CANAL TREATY IS RATIFIED

SENATE OVERWHELMINGLY FOR THE MEASURE.

Vote 66 to 14-Fourteen Democrats Vote for the Bill and Fourteen Against It-Action Taken Much Earlier Than Expected-Final Debate Mostly on Merits will be signed shortly.

States senate to-day ratified without amendment the treaty with Panama for a canal across the isthmus of Panama by a vote of 66 to 14. The result was a egone conclusion, the interest in the matter being only in the division of the vote on the democratic side, which was not known definitely until the roll was called, all the republicans being for rat-

Fourteen democrats voted for ratifica tion and fourteen against. Two democrats. Clark of Montana and Stone of Missourl, were paired in favor of the treaty, and three democrats, Overman, McLaurin and Martin were paired against it, so in the total vote sixteen democrats were for the treaty and seventeen against it. The démocrats who were present and voted for the treaty Bacon, Berry, Clark of Arkansas, Clay, Cockrell, Poster of Louisiana, Gibson, Latimer, McCreary, McEnery, Mallory, Money, Simmons and Tallafer-

The only other vote was on the amendment offered by Senator Bacon, providing for an arrangement to com-pensate Colombia for loss of the territory of Panama. This was rejected by a vote of 24 to 49. It was a party vote on the affirmative side and also on the negative side, with the exception of Mr. Gibson and Mr. McEnery, democrats, who voted with the republicans.

Four democrats were absent when this vote was taken, and no pairs were mounced for them. Some republicans also were absent on this vote.

Senators generally commend the management of the treaty by Senator Cullom, chairman of the committee on foreign relations, who has had charge of the measure during both the plain and stormy sailing. The vote was taken much earlier than was anticipated at first, when its opponents were vigorously trying to secure enough votes to prevent ratification.

The debate in executive session was nerally on the merits of the treaty. with reference to the secret papers, which were sent to the senate by the speech which occupied the greater part of the time. Senator Culberson made ents on the secret corresp and asserted that it showed that the "reasonable time" referred to in the ooner act was known to have expired, both for negotiaing the Hay-Herran treaty and its ratification. Senator Culrson also read from a letter addressed to Albert Shaw by the president dated October 10, 1903, in which the president said he saw no hope for any negotiation with Colombia and that he would be delighted should a revolution occur on the

The baron told his hearers that he had Washington, Feb. 23.—The United news which showed that under the instructions of President Roosevelt, the state department at Washington was engaged in studying an arbitration treaty with France. He said that three important steps taken recently in the interests of international arbitration were due to the initiative of President Roosevelt. These were, first, the submission of the Plous fund case to The Hague arbitration tribunal; second, the ference of Venezuelan questions to that tribunal, and now, an arbitration treaty with France. President Roose veit deserved great credit, he said, for what he had done for the cause of arbitration and the advancement of civi-lization. AGAINST "ALD ADAMS.

"Policy King" Must Serve Out His Sentence.

Washington, Feb. 22.-The supreme ourt of the United States to-day decided the case of Al Adams, the so-called "policy king" of New York, now undergoing sentence at Sing Sing prison, against him, the opinion being by Justice Day.

Justice Day said: "We think there was no unlawful search of seizure or ompelling of this man to testify against himsels in the giving in evidence of what the police officer found in executing the search warrant for the policy tickets."

Justice Day took up the contention set forth in the petition that the statute was unconstitutional because it made these tickets when found in the possession of a man prima facia evidence against him, the claim being made that they might be given to a blind man or an innocent man. In giving his concluons on this subject, Justice Day said:

"We think the possession of these tickets may well be prima facia evihim full right and opportunity to show how he came into possession of them. and in any event it is within the power of the state in cases of this character to say what shall be prima facie evidence in its courts. We find no error in the judgment of the court of appeals of New York, and the same is affirmed."

Disnatch That Some Men Have Been Landed in Vicinity of Port Arthur-Be ween Harbin and Viadivostak-Intermittent Bombardment of Port

London, Feb. 24.-Cabling from Che Foo on February 23, a correspondent of the Morning Post says that forty thousand more Japanese troops have landed at Chemulpo, and that he has reselved confirmation of the report that ome Japanese have landed at Pigeon Bay, others at Tallenwan, and that an engagement occurred on the night of February 12.

The Seoul correspondent of the Daily Mail reports a panic at Ping Yang, Corea, which is regarded as heralding he approach of the opposing armies. According to the Standard corresponient at Seoul, the Japanese bombarded Port Arthur at intervals between the ighth and the fourteenth of February nflicting, however, but slight injuries.

The report is confirmed, this correpondent continues, that seventy miles of railroad track and some important orldges have been destroyed between Harbin and Vladivostok.

If the later report is true, it would e a great advantage to the Japanese, as Vladivostok is known to be very badly supplied, and it therefore could not long resist a Japanese attack There is still, however, no news of acual operations of any kind.

Special despatches from St. Petersourg give various sensational reports of a political nature. St. Petersburg, Feb. 23.-"The war will end in August or September in the complete defeat of the Japanese," the Associated Press correspondent was told to-day by a high authority, in intimate touch with the Russian war plans, whose opinion can be taken faithfully to reflect the belief in the highest official quarters here. He added:

"How the Japanese can hope to suc ceed when our army in the east is strengthened to a point equal or superior in numbers to that of our adversaprehend. It will not be difficult to place two, four or even six hundred thousand When our forces are concentrated and ready, they will finish by driving the Japanese into the sea. FOREIGN MINISTER LAMSDORFF ISSUES NOTE.

Japan Assatted for Violating the Neutraitty Proclaimed by Corea-Landed Troops in Disregard of All Conventions-Emperor Warned That the Country Would Henceforth be Under Japanese Administration.

St. Petersburg, Feb. 3 .- Foreign Minster Lamsdorff yesterday sent the following circular to Russian representaives abroad:

"Since the rupture of the negotiations between Russia and Japan the attitude of the Tokio cabinet has constituted open violation of all customary laws governing the mutual relations of civiparticular violation of these laws on he part of Japan, the imperial government considers it necessary to draw the most serious attention of the powetrs to the acts of violence committed by the Japanese government with respect to lorea. The independence and integrity of Corea, as a fully independent empire has been fully recognized by all the powers, and the inviolability of this fundamental principle was confirmed by article 1 of the Simoneseki treaty, and for this purpose between Japan and Creat Britain on January 30, 1903, as well as by the Franco-Russian declara-

Jeletz, a military expert, who is consequently of increased value, predicts that the Japanese will make their base of operations along the line between Ping Yang and Won San, Corea, relying upon protection from their fleet and promises a lively debate to-morrow against a flank attack. The Japanese trmy will, from this line, have to march 200 miles over mountainous country to the Yale river, where they will find the Russians strongly entrenched. If they succeed in forcing this line back they will find another strong Russian line extending from the Yalu to Mukden. They may then divide their forces, using one half to hold the Russians in check while the other half goes south to besiege Port Arthur; in this event the Japanes will be liable to a flank attack by the

northern Russian forces from Kirin. "The appointment of Admiral Makaroff to command the Russian Pacifiq fleet has been published in the Gazette. "A Russian correspondent of The Associated Press at Port Arthur telegraphs that the appointment of Gen-

AGAINST PREE PASSENGER.

Road Not Liable for Life of Person Riding on Pars.

Washington, Feb. 23.-The question as to whether a passenger on a rallroad train, riding on a free pass who loses his life on account of an act of carepassenger who pays his fare to-day was decided by the United States supreme court against the free passenger. The case in which the opinion was renand Frank H. Adams, heirs of Jay H. Adams, an attorney of Spokane, Wash.,

Mr. Adams was riding on a pass court for the district of the state of Washington awarded damages to the extent of \$14,000 and the circuit court of appeals for that ninth circuit affirmed this judgment.

The opinion of the supreme court which was handed down by Justic Brewer, reversed the lower courts. The supreme court held that there could be no higher measure of duty to the heir than to Adams himself and that there is nothing in public policy to preven a contract between a common carrie and a free passenger exempting the carrier from Hability in case of accident. The company, it said, walved its ams. He was not in the powers of the company and obliged to accept its terms. BECK-ADLER WINE COMPANY Organized in This City Yesterday-Will

Control Syndicate of Stores.
Articles of incorporation were signed in this city yesterday by Joseph Adler. formerly president of the Adler Wine company, and M. J. Beck, of the firm of M. J. Beck & Co. These two men have now formed a firm which is to be known as the Beck-Adler Wine and

Liquor company, and they propose not only to run a number of stores in various parts of this city, but also in various parts of the state. Mr. Beck, who is one of the most suc ssful men in the state in his line of business, recently withdrew as president of the M. J. Beck company and intended to retire from business, but as

under the new arrangement he has partner as Mr. Adler he has determined to continue. Mr. Adler has also been most success ful in his business, and in addition to the two stores which he now runs at 401

and 467 State street he has a number more about the city. All the stores now owned by these two men will become a part of the in-

corporation, and a number of others

Messrs. Beck and Adler are well known and popular, being members of a number of lodges and other organizations in this city.

LIBRARY COMMITTEE REPORTS,

Many New Books Added During the Past Year and More Room Urgently Needed.

The library committee submitted their annual report to Mayor Studley late yesterday afternoon. The principal item in the report is the statement that there is an urgent need for more room in the library building.

The finance committee, through Chairman Hiller, states that the num ber of books purchased during the last year amounts to 6,253 volumes. Seven hundred and forty books have been received as gifts, which makes a total of 7,367 volumes added to the library during the year 1903.

owing the year 1903.

Owing to wear 1,814 volumes have been discarded. Forty books have been lost and paid for. This makes the total loss of books for the year, 1,854.

The city appropriated for the support and maintenance of the library, for the last year, \$19,000. The amount received from the Maratt fund for new

ceived from the Marett fund for new books was \$5,341.94. This made the total sum available for the past year \$22,341.94. The total amount expended for books was \$5,421.

The amount of fines received for keep-ing books out over time amounted, during the year, to \$1,080.24.

The board of directors call special attention in the report to the overcrowded terbury to band together and form a condition of the library building and church. For some time past there has they further state that they hope that

TIMELY CALLING How the Pastor Saved a Life.

A man near Fort Gay, W. Va., made an entire failure in getting strength from the kind of food he ate, and not nowing that the trouble was with the food kept on losing health until the doctors gave him up to die.

It was supposed to be consumption, cause he was wasting away steadily, and slowly dying. His minister called from time to time, and one day brought along a package of Grape-Nuts, thinking from what he knew of the famous food that perhaps it might help him. The sick man took to it at once and from that day began to get well. In writing he says:

"I have walked to town to-day, three miles. Have gained over forty pounds in about two months, and my neighbor don't know what to say. I frequently am told it was as if I am raised from the dead. Everybody here knows of my case, you can tell people to write to the postmaster or Rev. L. D. Bryan. I will make a sworn statement that Grape-Nuts saved my life." Name given by Postum Co., Battle Creek, Mich.

This is another illustration that where all other food fails one can be brought back to health and strength on Grape-

Nuts. "There's a reason."

Look in each package for the famous little book, "The Road to Wellville."

THE WINDERMERE FORECLOS-

It is expected that the Windermere mill property in Rockville will be sold again as a result of the foreclosure pro-ceedings instituted by the International Trust company of Boston. This company is the trustee of the bondholders. The bonds issued amounted to one hundred thousand dollars, and a mortgage was given on the entire property to secure the bonds. J. Henry Grant, of New York, is the largest bondholder, having over fifty thousand dollars of these bonds, which cost him about for-ty thousand dollars. This money was actually put into the property within a few years in improving it, and in an effort to start the manufacture of ename paper there. His brother was the president of the company, and the mill had just been started up, when the death of President Grant occurred, about Christmas. Since that time no effort has been made to operate the mill. The mill property is located in the town of Elington, but on the outskirts of this city. It has had a strange history, and has been operated by a great many differ-ent companies but in the past twenty years has not been successful. It has been the subject of a great amount of litigation, and thousands of dollars have been expended in this manner over the mill. Rockville attorneys and officers have derived a good income out of the mill in part years. The mill was owned for some years by Jordan, Marsh & Co.,

FROGS WANTED IN NEW YORK. The live frogs which were found in-side the loon shot by Mitchel Laramle, a Willimantic hunter and trapper, are to be sent by Dr. T. M. Hills to the aquarium at Castle Garden, New York, the doctor having kept the aquarium supplied with Windham frogs for number of years past. The loon has been stuffed and set up by Mr. Laramie, and is on exhibition. The bird is rare in this section, although at South Willington a few days ago Leslie Korper found one which appeared to be disabled, and which he took home. The bird was put in a warm place, but died during the night.

Waterbury, Feb. 23.—The next term of the criminal side of the Litchfield County Superior court will come in at New Milford on April 5. The next chapter in the now famous Watertown embezzlement affair will probably be issued at that time. The case of the State of Connecrticut vs. Burton H. Mattoon, charged with embezziement and false entry, is slated to come up at that term of the court.

It was for alleged misappropriation of funds belonging to the Watertown Savings bank, of which he was treasurer, and making false entries in the bank's books that Mr. Mattoon was haled before the Litchfield County Superior Court at Winsted on a bench warrant. He was released upon bonds furnished by his son-in-law. He has retained Attorney E. F. Cole of this city to defend him against these charges, while his life long friend, State Attorney Donald T. Warner, of Sallsbury, must prose-

cute the case. The new officials of the Watertown Savings bank have been busy since January 20 in examining the books of the bank. According to these officials they have found a number of clerical errors on the books, the largest amount being one of twenty dollars. In this case a depositor brought in a bank book upon which he claimed he had not been credited with twenty dollars which he had deposited in the institution. A imber of other errors of a similar na ture were also found, but the directors do not believe that any of these intentional on the part of Mr. Mattoon. The civil suits brought by the Water town Savings bank against Mr. Mat-

toon and his bondsmen and against the town of Watertown are still pending in the district court. It is expected, however, that either one side or the other will soon ask for a nominal judgment n this court and transfer them to the Superior court. Perhaps the suit against Mr. Mattoon and his bondsmen will not go to the Superior court, but it is pretty safe guessing that the suit between the bank and the town will be thrashed out in the higher court.

Upon the outcome of this latter suit depends the solution of the question as to whether or not Mr. Mattoon as town treasurer embezzled funds of the town to the amount of twenty-three thousand dollars. The bank claims that the town is liable for some fourteen thousand dollars in paper held by it, which paper was contracted by Mr. Mattoon as town treasurer. The town holds that it never authorized its treasurer to borrow the sum, therefore it cannot be held liable. As the dates of these papers range over a period of ten years a nice batch of evidence is likely to be brought into court on the trial.

In the meantime the selectmen of the town of Watertown have caused Mr. Mattoon to practically turn over his official powers to them. He has been shorn of his office in the bank. Mr. Mattoon now occupies a small office in the Pythian Hall building and carries on his real estate business. It is estimated by lawyers that it will cost Mr. Mattoon some seven or eight thousand dollars in attorney's fees to free himself of the charges now pending against

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound.

"Dear Mrs. Pineham: — I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months.

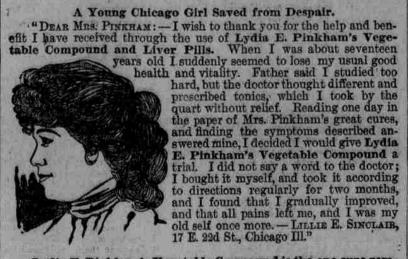

"I recommend it to all young women who suffer from female weakness." — Miss Alma Pratt, Holly, Mich.

FREE MEDICAL ADVICE TO YOUNG GIRLS. All young girls at this period of life are earnestly invited to write Mrs. Pinkham for advice; she has guided in a motherly way hundreds of young women; her advice is freely and cheerfully given, and her address is Lynn, Mass.

Judging from the letters she is receiving from so many young girls Mrs. Pinkham believes that our girls are often pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries.

Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality,—often it is never recovered.

A Young Chicago Girl Saved from Despair.

Lydia E. Pinkham's Vegetable Compound is the one sure remedy to be relied upon at this important period in a young girl's life; with it she can go through with courage and safety the work she must accomplish, and fortify her physical well being so that her future life may be insured against sickness and suffering.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

Before long the rules governing the bestowal of the Victoria Cross will be sitered. It has long been felt in England that the cross should be awarded not so much for an act of bravery in saving an individual life as for an act of bravery benefiting the nation, or the particular fighting section of it to which the individual belongs. The amendment of the rules will be based on this wider interpretation of an act of brav-

A curious feature connected with the Servian army is the manner in which most of the regiments carry the big drum. It is not, as in most countries, slung in front of the man who plays it, but is placed upon a small two-wheeled cart drawn by a single dog, which has been so trained that it keeps its place even through the longest and most tedious of marches. The drummer takes up a position behind the cart and performs on the instrument as the animal he said: "Standing here and looking pulls it along.

This is done even on checks of small or large amount. As such a signature is not legal, Mr. Atkinson renders it so by attesting it according to the Bertillon system. He inks the ball of his thumb on a pad and leaves the imprint on the check, as much as to say: "Edward Atkinson, his thumb." Bank cashiers in Boston and elsewhere have become familiar with the hair lines of the Atkinsonian thumb and a piece of paper bearing it is as good as legal tender.

twenty-five per cent, of the cattle perish on an average, though individual ranches occasionally report a heavier mortality. But it may be safely assumed that those animals which survive endure nearly or quite as much as those which do not. Mr. Whitehead declares that 40,000,000 head of neat cattle go through such an experience every year, and to these figures there should be an addition for the sheep that are subjected to a similar ordeal.

NOT EXACTLY PURIFYING.

That is a painful story which comes from Colorado, and makes it appear that some women are no better than some men. It has been a plausible and pleasing theory that If women could only vote their voting would be pure and help to purify the voting of men-But the facts brought out by the Shafroth testimony before the congressional voters. Glowing accounts of the splendid results achieved by woman suffrage in Colorado have been frequently given by officials of that State. governor has given his testimony, and it has been freely circulated by those who champion the cause. Congressman Shafroth himself has paid a glowing tribute to the benign influence of women in promoting honest elections, although it is thought that his opinions the recent developments in his own case. But from the evidence adduced come between the new moon and the it appears that this "benign influence" has been vastly overrated. In the Shafroth election the votes of women were freely purchased by his overzealous friends at one dollar a head. Women repeaters were also numerous, and in ballot-box stuffing women proved themselves adept. Seldom has there been told a story of election frauds so flagrant as those practiced by the wo-

> men of Denver. It is said that women of "the lower classes" were largely responsible for these frauds. Quite likely, but it is painful to discover that women of the lower classes can be as bad politically as men of the lower classes.

That piece of territorial expansion was in Mr. Seward's mind as early as 1860. In a speech at St. Paul off into the northwest I see the Russian as he busily occupies himself in establishing seaports and towns and fortifications on the verge of the continent as the outposts of St. Petersburg, and I can say-Go on and build up your outposts all along the coast, up even to the Arctic Ocean. They will yet become outposts of my own country, monuments of the civilization of the United States in the northwest." When he broached the matter seven years later, Russia was found quite difficulty in agreeing upon the price. The evening of March 29 he was at home, playing whist. Mr. Stoeckel rang the doorbell. "I have a dispatch by cable," he said. "The Emperor gives his consent to the cession. To-morrow, if you like, I will come to the department and we can enter upon the treaty." "Why wait?" asked Mr. Seward. "Let's make the treaty to-night." So said, so done. The Russian minister rounded up his legation staff, the secretary of state got the working force of the department together, and the treaty of cession was engrossed and signed before daybreak.

RUSSELL AND MRS. MAY-

But on two occasions or which I heard him speak of the trial with considerable freedom he became Lord Chief Justice of England he certain did not lay stress on her innoleased and pardoned-for he was always as strong on the point of a free pardon as of release. His main point was that Mr. Justice Stephen so conducted the trial as to lead to a miscarriage of justice, or rather to a mistrial. Had there been an appeal in oriminal cases this would have been set right. As there was not, he used all his weight with the Home Office to put the wrong right in the clumsy and unsatisfactory way

The Exquisite

Wash Dress Goods for 1904

The FRENCH ORGANDIES were the latest to come. The handsomest among them are flowered. They're for all the world in effect like the very expensive hand-painted gauze fabries so much in vogue now for evening gowns and positively the rage at the fashionable winter resorts. 39c and 50c Yard

FRENCH SATEENS look more like foulard sliks than ever. Chiefly black and blue grounds figured and such pretty patterns as the weavers have sent us. Octs a Yard

Smart women who love tailor gowns go fairly wild over the WASH SUITINGS. Some of them are woven to imitate the new Mohairs with their dark cross threads.

Then there are the LINEN SUITINGS-they're even more strikingly like the wool tailor gown stuffs than the cottons. Such cunning weaves and such colorings—beautiful in their delicacy beyond belief. 29c to 79c a Yard

At 1256cts a yard you'll find simply an inexhaustable showing of crisp new Batistes, Ginghams, Duck Suitings and Percales. Buy them now if you can, for the patterns are never so pretty and so many.

A sale of French Flannel Walsting Remnants in lengths suitable for shirtwaisis, children's dresses, kimonas and the ike, worth 69c, 75c and 98c a yard for 39cts a Yard

THE JOHN T. SLOAN CO.,
New Haven, Conn.
Gentlemen:
Before we were fully informed respecting the extent of our losses in the recent conflagration at Baltimore, we gave instructions to our Branch Manager to pay all losses, without discount, as fast as settlements were made.
We also pisced within his discretion to make advance payments upon claims in process of adjustment, this being our usual course in cases of conflagration.
We are happy to say that after a personal review of the scane of the conflagration, we estimate our losses to be comfortably under \$300,000.
You may also be interested in the fact that to meet these losses, it will not be necessary for us to disturb any investment of the company, either here or abroad, our current fonds being entirely sufficient for our needs.

YOUNG IOWA STUDENT'S TERRI-BLE FALL.

His Dead Hody Found by Two Divinity School Students-Fell Over 100 Feet-Action To-day by Classmates

Robert J. Rich, of Fort Dodge, Iowa, a sophomore in the academic department at Yale, was found dead at noon yesterday on a ledge about one hundred feet below the summit of West Rock. According to the medical examiner. Rich probably fell off the Rock early yesterday morning, as there was nothing to indicate that he had committed suicide. He had been dead but a few hours when found by George E. Porter and Wilfred A. Rowell, Yale Divinity of his parents, Mr. and Mrs. Wayne England Dairy Co. school students, who while walking up Burnes. the path to the summit of the Rock saw the body lying on the ledge, which was located on the Westville side of the

WALLINGFORD.

Word was received yesterday morn-ing of the death of Colonel Dwight Hall Monday night at the home of his daughter, Mrs. W. H. Barbour, in Brookiyn. He was in his ninetieth year. The body will be brought here this afternoon on the 3:22 train for burial in the "In Memoriam" cemetery. Colonel Hall, with the late Judge Augustus Hall, repthe year 1858. For several years he conducted the Washington hotel on Center street, which was destroyed by fire in 1872. He was at one time colonel of four companies of state cavalry when he was a young man and thereby got his title of colonel. He leaves one daughter, Mrs. W. H. Lamb has shown indicated that more men are needed. himself to be a master of melodramatic By the new arrangement more companies will got to all fires, especially one of the most novel, sensational and thrilling plays ever written, when it is

succeeded in introducing many of those little side scenes which are quainfly humorous as studies of character, and which at the same time bear a direct relation to the main theme and plot of the drama. For instance, in the first act there is a scene in which a genuine hayseed, a New York tough girl, a facetious tramp and the tough girl's lover are interested. The old gentleman is from the country, and he falls into the clutches of the girl at a typical New York concert hall. How he is drugged and robbed and the relations which the tramp and the parasite bear to the affair are most graphically teld by the dramatist, the whole act being funny as well as seriously dramatic. Matines Saturday.

Poll's Theater.

Madam Herrman, whose gorgeous act is already attracting packed houses to this theater, has established herself as a genuine favorite in the vaudeville line in this city. Her finished exhibition is given by presenting the most wonderful feats of magic and closing with her il-tusion, "Dream in Mid-Air," which has been pronounced the most wonderful of all Illusions.

The rest of the bill is in keeping with the grand features. Hoey and Lee are good as the Hebrew entertainers, and Hal Godfrey and company in a delightful bit of sketch, "A Very Bad Boy," come in for a good share of the ap-

Here Are The New Shirt Waist Suits.

More and more popular every year; increasing with each season their variety in style and material; this year they have reached a pinnacle of perfection that gives no apparent chance for further im-

We do not see how these suits that we have selected to represent their kind in our School of Style can be any better.

They are made from lawn, linen, madras, China silk, taffeta and Louisine. They have a "set" to their waists and a swing and hang to their skirts that we don't think you can find in many ready-towear garments which sell at such moderate prices. That is because we have most of the garments made up especially for us, to our own patterns and specifications.

In character of material, too, and in the variety of choice given, we believe that this assortment is without a close competitor in this city. There are more kinds, more styles and better garments in all styles than in any collection we have ever seen here.

Not the least important thing is the prices. They run \$4 to \$25.

but the value at each price is the best we have ever been able to give in this line of goods. -
