STOCK MARKET FEATURES

EXCITING ADVANCES AND GENERAL BUOYANCY.

Northern Securities' Sensational Rise—

The Rise in L. C.—Liquidation but Stocks Well Taken—The Banks and Money—U. P.'s Activity—New High Records.

The market was strong, active and buoyant yesterday giving opportunity for realizing with those so disposed. Advances in some stocks ran from 2 to 5 points.

St. Paul set the pace for the market recording the extreme advance noted, and was followed by Union Pacific, New York Central and Illinois Central.

The local commodity markets were depressed by rather general liquidation. This was especially effective in wheat, which closed a half cent below Thursday after early advances.

There was a good supply of stocks at the advance in the first hour. The stocks were well taken, and with the absorption came a better class of buying.

The gross earnings of the New York Central and Hudson River Railroad company for the month of March show an increase of more than 8 per cent. over the same month a year ago.

Stocks like New York Central, Atchafalpa and Reading, which had been very strong in the early dealings, lost the greater part of their gain in the final hour.

The directors of the Northern Pacific have declared a dividend of 1 3/4 per cent., payable to stockholders of record on May 15.

Confidence in many of the deal theories, which waned considerably when the market was reactionary, has now picked up considerably.

INSPECT THE STEAMBOATS. Now is the time for the Federal steamboat inspection service to be thorough and reliable before the excursion steamers are commissioned to carry millions of people during the summer months.

License for engaging in this line of business, the boat carries a so-called permit in a frame, but there are no records of its issuance, and in any case it is now shown that the explosives are exposed in a way to make their presence an a-passage-maker extremely hazardous.

"I want to complain of the four you sent me the other day," said Mrs. Newlied, severely. "What was the matter with it, man?" asked the grocer.

YESTERDAY'S STOCK MARKET

Revival of Northern Securities Settlement Excitement Results in Speculative Reversal.

New York, April 14.—A revival of the Northern Securities settlement excitement resulted in a speculative reversal on the stock exchange to-day which spread pretty generally throughout the list.

But the conspicuous fact about the day's operations was their enormous congestion in the few stocks immediately affected by the current rumors, especially Union Pacific, St. Paul, New York Central and, in the curb market, Northern Securities itself.

United States Leather pfd. made a new high record, selling between 101 1/4 and 102 and off to 101 3/4. The bonds brought 99 1/2-2.

Confidence in many of the deal theories, which waned considerably when the market was reactionary, has now picked up considerably.

Most of the issues which were most buoyant Thursday were at times heavy yesterday, showing signs of extensive profit taking. Notable among them were Smelting company.

Pressed Steel Car was bid up over 4 points, and reached a level higher than that held previous to the passing of the dividend. It is now discounting a renewal of a disbursement of less than the old rate.

The banks show a large gain in cash holdings for the week ending yesterday. The preliminary estimates place this increase at \$2,704,000, as against a gain of only \$673,000 last week, when the Saturday returns showed a large actual loss.
