M. WITTE DECLINES TO ACCEPT A COMPROMISE

DECLARES MODIFICATION MERE-LY A SHAM, A CHANGE IN PHRASEOLOGY.

Agnin Says Russia Will Not Pay a Copeck of Tribute—Asks Baron Komura the Envoys Part to Meet Again Saturday-Outlook Again Black

Portsmouth, N. H., Aug. 23,-The Japanese plenipotentiaries at the conclusion of the afternoon session of the peace conference threw their cards upon the table. It was the dramatic moment-the moment to which all the previous proceedings of the conference had led. The protocols involving agreement upon eight of the twelve conditions originally presented by Japan had been signed. One side or the other must make a move or the plenipotentiaries had reached their parting of the ways. The adversaries had faced each well understood what would happen, about 1 o'clock by railroad men. but that, in a way, only made it more few words explained that Japa in her severe bruises. His condition is serious. great desire for peace was ready to make certain "modifications" of the original articles in the hope that Russia could find it possible to accept them. He then presented in writing to M. Witte the compromise proposition which President Roosevelt had suggested. It was concrete and specific, and it followed the lines outlined in these dispatches. It offered to withdraw article 9, providing for the payment by Russia of Japan's bill for the cost of the war, on condition that Russia would accept article 5, which provides for the cession of the Island of Sakhalin, so modified as to include an arrangement for the re-purchase by Russia of the northern half of the island for 1,200,000,-000. In addition it offered to withdraw entirely articles 11 and 12 (surrender of the interned warships and limitation upon Russia's sea power in the Far East). It was President Roosevelt's tents as well as Baron Komura. The question of whether he had been

"bluffing" was put to the test. Without a moment's hesitation M. Witte explained that the modification proposed was merely a sham, a change of phraseology, a diplomatic attempt to "dorer la pilule," and ask Russia to pay war tribute under another name. He could not accept it. He told Baron Komura Russia wanted peace. She had given the proofs in accepting every article involving the issues upon which the war was fought, but she could fight and money for tribute she would not pay-not a copeck. He asked Baron Komura to withdraw all demands for

ed, to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply to the Japanese compromise proposition. In reality the adjournment over the two days was to give each side an opportunity to consult its government for the last time.

The outlook is black. Many believe is was never so black as to-night. The Japanese are not talking. Indeed, tonight they appear to be more taciturn and more resolute than ever. The only and authorizing the issuance of special possible line of further Japanese concession is considered to lie in the direction of a diminution of the amount of jurisprudence. the purchase money demanded for the northern half of Sakhalin. The decision rests, therefore, as it has from the first, with Russia. Unless the emperor agrees to yield between now and Saturday, the end is likely to come on that day. And the indications from Peterhof, instead of raising the chances of a change of heart on the part of the emperor, seem to indicate even a firmer determination to yield neither territory nor indemnity, sugar-coated though the latter may be.

RUSSIAN POSITION IN DETAIL.

Why She Will Not Accept the Cor promise Proposition.

Portsmouth, N. H., Aug. 23 .- The following authoritative statement has been made to The Associated Press explaining the Russian position with regard to the latest stage of the peace negotiations:

"Statements have appeared in promiment American and English papers which, while eloquent and studiously moderate, and well intentioned, are unhappily calculated to mislead the world as to the prospects of peace and the brosses street, New York. Death was general character of Japan's so-called new proposal with which it is contended Russia can close without loss of dignity. The regrettable mistake into which the representatives of those journals have undoubtedly fallen is obviously the result of misleading data leavened with real but secondary facts. Thus it is quite true, as those papers predicted, that the envoys of Japan came forward at to-day's sitting with a proposal which was new in form, but pld in substance. It is equally true that that proposal lacks the two contentious clauses stipulating that Russia shall surrender to Japan her disarmed warships and limit her naval strength on the Pacific and that it reduces the difference between the two powers to the compass of what is in appearance n single question, the sale of Sakhalin. Beemingly, therefore, Japan has also struck her pen through the most ob-

YELLOW FEVER GAINS RENEWED ENERGY OUTSIDE OF NEW ORLEANS.

New Orleans, Aug. 23.-The yellow fever situation apparently improved in New Orleans to-day, while the scourge is reported to be gaining renewed energy in Louisiana outside of New Or-

To-day the number of yellow fever deaths fell to five from nine yesterday, while only ten new disease centers were reported to-day as against 21 yesterday. There were four fewer fever cases reported to-day than on yesterday. The number of cases under treatment in New Orleans gradually grows less in spite of the large number of new cases

reported each day. A feature of the situation that is attracting attention is the fact that what are termed centers of infection now exceed the number of cases under treatment. It is an encouraging feature because it is an indication of a slow extension of the fever, which is particularly true of the quarter above Canal

street. It is hoped soon to reduce the number of disease centers. There has been no attempt at reduction since the first announcement of fever a month ago. In order to take no chances, health officers will not cancel any disease centers until thirty days have elapsed,

Inspectors to-day discovered three cases in an Italian settlement beyond the outskirts of the city. A freshly infected spot in St. Bernard parish was announced to-day. Health

Officer Meraux found five genuine cases and three that were suspicious. The following is the report to 6 p. m. to-day for New Orleans: New cases today, 53; total to date, 1,56; deaths to-

day, 5; total to date, 219; new disease centers to-day, 10; total disease centers to date, 353. Under treatment, 312. In a report to-night Dr. Stark, state health officer at Lafourche, says that Dr. Devron reported to him to-day that up to date he had found seventeen cases of yellow fever and 200 cases of dengue at Leeville, and conditions were such that help was needed immediately.

ANOTHER ARREST IN THE COTTON SCANDAL

FREDERICK A. PECKHAM AR-RAIGNED AT SARA-TOGA.

Examination Continued Until To-day-Lodged in County Jail-One of the Most Conspicuous Figures in the Investigation of the Cotton Reports-His Indictment the First to Become Known in Connection With Recent Sensational Developments.

Saratoga, N. Y., Aug. 23.-Frederick A. Peckham, indicted for complicity in the department of agriculture cotton reports scandal, was arrested here today and arraigned before United States Commissioner C. M. Davison, who ordered an adjournment of examination until to-morrow morning. In default of \$12,000 bail Peckham was lodged in the Saratoga county fail at Ballston Spa.

Peckham was arrested at the Grand Union hotel. The adjournment of the examination until to-morrow was to allow time for the arrival of the United States district attorney, G. B. Curtiss, of Binghamton. The defendant has retained County Judge Rockwood as counsel. Two indictments were -found against Peckham in the District of Columbia, and a bench warrant against him was issued by Chief Judge H. M. Clabaugh of the District of Columbia supreme court.

FIRST TO BECOME KNOWN.

Indictment of Peckham in Connection With Cotton Report Scandal.

Washington, Aug. 23.-F. A. Peckham, the New York broker, who was arrested in Saratoga to-day, has been one of the most conspicuous figures in the investigation of the cotton report leakage in the department of agriculture. His indictment of conspiracy to defraud the government is the first which has become known in connection the sensational developments growing out of the charges against the integrity of the government cotton statistics. The fact of the issuance of the indictment had been very carefully kept secret in this city.

Mr. Peckham's name has been associated very closely with Moses Hass, of New York, and both of them decnined to testify before the grand jury here. Secretary Wilson reported that L. C. Van Riper, of New York, said that Haas acted as a go-between in conveying information from Holmes, the dismissed associate statistician, to other New York brokers. Correspondence between Holmes and brokers found by the se cret service agents contained the initial "P," which is said to have been the way in which Holmes referred to Peckham. According to the report of Secretary Wilson on the investigation he made Holmes admitted that he and Peckham had close relations, were at one time associated in a business venture in which Holmes "was to have an interest equal to the sum of \$6,000, which he was to receive as a gift from

the other members of the firm." Secretary Wilson said Mr. Holmes admitted that when he had occasion to visit New York he frequently found that his hotel bills were paid by Peckham or by Van Riper. Secretary Wilson's report charged Holmes with communicating advance information to Van Riper and Moses Haas, of New York. connection with Peckham on the con-

F. F. Brewster's Schooner Victor in 357-Mile Race.

Halifax, Aug. 23.-After a tedious run of 257 miles across the Gulf of Maine. F. F. Brewster's schooner, Elmina II. of the New York Yacht club, and Commodore Lawrence Minot's schooner Hope Leslie of the Eastern Yacht club, sailed into the harbor within three hours of each other to-day, the winners of the cups offered for the event by the Eastern Yacht club of Marblehead Mass. The Elmina II. crossed the finish line at 9:25:18 and the Hope Leslie at 12:27:31 (Atlantic time). More than four hours later the other competitor against Elmina II., A. F. Luke's Corona. came in to the harbor and finished at 4:51:02. Those on board the Corona stated that they arrived off the harbor early this morning, but missed the buoy after which the fog set in and the Corona was forced to lay off shore until this afternoon,

The yachts all reported a succession of calms, light breezes and thick weather, although the wind increased and last night and early this morning a squall was encountered. The log of the Elmina shows that at 4 o'clock Tuesday afternoon a yacht, which was supposed to be the Corona, was sighted five miles ahead. The Corona was also sighted at o'clock this morning by the Hope Leslie and later by the government steamer Canada.

At dark to-night none of the three other starters, the schooners Agatha and Black Hawk and the sloop Sanquoit, had been sighted.

The Elmina wins the cup for the class B schooners and the Hope Leslie that for class E. It is expected that the yachts will participate in a race on Saturday for the cup presented to the local club in 1860 by the present King of England.

Mr. Brewster, owner of the Elmina is a New Haven man and secretary of the W. & E. T. Fitch company.

ANOTHER LAWN PARTY.

Chapel Street

Another delightful lawn party was given yesterday afternoon for the ben-efit of the Morris Cove chapel. Mrs. Belser was hostess and the Durham lawn the scene of action. A very busy scene, too, as the perfect weather had called out a multitude of ladies eager to enjoy the occasion. The party opened at 2 o'clock and

was assisted by Mrs. Ives. Mrs. Phelps. Mrs. Bailey, Mrs. McDonald, Miss Durham. Mis Belser, and many others. The flower table was very beautiful,

and cake tea and sandwiches were among the attractions. The ladies of the Social Workers of the Morris Cove chapel have reason to feel proud of the success of the two lawn parties, the first having been given on Mrs. Ives' lawn a few weeks ago.

COMLAINED OF NUISANCE. A man came into police headquarters continued until evening. Mrs. Belser last night and complained to Sergeant Cook that there was a pile of refuse at the rear of 23, 25 and 27 Spruce street, which smelled so badly that none of the neighbors could keep their windows open. He stated that the pile was almost as large as a house. The

OBITUARY NOTES

Hotchkiss.

Mrs. Alimra Phinetta Kilbourn, widow of the late Joseph L. Hotchkiss, dled at her home, No. 10 Lincoln street, August 21, 1905, after a short but severe illness, in the eighty-second year of her age. The subject of this notice has been a resident of this city since her childhood days.

This fact afforded her a wide circle of acquaintances and friends, although by this time many of them have already crossed the river. As is the case with all who attain the age of fourscore, she was a person of uncome ly cheerful disposition, and a strongly

marked Christian character. Her death has brought great sorrov to the church of which she was an honored member. She united with the First Methodist church nearly sixty years ago, at the time when the church stood on the north corner of the Green Her parents, Aaron and Almira Kilbourn, being members of the same

church. Mrs. Hotchkiss loved her church, and the social means of grace where closer Christian fellowshinp is enjoyed, were especially dear to her. Her strong falth was always manifested in the cheerful testimony she bore for her Saviour, both in the prayer and class meetings. She had an open hand for the needy, and to the church, according to her means. She was truly a noble Christian woman. Her church will greatly miss her. Her earthly career is ended and she is gathered, with the

blessed on the other shore. She was united in marriage to Joseph L. Hotchkiss in 1844. This proved a happy union and was only broken by his death, which occurred March 26, 1904. The nearest relatives that surand Benjamin H. Kilbourn. The funeral services were held yesterday afternoon. The officiating elergyman was the Rev. Mr. Hill. Miss Banks, soprano sang two selections. The interment was in the Grove street cemetery.

ENTERTAINMENTS.

New Haven Theater. AT THE NEW HAVEN THEATER.

The famous Rentz-Santley company will open a three nights' engagement at the New Haven theater, commencing to-night. The Bridgeport says of as ten more strings of electric lights this production: The Rentz-Santley Co, was the magnet which drew a gathering of first nighters to Smith's theater last night. Judging by the laughter and applause which greeted the different features, the entertainment was a success. The programme consisted of the usual opening bur-lesque, this time called "Lady Teaser," the ollo, and the closing burlesque, entitled, "A Night's Frolic." The first burlesque was a satire on

Lillian Russell's musical success "Lady Some good singing was introduced, however, and the antics of the come dians caused laughter. Al Hawthorne

as Joseph Subway Carr and Myrtle Montez as Mile. Norty from Paris, were the stars in the opening production. The olio contained some vaudeville acts which possessed merit. Ella Claus and Myrtle Montez won applause by their singing and dancing. Lew Welch, a Hebrew comedian and parodist, was received so enthusiastically that he had to respond to numerous encores. Howthorne and Burt kept the house in

a continual uproar by their antics.

Cornalla and Eddy present one of the acts, so familiar in vaudeville, in crockery, while his more skillful partner performs clever tricks.

Tre closing burlesque "A Night's Frolic" is claimed as an episode of the Jap-Russian war. The comedians and the chorus worked hard and made many opportunities for laughter, of which the audience did not fall to take advantage.

There will be a matinee Saturday.

"THE SMART SET. "The Smart Set," one of the biggest musical comedy successes of the year, will be seen at the New Haven theater Monday, Tuesday and Wednesday nights, August 28, 29 and 30, with matlnee Wednesday. Judged from the flattering verdict of the press wherever "The Smart Set" has ventured, like the perfected aeroplane, it soars to such exalted heights of superiority, that the average musical comedy sinks into insignificance by comparison.

Such praise was mainly influenced from the refreshing assortment of mel-ody with which "The Smart Set" is so generously infused and from the truly artistic manner in which the novel and tuneful song creations are rendered.

QUEEN OF THE HIGHBINDERS." The limit for sensation will be reached when A. H. Woods' new melodrama, "Queen of the Highbinders" is seen at the New Hayen theater Thurs-day, August 31, matinee and night, for two performances only.

MISSION WORK

Rev. Joel S. Ives Tells About Work Being Done Among the Italians. Rev. Joel S. Ives, secretary of the Missionary society of Connecticut, has prepared some interesting facts in regard to Italian Congregationalism in Connecticut. He says:

"As early as 1893 religious work was egun among the Italians in the brickyards near the Berlin station, and as a result quite a number were received into the membership of the churches. Immigration decreased rapidly till in 1898 it only numbered about two hundred and thirty thousand; but during the last few years the total has shown a most remarkable increase, and for the fiscal year ending June 30, 1905, it was 1,027.421. For the last six months of this year the average was one hundred and five thousand per month, or at the rate of a million and a quarter for the year. For the last five years Italy has sent

o us an annual average of one hun-

dred and seventy thousand, and 'New

England receives a large share of them.

More than sixty thousand Italians may be found in Connecticut, while no previous year has ever witnessed as large an immigration from that country. Simply to note these facts is to recognize a problem which may well stagger the statesman and the Christian-The Hon, John Morley rightly compares the problem of Americanizing these aliens, who have come to us in such stupendous numbers, with the world problems which have often-times defeated the most notable commanders and brought failure to the most successful statesmen. The primal factor in the problem is the Gospel of Jesus Christ, and no soldier of the cross has ever failed from the time of Paul in Corinth to the latest preacher of righteousness, whether he preach to Saxon Latin, Slav or Hun. Kings and empires pass away, but the Church of Jesus

Mr. Ives says: "Vincenzo Esperti has done good work as a colporteur for the Connecticut Bible society, and has charge of a mission at Berlin chapel, on the same ground where the work began twelve years ago. It is the plan of the missionary society to send Mr. Esperti from place to place as the work demands, because of his special adaptability to this service."

Christ is 'a thousand years the same.'

Speaking of Mr. Esperti, who is in

charge of the Berlin Italian mission,

LOBSTERS. M. Jeno, one of the crew of the Glouester fishing schooner F. P. Mosquita, caught a big lobster on the vessel's last cruise. The lobster was caught off Mount Desert rock in one hundred fathoms of water, and it measured thirtyfive inches over all and could spread its claws two feet. The lobster was boiling and when the shell was broken there was very little meat inside-Several Connecticut fishermen caugh

taking lobsters of less than legal size in Long Island waters have lately been fined from sixty to one hundredd and fifty dollars each. The arrests were made in the waters adjoining Fisher's Island. It is only by the sufferance of the New York state commission that citizens of Connecticut are allowed to take lobsters in the above waters-A property on the waterfront at

A grim story of Napoleon is told by Christian Waas in a Frankfort review under the title of "Napoleon at Jaffa." A great number of the soldiers were down with the plague, and one day Bonaparte sent for his chief surgeon, Larrey. "If I were you." he said to him, "I should put our plague patients out of their misery; it would save them from having recourse to opium to soothe them." "But my duty is to make them live," replied Larry. Bonaparte then revealed the grim truth. He and his staff were reduced to traveling on foot because the horses were all being used for the transportation of the sick. He must, therefore, either abandon the plague-stricken to the cruelty of the enemy or get rid of them. Mr. Waas maintains that the order was carried out accordingly. There is an end, observes the "Journal des Debats," to the illusion of the famous picture in the Louvre of "Bonaparte Visiting the Plague-Stricken Soldiers at Jaffa."

Mr. Wentworth, of the New Hampshire fish and game commission, says that nine times in ten the stories of damage done on the farms by law-protected deer are bosh. He cites as an instance a recent complaint from the Greenfield region. The commission investigated; deer had nibbled off a few beet tops, possibly 60 to 75 cents worth. Last year a Vermont man offered to pay out of his own pocket for all actual damage done to crops in that state by the deer, and the offer cost him less than \$75. As to another recent complaint about the killing of edible fish in a pond, Commissioner Wentworth says he knows all about it. Cold Pond. Andover, with its shores, was bought by a club of citizens, "as true sportsmen as New Hampshire contains." They stocked the pond with brook Some person or persons unknown slyly stocked the pond with pickerel. The pond's owners thereupon cleared out the pickerel with vitriol, "They had a perfect right to," says the commissioner.

"No," said the actor, "I can't say that the critics have ever said anything unkind about my acting; but to tell you the truth, it is somewhat monotonous to find myself continually included among 'the rest of the company,' who 'do not call for special mention,' Boston Transcript.

She wove her own sheets and bedspreads, or "kiverlids," us they were sometimes called. If she had a carpet at all it was made of rags she had cut and sewn together with patient care and then woven into a carpet with her own hands. carpets are still woven in some rural omes, but the linen sheets and the blue and white or blue and red bed-

spreads are woven no more, The old churn, an object of loathing to the boys and girls who had to work its dasher up and down, before the butter would come, has had its usefulness brought to a close by the a short time there will not be a State modern creamery, and the custom of buttermaking has become obsolete in nearly all farmhouses. The "cream-'Odd? He's a regular crank. Why, ery man," an unheard of individual a quarter of a century ago, now goes ollowing the kind of advice he gives his rounds collecting the milk and cream from the farms, and the rural housewife does not make even the butter used by her own family.

Hanging from some dust covered beam in the attic are the old candle ould in which the housewife used to nould her candles, if she did not make them by the slower process of "dipthem by the slower processife of to-ping" them. What housewife of to-"dips taller" or would "dip" without protest? When she thinks of her candle dipping days and of the flickering, feeble light candles produced, when compared to the lamps she has to-day, the housewife is inclined to regard the Standard Oil Company something of a blessing, after all. do know it produces such an effect af- She is also thankful that customs change even in the matter of diet, ad that the farmer who once lived nimost wholly on perk, when it came to meat, now uses almost no pork at all, Butchering day has become a thing of the past on many farms, and lard has ost disappeared from some pantries in which it was never absent in the days of long ago. The housewife does fry everything in a sputtering lake are rural localities in which the frying pan still takes first rank as a cooking utensil, and everything that can be

fried goes into it. Rusty old scythes bear testimony to the fact that time was when the sound of the resper and mower was not heard in the land, and the farmer swung his scythe from morning until night, cutting less with it in a day than he can now cut in an hour with the mower of flay owes much to the inventive genius of the men of recent years, for his barn is supplied with labor saving implements of which his ancestors on the farm he now owns knew nothing. He may work as hard as they did, but he has the satisfaction of knowing that his work counts for much more with

the implements he has at hand. We are not, like the people of many other lands, conservative in regard to adopting new customs and new inventions when we see that they are better than old customs and old inventions. We are not bound by custom nor by sentiment to the ways of our ancestors, although the writer knows of one old woman living in the heart of the city of Boston who to-day prepares all her meals over the coals in the fireplace in which her mother and her grandmother cooked. She will have nothing to do with any "newfangled" ways of cooking, and that blessing of appointed kitchen range, has no charms

Modern invention has driven to the attic many household utensils once in common and wearlsome use, and custom has wrought such changes that if our ancestors who have been lying in their graves these hundred years could ne back to earth they would be al-

Why is the Steinertone Pianoforte Better than any Other on the Market?

The advantage in purchasing a Steinertone planoforte does not lie only in the simple fact that it contains everything that is found in the most per-fect pianofortes or in the standard makes, but it represents a new era in planoforte building and brings the pianoforte up to a state of perfection hitherto not represented in all other first class pianos.

Among the many qualities it possesses the most essential are that it con-Powerful Tone Capacities, Marvelous Tone Coloring, Unrivaled Repetition of Action,

NAN STREET, FROM LAWRENCE TO EDWARDS STREETS.

In accordance with the provisions of Section \$1 of the Charter of the City of New Haven, notice is hereby given that the following reports of the Director of Public Works and Bureau of Compensation have been approved of by the Board of Aldermen on July 20, 1903, and by His Honor, John P. Studley, Mayor, July 24, 1903; that he Director of Public Works reported the work completed August 22, 1905, and that the amount of benefits to be paid by the several persons named in the reports as submitted are due and payable on and after August 26, 1905.

Attest: EDWARD A. STREET.

City Cierk.

To the Honorable Board of Aldermen of the City of New Haven:

The Director of Public Works respectfully reports that, as ordered by the Court of Common Council, he was caused to survey and lay out and an assessment of damages and benefits to be made for the extension of St. Ronan street, from Lawrence street to Edwards street, and the establishment of a grade thereon, the lipe of which, as surveyed and laid out by him, are described as follows, viz.:

Both the easterly and westerly lines commence at the southerly line of Lawrence street and extend in straight lines to the northerly line of Edwards street, and the establishment of a grade in direct extension of the present lines of St. Ronan street, northerly of Lawrence street.

The grade extends in a straight line from the present grade at Lawrence street and its intersection with the extension of St. Ronan street, with such modifications at and near the corners as is shown by the red lines on the profile map.

The lines of the above described layout are fully shown by the red lines on the profile map. Steamer Steamer City of Richard Lawrence. Peck. From New Haven A.M. Night P.M.

Eric was really the chief feature of the anthracite coalers, crossing 52 and making a new high record. The speculative interest of the day, however, was really transferred to some of the prominent grangers and trunk lines, the Southwestern and Southwestern shares, Amalgamated Copper and the United States Steel properties. Hornblower & Weeks, who have a

branch in this city, announce that all grades of copper have been advanced 1-4 cent per pound to 16 1-4 cents, which is the highest level in four years. The Boston Copper market made some substantial advances in stock values in sympathy with the advance in price of

It is of some significance that anthracite coal trade authorities do not think the anyance in Reading is wonderful These men hold it is due, not to the work of the pool or the technical speculafive position, but to the fact that Reading is demonstrating earning powers of at least 10 per cent- per annum on its common stock. Already there are rumors that the common dividend will again be increased.

There is evidence of heavy profit taking sales in both Reading and Erle. The latter, however, again made a new high record in the afternoon trading.

The street was filled with on Amalgamated Copper, From the way in which it was opened up it was not easy to get in and out with much of a profit, after the advice thus circulated was given out.

The New York stock market broadened yesterday with the heaviest trading in the general list that has been witnessed for many weeks.

The heaviest of London buying was in Pennsylvania. The foreign houses were also large buyers of this stock on Tuesday. Missouri Pacific and Union Pacific

reached new records for this year. So did St. Paul, allowing for the dividend of 3 1-2 per cent., which "came off" yesterday from a stock market stand-Missouri had a spurt and Rock Is-

land started upward very soon after. It too, is is a big corn carrying road. Pennsylvania started at a substantial gain, and came out in enormous lots (Continued on Eighth Page.)

YESTERDAY'S STOCK MARKET.

Improved Outlook for Pence at Ports-

mouth a Potent Factor. New York, Aug. 23.-The improved out look for peace at Portsmouth was a potent factor in shaping the course of to-day's stock market. This same feeling was reflected in the foreign markets. Trading kept pace with the large volume of the previous day, with a number of substantial advances, and a much wider distribution of business. Reading and the Eries were less conspicuous, their places being taken by a number of higher grade railway and industrial shares. Nevertheless, Erle common and second preferred advanced to new high records. Reading recovered within a fraction of its record price, but was later irregular. The best opinion is that the operators connected with certain large pools took advantage of yesterday's active market to unload a large part of their holdings, but are still committed to higher prices. Trade reports at hand to-day bore closely upon copper and iron and steel conditions, the recent rise in the coal shares is explained in part by advices from the distributing centers, telling of increased activity. The renewed strength of Amalgamated Copper, one of the day's market leaders, followed and other advance in the price of the metal, and further demands at home and abroad for refined copper, of which there appears to be but a small supply. The movement in copper today was accompanied by rumors of an increased dividend on the stock in the near future. The United States Steel shares were more active and strong than for some days. Pennsylvania led the active list in the early dealings,

and Baltimore and Ohlo, Union Pacific, Southern Pacific and St. Paul were Southern Pacific and St. Paul were rominent, the latter, however, losing the some of its early gain. There was U. quite a movement in the Gould group, U. Missouri Pacific advancing smartly, with marked gains in all the Colorado Southern issues. In the general list the most noteworthy advances included Louisville & Nashville, Atlantic Coast line, Atchison, Ontario & Western, Rock Island, Southern Railway, We Smelting preferred and Sugar. The last hour was the fullest period of the day. Heavy realizing in the active list was largely responsible for the general declines, none of which, however, was very severe. Operators in the various pools seemed to have expended their ammunition, and traders were cautious to the extent of carrying few over night commitments. In the last few minutes of this there came an outburst of speculation, which carried such stock as Union Pacific, Missouri Pacific, Amalgamated Copper and the Steel shares to the day's best prices, and drove the

shorts to cover once more-Bonds were steady. Total sales, pur value, \$4,129,000. United States bonds vere all unchanged on call.

TWO TRESPASSERS CAPTURED. William Kennedy Tried to Use "Half

Hitch" on Railroad Detective. Two arrests were made last evening by Rallroad Deteceive Popper for trespass on railroad property. One of the men, William Kennedy, who said he came from Middletown and was going to New York to work projected himself into further trouble by attempting to use an ugly looking cord knot club, which he described as a "half hitch," upon Popper. As a result he is also held for breach of the peace.

Kennedy said he did not intend to do anything wrong with the "half hitch." but that he happened to have it in his pocket, as he was taking it to a friend at 9 Bowery, New York. He couldn't tell what the friend was going to do with it. He also had two watches and \$4.35 in money on his person. When the officer arrested him Kennedy threw the cording away, but it was recovered, The other trespasser in the toils was Michael O'Neil by name.

Holyoke, Aug. 23.-New Haven didn't have a chance in either of its games with Holyoke to-day, the home players | Hartford hitting Tuckey hard throughout the first game and forcing Corcoran to retire in the second after eight hits had been made off him in three innings. The games were featureless except for the appearance of J. Frank Dolan, Holyoke's new pitcher, who showed up well in the second game. The New Haven players claimed they were madd ill by drinking water in Springfield last night.

The first game was well played and interesting, both teams fielding well. The feature of the game was the stop of Farrell, who after a hard run managed to stop Kennedy's hot grounder, but in doing so lost his balance, falling heavily, but while lying on the ground threw the ball to first and got the runner. The second game was a walkaway for Norwich after the third nning. Both teams had young pitchrs in the box, Brown for Norwich holding the visitors to two hits. The scores by innings;

between 147 and 147 1-2. It was selling here at 146 5-8 at the some time as it was 147 3-4 in London, which meant that there was an urgent demand for the stock on the other side. This was one of the issues on which calls were issued some time ago by London operators at prices several points below present prices.

The movement in Copper shares was credited on the floor as being this time engineered from this city and not a Boston movement. This report was that big pool has been formed here and that the price might be put above par. Erie 2d pf. was a favorite and was well absorbed. The theory entertained about this stock is that it is relatively low, compared with the 1st pf, considering there is only \$16,000,000 of the 2d pf, outstanding. There was no news out on Erie yesterday, but advices from Hartford, Aug. 23 .- Hartford took two Middletown, N. Y., stating that hun-

There were signs that the ward with the intention of being waivpool in Erie shares disposed of a good ed in the course of negotiations, is de-

leal of stock vesterday. The big advances in coalers are set down to future expectations held by trong financial interests regarding the

various properties. With the upward spurt in Erle speclative interest has naturally extended to the Erie convertible 4s. These are convertible into common stock at and the privilege now posses a value which many expect to see considerably augmented. There are \$10,000,000 of these bonds outstanding and at ane time this year they sold as low as 95 3-4. In some quarters the campaign in Eric is said to have been due to the desire of controlling interests to make a better market for these bonds. Another issue of these bonds has long been rumored and the latest in regard to this is that the next issue will be convertible into ommon stock at 60 against 50 for the

And this alleged simplification of terms is supposed to provide Russia with an acceptable Batteries-Stricklett, Jones, McIntyre basis for a peace treaty. At first sight and Bergen; Lundgren, Briggs and the offer may perhaps seem new to ome, but a closer examination will show it to be in all essentials identical with the proposal already rejected by Russia's plenipotentiaries. Only a person unfamiliar with war, in love with Philadelphia ...,0 1 0 0 0 1 0 3 1-6 11 1 humanitarianism, foreign to Russia and Batteries-Overall, Ewing and Phelps incompetent to judge of Russia's national honor and dignity could descry in those terms the source of a new impulse given to the peace negotiations. But a grievous mistage was committed by those who imagined that the blenipotentiaries of the czar, the representatives of the Russian nation, would take the husk for the kernel, the shadow for the substance. A person of average intelligence can see that what is new in this proposal is the phraseology in which it is couched.

naval strength on the Pacific be revoid of importance. The disarmed ships in question are Russia's by right, and to ask that they be handed over to Japan is to demand a breach of the law of nations. Again, the limitation of Russia's naval effectiveness on the Pacific is meaningless, because she will be unable for a quarter, or it may be half, of a century to dispose of warships enough to keep a squadron there equal to Japan's, while it would be fruitless to maintain a smaller one. Conseently to speak of those things as concessions is but to play with words. It is equally childish to affirm that Japan foregoes her claim for an indemnity because the new proposal does not actually mention it. All that she does is to join the question of Sakhalin with that of a cash payment and to insist upon war costs under the name of purchase The transaction is fictitious money. and the terminology misleading. If what is proposed be in truth a purchase and sale it should be treated as such; and, therefore, should Russia decline to buy the territory, Japan should keep it and conclude peace on the basis of the concessions already made. Again, if a purely business transaction were indeed intended, the value of the territory offered would be the basis on which the two parties would treat. But here even this essential condition is not observed. The price demanded for the northern half of the island is 1,200,000,000 yen, which is the original estimate of the war costs. Possibly Japan may have fixed that sum with the intention of whittling it down to some extent later n, but Russia, mindful of her national henor, of her military strength and of her historic traditions, will not and cannot to consent to pay a war indemnity by whatsoever name it may be called, nor can she, indeed, the world

proof of a genuine desire for peace. "Japan having obtained all she needed and longed for as a nation now narrows down the issue to a question of dollars and cents, yet refuses, for peace sake, to wafve her demand. Russia, on the contrary, has conceded freely and fully everything she could give consistently with her sense of national honor and dignity. Hence what to Japan is but a matter of money is to Russia a matter of honor. To withdraw the cash claim is, therefore, immeasurably easier to Japan than it would be for Russia to allow it. Russia has suffered reverses owing to her lack of organization, her unpreparedness and her internal disorders. But she is still a mighty and unconquered nation, whose people will enthusiastically uphold their representatives in their firm resolve to keep the national escutcheon immaculate. Whatever else may be affirmed or denied of them, that is true. They alone are the judges of what can and cannot be done in Russia's name. If therefore the efforts of American friends are to be crowned with success, if the labors of the conference are not to end in smoke, and if the effusion of blood in the Far East is to be terminated, it behooves Japan to make a frank declaration that she withdraws without reserve her demand to have her war costs paid in any shape or form. Therefore, despite the positive and emphatic declaration of the well seaning but mistaken journalists alluded to above peace is not and cannot be assured until Japan unreservedly withdraws her claim to have the costs of the campaign refunded by Russia."
