break occurred at midnight in the levee at West Granite and fifty families living in the vicinity were forced to flee for their lives. The entire town is now inundated. A small break occurred to-night in the Chicago & Alton railroad yards.

MERLY OF BRANFORD. News was received in Branford yesterday of the death of Miss Sarah E. Parsons at her home in New York city, of pleuro-pneumonia early Thursday morning. The funeral will take place in Branford this afternoon on the arrival of the remains from New York.

The deceased was the daughter of the late L. S. Parsons, of Parsons & Squires, the pioneers and founders of the Branford Lock Works. Away back in the early forties Mr. Parsons built and lived for years in the house on Hillside avenue now owned and occupied by Postmaster Lineley. The family was prominent here and highly esteemed.

The deceased and her mother had visited friends in town nearly every summer since their departure from the village. Miss Parsons is survived by her mother and one sister, Mrs. H. S. Hutchinson of New York city.

Mass Meeting in Washington. Washington, June 5.—A mass meeting was held in the Columbia theater this afternoon to consider the recent outrages perpetrated on the Jews of Kishineff. Resolutions of sympathy were adopted.

Myrtle lodge, K. of P., of Meriden, will visit Ivy lodge Thursday evening, June 13.

Mrs. F. R. Manning will sail to-day from New York for a tour in Europe. Ernest and Miss Stella Reichenberger of Philadelphia were visiting friends here yesterday.

Edward Axelle of Springfield will attend to the repairing of watches at R. M. Mansfield's.

E. J. Heineman will open up his ice cream parlors on Ceter street this evening.

No change has been made here in the price of coal. In other places because the freight tariff was raised fifteen cents a ton the price went up fifty cents a ton.

Eight of the factories in town will close to-day at noon and the employees, under certain conditions, will receive full time.

The funeral of Mrs. Gilbert Corby of North Orchard street will be held at 2:30 this afternoon from St. Paul's church. The interment will be in the Center street cemetery.

"So you have decided to get another physician." "I have," answered Mrs. Cymrock. "The idea of his prescribing flaxseed tea and mustard plasters for people as rich as we are."—Washington Star.

IN AND ABOUT THE COURTS

STATE SUPREME COURT HANDS DOWN SEVERAL DECISIONS.

Famous Usmack Case Decided—Several Decisions in Superior Court—County Bar Meeting—Striking Teamsters' Cases Postponed.

The supreme court now sitting in this city handed down five decisions yesterday morning of cases heard at the last term. The decisions follow: John King of Ansonia vs. the Fountain Water company. Defendant's appeal. No error in second count. In first count error is found and judgment reversed.

The J. B. Owens company of Lanesville, O., vs. the Trumbull company of Waterbury. No error. This was a defendant's appeal from a judgment of \$452.42 allowed the plaintiff.

Waiter L. Frisbie of Waterbury vs. Perry C. Morris, selectman of Waterbury. No error. The town authorities placed a conservator over Frisbie in the probate court and he appealed.

Emmack, receiver, vs. John W. Douglass, and the same vs. Killam Carriage company, were decided together. No error was found in either case. Opinion by Judge Baldwin. This was defendant's appeal from judgment in a suit of replevin. The goods taken were hacks and carriages. This is a New Haven case.

SUPERIOR COURT.

The following divorces were granted in the superior court yesterday afternoon: Grace E. Simmons from Andrew Lewis Simmons on grounds of desertion. Granted permission to change her name to Grace E. Hubbard. Married June 29, 1899.

Mary J. Hull from Sylvester H. Hull. Granted on habitual intemperance. Married August 1, 1882. Custody of three children granted.

Antonio Stalano from Theresa A. Stalano. Granted on the ground of adultery. Married May 9, 1900.

Mary W. Nickerson from Marion S. Nickerson. Granted on the grounds of desertion. Married September 6, 1889. Change of name, granted, to Mary W. Roberts.

SUPERIOR COURT.

In the case of John A. Phelps vs. James E. Gallagher et al, a verdict of \$1,000 was rendered in favor of the plaintiff yesterday afternoon. On October 9th Mr. Phelps was run into and injured at the Danbury fair by a team driven by Mr. Gallagher.

SHORT CALENDAR SESSION.

In the case of Schueller, executor, vs. Merwin et al, a motion for judgment for foreclosure was granted.

In the case of Ives vs. Maher et al, an application to substitute James P. Bree as plaintiff was granted.

In the case of Michel vs. Michel Bros. et al, a motion for judgment was submitted.

A motion to open the default was granted in the case of Turner vs. Garfield.

In the case of Carlson vs. Carlson, a motion for an allowance and for all money payable to him was allowed. The court authorized the payment of \$3 a week.

SUES FOR \$2,500.

The case of Tax Collector Anthony against John F. McHugh, former deputy tax collector, was put down on the list for next Tuesday for trial by Judge Elmer in the superior court yesterday. The suit is to recover \$2,500.

PROPERTY VALUED AT \$14,000.

At the short calendar session of the superior court yesterday Judge Elmer granted a judgment of foreclosure in the case of George O. Schmeiler of Ansonia against R. T. Merwin et al. The amount of the mortgage is \$14,000. One year was granted as the time for redemption.

FORECLOSURE FOR \$6,000.

In the town clerk's office yesterday was recorded a lien pendens in a suit of foreclosure brought by the National Savings bank against T. W. Corbett and Isadore Oppel. The amount of the mortgage is \$6,000.

SCHOONER RELEASED.

The schooner Highland of Northport, L. I., against which a libel was filed by Fred Flynn, a seaman, for \$202, has been released by Deputy United States Marshal Parmelee, the case having been settled.

COUNTY BAR MEETING.

At a meeting of the New Haven County bar yesterday in the superior court room the application of Judson F. Hall of Meriden for admittance to practice in this state was refused.

The bar passed favorably on the following young men who have applied to take the bar examinations: Hal C. Bangs, George H. Bartholomew, Harry J. Beardsley, Clarence W. Bronson, Louis R. Burton, Jacob Caplan, Franklin Carter, Jr., Charles F. Clarke, Hubert L. Dickerman, William J. Downs, Franklin Francolini, Joseph J. Goldsmith, George D. Graves, Joseph E.

Lauber, James R. Lawlor, James B. Mercer, Henry O. Lowe, James M. Lynch, Stephen A. McGlynn, Benjamin J. Marcus, Thomas D. Newmyer, Thomas J. O'Brien, Omar W. Platt, Orsell C. Price, Francis T. Reeves, Charles Reider, William C. Runger, Louis Scoppa, Anthony Spinello, Edward J. Stanford, Louis H. Strouse, Philip Troup, Pere G. Walimo, George N. Whitley and George Woodruff.

CHARGED WITH EMBEZZLEMENT. Winlow S. Day, who is charged with embezzling a registered letter from the Seymour postoffice May 15, was brought from Allegheny City, Pa., to New Haven yesterday by Inspector Frank O'Brien. United States Commissioner Wright held the accused in \$2,500 for trial.

NO BOND REQUIRED. Judge Cleaveland has decided that it will not be necessary for William Button of this city to file a bond in an action brought by Thomas Button and Frank Button against the estate of the late Frances C. Button, who died seven years ago. She left some real estate on Rosette street and \$2,700 in personal property.

CITY COURT CASES. Nineteen strikers were in the city court yesterday morning on a warrant charging conspiracy. They were Orrin S. Stockford, William Talmage, Philip Daly, Peter Flynn, Richard A. Anton, Theodore C. Beck, Alfonso Montagnan, Thomas Connors, Addison H. Stebbins, John J. Brown, Timothy Bronson, Frederick Mitchell, Charles M. Brooks, John Mitchell, Percy Cornelius, James J. Sheridan, Patrick Murray and John Sullivan.

The names of George Whitmore, Harry Cohen, D. B. Gallagher and W. D. Konuff appear on the warrant but they had not been arrested.

Judge Hubbard presided. By agreement between Assistant City Attorney Tyner and Attorney James M. Sullivan, who appears for the accused, all of the cases went over for a week and will come up next Friday.

CHARLES L. TAYLOR. Charles L. Taylor, a veteran of the civil war, died at his home in Bloomfield Wednesday morning at four o'clock, aged seventy-two years. Death was due to paralytic shock. He was born in Wallingford and moved to Bloomfield fifteen years ago. He was a member of Company C, Tenth C. V., enlisting October 18, 1861. He was promoted to be corporal September 16, 1862, and to be sergeant November 1, 1862. In 1865 he re-enlisted and was promoted to be first sergeant. He is survived by his wife, two sons, George S. Taylor of Hartford and Edward H. Taylor of Cleveland, O., and two daughters, Mrs. Willis Cadwell and Miss May E. Taylor, both of Bloomfield. The funeral was held at his late home yesterday afternoon.

MILFORD. The funeral services of Henry Riley were held on Thursday afternoon. Mr. Riley was sixty-eight years of age and was one of the most respected colored citizens of Milford. Interment was in the Milford cemetery, the services being conducted by the Rev. Mr. Harrod of the First Baptist church, of which Mr.

Keep Your Insides Cool!

Here's a man who thinks he has heart disease, and is scared half to death. His face is all drawn out of shape from fear and agony. Every time he eats, his heart "palpitates"—that simply means that his stomach is swelled up with gases from fermenting undigested food, and his heart thumps against his diaphragm. Nothing the matter with his heart. In the summer time, this gas distention is much worse, his whole body and blood get over-heated, and his heart and lungs get so crowded for room, that he gasps for breath. There he is, look at him! Every minute he expects to drop dead. As a matter of fact, all he needs is to stop that souring and gas forming in his stomach and bowels, help his digestion along, and keep cool inside. You all know that whenever something rots or decays, heat develops. Same in the body. Keep cool inside! Take a candy cathartic CASCARET every night at bed-time. It will work while you sleep, clean up and cool your insides, give you a regular, comfortable movement in the morning, and you'll be feeling fine all day every day. Heart Disease! Fudge!

MR. BRYAN ON WICKED MONEY.

Mr. Bryan knows how to keep himself and his paper in the public eye. In this week's issue he devotes nearly a page to an attack on the custom of universities, churches and benevolent institutions accepting gifts from monopolists.

There doesn't seem to be any sign of the awakening which Mr. Bryan thinks is so desirable. Perhaps if there is such an awakening he may find it difficult to give away his own money if he wants to do it.

SOME SIMPLE "CURES."

We read that Naaman, captain of the host of the king of Syria, was a great man with his master, and honorable, because by him the Lord had given deliverance unto Syria; he was also a mighty man in valor, but he was a leper.

Of course there was more in this cure of Naaman than its simplicity, but we are reminded of it when we read about some of the simple cures of the present day. For instance, the molasses cure for cancer.

And there are other simple cures going the rounds. Probably they will not be rejected on account of their simplicity, but it is sadly probable that most of them will be rejected on account of their failure.

THE RUSSIAN REVOLUTIONISTS.

Russia makes trouble for many, and has many troubles herself. The Russian authorities are, it is reported, breathing more easily, now that the dreaded May season has passed with-

out any serious outbreak. Greater precautions than ever before were taken in all the industrial centres. One feature of the revolutionary pamphlets and leaflets that has caused great anxiety is the fact that they were nearly all signed by "The Executive Committee of the Social Democratic Revolutionaries," which is regarded as proof of widespread organization.

MY FRIEND THE COTTONTAIL.

(Continued from Fourth Page.)

The rabbit dashed away must be another one, probably Bunny's mate, and I stole away quietly lest I should interfere with the courtship. About two weeks ago both rabbits disappeared, and I did not see either of them for three days. Then, one morning, I saw "my" Bunny sitting in her form, looking very ragged, and I thought, disconsolate. When I went near her she hopped away a few yards and then stopped. As I advanced, she hopped away again, always keeping a few yards between us, but apparently without any desire to run away from me.

About this time a neighboring farmer told me of a rabbit's nest he had found in a pile of loam behind his barn, and I went over to look at it. It was in a hollow near the top of the pile, and there I saw six little blind rabbits with scarcely any hair on them. The farmer said that he had never seen the mother; but that one of his workmen, going into the yard about five o'clock in the morning, had caught sight of her hurrying away through a hole under the fence. Next morning I was down there at daylight, but the gate creaked loudly as I opened it, and I saw nothing but a frightened rabbit scurrying away in the ground. Yes, I saw something more; I saw that it was "my" rabbit, and my interest in the family on the loam-pile increased tenfold in a moment. I went up to the nest, and found the babies snug and warm beneath their covering of loose fur; a "comfortable" made from their mother's own coat. They looked fat and well-fed, too, and their little mouths smilled of milk. In the evening I went down to the clump of bushes where Bunny lives, and there

she sat, calm as ever, in spite of the great secret she held in her heart. I passed by as though I didn't know she was there, but a moment later I turned and lying down upon a warm, dry rock. I waited; I felt rather mean as I did it, too, for I knew I had come to spy on Bunny. As a rule, I don't watch the wood folk when they're not looking, but Bunny had trusted me a great deal, and it seemed rather shabby to pry into the one secret she was so anxious to keep. However, the only way to do things is to do them, so I silenced my conscience and waited. Far away I heard the "yapping" of a fox, and above me, in the gathering darkness, a night hawk was "booming" at irregular intervals. But these and other sounds died away with the last suggestion of daylight, and presently I was sitting in silence. When I heard a sound I was listening for—a faint rustling in the leaves from the direction of Bunny's quarters. I raised my head, and followed the gentle pattering of hairy feet through the bushes, across a foot-path, and away toward the farm. While I still could hear them, I arose and followed the sound as rapidly and as quietly as I could. The rabbit stopped, so I changed my direction and hurried around to the other side of the farm-yard, where I climbed over a wall and hid behind a cart-shed near the loam pile. For a while I thought I had frightened the rabbit away, but presently a little shadow came bobbing along from the direction of the hole under the fence, and, after a pause, I saw a white spot—the cottontail—go hitching up to the side of the loam pile it wasn't much to see, I'll admit, but it was enough for me, and I went home satisfied.

A few days later, I visited the little rabbits again, and found that their eyes had just opened. The moment I touched them, they kicked up their hind feet, all together—a sign, I thought, that the instinct of fear had come to them, and with it, perhaps, the instinct to scare away an approaching enemy by making a sudden and concerted movement. I found that they could eat solid food even at this age, for when I offered one of them a blade of grass, he nibbled it very readily. In a few days they will be quite able to shift for themselves, and I am interested to learn whether any of them will accompany their mother to her residence near my home.

SPLENDID SHOES

At D. W. Cosgrove's Store, Church and Crown Streets.

At D. W. Cosgrove's popular shoe store, Church street, corner of Crown, the attractions at the present time seem to eclipse those of all other seasons. A glance at the handsome show windows will reveal to the spectator everything that is new, stylish, comfortable and "up to date" in footwear. Mr. Cosgrove knows what is "just right" in shoe leather, and his years of experience as a manufacturer and dealer have given him exceptional opportunities to understand the business "from A to Z." As a consequence his many patrons get the benefit of his matured judgment. His store in this city, which has always been a popular one, is now more popular than ever.

The specialties at the present time and over Cosgrove's are: The famous Walk-Over low shoes in patent Colt, Vici, Calif. and Vici Kid; also everything in the footwear line that will look well, fit well and wear well, at prices remarkably low, considering the quality of the goods.

ON THE BASEBALL FIELD

HARTFORD TAKES NEW HAVEN INTO CAMP.

A Game in Which Errors Counted Largely in the Scoring—Meriden, Hallowell and Bridgeport Win—Other Games.

Hartford, June 5.—Hartford defeated New Haven this afternoon 8 to 4 in a game in which the errors counted largely in the scoring. Both shortstops were ragged in their playing and their errors were costly. The umpiring of Merrick was very satisfactory, neither side making a kick throughout the game. The score:

Table with columns for player names and statistics for Hartford and New Haven.

Summary: Two base hits—Kelly, Connell. Three base hits—Thomas. Sacrifice hits—Battam, Hope. Stolen bases—Hope, McCarthy, Thomas. Double plays—Hayward, Jope and Ahearn; Sullivan, Donovan and McCarthy; Sullivan and McCarthy. First base on balls—By Luby 1, by Hope 1. Hit by pitched ball—By Hope 1. Struck out—By Luby 2, by Hope 5. Left on bases—Hartford 5, New Haven 6. Wild pitch—Hope. Time 1:35. Umpire Herlick. Attendance 400.

HOLYOKE 15, NORWICH 4.

Holyoke, Mass., June 5.—The Holyoke players pounded McLean all over the lot to-day and rolled up a score of 15 to 4. Norwich did not get a run until the seventh, when they bunched three. Aside from the heavy hitting of the home team the feature was a catch by Morgan. Score by innings:

Table with columns for player names and statistics for Holyoke and Norwich.

MERIDEN 6, SPRINGFIELD 5.

Springfield, Mass., June 5.—Meriden bunched hits and took advantage of Springfield's errors and Thomas' bases on balls and won 6 to 5 this afternoon in spite of Springfield's batting rally in the ninth. Springfield batted freely but unfortunately. A very smoky atmosphere caused a number of ridiculous errors. Score by innings:

Table with columns for player names and statistics for Meriden and Springfield.

BRIDGEPORT 4, NEW LONDON 3.

Bridgeport, June 5.—Roy Clark won the game for Bridgeport in the ninth inning by batting out a neat single when McCullough was on third. New London led at the second half on the last inning. Staub went wild and gave Connors his base on balls. An error by Bannan on McCullough's hit scored Connors and sent McCullough to third and Clark's hit did the trick for McCullough. It was a fast game with honors even. The score:

CHICAGO STARS DEFEATED.

Big Crowd Watched Women Play Ball at the Rock. More than 1,500 spectators witnessed the base ball game on the Savin Rock grounds yesterday afternoon. The opposing teams were the Chicago Stars, composed of women, and a picked local team of men captained by "Joe" Deet. Miss Nelson pitched for the Chicago team for six innings and did well. She was replaced by a twirler of the "sterner" sex. Miss Burke in left field made two good catches on long, high flies. Steve Ashe pitched for the local team and at the finish the score stood 15 to 8 against the Stars.

NORWICH HERE TO-DAY.

With pleasant weather to-day a big crowd should see the game between the New Haven and Norwich teams on the Savin Rock grounds. The league standing has reached that stage where a victory or defeat for one or two teams means a general shake-up in the standing. New Haven is near the top of the ladder, and the Blues will make a great effort to land to-day's game. The contest will begin at the usual hour, 3:45 o'clock.

YALE VS. PRINCETON.

The Yale baseball team will play in Princeton this afternoon. The Yale players left this city last evening for New York, where they spent the night at the Murray Hill. The team was accorded a rousing send-off by the students. This morning the team will go by special car to Princeton and several hundred students will accompany the players. The game this afternoon will begin at 3 o'clock.

JUST LOOK IN AT JUDSON'S TO-DAY

If You Care to See as Fine and Complete a Line of Fruits as Has Ever Been Exhibited in This City.

Although the forests continue to burn and the drought also continues, the foliage and grass in and around the Elm City seem to be luxuriant as ever. There are all kinds of predictions as to the crops if the drought is not broken. Vegetables and fruit, they say, will not be up to the standard, etc. Well, neighbor, if you feel gloomy over the prospect just look in to-day at the Mirror Store, 856 Chapel street, and let your eyes feast on as attractive and delectable a sight, in the way of fruit, as you ever beheld. There is no drought at Judson's, and "nothing" the matter with his strawberries, large, sweet and juicy, and the cherries of the Queen Anne and Jones Seedling brands; also a full score of other kinds of fruit equally attractive and tempting. In the way of early vegetables you will find many kinds at Judson's which are very fine, and which are certainly provocative of an appetite. In a word, if you are in search of the best go to the Mirror Store.

CONGREGATION B'NAI SCHOLOM

Addressed Last Evening by Rev. Mr. Wolf, of New York. A large number greeted Rev. Nathan Wolf, a candidate for the pastorate of the Congregation B'nai Scholom, last evening in his opening lecture before the congregation. Mr. Wolf made a deep and most favorable impression on his listeners.

Mr. Wolf is a graduate of Columbia college and also of the New York seminary, and at both institutions stood in the front ranks of his class. He is a native of New York and has many friends in that city.

Weather Bulletin! Probably Fair Saturday.

Here's A Big Bargain In Balbriggan Underwear Men. For Saturday.

It will be the feature of Saturday's selling here in our Men's Store. Picture the very best 50ct Balbriggan Shirts and Drawers made, and finished even better than most 50ct Underwear as to deep generous sateen facings, large pearl buttons, full double seat, doubly stitched throughout, suspender taped, the Shirts long sleeved, French neck finished and with ribbed bottom.

They're from one of the best mills in the world. A mill where the standard is so high that they throw out as "Seconds" any garment that has the least blemish. Well these have an occasional almost imperceptible imperfection, so small that most mills would pass them as Firsts. So 29 cents a Garment For the finest 50c underwear made

A Neglige Shirt Scoop. 98cts for \$1.50 Shirts. Two clean-ups that our buyer was fortunate enough to come upon last week at the factories where they make Shirts that we're very proud to sell here. White and colored Shirts both, made of madras, cambric and imported gingham, with attached or detached cuffs and plain and pleated bosom. These are that-much-to-be-desired garment--SHIRTS THAT FIT, because they are made by houses whose names carry with them all that's worthy and honorable in the world of trade. While this hundred dozen of \$1.50 Shirts last Saturday 98cts

The Famous Shoe For Women.

Not Foot, But Shoe.

Every woman wants her shoes to look well so that she need not be ashamed to show her feet. It is the shoe that decides beauty, not the foot. If a woman's shoes look well her feet will look well, but the handsome foot counts for nothing in an unshapely shoe. Now the great advantage of "Queen Quality" shoes--an advantage which you get in no other kind--is that you have a choice from so many styles, shapes and sizes that it is

CHRISTIAN SCIENCE

NOTED BELIEVER ANSWERS JUDICIAL CRITICISM

Of His Faith—Expert Declares Law Applies Equally to Other Denominations.

After having carefully examined the recent decision of the Pennsylvania judge, who rejected a petition for a charter presented by a Christian Scientist church, I find his principal objection is that curbing the sick through prayer is contrary to the policy of Pennsylvania laws.

This decision casts no more reflection upon the teachings of "Science and Health, With Key to the Scriptures," by Mary Baker G. Eddy, than upon the Bible, for the Scriptures plainly indicate bodily healing as a natural accompaniment of the Christian religion.

If, in the petition, no mention had been made of the Christian Science text-book, the court could have made the same excuse for rejecting it, since Jesus declared, "Heal the sick, cleanse the lepers, raise the dead, cast out devils." He also said, "He that believeth on Me, the works that I do shall he do also." Since the religion of Christ includes spiritual healing, orthodox churches cannot escape the ban of Pennsylvania law according to the recent decision, except by eliminating such healing from their religious practice, and thus doing only a part of Jesus' works.

IF JESUS WERE UPON EARTH. If Jesus were upon earth to-day, and healing the sick in the state of Pennsylvania, would that Omnipotent One be obliged to administer quinine in order to legalize His prayers?

The laws regulating the practice of medicine do not pretend to dictate how the sick shall be treated—whether by prayer or by materia medica. Their purpose is to regulate the practice of medicine and surgery. They specify that applicants for a license to practice medicine shall be familiar with certain branches of education. They could, therefore, regulate only that particular sort of practice for which such branches qualify. It does not follow that a mother shall not be permitted to give catnip tea to her child, nor that a clergyman or Christian Scientist shall not be permitted to pray for a sick person, except when he is under the care of an M. D.

The subject of quarantine introduces a different proposition. The law governing the isolation of patients applies to every citizen of the state and is as strictly observed by Christian Scientists as by any other class.

I am sure that Christian Scientists, in their recognition of the mental cause of disease, are more really alive to the danger of contagion than any other class. It would say without hesitancy that a wide-awake, experienced Christian Scientist is likely to be more careful in respect to quarantine and sanitation than any other class of individuals, since they are well informed as to the dangers of mortal's fears and apprehensions.

OTHERS PRAY FOR THE SICK. We are informed that the Episcopal prayer book contains a petition for the sick, and yet no judge has ever withheld a charter from a church of that

denomination in the state of Pennsylvania. Why this discrimination? Is it assumed that the prayers of all Christians except Christian Scientists are ineffectual and, therefore, not needful of restraint, or has prayer only recently become unpopular in the courts?

Our legal friend, noting that his decision could mean no less than an injunction upon praying for the sick, seeks to redeem himself by suggesting that if Christian Scientists desire to pray for the sick they may do so conjointly with the practice of medicine.

The gracious reminder that Christian Scientists may pray if they will use medicine at the same time is equivalent to saying: "You may swim if you will tie a millstone about your neck." Whatever of inefficiency there may be in the prayers of Christians is due to a lack of the scientific sense of how prayer operates. Prayer must accord with the First Commandment, "Thou shalt have no other gods before Me." An important rule in Christian Science is that medicine must be set aside. Many patients have been hindered in their recovery because of unconsciously depending upon some material thing while at the same time looking to God as a means of relief.

IMPLICIT TRUST NECESSARY. One cannot have a sufficiently strong faith in God for divine healing while he gives power to lessen things. This is as certain and demonstrable as a mathematical rule. Our good judge might just as well have said: "You shall not pray at all," as to have said, "You may pray if you will use medicine." An essential part of prayer is implicit trust in God. Prayer must be consistent.

The decision in question embodies the statement, "The fundamental principle of the teaching of Mrs. Eddy is that what is termed disease has no real existence." I am sure our friend will not be offended if I correct him on this point. That disease is unreal is not a "principle," but a conclusion of Christian Science. The basic lesson of this faith is the Scriptural teaching, "God is Spirit." The minor premise of the Christian Science syllogism is expressed in the words of Jesus, "It is the Spirit that quickeneth, the flesh profiteth nothing."

The conclusion is that all discordant material conditions are therefore unreal in the sight of Supreme Intelligence, whatever they may seem to mortals. The proposition is to "make God (Spirit) true, and every man (less than God's likeness) a liar," according to the teachings of the Scriptures. Isaiah said, "The darkness and the light are both alike to Thee." To God, the perfect One, there is no darkness. God is not deceived, is not dim of vision, hence He sees not the darkness which mortals behold and which in reality does not exist.

So it is with all the mists and discords of earth, including sickness. They are very real to mortals in their imperfect perception. In his mental treatment a Christian Scientist seeks to understand disease as it appears to omnipotent God. OBSERVE LAWS OF CONTAGION. It should be remembered that in their outward deportment Christian Scientists note the laws of contagion and deport themselves accordingly, notwithstanding that in their mental operations they hold firmly to the Scriptural teaching, "God is All in All."

Mrs. Eddy declares that she calls diseases by the same names which are applied by others. To assume that Christian Scientists ignore disease because they assert that in God's sight it has no power, is as unreasonable as to suppose that Christians will be careless in respect to contagious disease because they accept Jesus' teaching, "Take no thought for the body."

In respect to quarantine, they do not differ from their neighbors. It is not only the practice of Christian Scientists to overcome trouble, but they diligently labor to prevent it, and on the basis of this science they avoid the unnecessary risk and extra labor incurred from mingling their sick with others. Like the believers in medicine, they have troubles enough which come uninvited. While Christian Scientists differ from others in their understanding of the nature of disease and the cause of contagion, they none the less note that these exist in human experience, and must be grappled with and overcome, and that so long as the law of contagion remains unbroken those afflicted with contagious diseases should be isolated.

APPREHENSIONS NOT VERIFIED.

Christian Scientists do not pose as diagnosticians, and in respect to detecting contagious diseases they assume no more than the ordinary layman. Moreover, statistics prove conclusively that the apprehensions of our good judge are not being verified by any actual experience, since, with all the noise that has been made on this subject, it has not been shown that Christian Scientists have been responsible for the spreading of contagious diseases outside of their own families. On the contrary, it is known that they have not only healed such diseases, but have succeeded in breaking up contagion itself, and thus preventing the spreading of diseases.

CHRISTIAN SCIENCE DESTROYS FEAR.

When we consider that contagion is greatly increased by fear and that Christian Science is the best known remedy for fear, we must conclude that the effect of Christian Science thought in any community is a very important factor in minimizing the probability and possibility of contagion.

It is natural for those who have only a speculative knowledge of Christian Science and its results to assume that a dependence upon this faith and the exclusion of medicine would be a neglect rather than a help, but Christian Scientists who have had experience first with medicine and lastly with the new method have proved conclusively to themselves that in adopting this Science they have chosen the best known remedy. Their judgment should not be set aside without due consideration.

If a court presumes to decide upon the merits of Christian Science practice, it should not depend upon mere assumption, but should admit actual testimony. The act of condemning without a trial is not true Americanism.

The granting of a charter could not possibly confer any further privileges of healing than the law already permits; neither will its refusal curtail such privileges. Individual Christian Scientists are already healing the sick, the church is already holding its public services and conducting every line of work common to the denomination, un molested and under the sanction of the law—Alfred Ferlow in the Philadelphia North American.

YESTERDAY'S STOCK MARKET.

Features of Prince & Whiteley's Market Letter. Primary news and developments over night were not exactly of a nature to instill confidence or to create a confident absorption of stocks either by the outside public or even by the larger parties at interest in different properties. London was reported as inclining towards easiness; transactions here for European account were not of any magnitude, but the selling slightly exceeded the buying. Room and professional traders, it was taken for granted, were the chief sellers. Commission houses had but few liquidating orders, still stocks were continually offered and prices kept on receding.

To-morrow's business sentiment is expected to make a poor exhibit, as the money market is beginning to feel the exports of gold. Per contra it may be said that the higher rates for money, and the consequent rise in new loans in Europe, which is plainly reflected in the reduction of exchange rates, are the latter doing to 387.50 for actual short sterling.

While most everybody believes that liquidation and declines which began half a year ago are likely to continue, and that values are approaching a basis yielding five per cent. return to the investor, we cannot help but think that the outlook for a revival in general demand of our securities crops must be more positively assured than the moment they appear. Weather conditions in different parts of the country certainly are disturbing and the farmers and producers are very apt to present the most gloomy aspect, but it is not to be forgotten, still, there is plenty of time to overcome many adversities which up to now have been obtaining. The wheat and cotton markets do not seem to be much disturbed, both being lower after publication of the government reports going to show that much of the nation's crop is especially in cotton, is reflected in ruling prices.

Renewals of call loans 1 per cent. What a decided advance in prices lower. All news, coming as it does from parties now interested, is that there is and will be a better demand speculatively for the cereal. We are bright and sunny. Prices are not invitingly low and crop prospects not bad; in fact, spring wheat conditions are good.

Cotton is a little easier. Present prices, taking into consideration trade conditions, famine in countries where they most need manufactures, crop conditions as a whole, and the fact that the market is beginning to feel the exports of gold, are not invitingly low and crop prospects not bad; in fact, spring wheat conditions are good.

The market may again be affected by temporary unfavorable crop news—the sentiment may put it still lower—but many properties are fast getting on an attractive investment basis, in our opinion. The tone at the close was rather good, considering what the public was led to believe, and prices at the close showed some recovery.

ENTERTAINMENTS.

Pat's Theater. The Watermelon Trust, composed of five singers and dancers, is the feature act at Pat's this week and they serve some good songs of a catchy nature and some clever dancing.

One of the other good things provided on the bill is the comedy sketch of Sam Edwards and company entitled "A Pass for Two." This is a bright and witty burlesque of the sort usually appreciated at this theater, and Mr. Edwards has been scoring a tremendous individual hit in it. The company later before on Saturday, June 27.

The circus is bigger and better than ever before it conquered all Europe and is winning new honors in this country.

HAS BEEN SERIOUSLY ILL. Captain William H. Lockwood of Hartford, a former leading resident at Short Beach, who has been seriously ill since his return from Florida, is now able to be out. He was at his business office for the first time Tuesday since he was prostrated.

MET WITH ACCIDENTS.

A Number of Cases Treated at the Emergency Hospital Yesterday. There was a number of accidents yesterday which were treated at the Emergency hospital, Peter Marthello of 93 Haven street, while at work at Sargent's, got the little finger of the left hand caught in some gearing and he left it sewed up.

Pasquale Scaramella of 53 Collis street while at work in the same shop met with a similar accident, only it was the end of the middle finger of the left hand.

Lewis A. Clark of 339 Lenox street, while at work at C. B. North's shop, got the thumb of the left hand caught in a press and it had to be dressed.

Anthony Sweeney of West Haven, while at work in the railroad shops, got his right hand caught in some machinery and a number of stitches had to be taken in it. All the patients are reported as doing well.

STRUCK BY A TEAM.

Accident to John Brackner at Savin Rock Last Evening.

As John Brackner, living opposite the power house at West Haven, was crossing Beach street at Savin Rock last evening about 7:45 he was struck by a team driven by Howard Lattig, a fireman on the Consolidated road, and living at 461 Third avenue, West Haven. Brackner lay unconscious for about a half hour and was attended by Dr. Barnett. No permanently serious injuries were sustained, however, and no blame was attached to the driver.

NEW SHORE LINE TRAIN.

Will Give Sunday Morning Service Regularly. There will be a new Sunday morning train added to the Shore Line division beginning to-morrow. It will leave New Haven at 8:32 a. m., going as far as New London and making stops at all stations, reaching New London at 10:40 a. m. Returning the train will leave New Haven at 11:15 a. m. and will make stops at all stations, reaching New Haven at 8:25 p. m.

This is the regular Sunday train added for the summer months, and it will continue to make these trips until September 20.

Financial.

YESTERDAY'S STOCK MARKET.

Bears Have Field Day—A Final Rally. New York, June 5.—The bears had a field day on the stock exchange to-day and sold stocks with such enthusiasm that they found themselves somewhat over-taxed towards the close and had a scramble to get back stocks to cover their short sales. The final rally made clear that professional raiding tactics played an important part in the day's declines. But the unsettled state of feeling among securities holders was clearly evident from the success of the raiders in dislodging long stock. Part of the heavy liquidation during the day was forced by extensive calling of loans. The forecast of the bank statement gave a plausible reason for this contraction of credits in the decline in cash resources for the week. The calling of loans, according to these views, was for account of one of the powerful financial groups with the purpose of forcing down prices and thus affording an opportunity to buy in at an advantage.

Stocks in which this financial group is the dominant power have been among those most severely handled in the late collapse. A story that heavy holdings of Amalgamated Copper had been taken over from a conspicuous Boston operator at a level below the market was said to be an additional reason for the change to the buying side of the market by the capitalists referred to. Amalgamated Copper, after clipping another point from its low record this morning, did become aggressively strong in the afternoon, rising 2 points over last night. Pennsylvania also after lowering its record for this movement by a small fraction developed support that became rather steady, although very active around last night's level. The bank effect upon sentiment of the recent large selling in this stock was still perceptible to-day. Fears for the crops obviously played a part also in the day's heaviest declines which were among the cotton and corn growers. The southwestern cotton carriers were especially affected and Aitchison and Union Pacific touched a new low record for the movement. The late rally resulted in the recovery of a substantial portion of the early losses and some of the principal active stocks on the list closed a fraction higher.

With a loss to the sub-treasury by the bonds, principally on account of gold exports, of \$7,140,000 and estimates of a net receipt on the interior movement of only about \$4,000,000, a considerable impairment of the treasury surplus of the banks is indicated. Sterling exchange was lower and loan bills were reported to be freely offered in that market. Bonds were weak. Total sales par value \$2,750,000.

United States old 4s and 2s advanced 1/4 per cent, and the 2s 1/2 per cent, on the last call.
