### SEVENTEEN ARE KILLED AND FIFTY INJURED

REGULAR TRAIN CRASHES INTO AN EXCURSION.

Midvale, N. J., the Scene of Shocking Wreek on the Eric Road-General Manager Declares Operator in Tower Failed to Set Block Signal Agalust the Regular When Excursion Train

New York, July 10 .- Seventeen persons were killed and about fifty were injured in a collision which occurred at Midvale, N. J., just before noon to-day, when a regular passenger train on the Greenwood Lake branch of the Erie railroad ran into an excursion train that had stopped to take water. All of the dead and injured live in Hoboken, Jersey City and New York. The accident is believed to have resulted from a tower operator having lowered his signal too soon, and this was admitted by D. W. Cooke, general passenger agent of the Erie railroad, who gave out a statement in which he said: "The operator in the tower failed to set the lock signal against the train follow-

The train which was run into was a Plattdeutscher association of Hoboken on their annual outing, and had 800

The train consisted of twelve cars and two engines. The first engine had taken water and the train had moved up and stopped with the second engine be side the tank, when the regular train drew near. The flagman of the special signalled the engineer of the on-coming train but owing to the curve in the road his flag was not seen until too late. It is claimed that the engineer of the regular train had slowed down to about ten miles an hour before he crashed into the special, but his engine tore through the rear car the greater part of its length and drove the forward end of that car into the car ahead. The killed and injured were in these two cars.

Fortunately the wreckage did not catch fire and the work of taking out the dead and maimed was accomplished

The passengers from the uninjured coaches ran back and joined in the work, and the residents of Midvale, many of whom had heard the crash, assisted them.

The seventeen dead were soon laid beside the track and the injured were carried to the near-by houses, all of which were thrown open to them.

While physicians were being sent for women of Midvale brought bandages and other articles that could be used in caring for the intured.

An engine and cars were sent from Little Falls to the scene of the wreck and as rapidly as possible the most seriously hurt were prepared for transportation by train to Little Falls and thence to Jersey City or Hoboken. The less severely hurt were continued under treatment in Midvale until later in

All those hurt were eventually taken either to their homes or to hospitals. As quickly as possible the officials of the road induced all who had no friend or relative killed or injured to board the first train and proceed to Greenwood Lake. Those who did not care for the trip to the lake after witnessing the scenes in the two wrecked coaches were provided later with return trans-The engineer and firemen of the reg-

ular train disappeared from the scene just after the accident. They both escaped injury by jumping just before the

In the forward of the special train the shock of the collision was only slightly felt, and many of the passengers did not know for some time that an accident had occurred.

County Physician McBride took charge of the bodies and transferred them to Little Falls. There Assistant Prosecutor Ralph Shaw of Passalc county tendered the use of a building as a morgue. This was accepted as it saved the inconvenience of transferring the bodles to Paterson.

The work of clearing away the wreck and raising the blockade on the road was not accomplished until after 4 o'clock this afternoon.

The operator in the tower was Walter Richards. He would make no statement and was relieved and left the scene soon after the accident.

A great crowd remained at the scene all afternoon, many of whom were passengers who were seeking information regarding relatives and friends

who were on the train. During the excitement immediately after the accident a woman gave birth to a child in one of the cars, after she had learned that her husband and one

POWERFUL GERMAN FLEET.

Arrives at Plymouth, Eng.-Superior British Fleets Says One Expert.

Plymouth, England, July 10 .- Thousands of persons witnessed the arrival at Plymouth to-day of the most powerful German fleetever seen in Great Britain. Eight battleships and seven cruisers steamed into the naval base on a visit of courtesy amidst deafening saspecial carrying members of the First lutes, and the British and German adwill be kept up until July 13, when the

Germans will depart. Owing to a wish expressed to King Edward the Germans will receive no ermal welcome and the ceremonies will be confined to naval honors and to an informal luncheon by the mayor of Plymouth.

The arrival of the German squadron at Plymouth has created an excellent impression here. The Dally Mail's naval expert, who is one of the best speclalists in his line in engineering, says the squadron is "incontestably superior in fighting qualities to the British home

or Channel fleets as now constituted." The visit creates no little adverse edtorial comment, its object being held declares, is only explained by the anxiety of the German officers to see a mobilization of the British fleet, which is now preparing for the maneuvers.

of a new by-law to the rules of the Christian Science church was announced to-day. The by-law was promulgated at the request of Mrs. Mary Baker G. Eddy, the founder of the denomination, who has been subjected to considerable annoyance by crowds of Christian Scientists who await the passing of her carriage. The by-law is section 15 of article 22,

and is headed "Thou shalt not Steal. The text follows: "Neither a Christian scientist, his student or his patient, not a member of the Mother church shall daily and continuously haunt Mrs. Eddy's drive by meeting her once or more every day when she goes out, on penalty of being disciplined and dealt with justly by her church. Mrs. Eddy objects to said intrusion, inasmuch as she desires one house for herself. And she, who, for forty years, has 'borne the burden and heat of the day' should be allowed this. The only exception to this has the privilege of seeing others and led sine die. of being seen."

afternoon to nominate a vice presidential candidate and close up its business everything indicated prompt action and an early adjournment. When the convention was called to order, however, it was decided by the leaders to take a recess until the leaders could agree on a vice presidential candidate. There was some opposition to this plan among the delegates but at 3:20 p. m. Chairman Clark declared a recess until 5:20

When the convention re-convened at 5:20 everything indicated a prompt finmirals exchanged visits. The courtesies | ish and early adjournment. Then followed the episode of the Parker telegram and the long debate which resulted in the conciliatory reply to Judge Parker.

The reading of Judge Parker's message created a profound sensation and caused many bitter remarks especially mong the southern contingent who declared that if he did not like the platform he should decline the nomination outright. Some even went so far as to say he should be kicked out. With the delegates in an uproar an adjournment was finally brought about by the leaders who went into secret conference to see what could be done.

Judge Parker's telegram was address ed to Hon. William F. Sheehan, one of to be a mystery which, the Daily Mail the New York delegates, and as read before the convention was as follows:

I regard the gold standard as firmly and irrevocably established and shall act accordingly if the action of the convention to-day shall be ratified by the people. As the platform is silent on the subject my views should be made known to the convention, and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once so that another may be nominated before adjournment. Signed: A. B. Parker. While the delegates were informally discussing the telegram, which had dropped among them like a bomb, the leaders were discussing the matter quietly, and finally adopted a statement which was to be sent to Judge Parker in the form of a telegram, The statement was adopted by the convention when it reconvened and is as fol-

The platform adopted by this convention is silent on the question of the monetary standard, because it is not regarded by us as a possible issue in this campaign, and only campaign issues were mentioned in the platform. Therefore, there is nothing in the views expressed by you in the telegram just received which would prejudice a man entertailing them from accepting a nomination on said platform.

After the dispute about the Parker telegram had been disposed of, it took only a short time to nominate Senator Henry G. Davis, of West Virginia, for vice president, At 1:31 Chairman by-laws is on public occasions when she | Clark declared the convention adjourn-

> The tired delegates left the hall as quickly as possible and sought long delayed and much needed rest. Very few of them left the city on the early morning trains. The unflagging interest that had spurred them through the long hours of the convention permitted the majority of the delegates to secure only little sleep after its final adjournment and the hotel corridors were crowded with groups of heavy-eyed, politicians. The events of the last four days formed the chief topic of conversation generally. All who had sat through weary sessions declared to-day that the convention just closed was one of the greatest assemblages in the political history of the country, and from the standpoint of physical endurance certainly one of the most exhausting. Most of the delegates sought to secure some recreation, and street cars to suburban amusement parks were crowded during the late hours of the day.

HOW MESSAGE WAS SENT.

Carried to Office by Parker's Conchman -Leaders Skeptical.

Esopus, N. Y., July 10,-Judge Parker to-night sent the following telegram of congratulation to Henry G. Davis, who was nominated at St. Louis for the vice presidency:

Esopus, July 10, 1904. 'Hon, Henry G. Davis, Elkins, W. Va.: "I congratulate both you and the party upon your nomination for the office of vice president.

Signed: "Alton B. Parker." Judge Parker has not yet received the telegram which the St. Louis convention last night voted should be sent him in reply to his dispatch addressed to William F. Sheehan, in which he declared his allegiance to the gold stand-

It is now known that Judge Parker's telegram to Mr. Sheehan was sent from the Western Union Telegraph office at Egopus, and the story of the precautions taken, both to keep it secret and to verify its authenticity before it was delivered, constitute a remarkable chapter in the story of this extraordi-

nary political incident. Judge Parker's coachman, Robinson,

took the original message to the West Shore station at Esopus at 11:30 yesterday and delivered it to the Western Union operator there with impressive caution as to secrecy. Very soon after it had been sent the superintendent of the Western Union company in New York, called up the Eospus operator and required him to personally verify the original telegram by a visit to Judge Parker himself. The delivery of the message in St. Louis, it appears, was being delayed until the authentici--E-Sen. Henry G. Davis, of Virginia, ty of the dispatch could be proved be yond question. TAGGART FOR CHAIRMAN.

When the convention met Saturday Endorsed by Democratic National Committee but Not Elected.

St. Louis, July 10,-The democratic national committee in its new make-up met at 2:30 this afternoon and again at o'clock this afternoon with the avowed intention on behalf of the supporters of Taggart of Indiana of organizing by electing him chairman. It was pointed out by Norman E. Mack of New York, that it would be discourteous to take any action until Mr. Parker, as the candidate, was consulted.

The Taggart men, while not having enough to elect, still suggested that David B. Hill, William F. Sheehan and August Belmont, the candidate's friends were still here and adopted a resolution that they be invited to meet the committee this afternoon. At the afternoon session Chairman Jones of the old comaction would be unprecedented and in fact filegal. It was also stated that at a late hour the convention adopted a resolution authorizing Mr. Jones to call the new committee together in New York city at such time as he might sug-

Senator Hill and Mr. Sheehan left for New York at noon and could not, therefore, attend the meeting.

After nearly two hours' debate Senafor Bailey offered to compromise if the committee would adopt a resolution endorsing the candidacy of Thomas Taggart for chairman of the committee. Mr. Mack agreed to this and the resolution was adopted. The committee will therefore meet in New York on the call of Chairman Jones.

LOOKS LIKE DESERTION.

Irving Blakeslee, of 40 Second street, Oyster Point, who disappeared and was reported to the police as missing about two weeks ago, has not returned, neither have the police been able to learn anything as to his whereabouts, although every effort has been made to find him.

Blakeslee has been employed in the needle shop in Westvills, and when last seen wore a dark gray suit, derby hat and black shoes, He had steady employment and was of temperate habits, and at first his friends were of the opinion that he was either the victim of foul play or an accident, but since his prolonged absence it has been learned that he drew his salary and settled up several business matters before leav-

Saturday evening Mrs. Blakeslee stated that she now had every reason to believe that his absence was intentional and in no wise enforced, and she therefore had but little hope of his return. The missing man is thirty-six

HEUBLEIN CAFE OWNERSHIP.

It was reported Saturday that the wnership of the Heublein cafe at 151 Church street, which is so well known to college men and city officials, was to pass from the hands of the J. W. Niederpruem company, incorporated, to the Harvard Brewing company, which is one of the largest creditors of the

concern. "Heublein's" has been a landmark in New Haven for many years. The death of Manager Niederpruem some months since was a blow to the concern, which was originally started here by the Heubleins of Hartford. George White, now of the Tontine hotel, was the first manager of the property here.

Saturday afternoon Mrs. Niederoruem, widow of the late proprietor of the place, arranged to hands its affairs, and the ownership of the concern will consequently still remain in this

### DAY HEARINGS NOW.

CITIZENS' COMMISSION TO EXPE-DITE INVESTIGATION.

ession to Commence This Morning at tunity to Present It.

As announced by Chairman Harrison at the public hearing in the police investigation Friday evening, an innovafirst day session of the citizens' com- a hit last year has again been engaged, mission will be held-9 a. m. being the and a special programme of music will hour appointed for the opening of the proceedings in the aldermanic chamber. Owing to the occupancy of the chamber by the medical examining board on Tuesday and Wednesday, day sessions will be abandoned on those days, but whether or not night sessions will be held on those occasions could not be learned last evening.

According to Dean Rogers, it is not the purpose of the commission to hold day sessions excusively, the members feeling that such actions might debar some citizens who are unable to leave their business, and who might shed some light on the subject in hand. For this reason evening sessions are also scheduled, although the dates have not yet been decided upon.

"No one," said Dean Rogers Satur-day evening will be debarred from pre-senting information to the commission through inability to attend day seasions, as we shall hold evening hearings also. We wish to give every one an opportunity to appear, but we believe we can expedite matters by holding day hearings when practicable."

Among the witnesses to be called today are three members of the police force to whom reference was made by Profesor Yandell Henderson in a statement concerning the investigation of the assault upon Miss Augusta Peterson, the trio including Sergeant Bowers, Sergeant McGrath and Policeman Taylor, all of the fourth precinct, or Dixwell avenue station. It had been hoped that they would be heard last Friday evening, but only Captain Cowles of the detective bureau and Detective McGrath were reached.

Of the other witnesses it is expected that former Alderman Trueman and Charles A. Rich will positively appear while other persons named by Captain E. L. Isbell, clerk of the city court, and City Attorney Howard C. Webb, may also be invited to speak.

According to a lawyer interested in he proceedings, the witnesses named by Captain Isbell are largely those who testified at the republican state con-vention in behalf of Captain Isbell's contentions. Captain Isbell himself declines to give any hint of his witnesses

No provision being made by the charter for recompensing such commissions for their labors, the trio of citizens conducting the present investigation will receive no pecuniary reward for their work. All other expenses, such as stenographers' fees and incidentals, will be met with drafts upon the sun-dry account of the contingent account. Until the hearings are concluded no accurate estimate of the cost of the investigation can be made.

BROWN STUDENT ARRESTED.

Alleged Green Goods Man-Was Working as a Motorman in Bridgeport-Held in \$500 Bonds.

George Williams, who claims to be a student at Brown, and who is employ ed during the summer as a motorman on the Bridgeport trolley lines, was lodged in the New Haven jail Saturday night in default of \$500 bonds, under which he was placed by United States Commissioner William A. Wright for alleged violation of the postal laws. He was arrested by Deputy United States Marshal Parmelee.

The specific charge against Williams is sending non-mailable matter in the shape of green goods circulars through the United States mails. He acknowledges sending the circulars, but says he did it merely as a joke upon some

of his friends. It is believed that Williams is an ac complice of Hobart Jones, who was arrested last week in Brooklyn on a sim-Har charge.

Secret Service Officer Henry has been investigating the distribution of green goods curculars from Brooklyn, N. Y., The secret service men had information that queer money was being offered for sale through the mails, and the inves tigations resulted in the arrest of

The man under arrest here is supposed to be Pearl Veszie of Paterson N. J., whose letters were found in Jones' possession. Jones was formerly in the employ of the Brooklyn Rapid Transit Co. Williams is twenty-three years of age and claims to belong to good family.

BOTHERED WOMEN.

Drunken Man Attempts to Hold Them Up in the Green.

Russell Oviatt, of unknown address, made himself quite obnoxious on the central green Saturday afternoon and upon complaint of a couple of ladies in a team was taken to the lockup by Sergeant Gibson. He had molested several other women and children about the streets and was unable to give an account of himself. He was held on a charge of drunkenness.

HOW THE HUMAN BRAIN MAY BE MAPPED BY THEIR AID.

May Account for Telepathy—They are of the body give off "N" rays when un-Colors.

Looking through the skull of a man and seeing the workings of his mind is an achievement that Professor Blondot, of Paris, has succeeded in attaining by aid of the newly discovered "N"

It is a matter perfectly simple, the instrument employed being nothing more complicated than a small rectangular piece of pasteboard the size of a playing card, one end of which is spread with a piece of phosphorescent sulphate of calcium. This substance, it appears, is made luminous by rays of the "N" description.

denly the luminosity of the paste begreatly increased, simply because this is the area of brain surface which controls vocal speech. In working it gives off a flood off "N" rays, which cause the sulphate of calcium to

But this is not all. Professor Blondiot has found that by passing the card slowly over the head and watching the variation of the luminosity he can outline with perfect accuracy the vocal speech area of the brain surface. Of course the man must talk al! the time, so as to keep the speech center working, else the card would cease to give

As everybody knows, it is the gray matter forming the surface layer of the brain that does the thinking and controls the physical activites. Apparently this layer is divided up into patches, each of which has its separate function for speaking, seeing, hearing, smelling, tasting and directing the movements of the varous muscles of the body. Vivisection experiments on monkeys and dogs these patches on the human "cerm" have been approximately located, but by the use of the sulphate of calcium card they can now be definite-

Thus, by the help of an entirely new means, the living human brain is to be mhe ox used as satisfactory for outlining other cerebral areas as for determining the location and limits of the speech genter. All that is necessary is that derful instrument called the the person under experiment should lisintently to music, say, and the of his skull beneath which lies the cenof hearing. It is the same way with the other sense centers, activity of any one of which causes an outflow of

When, a century ago, Reichenbach, a scientist of high reputation, claimed that he could sometimes see an aureole or halo about the heads of people in the least conceivable that the phenomenon vas due to an emanation of "N" rays, which may under certain circumstances become visible to the eye.

Another theory is that possibly the "N" rays may be ascountable for the nomena of telepathy, or thought are accountable,—Chicago Tribune. transference, by which ideas are conveyed from one person to another, even at a distance, without cpeech, writing or the use of any ordinary means of communication. That such messages sometimes pass from mind to mind is fact proved beyond question, though nobody as yet has been able to ascertain the agency by which the mental telegraphy is accomplished.

All of the nerve centers of the human body, when in a condition of ac-tivity, emit "N" rays. When the brain, which is the greatest of the nerve centers, is working, its activity can be roade to show itself by the use of a card such as the ane already rescribed. It is placed in contact with the fore-

"From a child I was never strong and had a capricious appetite and I was allowed to eat whatever I fancied-rich cake, highly seasoned food, hot biscuit, etc .- so it was not surprising that my digestion was soon out of order and at the age of twenty-three I was on the verge of nervous prostration. I had no appetite and as I had been losing strength (because I did'nt get nourishment in my daily food to repair the wear and tear on the body and brain). I had no reserve force to fall back on lost flesh rapidly and no medicine help-

"Then it was a wise physician ordered Grape-Nuts and cream and saw to it that I gave this food (new to me) a proper trial and it showed he knew what he was about, because I got better by bounds from the very first. That was in the Summer, and by winter I was in better health than ever before in my life, had gained in flesh and weight and felt like a new person altogether in mind as well as body, all due to nourishing and completely digestable food, Grape-Nuts.

"This happened three years ago, and never since then have I had any but perfect health for I stick to my Grape-Nuts food and cream and still think it delicious. I eat it every day. If it be applied to the side of the head, the distinctness of objects seen is augmented. These are only one or two of Professor Blondlot's recent experiments, which, when carried fur-ther, may be expected to yield some astonishing results. He has found that the rays can be transmitted by a copper wire, which makes an excellent conductor for them. The supreme court of Germany has rendered an opinion that the title of doctor conferred by American dental colleges is not to be recognized in Germany, constituting a violation of the German law against unfair competition and is therefore prohibited to be used. Three hundred and twenty dentists in Germany, who heretofore held the title of doctor from American colleges, are affected by this decision.

The faculty of John Hopkins university hospital, Baltimore, has completed cratic campaign will start off in fine live upon the insects they kill, which plans for a systematic and scientific fight against tuberculosis. It will be aided materially in carrying out its purpose by a gift of \$20,000 from Henry Phipps, of Pittsburg. Of this amount \$10,000 will be used in building a dispensary. The other \$10,000 will be used as a maintenance fund. The buildings will include a dispensary and apartments for scientific work. Guinea pigs, trying to govern it without ability, or ing a strange insect into the South to which are very susceptible to tuberculosis, will be kept for inoculation.

Laws don't always work as their makers expect them to. Some years ago a law was passed in England re quiring imported goods to be marked "Made in France," "Made in Germany," etc. As many of these goods are of excellent quality it has been found that the law actually benefits the foreign makers, and an effort is accordingly being made to have it changed so that goods from the continent shall have merely a label marking them as "Imported."

It has already been reported that Professor Koch rejects the conclusion of the British Royal Commission on inherculosis, but the Berlin correspondent of the London Daily News gives further particulars of the doctor's attitude. He goes so far as to maintain that the report of the Royal Commission even confirms his views, and emphatically reiterates his statement that the transmission of bovine tuberculosis to man cannot take place by means of food. Neither bovine flesh nor milk can transfer the disease. It is possible, he says, for a butcher at the slaughter house to become infected by injuring himself when handling tuberculosis meat, but even then the infection remains local. It causes a local sore, but no general disease.

A recent report of the Suez Canal Company on its business in the years 1901, 1902 and 1903 shows fairly well the distribution of the world's shipping tonnage engaged in trade on the high seas. In 1903 the total tonnage traversing the canal was 16,615,309 tons, against 15,694,-859 in 1902 and 15,163,233 in 1901. Of the total fonnage in 1903 the British share was 10,215,252 tons, or nearly two-thirds of the whole. Germany supplies 2,464,-493 tons, France 1,186,844 tons, Holland 770,576 tons, Austria 582,048 tons and the United States 34,945 tons. Russia sent through the canal 500,588 tons, Japan 308,093 tons, Italy 227,331 tons and Spain 121,276 tons. Despite the decay which is said to beset all forms of British enterprise, British tonnage of 1903 was nearly 1,000,000 tons more than in 1902 and 1,600,000 more than in 1901.

#### A CHANCE WHILE WAITING. Mr. Carnegie gives millions so that

people can read printed books if they want to. If he wanted to he could establish a Fresh Air fund wherever he establishes a library, and then many needy ones could and would read the books that are in the running brooks and in other natural places. This kind of reading is such a pleasant and beneficial thing that perhaps Mr. Carnegie couldn't do better with his money than to bring such reading within the reach of the many who need it and long for it, but can't get it because they live in cities and are too poor to get out of aster brings out the fact that life rafts them. While waiting for Mr. Carnegie to establish Fresh Air funds in all the of New Haven should remember that they can do a little something to relieve situation which needs relieving 1885, and its approval of granulated Rev. Mr. Mossman, of the City Missiontions to enable him to give some of the poor and feeble of New Haven a day of rest and refreshment. He should get them. He can make a little go a long way, but he should have much, enough to adequately do a cheerful and cheering work. Fresh air is good for the health and the spirits, and those who can have it should remember those who can't and help them to some of it. Don't be afraid of "encouraging pauperism" by contributing to the Fresh Air fund, and don't hesitate to encourage the poor children, the poor mothers and the other needy ones whom the fund is carefully used for.

#### NEEDED AND WANTED.

Women are always needed and want

ed everywhere, but they are particularly needed and wanted in Oklahoma fust now, Waukomis, in that territory, seems to be the centre of the disturbance. The population of Waukomis is 638, and it is composed mostly of bachelors. The Waukomisian bachelors are tired and they have organized themselves into an active association for the purpose of securing brides-and they mean business. Officers have been selected, with Mr. R. M. Brittan as president, J. M. Keegan, R. O. Cull, Morris Converse, S. U. Wren, as vice presidents, and Cliff Morris as corresponding secretary. To the last named all letters should be addressed. Funds also have been collected to further the purposes of the organization. A treasurer and a committee on traffic and transportation have been elected, so that all likely young ladies with serious intentions who apply will be railroaded through with their luggage to destination without unnecessary delay or expense. In addition to this arrangement, preparation is being made to run an excursion train through more populous States, carrying a bunch of the best appearing and most desirable young men, as an advertisement of Waukomis' marital wares and woes. LETTERS TO SHORE RESORTS.

Should be More Carefully Directed. This is the time of year when a large imount of mail matter is received at the postoffice and local stations misdirected. Sometimes from thirty to forty letters and postal cards are held up at the postoffice every day with wrong postoffice directions. Many letters are received every day directed to Rocky Beach and Woody Crest. These cottage settlements are located between this city and Woodmont and the address should be West Haven postoffice, the mail being dispatched by rural delivery service. Every day more or less letters are held up at the New Haven postoffice because of wrong directions. This makes more or less trouble for the writers and not little trouble for the postal clerks who try to study out the real destination of their misdirected letters.

SUNDAY EXCURSIONS.

Large Crowds To and From New York Yesterday.

Regardless of the fact that many people have become thoroughly averse to steamboat excursions by reason of the band of tribesmen against the Utes and very large crowd on the New Hamp-shire, which yesterday made one of the first Sunday excursions of the season to New York city and Far Rockaway. About 1,000 persons braved the dangers and enjoyed a very pleasant day. The weather was threatening in the morning, but it afterward cleared up and the sun came out making the day one of much pleasure.

There was also a large crowd on the excursion from New York city, and they saw the sights of the city from special trolley cars, which took them past all of the public buildings, and many places of historical interest. A number missed the boat and returned to New York city by train last evening.

TOOK CARBOLIC ACID.

Charles P. Shugrue, of 36 Ivy street, Kills Himself.

Charles P. Shugrue of 36 Ivy street ommitted suicide yesterday afternoon by taking carbolic acid. His wife and child had left the house at 4 o'clock for a trolley ride, and when they re turned at 7 o'clock, Mrs. Shugrue found her husband on the floor dead. No apparent motive can be found for the man's rash act. He had been employed at the Winchester Repeating Arms Co. as a tinner, and was to enter a new position to-day at an increased salary. Mr. Shugrue was twenty-seven years old, and leaves a wife and one child. Medical Examiner Bartlett was sum moned and pronounced it a case of suicide. 100

#### IN AND ABOUT THE COURTS January 13, when suggested by counsel,

MR. BULLOCK TESTIFIES IN HIS OWN DEFENSE.

On the Stand Nearly All Day-Mr. on Westville License Case-City Court Cases-Chief Wrian Testifies of Clapp's that night. Court then ad-Warning to Officers.

When the court of common pleas opened Saturday morning Rev. Mr. Bullock again took the stand. In consequence of the glass breaking incident described by Mr. Bullock Friday afternoon he said that Miss Shaller attended no more choir rehearsals and but one church service, and he further said that the Preece children left the church because they were not asked to speak at the entertainment.

Mr. Bullock then said that his child was cared for by Mrs. Blakeslee until January. He described his actions the night of the alleged assault and said he reached home about 10:45; and that Miss Shaller was at the house two days later and the next month, and again in May, when his child died.

Passing to the night of August 27 Mr. Bullock said Mr. Preece told him he was accused by Miss Shaller, but would not let him see her. However, they went later, he said, to Dr. Clapp's office. where the doctor told him he could settle for \$400. They met again two nights fater and witness said he would make it public, but Dr. Clapp said it would ruin him (Mr. Bullock). Mr. Bullock then agreed to pay all the expenses, and took Dr. Clapp \$100 the following Mon-Mr. Bullock said he agreed to pay the money because of his church work. and his wife and mother, On that Monday night witness said, although urged to by Mr. Preece, he refused to admit his guilt, but wrote an agreement which was locked up. Later he paid him \$25 or \$50, notes, \$12 from a church collection, and tried to raise money on his

life insurance policy. He said he later met Preece, who claimed he Mr. (Bullock) was lying about him, and threatened him, if he should do it again. When notified by Preece that Miss Shaller might commit suicide if money was not forthcoming he said he tried to see her, but was refused. He then told of his going to Dr. Clapp and offering money. He said that at his first visit to Dr. Clapp's office he thought Preece had a revolver, and on cross-examination he said he was not coached on it.

On cross-examination Mr. Bullock said he did not learn the cause of his arrest, by advice of his attorney. . He said he confided everything to his attorney, and felt the charge of assault

of secondary concern. Mr. Bullock then told that he was or dained in Detroit, had preached there, and knew A. K. Sweet, and was not dis-He then related other church work he had done in different places. Being asked if he met Mr. Fowler in Bridgeport witness said he did, but offered him nothing to refrain from testifying against him. Mr. Bullock also said that he insisted on a trial last spring. He repeated his former testimony about Miss Shailer leaving the church and said he recalled all the events purely from memory.

Dr. Roy E. Tilden of West Haven was was called after a recess. He said he was in charge of the Keeley institute ! and met Dr. Clapp there about 11 a. m., October 11, 1903. William M. Ward and Timothy McKewen gave conflicting testimony as to Dr. Clapp's stopping at

At 4 o'clock Mr. Bullock was recalled. He said he remembered facts about

"Hoth my wife and myself have been using CASCARETS, and they are the best modition we have ever had in the house. Last week my wife was frantic with headache for two days, she tried some of your CASCARETS, and they relieved the pain in her head almost immediately. We both recommend Cascarets."

He also said that he did not talk with other witnesses. He did not recollect that Miss Shailer came to his house in regard to some criticisms by him of her singing. Mr. Bullock said he did not know why he did not publicly deny all instead of going to Dr.

Transferred Dozen of the Nineteen Directors-Over Consolidated System. The directors of the Consolidated allroad returned from their annual July tour of inspection of the eastern district of the road Saturday afternoon at 2 o'clock.

They came in a special train from Fall River by way of Webster, Putnam and Hartford.

There were twelve in the party of directors, including President Mellen, and the laater took the train from this city for his summer home in Stockbridge, Mass., accompanied by his daughter, upon his arrival here.

The directors took no sweeping action at their meeting in New York on Friday. They made the trip to Fall River on the palatial steamer Puritan. From Fall River the directors rode in a special train, made up of Mr. Mellen's private car Connecticut and observation car No. 100. The train was in charge of Conductor Jeremiah Lynch.

Most of the directors left the train before it arrived in New Haven, hence there was no one to go on to New York, as had been anticipated.

At Webster the party left the steam oad and trolleyed over the road's newly-purchased trolley road from outhbridge, a piece of property with which most of the members were not familiar.

Arrested Upon Charge of Embezzlement - Sum Alleged to Aggregate \$2,000.

The wife of Harry S. Batchelder, the noted Yale football player, who gave up his professional studies to wed May Cassidy, the pretty cashier of a Reading, Pa., firm, was arrested July 8 in that city upon a charge of embezzling \$1,500 to \$2,000 from her employers. It is alleged that in the last three months she was cashier the young woman abstracted the sums she is charged with embezzling from bank deposits. It is claimed that she had a book for actual deposits and another for the firm's inpection.

Harry S. Batchelder of New York was a Yale football guard, and it is said that in the game with Harvard a year ago he won Miss Cassidy's heart by his fine playing. He followed her to Reading, and was assiduous in his wooing. Last May he gave up his law course at Yale and went to Atlantic City with Miss Cassidy, accompanied by Mr. and Mrs. Harry Calras of Philadelphia. They were married May 28 in pencer hall.

After a short honeymoon they re turned to Reading and since their Mr. Batchelder has been conducting a cigar store there.

(From Our Opening Advertisement.)

In every case except the few in which we have been requested not to do so, we will print with each sale offer the name of the manufacturer or wholesaler from whom these sale lots come.

This points the distinction between the Malley sale and its imitations. It marks the difference between our offers of complete lots of fresh goods, direct from makers or importers, and the offers of broken lots, so iled goods and store-sweepings in the sales hastily prepared in imitation of this.

REV. DR. SMYTH

Offers Suggestions on Conduct of Police

Department Inquiry, As a supplement to his declaration of the invitation to appear before the citizens' special commission now investigating the police department, Rev. Dr. Newman Smyth forwarded a second letter to Chairman Lynde Harrison, in which he offers several suggestions as

to the conduct of the inquiry. In his communication Dr. Smyth pays particular attention to the policy question, his letter reading as follows:

New Haven, July 9, 1904. Hon. Lynde Harrison: Dear sir: Allow me to add the follow ing anggestions to the communication which I have already addressed to you. First, that while officers of the city court are aiding you in your investigations, you request them to lay before you complete records of all policy cases

which have been brought before the city court. Second, That you examine in particular the record of the policy dealers who are now awaiting trial.

Third, That you compare with such records the provisions of the statute concerning policy playing, and the discretionary powers given by it to the Fourth, That you make such inquirles

of the officers of the court as to the rea-

sons and explanations of the disposi-

tions of these cases, both collectively and separately, as your legal knowledge and acumen may suggest. Fifth. That after such inquiry, and such further investigation as it may open, you take into careful consideration the relation of the legal environment of the police to the efficiency of

the police force. Allow me to add that any conclusions which you might reach as the result of following out such a line of inquiry, might in my judgment prove of moral value to the community.

I would beg leave to commend to you this inquiry instead of seeking personally to bring these records before you because you will recognize the validity of the principle that secondary evidence is not admissible where primary evidence is attainable. Respectfully yours,

Newman Smyth.

EXODUS TO EUROPE. More Than 4,500 Sailed Saturday-Cabin Capacity of Liners Booked for

Weeks.

The great summer exodus of Americans eastward bound is now under way Saturday over 4,500 passengers bound for Europe passed down the bay. On Friday the big Celtic passed out at Sandy Hook with 2,000 people on board and Saturday the St. Paul, with over a thousand on board, sailed. The Kroonland took out 1,200 more, followed by the Umbria, the Ethiopia, the Minnehaha and the Belgravia. The Louisiana Purchase exposition has not had the ill effect on the eastward bound traffic that the steamship people feared, not has it as greatly swelled the bookings of the westward bound steamers. bookings on all the first class ships are closed, the full cabin capacity of nearly all of them being taken for weeks ahead. Next week probably a full 10,000 will leave New-York for abroad.

#### ITALIANS FIGHT.

Lively Scrap on Hill Street-Police Interfere-Secure Several Arrests. A bottle in which aged eggs, stones and bottles of mustard played the im-

portant part of munitions of war, took place yesterday afternoon on street. The Italian ball game of Sat-urday was the cause of dissension between the two factions which engaged hostilities yesterday, the result being contrary to the expectation of Italians from another quarter of the city, and the murmur of dissatisfaction speedily culminated into a pitched battle. At about 5 o'clock Officers Cook, Grant, Cannon and Lautenbach arrived upon the scene, and in the scattering of the clans, gathered in Frank Martino Antonio Costello, Salvatore Mosca Pasquale Tuscano, and Lawrence Or

tole, who they took to the Howard avenue station and locked charge of general breach of the peace. They will be tried in the city court this morning. THE WHITE CITY

The Flying Zola, Zola, the high globe ascensionists, and Miss Caroline Kenner, who rides the chutes on a bicycle have been re-engaged for this week at the White City. To-morrow night is fireworks night, and on Friday evening the electric tower, with its 7,800 incan descent globes set so close over its sur-face that the bulbs touch one another will be lighted for the first time. Th blaze of light made by this tower, it is said, will be easily visible from the city, and with the ten-mile search

STRIKES A WOMAN.

light going it can be seen for ten

Henry McCormack, who boards at 253 Hallock avenue, was arrested yesterday afternoon by Officer McQueeny, charged with breach of the peace on Maria McManus. It is alleged that the Mc Manus woman made some comment on McCormack's sisters, and he took offense and retaliated by striking the woman. McCormack will answer to the charge against him in the city court this morning.
