

PORT ARTHUR UNDER A DESTRUCTIVE FIRE

OKIO BELIEVES FINAL ASSAULT IS IMMINENT.

Asian Lines Weakened and Partly Concentrated at Vital Point—Entire Line of Defenses About the Harbor Within Range of Japanese Guns—Tokio Already Decorating in Celebration of the Expected Victory.

Tokio, Aug. 24.—10 a. m.—The final assault on Port Arthur is imminent. Hundreds of Japanese guns continue to pour a destructive fire into the city and harbor, along the lines of forts and emplacements, preparatory for the infantry assault. It is evident that the Russian lines have been weakened and fully penetrated in the vicinity of the Russian and Tzushan forts.

The Russian defenses immediately about the harbor are within range of the Japanese guns. A number of Russian forts and batteries continue to be vigorous. The Japanese death roll has been heavily increased before they captured the direction of the Japanese attack creates the impression that the city and defenses on the other side of the harbor entrance will be first. The final stand will be made at Liaotshan. Japanese official channels of information remain closed and navy department's announcement of the striking of a mine by the battleship Sevastopol, and the firing upon Russian forts by the cruisers Nisun and Kasuga yesterday are the only disclosures made for several days.

IMPORTANT EVENTS PENDING.

London's Interpretation of Far Eastern Silence.

London, Aug. 25.—The absence of patches of any kind from the far east this morning leads to the belief, expressed editorially in the London newspapers, that important events are pending.

The mystery regarding the movements of the Russian cruiser which recently overhauled the British steamer median is still unsolved.

In a dispatch to the Central News Co. Copenhagen it is said that the steamship flying the Russian flag had passed through the Great Belt strait yesterday bound south as reported in a dispatch from Nyborg, Denmark, is the Russian volunteer fleet steamer Smolsk.

According to the correspondent of the Daily Telegraph at the Hague, the officials of the Russian embassy there are busily conferring with the leading members of the Hague arbitration tribunal, and the belief prevails, the correspondent says, that the Russian government is inclined to submit the matter of what constitutes contraband of war and cognate questions to a tribunal.

The Cape Town correspondent of the Daily Telegraph understands that the orders have been issued that Russian cruisers are not to be allowed coal in Cape Colonial ports without previous reference to headquarters.

RUSSIA YIELDS AT SHANGHAI.

Orders Disarmament of Cruiser and Destroyer.

London, Aug. 25.—The correspondent of the Times at Shanghai in a dispatch dated August 24, 11:35 p. m., says that orders from Emperor Nicholas have been conveyed to Captain Reitsch, commanding his fleet with the Russian cruiser Askold and the torpedo boat destroyer Grozovoi and that the flag on both vessels was lowered at 7 o'clock to-night.

BREAK OF SUBMARINE BOAT.

Leaks in Hundred Feet of Water Without Warning—Cause Unknown.

Newport, R. I., Aug. 24.—It became known to-day that while the torpedo boat Shark was being prepared for a shakedown run Monday afternoon she sank to the bottom in a hundred feet of water, and remained there for some time before the crew could move her.

The cause of the sinking is not known, the accident occurred near the Brewster's Reef lightship, Lieutenant Nain being in charge of the boat, with lieutenant Shopley and a crew of eight men aboard.

The men displayed no excitement over the situation, but tried a number of experiments before the boat could be raised. Finally after forty minutes they succeeded by use of the hand pumps in bringing her to the surface. The boat apparently was not damaged.

British Gunboat Flotilla.

St. Johns, N. F., Aug. 24.—The British gunboat Columbine, one of the vessels of the squadron patrolling the Newfoundland fisheries, which struck on a rock in Snook's Arms, Green Bay, Monday last, was refloated to-day and will be brought here and docked for repairs. The vessel sustained serious damage.

Bristol, Aug. 24.—Henry Wilden, a sixteen year old boy, who pitches for the Union Hill baseball team, snapped the bone of his right arm while pitching this afternoon. He was taken to his home where the bone was set.

REDMOND'S VISIT.

Irish Leader Declares Balfour Government Doomed.

New York, Aug. 24.—Mr. Redmond, the Irish leader, who with his wife arrived on the Teutonic to-day, in discussing his visit said:

"We come here first to attend the convention of the league which has given us such moral and material assistance in the past two years. The movement has spread and we were anxious to come over this year to attend the convention.

"Just at present we are anxiously watching developments in England, for we are now on the eve of a crisis which may change conditions and so materially affect our party. The present government is doomed, and it is only a question of a few months or weeks when we will face a general election. Mr. Chamberlain, who broke up the liberal party, has succeeded now in breaking up the unionist party, and for this reason there is no question but that the next general election will result in the defeat of the government.

"This is the situation we are now facing, and the result of the coming election must be of the greatest importance to Ireland. She will be in a position of extraordinary power, for it is evident that the government will have only a small majority and the Irish, who have thirty-five votes, if cast one way or the other, would turn the scale. 'I am sorry,' he said, 'that my stay here must be short, but I must be home to get ready for the crisis which will soon be upon us.'

ROBBED OF \$5,000.

Pay Clerk Held Up by Highwaymen Near Paterson.

Paterson, N. J., Aug. 24.—Four masked men held up Dana White, the paymaster of the O'Rourke Construction company, on the Ridge road, near Paterson, N. J., early to-day, and robbed him of more than \$5,000.

The paymaster, accompanied by two other men, was on his way to the office of the company, driving in a buggy, when the four men, one an American, the remaining three Italians, masked and wearing blue goggles, came out of the woods. The American then shot the horse. The robbers covered the three occupants of the buggy with guns and got away with the bag of money, which was in the bottom of the buggy.

The paymaster on his arrival at the company's office at Cedar grove, notified his employers, who telephoned to the Paterson police and nearby towns to be on the lookout for the robbers. When the robbers at the reservoir, which the company is building, heard of the hold-up, they donned knives and revolvers, and swore vengeance on the robbers.

HARTFORD STRIKE SETTLED.

All of the Men to Go Back to Work This Morning.

Hartford, Aug. 24.—The strike of the building trades in this city which has been on for over two weeks was settled late to-night but on what terms the master masons and members of the brick layers and plasterers' unions refuse to state. All of the men who are here and have been out on strike will go back to work to-morrow morning and the large amount of building that has been tied up for a fortnight will be put under way again.

The settlement of the strike came about as the result of meetings held by the master masons and the unions.

The strike of the trades was declared two weeks ago Monday and came about on the demand of George H. Butler, one of the workmen employed by Clark B. Andrus, who put in a bill for time alleged to have been lost while waiting for his pay envelope. The master masons then declared a lockout and as a result all building has been at a standstill.

It is said that over 100 of the men left town and secured jobs but they will doubtless come back this week to take up their old work.

200TH ANNIVERSARY.

Celebrated by the First Congregational Church of Plainfield.

Plainfield, Conn., Aug. 24.—About 500 people were present at the two hundredth anniversary of the First Congregational church of this place, which was held here this afternoon. After a simple ceremony and the historical speech by Pastor Rev. T. A. Arnold, a large and handsome clock was presented to the church by the members of the congregation. The clock has sufficient power to run a fifteen foot dial and bring out the sound of a 1,100 pound bell.

The ceremonies will be followed to-night by a banquet, at which a number of prominent men from Boston and other cities will speak.

Atlantic Wins Ocean Race.

Newport, R. I., Aug. 24.—The three-masted schooner yacht Atlantic, owned by Wilson Marshall of New York, won the ocean race of 264 miles for the Brenton's reef cup to-day. Monday, had not been reported from the finish line at noon.

AGAINST MERCANTILE CO.

FORMER PRESIDENT WANTS \$54,220.60 HE ADVANCED.

Disaffection Between Canadian and American Stockholders—Thomas N. McCauley Who Brings the Suit Declares His Action the Result of an Investigation Into Company's Affairs.

New York, Aug. 24.—Thomas N. McCauley, formerly president of the International Mercantile Agency of 346 Broadway, brought suit in the supreme court to-day against the International Mercantile Agency for \$54,220.60 and interest at the legal rate from December 25, 1903, and a writ of attachment was issued by Justice Vernon M. Davis and served on William H. Sterlis, the treasurer. The suit is brought to recover money which Mr. McCauley claims that he advanced to the company while he was its president.

The International Mercantile Agency was formed about two and a half years ago under the laws of New Jersey, the authorized capital being \$3,000,000. Of this \$3,000,000 worth of stock was sold and brought about \$1,250,000 in cash. The remaining \$1,750,000 worth of stock has never been disposed of. The stock was sold in New York and Canada, though some was disposed of in other cities in the United States where branch offices were established. In the course of time disaffection arose between the American and Canadian stockholders, as a result of which Mr. McCauley says he resigned on March 1 last and Mr. William C. Lane, president of the Standard Trust Company, was elected president of the International Mercantile Agency. Six weeks ago Mr. Lane resigned and since that time the company has been conducted by Vice President E. F. Holmes and William H. Sterlis, treasurer.

Mr. McCauley says he went to Mexico, and that several weeks ago he was asked to return and take up his former duties as president of the concern. He came to New York, but says that when he arrived he conducted an investigation which led him to bring suit.

PENSION REPORT.

Annual Statement of Commissioner Ware—Nearly 50,000 Added to Rosts.

Washington, Aug. 24.—The annual report of Pension Commissioner Ware, covering the fiscal year ended June 30, 1904, made public to-day, shows that during the year the cost of maintaining the pension system has been \$144,712,787. The appropriation for this purpose was \$146,419,296, leaving an unexpended balance of \$1,706,508. During the year 47,374 persons were added to the pension rolls—226 by special act of congress and the rest by the pension bureau. During the same period 49,157 pensioners were dropped from the rolls. Of these death claimed 43,820, of whom 31,728 were soldiers, 30,071 being volunteers of the civil war. The total number of pensioners on the rolls as covered by the report is 720,315 soldiers, 273,841 widows and dependents and 606 army nurses.

The report refers to the order issued by the commissioner March 15 last, in which age is made an evidence of disability and says that three and a half months of its operation only 3 per cent, or 28,308 out of the 275,000 pensioners, have asked for increase under its terms. The report says the order introduces no new principle, and "is in the direct line of economy, as it certainly is in the line of precedent."

Less than 4 per cent. of the appropriation of \$1,500,000 was used to pay claimants under the order, the balance being turned back into the treasury.

HAWAIIAN ADVICE.

Honolulu, Aug. 24.—The democratic convention to-day nominated C. H. Laukae delegate to congress. The platform adopted favors a congressional appropriation in behalf of former Queen Liliuokalani, federal assistance for and scientific treatment of the leper settlement at Molokai, and the enforcement of the local labor laws. The administration of Governor Carter is alleged to be creating a political machine and forcing all office holders to become republicans. The republican convention will be held at Hilo September 1.

PANIC AT ASUNCION.

Condition Indescribable—Foreigners in All Parts of Country Leaving.

Buenos Ayres, Aug. 24.—The panic at Asuncion, capital of Paraguay, is indescribable. Foreigners in all parts of the country are leaving, under the protection of the diplomatic corps.

Preparations for hostilities and negotiations looking to the settlement of the questions at issue between the revolutionists and the government are proceeding simultaneously.

The belief is growing that the government must yield. The rumors that a land engagement has been fought between the revolutionists and government troops, resulting in the defeat of the latter, and the capture of 400 men, as announced in these dispatches yesterday, have not yet been confirmed.

PAYNE MAY BE ARRESTED.

Postmaster General Likely to be Taken Into Custody in Chicago.

Chicago, Aug. 24.—Postmaster General Payne may possibly be arrested here Friday afternoon. Justice Hurley said to-day that if it were shown to him that the postmaster general had as reported, treated one of the court subpoenaes with scorn and refused service from Constable Simon, an attachment would be issued for his arrest on the charge of contempt of court.

The postmaster general is wanted in court as a witness in the suit instituted by S. G. Brabrock against Senator Chauncey M. Depew because of the senator's supposed connection with a publishing company which figures in Brabrock's case.

SECOND EFFORT TO SETTLE MEAT STRIKE

CHICAGO COUNCIL EMPOWERS COMMITTEE OF ALDERMEN.

Instructed to Make It Their Business to Bring About an Agreement—To Meet Committees of the Packers and Union Men to-day—Feeling That the Attempt Will Amount to Nothing.

Chicago, Aug. 24.—The city authorities are to make a second effort to settle the stockyarders strike. At a meeting of the city council to-night a resolution was passed empowering Mayor Harrison to appoint a committee of eleven aldermen who are to make it their business to bring about a settlement.

There was some opposition to the resolution, a number of the aldermen declaring that, in their opinion, the result would be nothing. The resolution was passed, however, and the committee appointed by the mayor.

Invitations were at once sent to the leaders of the strikers, and to representatives of the employers inviting them to meet the members of the committee to-morrow morning. President Donnelly of the Butchers' union will be before the committee at 10 o'clock and in the invitation sent to the packers they were asked to appear one hour later.

PACKERS NOT RESTRICTED.

Court Decides Non-Union Men May be Lodged in Stockyards.

Chicago, Aug. 24.—Judge Theodore Brentano to-day issued an injunction restraining the city of Chicago from interfering with the lodging of non-union employees in the packing houses at the stockyards.

The injunction was issued in a test case brought by the G. H. Hammond company. Seven additional petitions were at once filed, following the decision of the court, for an extension of the temporary injunction to all the packing companies within the stockyards, with the exception of the Omaha Packing company. In the Hammond case the court found that the building in question is not within the fire limits, and cannot be regulated by the fire or building ordinances of the city. Judge Brentano asked that the additional petitions be left with him, so that he could look them over.

The city has announced that an appeal will be taken to the appellate court.

WARD CHAMPION.

Takes National Tennis Honor by Defeating Clothier.

Newport, R. I., Aug. 24.—Holcomb Ward of New Jersey won the national tennis championship by defeating William J. Clothier of Philadelphia in the final round of the all-comers tournament at the Casino courts, as H. L. Doherty, the English player, who won the title last year, did not defend his position. Ward now holds the national championship both in singles and in doubles, sharing the latter title with Reals C. Wright. In to-day's games Ward showed excellent judgment and remarkable steadiness. He found out his opponents weaknesses and made the most of them. He had not lost a set during the tournament and his success was considered well won.

New York, Aug. 24.—Pasquale Aquino, sixteen years old, while walking in East Fourteenth street to-day, was shot and instantly killed by Sadie Montford, a fifteen years old girl. CONSUELA S. WINS STAKE.

TAKES RICHEST EVENT OF HARNESSTURF THIS YEAR.

In Five Fiercely Contested Heats She Captures the Massachusetts Purse of \$15,000—Dr. Strong Second and George G. Third—Tuna Wins the 2:15 Class Trot—Talent Surprised—Hartford Trotting Club Wins in the 2:15 Class Trot.

Readville, Mass., Aug. 24.—Ten thousand people at the track to-day saw Consuela S. win the Massachusetts stakes, the richest event on the harness turf this year, in five fiercely contested heats. The stake was for trotters eligible to the 2:15 class last April, and was valued at \$15,000. Consuela S. was a second choice and won the three final heats after the first had been captured by George G., and the second had gone to Dr. Strong, the favorite.

Every condition was perfect for the big race with weather and track superb. On the form which he has displayed this season, the talent picked Dr. Strong to win, making him an almost even favorite against the whole field of twelve horses.

In the initial heat Geers slipped through the lot before reaching the first turn with George G. and taking a lead of a clear length maintained the advantage to the wire, the Roman giving him a tussle in the home stretch. The second looked like a repetition of the first heat to the final eighth, when Gahagan with the favorite drove to the front, taking the heat at the very finish. There was much scoring for the third heat. Dr. Ryder coming to the wire in advance of the other horses with Consuela S. He was finally fined \$100 by the starting judge, but came down a half length in front when the work was given. This gave him a clear track and although Dr. Strong went his best at the last quarter, he could not take the leader who won by not more than a foot. It was a heart-breaking heat and brought the spectators to their feet. All but standing for money returned to the stables after the third heat. Of the four left to fight it out, Consuela S. was the freshest as she had been well back in the first two heats. It was comparatively easy for her to take the two following heats over Dr. Strong, who had fought for every heat.

It was generally conceded that Aristio would win the 2:15 trotting race but the talent was surprised by Jack Curry who drove the California mare Tuna to first place. In the Tyro stake for three-year-old trotters, Princess Athal was a prohibitive favorite. Dave McClary, the Hartford, Conn., driver, however, produced the winner in the son of Bingen, Lord Revelstoke. His third heat in 2:12 3-4 was the best made by a young horse this year. Don Carr, the Providence owned pacer, won the 2:15 class so easily as to make the race uninteresting. Summary:

CHRISTENING OF CZAR'S SON.

Imposing Ceremony at the Peterhof Palace Church.

St. Petersburg, Aug. 24.—The christening of the heir to the Russian throne took place this morning at the church of the Peterhof palace with imposing ceremony and amid great public rejoicing. A procession of gilded coaches accompanied the infant prince from the Alexandra villa to the church. The child was carried by Princess Galatin, mistress of the empress' household, in a gilded state carriage drawn by eight white horses. Following the coach was an escort of Cossacks armed with lances. At the church the czar and the dowager empress led the procession, followed by other members of the imperial family. At the door of the church the metropolitan of St. Petersburg met the procession, and here the czar retired, having no further place in the religious ceremony.

The empress left her bed yesterday for the first time since the birth of her son. Both she and the infant are in excellent health. The heir weighs about ten and one-half pounds.

Worcester, Mass., Aug. 24.—The nine o'clock bulletin from the home of Senator George F. Hoar to-night is as follows: "Senator Hoar has had a more comfortable day. The throat and lungs are not causing trouble. He has taken a little more nourishment. There is prospect of a good night."

Dr. Warren R. Gilman, Senator Hoar's physician, issued soon afterwards the following medical summary of the case:

"The condition of the lungs, which caused alarm, has improved materially during the last three days and immediate danger has apparently been averted. Changes in the heart and other important organs have been marked for some years, and these changed, together with the exhaustion following a long and severe attack of lumbago, made recovery an uncertainty."

FOR MUTILATING HORSES.

Reward Offered for Unusual Criminal in Pawtucket.

Pawtucket, R. I., Aug. 23.—The city council to-night offered a reward of five hundred dollars for information that will lead to the arrest of the person who has been mutilating valuable horses and dogs in this city. The city council of Central Falls has offered a reward of two hundred and fifty dollars for a similar purpose.

The two cities have been aroused over the fiendish acts of some unknown person or persons, and there is not a stable in either city that is not now guarded day and night. Within the past two weeks nine horses and two dogs have been horribly slashed with a knife. A fast trotting horse belonging to Edward Moore was found with its hind legs hobbled and its rear quarters fearfully mutilated. Two horses have died. The police have no clue.

Members of the last general assembly constituting the 1903 Legislative club held their reunion at the Momunguin, yesterday. In addition to this a large number of members of former legislative bodies and many distinguished men from all parts of the state were present. It was a most representative gathering and included men from all walks of life. There were very few absentees from among the republican state politicians, the most notable ones being the Hon. Samuel Fessenden of Stamford and ex-Speaker Light of South Norwalk.

The guests commenced to arrive early in the morning, and from that time until well on in the afternoon they continued to come. It is estimated that there were about five hundred present during the day. Three candidates for gubernatorial honors were present. First to arrive was Governor Chamberlain, who came down with a number of prominent Meriden citizens, and a number of the state officials. Shortly after this Lieutenant Governor Roberts, another of the candidates, arrived. About 11 o'clock Judge Cleveland arrived, and from that time until the mammoth clam bake was served there was nothing but talks concerning the political situation.

They are small. We sell them for children; and a good many women use them, too—a fine size to carry in the hand bag.

Last Three Days of Our August Blanket Sale

That means that you must decide quickly if you wish to buy at the August Sale prices. More people have bought here than in any previous August Sale. Better values have been given, too. But there are plenty of Blankets yet; for new ones have been coming in nearly every day during the sale. We had to have them to fill up the gaps that such eager buying made. Prices range from 69c to \$17.00 a pair in the August Sale. Pick out the ones you want and make a deposit, if you don't care to pay the full amount. We'll hold them until the cold weather comes. But remember that there are only three days now—Thursday, Friday and Saturday.

Babies' \$2.25 Poke Bonnets, 75c
All to go now—it's getting late. Only a few of them. Wouldn't your little one look fine in a spick-and-span new little bonnet?

These are all of fine lawn, and they are variously made with embroidery, tucks, insertion and edging. Some have large bows of satin ribbon; others have a wealth of baby ribbon on them.

How About Notions?

WITH A MACEDONIAN RELIEF. Each day's work brought some sad story or picture of its own before us. Four little girls, whose parents had both been shot as they fled from their village; three others—mere babies—whom we found sitting round a great pot in their smoky cabin, their mother dead from exposure, their father incurably ill at the hospital; a young girl in deep distress, because her wedding clothes had been burned, and now no one would want a portionless bride; the widow of a village priest, a woman

with wild hunted eyes, who had not slept since the bodies of her husband and his brother had been found on the mountains weeks before, and who, unable to rest, even in our hospital, passed on to die a few days later; haggard boys and girls, whose wounds had remained undressed some six or seven months; men just out of the unspeakable prisons—"We could live there through the winter, but had it been summer we must have died"—a village priest, crippled for life, and still prostrate from the bastinado he had endured

three times some eight months before; an old father and mother, who came every week on a hopeless mission, a five hours' journey, to ask if I could give them tidings yet of their dear and dumb boy, whom the soldiers were supposed to have carried away; sometimes young girls, for whom one could only hope that forgetfulness or death might come; and always a tale of widows, old and young, to which there seemed no end—such were a few of the cases that came to us for what help or comfort we could give. An old black wo-

man in St. Vincent, whose husband and son had been killed in the hurricane, speaking of her loneliness, said to me, "And when I go to market now there is only me and my shadow." But there is something more pathetic still, perhaps, in a phrase one heard often enough in Macedonia in answer to the question, "How many souls are you?" "I sit alone."—Cornhill Magazine.

The Food Route To Brains is a sure and pleasant way. Why should one flounder along with a corn down, fagged out brain when a simple experiment with food will restore equilibrium, strengthen and nourish that same brain and put it in shape to work hard, make money and do things.

What's the Use of trifling. Cut out the old-time heavy breakfast and try this—A LITTLE FRUIT, 2 SOFT BOILED EGGS, TOAST, A SAUCER GRAPE-NUTS AND RICH CREAM AND A CUP OF POSTUM. (Postum boiled full 15 minutes.)

The Result will show in a day of two and grow plainer from day to day as the Phosphatic elements specially provided in Grape-Nuts and Postum begin to fill the delicate little cells in the brain and serve centers with gray matter. That means stronger, sturdier set of brains.

SURE SURE SURE Grape-Nuts 10 days. "THERE'S A REASON." World's Fair exhibit, Space 103, Agricultural Building.

FEATS OF WAR CORRESPONDENTS. One of the finest achievements of a war correspondent was that of Holt White, a representative of the New York Tribune, in the Franco-Prussian war. He witnessed the battle of Sedan from the Prussian headquarters on Thursday, September 1, 1870. At its conclusion he rode to Brussels, but there the postoffice authorities refused to transmit his dispatch to London, and even threatened to arrest him for saying that the French had been defeated. He then went to Calais, crossed to Dover by special steamer, and took a special train to London, where he arrived at 5 o'clock on Saturday morning. Next day there was a description of the battle six columns long, in The Tribune. It was not till Tuesday that the London newspapers had accounts of the conflict from their correspondents. But the most famous deed of physical endurance in the race for news between war correspondents was told by Archibald Forbes. In the Serbian war of 1878 Semlin, the nearest telegraph station, was 120 miles distant from the scene of the battle. So soon as Forbes knew the result he rode off, and all night long he kept at a gallop, changing horses every fifteen miles. At Semlin he had one long drink of beer, and then at once set down to the task of writing, hour after hour, against time, the tidings of which he was the bearer. After he had written the story of the battle and put it on the wires, he lay down in his clothes and slept twenty-four hours without waking. He had witnessed the battle, which lasted six hours, ridden 120 miles and written and dispatched a telegraphic message four columns in length to The Daily News, all in the space of thirty hours.—Macmillan's Magazine.

JAPANESE COLONIAL GOVERNMENT. So divergent are the opinions, among even the best informed, as to the form of government best suited for Eastern races that it is interesting and instructive to briefly examine the methods employed by the Japanese in Formosa, and the measure of success that has attended them. In general, their policy is best on the assumption that, however astute and busheslike the Chinese may be, and however estimable in their private virtues, they are, in their civic capacity, mere children, and should be treated as such. Their government, therefore, while it is absolutely firm and consistent, is decidedly paternal. They are at times overbearing and arbitrary, but on the whole they are just. In acquiring unsanitary properties they give very inadequate compensation for the surrender of private rights. Though martial law is nominally removed, many of its most irascible provisions are still enforced. Every household must be registered, domiciliary visits are frequent, and the absence of any inmates must be satisfactorily accounted for. But the success of any government must be judged not so much by the form of its laws as by their effects upon the subject, and the Chinese in Formosa to-day are thoroughly contented, and have no desire to revert to the yoke of their own unprincipled officials.—Blackwood's Magazine.

Edward Atkinson figures the cost of governing the United States economically at \$4.50 a year per capita. But he says that in excess of this sum each person has paid \$20. In other words, the head of a family of five persons, in receipt of an income of \$1,000 to \$1,500, can feel sure that he has been paying more than \$200 for direct or indirect taxes, this largely as the result of the Philippines occupation.

In spite of the Boer war and of the admission of Chinese labor into the Transvaal in place of some white employes, the white population of the former Boer state, according to the census just taken, shows a very large increase since the best estimates of the total prior to the great struggle. In the Transvaal alone there are 300,000 whites and in that country and in the Orange River colony together there are 445,000, while the Cape district and Natal returns show that their whites number only 677,000.

Women who want to enter the medical profession in Germany encounter a discouraging situation. An association of physicians has sent to the directors of 613 high schools a circular for distribution among the students, in which these are warned against entering the medical profession, which is described as being disastrously overcrowded, the number of physicians being nearly thirty thousand, or more than double what it was in 1876. The situation is aggravated by the abolition of the law against quacks, and by the insurance clubs which hire doctors at starvation wages.

The rigor of Russian divorce laws, which formerly did not allow a husband or wife guilty of misconduct to marry again except after seven years' irreproachable conduct, has been modified by the Holy Synod, making the period two years in case of offenders agreeing to do public penance according to the direction of their bishops. The newspapers hail this modification as being a step in the right direction, and express the hope that the draconian laws governing divorce, which date back to the Byzantine epoch, will be further amended in conformity with the requirements of modern life.

In India a letter sent to a native prince is often a very elaborate affair. The paper is specially made for the purpose and is sprinkled with gold leaf. Only the last few lines of the somewhat lengthy document contain the purport of the letter, while the remainder is made up of the usual roundabout and complimentary phrases. It is folded in a peculiar way, with the flaps outward and placed in a muslin bag, and this latter into one of crimson and gold tint, with a slip knot of broad thread, attached to which is a ponderous seal. The address, written on a slip of parchment is attached to the outside bag. These details are very important for polite letter writing in India, and if any one of them were omitted it would be an insult to the person addressed.

There are still people who are interested in real things. Mr. Frank Sewall of Washington, D. C., has been told that a painting by Sargent at the head of a staircase in the Boston Public Library is intended to represent the Christian doctrine of the Trinity, and he is shocked. He has written a letter of protest to the Boston Citizen, in which he argues that the painting should have been excluded from the Library both as violating the great principle of the separation of church and state and because the painter's conception of the Trinity is baldly tritheistic. "Is it," asks Mr. Sewall, "a lapse into cold indifference as to what influence may be abroad to form the religious ideals of the growing generation, or a weak, dilettantism which, for the sake of art, would pardon any amount of religious misconception, which permits such a representation of 'Christian doctrine' as that placed at the head of the staircase in the Public Library to be unveiled and to remain exposed to public view without a loud and determined protest on the part of the religious public? It is doubtful if so horrible a travesty of religious doctrine was ever perpetrated in the midst of a professedly religious and cultured community in any age, or among any people."

THAT BLESSED TAVERN AGAIN.

The Blessed Subway Tavern in New York continues to get some good free advertising, by which it doubtless profits. The latest is that so much criticism has been aroused by the serving of beer to women at the soda fountain in the Tavern that the backers of the institution have decided to stop that feature. A sort of rathskeller is being fitted up in the basement, and when that is opened no more beer will be served at the fountain. The basement is to resemble as nearly as possible an old English inn. It will have dark furnishings and a sanded floor. Food will be served there as well as drinks. Women with escorts will be admitted and any kind of drink or food they may wish will be served.

We don't know why there should be such criticism, or why this concession to the critics should have been made. Of course women have as much right to drink in a Blessed Tavern as men have, and there is no particular sense in making any discrimination against them there. None was made at the start. Perhaps they can drink as much and as comfortably down cellar as upstairs, but there is no good reason why they should be obliged to.

NOT QUITE SO ATTRACTIVE.

This is still a good country to live in, but some are leaving it. During the four months from the 1st of April to the 1st of August, 178,674 persons have left the ports of this country for different parts of the old world. This is a larger volume of emigration from the United States in the four months' record than has taken place during the most of the entire years of the recent past. For example, in 1899 the entire emigration from the Atlantic ports of the United States was only 114,000, and, although the largest year's record was in 1903, the year 1904 bids fair to exceed it, if the rates of fare for steerage passage are maintained in the future at anything approximating the rate that they hold at the present time. On the other hand, while there has been this year this enormous increase in the number of people leaving our shores as steerage passengers, the number that has come here as immigrants has undergone a great diminution. From January 1 to July 29, in the year 1903, the number of immigrants who arrived at the Atlantic ports was 668,166, but this year, during the same time, the number of immigrants who arrived was 427,987, a decrease of over 140,000.

Many think that there are enough people in this country for a while, and a decrease in the number of new ones won't alarm anybody. And some recent events indicate that it will be a very good thing if there could be a still greater decrease. AN INFUENTIAL LITTLE BOY. When the Czar's new boy arrived it was said that there was much rejoicing over him throughout the Czar's dominions. This was followed by a story that he was really a girl and not a boy, and this story was said to have been put forth by some high-toned people whose noses and plans were put out of joint by his coming. But whether there was much joy over him at first or not, there is quite a little now, since the Czar has issued a manifesto in celebration of the christening of his son. This manifesto is a remarkable document. It includes an all round reduction in sentences for common law offences, a general amnesty for political offences, except in cases of murder, and the education of the children of officers and soldiers who have been victims of the war, as well as assistance for such families as need it whose breadwinners have fallen in the service of their country. It abolishes corporal punishment among the rural classes; remits arrears owing to the State for the purchases of public lands; sets apart \$1,500,000 for the purpose of forming an inalienable fund for the benefit of landless people of Finland; grants amnesty to those Finlanders who have emigrated without authorization; remits the fines imposed upon communes of Finland which refused to submit to military conscription, and remits the fines imposed upon the Jewish communes in the cases of Jews avoiding military service.

This indicates what can be done even in Russia. In his manifesto the Czar says: "We turn to our great family of the empire and, with the deepest and most heartfelt pleasure, even amidst these times of national struggle and difficulty, bestow upon them some gifts of our royal favor for their greater enjoyment in their daily lives." It is to be hoped that by and by the Czar will have another boy and feel so good over it that he will grant some of the important reforms which his discontented subjects are demanding.

THEY WANT MORE.

We have been kind to the Porto Ricans and they know and admit it. But we haven't been kind enough to make them feel just right. They want more of the protection which is so justly valued and so benevolently and beneficently given in this country. The great industry of the island has always been the production of coffee. Before the annexation to the United States the Porto Ricans found a market for their coffee crop in Spain, where it was well-known and popular.

The Spanish people paid good prices for Porto Rican coffee, and the coffee growers in the island were prosperous. Annexation to the United States destroyed the Spanish market, to which it became a foreign product and was excluded by the tariff of Spain, and the island farmers were driven to the market of the United States. To our market it is admitted free of duty. But so is coffee from all other countries, and our people being unacquainted with the Porto Rican product, there has been but little demand for it. It is brought into direct competition with Brazilian coffee, which is commonly used in this country and which sells for one-fourth the price that the Porto Ricans formerly got for their coffee in Spain. It appears to be especially exasperating to the coffee growers in the island to observe the prosperity of the small sugar industry which has grown up under the stimulation of the tax imposed to create a sugar-beet industry and fatten the Sugar Trust. The area of land in Porto Rico suitable for sugar-cane growing is small, and it is said that most of it has been seized by people from the United States. While the great expanse of the island which is planted in coffee is languishing, the small area in sugar is prospering.

There is talk to the effect that it would be unjust to tax the whole population of the United States, numbering 80,000,000, in order that 1,000,000 people in this subject island should prosper, but the Porto Ricans don't see any more in that talk than some of the protected ones in this country see in the talk of free traders or tariff-revisers.

Chapel Street, Brooks & Co. Corner State.

A Bit of Whittman. It is afternoon. I am sitting on the bleachers with some one's feet in my coat pockets. There are about me eleven thousand fellow-men, with their mouths open. And pop bottles on the way to or from them. Occasionally they shout. I am stunned, deafened, confused by the mighty outpouring of sound vibrations. But I do not mind it. I am wedged between mountains of flesh, somewhat moist. It is hot. I am baked, parboiled, incinerated, and perspiring. But not so much so as the man next to me, whose collar resembles a rag. He is fat. For five cents I have protected myself against the adamantine of the planks beneath me. By a cushion. On the whole, I am very happy. A man has stepped to the plate. He is a short, squat man, earnest, purposeful, with wide hands, a red neck and dirt on his pants. I know him. Last year he batted .398. He is homerunful. If he hits the ball I have won two bones from the man beside me. It is a crisis. The multitude, intense, surging, wild-eyed, holds onto its breath with both hands. Suspense incarnates itself. "The short, squat man has connected with the ball. Like the spokes of a chariot wheel his legs revolve toward first base. I yell. I throw my hat, recently bought, in the direction of left field. My back receives the castigation of many maniacs behind me, while Pandemonium, lurid, deep-lunged, intense, stalks about the grounds with its coat on. Hush! Some one has turned off the cheering. A thing called the umpire has brayed. The short, squat man is out. I hear cries about me. They indicate rage, anger, fury, frenzy, disgust, hate, loathing, repulsion, passion, aversion, despair—what you will. I join in them. They reflect my sentiments to a T. I dash my cushion to the ground. I climb to my seat and yell, "Crunch the black hearted robber!" "Run him off the grounds!" "Desecrate him!" These, with other expressions and epithets of which I am now ashamed. I boil with rage. The fat man next to me has pocketed my money. —The Council Bluffs Nonpareil.

PEOPLE'S PARTY NOMINATE JUDGE SHELDON GIVEN THE GUBERNATORIAL NOMINATION.

III Health May Prevent Acceptance—Full State Ticket to be Chosen—National Candidates and Platform Ratified—First Activity in Eight Years—Many Delegates Here Yesterday.

For the first time in eight years the people's party is taking an active part in the political affairs of state and country. At the convention of the state delegates yesterday afternoon in Trades Council hall in the Insurance building there were fully seventy-five delegates present for a part or all of the time, and many letters of regret were received from delegates unable to attend.

During the morning a number of the leaders of the party gathered at the Hotel Garde while others went to the Trades Council hall and talked over a state ticket with State Chairman T. L. Thomas of Bristol. This slate was almost entirely ratified at the convention in the afternoon.

For governor, Judge Joseph Sheldon of this city was nominated. At present Judge Sheldon is at Mountain Lake park, Maryland, for his health, and there is some uncertainty as to whether he will accept the nomination. It was impossible for the leaders of the party to communicate with him yesterday, but they entertain good hopes that he will accept.

For lieutenant governor a prominent Norwalk manufacturer was nominated, who will undoubtedly accept the nomination. Dr. Austin B. Fuller of this city was nominated for congressman at large. The rest of the state ticket was left in the hands of the executive committee, who, wherever it is impossible to find a strong candidate from the ranks of their own party, will nominate the candidate of another party.

In this manner the leaders of the party hope to demonstrate that fusion with them is to be desired by all parties.

The following were nominated for presidential electors: Robert Pyne, Hartford. Andrew Henry D. Shepard, Branford. E. C. Bingham, Cheshire. T. L. Thomas, Bristol. George Hubbel, Ansonia. O. E. Wadhams, Torrington. Andrew Leary, South Norwalk. Executive Committee.

T. L. Thomas, Bristol. Robert Pyne, Hartford. Austin B. Fuller, New Haven. Frank Gleason, New Haven. W. Wheeler, Meriden.

The convention was called to order by Chairman T. L. Thomas of Bristol, at 1:30 o'clock. Addressing the delegates, Mr. Thomas said:

"Gentlemen and Fellow Citizens: It gives me pleasure to again welcome you to a people's party convention after eight years of faithful work in the democratic party, for the success of our principles and the election of the grand, noble and upright man who has so ably worked for those principles in the democratic party, William Jennings Bryan, only to be crushed by the party which has claimed to be the party of the people. Let us think of William Jennings Bryan with sorrow for his defeat after long years of unceasing labor for the people and the democratic party, and be ever ready to welcome him into the ranks of our whole party, the people's party."

"Discussing the chances of success in this city and state, Mr. Thomas said: "Our nominee for the presidency, Mr. Thomas E. Watson of Georgia, is one of the finest men in this country. He ran on the democratic ticket for the vice presidency with William Jennings Bryan in 1896. Mr. Watson is a lawyer and a newspaper publisher. As a historic writer he has gained a worldwide reputation. "Thomas H. Tibbells, our nominee for vice president, is a newspaper publisher of Nebraska.

"Both men will poll many of the votes which were cast for Bryan when he ran. We also expect that many republican votes will be cast for our choice. "New York state alone will give us fifty thousand votes. In five or six other states we have a fighting chance. Among these states are Nebraska, Missouri and Texas.

"Of course capitalists will not vote for our ticket, but among the poorer classes, and especially from the small business men, we will receive heavy support. "Right here in Connecticut the outlook is very good. In 1894 we polled 6,000 votes. At present we do expect to do quite so well, nevertheless we vote for not less than five thousand votes. If we poll from 500 to 1,000 votes in every town of any size in this state we shall be satisfied.

"The time is short and the fact that we have not had any party machinery in operation in this state in eight years clearly shows that in this campaign we will thoroughly reorganize and build the party into a national organization

that will have to be reckoned with. Mr. Watson may speak in Connecticut as the campaign progresses. Theodore F. Snyder, of Erie, Pa., was the next speaker. He spoke on "The Outlook for the People's Party Throughout the Country." The convention ratified the national candidates and the national platform of the party. It seemed to be the general opinion of the convention that if Judge Parker is elected a disastrous panic will follow, involving the entire country. The leaders are confident that 5,000 votes will be cast for their candidates in this state, about that number being already pledged. This is a very good showing, considering that the party has been almost dormant for the past eight years, and from all appearances that number will be greatly increased in the next few years.

REGIMENTAL REUNIONS. THE 15TH AND 20TH C. V. AT SAVIN ROCK TO-DAY.

Large Gatherings Expected at Both These Occasions—Reunion Held Yesterday in Bridgeport of Second Light Battery.

To-day the annual reunion of the 15th Connecticut volunteers will take place at Putnam's shore restaurant, Savin Rock, preceded by a business meeting in this city at Admiral Foote post rooms, 119 Court street. At 12 m. the regimental association will board the cars at Church and Chapel streets en route for the shore. The dinner will be served at 1 o'clock. This is the regiments thirty-seventh annual. A good attendance is expected and a very enjoyable reunion, as usual.

The annual reunion of the 20th C. V. will also take place at Savin Rock to-day with dinner at the Pier restaurant. A goodly attendance is expected. The annual reunion of the Second Connecticut Light battery was held in Bridgeport yesterday, the dinner being served at Green's Sea View house. There were about thirty of the survivors present. The officers elected were as follows: President, N. B. Middlebrook of Stratford; vice president, David Walker of Easton; secretary and treasurer, William M. Earnum of Bridgeport; chaplain, Charles W. Scarritt of this city; executive committee, S. V. Nichols of Bridgeport, Charles Roberts of Stratford, and W. R. Palmer of Bridgeport.

During the past year two members of the battery died, James Nichols and Charles W. Rowe. After the dinner the letters from those who sent regrets were read, and the speeches of those present were listened to with pleasure. It was a delightful reunion.

The Second Connecticut light battery was organized in August, 1862, and was composed of two batteries of state militia of Bridgeport. It was commanded by Captain J. W. Sterling, who received marching orders on October 15, 1862, and the battery proceeded at once to Washington, D. C., and was assigned to the artillery reserve of the Army of the Potomac under General Robert O. Tyler. Shortly afterwards the battery proceeded to Gettysburg and were in the engagement of July 3, 1863. It saw service in Maryland, near Washington, D. C., Virginia, Louisiana, and was in the following engagements besides Gettysburg: Fort Gaines, Ala., Fort Morgan, Ala., near Blakely, Ala. It was mustered out at New Haven on August 9, 1865.

SAVIN ROCK THEATER. Hart, the human zoo, is one of the greatest novelties seen at the Rock theater this season, and Shedman's troupe of twenty-two trained dogs are certainly the best on the stage. They do all kinds of tricks, including acrobatic, trapeze and dancing specialties. Daly and Devere are unusually funny in an Irish sketch, the Gagnoux are more than clever in their original juggling act and Carew and Haynes in a race track sketch receive rounds of applause. Matinees every afternoon at 3:15, evenings at 8:15. To-day and to-night jolly-pops are given away at the Old Mill.

NEW LONDON 4, HARTFORD 3. Hartford, Aug. 24.—By winning to-day's game from Hartford New London tied the locals for fifth place. New London accumulated seven errors and Hartford had several opportunities to win but could not hit McCullough when hits were needed. Parkins was forced to retire in the seventh by reason of a sore finger. New London made a ninth inning rally and on a single by Armbruster and a double by Noyes scored the winning run. The feature of the game was O'Hare's running catch near the left field fence of a hard drive. Score by innings: Hartford 0 0 0 0 0 0 0 3 10 1, New London 0 0 0 0 1 0 0 0 4 9 7.

YESTERDAY'S STOCK MARKET. Tendency Toward Higher Prices Despite Unfavorable Conditions. New York, Aug. 24.—In the face of conditions which ordinarily make for lower prices, the market opened excitedly in the commodity markets, a further strain in the local labor troubles and selling by London on the international political situation, to-day's market showed a general tendency toward higher prices. Trading was dull and narrow, however, and again largely by professional. At the outset the tone was decidedly bearish. Union Pacific and Southern Pacific were among the early decliners, by reason of their strength, but their rise failed to stimulate any immediate response and the market hung back. Then the Gould or south western group made railway issues become conspicuous under the lead of Missouri Pacific and Kansas and Texas p. and this movement was followed by a general advance in many of the industrial and miscellaneous issues. Amalgamated Copper, Smelting, Sugar, Consolidated Gas and Brooklyn Transit all moved up, but the improved tone, while well maintained, failed to give any real demonstration. In the late session, chiefly Reading and Jersey Central, rumors of a plan to distribute a cash dividend to holders of Northern Securities were current in exchange circles just before the close of the market, but they lacked official confirmation and after the close of the day an authoritative transfer of \$600,000 crop money to Chicago—the first of the year—and \$150,000 in Canada. These shipments, it is understood, will be followed by even larger transfers to the west and to Canada to-morrow and by similar exports to Cuba. Conditions indicate that

for weeks to come the local banks will lose cash to the sub-treasury and to the interior. It is pointed out, however, that the unusually heavy reserves now held by these institutions preclude the probability of any general hardening of money rates. To-day's market for bonds was steady. Total sales, par value, \$2,525,000.

BRIEF MENTION.

High water to-day at 10:52 a. m. Anson Phelps Stokes, secretary of the Yale corporation, is again to enlarge his home at 73 Elm street. A permit has been issued to E. L. Armstrong, of 433 Chapel street, for the erection of a two-story frame house on East Rock road, to cost \$8,500. Scribner's Magazine for September at the Pease, Lewis Co.'s; also McClure's for September with more of Mr. Lawton's story about Amalgamated Copper and Standard Oil companies. The Young W. P. A. C.'s yesterday defeated the Columbian, 9 to 0. Brennan pitched for the Y. W. A. C.'s and struck out twenty men. The average age of the players is nine years. No. 3's chemical engine responded to a still alarm at 12:10 yesterday noon for a fire in the house occupied by Dr. Butler at 23 York street. The blaze was in a pile of old rubbish in the furnace and did no damage. It is not probable, in the light of advices from navy headquarters, that the proposition to furnish the battleship Connecticut with a library bought by popular subscription will be followed out, as Uncle Sam furnishes books for officers and men. A general order issued yesterday by the management of the New Haven road fixes the limit of through Boston and New York trains to ten cars, in order that trains may run on schedule time. Local and short run trains will not carry more cars than are absolutely necessary. Senator O. H. Platt, who has been invited to preside at the republican state convention at Hartford next month, has accepted the honor, it is understood, although no formal letter has come from him. The senator is in the Adirondacks at present, and probably will not return until just before the state convention. F. A. Carleton, of Woodmont and New Haven, who was recently nominated for warden at a caucus in Woodmont, has declined it with regret, owing to the urgent demands made upon him by his business. A caucus will be held at the engine house, Woodmont, Thursday evening at eight o'clock to nominate another candidate. A town meeting that was called for this afternoon by the selectmen of Hamden has been declared off, and a call issued for another meeting to be held next Monday afternoon at two o'clock. The purpose of the meeting was stated to be to take action relative to the Highwood school building. The selectmen have discovered that the call for the meeting did not reach the citizens in the full five days required by law. The lawn fete to be given this afternoon on the handsome grounds of Colonel Hollin Woodruff's summer home in Guilford promises to be a great success. The affair, which is given by the ladies of Christ church, Guilford, for the benefit of the church has created much interest. There will be guests from many near-by summer resorts and also from New Haven. There will be a sale of fancy articles and in an attractive booth refreshments will be for sale.

OBITUARY NOTES.

George W. Allen. George W. Allen, twenty-one years old, of 88 Lawrence street, died at the New Haven hospital yesterday morning. Mr. Allen had a tumor on his shoulder, and he went to the hospital to have it removed and he never recovered from the operation. Mr. Allen was employed as a stenographer, and he had a host of friends in this city who will deeply mourn his loss. He was a member of the New Haven Greys, and a delegation from that company will attend the funeral. He was the son of Mr. and Mrs. Walter A. Allen, and besides his parents he is survived by three brothers and two sisters.

The funeral will be held from his late residence Friday afternoon at 2:30 o'clock. Rev. Mr. Lent of the First Baptist church will officiate, and the interment will be in the family lot in the Evergreen cemetery. The pallbearers will be the ushers of the First Baptist church.

MRS. HATTIE RICHTER.

The many friends of Mrs. Hattie Richter, widow of Albert Richter, will be pained to learn of her somewhat sudden death, which occurred at the home of her parents, Mr. and Mrs. Stanislaus Karanink, No. 29 Scranton street, late Tuesday evening at the age of 32 years. Mrs. Richter had been ill two years with chills and fever, but it was not thought that she was dangerously ill, as she was out riding on Sunday, but a sinking spell occurred Tuesday afternoon, which resulted in her death later in the evening, and so her departure was unexpected and has cast a gloom over the household, where she was admired for her Christian character and loving nature. She was possessed of a large circle of friends who will deeply sympathize with the bereaved family in their affliction. She departed one had long since expressed the wish that she should die at the home of her parents, and her wish was gratified. The funeral will be held from her parents' home this afternoon at 2:30 o'clock, and will be attended by a large concourse of sorrowing and sympathizing friends. The loved daughter and wife will be laid at rest in Evergreen cemetery.

THE EDW. MALLEY CO. THE IDEA OF TURNING BACKWARD AND FORWARD SOMERSAULTS ON A TIGHT WIRE IS A DISTINCTLY NEW ONE AND HAS NEVER BEEN SEEN HERE. Not only does Cadieux at the White City this week do that, but increases the difficulty of the feat by wearing cavalrymen's boots and spurs. He bounds at least five feet in the air from the tight wire, makes a complete somersault and lands with his heavy boots on the wire apparently as solid as he might on the ground.

MRS. FRANCES E. GATES. Mrs. Frances E. Gates died suddenly of heart trouble Tuesday afternoon at 36 Park street, after an illness of a few days. She was in good spirits Tuesday and her condition was hardly considered serious. Late in the afternoon she suffered a sinking spell, and her daughter left her room to call the doctor. When she returned her mother had passed away. Mrs. Gates was one of New Haven's old residents, and a host of friends will be shocked to hear of her death. Funeral services will be held this afternoon from 1173 Chapel street at 2 o'clock.

THE WHITE CITY. The idea of turning backward and forward somersaults on a tight wire is a distinctly new one and has never been seen here. Not only does Cadieux at the White City this week do that, but increases the difficulty of the feat by wearing cavalrymen's boots and spurs. He bounds at least five feet in the air from the tight wire, makes a complete somersault and lands with his heavy boots on the wire apparently as solid as he might on the ground. Miss Martie Sprague, the champion lady high diver, is still appearing. The dancing pavilion will be free until the end of the season and the Bump the Bumps likewise. To-morrow night there will be another exhibition of fireworks.

We are prepared to do fur work at summer prices during the warm weather, and this in cludes the care of furs until wanted.
