Middletown, Dec. 7 .- John Hunns, the on Saturday last. complainant against ten members of the degree staff of the local aerie of Eagles, described his experience in the initiation ceremonies when the case came up for a hearing to-day.

Hunns testified that when he taken into the arie he was blindfolded and first of all laid out on a table. By means of an electric battery the letters "F. O. E." were tatooed upon his breast. Then he was given a pair of boxing gloves and told to defend himself. He did so, he said, as well as he was able, but nevertheless, he was soundly cuffed about the head so that ears were black and blue from bruises afterwards. He said that his shoes next were removed and he was given a pair of clogs and made to run. In trying to get away he said that his arm was hurt badly. He also was placed in a rope harness, he said, and made to go through various stunts. R. W. Stebbins, a brother-in-law, of the complainant; said he went into the aerie at the same time and saw the

performance as described by Hunns. Dr. Sage testified that Hunns came to him with an injured arm and he sent Hunns to Dr. Sweet for treatment. He thought it would be three weeks before the arm would be all right.

LECTURE ON PURITANS.

Dr. Cadman Delivers Excellent Address Before Congregational Club. The new Congregational club held a meeting last evening at Davenport church, the Rev. Mr. Prentiss presidng. There was a large number of persons in attendance. The ladies of the church served an excellent supper, which was thoroughly enjoyed by all present. Several new members were

admitted to the club. The feature of the evening was the scholarly and impressive address on the subject of "The Puritan in Two Worlds," delivered by the Rev. Dr. Cadman, pastor of the Central Congre-gational church of Brooklyn, N. Y. Dr. Cadman traced the history of the Puritans from the earliest times in England, down through the time of Cromwell, England and Bunyan, and the events leading to the emigration to America. Then he outlined the story of the struggles in America and the history of their progress here. The ex-cellent lecture was much appreciated by those present.

AN AMUSING ERROR.

New Yorkers Much Mixed Up Over

Newspaper Notice.

The "Power of the Preas," which is the title of a song in Lillian Russell's new opera, "Lady Teazle," was amply demonstrated on Monday night and Tuesday, when a slight error in a New York evening newspaper turned the theatrical contingents of two cities upside down. The paper in question, the Evening Sun, announced that the first performance of "Lady Teazle" would be given at the Hyperion theater, New Haven, on December 5. As a matter of fact, the attraction here that night was De Wolf Hopper in "Wang," and the first that Manager Collin knew of Miss Russell's supposed opening was the arrival of a newspaper correspondent with orders to cover the event for his

Mr. Collin was amused, but the coming of other correspondents mystified him. The Hyperion theater, "Wang" and "Lady Teasle" all belong to the Shuberts, and Mr. Collin telegraphed at once to know whether there had been juggling with the bookings. He received a reply stating that De Wolf Hopper would be on hand to play the

Meanwhile, however, Miss Russell's friends on Broadway, awakened to the imminence of her opening, were burning the wires with congratulatory messages. Edna Wallace Hopper made a late train to New Haven, and arrived here just in time to see the last act of "Wang," J. W. Jacobs, of the Shubert forces, had been shooting rabbits in Massachusetts and, seeing the item in a newsaper which fell into his hands, stopped off here. One of the correspondents, whose instructions were simply "Send six hundred words on opening at Hyperion," wired that length of message on the performance of "Wang," which, as everyone knows,

is fifteen years old. When Miss Russell received the congratulatory telegrams forwarded from this city yesterday, there were things done at the Lyric theater. And all beause of a ten line squib.

Miss Russell will open in "Lady Tea-zle" at the Hyperion on Thursday night, December 15.

vice men who were in Mrs. Chadwick's room said that the name of Andrew Sir Arthur D. Perkins Carnegie was mentioned several times Mr. Garde was warmly encored and The officers added that though nervous, response sang "The Little Girl." Mrs. Mrs. Chadwick does not appear as ill

The present arrangements are that Mrs. Chadwick will be taken to Commissioner Shields' office at 10 o'clock to-morrow morning, and it is expected that an application will be made to a United States circuit court judge by the United States district attorney for a warrant of removal to Ohio.

The complaint on which the warrant for arrest was issued is headed, "Cassie L. Chadwick impleaded with C. T. Beckwith and A. B. Spear." The com-plaint was made by United States Assistant District Attorney E. E. Baldwin and recites that on or about August 26, 1903, in Oberlin, O., C. T. Beckwith and A. B. Spear, respectively the president and cashler of the Citizens National bank of Oberlin, "did unlawfully, knowingly, feloniously and wilfully misapply a portion of the money, funds and credits of the Citizens National nd Mrs. N. R. Hotchkiss, Mr. and Mrs. bank with the intent on their part sociation and its shareholders and directors, that is to say, the sum of \$12,-500, by wilfully cashing and paying this ard B. "C: L: Beckwith, "A. B. Spear, Cashier." 'Good only when endorsed."

"That the same Cassie L. Chadwick by whom this check was drawn did not have on deposit with this bank the amount of money named or any sum whatever to pay this check as Beckwith and Spear well knew.

The source of this information is given as an affidavit of complaint made by Frank M. Chandler and sworn and subscribed to before Bernard F. Brough a U. S. commissioner for the northern district of Ohio on Dec. 6, 1904.

Philip Carpenter, one of Mrs. Chadwick's counsel, had a two hours' conference with her after her arrest. When seen later he said: "I anticipated the arrest, not that she had committed any crime but because public clamor demanded a sacrifice. I have no fear as to the outcome of this matter."

Mr. Carpenter said he would repre sent Mrs. Chadwick, to-morrow, at the proceedings before United States Commissioner Shields. He added that if she was able to give ball, which depended on the amount, she probably would remain at her present quarters; if not,

she would have to go to jail. Asked if she had had any conference Chadwick has not to my knowledge had line to the old ones, of length sufficient any communication with Mr. Carnegle, to accommodate a train, or even two I refusin to say anything about the Carnegle note, as this is an Ohio mat- about twenty miles apart on the averter and has not come to my knowl-Mrs. Chadwick will make no the points to form their junctions with statement to the public. Mr. Carpenter asked that a denial be made of the report that Mrs. Chadwick attempted to make her escape toservice men. This statement was conshe had changed her quarters,

THE SIBERIAN RAILWAY. From accounts we have received from a traveler who within the last month passed over the whole of the Siberian railway from Mukden to Euro-pean Russia, it appears that the Rus-sians are at present engaged in what is stock of coal, some of which has been nothing less than properly completing prought up from Port Arthur, and the construction of the line and bring-ing it into a condition fit to carry the gines between Mukden and Kharbin of stock, one of the largest and most heavy traffic with which it now has to cope. At the time it was opened, al- wood, though many fine permanent bridges mpanists, Mrs. W. L. Lines and and that the sound of the name each were erected over the larger rivers, travel from Mukden to Irkutsk, time caused Mrs. Chadwick to smile. many of the smaller bridges and cultraversing about one hundred were merely temporary strucverts tures of wood, which further were placed slightly out of alignment, so

ted afterwards, should afford a straight run. The work of putting in iron spans on concrete piers instead of these temporary bridges is now being vigorously pushed forward, being rendered all the necessary by the decay rapidly attacks the soft pine which was originally used. Another detail of the equipment to which great attention is being devoted is the erection of water towers for supplying the engines with water. Formerly this was done by means of pumping engines placed in chambers suna six or seven feet below the ground in order to protect the water from freezing, and, as the tops of engine tenders are some ten feet above the rail level, the water had sometimes to be raised through a total distance of twenty feet or more. These underground pumping stations are now being replaced at about forty places between Chellabinsk and Kharbin by brick water-towers built up to a height of fifty-five feet, so that the engine tenders may be readily filled by gravity, To prevent the water from freezing in the tanks of these towers, they ere packed with oakum and protected

enclosed with a brick wall, the funnel which carries the smoke and steam from the pumping engine below being carried up through the tanks to assist in maintaining the temperature. The existing permanent way requires continual attention. The rails light-fifty or sixty pounds-and ade laid upon transverse wooden sleepers in ballast, which, for the most part, consist of black soil, without stone or gravel. The result is that subsidences are frequent, notwithstanding that the sleepers are placed unusually close together. Then the soft pine of which the sleepers are made quickly rots, the

by roughly shaped logs, which are again

more so since no preservative measures are adopted, and the necessity for frequent renewal is shown by the heaps of rotting sleepers that lie along the line. Of course every effort is being made to increase the capacity of the line to its utmost. One of the great difficulties encountered in this respect lies in the fact that the sldings at places where two trains going in different directions can cross each other originally made so short as to be unable to hold the long trains now being run. This difficulty was minimized as much as possible by making the westward-bound trains short enough to go into the sidings and allowing eastbound trains, with as many trucks as the engines could manage, to run past them on the straight; but a radical cure is now being sought by building new sidings on the opposite side of the trains of any length. These sidings are

age, and to facilitate their construction

in one piece, so that all that has to be ground and put in the fish-plate bolts. Very heavy trains are being run, the minimum load over many parts of the line being sixty-five trucks, while it rises sometimes to eighty-five or nineday. He said that before she moved ty. Traffic is most congested on the to the Hotel Breslin from the New Am-sterdam, she consulted with the secret and the Russian frontier at Manchuria station; in consequence of the extremefirmed by one of the secret service ly heavy gradients there, not only are agents, who added that they had been the trains shorter, but especially powinformed by Mrs. Chadwick each time erful engines are required, and even so the speed up hill is sometimes no more Mr. Carpenter declared emphatically than a walking pace. The train in that Mr. Powers was not the lawyer which our informant traveled, and which was not passed by any other having represented Mrs. Chadwick in train, took three and one-haif days in Oberlin and Cleveland in vouching for getting from Kharbin to Manchuria the signature "Andrew Carnegle" on station, a distance of five or six hundred miles. This section includes the Hing-ngin tunnel, which is not bricked and is very wet; it is lighted throughout by electricity, and watched guards stationed in recesses cut at intervals in the rock. Big locomotive running sheds are now being built at Khailar for serving this piece of line but before these were taken in hand nearest locomotive shops were at Kharbin. The congestion of traffic is also very great at Kharbin, owing to huge accumulation of wagons which it is impossible to send back to Russia without interfering with the east-bound traffic; and in order to gain Chadwick that the federal authorities some room for shunting and working

Our informant took twelve days to travel from Mukden to Irkutsk, thus Stettin, which did not do more than in this city during his stay. trains going round the lake by the new railway. From Irkutsk to Moscow the trains were taking ten days to cover a distance which normally is done in six or six and one-half days. It must be remembered, however, that the westbound trains were often kept for hours in sidings, preference being naturally given to east-bound trains. Of these latter he counted ten or eleven daily on the average (one day thirteen) in the time during which he was not sleeping, say from six in the morning till eleven at night. The total number passing in the whole twenty-four hours must therefore have been about sixteen. London Times.

GOOD ADVICE FOR MISTRESSES. The employer of domestic help might as well make up her mind at the outset that masterly executive ability, lofty integrity of character and Chesterfieldian polish of manner can command higher inducements than she can offer, and that she doesn't have to call in the assistance of any X-ray to discover the things she could wish altered in her servants. If she is wise she will promptly decide whether it is a bearable or an unbearable matter. If it is unbearable, and can't be changed, the parting is inevitable. But if you find that, though you object to that particular manifestation of human weakness, still you can stand it without succumbing to nervous prostration, then make up your mind just as far as possible to gnor it. It doesn't make the rolls any lighter to say every time they are served that they are heavy again, and it does make the breakfast table less cheerful. If she comes, in late of an evening, it doesn't change her habits for you to lie awake watching and worrying and exclaiming every timethe clock strikes upon the lateness of the hour. But it does break up your beauty sleep, and perhaps your husband's too and you are liable to set up with a headache and start the day with the lowness of the domestic barometer invariable caused by a silent and visibly suffering person at the head of the table.—Good Housekeeping,

THE SPLENDID NEW ADDITION STOCKED FOR PULBLIC.

ig Additional Floor Space in New Store-Some of the Great Improvements-How the Store is Ventilated & -Great Stock Carried by Firm-How Some of theGoods Are Obtained.

A great pre-Christmas event in the New Haven department store circles is the big opening sale at Howe & Stetson's celebrating the opening of the large addition to their store, it being an extension fronting on Pitkin street. Yesterday was the opening day of the exposition and throngs of shoppers ladies in the main, inspected and admired the handsome new quarters. To add a further charm to the splendid effect Seeley's orchestra was on hand to discourse a pleasing musical programme. During the remaining days of the exposition which is scheduled to close Saturday night the orchestra will ontinue its offerings.

The new store has a floor space of 22,800 square feet, or nearly half an icre, and the basement part is now the argest and most conveniently laid out asement in the state. Down stairs and on the main floor part these are high ceilinged, light, bright and full of heeriness.

The new part of course forms an inegral part of the entire store, but it has in addition an entrance of its own issuing into Pitkin street, that new ousiness street that is being so finely built up now. This is a great adventige both to the public and to the firm, as it does away in part with the congestion on Chapel street and so renders both receipt of supplies and shopping

Near the Pitkin entrance is a very arge section devoted to house furnishings which flanks, as it were, a still arger area assigned to dinnerware, crockery and medium priced lamps in the center of this section. By the side of the elevator is the handsome section displaying imitation cut glass and lamps of a finer quality. The departent for real cut glass, silverware and the finer and more ornate wares is handsomely beautified by the many mirrors which set off the wares to excellent advantage and present a most delightful and splendid sight.

The new basement is ventilated by the aid of a powerful dynamo and fan the aid of a powerful dynamo and fan the armory can be secured for that which brings fresh air down from time. The circus of last year was such above the roof, forces it over steam heated pipes and distributes it through ducts which carry it in every direction.
At the same time all the impure air is forced out. The result is a continuproper degree and evenly distributed through the store. Dampness is obviated by a concrete foundation under the

CLOSING LECTURE OF DR. GRIGGS

In the Public Lecture Course This Evening. Professor Edward Howard Griggs

will give his last lecture in the Shakespearian course this evening at College Street hall at 8 p. m. His subject for to night will be "The Final Attitude— The Tempest." Dr. Griggs' thorough study and interpretation of Shakespeare's dramas make his lectures fasinating and extremely interesting to his hearers. The large audiences which attend these lectures in the public lecture course prove that Dr. Griggs is a great favorite with the cultured and literary class in New Haven. Dr. Grigge is the author of "Meditations," New Humanism" and a number of other books. We notice that he has just written a new book entitled "Moral Education," and it is very favorably spoken of in literary circles.

REV DR. R. A. HUME.

Interesting Adresses by Distinquished Missionary from India. Large congregations heard with

great pleasure the distinguished foreign missionary, Rev. A. Hume, D. D., who spoke at three different services in this city Sunday. Dr. Hume has for nearly 30 years been working in western India with evcellent success. In the morning he spoke from the pulpit of the Park Congregational church, talking of what the missionaries are trying to do in India. He referred to the four classes of Christian people found in both America and India. The first is Chris-tian merely in name; the second in name and cresd; the third in name. extra heavy, 72 inches and conscience; and the fourth in name creed, conscience and will. In America the first class is much the largest and the fourth the smallest, while in India

the reverse is true.

Rev. Dr. Hume spoke at vespers at the Pork church, describing the method of missionary teaching in India. He was listened to with close attention by a good sized congregation. In the evening he spoke at the union meeting of Congregational churches in the second Congregational church. He urged the need of large contributions for the carrying on of the missionary work in India. He said that the American board apportioned to his territory only 44 per cent of the amount needed to carry on the work successfuly. There was available only \$11,000 with which to support 59 churches, a theological school, 30 Indian workers and two newspaper. He said that \$45 would support a minister for one year in India, \$25 would supply a teacher and \$15 would secure for some boy or girl an education. We should give \$5 and \$10 for the work instead of five and 10 cent pieces, he said.-Norwich Record.

LETTER FORTY YEARS LATE.

General Howard Now S s for First Time One That Gene al Sherman Wrote Him Just After 1 ar.

Hartford, Conn., Dec. —In a few days General O. O. Howa a letter written to him learly forty years ago by General W T. Sherman. General Howard never w the letter until last Friday, when le came here to lecture at Trinity codege. Horace B. Austin called on the paperal and showed him the letter, which has been hanging in a frame in Mr. Austin's

house for years. The letter is dated May 20, 1865, and requests General Howard to ride with Sherman at the head of the column of troops in the grand review at Washing on on May 24. Howard had previous ly at the solicitation of Sherman given to General Logan the privilege of riding in the review at the head of the Army of the Tennessee, although Howard was its commander, and it was in recognition of this generous act that the invitation was written by Sherman. As Howard by some accident failed to get the letter, he was riding during the review in General Sherman's staff, when the latter sent for him and directed him to take his place beside him. General Sherman never knew that General

Howard did not receive the letter. It was given to Mr. Austin many years ago by his father, who is said to have received it from a clerk at Sherman's headquarters.

WEDDING.

Of Captain Rafftery and Miss Jennie Langley. The wedding of Captain John Henry

Rafftery, of Jacksonville, Fla., former ly of Norwich, and Miss Jennie Bertha Langley, of Millville, N. J., occurred at the home of the bride's parents in Millville on November 30. The bride was at tended by Mrs. Julia Rafftery, of Mystic, and the best man was Edgar Lee Langley. The officiating clergyman was Rev. Eli Gifford, of Clayton. The bride is popular in Millville and graduated from the South Jersey Institute in 1902. Only relatives attended the wed ding. Announcement cards have been received in New Haven by the friends of Captain Rafftery.

BRILLIANT SOCIAL EVENT. At the family residence on Temple street, last evening, Mrs. E. Hayes Trowbridge introduced her daughter Miss Dorothy Quincy Trowbridge, to society. Nearly a thousand invitations were issued for this reception, which was the most brilliant evening function in many seasons. The house was decorated elaborately by Champion. The principal color motif was pink, and the school friends who assisted the young debutante wore pink gowns. Purssell, of New York, catered.

MR. OVIATT'S CONDITION. Dr. Tuttle, who is attending Edwin S. Oviatt, the writer, who is so seriously ill with typhold fever, stated last evening that his patient was in a very critical condition and that he had several serious complications. Dr. Tuttle states, however, that his patient is at present holding his own and as this is the most critical time of the disease this sign is very encouraging.

The Toys And The Dolls Art Entertaining In The Basement.

Everybody that comes (and there are thous ands) say that the Gamble-Desmond Toy Store and Dolls' House is the nicest in town.

"Things don't look battered and thrown together here somehow," one customer said this morning in the writer's hearing.

"They do in some of the stores. And there is not half enough space to walk about in lots of places. The Toys seemed an after-thought"

"And I like your collection of Toys; they're not too cheap. Neither are they the too expensive kind."

"You've got the sort of Toys most everybody wants and the prices are Strikingly Low." Substantial and plenty of new things."

That woman said exactly what we would have told you in introducing the Toy Store this year. Buy early and let us store your purchases until you want them.

has always been a favorite field of endeavor on the part of the great masters of the art. It is a difficult form to work in. The opportunity for concealing barrenness of ideas by brillian-cy of color, which is so great in orchestral works, is rare in music written for a few instruments. For this reason a successful piece of chamber music is a high achievement. Works in this form are usually somewhat simpler and easier to follow than orchestral music, They appeal to the highest musical taste and yet they are easily comprehended. Those who learn to like chamber music usually prefer it to all other

Given by Consolidated Lodge, No. 609, I, A. of M., at Music Hall.

The second annual concert and ball given by Consolidated lodge, No. 609, I. A. of M., was held at Music hall last evening and was largely attended. The affair was one of the most successful held this year and all present had a most enjoyable time. The Elm City orchestra furnished a dance programme of twenty numbers, and Mr. McCabe did the prompting for the square dances. Refreshments were served during intermission, The officers in charge of the ball

were as follows: Conductor, John Cull; ssistant grand conductor, Jacob Schaff; floor committee, John Mullen. David McIliveen, James Egan, Howard Van Joy, James Legg, John Lynch, James McCrann, and F. ANNUAL MEETING HELD.

HOME FOR FRIENDLESS ELECTS OFFICERS.

Reports Rend-Financial Condition Sat-Isfactiry-Amounts Received During the Year-Rev. W. A. Beardsley Makes Address-Interesting Report of Secretary Bartlett.

The thirty-eighth annual meeting of the association of the Home for the Friendless was called to order in St. Thomas' parish house yesterday afternoon by the president, Mrs. Charles E. Graves. Owing to the resignation of Mrs. George P. North from the position James F. Donahue vs. Charles H. of vice president, the election of officers Meeker, et al.; foreclosure on mortgage for the coming year resulted in one change in the official board. All the old officers with the exception of Mrs. North were re-elected. They are as follows: President, Mrs. Charles E. Graves; vice president, Mrs. Mason Hubbard; treasurer, Mrs. Timothy Cowles, and secretary, Mrs. Ellen S. Bartlett. All of last year's committees were re-elected.

The report of Mrs. Cowles, the treasurer, showed the financial condition of the association to be in a most satisfactory condition. The balance on hand is double that which the report of last year showed. This is due to the fact that the proceeds from certain legacies have not yet been invested. The report shows the total receipts of the year to be \$9,788.73 and the total expenditures \$8,052.97 leaving a balance of \$1,755.74. The balance from last year was \$695.59.

The amount received during the year In subscriptions has been \$2,812.77; and from legacies as follows: Mrs. Baldwin of Hamden, \$1,404.45, which has been received within a week; Mrs. A. E. Kingman, \$1,009.98; A. E. Blakeslee \$131.24; and from the estate of Philo S. Bennett, \$500, one-half of the sum left to the organization. The total house hold expenses have been \$3,286.93.

The Rev. W. A. Beardsley made an Interesting address and then the thirtyeighth annual secretary's report was read by Miss S. Bartlett.

In her report Miss Bartlett said that few changes had occurred during the An acknowledgement was also made of the many bequests that had been received during the year and the history of the past twelve months was rehearsed at some length.

YESTERDAY'S STOCK MARKET

Violent Slump a Bolt from a Clear Sky. New York, Dec. 7.-To-day's violent slump in the stock market came upon the sanguine speculation element like a bolt from the clear sky. The fact that runaway bull markets always overrun themselves never avails to lessen the surprise of the speculators when the cabric crumbles. When the time comes that distrust comes to the bulls, and they attempt to sell their holdings it develops that the buoyant rise has been due to their own buying and there is nothing left to sustain prices when that ceases. That is probably the true explanation of the slump to-day, which took on fairly panicky proportions at to the usual industrious efforts to assign a cause in some new development in affairs that might be an index of a decline in the prosperous condition of business and industry. There was no such news forthcoming. There was a rise in the call loan rate in the day to the highest of the season, but this seemed to be as much an effect as a cause of the fall in prices. It was not learned that there had been any calling of loans or restriction of credits to precipitate the break, but the expectation of further gold engagements for export was confirmed and there

titude towards the market assumed by important financial powers. The sharp oses which were suffered gave spirit to ome of the assertions that combina tions had been formed to raid the mar ket and that some of the advertised at tacks on special properties of the last few days really represented a deeply laid plot which had the backing of great capitalists. The easy manner in which Amalgamated Copper succumbed to successive attacks was the ground for these assertions. Much importance was attached to a dinner and conference of railroad corporations which took place here last night and which, they supposed adopted alarming conclusions over the prospect for the railroads afforded by the president's rec ommendation to allow the interstate commerce commission power to fix freight rates. The tumble in Amalgam ated Copper was from 77 1-4 at the clos ing last night to 63 3-8 near the closing to-day. The decline in Sugar, Tennes see Coal, Colorado Fuel, Lackawanns and some other special stocks ran from 4 to 15 points, but aside from these it is hardly worth while to detail the declines, which ranged generally from 2 to over 3 points. The closing was weak and not far from the lowest under the influences of renewed breaks in Amalgamated Copper and Sugar. The few points of strength in the morning session were swept into the downward

CAPTAIN ALLEN'S PET.

New Arrival at the State Armory-A Young Frog Which Snters Through Water Pipe.

As Captain Allen, the genial superintendent of the state armory on Meadow street, was at work in the basement train yesterday morning, the wheels of the building the other morning cleaning up he heard a young peep or whatever else one may call the sound made by a frog. The noise made the captain look up and the sight he saw surprised him very much. The water in the big main pipe was running at the time. and out of the pipe came a large lusty looking frog, which jumped onto the side of the tub as it made its exit.

After shaking the water off Mr. Freggle gave a peep or croak which announced his arrival and called Mr. Allen's attention to the fact. It then slowly jumped up on a platform beside Mr. Allen and watched him while he continued his work.

All this happened some little time ago and now Mr. Frog is exceedingly well trained. Legend has it that he comes when called and eats out of Mr. Allen's hand. Whether this be so or not ve do not know, but we do know that Mr. Frog has made himself perfectly at home in the cellar; is ensconced for the winter, and is growing fatter every day. He is a great pet now with all those about the armory, who are aware

of his presence.

SAILED FOR PANAMA. Lewis Powell of 36 Orchard street sailed yesterday for Panama, where he is to become foreman in the engineering department on the Panama canal. Mr. Powell is a plumber, and has been in the government service before. He has been employed on government contracts in Mexico and a year ago was in Porto Rico. He will be absent until next summer.

A BRILLIANT ATTRACTION. At the Hyperion on Thursday, Friday and Saturday nights, December 22, 23 and 24, with a matinee Saturday, the Klaw & Erlanger Comedy company, with Peter F. Dalley, Fay Templeton, Virginia Earle, Joseph Coyne, Lee Harrison, Charles M. McDonald, Alfred Fisher, Louis Kelso, Edith Yerrington, Sue Stuart, Elphye Snowden and Lillian dies' aid society was held yesterday af- Hudson, with 100 others. The tremendous organization which will be per manently located at Klaw & Erlanger's Liberty theater after the New Haven engagement, is the most remarkable or ganization of its kind ever assembled in this country, and it will be one of the most brilliant attractions of the New Haven season.

New Haven Theater.

"Over Niagara Falls" will be presented at the New Haven theater to-night, Friday and Saturday nights with matince Saturday.

Numerous attempts have been made by quixotically inclined people to make the descent of Niagara Falls, but all without success until last October, when the feat was successfully accomplished by Annie Edison Tyler, a Michigan school ma'am. She had built at Bay City, Mich., a large conical shaped barrel, some five feet high. This was weighted with a huge blacksmith's anvil, and she was strapped inside. The barrel was then supplied with air by a common breycle pump, and thus give it to your husband for Christmas equipped, the descent of the Falls was A fifth off at Brown & Durbam's all the successfully made. Miss Taylor suffered but slightly from her perilous feat. Her performance inspired Joseph Le-Brandt, the well known playwright, with the idea for the big mechanical effect in "Over Niagara Falls," which has been since perfected by Messrs. Rowland and Clinord.

It is excellently presented by a company of players of high average merit, and with all the electrical and scenical effects utilized in the original New York production, where it enjoyed a phenominal run. There is considerable medy in the story and is not without

pathos and human interest. Seat sale now open.

"THE BLACK MASK." at the New Haven theater Monday, Tuesday and Wednesday next week with matinee Wednesday.

The following description which appeared in one of the London daily papers supplied the theme upon which one of the strongest dramas known to the stage has been written: "Who is the Black Mask? He is a tall man, and during his nefarious operations always wears a long white overcoat and a black mask which hides his features. From this latter habit he has become known throughout the country as the 'Black Mask' and the very mention of that name is enough to cause a shuder amongst our peace-loving citizens."

"THE VOLUNTEER ORGANIST." Two of the strong scenes of "The Volunteer Organist," which comes to the New Haven theater Thursday, Friday and Saturday nights next week, are the snow storm scene, in which a lost child is rescued by two St. Bernard dogs, and the interior of a church, where the volunteen organist is seen at his post, and the choir boys, led by Master Willie Nelson, presenting the "Holy City." Matinee Saturday.

Poll's Theater.

Riccobono's trained horses and dogs and the spectacular act of McWalters, Tyson & Co. in "Vaudeville" make up the chief features of the bill which has been witnessed by crowded houses all the week.

Other acts include the Faust trio, Lottle Fremont, Dick Garnells and Victor Jerome, a local boy, had the house in screams of laughter. It's great comedy they offer and the tumbling vork is also a feature.

Allan J. Shaw can gather coins from the air with slight of hand work. The Brittons as colored artists, are the hottest couple seen here this season. The Allens, Searl and Violet, have the "Sign Painter," and Barr and Evans have comedy sketch, the electrograph closing "The Escaped Lunatic Who Thought He Was Napoleon Bonaparte," and other equally funny series.

Prices: Evenings, 10, 20, 30 cents; natinees, 10, 20 cents; ladies at matinees, 10 cents; box seats, 50 cents.

THE "MESSIAH" AT WOOLSEY

HALL Lovers of choral music are looking forward to a rare treat in the production of Handl's great oratorio, "The Messiah," in Woolsey hall on December 15. The great audience that listened to the performance of this work hast year by the New Haven Oratorio society were unanimous in the opinion that it was the greatest singing ever lone by a New Haven chorus. The management is certain, however, that the rendition this year will be even better, as the chorus has gained much in spirit and confidence from last season's work, and much of the work of preparation this season has been devoted to the perfection of details. The sale of seats to the public will begin at 10 a. m. on Friday, December 9, in Woolsey hall, and will continue daily between 10 a. m. and 6 p. m. Members secure a limited number of seats on the day before, but the management has taken care that more than one-half of the best seats will be available at the opening of the public sale.

SITTING ON A DICTIONARY Is one way of "raising" a child, but it's bad for the dictionary, and not comfortable for the child. Instead get a youth's chair at Brown & Durham's and see how it fits next after the high
