# RUSSIAN BATTLESI IP REPORTED FOUNDERED

UNCONFIRMED DISASTER TO ROJESTVENSKY'S FLAGSHIP.

St. Petersburg Dispatch That the Vessel Struck a Rock and Went Down-Baltie Fleet Last Sighted One Thousand Miles East of Zanzibar-Merchantmen Who Passed It Say It

Páris, Jan. 6.-The St. Petersburg correspondent of the Paris edition of trip from Seattle. It is understood the New York Herald telegraphs that that Vice Admiral Rojestvensky's flagship, the battleship Kniaz Souvaroff, has struck a rock and foundered.

London, Jan. 6 .- There is no confirmation here of the report from St. Petersburg of a disaster to the Russian battleship Kniaz Souraroff. According to a dispatch to the Daily Mail from Mahe, one of the Seychelle islands about 1,000 miles east of Zanzibar, January 5, both divisions of the Russian Baltic squadron were proceeding in the direction of Diego Suarez. Merchantmen who passed Vice Admiral Rojestvensky's division reports that the squadron keeps good station and anpears to manoeuvre well.

A report from Vice Admiral Rojestvensky's squadron was contained in a dispatch dated Tamatave, Island of Madagascar, January 2, in which it was stated that the vice admiral's division of the Russian second Pacific squadron, consisting of five battleships, three cruisers, two transports and a hospital ship had anchored on that day in the roadstead of Sainte Marie, an Island on the east coast.

The Kniaz Souvaroff was built at St. Petersburg in 1902 and was of 13,516 tons displacement. Her length 367 feet, her beam 76 feet, her draught 26 feet and indicated horse power 16,000. Her armament was of the Russian Krupp pattern and consisted of four 12-inch, twelve 6-inch, twenty 3-inch, twenty 3-pounder and six 1-pounder guns. She had six torpedo tubes. Her complement of men

### RUSSIAN NON-COMB 4TANTS.

Thousands Going to Chefoo-Refusal to

Allow Ships to Enter Port Arthur. Chefoo, Jan. 5-Night.-Japanese Con sul Mizoune to-night notified Russian Consul Tiedmann that the first portion of the one thousand resident non-combatants at Port Arthur who are to come to Chefoo will arrive Friday. It will be some time before the entire thousand reach here, owing to a shortage of

transportation facilities. Most of these non-combatants are in good health, although some of them are merely sufficiently convalescent to

reach here. The authorities at Tokio having refused that proposition made by the Russian minister at Pekin, Paul Lessar to send a ship loaded with medical supplies and foods for the invalids, it has been suggested that this ship be diverted to Chefoo for the benefit of the

expected non-combatants. The local Russians are busy to-night endeavoring to find quarters for tomorrow's arrivals.

Consul Mizoune says that the refusal of the Japanese to allow either the Andromeda or the ship ordered by Minister Lessar to visit Port Arthur is in pursuance of a strict policy not to allow any foreign ship to approach the

# LOOKING FOR NEW DESIGNER

LIPTON STILL HOPES TO LIFT AMERICA'S CUP.

Sir Thomas Dewar, M. P., Arrives in This Country and Announces That Lipton is Searching for Man to Replace the Deceased Watson-Tribute to the Hospitality of Americans.

New York, Jan. 5.-Bringing the new that Sir Thomas Lipton is looking for a new designer to build another Shamrock to compete for the America's cup, Sir Thomas Dewar, M. P., arrived today on the Graf Waldersee.

Sir Thomas comes to attend the Flor ida automobile races, of which he has been appointed honorary referee .-

He said: "I dined with Sir Thomas Lipton shortly before I sailed, and asked him what about that America's cup. He said he was looking for a new de signer, now that Watson was dead, and that he had not given up hopes of bring ing the cup back across the Atlantic.' Sir Thomas then showed the telegram

which he received from Sir Thomas Lip-

OBJECTION TO ALTERING DATE OF TAX COLLECTION.

Morse, of Connecticut Savings Hank, Says it Would be a Hardship to Many Taxpayers - Ex-Governor Morris' Son Also Opposed-Others Favorable to the Proposition-Failure to Collect Military Tax Criticized-Doing Away With Some City Officials

The first of the public hearings be fore the board of finance, on the vised plan of George W. Lewis' plan proposing changes in the collection of the city taxes was held last evening in the chamber of the board of aldermen. The revised plan differs from the original plan in the elimination of the discounts on advanced payments of taxes which was contained in the original proposition, but which was deemed inadvisable. Mayor Studiey presided at

ast evening's hearing. The session was opened by the reading of the plan by City Clerk Norris. The first person to speak upon the subject was Henry Donovan. He favored Lewis' plan. # ATTACKS OFFICIAL FIGURES

GEORGIA REPRESENTATIVE AF-TER AGRICULTURAL DEPT.

Declares in the House That the Inacci racy of Its Figures Has Caused the South Rendy to Demand the Abolition of the Statistical Burenu.

Washington, Jan. 5.-The govern ment's statistics as prepared by the agricultural department and census bureau formed the subject of an extended discussion in the house to-day. Representative Livingstone, of Georgia, attacked the reliability of the government's estimates and charged that the inaccuracy of the figures had created a panic in the cotton market. He called attention to the dissatisfaction which he said existed in the south over the government cotton statistics, and said that the press of that section was ready to demand the abolition of the statistical bureau of the agricultural department. The question came up on a motion by Mr. Wadsworth, chairman of the committee on agriculture, to lay on the table the resolution, presented by Mr. Livingstone several weeks ago, calling on the secretary of agriculture for information regarding the method of collecting cotton statistics. The mo tion to lay on the table prevailed after Messrs. Burlin, of Texas. Wadsworth, of New York, Lovering, of Massachusetts, and Sims, of Tennessec, had vigorously defended the government's esti-

Some excellent work in wood has been done in the carpenter shop of Strong school by the pupils of late. One of the this evening to arrange for the esals of articles is a Dutch windmill, about six feet high, which attracts attention in the principal's office, the work of the boys. There is also in the office a carpenter's beach, with tool case on swinging pivot. This was the work of Supervisor Graves, who has shown skill in a number of articles constructed and in supervising the boys' work-

The Christmas reception by the East Pearl Street Chautauqua circle this week was one of the most interesting ever held. Each member was allowed to invite a friend, and there were fiftynine present. All brought a ten-cent gift and each was required to guess a conundrum, and the successful answer entitled the guesser to the gift having the answer to the conundrum. Ice cream and cake were served. The committee consisted of Miss Grace Bristol, Mrs. H. I. Barnes and Miss Bessie Larkins. The gathering was held at the home of Miss Etta Avery, 69 East Pearl street. The next meeting will be held at the East Pearl Street M. E. church.

There were forty-two persons present this week at the twenty-seventh annual reunion of the Bishop family, held at the residence of Samuel Bishop, No. 68 Woolsey street. The eldest person at-tending was Asher Sheldon, of this city, who is ninety-one years old, and the youngest was Georgiana Way, nine months old. Mr. Sheldon is hale and hearty, and attended a reception at Plymouth church the same day. Among those from out of town was Clifford Bishop, of Guilford. Vocal soles were rendered by Miss Eleanor Bishop, Mrs. George T. Vaughn and E. E. Cowles, of East Haven, and Miss Mabel Simsk and William Bishop played several selections on the plano. The host, Mr. Bishop, entertained the company with an account of his recent travels in Europe, illustrating with a number of photographs and displaying a collection of three hundred souvenir postals. Refreshments were served. A committee of three was appointed to arrange for the next annual.

#### THE POST DISCOVERY A Revelation in Human Food.

Previous to the discovery of the Post process of changing the starchy part of Wheat and Barley into a form of sugar. many people suffered from what is known as starch indigestion.

That was shown by gas and all sorts of stomach and bowel trouble, (sometimes ending in appendicitis) brought on by the undigested starch in wheat, oats, white bread, cake, puddings, etc.,

etc.
Nature ultimately punishes anyone who continually takes some medicine or drug to smooth over or nullify bad conditions of the body. The only safe way to cure such is to correct or remove the cause. Therefore it was plain to Mr. Post, in working out his discovery that people who show some weakness in digesting the starchy part of food, (which is much thoe largest part of all we eat) must be helped by having the starch digested or transformed before being eaten. And of course the safest and truest way to do this would be to imitate nature and avoid all chemicals or outside and unnatural things. The body digests the starehy food by the following process: first it is mixed with the moisture or juices of the mouth and stomach, then warmth or mild heat from the body grows or develops diastase from the grain. Time is also an important element and when all work together and the human organs operate properly, the starch is slowly turned into a form of sugar, as it must be before the blood will absorb it and carry the needed energy to different parts of the body. Of course if the body fails to do its work perfectly trouble sets in.

So in the making of the famous food, Grap-Nuts, moisture, warmth and time are the only things used to turn starch into sugar, thus imitating nature and keeping the human food in original purity, free from outside things and just as Mother Nature intends it shall be kept for advantageous use of her children. The food is fully cooked at the factories, and is crisp and delicious with a little thick cream poured over.

It can be softened for people with weak teeth, but is most valuable to others when it must be energetically chewed, thus bringing down the saliva from the gums to go to the stomach and help digest the entire meal, besides the use of the teeth strengthens and preserves them. Nature blesses the parts of the body that are used and not abused. Grane-Nuts food brings peace, health and comfort when people are in despair from alls resulting from undigested food.

ENTERTAINMENTS.

Hyperion Theater.

George Primrose, the most famous minstrel performer in the country, will appear at the Hyperion Theater tonight and to-morrow, matinee and evenng, assisted by an all star company of black-face comedians, singers and dancers. A high class black-face minstrel show, with its witty jokes, comical songs, old-time darky melodies, the old favorites which our daddles knew and loved "befo' de wah," and above all, the absence of chorus girls and tights, is a attractive change from the class of mu-

LULU GLASER.

Glaser January 13 at the Hyperion theater. She has just finished a run of several weeks duration at the Knickerbocker theater. New York, in her new comic opera, "A Madcap Princess," Her engagement there was most prosperous, but better yet, this work was day. received as being an almost perfect specimen of a style of entertainment that has been much belied and carica tured during the past ten years or so.

In short "A Madcap Princess" is comc opera-nothing else. It is built upon the same subject as that charming romantic drama known as "When Knighthood was in Flower" and Miss Glaser sets herself the task of portraying the bright, rollicking character of Princess Mary. It has proved a labor that she delights in, and the critics and public of the metropolis were quick to appreciate the whole souled foy with which she clothed this gentle but jolly historical character. It is full of subtle humor and broader jest, and marks a big stepping stone upward in Miss Giaser's artistic career; for without any exaggeration or lavish praise, it can be claimed that this performance places the actress at the very front of all our comic opera artists. It is one long laugh to be sure, but it is a laugh based on sane and reasonable grounds and helped by a good story; very tuneful, but not ambitious music and an exceedingly handsome stage setting.

Ehe company supporting Miss Glaser is a wholly competent one. In particular the figure of Henry VIII., by Mr. William Pruette, the barltone, is a remarkable one.

"BY RIGHT OF SWORD."

Excellent Romantic Comedy at the Hyperlon Last Night. Ralph Stuart, an actor of considerable company in the presentation of a strong omantic comedy drama, "By Right of Sword," at the Hyperion last night. The audience was not great in numbers, yet the enthuslasm was stronger than

is noticed in larger houses. The production seemed to meet the approval of all, and it was generally agreed that Mr. Stuart and his company should have had a crowded house. He is an actor of much ability, and his work last night was of a high order. "By Right of Sword" has its action in Moscow, Russia, and there is just that tinge of military spirit in it

It begins with Mr. C. B. Dillingham presents Miss a frolic and ends with a frolic. It is an entertainment blending the grotesqueries of farce, the specialties of vandeville and the beautiful melodies of opera. The production is one of the big hits in musical comedy.

There will be a matinee on Wednes

Poll's Theater.

Everything on Manager Poli's bill this veek is meeting with great success. The Bijou circus has trapeze women performers of daring, a clown, who is really funny and some trick dogs, and two cute ponies, a grand spectacle for the children.

Frederick Bond and company are the blg feature this week and they certainly deserve a ribbon as first prize in the comedy line. The sketch, "My Awful Dad," is a clever one throughout.

Others on the bill include Fitzgibbon, McCoy trio, Charles Ernest, Don and Thompson, Fred Zobedie and Ford and Gehrue, with dancing specialty. electrograph closes the bill.

Prices: Evenings, 10, 20 and 20 cents matinees, 10 and 20 cents; ladies at matnees, 10 cents: box seats, 50 cents.

A ROUSING BIG JANUARY SALE.

Commenced at the Howe & Stetson Stores Yesterday-Bargains in Every Department.

What may well be called a rousing big January sale commenced yesterday reputation through some parts of the at the Howe & Stetson stores on Chapel country, though quite unknown to New street, and will continue for several Haveners, headed a very acceptable days with big bargains offered each day. The sale is especially notable this from the fact that this popular firm has combined its regular January "White Sale" with their January "Economy Sale." In former years either of these has been enough to delight the hearts of all conservative buyers in this city, and the splendid result of combining these two big features can hardly be imagined. That the public is not slow in appreciating the fine offerings of this big sale was evidenced all day yesterday by the large crowds of delighted buyers who throng ed the big store all day long, and as arouses fire and enthusiasm and aids one person in the throng remarked it in the relation of the story. REPORT BY FIRE NNUAL

Building Permits Issue During the Year. Joshua G. Gladwin, fire marshal and building inspector of the New Haven fire department, has submitted his annual report. The report shows that despite the general depression in the building world because of the high prevailing in building ma terials, the growth of the city has been

spent in new buildings is considerably n advance of that expended last year This year's report compares with last rear's as follows: Cost of new buildings in 1904, \$1,554,415;; cost of altera tions and additions, \$355,045. Increas in 1904 in new buildings, \$93,264; increase in 1904 in acterations and addi-

tions, \$191,590. Cost of new buildings in 1903, \$1,461, 151; cost of additions and alterations in 1903, \$163,450,

During the year there have been 404 building permits issued. The largest number for any one month was last April, when sixty were issued. Permits were issued as follows: Five

hundred and two licenses for sale of kerosene at retail; 9 licenses for sale of kerosene at wholesale; 45 licenses for sale of fireworks; 4 licenses for sale of gunpowder; 90 permits to contractors for use of streets for temporary storage of building materials.

Continuing, the report says: "All explosives were transported through the city under my supervision and without accident. Six slight fires were attributed to incendiarism, chiefly in unoc cupied and old buildings, but sufficient evidence could not be obtained to justify arrests."

In pursuance of the ordinances several buildings were condemned and ordered to be torn down.

M. Vogt, a Copenhagen engineer, has built a vessel as nearly as possible like Noah's ark, although only about onetenth the actual size. The descriptions in the Bible have been followed, and the outlines taken from the most ancient representation known of the ark, which is given on an Apamean coin of 200 B. C. Recently a trial trip was taken and the ark, which is one of 200 tons burden, behaved splendidly. The vessel is declared by marine experts to be not only the simplest kind of vessel possible, but also a masterpiece of shipbuilding, upon which the latest developments of the craft could devise no improvement.

The habit of confounding what the Deity permits with what He wills is a very common error."

There is a most remarkable contrast, tites Consul Horace W. Metcalf from weastle on-Tyne, "between the condiof the pig-iron trade now and its fron from the Tees, and the pamphlets, or circular or circulars, in

stocks in the warrant stores were falling. Yet the market was described as showing a 'dead-idle business,' and the prices of Cleveland iron tended downword. In every particular these condiions are now reversed. The shipments from the Tees are much smaller than stores have increased and are increasweeks risen until it is about that of a year ago, and instead of an idle busi ness, the latest report shows a strong market with a full business."

#### A MISSOURI TRAGEDY.

All the things don't happen in Kansas. Occasionally there is something doing in Missouri. For instance, a well-to-do, good looking young bachelor of Jefferson City was being badgered by the young ladies of a club there for not getting married. He said: Till marry the girl of your club which on a secret vote, you elect to be my little wife." There were nine members of the club. Each girl went away in a corner and used great caution in preparing her ballot and disguising her handwriting. The result was that there were nine votes cast, each girl receiving one. The young man remains a bachelor, the club is broken ur and the girls are all mortal enemies, united in the one determination that they will never speak to that nasty fellow again.

This tragedy teaches, but we will not try to point out what it teaches. Perhaps the young man knew and perhe was as wise as Solomon when Solomon ordered the baby cut in two. If he didn't know he knows now. Evidently the girls suspect that he knew.

#### LARGE GIVING.

When Andrew Carnegle started in to escape the disgrace of dying rich people were surprised and some wondered how long and how far he would persist in his strange ambition. He hasn't impoverished himself yet, and perhaps he will not live long enough to be able to, with some of the most enterprising and able men in the world working to keep his money supply up. But he has given away a lot of money. For instance, the statement is authoritatively made that he has, up to the present time, given or pledged himself to give speaking people. Of these 779 are in of these buildings is \$39,325,240, of fourths of the whole, has been expend-

ed in this country, about \$6,000,000 in England, about \$2,000,000 in Scotland, and \$1,475,500 in Canada. The proportion regularly, and this on a of the total population which Mr. Carties is, for the aggregate of the Engcator are metal, and when brought in lish-speaking race, a little more than 18 per cent., and that is the percentage for the United States, for England and means that eighteen in each one hundred persons, in all and in each of ient access to books by reason of Mr. Carnegie's beneficence. mostly dwellers in fowns and cities. It is a condition of library activity and usefulness that there shall be some density of population at the nucleus. and it is a condition of Mr. Carnegie's gifts also that the communities supplied shall expend annually a sum equal to 10 per cent, of the cost of the building, for the maintenance and upkeep of the libraries; that is, for books, library service, and repairs. In other words, a town accepting a \$50,000 building must pledge itself to expend \$5,000 per year to keep the library going. As this money has to be raised by taxation, it becomes a common interest. Everybody has a share in it. everybody feels at liberty to use the library, and everybody is interested in

its good administration. This is the way Mr. Carnegie does his library work. The other day this paper, with others, remarked that Mr. Carnegie gave money to some things on condition that his name be attached to them. We have received a note from Mr. Carnegle's private secretary saying for Mr. Carnegie that Mr. Carnegie never asked his name to be given to anything and never expects to do so. We gladly make the correction and apologize for giving currency to the

## PINNYPACKER AGAIN

Governor Pennypacker of Pennsylvania hasn't been exactly suited with the papers that don't do right. The procedure under the act would be as follows: Upon complaint of six citizens the attorney-general, if in his judgment a prima facie case had been made out. would file a bill in equity in the court of common pleas for the county in which the offending newspaper was published, and then upon the trial of the cause, if the evidence shall show the habitual publication and dissemination of false, defamatory or scandalous statements or representations, whether in the form of news, comment or illustration, it shall be the duty of the court to make a decree directing the suppression of the publication of the newspavion a year ago. In November last per or newspapers, journal or journals here was a very heavy shipment periodical or periodicals, pamphlet or

whole or in part, as in its judgment | the acre to the value of \$52,500; barley, the nulsance.

Probably the Pennsylvania legislature will not accommodate the governor in did pass an anti-cartoon bill for him. The result of this has been to make it a very risky business for the smaller newspapers in the State to publish cartoons of any nature, while the richer and stronger newspapers, the newspapers in the larger cities, have gone on publishing cartoons in violation of the Pennypacker law, just as though there were no such statute upon the books. The papers that Pennypacker would. reach have not been touched. The papers which he did not aim to strike down have been crippled. No one has dared to attempt to enforce the anticartoon law, because it is believed to be enconstitutional.

The talk is that Pennypacker is seeking to strike at the Philadelphia North Wanamaker. The North American is an independent newspaper. It tells its readers just what it thinks of Pennypacker, and it doesn't think very well

Can a debauched, drunken millionaire uy up the Connecticut legislature? There was no signature. The cards were sent out from Station H in New York city Wednesday afternoon-

None of the legislators seen cared to say at whom he thought the cards were aimed. Various of them, however, were not backward in saying that the sending of the cards anonymously was as low and mean a trick as any man could think of. The opinion was expressed generally that the cards would help the man at whom they were aimed. The word "millionaire" is, of course, supposed to point at a man now regarded as the leading candidate for the United

> Mayor Studley then told of the difficulties in the way of collecting the military and poll taxes. He admitted that it was unfair as at present collected but he declared that the same difficulty was experienced everywhere throughout the state.

Frederick Fisher declared that he would rather pay taxes every eleven months than be taxed extra. The military tax he characterized as a nuisance. William O'Brien heartily supported Mr. Lewis' plan. He tendered his personal congratulations to Mr. Lewis for proposed that a cut in salaries be made. and so the necessity of bonding the city for \$50,000 for a new schoolhouse be obviated. He said he could point out railway. In 1896 he was made second some instances where there could be money saved in the expenditures for various departments. He introduced a set of resolutions, providing among other things that itemized lists of city exizen and tax payer each year.

CONDITION OF PORT ARTHUR. Report That Town Appears Little Dan aged-Garrison Marshalled.

London, Jan. 6.-Special dispatches rom Tokio say that the Port Arthur garrison was marshalled at 9 o'clock Thursday morning at Yahutsui, in accordance with the terms of the supplenentary agreement.

The Standard's Port Arthur' corre ondent reports that the town appears to have been little damaged by, the combardment. Carriages and 'rickshaws, he says, are moving about with well dressed people, who apparently are anything but starved. The ruined forts resemble hills shaken by a mighty convulsion, and in many cases every trace of the work has disappeared.

According to the Daily Mail's Wei-Hai-Wei correspondent, the British cruiser Andromeda, which sailed from Wei-Hai-Wei Wednesday morning for Port Arthur with hospital stores and surgeons, and which was not allowed to make a landing at Port Arthur, had ber by the late Mrs. Murray. Judge a narrow escape, having passed two floating mines.

Japanese officials in London consider that it was solely on account of the danger of the vessel striking mines that the Andromeda's aid was declined. It is stated, however, that the British admiral omitted the formality of first ask-Judge Platt of the United States ing whether assistance was acceptable

Blunt Official Announcement That Auclaut Procedeure Will be Followed.

St. Petersburg, Jan. 5.-Few incidents of the whole war have aroused more bitter criticism than the blunt an-nouncement, officially issued by the general staff, that General Stoessel will have to come home and stand courtmartial for surrendering the fortress of Port Arthur.

While this is an ancient regulation and quite according to law, it is bitterly. resented on all sides that such an announcement should have been gratuitously made in the same bulletin containing General Stoessel's appeal to the emperor for "lenient judgment on a garrison reduced to shadows, who have done all that was possible for human the establishment of a suitable sinking beings to uphold the honor of Russia in

### BROKERS SUSPENDED

Sixty Days for Cotton 'Change Members Who Fought on Floor.

New York, Jan. 5 .- Four members of the New York Cotton exchange who have recently resorted to fisticuffs on the 'Change to settle differences were suspended to-day for sixty days by the governors of the exchange at their regular monthly meeting. The brokers are Charles Mayhoff, Charles T. McGhee, B. S. Castles and James J. Chew.

Mayhoff and McGhee had a fight on the floor of the exchange just before the opening of the exchange on Wednesday, the lie having been passed in a dispute over a transaction.

Castles and Chew engaged in an enounter in the Beaver street members' entrance about six weeks ago, the cause of the trouble being the unhappy ending of some "straight tips" on market operations on which both had lost. Among the new members of the ex-

change elected to-day were Albert J. Wright, of Buffalo, and James C. Nowell, of New Bedford, Mass.

HORSESHOE SUPERSTITIONS,

Belief That it Brings Good Luck Prevails All Over the World. The origin of belief in "horseshoe luck" is so ancient that it never has been determined with certainty, and no superstition is more universal. Ever since horses began to wear shoes these crescents of Iron have been accounted lucky emblems of all peoples, races and nations that have been acquainted

with their use. The Chinese, for instance, say they nail them up over their doors as a charm against evil spirits because of the close resemblance in shape between them and the arched body of the sacred snake, Nagandra, one of their princi-

ual delties. Ask a Turkish Mahometan for information on the subject and he will tell you that it is because they are in form like a crescent, the sacred emblem of Isliam.

A Polish Jew will explain that at the assover the blood sprinkled upon the lintel and doorposts, in the manner directed by their ritual, forms the chief points'of an arch; hence, obviously, the value of arch-shaped talismans such as horseshoes are.

The stolid and unimaginative Russian peasant, on the other hand, maintams that the luck associated with the horseshoe is due chiefly to the metal, irrespective of its shape, fron being traditionally a charm wherewith to nullify the malevolent designs of evil spirits and gobins.

Very different is the story which the

Irishman seeks to account for his lik-

Many Have the Erroneous Idea That

Fat taken into the stomach does not necessarily make fat.

Thousands of physicians have pre scribed cod liver oil for wasting diseases. They know that the fat or oil is not what is necessary to make fat or build tissue. They also know that the oil or fatty part of cod liver oil is very objectionable, it being too rich to be digested by a stomach weakened by

The reason doctors prescribe cod liver oil is because it contains certain curative properties. It is to take advantage of these same curative properties that they have so often tried to force their patients to take this horrible, greasy, vile smelling, nauseating rem-

# HALF AN ACRE OF SNOWY **UNDER - MUSLINS.**

OOKS as if the snow-storm had swept over our counters and shelves. Beautiful snow-white under-muslins everywhere. And in spite of the blizzard weather, our sale has eclipsed all records. It shows an appreciation of values. We started in with great big stocks in everything, but the animated demands of the past three days have lessened some of the lines. In spite of our special preparations, some articles have been entirely cleaned out. Many attractive bargains still on the counters. For example:
