

COLUMBIA ACTS.

Abolishes Football as One of Sports in Which Her Students Can Engage.

TO DISBAND ASSOCIATION

ALL ACCOUNTS TO BE SETTLED BY DECEMBER 31.

Decision Reached at Meeting of the University Committee on Student Organizations—Students Who Continue to Play Leave Themselves Open to Expulsion—Game Considered Barren, Dangerous to Human Life and Harmful to Academic Standing—Radical Action Necessary to Get Rid of the Game.

New York, Nov. 28.—Columbia university has abolished the game of football, as at present played, as one of the sports in which students of the university will be permitted to engage.

The action was taken at a meeting of the Columbia university committee on Student Organizations held to-night at the university, at which were present the members of the committee; Prof. Lord, chairman; Prof. Mitchell and Prof. Odell, and also President Butler and Dean Kirchwey and Prof. Boser, the two latter former chairmen of the committee.

The following preamble and resolutions were adopted: "Under the authority conferred by the university council on student organizations, to supervise and control all student organizations, athletic and other, which in any way represent the university before the public it is

"Resolved, That from and after December 31, 1905, the football association of Columbia university shall be disbanded, before which date all its accounts shall be settled to the satisfaction of the comptroller of student organizations.

"Resolved, That in the opinion of this committee the present game of football shall be abolished and the committee respectfully recommend to the university council that the game be prohibited at Columbia university."

The action of this committee is final. The students are not permitted to play without the consent of the committee, and if they do so they render themselves liable to expulsion.

Prof. Ladd said, after the meeting of the committee: "The reasons for this action needs no explanation. They must be present to the mind of every one acquainted with the game as now played. Only by such radical action can the university and college life be rid of an obsession which, it is believed, has become as burdensome to the great mass of students as it has proved itself harmful to academic standing and dangerous to human life."

Morley Defends Game. Coach Morley, of Columbia, when asked to-night what he thought of the action of the committee, said: "The number of deaths from football this season was nineteen. The number last season was about the same, and I don't think there has been any increase in the death list for many years. When you consider that during the football season probably 100,000 players engage in the game the death rate is wonderfully small. And I believe it is considerably smaller than in such sports as automobile, sleight-of-hand, hockey or horseback and other strenuous sports. I will say further that players run no more risk of meeting with death than the whole human family does in the ordinary risks of life."

"Football as played by the large college teams is, of course, faster and harder than that played by the smaller or junior teams throughout the country, but they are able to do it because of their good physical condition."

"I have nothing to say as to the action of the committee at Columbia, but I recognize the fact that that body has the power to abolish the game from the college sports if it so wills."

Chicago, Nov. 28.—Walter Camp, the well-known football authority, who is in Chicago to witness the Thanksgiving game between the Universities of Chicago and Michigan, expressed little surprise at the action taken by Columbia university. "The time has come," said Mr. Camp, "when some action must be taken modifying the style of the present college football game. As long as a year ago I announced myself as in favor of an alteration in the rules governing the game."

"Under the present style of game a team averages about two yards to a down. That makes it possible to make the requisite five yards in three downs. If the distance were doubled the tactics would have to be changed and efforts made to carry the ball by running with it instead of driving it through the line by main force, as is done under the present rules."

Rochester, Nov. 28.—President Rush Rhee, of the University of Rochester, declares that the game of football as played at present will not be tolerated at this institution, and he will approve any action that may be taken to modify the rules and the methods of the game.

CHRISTENED WITH FLOWERS.

Great Five Masted Schooner Launched at Bath, Me.

Bath, Me., Nov. 28.—The five-masted schooner Davis Palmer, built for William F. Palmer, of Boston, managing owner of the Palmer fleet of schooners, was launched here to-day. The schooner was built for the general carrying trade, with a capacity of 5,000 tons and at a total cost of \$125,000. The timbers in her frame are said to be the heaviest ever put into a sailing vessel. The schooner was christened with roses and pinks by Miss Davis, of Worcester, Mass.

The Davis Palmer is 395.4 feet in length, 48.4 feet beam, 27.2 feet deep, and has a gross tonnage of 2,965. Captain Leroy K. McKown, of Booth Bay, will command the new vessel.

ISLE OF PINES INCIDENT.

Root Throws Cold Water on Aspirations of American Colonists.

Washington, Nov. 28.—The administration to-day dashed the hopes of the little band of American colonists on the Isle of Pines, who have been working toward the separation of the island from Cuba and its inclusion in the United States, when Secretary Root after consulting the president, made public the text of a letter which he had addressed to Charles Raynard, president of the American club of the Isle of Pines, defining the attitude of the United States government against the proposal formation of a territorial government in the island as a part of the United States. The secretary was most pointed in the statements in his letter.

BLOOD CLOTS DUE TO FALL

SURGEONS' OPINIONS ON DEATH OF BRANCH.

Injuries Would Indicate that They Were Not Due to Fist Blows From Meriwether—Defense Will Close Its Case To-day With the Testimony of the Accused.

Annapolis, Nov. 28.—The autopsy held last Sunday on the body of the late Midshipman James R. Branch, jr., bore fruit to to-day's session of the court-martial which is trying Midshipman Minor Meriwether on charges, including manslaughter, in connection with the death of Midshipman Branch after a fist fight. The day's testimony was given chiefly by medical men who had been present at the autopsy, and bore upon the question whether the death of Midshipman Branch resulted from blows of his opponent's fist or from his head striking the floor of the room in which the fight was held, previous testimony having shown that Branch fell or was knocked down several times during the encounter.

Testimony also was given that, although the naval academy hospital journal shows the origin of injuries for which midshipmen are treated, the witness under examination in this connection knew of no inspection of the hospital journal having been made by the authorities.

Counsel for Midshipman Meriwether announced that after putting the accused on the stand in his own defense to-morrow they will close their case.

Medical Director Howard E. Ames, who went on the stand at the opening of the afternoon session, said the cause of Branch's death was hemorrhage under the covering of the brain, which, he believed, both from what he saw during the operation and at the autopsy, had been caused by Branch's head coming in sharp contact with some hard substance, like a floor or a wall.

Surgeon E. D. Stokes, U. S. N., who is assisting the prosecution, cross-examined Dr. Ames and the other medical witnesses offered by the defense, particularly with regard to the evidence that there was paralysis of the left side of Branch's body. In answer witnesses said that Branch's case presented some very unusual features.

Dr. L. W. Glazebrook, of Washington, who is assisting the defense as medical adviser, and who saw the autopsy, was the last expert witness for the defense. He stated that he was present at the autopsy upon the body of Midshipman Branch. Death, he said, had been brought about by hemorrhage of the brain covering. There was at least three blood clots on the right side of the skull where it had been opened by the surgeon performing the operation. From what he saw during the autopsy the witness was satisfied that the fatal injuries were due to Branch's having hit his head against a hard, unyielding substance, such as a floor or wall, and could not have been due to the blows of fists encased in punching-bag gloves.

Warm Day in Chicago.

Chicago, Nov. 28.—Never since the establishment of the weather bureau has a day so warm as this been recorded late in November. The mercury this afternoon reached 68 degrees. Early in afternoon, 1888, the mercury touched 75 degrees, which is the record for November weather in this city. To-day was the second warmest day ever known during the month and by far the warmest for the latter part of the month. A fall of forty degrees is predicted by to-morrow morning.

Unable to Get Crew Off.

Milwaukee, Wis., Nov. 28.—A Sentinel special from Superior, Wis., says: The life savers have been unable to get the crew off the Mataafa. The boat has broken in two, but the decks are still out of water. It is thought that the twenty-six men have frozen to death, as there is no sign of life on board.

WHOLE RUSSIAN ARMY ON VERGE OF REVOLT

NO RELIANCE WHATEVER CAN BE PLACED ON LINE REGIMENTS.

Officers Admit This Fact and Say Manchurian Forces Are Almost Openly Rebellious—Point Out Critical Condition of Affairs in South—Soldiers Attached to Military School of Electricity in St. Petersburg Arrested—Last Day of Grace Granted to Matineers at Sebastopol—Still Hold Out.

St. Petersburg, Nov. 28.—The military officers at St. Petersburg admit that no reliance can be placed on the line regiments, not even on those now stationed in the capital. According to the officers, the spirit of revolt pervades the whole army from Vladivostok to the European frontier. The Manchurian forces, they add, are almost openly revolting.

The officers further point out that the state of affairs at Sebastopol, Odessa, Simferopol and Tiflis shows that the revolutionary spirit has spread to southern Russia and Transcaucasia. The garrison of St. Petersburg has formulated a series of demands involving the complete remodeling of the conditions of service. The Manchurian army complains that it is not possible to exist in Manchuria on peace pay and peace rations, and that the wounded, thousands of whom are still detained in Manchuria, are suffering untold tortures on account of deficient medical resources.

2.30 a. m.—The soldiers attached to the military school of electricity have been arrested by four battalions of the Pavlovsky regiment and taken to the fortress of St. Peter and St. Paul.

LAST DAY OF GRACE.

Mutineers at Sebastopol Playing at Waiting Game.

St. Petersburg, Nov. 28.—1.54 a. m.—The last day of grace accorded the mutineers at Sebastopol expired at midnight, with no signs of surrender on the part of the men. The hills towering above the harbor of the Russian stronghold in the Black Sea may recount this morning, as they did in the days of the Crimean war, with the roar of musketry and cannon, should the government attempt to carry out its announced intention of crushing the revolt with the mailed fist.

The rebellious sailors are playing a waiting game and apparently have full confidence that the guns of the fleet will not be turned against them. If they have not actually disregarded the summons to haul down the red flag, they seem determined to make the authorities show their hands.

The report that the whole fleet had gone over to the mutineers under the command of Lieutenant Schmidt, the revolutionary commander of the cruiser Otchakoff, is incorrect, though the officers of the other ships, as during Vice-Admiral Kruger's abortive demonstration against the mutineers on the Kniaz Potemkin (now will be unable to obtain obedience of the men for the carrying out of any measures against their comrades.

INTEREST KEEPS UP.

More Than 25,000 Tickets Sold for the Navy-Army Game.

Princeton, N. J., Nov. 28.—More than 25,000 tickets already have been sold and the largest crowd that ever witnessed an army-navy football game will be in Princeton on Saturday. President Roosevelt will attend the game with Miss Alice Roosevelt and the rest of his party will arrive from Washington on a special train about noon. The president will be driven to the home of President Woodrow Wilson, where he will take lunch. Most of the president's party will be entertained at luncheon by the Princeton upperclass clubs. Lunch will be served to the cadets and midshipmen in the new gymnasium. The field has been covered with straw for the past three days as a precaution, and it is said that the heavy rain which fell to-day will not affect its condition.

Princeton Will Attend.

Princeton, N. J., Nov. 28.—The Princeton football team will attend the Cornell-Pennsylvania football game on Thanksgiving day as guests of the University of Pennsylvania.

CRITICALLY ILL.

Edward Malley, the Dry Goods Merchant, Down With Pneumonia.

Edward Malley, the veteran dry goods merchant, is critically ill with pneumonia at his home on Derby avenue. His condition at a late hour last evening was such as to cause much anxiety. He was taken ill a few days ago.

Death of Rev. H. H. Barbour.

Newark, N. J., Nov. 28.—The Rev. Herman H. Barbour, pastor emeritus of the North Baptist church of this city, died to-day of cancer, with which he was attacked more than a year ago. Mr. Barbour was born in 1850 in Hartford, Conn., where he practiced law and served as reading clerk of the Connecticut legislature before entering the ministry.

Miss Roosevelt Back in Washington.

Washington, Nov. 28.—Miss Roosevelt returned to the White House to-night after a visit with friends at Farmington, Conn.

MRS. ROGERS UNNERVED.

Informed of Decision of U. S. Supreme Court.

Windsor, Vt., Nov. 28.—Despite the fact that the United States supreme court has declined to interfere in the case of Mary M. Rogers, under sentence of death for the murder of her husband, Marcus Rogers, another effort will be made to stay the execution, which is set for Friday, December 8. This fact was learned to-day after Lawyer E. B. Flinn visited Mrs. Rogers at the prison here. Mr. Flinn informed the condemned woman that the supreme court of the United States had affirmed the decision of the Vermont courts and that all hope in that direction must be abandoned. He told her, however, that he had in mind another plan which might prolong her life. Mrs. Rogers was completely unnerved by the news of the adverse ruling, but said, "While there is life there is hope. I'll take the chance you suggest."

DEFINITE ACTION TO ABOLISH FOOTBALL

TAKEN BY THE FACULTY OF THE UNIVERSITY OF NEW YORK.

Almost at the Same Hour That Body of Harold Moore, Fatally Injured in Game Last Saturday, Was Being Interred—Every College Whose Football Team Has Played Against New York Institution Since 1885 Invited to Attend Conference to Act Finally on Question.

New York, Nov. 28.—Almost at the same hour when the body of young Harold Moore, the Union college student who was fatally injured in a football game with the University of New York team last Saturday, was being interred in Ogdensburg, N. Y., to-day, the faculty of the University of New York took definite action looking to the abolition of the game of football as it now is played. Every college whose football team has played against New York university since 1885, when the latter's team was organized, has been invited to take part in a conference to fully consider and finally dispose of the future of the game. With the call for the conference went the announcement that the New York university delegates will support a resolution that the present game of football ought to be abolished.

The colleges invited to the conference, nineteen in number, are Union, Syracuse, Hamilton, Wesleyan, Lehigh, Rutgers, Trinity, Haverford, Rensselaer, Stevens, West Point, Princeton, Fordham, Columbia, Ursinus, Rochester, Lafayette, Amherst and Swarthmore. The invitation which was sent to each of the colleges suggests three questions for consideration. They are: Ought the present game of football be abolished? If not, what steps should be taken to secure its thorough reform? If abolished, what game or games may be possible in its place?

Each college or university is invited to send a representative of its faculty and a representative of its athletic organization, making a possible membership of forty.

HARMONIE HALL FETE.

Young and Old Partake at Thanksgiving Fete and Dance.

The ladies of the Temple Aid society of the Mishkan Israel gave a Thanksgiving fete and dance last evening. The proceeds of the event go for the benefit of the temple aid society. Supper was served and refreshments consisting of ice cream, candy and coffee and fancy articles were sold at the prettily decorated booths. The chairlady of the very pleasant affair was Mrs. Adolph Mendel and she was assisted by the other ladies of the temple.

There were four booths, and of the earnest workers' fancy booth, Mrs. Fred M. Adler was chairlady; of the Yale booth, Mrs. S. Rothschild, and of the Temple Aid booth, Mrs. N. Kleiner acted as chairlady. At the supper Mrs. Louis Rothschild presided, assisted by the other ladies.

FITZGERALD DEAD.

Man Struck by Trolley Car at Mount Carmel Sunday, Died Last Night.

Charles Fitzgerald, the woodchopper who was struck by a trolley car near the axle works in Mt. Carmel Sunday evening, died at the New Haven hospital last night at 9:40 p. m. Fitzgerald was sixty-two years old and leaves a wife and child in this city, but he did not live with them.

Two Slight Earthquake Shocks.

San Francisco, Nov. 28.—Two slight but sharp earthquake shocks were felt in quick succession here to-day. The second shock apparently came from an opposite direction. This peculiar feature is said by local weather bureau officials to be an indication of reflex action.

Roosevelt's Respect for Negroes.

Oyster Bay, L. I., Nov. 28.—A wreath of flowers from President and Mrs. Roosevelt was to-day placed on the grave of Julia Davis, an aged negro, who was buried yesterday. Mrs. Davis for many years was employed as a cook in the Roosevelt household.

DOCTORS WORE MASKS TO HIDE FEATURES

PROGRESS OF THE DRESS SUIT CASE MURDER TRIAL.

Nurses Testify That Drs. McLeod and Pettee Concealed Their Faces from Geary Girl While She Remained Conscious—Uncovered When She Was Unconscious—McLeod a Frequent Visitor to Questionable Houses—Called Once a Week to Get Pay for Services.

Boston, Nov. 28.—The story of the dismemberment and disposition of the body of Susanna A. Geary, the Cambridge chorus girl, was rehearsed in the superior court to-day, the second day of the trial of Dr. Percy D. McLeod, who is charged with being an accessory to a criminal operation. The principal witnesses to-day were Louis H. Crawford and William Howard, otherwise Hunt, who were arrested in New York; Emma Coulter and Sarah Griffin, nurse at the house, Winthrop street, Roxbury, where the Geary girl is said to have died, and Dr. John H. Pattee of Roxbury, who testified that he had been called by Dr. McLeod to attend a patient at the Winthrop street house.

During the examination of Hunt and Miss Griffin it was brought out that Dr. McLeod wore a mask to conceal his features when he attended patients at the house on Winthrop street. Miss Griffin further testified that Dr. Pattee also wore a mask. Both Dr. McLeod and Dr. Pattee, Miss Griffin said, were masked while the Geary girl was unconscious, but as soon as she became unconscious they uncovered their faces and made no attempt to conceal their identity. When questioned by counsel for Dr. McLeod, Miss Griffin said that the masks were not worn for protection, but in order that the physicians' features might not be seen by the patient.

It was brought out by many of the witnesses that Dr. McLeod was a frequent caller at the "Mrs. Dr. Bishop" office on Tremont street, where the illegal operation on Susan Geary is alleged to have been performed. Dr. McLeod, it was testified, had also been in the habit of calling at the Winthrop house.

According to the testimony he called regularly on Saturday at the Bishop office to collect the money due him for his services. The testimony brought out that Dr. McLeod did the "outside work" that he had no part in the illegal operation, but did attend to patients upon whom such operations had been performed. During the cross-examination of Hunt, counsel for Dr. McLeod asked the witness if, while living in Philadelphia, he had ever thrown newly born infants into a furnace, or placed the dead and also performed illegal operations in quicklime. Hunt replied negatively.

It was admitted that he had conducted an illegal medical office in Philadelphia and had also performed illegal operations in Boston. To-day's session closed noon after Dr. Pettee had taken the stand.

DIED IN CELL.

Inmate Dusky Found Dead at Police Station.

The police have a somewhat mysterious case on their hands as a result of the death of Isaac Dusky, fifty-five years old, of 33 Broad street, in his cell at the police station early this morning.

Dusky was found about 11:15 o'clock last night near Ziegler's cafe on Crown street, in a drunken condition, and was sent to the police station in the wagon. There he was searched and relieved of all valuables and was put into a cell at 11:30 with two others, Clarence Turner, a young colored boy, and John McCarthy. He was then apparently all right, as far as the officers could see, for he talked coherently.

About 11:40 o'clock this morning the doorman reported that Dusky had been found dead. Medical Examiner Bartlett was called and responded immediately. He examined Dusky's remains and found only a slight wound on the back of the head. He thought that Dusky must have fallen in some way against the side of the cell and sustained the injury which resulted in his death.

Dusky's cellmates could give no light on the matter. The young negro said that he did not see Dusky fall and the first he knew of the matter Dusky was dead.

PASSED AWAY.

Mrs. Elizabeth Collis Bartlett, of This City.

Mrs. Elizabeth Collis Bartlett died in Simsbury, Conn., November 24. She was a daughter of the late Daniel and Elizabeth Hotchkiss and granddaughter of the late Russell Hotchkiss, who resided for many years on Meadow street, this city. Mr. Bartlett was an old and well known resident of New Haven.

Political Independence Dinner.

New York, Nov. 28.—A "political independence dinner" was given to-night by the City club in celebration of victories at the recent election over party organizations here, in Philadelphia, New Jersey and elsewhere. The men whom it was designed particularly to honor were District Attorney William T. Jerome, of New York; Mayor John Weaver, of Philadelphia; Senator-elect Everett Colby, of Essex county, New Jersey; Mayor Mark Fagan, of Jersey City, and Mayor Tom L. Johnson, of Cleveland.

NOMINATIONS MADE.

West Haven Democrats Name Ticket for Coming Election.

The West Haven democrats last evening held their caucus in the borough court room, the main hall of the town hall being occupied by the firemen's fair. There were about 100 present and Willard A. Wright acted as chairman, and Charles E. Stormont as clerk of the meeting. The following nominations were made: Warden, J. H. Peck; burgesses, Lewis B. Warner, Marcus McLaughlin, Lewis Newton, Wilbur H. Razes, and Olaf P. Olson, for clerk, Charles E. Stormont; treasurer, Dr. J. P. Barnett; tax collector, Cyrus W. Tuttle; assessors, Henry C. Thomas and Homer J. Lindsay; auditor, Alfred Lockwood; bailiff, John J. Quinn.

WELL KNOWN ART CRITIC DEAD

Joseph Swift Whistler Dies Suddenly from Hemorrhage.

Lenox, Mass., Nov. 28.—Joseph Swift Whistler, a well known art critic and a resident of this town for the past six years, died suddenly to-day from a hemorrhage. Mr. Whistler, who was a nephew of James McNeill Whistler, the artist, was born in Baltimore, where most of his relatives reside. He was a graduate of Harvard university and studied several years abroad, but was obliged to come here for his health. He was forty-five years old and leaves a widow, who was formerly Miss Florence Fuller of New York.

NEW LIGHTING CONTRACT

PUBLIC UNINTERESTED IN EXPRESSING OPINION.

Proposition to Operate Twenty-six New Lights at \$3.05 Less Per Light Per Year—Total Under New Contract Will Hardly Exceed Present Total at That—Now 574 Lights Supplied and Idea is to Have 600—No One Appears to Talk on Subject.

It was a slim gathering that attended the public hearing given by the lighting committee last evening and after the petitions for new lights had been disposed of and Chairman Homan called up the matter of the proposed new contract with the United Illuminating company the public had melted away and the silence of unanimous consent greeted the call for opinions on the new contract.

The only changes in the new contract it was announced are in the number of lights and the price. Under the contract which is about to expire 574 lights have been supplied at a price of \$3.12 1-2 per light per year, making a total of \$47,057.62 for the lighting for each year.

The new contract proposes that the city have 600 lights in operation by July 1 next. The company will agree to furnish the power for these lights at \$7.87 1-2 per year per light, a reduction on an individual light of \$2.65. This will make the total cost under the new contract \$47,084.99 per year, or an increase of \$27.37 only for 26 new lights supplied. The reduction on each individual light will amount to one cent per light per night, the old cost being 22 cents and the new 21 cents.

The board of park commissioners submitted a request for an electric light to be placed on the little island in the pond in Bay View park. The commission desires that the light be placed there to furnish light for skating this winter and to help preserve order there.

Electric lights were asked for at Newhall and Ivy streets, at Columbus avenue and Hedge street, at Maple street and Boulevard, Union avenue, between Meadow and West Water streets, and a gas light on Orange street, between Chapel and Court streets.

The first petition is supported by the parishioners of St. Andrew's chapel on Shelton avenue. Their parish house is on Newhall street, near Hazel, and they represent that the light is needed as a convenience and safeguard to them.

NO DECIDED GAIN FOR EITHER.

Recount of the Contested Ballots in New York.

New York, Nov. 28.—The examination of the void and contested ballots in all the assembly districts in Manhattan and the Bronx, it was announced to-night, will be finished by Wednesday evening.

So far there appears to be no decided gain for either Mayor McCallan or William R. Hearst, who ran on the Municipal Ownership ticket. The only candidate who is gaining votes is Mr. Jerome, about four hundred contested ballots having been decided in his favor by Supreme Court Justice Glegorich, who is making the examination.

Great Throng Hids Them Goodbye.

Liverpool, Nov. 28.—Ten thousand persons gathered in Tournament hall here to-night to bid farewell to Reuben A. Torrey and Charles M. Alexander, the American evangelists, at the close of their successful revival movement in the United Kingdom. This movement has covered a period of three years, during which nearly 100,000 converts were made.

POLICY WRITTEN ON LIFE OF UNKNOWN MAN

HUGHES SPRINGS ANOTHER SURPRISE AT INSURANCE INVESTIGATION.

Revelation Regarding Methods of the Mutual Reserve Life Insurance Company—Deposition of George H. Squire, Formerly Financial Agent of Equitable Assurance Society, Read—Tells of a Number of Seemingly Queer Transactions.

New York, Nov. 28.—Just before the legislative insurance investigating committee adjourned to-day, Charles F. Hughes, counsel for the committee, produced a policy written by the Mutual reserve life insurance company upon the life of an unnamed man, which policy stipulated upon the first page that the insured should pay fixed and stated premiums "subject to other benefits and requirements elsewhere stated." On page two of the policy he read a clause that the executive committee of the company could require the holder of the policy to pay any multiple of the amount of the premium stated on the first page which the committee saw fit. George D. Eldridge, vice-president and actuary of the company, to whom Mr. Hughes read the policy, said that the number of such policies issued was small.

Previously Edmund D. Randolph, treasurer of the New York Life Insurance Co. had said that it was true that he removed \$700,000 worth of New York City stock from the vaults of this company and put a check of the Central National bank for that amount in the place of it on January 6th, 1901. Mr. Randolph understood that the bank wanted the stock for clients, one of which was the Merchants Trust Co. He promised to give the committee later the names of any officers of the New York Life Insurance Co. then in the Merchants Trust Co.

The deposition of George H. Squire, formerly financial agent of the Equitable Assurance society, in which he described some of the operations of the syndicates which included officers of that society, was read to the committee. Mr. Squire said in it that in 1901 that the Equitable Society bought 2,000 shares of the stock of the Lawyers Title Insurance Co. and received 1,000 shares to several of its officers and directors at the purchase price, \$175. Some of the Equitable men sold their stock later, said Mr. Squire, and subsequently large blocks of the stock were sold to the Equitable Society at \$100 to \$150 by the firm of Williamson & Squire. That firm might have bought it from the officers of the Equitable Society, Mr. Squire said, but he did not know.

Mr. Hughes also brought out that a profit of \$22,000 had been paid to Mr. Squire from the sales of stock of the lawyers mortgage company to the Equitable Society and that Mr. Squire had divided profits from an unknown operation, aggregating \$18,000, among four officers of the Equitable Society, James W. Alexander, James H. Hyde, Thomas D. Jordan and W. H. McIntyre.

The fact that the New York Security and Trust Co. paid \$18,000 to Andrew Hamilton, the legislative agent, out of moneys belonging to the New York Life Insurance Co. was also brought out to-day by Mr. Hughes.

W. H. Fanshawe, a dealer in investment securities told the committee that in 1904 he bought New Orleans traction bonds of a face value of \$1,250,000 from the New York Life Insurance Co. and George W. Perkins, trustee of the "Nylco" fund, giving them his checks amounting to \$9,870,000 in payment, and then borrowed the \$9,870,000 from the New York Life Insurance Co. using the bonds as collateral.

He then sold the bonds, giving the New York Life Insurance Co. 95 per cent. of the profits and keeping five per cent.

CASSIE'S REQUEST GRANTED.

The Hearing in Bankruptcy to be Resumed.

Cleveland, Nov. 28.—Harold Remington, referee of the federal bankruptcy court, after a conference to-day with the attorneys interested in the Chadwick bankruptcy proceedings announced that the hearing would be resumed to-morrow afternoon at 3 o'clock. This action followed the request of Mrs. Chadwick that she be again permitted to go on the witness stand in the interest of her creditors. She has promised to make public many details of her financial operations which she refused to divulge when she appeared in the bankruptcy court several months ago.

NEW DATE FOR INAUGURATION.

Last Thursday of April Decided Upon by Committee.

Washington, Nov. 28.—The last Thursday in April was decided upon to-day at the meeting of the national committee on the proposed change of inauguration day as the day to recommend to congress for future presidential inaugurations. It was decided that no action should be taken on proposing a new date for the assembling of congress. The vote was unanimous.

Silk Mill Burned in Turnerville.

Turnerville, Nov. 28.—Fire to-night destroyed the big silk mill of E. W. Turner & Co. and caused a loss of about \$40,000.

The Howe & Stetson Stores. The Howe & Stetson Stores. The Howe & Stetson Stores.

Thanksgiving--Christmas.

THANKSGIVING not yet over;--that delicious dinner still a pleasure of anticipation and here, almost at hand, is old Santa Claus hurrying along! The calendar man must have mixed his dates this year; hasn't given us time to get our minds off the snowy linen and dainty table fixings of one holiday before the hustle and buzz of preparation for another begins. Just take a stroll through the store with us and we'll show you some things you MUST need now for the one event and a lot more which will be equally in demand for the other in a day or two.

Strolls Through the Store.

The Suit Room has been crowded almost to its limit this season and we thought we could give it a rest during the holidays. Not so our buyer—he comes forward with a list of Christmas offerings which we cannot overlook; rich, warm, furs which would make any pair of bright eyes in Christendom sparkle with pleasure—waists for evening wear made from silks, laces and fine linen; soft, comfortable lounging robes and kimonos for the boudoir; cute little fur sets for children—yes, the Suit Room can be counted in with our holiday department.

Along the main aisle, West entrance, there's a wealth of gift suggestions for even the casual passer-by. You could hardly help noticing the splendid showing of belts, bags and leather goods of all kinds. Then there's the jewelry and stationery and, if you keep along to the extreme end of the aisle, a display of art needlework unsurpassed in New Haven. We've always had a reputation for carrying the best to be had in this line and our stock this season is ahead of anything we've ever shown.

Down in the front of the big basement, just about the center, is a department that's attracting throngs of people these days, people who are looking for warm, comfortable bed coverings for the long, cold nights that are upon us, and who know a good thing when they see it. You would hardly believe us were we to tell you how many of the famous Howe Sanitary Blankets we have sold this season, but it runs into the thousands and we've had hard work to keep up with the demand. Then there are the comfortables, all that their name implies, filled with white fleecy cotton or the soft down of the Eider duck, and covered with silklike or satin in beautiful patterns. Many a family on whom the hand of winter has fallen heavily, will think with gratitude of the thoughtful donor whose practical gift was selected in this department.

The prosaic second floor, where all the year 'round we look at samples and sell shoes, has blossomed forth into a veritable paradise of toys for the little folks. It is the only available space in the store large enough to accommodate the immense stocks which have been coming in for weeks past. From the wonder shops of far away Germany come most of the mechanical toys, both amusing and instructive, which interest young and old. It's the home of Kris Kringle, and the German mind, imbued with the folk lore of the Fatherland, conceives ideas for children's entertainment that would never suggest themselves to the rushing, hurried worker of the New World. From France, come the big, beautiful dollies that are eagerly adopted by little American mothers. It's too long a list to describe—the books, magic lanterns, drums, rocking-horses, desks, cooking ranges, games, etc., etc., but there's not one among the lot that will not bring happiness to some little heart.

The shoe man's lines have fallen in pleasant places this season, for he's right in the way of the toy sections and must be seen. And he is offering some good things, too, in the way of comfort giving slippers for men and women; leggins, wool soles, etc.

Strolls Through the Store.

Gloves, Neckwear, Handkerchiefs—what words to conjure up the very spirit of the Christmas Carnival!

To slip on a gift glove is like clasping the hand of the giver. Surely gloves were specially devised for the very purpose of Christmas giving. But have a care when you buy them, for nothing is more uncomfortable than a poorly made or ill fitting glove.

It's rather a hobby with us—searching out the best skins and the best makers and our search has carried us to sunny France where we purchase direct most of the gloves sold over our counter. You can't go wrong here.

When it comes to handkerchiefs and neckwear words fail us. We couldn't begin to describe our stock, but it will be a delight to you to look it over. No one ever has too many handkerchiefs, and neckwear is always acceptable, so drop the burden of your shopping troubles right here and fill in all those places marked, "Don't know what", on your list right at this department.

There's nothing better than a stylish house-coat or a comfortable bath robe when you're selecting a gift for father, husband or the other girl's brother. But—it must be made right, roomy and free, and cut on right lines. Ours are made that way, and they cost no more than the poorer, thrown-together kind. There's distinctiveness in the patterns and a harmonious blending of colors which is as restful to the eye as the garments themselves are to the tired body. One of the best is made from the Howe Sanitary Robe Blanket. Imitators cannot follow us in this line for we control the output of the mill for New Haven. You'll be surprised to see how much of value they contain for so small a price.

In the main basement there's an array of gifts fairly bewildering in their infinite variety—useful or ornamental, costly or inexpensive—just as you please. Cut glass for every conceivable purpose; statuettes of Carrara marble; beautiful bronzes; gleaming silverware; soft toned Japanese dinner-gongs; Chinaware from France, Germany and England; dainty service for the tea table and lusty steins for den and sideboard. We've scoured the markets of the world for objects of art and beauty for this great basement of ours, and capricious indeed would be the taste we could not please.

Controlling the output of potteries and glass factories, we eliminate all middlemen's profits and can sell at practically the prices other dealers pay for their goods. Isn't that an item worth considering?

Over in the East Store there's a department that's always busy at this time—ribbons. There are so many ways that ribbon can be worked into useful gifts! Stop and see some of the pretty things and ask how they are made.

Down by the door are the umbrellas, stacks and stacks of them, from the "made for service" kind that the youngsters carry to school to the very heaviest silk ones with handles of precious metals.

And then there is the muslin underwear section with piles of snowy garments of both foreign and domestic makes.

In the upholstery department there are sofa pillows, pillow tops and pyrography goods of all kinds.

THANKSGIVING EFFORT.

BUSY TIMES IN PREPARING FOR THE DAY. Stores Where Supplies for the Table Are Sold Working Overtime—Charitable Effort Not Forgotten—Thanksgiving Union Services.

At all the stores where supplies for the Thanksgiving dinners are sold there were busy times yesterday all day and evening. Many of the large stores were open during the evening despite the wet weather. There were unusually attractive and tempting displays at all of them.

Plans are laid for the annual collection for Thanksgiving in the public schools. The collections will be held to-day. This custom of the public schools of New Haven is peculiar to New Haven and means every year a great deal to the poor people.

Every morning forms itself into a society and appoints a committee to manage the affairs of the room. Turkeys are not exceedingly plentiful, but there will be enough to go around.

The "native" birds, and this includes any turkey claiming New England for its birth-place, are fetching from twenty-five to twenty-eight cents a pound. Large shipments of turkeys are being received from the middle west.

They will bring from eighteen to twenty cents a pound and are reported as not being up to standard. Fowl will fetch from sixteen to eighteen cents a pound and chicken for roasting will bring eighteen to twenty cents. Ducks and geese are classed together to the tune of from eighteen to twenty cents a pound.

Do Not Try to Drive and Force it to Work When it is Not Able or You Will Suffer All the More. You cannot treat your stomach as some men treat a balky horse; force, drive or oven starve it into doing work at which it rebels.

Stuart's Dyspepsia Tablets will do the work of your stomach for you and digest your food just as your stomach used to when it was well. You can prove this by putting your food in a glass jar with one of the tablets and sufficient water, and you will see the food digested in just the same time as the digestive fluids of the stomach would do it.

Stuart's Dyspepsia Tablets act in a natural way because they contain only the natural elements of the gastric juices and other digestive fluids of the stomach. It makes no difference what condition the stomach is in—they go right ahead of their own accord and do their work. They know their business, and surrounding conditions do not influence them in the least.

Stuart's Dyspepsia Tablets are for sale by all druggists at 25 cents a box. They are so well known and their popularity is so great that a druggist would soon think of being out of alcohol or quinine. In fact, physicians are prescribing them all over the land, and if your own doctor is real honest with you he will tell you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia Tablets.

Some men don't seem to know when they are well off. A Kentucky man has petitioned for a divorce from his wife because she will not talk.

Perseverance conquers—sometimes. Herman H. Vorjohan, of Lockland, Ohio, aged seventy-one, wanted to be assessor. He is a Democrat in a Republican town. Twenty-five times he ran for the office and didn't get it. This year he ran again and got it.

The budget for the Turkish Sultan's harem amounts to \$15,000,000 a year. Every one of the women who leave the harem every year to get married receives a dowry of \$37,000. There are usually three hundred inmates of the harem, each of whom has ten maids and a carriage with four horses. The greatest ambition of courtiers and officials is to have their daughters accepted for the harem.

Phenomenon is a good word. The London Globe has heard a man thus explaining it to a friend: "Now, if you see a cow in a meadow," he said, didactically, "that's not a phenomenon. It's a pretty animal and what not, but it ain't a phenomenon. And if you see a thistle in a meadow, that ain't a phenomenon. Nor if you see a lark in the meadow, that ain't a phenomenon. It's a pretty bird and what not, but it ain't a phenomenon. But if you was to see that cow sitting on that thistle and singing like that lark, that would be a phenomenon." His friend said, yes, he saw now.

Some remarkably interesting experiments are reported from Zurich showing the effect of temperature on the development of species among butterflies. The experiments have been continued through a period of about fourteen years and it is found, for instance, that the common small tortoise-shell butterfly, if subjected to warmth of from thirty-seven degrees to thirty-nine degrees centigrade, develops into the variety found in Sardinia, while those bred in a temperature of from four degrees to six degrees produce the Lapland variety. Similarly, the application of heat produced the Sardinian form of the swallow-tail butterfly and the Syrian form of the Apollo.

President Cassatt, of the Pennsylvania Railroad company, has taken a great interest in the railroad branch of the Young Men's Christian Association. In the new terminal station in New York there are to be adequate quarters for the Y. M. C. A. The plans have been approved, and it is understood that, although some objections were made by the under-officials of the company, President Cassatt put a stop to all controversy by saying: "The matter has been settled." Rooms are to be set apart where trainmen who have been on the road all night may rest. There will be a gymnasium, a large reading room and a lecture room. Everything is to be done to make the quarters as attractive as possible. The same plan is to be followed with the branch in Washington.

Clothing experts in New York are hard at work in quest of a dye which shall enable the cotton fabrics used in certain military equipment, such as leggings, to be colored olive drab, so as to establish a uniformity of shade in army clothing. The difficulty has been in getting such a color for that kind of material, and in that respect the army quartermasters find there is nothing exactly suitable for the purpose desired. The samples of material so far submitted stand all the tests save that of exposure to the weather, which is the most severe and at the same time the most important consideration. It is the practice of the War department to place samples out of doors for given periods, and to observe the effect of changes of temperature and the elements, it speedily appears whether climatic influences will have a destructive

effect upon an article under the trial, and it is the custom to continue the test until there is a demonstration of quality.

SAD AND HIGH-TONED.

It is portentously announced that the Harvard Graduates Magazine for December will contain an article by an unnamed graduate of the university setting forth that Harvard should abandon athletic relations with Yale on the ground that such relations are used by Yale simply as a basis upon which to claim parity with Harvard as an institution of learning. Harvard, the writer says, furthermore, cannot win without adopting Yale methods, and this she cannot do without violence to her ideals.

That Harvard graduate ought not to be allowed to long remain unnamed, and he probably won't be. A Harvard graduate who can write like that ought to have all the benefit of his fame. Of course there are those who will not appreciate all his reasoning, but even they will be ready to admit that Harvard cannot win from Yale without adopting Yale methods. Furthermore, there are some, we suppose, who will not be sure that Harvard can win even by adopting Yale methods. Perhaps, on the whole, it would be better for Harvard not to try to play any more.

A NEW CURE IN SIGHT.

We already have the faith cure, and perhaps soon we shall have the fear cure. It has long been known that a sudden scare will sometimes cure hic-coughs, and now we read of a case of paralysis in Germany cured by fear. The subject, an old woman, had been bedridden on account of paralysis for ten years. Last August a tempest burst in the region where she lived. Hall destroyed the vineyards. A gale shook the houses. Premature darkness settling down caused general terror. The old paralytic, influenced by fear, leaped from her bed. There has been no relapse.

Perhaps this is hardly enough to found a new cure on, but perhaps there will soon be more. Many ambitious people are looking for a new cure that will make them famous and incidentally do other people some good. We may soon read of "elaborate experiments" with fear, and if these experiments don't kill more than they cure formal announcement of "a new cure" may then be made. Doubtless there are people who think themselves sick that would be benefited by a judicious scare.

THE GOOD GROUND.

In the midst of the millions and billions of money that are tossed around so nonchalantly nowadays we are apt to forget the real sources of wealth. It is well, therefore, to pause for a minute in our mad career and notice what the good ground has done for the people of the United States this year. It appears that farm crops in this country have never before been harvested at such a high general level of production and value. Corn has reached its highest production, over 2,700,000,000 bushels, of a total estimated value of \$1,216,000,000. Hay comes second, with a value of \$605,000,000. Cotton is expected to yield \$575,000,000. The short wheat crop of last year is followed by one of 684,000,000 bushels, and its value, \$325,000,000, overtops the highest value ever before reached. While only one crop, corn, reached its highest production this year, four crops—corn, hay, wheat and rice—reached their highest value. The estimated value of dairy products for 1905 reaches \$665,000,000. Poultry products aggregate half a billion dollars in value. The wealth production on farms in 1905 has reached the highest amount ever attained by the farmer of this or any other country, amounting in value to \$6,415,000,000, an excess over last year of \$256,000,000. The wealth produced on farms in 1905 exceeds that of 1904 by 4 per cent., that of 1903 by 8 per cent., and that shown by the census figures for 1899 by 36 per cent.

Let us not wait until Thursday to rejoice and give thanks. Let us begin now.

A REAL EMPEROR.

Of course if one happens to be born an emperor he is born an emperor in all things. Nobody knows that better than Emperor William of Germany. He showed his own estimate of his royal qualities in the making of the new Moltke monument recently unveiled at Berlin. This was one of the emperor's pet projects, and he himself selected the sculptor who should execute it, Professor Uphues, who has made many busts and reliefs of members of the imperial family, including the much-discussed statue of the Emperor Friedrich presented to America by Germany some time ago. While Professor Uphues was carrying out the royal commission the Kaiser paid regular visits to his studio. Everything seemed to meet with his entire approval till one day on his arrival he found the pedestal of the statue complete and already in place. This pedestal was an original piece of work, rugged and severe, designed by the sculptor as peculiarly appropriate to Moltke's character and genius. But as soon as the Kaiser saw it he exhibited great surprise and annoyance. "That won't do," he said; "that won't do; it must be altered—this

is the kind of pedestal we must have." Picking up a fragment of chalk, he roughly sketched his own conception of what the pedestal should be, choosing the conservative, conventional design usually followed. The sculptor, of course, was obliged to suppress his own artistic instincts in the matter, and fashion the pedestal in accordance with the imperial taste.

The Moderate Father.

A worm will turn. Though not a worm, I've turned, and turned I'll stay. No clothes to wear! It's always so—November, March or May.

I never thought that I was meek. In fact, I hear them say Down at the office—'Look out sharp, The boss is hot to-day.'

But here at home, it matters not if I wax hot or cold, When coats and shirts and ties are gone It does no good to scold.

It's nice to have a healthy wife And girls so tall and strong, But this athletic fad's the worst; It lasted much too long.

My negligee shirt Ethel wears To school and to the gym; And Helen has my soft felt hat, The one with slouching brim.

Virginia's worn my rain coat off, Of caps I am bereft; I need a walk for exercise— My sweaters' all that's left!

I am not even safe at night For since they have forsaken Their robes de nuit, I often find My clean pajamas taken.

The time has come to call a halt, They've worked me long enough, I'll treat them like I do my clerks— With language strong and rough.

Who's there? Yes, yes, wife! Come right in. You'd like to golf, you say? You'll want this sweater and my shoes— I'll change them right away.—Puck.

MODERN.

Mistress—Any one here while I was out? Maid—No'm.

Mistress—Strange—I wonder what people imagine I have "a day at home" for.—Chicago Journal.

Inspector—Is there anything the matter with your gas? Lady—Yes, sir, it has a very bad case of quick consumption.—Detroit Free Press.

"This is her first year in society, she says." "Nonsense! She's been out four seasons at least."

"Well, four seasons make a year, don't they?"—Cleveland Leader.

Bobby—Mother, tell me a fairy story. Mother—I can't. Go ask your father what detained him down town so late last night; that will be one.—Chicago News.

"Is this redfish or compano?" "Why do you ask, sir?" "Because I don't like redfish."

"It is pompano, sir."—Houston Post.

Miss Fuffy—"I made quite an impression at the reception, didn't I? Everybody seemed to be talking about me."

Child friend—"They talked, still more about you after you had gone."—Chicago Journal.

"Yes," said the man who poses as a connoisseur, "I am fond of music, although I don't know how to play."

"That's just the way Mrs. Torking, is just the way Charley is with the races."—Washington Star.

Appearance Deceptive—Mr. Head-stall—"That horse you bought yesterday is a vicious looking animal. Is he kind?"

Mr. Cropper—"Kind? I should think so. Why, when he came out of the stable he stood upon his hind legs and tried to embrace me."—Puck.

Admirers—Jack—"I hear your literary circle is making a study of Shakespeare now."

May—"Yes."

Jack—"And what do you think of him?"

May—"Oh, all the girls think he's just cute."—Philadelphia Ledger.

"What reason did he give for wishing to break off the engagement so soon?"

"He said the report that he was engaged to me had not extended his credit nearly as much as he had hoped for."—London Punch.

"It must be awful," said the typewriter boarder with the \$1.98 pompadour, "to be deceived by a false marriage."

"Well, I don't suppose it's any worse than being deceived by a real one," rejoined the landlady.

And her husband continued to give a correct imitation of a man trying to read a newspaper.—Chicago News.

Admission for a Veteran

To Editor of the Journal and Courier: Will you please allow one to trespass upon your valuable space for a moment or two? I can no longer suppress my admiration for that noble and fearless veteran who expressed his opinion on the canteen question with such masterful logic a little while ago in your paper. It was a sermon that any minister in any land should have been proud to preach. Coming from one who knew so well what he was saying, what a picture it exposed! What now is there left to say by those who wish the canteen restored to its pedestal of governmental approval on the ground that its use lessened evil, when its use could show up a record as black as that? What a figure of heroic nobility he made of himself as, stepping out from the ranks, he dared to raise his voice as he did in such withering denunciation of the proposed restoration. I do not know that veteran's name, but this I do know, that his name should be known and written in letters of light to grow brighter and brighter in the coming years, while the name of many a drunken, so-called leader of armies sinks into the oblivion merited. A READER.

CHILDREN TO KEEP CITY STREETS CLEAN.

"Not many cities of the same size go ahead of Shelbygan for public spirit," said James J. Hogan of Chicago. "I have just returned from my first visit to the city and it was a revelation. The school children all wear green buttons, and after I had seen several hundred of these about the streets I asked a merchant what they signified. He said that the children had all been banded into a society to keep the city neat and clean. Each child who joins is given a button, and from then on it is his duty to keep the streets and yards cleared of the little bits of paper and other waste material which present such an unsightly appearance. The youngsters have entered thoroughly into the spirit of the thing. They have collected more than \$100 by popular subscription, and with this money they are planning to purchase waste boxes to be put on the different street corners."—Milwaukee Sentinel.

For a Grand Wind-up To Our Great Thanksgiving Sale

The greatest November business we ever knew came to us during the month just closing—greatest by thousands of dollars. There was no blowing of horns or tingling of bells either—it was just regular every day business. It was a new-record business built on every day selling.

Just think of how many occasions you have to use Ribbons—beginning at the foot, you use them for shoe strings, skirt trimmings, girdles, skirt bands, waist trimmings, neck-ribbons, millinery ribbons and hair ribbons. Ribbons usually come in 10-yard lengths—you seldom require a full piece for any purpose, so to-day's news of a sale of RIBBON REMNANTS should interest you. Every short length in stock has been unrolled off the block and thrown into ties on the counter—values range from 8c, 15c, 25c, 35c to 40c.

Special in Tourist Coats, new and dashing styles, modes not to be found elsewhere, extra well made, special Wednesday, \$10.00 and \$12.00, worth much more.

Black Hair Muffs and Scarfs—value \$2.50, Wednesday, \$1.95

Necklaces in imitation of the real gems, such as emeralds, amethysts, rubies, coral and other pretty stones—values 15c, 25c, 50c, and 75c, all reduced to half-price. Wednesday, 8c, 12 1/2c, 25c, 38c

Great Silk Selling, the largest assortment ever shown in New Haven, every desirable design or coloring designed by Dame Fashion this season is here. Not a piece in the 5,000 yards worth less than \$1.00 a yard, and some worth \$1.25 and \$1.50. Special Wednesday, 59c

Fine Furs for Misses and Children

Styles are prettier than ever before. Grand Prize was won by our manufacturer at St. Louis. That speaks volumes for the assortment. We want you to see them.

Tourists' Coats

Another new line of them to-day at \$10.00 and \$12.50 each. They are scarce, but we are getting them daily.

We are very thankful for the magnificent business accorded this store. Your confidence in our methods—your ready response to our advertisements and your generous patronage is cause for our thankfulness.

In Thanksgiving we will offer these extra big values at prices seldom before associated with such high-class merchandise. Come Wednesday and get your share.

Patent Leather Contour Fitting Belts, fit like a glove—excellent 25c value, Wednesday, 15c

25c off the dollar on all Laces, narrow or wide, white, cream or black. And on any kind of Lace in stock, Val, Torchon, Venise, Irish, Cluny, Duchess and Princess. This means that you pay \$1.00 a yard for 50c laces; 75c for \$1.00 laces, etc.

An excellent \$1.25 Glove, heavy cape street glove, thoroughly manish, \$1.00.

Remember this—that Monson's is headquarters for Thanksgiving Neckwear, Gloves, Ribbons, etc. If you'll be stylishly dressed, come here.

We have a fine group of good Neckwear in four-in-hand shapes, that we will close out to-morrow at 29c for Wednesday only. Selected from our regular 50c stock.

IMPORTANT PROJECT.

CITY MAY GAIN TWELVE ACRES OF NEW LAND

And Twelve Hundred Feet of Shore Front at Bayview Park—Dredging Company's Offer.

Mayor Studley, President Blake of the board of park commissioners; Controller Rowe and Alderman-at-Large Homan held an important conference at the mayor's office at noon yesterday on the matters of the city reclaiming twelve acres of land at Bay View park, City Point. The matter comes about through the offer of the Atlantic Dredging Company now at work in the New Haven harbor to pile all the mud dug up in heaps near the edge of the park, provided the city would build the bulkhead to hold it. City Engineer Kelly presented figures showing that it would cost \$20,000 to construct the bulkwork. The dredging company on learning that the city would not put such a large amount into the bulkwork, offered to pay half the cost of building it and advance the money for the remainder. It is likely that the city will accept the offer.

If the plans go through the city will have twelve acres of new land adjoining the park, which will be used for an athletic field. The bulkwork, if built, will be 1,200 feet long and 450 feet wide. One side will be the present sewer at City Point. The 1,200 feet on the water front will be used as a public wharf, and those in favor of the project say it will be a great thing for the city. The dredging company will force all the mud through big pipes to the dumping ground and expects at times to have the pipe over a mile long.

USEFUL FACTS

About Coughs, Colds and Bronchial Troubles Given to the People of New Haven by Our Druggist, Wm. H. Hull.

In conducting a large drug business we naturally meet a great many people at this season of the year who suffer from coughs, colds and bronchial troubles.

As these troubles are easily controlled if the right means is taken we want to say to the people of New Haven that we guarantee our cod liver oil preparation, Vinol, will cure hanging on colds, stubborn coughs, bronchitis and lung troubles, quicker than any preparation we have ever sold, because it is the most perfect preparation of cod liver oil ever compounded. It contains no oil or grease to clog the system and up-set the stomach, yet it does contain every one of the fifty odd medicinal elements actually taken from fresh cods' livers in a highly concentrated form, and is therefore the best cod liver preparation obtainable. Vinol is not a patent medicine; everything in it is named on the back label of the bottle and you know what you are taking, so without reservation we endorse and guarantee Vinol to strengthen every organ in the body to do its work as nature intended—to cure coughs, colds, bronchial troubles, increase the appetite, build up the run down, tired and debilitated, and create strength and renewed vitality for the aged.

If Vinol fails to do what we say we will refund every dollar paid for it. You know us and know we will do as we agree.—Hull's Corner Drug Store.

GREAT ORATORIO SALE

Splendid Enthusiasm Evidenced in Coming Production.

An unprecedentedly large subscription was made for the coming concert by the New Haven Oratorio Society which began in Woolsey hall yesterday morning for the production of Dr. Horatio Parker's St. Christopher on the morning of Thursday, December 1.

A long line formed an hour or more before the hour set for the sale and the selling of seatstales unbroken throughout the day.

This is a most encouraging start and the managers of the society have every reason to hope that the same splendid spirit will endure throughout the time set for the important event. This morning the subscribers' sale will open at 11 o'clock and last unbrokenly until 1 o'clock; the afternoon sale will be from 2 to 4 o'clock. Of course Woolsey hall is a great auditorium and unless this public enthusiasm continues, the oratorio society's success is not an assured thing by any means.

The society is singing superbly and well, if energy and case and interminable effort count, give a grand oratorio a grand rendition.

"St. Christopher" has been received everywhere it has been heard with distinguished consideration. It is a consummation most devoutly to be wished for that New Haven may fall into line and honor a distinguished composer of a very great work.

PURE FOOD GOOD HEALTH and Burnett's Vanilla are synonymous. No commission has ever questioned the purity of Burnett's Vanilla.

FIFTEEN TRY EXAMS.

Candidates Out in Force for Clerk of Police Board.

Fifteen candidates for the position of clerk of the board of police commissioners tried the examination of the civil service commission for that position held in city hall last evening. All who receive a mark of 70 or over, in each of the subjects of the examination will be eligible to appointment. Those who tried the examination were:

- Arthur Daniel Miller, 711 Howard avenue; Harry E. Johnson, 290 Humphrey street; Alfred L. Tanner, 207 Howard avenue; Charles Sidney Gerth, 31 Lake Place; Charles James Fox, 278 Orange street; David S. Adams, 53 Pearl street; Francis T. Nade, 32 Ward street; Arthur V. Phillips, 79 Maple street; Thomas A. Fogarty, 284 Batchley avenue; Michael B. McGreat, 228 Columbus avenue; Philip T. Smith, 37 1/2 Lines street; Henry Donovan, 182 Ivy street; Fred E. Henny, 23 Tilton street; Jacob Jacobs, 166 Oak Place; Edward V. Wallace, 137 Rosette street.

BETTER THAN SPANKING.

Spanking does not cure children of bed wetting. If it did there would be few children that would do it. There is a constitutional cause for this. Mrs. M. Summers, Box 516, Notre Dame, Ind., will send her home treatment to any mother. She asks no money. Write her to-day your children trouble you in this way. Don't blame the child. The chances are it can't help it.

STAMFORD MAN CAPTURED.

Wanted for Assault on Ship's Captain in That Harbor.

George Vanhusen, a man about forty-five years of age, who was wanted on a charge of assault in Stamford, was captured in this city yesterday afternoon by Captain Cowles of the detective bureau. Vanhusen, the story goes, was engineer on a Stamford boat and a son of his was a boat hand on the same vessel. The young man got into an altercation with the captain of the vessel and the father joined force with the son. As a result the captain was badly done up, his nose being broken and he sustained many other injuries. Chief Brennan of the Stamford force came to this city yesterday morning but failed to get his man. Another officer from that city came up last evening and took Vanhusen back with him. The son has not been located in this city, and is not thought to be here.

COLORADO BOY STEALS LACES.

Clarence Turner, a young colored man, eighteen years old, living at 12 Oak street, was arrested yesterday by Detectives Daley and Ward for the theft of valuable shoe laces worth twenty-five cents per pair and of a large number of rubber heels from the Regal Shoe company, by whom he was employed. While the full extent of the thefts had not been figured out last night it was stated that he had taken about 200 pairs of laces and many rubber heels. There are twelve counts against him, and more may materialize.

Mrs. Beatrice Herford, the monologist, who gave such a charming recital in Harmonie hall Monday evening was the guest of Mrs. Mary T. Gridley of Prospect street.
The evening of song for which Mr. Louis Sajoos issued cards a few days ago, has been postponed until next Tuesday evening instead of last night. The program as previously announced will then be given. Miss Helen Gauntlett Williams will be the accompanist.
Mr. Aptommas, the Welch harpist, who has been in New York for several weeks, has returned to New Haven to fill several engagements in the city and vicinity. Mr. Aptommas will play at the reception to be given by Mr. and Mrs.

Burton Mansfield of Prospect street on Thursday afternoon, December 14, and on Tuesday, December 12, will play at a large concert in Brantford. He will also play at a recital in Bridgeport next month, and at a large reception to be given by Mrs. Foster of Hartford during Christmas week.

The ladies of Elm City Branch Tribune Sunshine society, did most effective work at Mrs. R. S. Woodruff's Monday making 28 garments and party finishing 10. These latter one lady took home to complete.
Mrs. G. G. Powning has invited the ladies to meet with her Friday December 8, for sewing. All will please bring box luncheons and party finishing will serve coffee.
A pretty little reception was that given by Mrs. G. Hinley Morgan recently for Mrs. Joseph L. Joyce of Vermont. Mrs. Joyce, who formerly resided in New Haven, was at one time a prominent member of Christ church, and those asked to meet her were old friends in the church. Mrs. William Thomas and Mrs. Edward Todd assisted Mrs. Morgan.

Among the callers were Miss Emma Thomas, Miss Ada Lookwood, Mrs. Nelson Todd, Mrs. Charles Blakeslee, Mrs. William Chatfield, Mrs. J. G. Bennett, Mrs. Edward Cornwall, Mrs. Isaac Cornwall, Mrs. Isaac Bishop, Mrs. C. H.

Kirkman, Miss Mary Candee, Mrs. Ellen Bishop, Mrs. Samuel Tustin, Mrs. Evans and Mrs. Keller.

Capt. Tom Shevlin of the Yale football eleven, was yesterday afternoon shown newspaper statements published in New York publications, yesterday morning to the effect that he was engaged to Miss Elizabeth B. Sherry of Louisville. Captain Shevlin refused to confirm the engagement. The statement in New York newspapers asserts that during the summer vacation Captain Shevlin met Miss Sherry when she was visiting her aunt in Minneapolis and that his attentions were marked all summer. Miss Sherry has been east for several weeks and has attended several Yale games. She is now the guest of Colonel Pullman of New York city at Governor's Island. She is 18 years of age and was educated in the Sacred Heart convent in Paris.

Mrs. F. R. Lewis, Mrs. D. A. Kinney, Mrs. Frederick Hyde and Mrs. John Lomas will take charge of the Thanksgiving dinners, which the Sunday school scholars of the First Congregational church West Haven provide, and these ladies will be at the church parlors this afternoon to receive all contributions. Last year several deserving families in the church were the recipients of a bountiful Thanksgiving dinner.

STOCK MARKET FEATURES

NATIONAL LEAD AND TENNESSEE COAL DID STUNTS.

St Paul Was Leader Among the Railroads—Rock Island Had Support—Railroad Shares Held Back—T. C. L. Gyrations—Heavy Dealings Again.

The market yesterday was a lively one again and over a million and a half of shares were dealt in, including suspected wash sales.

Lead common rose to 72 1/2 and made a net gain for the day of about four points.

Tennessee Coal rose to 129 and got back to 123 at the close. The stock was selling around 30 or so less than two years ago and nobody seemed to want it.

Smelters were reactionary to the extent of two points, and all of these stocks, including Lead, finally declined freely under the pressure of profit-taking and a withdrawal of support by the pool interests.

It is the talk that the railroad list will be held back until it is seen what President Roosevelt has to say on the subject of railroad rates legislation.

One thing that has favored the industrial, and particularly the shares in which to most violent advances have occurred, is the relatively small amount of outstanding stock.

Within a very few days Tennessee Coal has risen thirty points, Sloss Iron and Republic Steel six. In the afternoon, when these stocks reacted somewhat, it was reported that there was a temporary "hitch" in the deal.

The trading during the first hour was at the rate of 500,000 shares an hour. The larger part of this consisted of Southern Steel and National Lead issue.

In the closing dealings there was a notable withdrawal of bids for stocks. The attempt to take profits on some of the industrial features found no market or stocks.

The movement in National Lead was attributed to manipulation by good judges.

A further rise of 1-4 cent in the price of all grades of copper was used by big people to take profits on Amalgamated and other copper shares.

Rights to the new \$20,000,000 bond issue of the New York, New Haven and Hartford road will accrue next Friday.

YESTERDAY'S STOCK MARKET.

Unusual Violence of Speculation in Some Stocks.

New York, Nov. 28.—Speculation in some special stocks attained unusual violence to-day, and the general market in the latter part of the day showed signs of weariness in consequence of these excesses and yielded quite generally.

The movement showed some irregularity from the outset and it was obvious that large profit-taking was going on in the midst of the most excited advances in the specialties.

The southern iron group and the metal industrialists attracted the largest share of speculative activity. Tennessee Coal's uptick of 5% supplemented a rise of over 11 points yesterday, while Lead's jump of 9 points was only slightly in excess of the rise in yesterday's market.

The movement showed some irregularity from the outset and it was obvious that large profit-taking was going on in the midst of the most excited advances in the specialties.

Local Weather Report

Table with columns for a.m., p.m., and D.M. containing weather data for New Haven, November 28.

BRIEF MENTION.

High water to-day, 12:38 a. m. The Ladies' Home Journal at the Pease, Lewis company's. Clarence Turner, an eighteen-year-old colored boy, was arrested yesterday for theft, on ten counts, of shoe laces and rubber heels from the Herrick shoe store. The boy was employed at the place. Harry Hyman, of the Hyman department store, 13, 20 and 22 Church street, will give away one thousand loaves of bread to the poor of New Haven on Thanksgiving morning from 8 until 10 o'clock. As one of the members of the police commission is to be out of town next Tuesday evening, which is the regular monthly meeting night of the board, the meeting will be held Saturday evening of this week. The employes of the Winchester Repeating Arms company in the polishing department gave a farewell banquet to their former superintendent, Frederick R. Gorham, at the Hotel Orisco Monday night. About fifty men were present. They presented Mr. Gorham with a loving cup. A still alarm was sent in yesterday morning for a slight blaze at 14 Edgar street. A chimney had taken fire, but the hose wagon at No. 11's house extinguished the smoulder with practically no damage.

FROM WEATHER BUREAU.

Record of December Weather for Thirty-Two Years. The following data, covering a period of thirty-two years, have been compiled from the weather bureau records at New Haven, Conn. They are issued to show the conditions that have prevailed, during the month in question, for the above period of years, but must not be construed as a forecast of the weather conditions for the coming month: MONTH OF DECEMBER FOR THIRTY-TWO YEARS. Mean or normal temperature, 32 degrees. The warmest month was that of 1891, with an average of 39 degrees. The coldest month was that of 1904, with an average of 25 degrees. The highest temperature was 68 degrees, on December 25, 1889. The lowest temperature was 10 degrees below, on December 20, 1884. The earliest date on which first "killing" frost occurred in autumn, September 15, 1895. Average date on which first "killing" frost occurred in autumn, October 17. Average date on which last "killing" frost occurred in spring, April 20. The latest date on which last "killing" frost occurred in spring, May 30, 1884. Precipitation (Rain or Melting Snow). Average for the month, 3.53 inches. Average number of days with .01 of an inch or more, 12. The greatest monthly precipitation was 7.65 inches, in 1901. The least monthly precipitation was 1.33 inches, in 1875. The greatest amount of precipitation recorded in any twenty-four consecutive hours was 3.75 inches, on December 17, 1883. The greatest amount of snowfall recorded in any twenty-four consecutive hours (season extending to winter of 1884-85 only) was 10 inches, on December 23, 1896. Clouds and Weather. Average number of clear days, 10; partly cloudy days, 10; cloudy days, 11. Wind. The prevailing winds have been from the north. The average hourly velocity of the wind is nine miles per hour. The highest velocity of the wind was fifty-five miles, from the south, on December 27, 1895. Station, New Haven, Conn. Date of issue, November 28, 1905. L. M. TARR, Local Forecaster.

If the Baby is Cutting Teeth, be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

IN AND ABOUT THE COURTS

THREE DAMAGE SUITS IN PROGRESS TO-DAY.

The Bronson Suit Will Probably be Settled Out of Court—Alimony at Sixteen—Many Other Cases.

In the superior court yesterday before Judge Case, Thomas Donahue brought suit against the city of New Britain for \$3,000 damages for personal injuries received on West Main street January 26, 1904. The plaintiff fell on a icy sidewalk in front of the New Britain Institute and suffered injury to his spine, and other injuries. The hearing yesterday was one in damages, the city of New Britain having entered a default.

Judge Hungerford, city solicitor of New Britain, represented the defendant and Lynch & Lynch, of this city, the plaintiff. The court reserved decision.

Another damage suit occupied all day yesterday the attention of Judge Wheeler at the special session of the superior court. The case was not concluded when the court adjourned yesterday afternoon and will probably cover all of to-day. In the case in question before Judge Wheeler, W. L. Ward and wife brought suit against the Connecticut Railway and Lighting company. There were two cases. In one Mrs. Ward asks for \$5,000 damages for personal injuries, and in the other Mr. Ward asks for \$1,000 for the loss of his wife's services.

About a year ago Mrs. Ward was hurt at a crossing on the road between Ansonia and Seymour by a car running into the wagon in which she was riding. The wagon was broken and she was badly injured. Attorneys Ely and Barclay represent the plaintiff, and Attorneys Paige and Hincks, of Bridgeport, represent the railroad.

The suit of T. E. Norton, of 327 Winchester avenue, against the Consolidated Railway company, a suit for \$1,000 damages, will be finished to-day before Judge Ullman in the civil side of the common pleas court. The case began yesterday.

On August 25 last the plaintiff was a passenger on a car from the depot and took a transfer for Winchester avenue. At Church and Chapel streets he changed cars. After starting to ride to Winchester avenue Conductor H. F. Zimowski came forward for fares. He took the transfer from Norton and said it was no good, as it was not punched right. Norton said that he had just left the other car, but the conductor demanded fare and Norton refused to pay it. Thereupon the conductor grabbed him violently and finally had him arrested for evasion of fare.

Soon afterwards in the city court Norton was discharged. He sued for false arrest and its attendant humiliation. Attorneys Slade, Slade & Slade are counsel for the plaintiff, and Attorneys Parmelee and Elliot Watrous appear for the railroad.

Judge Bennett sat for trial yesterday on the case of the Toledo Carriage company against Frederick Kirchoff, a carriage maker on Foot street. It is a suit to recover \$200 on a bill for carriage parts. Kirchoff ordered the goods, but refused to pay for them, as he said they were not of the construction as he had ordered. The case occupied the attention of the court all day yesterday, and is again up to-day.

DAIRY COMPANY BANKRUPT.

In chambers yesterday Judge William S. Case, of the superior court, made permanent the receiver in the crippled New England Dairy company. This is Charles G. Morris, who has been acting in the capacity of temporary receiver, and who has also been conducting the business since it has been in the courts. Harry B. Hurd and William H. H. Hewitt were appointed to appraise the value of the property on hand. "The business will be continued until the court orders differently.

BRONSON SUIT MAYBE ADJUSTED

The suit of Miss Susan Bronson against ex-Judge S. L. Bronson, her nephew, in which she asked for an accounting of her estate, worth over \$500,000, of which Judge Bronson had charge for about ten years, may be settled amicably owing to her death in Waterbury. Watrous and Alling are counsel for the plaintiff and Stoddard and Williams for the defendant.

CITY COURT CASES.

Patrick J. O'Neil, of Ashraun street, who was arrested on Chapel street on Monday afternoon by Detective Daley, was arraigned in the city court yesterday. A warrant had been issued in October for O'Neil on a charge of embezzlement by guardian of \$354 from Helen C. Edwin and Francis J. O'Neil. Judge Tyner continued the case to December 6, but a new guardian, Attorney Clark, of Orange, was expected for the children and O'Neil was ordered to make good the funds which it is claimed he embezzled.

The case of Charles Reynolds, charged with stealing plumbing from the old Hunt property owned by S. Z. Poli, the theatrical manager, was continued till to-day. Thomas Conrad, the electrician with the "No Mother to Guide Her" company, who was in the city court Monday, charged with non-support of his wife, Nellie (McNerney) Conrad, appeared again yesterday. Judge Tyner postponed the case a second time, and it is to come up finally to-day.

Michael Sheady pleaded guilty and said that he did not care even if he had to stand trial in the superior court for stealing \$205 from Mrs. Delia Reynolds, of 570 Grand avenue.

MEN'S CLUB OF UNITED CHURCH.

The Men's Club of the United church, which has now been ten years in existence, and which has been instrumental in having many addresses delivered here by eminent speakers on municipal and educational matters, held its annual banquet in the chapel of the church Monday evening. There was a full attendance. Lewis S. Welch, editor of the Yale Alumni Weekly, presided as toastmaster and many felicitous speeches were made. Rev. Dr. Munger, Rev. Mr. Haynes, Professor Emory, Judge Cleveland, George D. Seymour and Professor William J. Hall, all of this city; Judge Epaphroditus Peck, of Bristol, and John A. Birge, formerly of this city, were among the speakers. Music was furnished by a quartette from Yale. The affair was greatly enjoyed.

ENTERTAINMENTS

Hyperion Theater.

Character comedy was the description and "Checkers" the name of the production that was presented at the Hyperion theater last evening. It needs no introduction or description, as it has delighted large audiences here before. Hans Roberts in the title role and Dave Abraham, Jr., as "Fush" Miller carried off the honors for the men, and Lydia Dickson as Cynthia, "poor white trash," did the most conscientious work and was the best received of the ladies. The race-track scene was a most realistic one.

Considerable has been written about sea sickness, and there is a standing reward awaiting the man who can discover a cure for it. Charles Grapewin claims to have discovered an infallible cure for this disagreeable malady and his remedy seems simple enough.

"Whenever you feel the symptoms coming on," says the star comedian of "It's up to You, John Henry," "all you have to do is to go out and sit under a tree. Then you will very soon recover."

Charles Grapewin at the Hyperion to-night.

CHARLES GRAPEWIN.

"YOU NEVER CAN TELL."

Bernard Shaw's cleverest satirical comedy, "You Never Can Tell," now being played outside of New York for the first time, will be presented by Arnold Daly's company at the Hyperion theater Thanksgiving afternoon and night. This will be a welcome event for Shaw admirers—and for all who like wit, humor, clever characterization and amusing situations. There is a riot of fun in this play or those who want fun for their own sake, and it has a haven of philosophical satire for those who prefer to take their comedy intellectually. Brilliance of dialogue, rapidity of action, and unexpectedness of situation are among its salient characteristics. New York was entertained by it at the Garrick theater for five months last season.

"IN THE LAND OF COTTON."

Among the picturesque scenes in "In the Land of Cotton," a story of the south, which will be the attraction at the Hyperion theater on Friday and

Saturday is a Virginia Hill Top with its grand colored home with picturesque Fortress Monroe in the distance. Another scene shows a Virginia corn field, and the last act is a reproduction of the interior of Fortress Monroe itself. These scenes frame a play of peculiar quaintness which, with novel characters, an interesting story and a plot of absorbing interest in which human pathos is skillfully woven furnish an ideal evening's entertainment. The company engaged in the production is one of great strength and furnishes one of the most pleasing entertainments of the season.

New Haven Theater.

Lillian Mortimer, in her new play, "No Mother to Guide Her," drew a large audience at the New Haven theater last night. In this play there are more novelties in the four acts than can be found in half a dozen melodramas that have won public applause and crowded houses. There are new characters to the stage and new scenes which have never before been utilized for dramatic purposes.

There will be a souvenir matinee this afternoon and the performance will be given again at night.

THE WAY OF THE TRANSGRESSOR

Salary day with "The Way of the Transgressor" company presents a novel sight. When the members of the company receive their weekly salaries the four Landseer dogs that take part in the production line up the same as their human fellow laborers. The manager then presents each of them with a bag of fine confections made in England. These candies are made by a noted firm of confectioners in England and during the dogs' stay in that country they were constantly being treated to them by members of the royal family.

They now look for and expect a package of these every pay day, and the members of the company claim that the dogs know when salary day arrives as well as they do.

"The Way of the Transgressor" comes to the New Haven theater Thursday, Friday and Saturday as the Thanksgiving attraction. In addition to the clever and entertaining specialties that will be contributed by Miss Victoria Walters, the soubrette of the company, the management has engaged some of the best high class vaudeville specialists. These high priced specialties are all in addition to the many marvelous scenic effects and weird mechanical contrivances with which the play abounds.

There will be a holiday matinee Thanksgiving day, an extra matinee Friday and the regular matinee Saturday. Advance sale now open.

"THE FAYS."

The news that the Fays are to make a return engagement next week at the New Haven opera house has been received with pleasure by a multitude of interested and admiring New Haven people. The Fays have been at Washington, D. C., for some time, but as an attraction was booked at the house where they were performing and must make way for it. Before going, the manager of the house where they are giving their performances engaged the Fays for a return date at the opening of the following week and for that reason in New Haven on this occasion.

During their stay here matinees will be given on Wednesday, Thursday, Friday and Saturday for ladies only, thus giving the fair sex a chance to question Mrs. Fay without being embarrassed by the presence of the sterner sex. The evening performances are for the general public.

Poli's New Theater.

The bill at Poli's new theater this week is again attracting large audiences for its distinctly a merit bill of sale vaudeville. The feature being Fate's London comedy company, a series of instructive and comical lessons on the mishaps to an auto on a tour. The comedy is cleverly arranged and the supporting olio makes a most pleasing entertainment. The special feature is Watson, Hutchings and Edwards in their sketch "The Vaudeville Exchange." The rest of the talent makes a pleasing entertainment. Reserved seats at the matinees are 20c and at the evening show are 30c.

Bijou Theater.

The Bijou Stock company at the Bijou theater has made a big hit, with a presentation of Bertha Galland's excellent comedy "Dorothy Vernon of Haddon Hall." Manager Poli has selected a clever list of legit stars to present the standard plays at his new theater and they have made good in their initial performances. Miss Shipman has become the favorite and the daily matinees afford excellent opportunity to the ladies to see popular standard plays at popular prices. The admission to the ladies at the daily matinee is but ten cents.

BETHANY FARMERS AROUSED.

Tiny Yellow Dog Creates a Lot of Excitement. Early Monday morning the farmers in the neighborhood of Bethany were raised to excitement over the discovery of S. G. Davidson upon going to feed the chickens in the hen house of his son, Tyler Davidson, that morning. He found that something had terribly torn and killed twenty-four of the hens. Later Mr. Young, a neighbor, reported that he had met with a loss of eight. Likewise Henry Beecher had lost eight hens and a turkey. The farmers were notified by Tyler Davidson's telephone line to be on the watch for the animal doing so much damage. It later developed that Mr. Noble's premises had been also visited by the animal. On going to his coop, upon hearing a strange noise, he discovered and killed the culprit, which proved to be a small yellow dog. It was pitchforked.

Owing to a town ordinance the losers may be recouped because of the fund in the town treasury which happens there from the taxation on dogs. Claims for the poultry destroyed by the dog will probably be presented.

Owing to the possibility that the dog may have been mad the farmers did not market the poultry. The dog is dead and now peace and quietness reign in the valley.

AT CHURCH OF THE ASCENSION.

At Church of the Ascension morning prayer and Thanksgiving address by the Rev. Robert Bell at 10:30 a. m.

Two of Yale's prominent football coaches, G. Foster Sanford, of this city, and Ralph J. Bloomer, the Yale regular line coach all the past fall, have gone to West Point for two or three days to try to get into shape the military cadets for the Army-Navy game of next Saturday. Sanford will try to bolster up the defense of the cadets, while Bloomer will look after the general play of the tackles.

BOARD OF FINANCE

Declines to Name Its Public Depository. The regular meeting of the board of finance for this week was held last evening in place of the regular meeting night, which is Thursday. There was little business for the board to transact. Mr. Frederick moved that the communication from the Mechanics' bank asking that it be designated as a depository for the public funds be taken up and that the bank's request be so designated be granted. On a ye and nay vote this was defeated 4 to 3, and the request refused.

The board of charities and correction sent in a communication regarding the plumbing at Springdale home stating that it was very defective and unsanitary and representing that it would be possible, it was believed, to improve conditions by the expenditure of \$2,000. The communication was tabled.

The sum of \$109.47 was transferred from the parks and trees account to the repairing of other streets account.
